Learning Objectives from the Department of Nursing

DNP Student Learning Outcomes

Graduates of the DNP program will be able to:

- Expand advanced nursing practice by integrating the art and science of nursing with theory and knowledge from biophysical, psychosocial, political, ethical, technical, analytical, cultural, spiritual, environmental, and organizational realms.
- Promote culturally sensitive, holistic advanced nursing practice care and services in a global community, with emphasis on disease/illness prevention and health/wellness promotion as well as restoration and maintenance.
- Synthesize leadership skills, systems analysis, and advocacy expertise.
- Integrate clinical expertise and competence with population-focused management, evidence-based practice, and health care policy.
- Analyze health–related information systems and technology for the improvement of health care.
- Develop, implement and evaluate evidence-based approaches to advanced nursing practice.
- Evaluate the outcomes of advanced nursing practice.
- Apply clinical scholarship and leadership skills to advanced nursing practice.
- Evaluate personal scholarship, professional growth, and excellence in practice.
