The Blitzkrieg Legend is the twelfth game in the Operational Combat Series (OCS) and simulates ‘Case Yellow’, the German offensive in May of 1940 that shocked the world. This result is sometimes looked upon by gamers and historians alike as a foregone conclusion, but Manstein's daring strike through the Ardennes was a gamble that might easily have gone awry. Hindsight suggests the fighting could have gone much differently. OCS games simulate campaign-level combat from 1900 to the mid-1950s. The series goal is to allow a sophisticated study of historical events while maintaining mechanical simplicity.
