PROPOSAL TO CLOSE STUDY ABROAD PROGRAM
with SEMESTER at SEA, COLORADO STATE UNIVERSITY
(INTA 424)

RATIONALE: The Semester at Sea program was added in Fall 2012. In the five years pre-pandemic, we only had 4 students participate and none applied for Spring 2022. This is likely due to the cost (estimated at $31,337/semester in 2021, with an additional $4500 for optional trips offered when the ship is in port.)

Given the low participation and high cost, we propose to close the program and remove the above course numbers from the catalog.
