**To:** Eliminate

**Rationale:** Effective August 1, 2018, The Wisconsin Department of Public Instruction (DPI) changed the rules for teacher licensure. The revised rules changed the specific subject licenses (biology, chemistry, geology, physics, physical science) in science to a broad license in science that should include all subject areas. In other words, we will be preparing education students to teach ALL subject areas within a comprehensive science teaching major. Therefore, specific subject area licenses are no longer needed.
