Campus Academic Director, UW Collaborative Online Associate of Arts and Sciences
Degree Program

Re: Request for Approval of UW Collaborative Online Associate of Arts and Sciences
Degree and Course Prefix

In conjunction with UW Extended Campus, UW—Eau Claire is one of seven UW campuses developing a Collaborative Online Associate of Arts and Sciences (A.A.S) degree (see attached proposal and degree requirements). The seven campuses are working collaboratively to design the curriculum and the courses will be offered online by faculty at each of the participating campuses. Each participating campus must seek approval of the UW Collaborative Online A.A.S. degree. I also request that **UWX** be approved as a new prefix for the courses in this degree program. Note that the UWX prefix means UW Collaborative Online A.A.S. Degree.
