  - CS 388 UNIX Systems Programming

### Min. 11 credits must come from 300-400-level courses

### Min. 4 Department prefixes

1 These courses may count as electives if taken a second time with a different topic.
2 You may need to fill out a course petition form with your advisor to count this course as an elective.
3 FREN 325 Phonetics & Pronunciation, GERM 325 The German Sound System, or SPAN 325 Phonetics & Pronunciation may replace CSD 262

## Advising Tips

- No course counted for a major may be counted toward the credits in the minor. A course requirement for the minor will be waived if that course has been taken as part of a major program; however, another course must be taken to make up the credits in the minor.
- If you intend to graduate in four years, you need to take a minimum of 15 credits every semester.
- **Try to take courses from all areas of your degree each semester**—(1) University/General Education (GE), (2) major, and (3) minor. Do NOT work to finish all your GE courses first. Get started right away on courses for your major and your minor.
