105 Garfield Avenue • P.O. Box 4004 • Eau Claire, WI 54702-4004

The *2000-2001 Report on Publications and Other Scholarly Achievements* includes publications, creative achievements, extramural grants, faculty-student collaborations, undergraduate and graduate student independent and directed studies, and research papers. We celebrate the breadth and depth of the scholarship on our campus, and we also recognize the wonderful and unique opportunities our students have to engage in collaborative work with our outstanding faculty and academic staff and with each other. Many of these projects have been made possible with funding from the University of Wisconsin-Eau Claire Foundation, Inc.

The products of scholarly and creative activity form a tangible means through which the university contributes to society and demonstrates the fulfillment of its commitment to excellence in education. Projects represented in this report enhance what is taught and learned in the classroom and confirm for the UW-Eau Claire community, the community at large, and for prospective students the university's dedication to the academic and intellectual development of its faculty, academic staff, and students.

Updates on scholarly activity can also be found in the Office of Research and Sponsored Programs' publication *Cornerstone: Research News and Notes*, which is published once each spring and fall semester and the *University Bulletin*, published weekly by the university's News Bureau.

Donald Mash  
Chancellor

# TABLE OF CONTENTS

# P R E F A C E

---

Institutions of higher learning engage in research and creative activities as integral parts of their educational functions. It is through such activities that our knowledge is increased and achievements are made to further the well-being of the general public. The articles, books, published research reports, major recitals or other significant refereed creative achievements, research papers, extramural grants, and faculty/student collaborations produced by the faculty, academic staff, and students serve as indicators of the contributions that the University of Wisconsin-Eau Claire is making to the expansion of knowledge and the arts. UWEC is pleased to acknowledge these achievements of its faculty, academic staff, and students.

*The 2000-2001 Report on Publications and Other Scholarly Achievements* represents, of course, only a small fraction of the total efforts of our faculty, academic staff, and students in research and creative activities. Some of our efforts do not lead to information that can be disseminated in an externally published form. However, the level of effort recorded in this *Report* is one measure of the achievements of UWEC.

Of the activities catalogued in this *Report*, eight reasonably distinct categories can be identified:

1. publications which expand disciplinary frontiers of knowledge;
2. publications which transcend disciplinary boundaries by relationships with other disciplines;
3. publications which provide practical applications for research-generated knowledge;
4. publications which synthesize or reiterate research findings for newly identified audiences;
5. published creative works;
6. significant refereed activities which transmit a cultural/artistic heritage and/or expand or deepen the audience's horizons;
7. extramural grants which provide funding for research and sponsored programs;
8. faculty/student collaborations which enrich the scholarly experience for all involved and result in a tangible product such as a paper, a poster, a presentation, a non-print media form, a musical composition, or a new chemical compound.

A university is a collection of diverse groups of individuals representing numerous areas of expertise. It is through such diversity and interaction of disciplines that UWEC gains its strength. This *Report* illustrates such diversity and interactions of our institution. Examples of the scholarly works cited in this *Report* can be found on display in a special case located on the west side of the entry corridor of McIntyre Library.

# EXPLANATIONS, NOTES, AND COMMENTS

---

**Distribution of the 2000-2001 *Report on Publications and Other Scholarly Achievements*.** All faculty and academic staff receive a copy of the *Report*. A small stock of extra copies has been printed so that interested individuals may receive extra copies by calling 715/836-3405. Suggestions and comments for improving the *Report* should be sent to Assistant Vice Chancellor Christopher Lind.

**Inclusions and Exclusions.** Faculty and academic staff members with joint appointments have been listed under the single unit they selected as their primary appointment for purposes of this *Report*. The departmental affiliation of faculty, academic staff, and students is also noted. The index includes only those faculty and academic staff who were employees of UWEC and students enrolled between May 2000 and April 2001. Students whose abstracts were accepted by the Office of Research and Sponsored Programs for inclusion in the Ninth Annual UWEC Student Research Day on April 23, 2001 are also included in the *Report*. In addition to publications and creative achievements during the 2000-01 academic year, this *Report* includes items bearing publication dates from May 1999 to April 2000 that were inadvertently omitted from the last report or actually published in 2001 (with an earlier date on the cover due to a journal being backlogged). The next issue will cover the period of May 2001 to April 2002. Every attempt has been made to be complete and accurate within the ground rules established for the *Report*. Members of the Editorial Advisory Board screened all entries as to their appropriateness for inclusion.

**Acknowledgments.** The Editorial Board appreciates the hard work and cooperation of those who assisted with this publication. Faculty and staff members who carefully and promptly completed their submission materials provided momentum, and administrative offices' submissions and speedy transmittal of the materials further aided the work.

## ACADEMIC AFFAIRS-ADMINISTRATIVE
