Distance Education Courses

"Distance education" refers to any course in which the instructor is at a physical distance from the students over half the time. The course may be delivered via computer (online), audio-conferencing, two-way video, or other means. Online course registration must be completed three weeks before the start of the course. See course listing for exact date. All students enrolled in an online course must abide by the drop, withdraw deadlines for the term whether or not they have logged on to the course.

The courses listed below are those that are available through UW-Eau Claire. Some are taught by UWECC instructors and are being sent to a variety of locations; some are taught by instructors from other institutions via technology. Be sure to note the "Held at: (location)" to the left following course listings.

The courses may originate here or from another institution, but you register in any of them as a UW-Eau Claire student, and they will automatically be part of your UW-Eau Claire transcript.

Additional fees may be assessed on some courses to cover distance education costs. Please review your e-mailed billing statement.

**AMERICAN CURRENCY**
This course examines the important (and often surprising) role of the dollar in the U.S. economy. After addressing the question "Why is there money?" which turns out to be a tough question to answer we study the evolution of money in the U.S. from colonial days (when commodities were also used as money) through the free-banking era (when currency was issued by banks, not the government) to the present (when we're not sure exactly what money is). The course includes heavy doses of elementary economic theory, U.S. economic history, and political theory, all of which will be explained along the way.

**POLIT IDEA IN LIT**
This course will introduce students to certain basic political ideas through an intensive study of their presentation in some classic works of political philosophy and literature. The course will focus on two broad sets of issues. The first involves an assessment of the merits of the rival claims of philosophy and literary art to governance in political life. The second involves a wide-ranging consideration of the primary themes of political philosophy, the quest for knowledge of the best way of life and constitution order, as treated in various classic works of philosophy and literature.

**NARRATIVE IMAGTN**
What does it mean to imagine "narratively"? Across cultures and over time, humans have shared their conception of the world by means of stories: by the use of observation and imagination. Readers also engage imaginatively when they connect with a narrative—a story or novel, a play or a film. This engagement allows us to consider the lives of people whose situations may be similar or very different from our own, and creates a space for understanding life more deeply. It also plays a part in public discourse, for the questions that we
contemplate through stories lie at the heart of human existence. During the semester, students and professor will read, reflect on, discuss, and write (informally and formally) about four novels: Michael Dorris's A Yellow Raft in Blue Water, Barbara Kingsolver's Animal Dreams, Julia Alvarez's In the Time of the Butterflies and Margaret Atwood's The Handmaid's Tale.

SCHOOL OF EDUCATION
Directed studies, independent studies, and other individualized courses are available in most departments. Contact the department office for information.

COLLEGE OF ARTS & SCIENCES
Directed studies, independent studies, and other individualized courses are available in most departments. Contact the department office for information.

COLLEGE OF BUSINESS
All students planning to register for 300/400 level courses in the College of Business must meet the College of Business admissions requirements by the end of the current semester. Students who have not been admitted to the College of Business, non-business majors and College of Business minors who do not meet the admission requirements at the end of the current semester will be automatically dropped from any 300/400 numbered business course(s). These students will be notified by the Registrar's Office and should see their faculty adviser prior to re-entering the registration process. Requests for exemptions other than those printed in the Class Schedule should be directed to the College of Business Associate Dean's Office, Schneider 117A, (715)836-5473.

Directed studies, independent studies, and other individualized courses are available in most departments. Contact the department office for information.

COLLEGE OF EDUCATION & HUMAN SCIENCES
Independent studies, internships and other individualized experiences are available in most departments. Contact the department office for information.

COLLEGE OF NURSING & HEALTH SCIENCES
Independent studies, internships and other individualized experiences are available in most departments. Contact the department office for information.

Only students admitted into the College of Nursing may register for: 200-700 level Nursing courses except ADTN 265; FMHN 211, 212, 213; NSYS 377, 389; which are open to all majors.

Registration for graduate Nursing courses requires a graduate adviser signature.

Accounting (ACCT)

For all ACCT courses:
See note at the beginning of the College of Business section regarding registration for 300/400 level courses in the College of Business. Exceptions to this policy in the ACCT/FIN dept. for students who meet other prerequisites are: ACCT 301, 302 for accounting majors and minors. A minimum of 60 credits is required for ACCT 312, 314, 315, and 317.

For all ACCT and FIN courses: Students who fail to attend the first class meeting of any course within the Department of Accounting and Finance without previously notifying the instructor or the Accounting and Finance dept. office, may be dropped from the course at the Chair's discretion so the vacancy may be filled by another student.

Do not register for a section of a class unless it will fit into your schedule, because it is almost impossible to switch sections during the drop/add period due to classes being filled to capacity.

Business Administration (BSAD)

See note at the beginning of the College of Business section regarding registration for 300/400 level courses in the College of Business. Exceptions to this policy in the Management and Marketing department for students who meet other prerequisites are: BSAD 300 and 305.

For all Management and Marketing courses: Students who fail to attend the first class meeting of any course within the Department of Management and Marketing without previously notifying the instructor or the Management and Marketing dept. office may be dropped from the course at the Chair’s discretion so the vacancy may be filled by another student.

Do not register for a section of a class unless it will fit into your schedule, because it is almost impossible to switch sections during the drop/add period due to classes being filled to capacity.

Chemistry (CHEM)

Students who fail to attend the first class meeting (lecture or lab) of any chemistry course without previously notifying the instructor or the Chemistry department (836–3417) may be dropped from the course so the seat may be filled by another student.

Approved eye protection (goggles) is required at the first meeting of all chemistry laboratory courses. Goggles can be purchased at the University Bookstore.

Important notice! Failure to check out of lab drawer will be $25 plus replacement costs. Lab manual $10 refund will be given if lab is dropped before classes begin; no refund after classes begin.

Collaborative Nursing (CND)

Internet-based Collaborative Nursing Courses:
Our online/web courses require home access to the Internet and multimedia. This means a computer capable of displaying color and playing sound. More specifically, it means a computer with enough system memory (32 megabytes RAM or more), and a processor fast enough to play movie files. In addition, the hard drive needs to be large enough to save these files if need be. A modem is an essential component if you are taking these courses from home. A further description of computer requirements can be found at http://ext6.uwex.edu/cnp/cnp.html

Kinesiology (KINS)

For all Kinesiology courses:
Students who fail to attend the first class meeting of any Kinesiology course without previously notifying the instructor or the Kinesiology department office will be dropped from the course to allow other students a seat in the class. No wait lists for activity courses and KINS 196.

While it is possible to register for open second-half KINS courses up until the first day of class, you are urged to register for these courses at your registration appointment time.

KINS 108 Intercollegiate Athletics
A student may earn one credit towards a Bachelor's degree for participation in varsity athletics. This credit will satisfy the University physical activity requirement.

Students who wish to enroll in this course should not pre-register. Students will only be registered once they earn a position on a varsity athletic team. Grading will be done on a satisfactory/unsatisfactory basis at the conclusion of one season of competition.

Mathematics (MATH)

For all Mathematics students:
Students who fail to attend the first class meeting of any mathematics course without previously notifying the instructor or the Mathematics department office (836-3301) may be dropped from the course so the vacancy may be filled by another student desiring the course.

If MATH 010 is taken for a letter grade, the grade counts in the computation of GPA.

INTO HELP SKILLS
This one credit course has a helping skills focus. It provides both conceptual introduction and practice in the use of microskills in interviewing and helping relationships. The course focuses on introducing skills within the context of the Ivey Microskills Hierarchy and requires the text Essentials of Intentional Interviewing: Counseling in a Multicultural World (Ivey & Ivey, 2007). Class members will be expected to obtain a cognitive understanding of the impact of specific microskills and to demonstrate these skills in role play exercises.
