

Career Poll

Begin to explore careers others can “see” you in.

Directions:

1. Ask four people (can be anyone who knows you-friends, family, significant others, roommate, hairstylist, etc.) to suggest careers they think you might like and/or be interested in pursuing.
2. Get at least 5 career suggestions from each person.
3. For each suggestion ask the person why they suggested that particular occupation.
4. Write your initial reaction to each suggestion. Are you surprised? Why or why not? Are you already considering it or something similar? Is it something you would like to learn more about? If you don't like it, why? Etc.

Individual #1
