Operations Emphasis

OBJECTIVES:

Students completing the Operations Emphasis within the comprehensive Management Major:

Will be able to demonstrate an understanding of Demand Management Concepts.
Will be able to demonstrate an understanding of Sales and Operations Planning Concepts.
Will be able to solve problems related to Master Scheduling of Operations
Will be able to solve problems related to Distribution Planning
Will be able to apply lean system concepts in an applied process improvement project.

MEASUREMENT:

The first four objectives are measured through separated sections of the APICS certification exam.

Objective five is measured through evaluation of students’ performance in an applied process improvement project.
