University of Wisconsin – Eau Claire
University Liberal Education Committee
Monday, March 31, 2014
Council Oak 260, Davies Center

Guests: M. Cassidy, J. Fager, L. Kieffer, J. Pratt, J. Prushiek

Presiding: M. Goulet, Chair
Convened: 2:05 PM

Meeting Minutes

1. Approval of minutes of March 24, 2014
   ▪ Motion to approve, seconded, approved as distributed

2. Consideration of Course Proposals/Revisions for LE Designation
   ▪ Motion to approve both PHYS 100-Physical Science, 4 crs, and PHYS 115-Survey of Astronomy, 3 crs, for K1, seconded, approved unanimously

3. Integrative Learning Outcome Discussion
   ▪ Discussion surrounding integration ensued
     - Some committee members feel ULEC should postpone discussing, approving any courses requesting an IL designation until the framework has been determined
     - Other comments include: integrative learning cannot be met with one course; don’t see integration as separate, everything goes together; a feeling that some members want to revise framework but it’s not ULEC’s job, our job is to look at courses and the rubrics
   ▪ The majority of members were in favor of considering courses requesting an IL designation, colleagues will be told to continue to submit them

4. Miscellaneous business
   ▪ M. Johnson would like an upcoming meeting to include a discussion on the responsibility outcome
   ▪ Prior to next week’s meeting, please review the following course proposals and let M. Goulet know by Friday if you have any questions/concerns you would like addressed (BIOL 180, BIOL 196, ENGL 221, HIST 114, HIST 115, HIST 284, PHYS 226, PSYC 100)

Adjourned at: 2:55 PM
