**My Course**

In what ways is inclusion and diversity already a part of my course?

What aspects of the course would I like to change?

**My Course Goals**

Describe ways you would most like your students to be different at the end of the course.

Imagine what a group of graduating seniors who have taken your course would say. If they thought it was among the best courses they had ever taken, what would they be saying about the course?

What do you want your students to know, to be able to do, to care about?

If applicable, how does my course support the general education goals of the university?

How can a focus on diversity and inclusive teaching help students reach these goals?
Action plan

1. Pick one goal. How will you know if students have achieved it?

2. How do the principles of inclusive teaching intersect with this goal?

3. What do the students bring to this goal? What does your own identity bring?

4. What content and teaching methods will help you best achieve this goal?

5. What are your biggest challenges?

6. What strengths of your own do you bring? What allies and resources can help you?

7. With whom will you share what you learned?
