Present: Jason Mathwig, Steve Fink, Katie Ritland-Clouse, Lauren Likkel, Rick Gonzales, Sasha Showsh

- Minutes from our most recent meeting, in November, were approved.
- A report was given from the Putnam Park Committee, highlighting possible plans to shift the park entrance and to reconfigure the parking options for people visiting the park.
- A report was given from the Education Building Committee. The committee is currently providing feedback to the design team’s plans. The plan is for bidding on the building to occur very soon and for construction to begin shortly after graduation.
- We discussed Garfield Avenue redevelopment planning. The redevelopment is contingent on availability of money, and state funding will be available only if we can demonstrate a need to repair infrastructure. The architects have presented 3 plans and are now working on 2 preliminary alternatives. Because so many factors are involved in the project (footbridge traffic, access to the Ecumenical Religious Center, access for service and emergency vehicles, etc.), campus-wide comments regarding the 2 alternatives will be solicited this semester. The new Davies Center must be completed first, and so the earliest the project would begin is summer 2013.
- Lauren will inform us about the date of our next meeting.
