the University of Wisconsin-Eau Claire

Transfer of Credit from Minneapolis Community and Technical College A.S. in Chemistry to University of Wisconsin-Eau Claire Core Coursework for Comprehensive Chemistry Major (ACS; Code 100-106), Chemistry Liberal Arts Major (Code 100-201), Chemistry Teaching (Code 100-204) and Chemistry Minors, Comprehensive Biochemistry/Molecular Biology (Code 090-001), and Comprehensive Chemistry with Business Emphasis (Code 111-001).

Statement of Purpose:

This agreement has been entered into by Minneapolis Community and Technical College (MCTC) and the University of Wisconsin-Eau Claire (UWEC). The purpose of this agreement is to facilitate credit transfer and provide a smooth transition from MCTC's Chemistry Associate in Science degree and UWEC's programs listed above.

Terms and Conditions of Credit Transfer:

University of Wisconsin-Eau Claire will accept a minimum of 60 credits from MCTC's Chemistry Associate in Science degree. The evaluation and transfer of earned college credits shall be in full compliance with MnSCU policies, the University of Wisconsin System and all other State and Federal education policies pertaining to undergraduate credit transfer. Current students and graduates who have earned a Chemistry Associate in Science degree from MCTC shall be eligible for credit evaluation under the terms of this agreement. Program specific requirements and/or required courses are listed and defined in Appendix A of this agreement.

Transfer students will be accorded the same standards and criteria for admission to a major degree sequence as UWEC students. Chemistry Associate in Science degree transfer students who have completed the Minnesota Transfer Curriculum are exempt from additional lower division general education courses unless the degree requires program specific lower division general education courses. Transfer students from MCTC must have successfully completed ENGL 1110 and ENGL 1111 (with a minimum grade of C in ENGL 1111) to meet the UWEC English Competency requirement. MCTC students who have completed only ENGL 1110 (with a minimum grade of C) will take ENGL 112 at UWEC to fulfill the requirement.

Applicants must fulfill the graduation requirements of the granting institution as identified in Appendix A.

Articulation Implementation and Agreement Review:

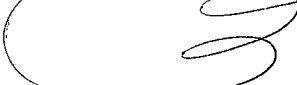

The chief academic officer or designee of the collaborating institutions shall be responsible for implementing this agreement, for identifying and incorporating any changes into subsequent agreements and for conducting a periodic review of the agreement.

The agreement becomes effective for fall 2011 admission and remains in effect until terminated or amended by either party with prior written notice. Written notice must be provided one academic year prior to termination. This Articulation Agreement will be reviewed by both parties beginning on or after the spring 2011 term.

Students seeking A.S. Degree in Chemistry at MCTC must complete coursework in 6 of the 10 goal areas of Minnesota Transfer Curriculum (MnTC). Within the general education coursework, students must complete a minimum of 3 credits in MnTC goal area 1, and a minimum of 3 credits from MnTC goal areas 7, 8, 9, or 10.

The required program credits and required Physics and Math courses (Option-1 or Option-2) fall within MnTC goal areas 01 (ENGL or SPCH), 02, (all courses), 03 (BIOT, CHEM, PHYS), 04 (MATH and PHYS) The remaining **elective/general education credits** must be selected to fulfill the other MnTC goal area requirements. If choosing option-1 for physics and math, then choose 4 credits of general education from goal area other than 01, 03, or 04. If choosing option-2 for physics and math, choose total of 12 credits from general education and special electives.

The following are the recommended electives for MCTC's A.S. in Chemistry program. However, for transfer to UWEC for specific majors/tracks, it is recommended that students select general education requirements that will satisfy UWEC's general education category area requirements or complete them after transfer to UWEC. Students should work with their advisors when selecting these courses. See <http://www.uwec.edu/registrar/catalogues/index.htm>.
