To: **Rename:** Special Education, Unified Special Education K-12 & Elementary/Middle, Comprehensive Major

Rationale: The change of the program name aligns with the inclusive philosophy of the department and contemporary practices in PK-12 schools where all children are educated in neighborhood schools and where the learning needs of all children are addressed within regular education environments and supported through special education services. The Department believes that the proposed name of the program is informative and allows prospective students and majors to understand that as program completers, they will be prepared to teach all children, regardless of ability,

disability, or first language, in inclusive, co-teaching, and specialized educational settings grades K-9 and in special and/or inclusive education content classes K-12.
