Information for students with serious or chronic medical conditions
Welcome to Student Health Service! We’re here to help!

Healthy bodies and minds enhance the educational experience. Student Health Service is here to assist UW-Eau Claire students in this endeavor. Funded primarily by the student segregated fee, we provide quality health care at low costs. Student Health Service functions as a well-equipped primary care outpatient medical facility that handles most day to day common medical complaints.

For parents:

The Student Health Service would like to extend an invitation to you to help prepare your student for college success. If your child has a chronic or ongoing medical condition, we may be able to offer you assistance to help facilitate or coordinate specialty medical care. College success and school performance are directly related to health and wellness.

Serious or chronic medical conditions such as: cancer, organ transplants, leukemia, depression or anxiety, valvular heart disease, heart disease needing implantable pacemakers or defibrillators, eating disorders, diabetes, inflammatory bowel disease, or any similar serious or ongoing medical condition(s) can significantly influence your student’s experience here at the University of WI-Eau Claire. Making sure that they have proper preparation for medical care while at college is vitally important.

In order to facilitate your student’s transition to UWEC, SHS would like you to obtain and submit the following information to the Student Health Service to have on file prior to your student starting school.

- Health summary letter with diagnosis, health history and treatment from the primary or specialty care physicians or clinics.
- Current treatment plan for the student, with medications, expected follow up and goals of care.
- List of specialty care contacts, phone, email and address. Copy for student and SHS.
- Copy of current insurance coverage.
- List of providers/clinics that insurance will cover in the Eau Claire area.
- Suggestion from current health providers for specialty care options in the Eau Claire area.
- A SHS appointment early in the semester of enrollment is encouraged.
