## ADVISING TIPS

- Courses that count in this certificate may not be applied to student's major.
- **Try to take courses from all areas of your degree each semester**—(1) University/Liberal Education (LE), (2) major, and (3) minor/certificate. Do NOT work to finish all your LE courses first. Get started right away on courses for your major and your minor.
- Students may not pursue the Interdisciplinary Linguistics Certificate as their second program with an English Linguistics Major or a Spanish Linguistics Major for the purposes of graduation.
