

## **Guidelines for Judges Student Research Day Posters**

### **Content:**

There is a clear question or purpose

Question or purpose is placed in the context of disciplinary knowledge/perspective

Appropriate process, method, approach was used

Conclusions/results are supported/explained

New knowledge/perspective/understanding was generated, with reflection on how it fits into its disciplinary context

### **Clarity/Understanding:**

Poster is readable and appropriately presents the project

Student discusses the work with fluency, indicating full involvement in the project

### **Style:**

Poster has a professional, polished look

(Judges develop their own format for judging appropriate to their disciplinary area.)
