### Animal Shenanigans: Twenty-four Creative, Interactive Story Programs for Preschoolers

*American Library Association*

Featuring our four-legged, no-legged, winged, scaled and feathered friends, *Animal Shenanigans: Twenty-four Creative, Interactive Story Programs for Preschoolers*, is a new series of story program lesson plans that will help librarians and teachers unleash kids' curiosity and learning. Using a combination of high-quality picture books, fingerplays, movement activities, songs and games, these ready-to-use, mix-and-match lesson plans focus on universal themes such as family, friendship, and school—but with animal protagonists.
