

## Geography, Transnational Geography Emphasis, B.A., Comprehensive Major

The following is a hypothetical schedule, based on the 2018-2019 catalog. It assumes no transferred credits, no requirements waived by placement tests, and no courses taken in the summer. UW-Eau Claire cannot guarantee all courses will be offered as shown, but will provide a range of courses that will enable prepared students to fulfill their requirements in a timely period. This is just a guide. Please consult your advisor, the catalog, and your degree audit for specific requirements.

<b>TOTAL CREDITS</b>					<b>TOTAL CREDITS</b>

<sup>a</sup> Geography majors must take 5 courses from any 3 of the 5 advanced geography approaches. See catalog.

<sup>b</sup> In addition to the requirements for the geography liberal education degree, students in the Transnational emphasis must take three classes from the following two categories, and at least one from each: Category I Approach and Perspective and Category II Thematic Content. See catalog for details.

<sup>c</sup> Electives need to be carefully selected to ensure that a student’s degree comprises at least 39 credits of upper division courses (300-400 level). While students are encouraged to take additional courses in geography, electives can be selected from any discipline as long as the student meets the course prerequisites. Required Geography courses plus Geography electives (and transnational electives from other departments) must equal at least 60 credits.

<sup>d</sup> While a single course can meet more than one LE Core outcome, credits cannot be double counted. Therefore, in the summary above, if a course appears a second time, it has zero credits that can be applied to the total number of LE credits. A minimum of 36 credits of LE coursework must be completed by graduation.

- GEOG 200 is recommended prior to enrollment in GEOG 335 and 370.
- GEOG 335 is a prerequisite for GEOG 370.
- GEOG 328 is now GEOG 370.
- Five courses are to be selected with consent of advisor from three of the five Advanced Geography Approaches (Physical Geography, Human Geography, Human-Environmental Geography, Regional Geography, and Geography Techniques).
- One year before graduation, Geography majors must complete a form to certify their selected courses from the Advanced Geography Approaches. They must complete this form a second time one semester before graduation.
- Students must take 12 credits from transnational courses from other disciplines. See catalog for specific details.
- Required Geography courses plus Geography electives (and transnational electives) must equal at least 60 credits; at least one elective should be an upper level international Regional Geography or regional anthropology course.
- Two semesters of foreign language must be completed by credit or examination, or six credits earned during an approved study abroad.
- Students must take courses to satisfy the Liberal Education Core Requirements:
