   ▪ Motion was made to approve and advance to stakeholders the K3 subcommittee’s recommendations. Motion was seconded and passed (one against).
     · Discussion: Group asked to explain what was combined; high enrollment courses, confusion between C and D—they are nearly duplicative; concern that combining is making a more precise measurement less precise; suggestion to perhaps drop interpret and evaluate (subsumed in analyze) unless that range of terms is useful to people using the rubric
5. **K4 Subcommittee Review and Recommendations**

     · Discussion: Changes explained—adding “or” to “and” in Element A.
