

Business Communication

Clear communication in the professional world is a big deal. And we aren't the only ones who think so. Many employers rank oral and written communication as top skills they look for in job applicants -- even ranking them more important than technical or job-specific skills. That is why we are here to help you become the best communicator you can be. The Advanced Business Communication certificate program is designed to prepare you with a strong foundation in business writing and presenting, along with the experience to participate in interviews, team projects, and other business interactions.
