We have had the pleasure of collaborating on three textbook series published by EMC Paradigm: Somos Así, ¡Aventura! and Navegando. Each series features a variety of instructional materials appropriate for use in middle school and high school Spanish classrooms (levels 1-3). Navegando 1: Grammar and Vocabulary Exercises includes concise grammatical explanations for review along with practice activities. These exercises serve to complement the innovative material found in both the Navegando student textbook and the Navegando Annotated Teacher’s Edition for which Paul was a contributing writer.
