Sample 4 year Degree Plan

Business Finance, BBA

The following is a hypothetical schedule for a BBA degree for a finance major. It is based on the 2012-2013 Catalog. It assumes no transferred credits, no requirements waived by placement tests, and no courses taken in the summer. The Department of Accounting and Finance cannot guarantee that all courses will be offered as shown, but it will provide a range of courses that will enable prepared students to fulfill their requirements in a four-year period.

Please note that accounting majors usually complete the 120 credit degree plus additional credits to reach 150 total credits, a CPA exam requirement. The plan below only shows completion of the 120 credit degree. Students should consult an advisor about whether they should plan to finish credits needed to qualify for the CPA exam.
