# Sample 4 year Degree Plan

## Geography, Environmental Geography Emphasis (comprehensive), B.S.

The following is a hypothetical schedule for a Bachelor of Science degree for a Geography, Environmental Geography Emphasis comprehensive major. It is based on the 2012-2013 Catalog. It assumes no transferred credits, no requirements waived by placement tests, and no courses taken in the summer. The Geography and Anthropology Department cannot guarantee that all courses will be offered as shown, but it will provide a range of courses that will enable prepared students to fulfill their requirements in a four-year period.

### First Year

*Must select five courses from three of the following areas: Physical Geography, Regional Geography, Human Geography, Geography Techniques, and Human-Environmental Geography. Your adviser must approve these course selections.
**The Environmental Geography Emphasis requires that 12 credits of environmental courses from other disciplines be completed (must be selected with consent of adviser).
***Geography Electives can be any Geography courses which complement the required courses to total 60 credits as required by the comprehensive major.
