Overview

This course provides a capstone experience in Special Education where graduating students organize and synthesize information from previous coursework within the context of intensive field experience. The seminar provides a forum for students to apply their knowledge and critical thinking skills, to make connections between their placements and current research, and formulate their role within the parameters of collaborative leadership.

Course Objectives

1. Apply knowledge and critical thinking skills to solve instructional and behavioral problems. (WTS 1, 4, 5, 7, 9 and CL)
2. Examine the role of a collaborative leader with respect to engaging in professional communication, to exploring challenges in the role of consultant, and to managing relationships with school personnel (such as, paraprofessionals, school psychologists, other teachers) (WTS 6, 9, 10, and CL)
3. Use current research to make informed decisions about classroom practice and educational reform movements (such as, RtI, co-teaching practices). (WTS 1 and 9)
4. Demonstrate professionalism at the management level through activities that focus on entry into field (Gate 3 presentation, mock interviews, PDP). (WTS 1, 6, 9 and CL)

CL = Activities that support the development of Collaborative Leadership skills

UWEC Liberal Education Learning Goals:

For each goal, several artifacts have been listed that may be used for your portfolio.

Knowledge of Human Culture and the Natural World: will demonstrate a depth of knowledge about human culture and/or the natural world. (Reflection, Problem Solving)

Creative and Critical Thinking: will develop creative thinking skills that include creative expression and/or creative approaches to problem solving. (PDP, Reflection, Problem Solving)

Effective Communication: will write, read, speak, and listen effectively in various contexts including applications to civic and discipline specific contexts. (Presentation, Problem Solving, chapter discussion)

Individual and Social Responsibility: will develop skills and values for ethical reasoning and life-long learning and will connect their knowledge and skills to social and civic contexts. Presentation, Problem Solving, chapter discussion)

Respect for Diversity among People: will develop skills and knowledge for living in a culturally pluralistic and globally interdependent world. (Behavior Plan, Abstracts, Observation Activity)

Definition of Collaborative Leadership

Collaborative leadership is the intentional and skillful management of relationships that enables others to succeed individually while accomplishing a collective outcome.

Collaborative leaders ably facilitate the involvement of two or more people in a group working toward a shared outcome in a manner that reflects collective ownership, authorship, use, or responsibility.

Collaboration is not the outcome or goal. Collaborations are processes that, when successful, align people's actions to accomplish a goal or solve a problem.

Collaborative leaders possess knowledge, skills, and dispositions that enable them to carry out leaderful actions such as optimizing assets, seeking new solutions, sustaining focus, promoting trust, or setting and monitoring goals and progress.
