

Distance Education Courses

"Distance education" refers to any course in which the instructor is at a physical distance from the students over half the time. The course may be delivered via computer (online), audio-conferencing, two-way video, or other means. Online course registration must be completed three weeks before the start of the course. See course listing for exact date. All students enrolled in an online course must abide by the drop, withdraw deadlines for the term whether or not they have logged on to the course.

The courses listed below are those that are available through UW-Eau Claire. Some are taught by UWEC instructors and are being sent to a variety of locations; some are taught by instructors from other institutions via technology. Be sure to note the "Held at: (location)" to the left following course listings.

The courses may originate here or from another institution, but you register in any of them as a UW-Eau Claire student, and they will automatically be part of your UW-Eau Claire transcript.

Additional fees may be assessed on some courses to cover distance education costs. Please review your e-mailed billing statement.

Collaborative Nursing (CND )

Internet-based Collaborative Nursing Courses:

Our online/web courses require home access to the Internet and multimedia. This means a computer capable of displaying color and playing sound. More specifically, it means a computer with enough system memory (32 megabytes RAM or more), and a processor fast enough to play movie files. In addition, the hard drive needs to be large enough to save these files if need be. A modem is an essential component if you are taking these courses from home. A further description of computer requirements can be found at
