IDEA:
Have an idea for a sustainability project?

CONTACT:
Contact the SOS to set up a meeting to discuss the idea for feedback and general information from the student leadership of the SOS. Identify if collaboration is possible.

DISCUSSION:
Bring your idea to the SOS board meeting to see if there is interest in funding the project.

PROPOSAL:
Work with an SOS intern to write a proposal. This includes providing supporting information, a plan on implementation, and a budget.

APPROVAL:
Give a presentation of your proposal to the board. The board votes on funding your project.

**SENATE:** If your project budget is larger than $6,000, you will need to seek Senate approval for your project. This will require an additional presentation following a vote of approval by the SOS board.
