1. Are you interested in going on in Math at the college level?  
   ➔ Then you should take Math 109.

2. Are you interested in Special Education or Middle Childhood/Early Adolescence (Elementary Education)?  
   ➔ Then you must take Math 203 once you are declared.

3. Are you interested in a Business major?  
   ➔ You should take Math 109 (unless you already have credit for MATH 111, 112, 113, or 114). Math 246 is also required, but will be taken later.

4. Are you interested in Nursing?  
   ➔ Nursing requires Math 246, but you will take it later.

5. Are you interested in Athletic Training, Kinesiology-Human Performance or Physical Education?  
   ➔ Then you will take Math 246 (not usually in your first semester)  
   ➔ If you are following a pre-professional track that requires more math, you should take Math 109.

6. Are you interested in Social Work?  
   ➔ You will take Math 246, usually during your second semester.

7. Are you interested in a science, computer science, math, or engineering?  
   ➔ Then you should take Math 109 leading to Math 113 (and beyond).

8. For students whose major falls within the College of Arts and Sciences: Are you interested in completing the foreign culture or study abroad option rather than the foreign language option and would therefore consider the Bachelor of Science? Then you should take Math 109 and then either Math 111, or 113 and 114.

If none of the above situations apply to you, then you can consider the following:  
Math 104 (Finite Mathematics)  
Math 106 (Introduction to Mathematical Thinking)  
Math 107 (Mathematics in Latin American Cultures)  
Math 108 (Earth Algebra)—NOTE: If you change your mind and want to go on in math, you can do so from this course. Students who take Math 108 can take Math 112 or, if they get a B or higher, they can take Math 111.
