UNIVERSITY of WISCONSIN - EAU CLAIRE
Farm Crossing: The Amazing Adventures of Addie and Zachary, Jack Bushnell, English (pg. 26)

Sacajawea’s People: The Lemhi Shoshones and the Salmon River Country, John W. W. Mann, History (pg. 39)

A Nation of Statesmen: The Political Culture of the Stockbridge-Munsee Mohicans, 1815-1972, James W. Oberly, History (pg. 39)

United Nations Disarmament Processes in Intra-State Conflict, Stephen M. Hill, Political Science (pg. 53)

Wordsworth in American Literary Culture, Joel Pace, English (pg. 27)

Punk Productions: Unfinished Business, Stacy Thompson, English (pg. 28)

Learning with Computers, Jack Hoggatt, Business Communication (pg. 16)
The 2004–2005 Report on Publications and Other Scholarly Achievements includes publications, creative achievements, extramural grants, faculty-student collaborations, undergraduate and graduate student independent and directed studies, and research papers. We celebrate the breadth and depth of the scholarship on our campus, and we also recognize the wonderful and unique opportunities our students have to engage in collaborative work with our outstanding faculty and academic staff and with each other. Many of these projects have been made possible with funding from the University of Wisconsin-Eau Claire Foundation, Inc.

The products of scholarly and creative activity form a tangible means through which the University contributes to society and demonstrates the fulfillment of its commitment to excellence in education. Projects represented in this report enhance what is taught and learned in the classroom and confirm for the UW-Eau Claire community, the community at large, and for prospective students the University’s dedication to the academic and intellectual development of its faculty, academic staff, and students.

Updates on scholarly activity can also be found in the University Bulletin, published weekly by the University’s News Bureau.

Vicki Lord Larson
Interim Chancellor

Institutions of higher learning engage in research and creative activities as integral parts of their educational functions. It is through such activities that we increase our knowledge and make achievements to further the well-being of the general public. The articles, books, published research reports, major recitals or other significant refereed creative achievements, research papers, extramural grants, and faculty/student collaborations produced by the faculty, academic staff, and students indicate the contributions that the University of Wisconsin-Eau Claire makes to the expansion of knowledge and the arts. UW-Eau Claire is pleased to acknowledge these achievements of its faculty, academic staff, and students.

The 2004-2005 Report on Publications and Other Scholarly Achievements represents, of course, only a small fraction of the total efforts of our faculty, academic staff, and students in research and creative activities. Some of our efforts do not lead to information that can be disseminated in an externally published form. However, the level of effort recorded in this Report is one measure of the achievements of UW-Eau Claire.

Of the activities catalogued in this Report, eight reasonably distinct categories can be identified:

1. Publications that expand disciplinary frontiers of knowledge;
2. Publications that transcend disciplinary boundaries by relationships with other disciplines;
3. Publications that provide practical applications for research-generated knowledge;
4. Publications that synthesize or reiterate research findings for newly identified audiences;
5. Published creative works;
6. Significant refereed activities that transmit a cultural/artistic heritage and/or expand or deepen the audience’s horizons;
7. Extramural grants that provide funding for research and sponsored programs;
8. Faculty/student collaborations that enrich the scholarly experience for all involved and result in a tangible product such as a paper, a poster, a presentation, a non-print media form, a musical composition, or a new chemical compound.

A university is a collection of diverse groups of individuals representing numerous areas of expertise. It is through such diversity and interaction of disciplines that UW-Eau Claire gains its strength. This Report illustrates such diversity and interactions of our institution. Examples of the scholarly works cited in this Report can be found on display in a special case located on the west side of the entry corridor of McIntyre Library.
Distribution of the 2004-2005 Report on Publications and Other Scholarly Achievements. All faculty and academic staff may view an electronic copy of the Report at www.uwec/ORSP/publications.htm. A small number of extra copies has been printed and may be requested by calling 715/836-3405. Suggestions and comments for improving the Report should be sent to Interim Assistant Vice Chancellor Karen Havholm.

Inclusions and Exclusions. Faculty and academic staff members with joint appointments have been listed under the single unit they selected as their primary appointment for purposes of this Report. The departmental affiliation of faculty, academic staff, and students is also noted. The index includes only those faculty and academic staff who were employees of UW-Eau Claire and students enrolled between May 2004 and April 2005. Students whose abstracts were accepted by the Office of Research and Sponsored Programs for inclusion in the Thirteenth Annual UW-Eau Claire Student Research Day on April 25-26, 2005 are also included in the Report. In addition to publications and creative achievements during the 2004-05 academic year, this Report includes items bearing publication dates from May 2003 to April 2004 that were inadvertently omitted from the last report or actually published in 2005 (with an earlier date on the cover due to a journal being backlogged). The Report’s next issue will cover the period of May 2005 to April 2006. Every attempt has been made to be complete and accurate within the ground rules established for the Report. Members of the Editorial Advisory Board screened all entries as to their appropriateness for inclusion.

Acknowledgments. The Editorial Board appreciates the hard work and cooperation of those who assisted with this publication: faculty and staff members who carefully and promptly completed their submission materials and Betty Feia in the Office of Research and Sponsored Programs who critically proofread the Report and further aided the work.
