"Wheels to Heels:
A Positive Purpose"

Everyone has an opportunity to be a hero on campus to students. We are here for them and might make an impact without even knowing it. Jean Abbott shares her journey of misdiagnosis and how her sense of purpose along with a positive attitude enabled her to survive three decades of unnecessary medical treatments.

She will provide practical ideas for training your brain to think more positively, turning a negative attitude into gratitude, overcoming feeling devalued at work, and how to discover your support systems for those times you can’t do it alone.
