• Government agencies

double major and who are proficient in multiple languages. We prepare students for success through a curriculum that includes a strong liberal education core and a broad background of courses in all the areas of business. We also help students develop communication, teamwork and problem solving skills, which are highly valued by organizations seeking business graduates. The International Business major is an interdisciplinary program. The major includes an international experience, such as the completion of an approved business course at a study abroad site or the completion of an international internship in the United States or abroad. International Business students are strongly encouraged to consider a double major in a functional business area such as management, marketing, information systems, accounting or finance.

Why UW-Eau Claire

Accreditation
Our academic programs are among the best. We are accredited by AACSB International, a mark of excellence achieved by less than 5% of all business schools worldwide.

Scholarships

Hands-On Experience
You will learn by doing. We encourage students to participate in learning experiences outside the classroom. UW-Eau Claire international business majors can study business and economics in more than 20 programs in 15 countries on 4 continents. The College of Business also hosts two, faculty-led international immersion experiences in China and India. Many Eau Claire students have also participated in global internships arrangement through AIESEC.

Get Involved / Student Orgs

Our students are engaged. You will have the opportunity to participate in internships, international study, competitions, service projects and other high impact educational experiences that will enhance your self-confidence while allowing you to

“I was active in ECLIPSE, an AmeriCorps program that focuses on early childhood literacy. I also studied abroad in Australia and had an internship in Argentina through AIESEC, where I was a member of the executive board.”
— Crisbel | International Business
