Hello Educators!

We have been hearing from a lot of you that you are excited about Canvas; we are too! We are still waiting for dates of integrations like CampS, Kaltura, various publishers, and iClickers, so we do not know yet how many of you will be able to start in the fall.

We anticipate you will get access to Canvas and we will start hosting learning sessions by finals week. I will send another update in the beginning of May.

Until then, we have someone in LTS who can help now with the first step of exporting courses from D2L into Canvas. If you have a **course(s) that you would like exported in its current state**, please complete the [Course Export Form](#). If you are still making changes to your course(s), submit the form later. **Submit one form per course to be exported.** We will begin the process now, but will close the forms when we have access to your courses in May.

You will be able to get help from Transition Technicians to clean up your courses starting in the summer.

---

Please complete the [Course Request Form](#) if you'd like to **merge two or more sections** of your **Summer or Fall D2L courses**. We are going to be very busy this fall and would be very thankful if you could submit your requests now.

When we get to Canvas, educators will be able to combine their own courses!

---

As always, please let me know if you have any questions and have a wonderful weekend!

*Tiffany*
