RE: Senate Action Concerning: COVID-19 and Service-Learning Waiver Extension

DATE of Senate Action: March 12, 2020

FROM: \_\_\_\_\_  
(Signed) University Senate Chair

**TEXT OF MOTION:**

A modification to our Service-Learning requirement given the circumstances caused by Covid-19. The modification consists of two parts:

1. **If a student completes (passes) a course in Summer 2020 that includes an embedded service learning project, the student also receives credit for completing the service learning hours, regardless of whether they were able to complete the full number of service hours originally required in the course.**
  
2. **For a student who is completing a traditional (non-course-based) service-learning project in Summer 2020, the university would waive the service-learning graduation requirement if the student is graduating in summer 2020.**

Implementation Date: Immediate
