REPORT FOR THE UNIVERSITY SENATE

University Senate Committee: Academic Policies Committee

Brief History of Issue—why the issue is being considered:

The language regarding registration in cross-listed courses was part of the original policy due to the Legacy system. In Legacy, in order to be processed as a repeat, the student had to register for the same curricular area both times. However, CampS recognizes cross-listed course for what they truly are – two course listings identifying the same course. Because CampS now recognizes cross-listed courses in this way, students are also prevented from “double-enrolling” in the same class in the same term, making the first sentence of the paragraph unnecessary. For these reasons, the deleted section of the policy is no longer required.

Points Discussed by Committee:
1. CampS has more power than Legacy in this instance.
2. CampS recognizes a course as cross-listed regardless of whichever course the student enrolls.

Pros of Recommendation:
1. Cleans up the catalog by removing unnecessary text.

Cons of Recommendation: None

Technology/Human Resource Impact: None

Committee Recommendation:

Delete the second paragraph under the heading “CROSS-LISTED COURSES” as published on page 48 of the 2013-2104 Undergraduate Catalog.
MOTION FOR THE UNIVERSITY SENATE

The Academic Policies Committee,

by a vote of ___8___ for to ___0___ against on March 25, 2014

recommends that the second paragraph under the heading “CROSS-LISTED COURSES” as published on page 48 of the 2013-2104 Undergraduate Catalog be deleted.

Original text:

CROSS-LISTED COURSES

Courses are cross-listed when the curriculum is interdisciplinary in nature and the course is offered through multiple departments. That is, two course listings identify the same courses. The listings will have identical numbers—only the course prefix varies.

Students may not register for both cross-listed courses in the same term. Students must register for the same curricular area both times if/when repeating a course for grade replacement (e.g., if the course was originally taken as POLS 351, it must be repeated as POLS 351 for the grade to automatically replace the original grade).

Some certifications, licensures, and programs may require a specific number of credits from certain curricular disciplines. Therefore, students should review program constraints before enrolling for cross-listed courses.

Revised text:

CROSS-LISTED COURSES

Courses are cross-listed when the curriculum is interdisciplinary in nature and the course is offered through multiple departments. That is, two course listings identify the same courses. The listings will have identical numbers—only the course prefix varies.

Some certifications, licensures, and programs may require a specific number of credits from certain curricular disciplines. Therefore, students should review program constraints before enrolling for cross-listed courses.

Implementation Date: 2015-2016 Catalog
