College of Business Curriculum Committee agenda for the meeting scheduled for Monday September 15, 2014, at 12:00 p.m. in SSS 203A.

Present: Gaber, Hofacker, Hostager, Miller, Ogden, Paese, Stearns, Swanson, Vaughan
Absent: Zhang (sick)

1. Minutes from April 21, 2014 were approved as distributed.
2. Christian Paese noted that Student Senate is working on appointing a second student representative to the CCC.
3. Motion to add CJ 407 as elective in IS Business Analysis emphasis and IS Systems Development emphasis. Approved 8-0.
4. Motion to add Mktg 434 as an elective for the general Marketing major, Sales emphasis, and Marketing minor. Approved 8-0.
5. Motion to add Mgmt 371 as an elective for the Business Administration major. Remove Mgmt 271. Approved 8-0
6. Motion to change the name of the Operations/Materials Management emphasis of the Management major to Operations and Supply Chain Management emphasis. 
   **Rationale:** The existing name is outdated, and does not reflect current managerial thought or the current curriculum. Our curricular offerings and course content have adapted over time. This change simply brings the name of the emphasis in line with the current design. Approved 8-0.
7. Other business
   a. Miller inquired as to the process to change course equivalencies for transfer courses. Courses may be designated Reject, Defer, Consult, or be assigned an equivalency. The equivalency is determined by the department chair based on analysis of the course content.
   b. Vaughan noted a number of students attempting to navigate College of Business laptop-required courses with Mac rather than MS Windows software and operating system. While various COB advising materials specify a Windows environment in the college laptop requirement, the course catalog does not specify the Windows operating system. Discussion ensued regarding the degree to which Mac systems can or should be supported.

8. Adjournment

*This was determined subsequent to the committee meeting.*
