Creating your Classes in iClicker

1. Once inside your “iClicker Win v6.4.2” folder, select the iClicker.exe icon.

2. Select New to add a new course.

3. Enter course information and click Create. (Do this for each of your classes, separately).
Add your course information.

Your course information should be specific enough so that your students can use it to identify your course.

Course Name: The Ethics Behind the Construction of Meatloaf
Course Number: 150
Section Number: 001
