Information Systems Audit and Control Minor
Proposal to rename to Audit and Control Minor
Support Material

1. Relevant Section of College of Business Curriculum Committee Agenda

College of Business Curriculum Committee agenda for the meeting held on Monday, October 24, 2011, at 12:00 p.m. in SSS 203A. Agenda items are as follows:

1. Discussion and vote on the following proposals from the Department of Accounting and Finance:
   a. Changes to the IS Audit and Control minor as follows:
      1) Rename minor:
         i. From: IS Audit and Control
         ii. To: Audit and Control
      2) Change the requirements from
         From: Twenty seven semester credits including
               Acct 301, 313, 430, 435;
               One elective from Acct 302, 314, 420;
               IS 314, 344 and either IS 365 or 375;
               One elective from IS 384, 411, 450, 455
         To: Twenty seven semester credits including
               Acct 301, 302, 313, 430;
               Either Acct 420 or Acct 435;
               IS 304, 310 and either IS 290 or IS 344;
               Either CS 145 or CS 163
      3) Keep all 3 existing notes for this minor and add note 4:
         Note 4: It is recommended that students complete IS 304 prior to taking
               either CS 145 or CS 163 programming course.

Rationale: Accounting students can choose electives (420, 430, 435) in accounting to complement the minor. The minor will still accomplish its main goal, which is to provide basic background in technical aspects of areas related to the field of computer auditing such as basic computer programming. We are removing courses in IS that 2 years of experience have shown are unsuitable for our students.

This is the current catalog copy for the IS Audit and Control minor.

MINOR: INFORMATION SYSTEMS AUDIT AND CONTROL
(Code 720-404)
Twenty-seven semester credits including: Acct 301, 313, 430, 435, plus
one Acct elective (choose from Acct 302, 314, 420); IS 314, 344, either
365 or 375, plus one IS elective (choose from IS 384, 411, 450, 455). This
minor is designed for students interested in becoming information
systems auditors.
NOTE 1: A 2.00 or higher GPA in courses counting toward a minor is required.
NOTE 2: Students selecting this minor must satisfy the College of Business admission requirements prior to enrollment in 300/400-numbered courses in the College of Business.

NOTE 3: Students must earn 12 credits unique to this minor.
