The 2020 presidential election will certainly go down in history as a defining moment for America. Held in the midst of global pandemic, COVID19 dominated the campaign and heightened an already polarized electorate. The Atlas of the 2020 Elections explains this election through a series of unique maps and explanations from experts across disciplines. This atlas has over one hundred full-color maps and covers a comprehensive examination of the election process from the primary campaigns, nominating conventions, to the fall campaign and finals results at the national, state, and local levels.
