- Understand foundational biological principles in the areas of cell/molecular biology, genetics, and structure & function of organisms.
- Demonstrate the ability to read critically, reason analytically, and communicate persuasively around health and scientific topics from a humanities and humanistic social science perspective.

Responsible Mining, Certificate

(Code 160-602)

Advisor: K. Syverson (Geology and Environmental Science).

The Department of Geology and Environmental Science administers a **Responsible Mining certificate**. This certificate is intended for STEM majors who wish to add valuable skills to their already marketable liberal arts degree

from UW-Eau Claire. Students with this certificate will be well prepared for a career in responsible resource development through proper selection and permitting of economic deposits, managing environmental compliance, conducting environmental remediation, and working for environmental and hydrogeologic consulting firms. Students would also be prepared to join state regulatory agencies such as the DNR and protect the environment through enforcing regulations, restoring brownfields, and managing water resources.

Code	Title	Credits
18 credits required		18
Environmental Policy and Geology core (7 crs):		
ENV/GEOG 377	U.S. Environmental and Sustainability Policy	3
GEOL 365	Economic Mineral Deposits	3
GEOL 452	Responsible Mining Seminar	1
Quantitative Core (choose one):		4
MATH 246	Elementary Statistics	
MATH 345	Introduction to Probability and Mathematical Statistics	
Environmental Courses (choose one):		4
BIOL 338	Vegetation Ecology	
GEOL 416	Hydrogeology II	
Communication Skills (3 crs):		
CJ 203	Fundamentals of Human Communication	3
An internship in mining, environmental consulting, or a regulatory agency is strongly recommended, but not required.		

Note: Students cannot pursue the Geology major and the Responsible Mining certificate to meet graduation requirements for completing a first and second degree program.

Program Learning Outcomes

Students completing this program will be expected to meet the following learning outcomes:

- Explain Earth processes.
- Use mathematics and computational methods to analyze scientific and geological data.
- Read, write, and critically evaluate geological papers.
- Construct an internally consistent geological map utilizing field data, topographic maps, geological maps, air photos, geographic information systems (GIS) data, and geological cross sections.
- Use analytical and quantitative methods to evaluate an environmental problem.

Teaching English as a Foreign Language, Certificate

(Code 550-601)

Advisor: K. Kong (Languages).

The **Teaching English as a Foreign Language (TEFL) Certificate** provides course work designed to provide the basics for future EFL teachers including a required teaching experience by taking FLG 375.

Code	Title	Credits
Required courses (minimum of 13 credits)		
ENGL 221	Introductory English Linguistics	3
SLHS 262	Phonetics: Theory and Application	3
FLG 378	Second Language Acquisition Theory	3
ES 405	Teaching English to Speakers of Other Languages	3
FLG 375	Internship Experience (or fulfill the requirement via an approved alternative credit-based experience)	1

Note 1: Courses cannot be counted in both the major and the certificate program.
Note 2: Students must complete all other courses before starting FLG 375 and meet the program advisor to discuss internship plan before registration.

Program Learning Outcomes

Students completing this program will be expected to meet the following learning outcomes:

- Apply knowledge of language acquisition, linguistics, student learning, and pedagogical theory to instructional design.
- Plan, implement and reflect on teaching practices using appropriate resources.
- Engage learners in interactive activities through various differentiated teaching approaches.

Topical Minor, Minor

Liberal Arts (Code 610-401)

A Topical Minor is an interdisciplinary minor composed of 24 semester credits selected by a student to meet the student's own interests and scholarly objectives. Students should choose courses for the minor based on a coherent theme. Most students who propose a topical minor do so after earning 30 credits but before earning 90 credits. Students must meet all prerequisite coursework requirements and other prior eligibility benchmarks, such as achieving an appropriate grade point average. In the case of courses offered in one of the professional colleges, students must meet college admission requirements or students must obtain permission from the College before enrollment is possible. A Topical Minor is not intended to duplicate any major or minor offered as a regular program within the Universities of Wisconsin.

The student who wishes to develop a Topical Minor must adhere to the following requirements.

- **Minimum credits:** 24 semester credits.
- **Interdisciplinary Breadth Requirement:** Of the 24 credits, there must be at least two course prefixes present among these credits and no more than 15 credits from any single prefix.
- **Unique Credit Requirement 1:** A student may not apply a course that counts toward credits in their major to the Topical Minor.
- **Unique Credit Requirement 2:** No more than six credits from a student's major prefix may be used in the Topical Minor.
- **Depth Requirement:** At least 12 of the 24 credits must be from courses numbered 300 or above.
- **College Home:** For a Topical Minor to reside in the College of Arts and Sciences, prefixes from at least 15 of the 24 credits must be from the College of Arts and Sciences.
- **Submission Requirement:** To propose a Topical Minor, a student should work with a faculty advisor and then launch a proposal to be routed

through the advisor, and then to the College of Arts and Sciences for approval.

Transnational Asian Studies, Certificate

(Code 380-630)

Advisor: R. Shinno (History).

The **Transnational Asian Studies Certificate** allows students to broadly explore Asia and the Asian diaspora and to gain knowledge of the experiences of people of Asian ancestry.

Code	Title	Credits
Minimum of 15 credits from at least three course prefixes selected from the following list, of which at least two courses must be at the 300-400 level:		15
CJ 319	International Communication	
HIST 152	Modern East and Southeast Asia	
HIST 212	Hmong and America	
HIST 316	Studies in Asian/Pacific World History	
HIST 384	The Vietnam War	
HIST 388	History of China	
HIST 389	History of Japan	
HMNG 130	Hmong American Experiences in the U.S.	
HMNG 391	Special Topics in Critical Hmong Studies	
PHIL 234	Classical Chinese Philosophy	
POLS 324	Politics of Asia	
POLS 329	Political Violence	
RELS 312	Buddhism: Past and Present	
RELS 314	Hinduism	
RELS 323	Chinese and Japanese Religions	
SOC 312	Race and Ethnicity in the U.S.	
SOC 317	Sociology of Food and Agriculture	
SOC 366	Society in Contemporary China	
Up to 4 credits of a course(s) on the first Asian language:		
CHIN 101	Beginning Chinese	
CHIN 102	Beginning Chinese	
CHIN 201	Intermediate Chinese	
CHIN 202	Intermediate Chinese	
HMNG 101	Beginning Hmong I	
HMNG 102	Beginning Hmong II	
JAPN 101	Beginning Japanese I	
JAPN 102	Beginning Japanese II	
JAPN 201	Intermediate Japanese I	
JAPN 202	Intermediate Japanese II	
Up to 4 credits of a course(s) on the second Asian language, listed above. The first and the second Asian languages should be two different languages.		
Up to 3 credits from travel abroad courses:		
INTB 361	International Experience in India	
INTB 362	International Experience in China	

Note 1: With approval of the certificate advisor, courses such as the following may be applied to this certificate program when a substantial portion of the course covers topics on the lives of Asians, Asian Americans, and/or people of Asian ancestry outside of the U.S.: ENGL 230, ENGL 268, ENGL 330, ENGL 368, ENGL 396 /WGSS 396, FLG 150, FLTR 392, HIST 317, HIST 319, RELS 100, SOC 301, Honors courses, Special Topics courses.

Note 2: A maximum of three credits may be applied to both the student's major and the certificate program.

Note 3: Courses on Asian languages other than Chinese, Hmong, or Japanese may count toward the certificate, with approval of the certificate advisor.

Note 4: With approval of the certificate advisor, courses taken during a study abroad program(s) may apply to this certificate. Students are encouraged to communicate with the certificate advisor prior to the departure.

Program Learning Outcomes

Students completing this program will be expected to meet the following learning outcome:

- Develop a depth of knowledge about the experiences of the people of Asian ancestry.

Water Resources, Certificate

(Code 160-601)

Advisor: S. Vitale (Geology and Environmental Science).

The Department of Geology and Environmental Science administers a **Water Resources certificate**. This certificate is intended for students who plan to enroll in a Master's degree program in Water Resource Management, students interested in careers in environmental policy or environmental law, and any STEM and Geography majors interested in broadening their understanding of water-related topics. Holistic water resources management integrates insights from a wide range of disciplines. The flexibility of this certificate allows individuals to tailor their course selection to focus on the aspects of water resources that are most relevant to each student's specific interests.

Code	Title	Credits
Minimum of 15 credits required:		15
Core (9-10 crs):		
ENV/GEOG 377	U.S. Environmental and Sustainability Policy	3
GEOL 308	Water Resources	3
One course selected from:		3-4
CHEM 304	Environmental Chemistry	
BIOL 376	Aquatic Ecology	
GEOG 363	Watershed Analysis	
GEOG 364	Fluvial Processes and Landforms	
GEOL 315	Hydrogeology I	
Beyond the core 9-10 credits, students must take two courses from the following broad array of water-related courses.		6-8
Courses, if not used above, may be selected from:		
BIOL 338	Vegetation Ecology	
BIOL 376	Aquatic Ecology *	
CHEM 304	Environmental Chemistry *	
ECON 268	Environmental Economics	
ENPH 441	Water and Wastewater	

GEOG 335	Geographic Information Systems I
GEOG 340	Climatology
GEOG 363	Watershed Analysis *
GEOG 364	Fluvial Processes and Landforms *
GEOL 304	Global Environmental Change
GEOL 315	Hydrogeology I *
PHIL 320	Environmental Ethics

*Course may be counted in either the core or elective category, but not both.

Note 1: Students cannot pursue the Geology major and the Water Resources certificate to meet graduation requirements for completing a first and second degree program.

Note 2: Students pursuing the Biology major or Geography major and the Water Resources certificate to meet graduation requirements for completing a first and second degree program must earn a minimum of 48 unique credits between their major and this certificate program.

Program Learning Outcomes

Students completing this program will be expected to meet the following learning outcomes:

- Explain Earth processes.
- Use mathematics and computational methods to analyze scientific and geological data.
- Read, write, and critically evaluate geological papers.
- Construct an internally consistent geological map utilizing field data, topographic maps, geological maps, air photos, geographic information systems (GIS) data, and geological cross sections.
- Use analytical and quantitative methods to evaluate an environmental problem.

World History and Society: Past, Present, Future, Certificate

(Code 380-629)

For advising, contact the History Department.

This certificate will provide a second program for students interested in world history and connected topics in other disciplines.

Code	Title	Credits
12 credits required, including:		
HIST 124	World History to 1500	3
HIST 125	World History Since 1500	3
Choose 2 from the following, at least one must have a prefix other than HIST:		6
HIST 292	Origins of Current World Conflicts	
POLS 122	Introduction to World Politics	
POLS 336	Arab-Israeli Conflict	
RELS 100	Introduction to the Religions of the World	
RELS/WGSS 203	Women and World Religions	

Note: Courses cannot be counted in both the major and the certificate program.

Program Learning Outcomes

Students completing this program will be expected to meet the following learning outcomes:

- Recognize both continuity and change over time and describe their consequences.
- Compare and connect local and global histories.

American Indian Studies

Hibbard Humanities Hall 384

715-836-6045

Program Website (<https://www.uwec.edu/academics/college-arts-sciences/departments-programs/american-indian-studies/>)

The American Indian Studies Program at the University of Wisconsin-Eau Claire is committed to the study of the cultures, values, history, and contemporary life of the Indigenous nations and peoples of North America. Through courses from selected academic departments and interactions with American Indian professionals, elders, and peers, all students will acquire intercultural knowledge and enhance their intercultural competence. The program administers a major, minor, and certificate in American Indian Studies with these goals:

- To prepare students with intercultural competencies which will support their success as citizens of the world.
- To extend students' oral and written communication skills through research projects in their course work and with student-faculty research collaborations.
- To envision education and community as a partnership in which all participants work toward greater understanding and respect for the richness and diversity of American Indian cultures.
- To build and support cooperative relationships with tribal communities within and around Wisconsin; other academic institutions, especially tribal colleges; and the local Eau Claire community.
- To teach students to be conversant with Indigenous protocols.
- To prepare students to work effectively in and around tribal and urban communities.
- To provide outreach and community service opportunities that will help promote the cultural, educational, and economic development of the region.

Faculty

Heather Ann Moody, Program Director

Brian McInnes

Majors

- Major: American Indian Studies, Liberal Arts - B.A./B.S.

Minors

- Minor: American Indian Studies, Liberal Arts

Certificates

- Certificate: American Indian Studies
- Certificate: Ojibwe Language and Culture

American Indian Studies, Certificate

(Code 530-601)

The American Indian Studies certificate is a stand-alone credential which can enhance all students' majors and minors. It is designed for students with an interest in American Indian Studies but are unable to complete a major or minor in American Indian Studies. The certificate is of particular value to health care professionals; educators; social workers; and business managers and administrators in tribal enterprises. In addition to personal growth in cultural competency, this certificate will provide students from all backgrounds with the fundamental knowledge and skills for various career paths that connect with Indigenous or diverse populations.

Code	Title	Credits
Eighteen semester credits, six credits must be 300-level or higher, including:		
AIS 101	Foundations in American Indian and Indigenous Studies	3
AIS 102	Introduction to American Indian Expressive Cultures	3
AIS 243	Introduction to Contemporary American Indian Communities	3
Remaining credits selected from:		
AIS 111	Studies in American Indian Languages I ¹	
AIS 112	Studies in American Indian Languages II ¹	
AIS 121	Beginning Ojibwe I ¹	
AIS 122	Beginning Ojibwe II ¹	
AIS 142	Introduction to American Indian Literatures	
AIS/ANTH 161	Introduction to Cultural Anthropology	
AIS/HIST 240	American Indian History	
AIS 242	The American Indian in Literature and Film	
AIS 244	American Indian Literature of Healing	
AIS 257	Tribal Nation Governments	
AIS/POLS 250	American Indian Politics	
AIS 260	Chippewa Reserved Treaty Rights	
AIS 291	Special Topics	
AIS/GEOG 322	Native Geographies	
AIS/ARTH 324	Indigenous North American Visual Cultures	
AIS/RELS 330	Indigenous Religions of the Americas	
AIS/ARTH 335	Ancient Art and Architecture of Mexico and Central America	
AIS/ARTH 337	Art of Tawantinsuyo	
AIS 343	Contemporary American Indian Communities	
AIS 345	American Indian Autobiography	
AIS 346	Major Works in American Indian Literature	
AIS/HIST 368	Studies in American Indian History	
AIS/HIST 369	Wisconsin Indian History	

AIS 395	Directed Studies
AIS 399	Independent Study
AIS 444	Indigenous Theory and Methodologies
AIS 480	Capstone
AIS 491	Special Topics
AIS 498	Internship
AIS 499	Independent Study

¹ A maximum of one language course can count to the certificate.

Note: A maximum of six credits may be applied to both the student's major and the certificate program.

Program Learning Outcomes

Students completing this program will be expected to meet the following learning outcomes:

- Define and apply the concept of tribal sovereignty in contemporary America; the ability to do so is particularly necessary where there are jurisdictional issues at hand such as within criminal justice as it is necessary to understand the differences between state, tribal, and federal jurisdiction.
- Explain the status of federally recognized tribes in relation to federal, state, and local governments, as well as private enterprise.
- Identify examples of stereotypes and issues of cultural appropriation/exploitation of Indigenous people.

American Indian Studies, Major

Liberal Arts (Code 530-201)

University Requirements

GRADUATION REQUIREMENTS FOR BACCALAUREATE DEGREE

Credit Requirements	
Minimum total for graduation ¹	120
Upper division credits (courses numbered 300 and higher)	39
Core General Education	10 courses, 36 credits

Academic Concentrations	
Grade Point Requirements ²	
Total	2.00 average
Resident	2.00 average
Major	2.00 average
Minor	2.00 average
Certificate	2.00 average

University Residency Requirements	
Minimum total	30
Senior year	23
Major, Standard, upper division in residence	12
Major, Comprehensive, upper division in residence	21
Certificate	25 percent of credits

Procedures Required for Graduation

Obtain admission to the degree program and/or the College offering it.

Apply for graduation on CampS.

¹ Certain programs exceed this minimum.

² See special requirements in each College.

Applicability of Credits Toward Graduation

Junior College or Two-Year College Credits. A maximum of 72 semester credits earned in a junior college or two-year college will be accepted as degree credits at UW-Eau Claire.

Extension Credits. Credits earned in credit outreach courses offered by UW-Eau Claire are treated as resident credits. Credits earned in extension courses offered by other units of the Universities of Wisconsin System are treated as transfer credits. All other (non-UW) extension and correspondence credits are normally limited to one-fourth of the total required for graduation from any curriculum.

WTCS Credits. A maximum of 72 semester credits earned in college parallel programs at Madison Area Technical College, Milwaukee Area Technical College, Nicolet Area Technical College, or Chippewa Valley Technical College may be accepted as degree credits at UW-Eau Claire. A set number of general education courses will be accepted from other technical schools. Occupational and technical courses may also be considered for transfer if the quality and content of the course work from the technical college is judged to be comparable to course work at UW-Eau Claire. Refer to the Transfer Credit Wizard (https://www.uwec.sis.wisconsin.edu/psp/eauprd-tb/EMPLOYEE/SA/c/EAU_SS_CUSTOM.EAU_TRNCRDWZ.GBL) or contact the UW-Eau Claire Admissions Office for information about the current transfer policy.

USAFI Credit. UW-Eau Claire will accept up to 32 semester credits for work done through the United States Armed Forces Institute, under the provision for non-UW correspondence credit (see Extension Credits above).

Activity Credit (band, chorus, drama, KINS 100-184 courses) Students may count toward graduation no more than one credit of KINS 110-184 courses. Students may count toward graduation no more than four credits earned in any single activity course and no more than 12 credits resulting from any combination of activity courses (excluding KINS 110-184 courses).

Other Restricted Credits. For other University restrictions, see the following: Cooperative Education; Credit by Examination; Satisfactory/Unsatisfactory Registration; Transfer of Credits. College or departmental restrictions may also be placed on Independent Study (399-499 courses), Directed Study (395-495), and other types of credits.

APPLICABILITY OF CREDITS TOWARD GRADUATION	
	Credit Restrictions
Satisfactory/Unsatisfactory	
Total degree credit	maximum 12
Major, Standard	maximum 1 course
Major, Comprehensive	maximum 2 courses
Minor	maximum 1 course
Credit by Examination	
Total degree credit	maximum ¼ of total

Major or minor maximum ½ of total

Two-Year College Credits	
Total degree credit	maximum 72 credits
Activity credit (band, chorus, drama, KINS 100-184)	
Total KINS 100-184	maximum 1 credit
Total Band, chorus, drama	maximum 12 credits
Single course band, chorus, drama	maximum 4 credits
Extension credits	
UW-System	no maximum
Other extension/correspondence	maximum ¼ of total
USAFI	
USAFI	maximum 32 credits

Core General Education Requirements (CGER)

CGER Categories

Mathematics & Quantitative Reasoning (MQR) (http://catalog.uwec.edu/undergraduate/outcome-mqr/)	4 credit hours, 1 course min
Includes University Math Requirement ¹	
Communication & Literacy (CL) (http://catalog.uwec.edu/undergraduate/outcome-cl/)	8 credit hours, 2 course min (including CL-W)
Includes University Writing Requirement (CL-W) (http://catalog.uwec.edu/undergraduate/outcome-clw/) ²	
Natural Sciences & Wellness (NSW/NSWL) (http://catalog.uwec.edu/undergraduate/outcome-NSW/)	6 credit hours, 1 course min (NSW-Lab required)
Social & Behavioral Sciences (SBS) (https://catalog.uwec.edu/undergraduate/outcome-sbs/)	6 credit hours, 2 course min
Humanities & Arts (HA) (http://catalog.uwec.edu/undergraduate/outcome-ha/)	6 credit hours, 2 course min
Civics & Perspectives (CP) (http://catalog.uwec.edu/undergraduate/outcome-cp/)	6 credit hours, 2 course min
CGER Totals ³	
Credits	minimum 36 credits
Courses	minimum 10 courses

¹ University Mathematics Requirement:

Students satisfy the University Mathematics Requirement in one of four ways:

- completing an approved university-level mathematics course (MQR) with a grade of C (not C-) or above
- achieving a suitable score on the UW Math Placement Test (<https://www.uwec.edu/academics/academic-support/advising/testing/placement-testing/>)
- achieving a suitable score on an exam such as the Advanced Placement Calculus or Advanced Placement Statistics exams

- achieving a suitable score on a Credit by Examination administered by the Department of Mathematics.

² **University Writing Requirement:**

- Students satisfy the University Writing Requirement in one of four ways:
- completing a Blugold Seminar in Critical Reading and Writing course (WRIT 102 (<https://catalog.uwec.edu/search/?P=WRIT%20102>), WRIT 114 (<https://catalog.uwec.edu/search/?P=WRIT%20114>), WRIT 116 (<https://catalog.uwec.edu/search/?P=WRIT%20116>), WRIT 118 (<https://catalog.uwec.edu/search/?P=WRIT%20118>), or WRIT 120 (<https://catalog.uwec.edu/search/?P=WRIT%20120>)) with a grade of C (not C-) or above
 - achieving a suitable score on the English Placement Test (<https://www.uwec.edu/academics/blugold-seminar/writ-courses-placement/>) (WPT ENGL)
 - achieving a suitable score on an exam such as the Advanced Placement English Literature and Composition or Advanced Placement English Language and Composition exams
 - achieving a suitable score on the University Writing Program Portfolio.

³ **Completion via Placement Tests**

- Writing: If the CL-W subcategory is satisfied through a placement test, the CGER Communication and Literacy requirement will be reduced from 8 credits (2 courses) to 3 credits (1 course).
- Mathematics: If the University Math Requirement is satisfied through a placement test, the CGER Mathematics & Quantitative Reasoning requirement will be considered fully met, replacing the 4-credit (1 course) requirement.
- Students must still complete 36 credits across 10 courses, with any remaining credits or courses eligible to be taken from any CGER category.

College Degree Requirements

Bachelor of Arts or Bachelor of Science Degree (B.A./B.S.)

University Graduation Requirements. All candidates for degrees must fulfill the requirements for credits, curriculum, GPA, and University residency as specified in the section of this catalog titled University Graduation Requirements.

College Graduation Requirements: Grade Point Averages. All candidates for degrees in the College of Arts and Sciences must earn minimum resident and total GPAs of 2.00 in the major, the minor, and the certificate. The resident and total GPAs for the major are computed using all attempted credits applicable to the major including those offered by departments other than the major department. The resident and total GPAs for the minor and the certificate are computed similarly.

Major-Minor and Major-Certificate Requirements. A standard major (a minimum of 36 credits) must be supplemented by a minor (a minimum of 24 credits) or by a certificate (12 to 18 credits) to meet graduation requirements for completing a first and second degree program. No minor or certificate is required with a Comprehensive Major (60 or more credits) or with two majors of 36 or more credits each.

Certain degree programs, which include Comprehensive Majors, may require more than the minimum of 120 credits for graduation.

Acceptable academic program combinations are determined at the college level. A major and a minor or a major and certificate or two majors (if available)

may not be elected in the same department or program, except in the approved combinations listed here.

College Credits. Earn at least 90 credits in courses offered by the College of Arts and Sciences.

Bachelor of Arts Degree in the College of Arts and Sciences (B.A.)

Fulfillment of all University Graduation Requirements (which includes the Core General Education Requirements); all College-level degree requirements (major and minor/certificate emphases, GPAs, earning at least 90 credits in Arts and Sciences course work); second language competency at the 102 level. Second language competency may be met in one of two ways: (1) Demonstrate a level of second language competency that qualifies the student to enter the 201-level course in a second language. (2) Earn a grade of at least C (not C-) or a mark of S in a 102-level second language course (or AIS 112 or AIS 122 or SLHS 103).

Bachelor of Science Degree in the College of Arts and Sciences (B.S.)

Fulfillment of all University Graduation Requirements (which includes the Core General Education Requirements); all College-level degree requirements (major and minor/certificate emphases, GPAs, earning at least 90 credits in Arts and Sciences course work); mathematics competency at the MATH 111, MATH 112 or MATH 113 level. Mathematics competency can be met in one of three ways: (1) Achieve a score on the mathematics placement test that qualifies the student to enter MATH 114. (2) Earn a grade of at least C (not C-) or a mark of S in MATH 111, MATH 112, or MATH 113. (3) Achieve a satisfactory score on the MATH 112 competency test. This test may be attempted no more than two times.

Major Requirements

Liberal Arts (Code 530-201)

This interdisciplinary major is designed to offer a range of courses to meet the career goals and needs of students:

1. who wish to enter a profession related to tribal affairs, tribal heritage centers, and business enterprises;
2. who have decided to pursue graduate study in Anthropology, History, Museum Studies, English, and Casino Management;
3. who are American Indian and seek to learn more about their culture and heritage; and
4. who are drawn to the major because of its broad interdisciplinary education.

In addition, the major, minor, and certificate in American Indian Studies are designed to complement degree programs in Nursing, Education, Business, Social Work, English, and History, among other areas.

Code	Title	Credits
Thirty-six semester credits in American Indian Studies courses, including:		
AIS 101	Foundations in American Indian and Indigenous Studies	3
AIS 102	Introduction to American Indian Expressive Cultures	3
AIS 243	Introduction to Contemporary American Indian Communities	3
AIS 444	Indigenous Theory and Methodologies	3
AIS 480	Capstone	3
Remaining credits selected from:		

AIS 111	Studies in American Indian Languages I ¹
or AIS 121	Beginning Ojibwe I
AIS 112	Studies in American Indian Languages II ¹
or AIS 122	Beginning Ojibwe II
AIS 142	Introduction to American Indian Literatures
AIS/ANTH 161	Introduction to Cultural Anthropology
AIS/HIST 240	American Indian History
AIS 242	The American Indian in Literature and Film
AIS 244	American Indian Literature of Healing
AIS/POLS 250	American Indian Politics
AIS 257	Tribal Nation Governments
AIS 260	Chippewa Reserved Treaty Rights
AIS 291	Special Topics
AIS/GEOG 322	Native Geographies
AIS/ARTH 324	Indigenous North American Visual Cultures
AIS/RELS 330	Indigenous Religions of the Americas
AIS/ARTH 335	Ancient Art and Architecture of Mexico and Central America
AIS/ARTH 337	Art of Tawantinsuyo
AIS 343	Contemporary American Indian Communities
AIS 345	American Indian Autobiography
AIS 346	Major Works in American Indian Literature
AIS/HIST 368	Studies in American Indian History
AIS/HIST 369	Wisconsin Indian History
AIS 395	Directed Studies
AIS 399	Independent Study
AIS 491	Special Topics
AIS 498	Internship
AIS 499	Independent Study

¹ A maximum of one language course can count to the major.

Note 1: Seminars and special topics courses dealing with American Indians can also be considered for credit and transfer credit as elective courses.

Note 2: Students pursuing the American Indian Studies major and the Community Education and Collaboration certificate to meet graduation requirements for completing a first and second degree program must earn a minimum of 48 unique credits between the major and the certificate.

Program Learning Outcomes

Students completing this program will be expected to meet the following learning outcomes:

- Demonstrate an understanding of the inherent diversity of U.S. American Indian nations and how that has transformed throughout time.
 - Students explain the importance of place and culture for American Indian peoples.

- Students analyze the impact of change throughout the history of American Indian peoples and communities.
- Students explain how music, literature, and/or art are products and expressions of cultural and historical processes.
- Explain the status of federally recognized tribes in relation to federal, state, and local government, as well as private enterprises.
 - Students explain the historical and political background of American Indian communities.
 - Students define and apply the concept of tribal sovereignty in contemporary America.
 - Students define and apply the concept of treaties, historically and contemporarily.
- Exhibit an understanding of the critical issues within American Indian Studies and gain an awareness of social justice issues within Indian Country.
 - Students describe examples of identity, colonialism, stereotypes, resistance, survivance, and/or issues of cultural appropriation/exploitation of Indigenous people.
 - Students analyze the impact of systems, institutions, and issues in historical and contemporary times.
 - Students apply the ability to interact respectfully with others and suspend judgment, understanding that judgments may be culturally biased and exclusive.
- Apply skills, knowledge, or methodologies gained in one academic or experiential context to a new context to solve problems or address complex issues with sufficient support.
 - Students develop the ability to work effectively in and around tribal and urban Native communities.
 - Students practice culturally sensitive dispositions as they engage with American Indians in the university community, as well as tribal and urban communities within and around Wisconsin.
 - Students develop research skills with a special emphasis on interdisciplinary studies.

American Indian Studies, Major, B.A.

The following is a sample degree plan, based on the current catalog. It is based on the 120-credit graduation requirement and assumes no transferred credits, no requirements waived by placement tests, no courses taken in the summer or winter, no repeated courses, and no remedial courses that may be required. This sample degree plan is intended for first-year students entering UW-Eau Claire in the fall semester. Your own degree plan may differ depending on the course of study selected (second major, minor, etc.). UW-Eau Claire cannot guarantee all courses will be offered as shown, but will provide a range of courses that may enable prepared students to fulfill their requirements in a timely period. This sample degree plan is just a guide. Please consult your advisor, your degree audit, and the catalog to create your own degree plan. *Note:* In order to earn the required minimum of 120 credits for the degree in four years, you should plan to take 15 credits each semester or 30 credits each year.

To earn a degree, students must fulfill all University Graduation Requirements, including the Core General Education Requirements (CGER). CGER course work in the following sample degree plan uses abbreviations such as CGER CL, CGER HA, and CGER NSWL to represent the learning outcomes students will meet via completion of the course. Please click here for a description of the outcomes and requirements.

Students in this major have the option to pursue either a Bachelor of Arts (B.A.) or a Bachelor of Science (B.S.) degree. The degrees are distinguished by

second language competency for the B.A. and a higher level of mathematics competency for the B.S.

Course Suggestions

We encourage students to take elective courses, for both CGER and AIS that complement their career path within the American Indian Studies major. Please work with your advisor to select the appropriate coursework.

Recommended AIS Courses based on emphasis: AIS 142 (HA - Literature), AIS 242 (HA - Film), AIS 322 (GEOG), AIS 335 (HA - ARTH), AIS 337 (HA - ARTH), AIS 346 (Literature), AIS 369 (HIST)

RECOMMENDATIONS FOR HIGH IMPACT PRACTICES (HIPs)

The University of Wisconsin-Eau Claire encourages all students to participate in High Impact Practices. The following information identifies any specific recommendations that faculty in this major have concerning which HIPs might be most beneficial to students, and any recommendations about when those HIPs best fit into the degree plan. Students should also consult their faculty advisor for information on HIPs. There are many additional high impact opportunities available. Talk to your academic advisor for more information about incorporating HIPs like Study Abroad, Intercultural Immersion, Internship, and/or Student/Faculty Collaborative Research into your time at UW-Eau Claire.

The American Indian Studies Program offers a variety of High Impact Practice possibilities for students. The variety allows for students to tailor their experience to their academic career and individual interests. Students are encouraged to work with their advisor on what HIP would be most beneficial. Due to the flexibility of the AIS major, students can fit a HIP into their program easily throughout the 2nd, 3rd, and 4th years, although internships and research experiences would be recommended in the 3rd and 4th years. The following is a list of HIPs that are available to AIS majors:

- Domestic Intercultural Immersion Experience (past immersion experiences include Pine Ridge Reservation and Water Protectors of Wisconsin)
- Course-Related Field Trips (previous trips include Ho-Chunk Nation, Menominee Tribal Enterprises, Prairie Island (MN), Oneida Nation)
- AIS 395 Directed Studies
- AIS 399 Independent Study
- AIS 499 Independent Study
- AIS 498 Internship
- Student-Faculty Collaborative Research/Summer Undergraduate Research Experience

American Indian Studies, Major, B.S.

The following is a sample degree plan, based on the current catalog. It is based on the 120-credit graduation requirement and assumes no transferred credits, no requirements waived by placement tests, no courses taken in the summer or winter, no repeated courses, and no remedial courses that may be required. This sample degree plan is intended for first-year students entering UW-Eau Claire in the fall semester. Your own degree plan may differ depending on the course of study selected (second major, minor, etc.). UW-Eau Claire cannot guarantee all courses will be offered as shown, but will provide a range of courses that may enable prepared students to fulfill their requirements in a timely period. This sample degree plan is just a guide. Please consult your advisor, your degree audit, and the catalog to create your own degree plan. *Note:* In order to earn the required minimum of 120 credits for the degree in four years, you should plan to take 15 credits each semester or 30 credits each year.

To earn a degree, students must fulfill all University Graduation Requirements, including the Core General Education Requirements (CGER). CGER course work in the following sample degree plan uses abbreviations such as CGER CL, CGER HA, and CGER NSWL to represent the learning outcomes students will meet via completion of the course. Please click here for a description of the outcomes and requirements.

Students in this major have the option to pursue either a Bachelor of Arts (B.A.) or a Bachelor of Science (B.S.) degree. The degrees are distinguished by second language competency for the B.A. and a higher level of mathematics competency for the B.S.

RECOMMENDATIONS FOR HIGH IMPACT PRACTICES (HIPs)

The University of Wisconsin-Eau Claire encourages all students to participate in High Impact Practices. The following information identifies any specific recommendations that faculty in this major have concerning which HIPs might be most beneficial to students, and any recommendations about when those HIPs best fit into the degree plan. Students should also consult their faculty advisor for information on HIPs. There are many

additional high impact opportunities available. Talk to your academic advisor for more information about incorporating HIPs like Study Abroad (<https://studyabroad.apps.uwec.edu/>), Intercultural Immersion, Internship, and/or Student/Faculty Collaborative Research into your time at UW-Eau Claire.

The American Indian Studies Program offers a variety of High Impact Practice possibilities for students. The variety allows for students to tailor their experience to their academic career and individual interests. Students are encouraged to work with their advisor on what HIP would be most beneficial. Due to the flexibility of the AIS major, students can fit a HIP into their program easily throughout the 2nd, 3rd, and 4th years, although internships and research experiences would be recommended in the 3rd and 4th years. The following is a list of HIPs that are available to AIS majors:

- Domestic Intercultural Immersion Experience (past immersion experiences include Pine Ridge Reservation and Water Protectors of Wisconsin)
- Course-Related Field Trips (previous trips include Ho-Chunk Nation, Menominee Tribal Enterprises, Prairie Island (MN), Oneida Nation)
- AIS 395 Directed Studies
- AIS 399 Independent Study
- AIS 499 Independent Study
- AIS 498 Internship
- Student-Faculty Collaborative Research/Summer Undergraduate Research Experience

Core General Education Requirements (CGER)

Core General Education Requirements (CGER)

The Core General Education Requirements (CGER) includes a minimum of 10 courses across 6 categories. Students must complete a minimum of 36 credits in courses approved for the CGER Core.

- Mathematics & Quantitative Reasoning (MQR) - 4 credits, one course minimum
 - Includes the University Mathematics Requirement¹
- Communication & Literacy (CL) - 8 credits, two courses minimum
 - Includes the University Writing Requirement (CL-W)²
- Natural Sciences & Wellness (NSW/NSWL) - 6 credits, one course minimum (NSW-Lab required)
- Social & Behavioral Sciences (SBS) - 6 credits, two courses minimum
- Humanities & Arts (HA) - 6 credits, two courses minimum
- Civics & Perspectives (CP) - 6 credits, two courses minimum

¹ University Mathematics Requirement:

- Students satisfy the University Mathematics Requirement in one of four ways:
- completing an approved university-level mathematics course (MQR) with a grade of C (not C-) or above
 - achieving a suitable score on the UW Math Placement Test (<https://www.uwec.edu/academics/academic-support/advising/testing/placement-testing/>)
 - achieving a suitable score on an exam such as the Advanced Placement Calculus or Advanced Placement Statistics exams
 - achieving a suitable score on a Credit by Examination administered by the Department of Mathematics.

² University Writing Requirement:

- Students satisfy the University Writing Requirement in one of four ways:
- completing a Blugold Seminar in Critical Reading and Writing course (WRIT 102 (<https://catalog.uwec.edu/search/?P=WRIT%20102>), WRIT 114 (<https://catalog.uwec.edu/search/?P=WRIT%20114>), WRIT 116 (<https://catalog.uwec.edu/search/?P=WRIT%20116>), WRIT 118 (<https://catalog.uwec.edu/search/?P=WRIT%20118>), or WRIT 120 (<https://catalog.uwec.edu/search/?P=WRIT%20120>)) with a grade of C (not C-) or above

- achieving a suitable score on the English Placement Test (<https://www.uwec.edu/academics/blugold-seminar/writ-courses-placement/>) (WPT ENGL)
- achieving a suitable score on an exam such as the Advanced Placement English Literature and Composition or Advanced Placement English Language and Composition exams
- achieving a suitable score on the University Writing Program Portfolio.

Completion via Placement Test

- Writing: If the CL-W subcategory is satisfied through a placement test, the CGER Communication and Literacy requirement will be reduced from 8 credits (2 courses) to 3 credits (1 course).
- Mathematics: If the University Math Requirement is satisfied through a placement test, the CGER Mathematics & Quantitative Reasoning requirement will be considered fully met, replacing the 4-credit (1 course) requirement.
- Students must still complete 36 credits across 10 courses, with any remaining credits or courses eligible to be taken from any CGER category.

American Indian Studies, Minor

Liberal Arts (Code 530-401)

The minor, like the major and certificate, is designed to provide both American Indian and non-American Indian students with a broad understanding of the distinctive lifeways, politics, and histories of a number of tribal nations. Students will also learn about the philosophical and religious systems, the art, and literatures developed by past and contemporary American Indian tribes and individuals.

Code	Title	Credits
Twenty-four semester credits, nine credits must be 300-level or higher, including:		
AIS 101	Foundations in American Indian and Indigenous Studies	3
AIS 102	Introduction to American Indian Expressive Cultures	3
AIS 243	Introduction to Contemporary American Indian Communities	3
Remaining credits selected from:		
AIS 111	Studies in American Indian Languages I ¹	
or AIS 121	Beginning Ojibwe I	
AIS 112	Studies in American Indian Languages II ¹	
or AIS 122	Beginning Ojibwe II	
AIS 142	Introduction to American Indian Literatures	
AIS/ANTH 161	Introduction to Cultural Anthropology	
AIS/HIST 240	American Indian History	
AIS 242	The American Indian in Literature and Film	
AIS 244	American Indian Literature of Healing	

AIS/POLS 250	American Indian Politics
AIS 257	Tribal Nation Governments
AIS 260	Chippewa Reserved Treaty Rights
AIS 291	Special Topics
AIS/GEOG 322	Native Geographies
AIS/ARTH 324	Indigenous North American Visual Cultures
AIS/RELS 330	Indigenous Religions of the Americas
AIS/ARTH 335	Ancient Art and Architecture of Mexico and Central America
AIS/ARTH 337	Art of Tawantinsuyo
AIS 343	Contemporary American Indian Communities
AIS 345	American Indian Autobiography
AIS 346	Major Works in American Indian Literature
AIS/HIST 368	Studies in American Indian History
AIS/HIST 369	Wisconsin Indian History
AIS 395	Directed Studies
AIS 399	Independent Study
AIS 444	Indigenous Theory and Methodologies
AIS 480	Capstone
AIS 491	Special Topics
AIS 498	Internship
AIS 499	Independent Study

¹ A maximum of one language course can count to the minor.

Seminars and special topics courses dealing with American Indians will also be given consideration for credit.

Program Learning Outcomes

Students completing this program will be expected to meet the following learning outcomes:

- Explain the status of federally recognized tribes in relation to federal, state, and local government, as well as private enterprises.
- Define and apply the concept of tribal sovereignty in contemporary America.
- Describe examples of identity, colonialism, stereotypes, resistance, survivance, and/or issues of cultural appropriation/exploitation of Indigenous people.
 - Analyze the impact of systems, institutions, and issues in historical and contemporary times.
 - Apply the ability to interact respectfully with others and suspend judgment, understanding that judgments may be culturally biased and exclusive.
- Practice culturally sensitive dispositions as they engage with American Indians in the university community, as well as tribal and urban communities within and around Wisconsin.

Ojibwe Language and Culture, Certificate

(Code 290-602)

The **Ojibwe Language and Culture Certificate** provides students with the opportunity to become part of the global movement to revitalize endangered Indigenous languages. Upon completion of this certificate students will be able to: converse in Ojibwe at an intermediate level, have the linguistic and cultural competency to function effectively and appropriately in an Ojibwe cultural setting, be able to conduct future Ojibwe language research, and learn oral presentations skills which can be applied to any language.

Code	Title	Credits
To complete the certificate, students must have a minimum of 15 credits, including:		
AIS 121	Beginning Ojibwe I ¹	4
AIS 122	Beginning Ojibwe II ²	4
AIS 221	Intermediate Ojibwe I	4
Remaining credits may be selected from the following elective courses:		3-4
AIS 160	Ojibwe Culture and History	
AIS 222	Intermediate Ojibwe II	
AIS 344	Traditional Ojibwe Stories	

¹ AIS 111 may be substituted for AIS 121 if the topic is focused on Ojibwe language.

² AIS 112 may be substituted for AIS 122 if the topic is focused on Ojibwe language.

Note: Students cannot pursue the American Indian Studies Major and the Ojibwe Language and Culture Certificate to meet graduation requirements for completing a first and second degree program.

Program Learning Outcomes

Students completing this program will be expected to meet the following learning outcomes:

- Converse at an intermediate level in the Ojibwe language.
- Increase their own language fluency.
- Function effectively and appropriately in an Ojibwe cultural setting (have linguistic and cultural competency).
- Have the skills to conduct future Ojibwe language research.
- Have oral presentation skills which they can apply to giving presentations in any language.

Art & Design

Haas Fine Arts 104

715-836-3277

Department Website (<https://www.uwec.edu/academics/college-arts-sciences/departments-programs/art-design/>)

The Department of Art & Design is a flourishing community of students and faculty engaged in creating a visually stimulated world. We are dedicated to delivering comprehensive and innovative experiences by promoting foundation skills, creative exploration, and historical knowledge. Students are encouraged to thrive in self-motivated programs and participate in local and collaborative projects, internships, travel experiences, and other opportunities to develop and contribute their skills and capabilities. As part of a liberal arts university, Art & Design students integrate learning from across the arts and sciences with their art major. In addition, students with a major in another discipline may pursue a 24-credit minor in art or art history to supplement their major.

Programs

Art & Design majors choose one of the following degrees:

- 69-credit Bachelor of Fine Arts (B.F.A.) Comprehensive Major in Integrative Visual Arts;
- 60-credit Comprehensive Majors (B.A. or B.S.) in Graphic Communications or Studio Art;
- 36-credit Bachelor of Arts (B.A.) or Bachelor of Science (B.S.) in Studio Art;

All Art & Design degrees provide a broad art foundation with the opportunity to take elective studio classes in specific areas of interest. Our programs support students with a passion for such classic fields as graphic design, illustration, painting, photography, sculpture, and ceramics to develop their skills in those areas. At the same time, our curriculum is designed to encourage students to expand traditional boundaries and engage a variety of media to develop thematic interests that intersect with such things as community, society, environment, sustainability, space, place, and identity.

The Bachelor of Fine Arts in Integrative Visual Arts is designed for students interested in making a career as an artist, exhibiting their work, or considering graduate programs in the visual arts. The Integrative Visual Arts comprehensive major provides the most integrated and immersive studio experience with advanced levels of artistic exploration, experience, and focus. After completing their foundations courses and numerous core visual arts courses, students apply to participate in a B.F.A review, typically toward the end of the second year. For the review, they are required to present a portfolio of the creative work they have developed and maintained from the beginning of their studies. The review is used by instructors to help advise and guide students in their development. Once accepted to continue the program after the review, students will complete the B.F.A. degree requirements and are required to participate in a Senior Exhibition near the end of their studies.

The Graphic Communications comprehensive major combines graphic design and communication curricula to create a versatile and unique degree that prepares students for many possible artistic career directions.

The Studio Art comprehensive major is an excellent fit for artists looking to explore creative self-expression and gain a well-rounded set of hands-on art-making skills from across the visual arts.

The 36-credit Studio Art emphasis major is ideal for students wishing to combine their passions and aptitudes in the visual arts with other interests from across the liberal arts.

Advising

Art & Design maintains annual degree plans and check sheets with suggested four-year course sequences for each major and minor. Sample degree plans for the majors also are available in the Art & Design section of this catalog. Students benefit greatly from working closely with their advisors to develop personal degree plans. They are encouraged to use the degree plans to map their pathway toward graduation. A student may take a maximum of nine credits of advanced studio courses in one semester. Some advanced studio courses are offered on a variable credit basis and may be repeated for additional credit. The total number of advanced studio credits which may be applied to a degree program will vary and is determined through consultation with the major advisor. Students will need to be prepared to pay for materials, supplies, equipment, and/or services in excess of the amount and kind the University provides for necessary instructional purposes.

Student Organizations

- ASO, Art Student Organization - The Art Student Organization brings together students who are interested in art and the visual arts and who

seek social and community engagement within the department and on campus. ASO strives to inspire creativity and connect students by making art together, hosting events and activities, participating in field trips, serving the community through art, and promoting art. Meetings and activities help members meet other students, get to know professors, and learn about internship, research, and other professional development opportunities. ASO is open to students from across campus, not just from Art & Design.

- NOTA, None of the Above (<https://www.uwec.edu/academics/college-arts-sciences/departments-programs/art-design/explore-opportunities/student-organizations/>) - For nearly 50 years, the campus literary magazine None of the Above, NOTA, is a student run operation that publishes a biannual collection of the top student submissions in the categories of art, poetry, and prose. It is the mission of NOTA to showcase the creative works of University of Wisconsin-Eau Claire students with multiple publications throughout the academic year, open mic readings, and through other events planned by NOTA staff. Though this organization is primarily affiliated with English, art students regularly contribute artwork and participate with publication design, layout and printing.

Major, Standard, upper division in residence	12
Major, Comprehensive, upper division in residence	21
Certificate	25 percent of credits
Procedures Required for Graduation	
Obtain admission to the degree program and/or the College offering it.	
Apply for graduation on CampS.	

¹ Certain programs exceed this minimum.
² See special requirements in each College.

Applicability of Credits Toward Graduation

Junior College or Two-Year College Credits. A maximum of 72 semester credits earned in a junior college or two-year college will be accepted as degree credits at UW-Eau Claire.

Extension Credits. Credits earned in credit outreach courses offered by UW-Eau Claire are treated as resident credits. Credits earned in extension courses offered by other units of the Universities of Wisconsin System are treated as transfer credits. All other (non-UW) extension and correspondence credits are

normally limited to one-fourth of the total required for graduation from any curriculum.

WTCS Credits. A maximum of 72 semester credits earned in college parallel programs at Madison Area Technical College, Milwaukee Area Technical College, Nicolet Area Technical College, or Chippewa Valley Technical College may be accepted as degree credits at UW-Eau Claire. A set number of general education courses will be accepted from other technical schools. Occupational and technical courses may also be considered for transfer if the quality and content of the course work from the technical college is judged to be comparable to course work at UW-Eau Claire. Refer to the Transfer Credit Wizard (https://www.uwec.sis.wisconsin.edu/psp/eauprd-tb/EMPLOYEE/SA/c/EAU_SS_CUSTOM.EAU_TRNCRDWZ.GBL) or contact the UW-Eau Claire Admissions Office for information about the current transfer policy.

USAFI Credit. UW-Eau Claire will accept up to 32 semester credits for work done through the United States Armed Forces Institute, under the provision for non-UW correspondence credit (see Extension Credits above).

Activity Credit (band, chorus, drama, KINS 100-184 courses) Students may count toward graduation no more than one credit of KINS 110-184 courses. Students may count toward graduation no more than four credits earned in any single activity course and no more than 12 credits resulting from any combination of activity courses (excluding KINS 110-184 courses).

Other Restricted Credits. For other University restrictions, see the following: Cooperative Education; Credit by Examination; Satisfactory/Unsatisfactory Registration; Transfer of Credits. College or departmental restrictions may also be placed on Independent Study (399-499 courses), Directed Study (395-495), and other types of credits.

APPLICABILITY OF CREDITS TOWARD GRADUATION	Credit Restrictions

¹ **University Mathematics Requirement:**

Students satisfy the University Mathematics Requirement in one of four ways:

- completing an approved university-level mathematics course (MQR) with a grade of C (not C-) or above
- achieving a suitable score on the UW Math Placement Test (<https://www.uwec.edu/academics/academic-support/advising/testing/placement-testing/>)
- achieving a suitable score on an exam such as the Advanced Placement Calculus or Advanced Placement Statistics exams
- achieving a suitable score on a Credit by Examination administered by the Department of Mathematics.

² **University Writing Requirement:**

Students satisfy the University Writing Requirement in one of four ways:

- completing a Blugold Seminar in Critical Reading and Writing course (WRIT 102 (<https://catalog.uwec.edu/search/?P=WRIT%20102>), WRIT 114 (<https://catalog.uwec.edu/search/?P=WRIT%20114>), WRIT 116 (<https://catalog.uwec.edu/search/?P=WRIT%20116>), WRIT 118 (<https://catalog.uwec.edu/search/?P=WRIT%20118>), or WRIT 120 (<https://catalog.uwec.edu/search/?P=WRIT%20120>)) with a grade of C (not C-) or above
- achieving a suitable score on the English Placement Test (<https://www.uwec.edu/academics/blugold-seminar/writ-courses-placement/>) (WPT ENGL)

- achieving a suitable score on an exam such as the Advanced Placement English Literature and Composition or Advanced Placement English Language and Composition exams
- achieving a suitable score on the University Writing Program Portfolio.

³ **Completion via Placement Tests**

- Writing: If the CL-W subcategory is satisfied through a placement test, the CGER Communication and Literacy requirement will be reduced from 8 credits (2 courses) to 3 credits (1 course).
- Mathematics: If the University Math Requirement is satisfied through a placement test, the CGER Mathematics & Quantitative Reasoning requirement will be considered fully met, replacing the 4-credit (1 course) requirement.
- Students must still complete 36 credits across 10 courses, with any remaining credits or courses eligible to be taken from any CGER category.

College Degree Requirements

Bachelor of Fine Arts

University Graduation Requirements. All candidates for degrees must fulfill the requirements for credits, curriculum, GPA, and University residency as specified in the section of this catalog titled University Graduation Requirements.

College Graduation Requirements: Grade Point Averages. All candidates for degrees in the College of Arts and Sciences must earn minimum resident and total GPAs of 2.00 in the major, the minor, and the certificate. The resident and total GPAs for the major are computed using all attempted credits applicable to the major including those offered by departments other than the major department. The resident and total GPAs for the minor and certificate are computed similarly.

Major-Minor and Major-Certificate Requirements. A standard major (a minimum of 36 credits) must be supplemented by a minor (a minimum of 24 credits) or by a certificate (12 to 18 credits) to meet graduation requirements for completing a first and second degree program. No minor or certificate is required with a Comprehensive Major (60 or more credits) or with two majors of 36 or more credits each.

Certain degree programs, which include Comprehensive Majors, may require more than the minimum of 120 credits for graduation.

Acceptable academic program combinations are determined at the college level. A major and a minor or a major and certificate or two majors (if available) may not be elected in the same department or program, except in the approved combinations listed here.

College Credits. Earn at least 90 credits in courses offered by the College of Arts and Sciences.

Bachelor of Fine Arts Degree in the College of Arts and Sciences (B.F.A.)

Fulfillment of all University Graduation Requirements (which includes the Core General Education Requirements); all College-level degree requirements (major and minor/certificate emphases, GPAs, earning at least 90 credits in Arts and Sciences course work); second language competency at the 102 level. Second language competency can be met in one of two ways: (1) Demonstrate a level of second language competency that qualifies the student to enter the 201-level course in a second language. (2) Earn a grade of at least C (not C-) or

a mark of S in a 102-level second language course (or AIS 112 or AIS 122 or SLHS 103).

Major Requirements

(Code 020-024)

The B.F.A. degree is designed for students interested in pursuing graduate studies (e.g., Masters of Fine Arts programs) or professional careers in the visual arts. The Integrative Visual Arts Comprehensive Major provides the most integrated and immersive studio experience with advanced levels of artistic exploration, experience, and focus. This major encourages students with specific interests, (e.g., in such fields as graphic design, illustration, photography, ceramics, etc.) to expand traditional boundaries and engage a variety of media and their entanglements.

Majors will also be encouraged to consider how a thematic selection of integrated electives can enhance their educational experience as they pursue their professional aspirations while taking creative risks that help them grow as artists.

Code	Title	Credits
Foundations (should be completed in first year of study)		15
ART 107	Foundations: Drawing and Composition	3
ART 108	Foundations: Two-Dimensional Design	3
ART 110	Foundations: Three-Dimensional Art	3
ART 116	Foundations: Digital Frameworks	3
ARTH 109	Art of the 20th Century	3
Core Visual Arts (should be taken in second year)		15
Select four ART and one ARTH courses from the following:		
ART 240	Intermediate Drawing	
ART 244	Introduction to Painting	
ART 257	Introduction to Ceramics	
ART 264	Beginning Sculpture	
ART 275	Typography	
ART 281	Introduction to Photography as an Art Form	
ARTH 111	Global Art History to 1400	
OR		
ARTH 112	Global Art History Since 1400	
Integrated Visual Arts		27
Seven ART and two ARTH courses; 6 of which are at the 300 or 400 level.		
Professional Practice		12
To continue in the B.F.A. program, students must successfully pass ART 289 and the B.F.A. Entrance Review. ART 289 should be taken at the end of the second year upon completing the Foundations and at least one Core Visual Arts requirement. ART 289 should be taken before completing 30 credits in Art & Design.		
ART 289	BFA Review Preparation	1
ART 489	BFA Senior Exhibition	2
ART 402	Advanced Studio Practice	3
Plus two courses from the following:		
ART 402	Advanced Studio Practice (repeat)	
ART 476	Design for Community and People	
ART 477	Portfolio and Professional Development	

ART 498	Internship
ARTH 389	Methodologies of Art History

Program Learning Outcomes

Students completing this program will be expected to meet the following learning outcomes:

- Implement the Principles of Art and Design.
- Create art/design concepts that demonstrate critical and analytical thinking.
- Develop creative solutions to artistic and intellectual problems.
- Demonstrate an understanding of art/design history.
- Conduct research about the contexts of art/design.
- Demonstrate awareness of diverse audiences.
- Develop a cohesive portfolio of artwork and clearly describe its purpose verbally and in writing.
- Prepare professional presentations and documentation of artwork as necessary to pursue professional endeavors.

Art, Integrative Visual Arts, Comprehensive Major, B.F.A.

The following is a sample degree plan, based on the current catalog. It is based on the 120-credit graduation requirement and assumes no transferred credits, no requirements waived by placement tests, no courses taken in the summer or winter, no repeated courses, and no remedial courses that may be required. This sample degree plan is intended for first-year students entering UW-Eau Claire in the fall semester. Your own degree plan may differ depending on the course of study selected (second major, minor, etc.). UW-Eau Claire cannot guarantee all courses will be offered as shown, but will provide a range of courses that may enable prepared students to fulfill their requirements in a timely period. This sample degree plan is just a guide. Please consult your advisor, your degree audit, and the catalog to create your own degree plan. *Note:* In order to earn the required minimum of 120 credits for the degree in four years, you should plan to take 15 credits each semester or 30 credits each year.

To earn a degree, students must fulfill all University Graduation Requirements, including the Core General Education Requirements (CGER). CGER course work in the following sample degree plan uses abbreviations such as CGER CL, CGER HA, and CGER NSWL to represent the learning outcomes students will meet via completion of the course. Please click [here](#) for a description of the outcomes and requirements.

Minimum total for the baccalaureate degree = 120 credits

a Choose from ARTH 111 or ARTH 112

b Choose two of the following: ART 402, ART 476 (CEL), ART 477, ART 498, ARTH 389

The University of Wisconsin-Eau Claire encourages all students to participate in High Impact Practices. The following information identifies any specific recommendations that faculty in this major have concerning which HIPs might be most beneficial to students, and any recommendations about when those HIPs best fit into the degree plan. Students should also consult their faculty advisor for information on HIPs. There are many additional high impact opportunities available. Talk to your academic advisor for more information about incorporating HIPs like Study Abroad, Intercultural Immersion, Internship, and/or Student/Faculty Collaborative Research into your time at UW-Eau Claire.

Core General Education Requirements (CGER)

Core General Education Requirements (CGER)

The Core General Education Requirements (CGER) includes a minimum of 10 courses across 6 categories. Students must complete a minimum of 36 credits in courses approved for the CGER Core.

- Mathematics & Quantitative Reasoning (MQR) - 4 credits, one course minimum
 - Includes the University Mathematics Requirement¹
- Communication & Literacy (CL) - 8 credits, two courses minimum
 - Includes the University Writing Requirement (CL-W)²
- Natural Sciences & Wellness (NSW/NSWL) - 6 credits, one course minimum (NSW-Lab required)
- Social & Behavioral Sciences (SBS) - 6 credits, two courses minimum
- Humanities & Arts (HA) - 6 credits, two courses minimum
- Civics & Perspectives (CP) - 6 credits, two courses minimum

¹ University Mathematics Requirement:

Students satisfy the University Mathematics Requirement in one of four ways:

- completing an approved university-level mathematics course (MQR) with a grade of C (not C-) or above
- achieving a suitable score on the UW Math Placement Test (<https://www.uwec.edu/academics/academic-support/advising/testing/placement-testing/>)
- achieving a suitable score on an exam such as the Advanced Placement Calculus or Advanced Placement Statistics exams
- achieving a suitable score on a Credit by Examination administered by the Department of Mathematics.

² University Writing Requirement:

Students satisfy the University Writing Requirement in one of four ways:

- completing a Blugold Seminar in Critical Reading and Writing course (WRIT 102 (<https://catalog.uwec.edu/search/?P=WRIT%20102>), WRIT 114 (<https://catalog.uwec.edu/search/?P=WRIT%20114>), WRIT 116 (<https://catalog.uwec.edu/search/?P=WRIT%20116>), WRIT 118 (<https://catalog.uwec.edu/search/?P=WRIT%20118>), or WRIT 120 (<https://catalog.uwec.edu/search/?P=WRIT%20120>)) with a grade of C (not C-) or above
- achieving a suitable score on the English Placement Test (<https://www.uwec.edu/academics/blugold-seminar/writ-courses-placement/>) (WPT ENGL)
- achieving a suitable score on an exam such as the Advanced Placement English Literature and Composition or Advanced Placement English Language and Composition exams
- achieving a suitable score on the University Writing Program Portfolio.

RECOMMENDATIONS FOR HIGH IMPACT PRACTICES (HIPs)

Completion via Placement Test

- Writing: If the CL-W subcategory is satisfied through a placement test, the CGER Communication and Literacy requirement will be reduced from 8 credits (2 courses) to 3 credits (1 course).
- Mathematics: If the University Math Requirement is satisfied through a placement test, the CGER Mathematics & Quantitative Reasoning requirement will be considered fully met, replacing the 4-credit (1 course) requirement.
- Students must still complete 36 credits across 10 courses, with any remaining credits or courses eligible to be taken from any CGER category.

Art, Liberal Arts, Graphic Communications Emphasis, Comprehensive Major

Liberal Arts (Code 020-007)

University Requirements

GRADUATION REQUIREMENTS FOR BACCALAUREATE DEGREE

Credit Requirements	
Minimum total for graduation ¹	120
Upper division credits (courses numbered 300 and higher)	39
Core General Education	10 courses, 36 credits
Academic Concentrations	
Grade Point Requirements ²	
Total	2.00 average
Resident	2.00 average
Major	2.00 average
Minor	2.00 average
Certificate	2.00 average
University Residency Requirements	
Minimum total	30
Senior year	23
Major, Standard, upper division in residence	12
Major, Comprehensive, upper division in residence	21
Certificate	25 percent of credits

Procedures Required for Graduation

- Obtain admission to the degree program and/or the College offering it.
- Apply for graduation on CampS.

¹ Certain programs exceed this minimum.
² See special requirements in each College.

Applicability of Credits Toward Graduation

Junior College or Two-Year College Credits. A maximum of 72 semester credits earned in a junior college or two-year college will be accepted as degree credits at UW-Eau Claire.

Extension Credits. Credits earned in credit outreach courses offered by UW-Eau Claire are treated as resident credits. Credits earned in extension courses offered by other units of the Universities of Wisconsin System are treated as

transfer credits. All other (non-UW) extension and correspondence credits are normally limited to one-fourth of the total required for graduation from any curriculum.

WTCS Credits. A maximum of 72 semester credits earned in college parallel programs at Madison Area Technical College, Milwaukee Area Technical College, Nicolet Area Technical College, or Chippewa Valley Technical College may be accepted as degree credits at UW-Eau Claire. A set number of general education courses will be accepted from other technical schools. Occupational and technical courses may also be considered for transfer if the quality and content of the course work from the technical college is judged to be comparable to course work at UW-Eau Claire. Refer to the Transfer Credit Wizard (https://www.uwec.sis.wisconsin.edu/psp/eauprd-tb/EMPLOYEE/SA/c/EAU_SS_CUSTOM.EAU_TRNCRDWZ.GBL) or contact the UW-Eau Claire Admissions Office for information about the current transfer policy.

USAFI Credit. UW-Eau Claire will accept up to 32 semester credits for work done through the United States Armed Forces Institute, under the provision for non-UW correspondence credit (see Extension Credits above).

Activity Credit (band, chorus, drama, KINS 100-184 courses) Students may count toward graduation no more than one credit of KINS 110-184 courses. Students may count toward graduation no more than four credits earned in any single activity course and no more than 12 credits resulting from any combination of activity courses (excluding KINS 110-184 courses).

Other Restricted Credits. For other University restrictions, see the following: Cooperative Education; Credit by Examination; Satisfactory/Unsatisfactory Registration; Transfer of Credits. College or departmental restrictions may also be placed on Independent Study (399-499 courses), Directed Study (395-495), and other types of credits.

APPLICABILITY OF CREDITS TOWARD GRADUATION	Credit Restrictions
Satisfactory/Unsatisfactory	
Total degree credit	maximum 12
Major, Standard	maximum 1 course
Major, Comprehensive	maximum 2 courses
Minor	maximum 1 course
Credit by Examination	
Total degree credit	maximum ¼ of total
Major or minor	maximum ½ of total
Two-Year College Credits	
Total degree credit	maximum 72 credits
Activity credit (band, chorus, drama, KINS 100-184)	
Total KINS 100-184	maximum 1 credit
Total Band, chorus, drama	maximum 12 credits
Single course band, chorus, drama	maximum 4 credits
Extension credits	
UW-System	no maximum

Other extension/correspondence	maximum ¼ of total
USAFI	
USAFI	maximum 32 credits

Core General Education Requirements (CGER)

¹ **University Mathematics Requirement:**

Students satisfy the University Mathematics Requirement in one of four ways:

- completing an approved university-level mathematics course (MQR) with a grade of C (not C-) or above
- achieving a suitable score on the UW Math Placement Test (<https://www.uwec.edu/academics/academic-support/advising/testing/placement-testing/>)
- achieving a suitable score on an exam such as the Advanced Placement Calculus or Advanced Placement Statistics exams
- achieving a suitable score on a Credit by Examination administered by the Department of Mathematics.

² **University Writing Requirement:**

Students satisfy the University Writing Requirement in one of four ways:

- completing a Blugold Seminar in Critical Reading and Writing course (WRIT 102 (<https://catalog.uwec.edu/search/?P=WRIT%20102>), WRIT 114 (<https://catalog.uwec.edu/search/?P=WRIT%20114>), WRIT 116 (<https://catalog.uwec.edu/search/?P=WRIT%20116>), WRIT 118 (<https://catalog.uwec.edu/search/?P=WRIT%20118>), or WRIT 120 (<https://catalog.uwec.edu/search/?P=WRIT%20120>)) with a grade of C (not C-) or above
- achieving a suitable score on the English Placement Test (<https://www.uwec.edu/academics/blugold-seminar/writ-courses-placement/>) (WPT ENGL)

- achieving a suitable score on an exam such as the Advanced Placement English Literature and Composition or Advanced Placement English Language and Composition exams
- achieving a suitable score on the University Writing Program Portfolio.

³ **Completion via Placement Tests**

- Writing: If the CL-W subcategory is satisfied through a placement test, the CGER Communication and Literacy requirement will be reduced from 8 credits (2 courses) to 3 credits (1 course).
- Mathematics: If the University Math Requirement is satisfied through a placement test, the CGER Mathematics & Quantitative Reasoning requirement will be considered fully met, replacing the 4-credit (1 course) requirement.
- Students must still complete 36 credits across 10 courses, with any remaining credits or courses eligible to be taken from any CGER category.

College Degree Requirements

Bachelor of Arts or Bachelor of Science Degree (B.A./B.S.)

University Graduation Requirements. All candidates for degrees must fulfill the requirements for credits, curriculum, GPA, and University residency as specified in the section of this catalog titled University Graduation Requirements.

College Graduation Requirements: Grade Point Averages. All candidates for degrees in the College of Arts and Sciences must earn minimum resident and total GPAs of 2.00 in the major, the minor, and the certificate. The resident and total GPAs for the major are computed using all attempted credits applicable to the major including those offered by departments other than the major department. The resident and total GPAs for the minor and the certificate are computed similarly.

Major-Minor and Major-Certificate Requirements. A standard major (a minimum of 36 credits) must be supplemented by a minor (a minimum of 24 credits) or by a certificate (12 to 18 credits) to meet graduation requirements for completing a first and second degree program. No minor or certificate is required with a Comprehensive Major (60 or more credits) or with two majors of 36 or more credits each.

Certain degree programs, which include Comprehensive Majors, may require more than the minimum of 120 credits for graduation.

Acceptable academic program combinations are determined at the college level. A major and a minor or a major and certificate or two majors (if available) may not be elected in the same department or program, except in the approved combinations listed here.

College Credits. Earn at least 90 credits in courses offered by the College of Arts and Sciences.

Bachelor of Arts Degree in the College of Arts and Sciences (B.A.)

Fulfillment of all University Graduation Requirements (which includes the Core General Education Requirements); all College-level degree requirements (major and minor/certificate emphases, GPAs, earning at least 90 credits in Arts and Sciences course work); second language competency at the 102 level. Second language competency may be met in one of two ways: (1) Demonstrate a level of second language competency that qualifies the student to enter the 201-level course in a second language. (2) Earn a grade of at least C (not C-)

or a mark of S in a 102-level second language course (or AIS 112 or AIS 122 or SLHS 103).

Bachelor of Science Degree in the College of Arts and Sciences (B.S.)

Fulfillment of all University Graduation Requirements (which includes the Core General Education Requirements); all College-level degree requirements (major and minor/certificate emphases, GPAs, earning at least 90 credits in Arts and Sciences course work); mathematics competency at the MATH 111, MATH 112 or MATH 113 level. Mathematics competency can be met in one of three ways:

(1) Achieve a score on the mathematics placement test that qualifies the student to enter MATH 114. (2) Earn a grade of at least C (not C-) or a mark of S in MATH 111, MATH 112, or MATH 113. (3) Achieve a satisfactory score on the MATH 112 competency test. This test may be attempted no more than two times.

Major Requirements

Liberal Arts (Code 020-007)

This major is designed to provide students with a liberal arts experience in art or design, creating a well-rounded education that combines artistic interests with other academic disciplines. It provides an excellent technical, conceptual, creative, and aesthetic foundation for broader career options.

Code	Title	Credits
Sixty semester credits, including:		
Department Requirements		
Foundations Courses (should be completed in the first year of study):		
ART 107	Foundations: Drawing and Composition	3
ART 108 or ART 110	Foundations: Two-Dimensional Design Foundations: Three-Dimensional Art	3
ART 116	Foundations: Digital Frameworks	3
ARTH 109	Art of the 20th Century	3
Area Requirements		
ART 275	Typography	3
ART 374	Graphic Design: Concepts and Experimentation	3
ART 375	User Experience and Web Design	3
ART 376	Identity Development and Design	3

ART 477	Portfolio and Professional Development	3
ART 476 or ART 474 or ART 373	Design for Community and People Digital Design: Expanded Media Motion Graphics	3
Art History Requirement		9
ARTH 112	Global Art History Since 1400	
ARTH 225	History of Graphic Design	
ARTH Elective (3 credits; ARTH 333 recommended)		
Electives in Studio Art (ART) Courses (Six credits must be at 300- or 400-level)		12
Interdisciplinary Electives		9
Choose three courses from:		
CJ 184	Multimedia Communication	
CJ 202	Fundamentals of Speech	

CJ 260	Introduction to Integrated Strategic Communication	
CS 318	Fundamentals of Web Page Design	
CS 319	Introduction to Web Programming	
CS 320	Web Database Design and Implementation	
CS 322	Animation Programming	
Total Credits		60

Program Learning Outcomes

Students completing this program will be expected to meet the following learning outcomes:

- Implement the Principles of Design.
- Create design concepts that demonstrate critical and analytical thinking.
- Develop creative solutions to artistic and intellectual problems.
- Demonstrate an understanding of design history.
- Conduct research about the contexts of design.
- Demonstrate awareness of diverse audiences.

Art, Liberal Arts, Graphic Communications Emphasis, Comprehensive Major, B.A.

The following is a sample degree plan, based on the current catalog. It is based on the 120-credit graduation requirement and assumes no transferred credits, no requirements waived by placement tests, no courses taken in the summer or winter, no repeated courses, and no remedial courses that may be required. This sample degree plan is intended for first-year students entering UW-Eau Claire in the fall semester. Your own degree plan may differ depending on the course of study selected (second major, minor, etc.). UW-Eau Claire cannot guarantee all courses will be offered as shown, but will provide a range of courses that may enable prepared students to fulfill their requirements in a timely period. This sample degree plan is just a guide. Please consult your advisor, your degree audit, and the catalog to create your own degree plan. *Note:* In order to earn the required minimum of 120 credits for the degree in four years, you should plan to take 15 credits each semester or 30 credits each year.

To earn a degree, students must fulfill all University Graduation Requirements, including the Core General Education Requirements (CGER). CGER course work in the following sample degree plan uses abbreviations such as CGER CL, CGER HA, and CGER NSWL to represent the learning outcomes students will meet via completion of the course. Please click here for a description of the outcomes and requirements.

Students in this major have the option to pursue either a Bachelor of Arts (B.A.) or a Bachelor of Science (B.S.) degree. The degrees are distinguished by second language competency for the B.A. and a higher level of mathematics competency for the B.S.

Minimum total for the baccalaureate degree = 120 credits

- a Interdisciplinary Elective – The Graphic Communications area of study requires the integration of courses from the Communication and Journalism and/or the Computer Science departments. Choose three courses from the following list: CJ 184, CJ 202, CJ 260, CS 318, CS 319, CS 320, CS 322.
- b Six credits of electives with the ART prefix must be upper level (courses numbered 300 and higher) to meet University requirements.
- c Recommended Art History elective – ARTH 333
- d ART studio courses recommended such as ART 402
- e ART 476 is only offered in the spring semesters, while ART 477 is offered both fall and spring semesters.

RECOMMENDATIONS FOR HIGH IMPACT PRACTICES (HIPs)

The University of Wisconsin-Eau Claire encourages all students to participate in High Impact Practices. The following information identifies any specific recommendations that faculty in this major have concerning which HIPs might be most beneficial to students, and any recommendations about when those HIPs best fit into the degree plan. Students should also consult their faculty advisor for information on HIPs. There are many additional high impact opportunities available. Talk to your academic advisor for more information about incorporating HIPs like Study Abroad, Intercultural Immersion, Internship, and/or Student/Faculty Collaborative Research into your time at UW-Eau Claire.

Core General Education Requirements (CGER)**Core General Education Requirements (CGER)**

The Core General Education Requirements (CGER) includes a minimum of 10 courses across 6 categories. Students must complete a minimum of 36 credits in courses approved for the CGER Core.

- Mathematics & Quantitative Reasoning (MQR) - 4 credits, one course minimum
 - Includes the University Mathematics Requirement¹
- Communication & Literacy (CL) - 8 credits, two courses minimum
 - Includes the University Writing Requirement (CL-W)²
- Natural Sciences & Wellness (NSW/NSWL) - 6 credits, one course minimum (NSW-Lab required)
- Social & Behavioral Sciences (SBS) - 6 credits, two courses minimum
- Humanities & Arts (HA) - 6 credits, two courses minimum
- Civics & Perspectives (CP) - 6 credits, two courses minimum

¹ **University Mathematics Requirement:**

Students satisfy the University Mathematics Requirement in one of four ways:

- completing an approved university-level mathematics course (MQR) with a grade of C (not C-) or above
- achieving a suitable score on the UW Math Placement Test (<https://www.uwec.edu/academics/academic-support/advising/testing/placement-testing/>)
- achieving a suitable score on an exam such as the Advanced Placement Calculus or Advanced Placement Statistics exams

- achieving a suitable score on a Credit by Examination administered by the Department of Mathematics.

² University Writing Requirement:

Students satisfy the University Writing Requirement in one of four ways:

- completing a Blugold Seminar in Critical Reading and Writing course (WRIT 102 (<https://catalog.uwec.edu/search/?P=WRIT%20102>), WRIT 114 (<https://catalog.uwec.edu/search/?P=WRIT%20114>), WRIT 116 (<https://catalog.uwec.edu/search/?P=WRIT%20116>), WRIT 118 (<https://catalog.uwec.edu/search/?P=WRIT%20118>), or WRIT 120 (<https://catalog.uwec.edu/search/?P=WRIT%20120>)) with a grade of C (not C-) or above
- achieving a suitable score on the English Placement Test (<https://www.uwec.edu/academics/blugold-seminar/writ-courses-placement/>) (WPT ENGL)
- achieving a suitable score on an exam such as the Advanced Placement English Literature and Composition or Advanced Placement English Language and Composition exams
- achieving a suitable score on the University Writing Program Portfolio.

Completion via Placement Test

- Writing: If the CL-W subcategory is satisfied through a placement test, the CGER Communication and Literacy requirement will be reduced from 8 credits (2 courses) to 3 credits (1 course).
- Mathematics: If the University Math Requirement is satisfied through a placement test, the CGER Mathematics & Quantitative Reasoning requirement will be considered fully met, replacing the 4-credit (1 course) requirement.
- Students must still complete 36 credits across 10 courses, with any remaining credits or courses eligible to be taken from any CGER category.

Art, Liberal Arts, Studio Art Emphasis, Comprehensive Major

Liberal Arts (Code 020-006)

University Requirements

GRADUATION REQUIREMENTS FOR BACCALAUREATE DEGREE

Credit Requirements	
Minimum total for graduation ¹	120
Upper division credits (courses numbered 300 and higher)	39
Core General Education	10 courses, 36 credits
Academic Concentrations	
Grade Point Requirements ²	
Total	2.00 average
Resident	2.00 average
Major	2.00 average
Minor	2.00 average
Certificate	2.00 average
University Residency Requirements	
Minimum total	30
Senior year	23
Major, Standard, upper division in residence	12
Major, Comprehensive, upper division in residence	21

Certificate	25 percent of credits

Procedures Required for Graduation

Obtain admission to the degree program and/or the College offering it.

Apply for graduation on CampS.

¹ Certain programs exceed this minimum.

² See special requirements in each College.

Applicability of Credits Toward Graduation

Junior College or Two-Year College Credits. A maximum of 72 semester credits earned in a junior college or two-year college will be accepted as degree credits at UW-Eau Claire.

Extension Credits. Credits earned in credit outreach courses offered by UW-Eau Claire are treated as resident credits. Credits earned in extension courses offered by other units of the Universities of Wisconsin System are treated as transfer credits. All other (non-UW) extension and correspondence credits are normally limited to one-fourth of the total required for graduation from any curriculum.

WTCS Credits. A maximum of 72 semester credits earned in college parallel programs at Madison Area Technical College, Milwaukee Area Technical College, Nicolet Area Technical College, or Chippewa Valley Technical College may be accepted as degree credits at UW-Eau Claire. A set number of general education courses will be accepted from other technical schools. Occupational and technical courses may also be considered for transfer if the quality and content of the course work from the technical college is judged to be comparable to course work at UW-Eau Claire. Refer to the Transfer Credit Wizard (https://www.uwec.sis.wisconsin.edu/psp/eauprd-tb/EMPLOYEE/SA/c/EAU_SS_CUSTOM.EAU_TRNCRDWZ.GBL) or contact the UW-Eau Claire Admissions Office for information about the current transfer policy.

USAFI Credit. UW-Eau Claire will accept up to 32 semester credits for work done through the United States Armed Forces Institute, under the provision for non-UW correspondence credit (see Extension Credits above).

Activity Credit (band, chorus, drama, KINS 100-184 courses) Students may count toward graduation no more than one credit of KINS 110-184 courses. Students may count toward graduation no more than four credits earned in any single activity course and no more than 12 credits resulting from any combination of activity courses (excluding KINS 110-184 courses).

Other Restricted Credits. For other University restrictions, see the following: Cooperative Education; Credit by Examination; Satisfactory/Unsatisfactory Registration; Transfer of Credits. College or departmental restrictions may also be placed on Independent Study (399-499 courses), Directed Study (395-495), and other types of credits.

APPLICABILITY OF CREDITS TOWARD GRADUATION		Credit Restrictions
Satisfactory/Unsatisfactory		
Total degree credit		maximum 12
Major, Standard		maximum 1 course
Major, Comprehensive		maximum 2 courses
Minor		maximum 1 course

Credit by Examination

Total degree credit	maximum ¼ of total
Major or minor	maximum ½ of total

Two-Year College Credits

Total degree credit	maximum 72 credits

Activity credit (band, chorus, drama, KINS 100-184)

Total KINS 100-184	maximum 1 credit
Total Band, chorus, drama	maximum 12 credits
Single course band, chorus, drama	maximum 4 credits

Extension credits

UW-System	no maximum
Other extension/correspondence	maximum ¼ of total

USAFI

USAFI	maximum 32 credits

- Students must still complete 36 credits across 10 courses, with any remaining credits or courses eligible to be taken from any CGER category.

College Degree Requirements

Bachelor of Arts or Bachelor of Science Degree (B.A./B.S.)

University Graduation Requirements. All candidates for degrees must fulfill the requirements for credits, curriculum, GPA, and University residency as specified in the section of this catalog titled University Graduation Requirements.

College Graduation Requirements: Grade Point Averages. All candidates for degrees in the College of Arts and Sciences must earn minimum resident and total GPAs of 2.00 in the major, the minor, and the certificate. The resident and total GPAs for the major are computed using all attempted credits applicable to the major including those offered by departments other than the major department. The resident and total GPAs for the minor and the certificate are computed similarly.

Major-Minor and Major-Certificate Requirements. A standard major (a minimum of 36 credits) must be supplemented by a minor (a minimum of 24 credits) or by a certificate (12 to 18 credits) to meet graduation requirements for completing a first and second degree program. No minor or certificate is required with a Comprehensive Major (60 or more credits) or with two majors of 36 or more credits each.

Certain degree programs, which include Comprehensive Majors, may require more than the minimum of 120 credits for graduation.

Acceptable academic program combinations are determined at the college level. A major and a minor or a major and certificate or two majors (if available) may not be elected in the same department or program, except in the approved combinations listed here.

College Credits. Earn at least 90 credits in courses offered by the College of Arts and Sciences.

Bachelor of Arts Degree in the College of Arts and Sciences (B.A.)

Fulfillment of all University Graduation Requirements (which includes the Core General Education Requirements); all College-level degree requirements (major and minor/certificate emphases, GPAs, earning at least 90 credits in Arts and Sciences course work); second language competency at the 102 level. Second language competency may be met in one of two ways: (1) Demonstrate a level of second language competency that qualifies the student to enter the 201-level course in a second language. (2) Earn a grade of at least C (not C-) or a mark of S in a 102-level second language course (or AIS 112 or AIS 122 or SLHS 103).

Bachelor of Science Degree in the College of Arts and Sciences (B.S.)

Fulfillment of all University Graduation Requirements (which includes the Core General Education Requirements); all College-level degree requirements (major and minor/certificate emphases, GPAs, earning at least 90 credits in Arts and Sciences course work); mathematics competency at the MATH 111, MATH 112 or MATH 113 level. Mathematics competency can be met in one of three ways: (1) Achieve a score on the mathematics placement test that qualifies the student to enter MATH 114. (2) Earn a grade of at least C (not C-) or a mark of S in MATH 111, MATH 112, or MATH 113. (3) Achieve a satisfactory score on the MATH 112 competency test. This test may be attempted no more than two times.

Major Requirements

Liberal Arts (Code 020-006)

This major is designed to provide students with a liberal arts experience in art or design, creating a well-rounded education that combines artistic interests with other academic disciplines. It provides an excellent technical, conceptual, creative, and aesthetic foundation for broader career options.

Code	Title	Credits
Sixty semester credits, including:		
Department Requirements		
Foundations Courses (should be completed in the first year of study):		
ART 107	Foundations: Drawing and Composition	3
ART 108	Foundations: Two-Dimensional Design	3
ART 110	Foundations: Three-Dimensional Art	3
ART 116	Foundations: Digital Frameworks	3
ARTH 109	Art of the 20th Century	3
Area Requirements, Choose Four:		12
ART 240	Intermediate Drawing	
ART 244	Introduction to Painting	
ART 249	Introduction to Printmaking	
ART 257	Introduction to Ceramics	
ART 264	Beginning Sculpture	

ART 281	Introduction to Photography as an Art Form	
Advanced Course Requirement		
ART 402	Advanced Studio Practice	3
Art History Requirements		
ARTH 111	Global Art History to 1400	3
ARTH 112	Global Art History Since 1400	3
ARTH 333	Themes in Contemporary Art	3
Electives in Art (ART) or Art History (ARTH) (Fifteen credits must be 300- or 400-level. Three credits must be in Art History (ARTH))		21
Total Credits		60

Program Learning Outcomes

Students completing this program will be expected to meet the following learning outcomes:

- Implement the Principles of Art.
- Create art concepts that demonstrate critical and analytical thinking.
- Develop creative solutions to artistic and intellectual problems.
- Demonstrate an understanding of art history.
- Conduct research about the contexts of art.
- Demonstrate awareness of diverse audiences.

Art, Liberal Arts, Studio Art Emphasis, Comprehensive Major, B.A.

The following is a sample degree plan, based on the current catalog. It is based on the 120-credit graduation requirement and assumes no transferred credits, no requirements waived by placement tests, no courses taken in the summer or winter, no repeated courses, and no remedial courses that may be required. This sample degree plan is intended for first-year students entering UW-Eau Claire in the fall semester. Your own degree plan may differ depending on the course of study selected (second major, minor, etc.). UW-Eau Claire cannot guarantee all courses will be offered as shown, but will provide a range of courses that may enable prepared students to fulfill their requirements in a timely period. This sample degree plan is just a guide. Please consult your advisor, your degree audit, and the catalog to create your own degree plan. *Note:* In order to earn the required minimum of 120 credits for the degree in four years, you should plan to take 15 credits each semester or 30 credits each year.

To earn a degree, students must fulfill all University Graduation Requirements, including the Core General Education Requirements (CGER). CGER course work in the following sample degree plan uses abbreviations such as CGER CL, CGER HA, and CGER NSWL to represent the learning outcomes students will meet via completion of the course. Please click here for a description of the outcomes and requirements.

Students in this major have the option to pursue either a Bachelor of Arts (B.A.) or a Bachelor of Science (B.S.) degree. The degrees are distinguished by second language competency for the B.A. and a higher level of mathematics competency for the B.S.

- a Studio Area Requirement – The Studio Art area of study requires a diverse experience of various media. Choose four courses from the following list: ART 240, ART 244, ART 249, ART 257, ART 264, ART 281.
- b Fifteen (15) credits of electives with the ART prefix must be upper level (courses numbered 300 and higher) to meet University requirements.

RECOMMENDATIONS FOR HIGH IMPACT PRACTICES (HIPs)

The University of Wisconsin-Eau Claire encourages all students to participate in High Impact Practices. The following information identifies any specific recommendations that faculty in this major have concerning which HIPs might be most beneficial to students, and any recommendations about when those HIPs best fit into the degree plan. Students should also consult their faculty advisor for information on HIPs. There are many additional high impact opportunities available. Talk to your academic advisor for more information about incorporating HIPs like Study Abroad, Intercultural Immersion, Internship, and/or Student/Faculty Collaborative Research into your time at UW-Eau Claire.

Core General Education Requirements (CGER)

The Core General Education Requirements (CGER) includes a minimum of 10 courses across 6 categories. Students must complete a minimum of 36 credits in courses approved for the CGER Core.

- Mathematics & Quantitative Reasoning (MQR) - 4 credits, one course minimum
 - Includes the University Mathematics Requirement¹
- Communication & Literacy (CL) - 8 credits, two courses minimum
 - Includes the University Writing Requirement (CL-W)²
- Natural Sciences & Wellness (NSW/NSWL) - 6 credits, one course minimum (NSW-Lab required)
- Social & Behavioral Sciences (SBS) - 6 credits, two courses minimum
- Humanities & Arts (HA) - 6 credits, two courses minimum
- Civics & Perspectives (CP) - 6 credits, two courses minimum

¹ University Mathematics Requirement:

Students satisfy the University Mathematics Requirement in one of four ways:

- completing an approved university-level mathematics course (MQR) with a grade of C (not C-) or above
- achieving a suitable score on the UW Math Placement Test (<https://www.uwec.edu/academics/academic-support/advising/testing/placement-testing/>)
- achieving a suitable score on an exam such as the Advanced Placement Calculus or Advanced Placement Statistics exams
- achieving a suitable score on a Credit by Examination administered by the Department of Mathematics.

² University Writing Requirement:

Students satisfy the University Writing Requirement in one of four ways:

- completing a Blugold Seminar in Critical Reading and Writing course (WRIT 102 (<https://catalog.uwec.edu/search/?P=WRIT%20102>), WRIT 114 (<https://catalog.uwec.edu/search/?P=WRIT%20114>), WRIT 116 (<https://catalog.uwec.edu/search/?P=WRIT%20116>), WRIT 118 (<https://catalog.uwec.edu/search/?P=WRIT%20118>), or WRIT 120 (<https://catalog.uwec.edu/search/?P=WRIT%20120>))

- catalog.uwec.edu/search/?P=WRIT%20120)) with a grade of C (not C-) or above
- achieving a suitable score on the English Placement Test (<https://www.uwec.edu/academics/blugold-seminar/writ-courses-placement/>) (WPT ENGL)
 - achieving a suitable score on an exam such as the Advanced Placement English Literature and Composition or Advanced Placement English Language and Composition exams
 - achieving a suitable score on the University Writing Program Portfolio.

Completion via Placement Test

- Writing: If the CL-W subcategory is satisfied through a placement test, the CGER Communication and Literacy requirement will be reduced from 8 credits (2 courses) to 3 credits (1 course).
- Mathematics: If the University Math Requirement is satisfied through a placement test, the CGER Mathematics & Quantitative Reasoning requirement will be considered fully met, replacing the 4-credit (1 course) requirement.
- Students must still complete 36 credits across 10 courses, with any remaining credits or courses eligible to be taken from any CGER category.

Art, Minor

Liberal Arts (Code 020-402)

Code	Title	Credits
Twenty-four semester credits, including:		
Foundations Courses		12
ART 107	Foundations: Drawing and Composition	
ART 108	Foundations: Two-Dimensional Design	
ART 110	Foundations: Three-Dimensional Art	
ART 116	Foundations: Digital Frameworks	
Electives in ART (Six credits must be 300- or 400-level) ¹		12

¹ Numerous 300- and 400-level courses have 200-level prerequisites.

NOTE: Art minors are encouraged to take Art History (ARTH) courses to meet the CGER HA requirement.

Program Learning Outcomes

Students completing this program will be expected to meet the following learning outcomes:

- Implement the Principles of Art and/or Design.
- Explore art and/or design concepts that demonstrate critical and analytical thinking.
- Design creative solutions to artistic and intellectual problems.

- Students must still complete 36 credits across 10 courses, with any remaining credits or courses eligible to be taken from any CGER category.

College Degree Requirements

Bachelor of Arts or Bachelor of Science Degree (B.A./B.S.)

University Graduation Requirements. All candidates for degrees must fulfill the requirements for credits, curriculum, GPA, and University residency

as specified in the section of this catalog titled University Graduation Requirements.

College Graduation Requirements: Grade Point Averages. All candidates for degrees in the College of Arts and Sciences must earn minimum resident and total GPAs of 2.00 in the major, the minor, and the certificate. The resident and total GPAs for the major are computed using all attempted credits applicable to the major including those offered by departments other than the major department. The resident and total GPAs for the minor and the certificate are computed similarly.

Major-Minor and Major-Certificate Requirements. A standard major (a minimum of 36 credits) must be supplemented by a minor (a minimum of 24 credits) or by a certificate (12 to 18 credits) to meet graduation requirements for completing a first and second degree program. No minor or certificate is required with a Comprehensive Major (60 or more credits) or with two majors of 36 or more credits each.

Certain degree programs, which include Comprehensive Majors, may require more than the minimum of 120 credits for graduation.

Acceptable academic program combinations are determined at the college level. A major and a minor or a major and certificate or two majors (if available) may not be elected in the same department or program, except in the approved combinations listed here.

College Credits. Earn at least 90 credits in courses offered by the College of Arts and Sciences.

Bachelor of Arts Degree in the College of Arts and Sciences (B.A.)

Fulfillment of all University Graduation Requirements (which includes the Core General Education Requirements); all College-level degree requirements (major and minor/certificate emphases, GPAs, earning at least 90 credits in Arts and Sciences course work); second language competency at the 102 level. Second language competency may be met in one of two ways: (1) Demonstrate a level of second language competency that qualifies the student to enter the 201-level course in a second language. (2) Earn a grade of at least C (not C-) or a mark of S in a 102-level second language course (or AIS 112 or AIS 122 or SLHS 103).

Bachelor of Science Degree in the College of Arts and Sciences (B.S.)

Fulfillment of all University Graduation Requirements (which includes the Core General Education Requirements); all College-level degree requirements (major and minor/certificate emphases, GPAs, earning at least 90 credits in Arts and Sciences course work); mathematics competency at the MATH 111, MATH 112 or MATH 113 level. Mathematics competency can be met in one of three ways: (1) Achieve a score on the mathematics placement test that qualifies the student to enter MATH 114. (2) Earn a grade of at least C (not C-) or a mark of S in MATH 111, MATH 112, or MATH 113. (3) Achieve a satisfactory score on the MATH 112 competency test. This test may be attempted no more than two times.

Major Requirements

Liberal Arts (Code 020-208)

This major program is designed to liberally educate a student with knowledgeable foundations in art or design. It is not offered as a career or professional path, and it presumes integration with a minor or second major.

Code	Title	Credits
Thirty-six semester credits, including:		
Department Requirements		

Foundations: ART 107 and ART 116; choose either ART 108 or ART 110		9
ART 107	Foundations: Drawing and Composition	
ART 116	Foundations: Digital Frameworks	
ART 108 or ART 110	Foundations: Two-Dimensional Design Foundations: Three-Dimensional Art	
Art History Requirement: ARTH 109; choose either ARTH 111 or ARTH 112		6
ARTH 109	Art of the 20th Century	
ARTH 111 or ARTH 112	Global Art History to 1400 Global Art History Since 1400	
Electives in Art (ART) or Art History (ARTH) (12 credits must be 300- or 400-level) ¹		21
Total Credits		36

¹ Numerous 300- and 400-level courses have 200-level prerequisites.

Program Learning Outcomes

Students completing this program will be expected to meet the following learning outcomes:

- Implement the Principles of Art or Design.
- Create art or design concepts that demonstrate critical and analytical thinking.
- Develop creative solutions to artistic and intellectual problems.
- Demonstrate an understanding of art or design history.
- Demonstrate awareness of diverse audiences.

Art, Studio Emphasis, Major, B.A.

The following is a sample degree plan, based on the current catalog. It is based on the 120-credit graduation requirement and assumes no transferred credits, no requirements waived by placement tests, no courses taken in the summer or winter, no repeated courses, and no remedial courses that may be required. This sample degree plan is intended for first-year students entering UW-Eau Claire in the fall semester. Your own degree plan may differ depending on the course of study selected (second major, minor, etc.). UW-Eau Claire cannot guarantee all courses will be offered as shown, but will provide a range of courses that may enable prepared students to fulfill their requirements in a timely period. This sample degree plan is just a guide. Please consult your advisor, your degree audit, and the catalog to create your own degree plan. Note: In order to earn the required minimum of 120 credits for the degree in four years, you should plan to take 15 credits each semester or 30 credits each year.

To earn a degree, students must fulfill all University Graduation Requirements, including the Core General Education Requirements (CGER). CGER course work in the following sample degree plan uses abbreviations such as CGER CL, CGER HA, and CGER NSWL to represent the learning outcomes students will meet by completion of the course. Please click here for a description of the outcomes and requirements.

Students in this major have the option to pursue either a Bachelor of Arts (B.A.) or a Bachelor of Science (B.S.) degree. The degrees are distinguished by second language competency for the B.A. and a higher level of mathematics competency for the B.S.

SOME TIME IN THE FIRST YEAR**FIRST SEMESTER**

ART 107	Foundations: Drawing and Composition	3
ART 108	Foundations: Two-Dimensional Design (CGER HA)	3
WRIT 114	Intensive Blugold Seminar in Critical Reading and Writing (CGER CL)	5
OR		
WRIT 116	Blugold Seminar in Critical Reading and Writing (CGER CL)	
CGER Option: Social & Behavioral Sciences (SBS)		3

SECOND SEMESTER

ART 116	Foundations: Digital Frameworks	3
ARTH 109	Art of the 20th Century (CGER HA)	3
CGER Option: Natural Sciences & Wellness (NSW)		3
CGER Option: Humanities & Arts (HA)		3
CGER Option: Mathematics & Quantitative Reasoning (MQR)		4

TOTAL CREDITS FIRST YEAR 30**SOME TIME IN THE SECOND YEAR****FIRST SEMESTER**

ART 110	Foundations: Three-Dimensional Art	3
ARTH 111	Global Art History to 1400 (CGER HA)	3
CGER Option: Humanities & Arts (HA)		3
101-level Second Language (CGER CL)		4

Elective 3

SECOND SEMESTER

ART 402	Advanced Studio Practice (Recommended)	3
ART/ARTH Upper Level Elective		3
CGER Option: Civics & Perspectives (CP)		3
Second Program Course ^a		3
Elective		3

TOTAL CREDITS FOURTH YEAR 27**Minimum total for the baccalaureate degree = 120 credits**

a 2nd Program - A standard major (min. 36 credits) must be supplemented by another standard major, a minor (min. 24 credits), or a certificate program (12-18 credits). A major and minor may be elected within the Art & Design Department only in the following approved combination:

- Art Major, Studio Emphasis and Art History Minor

RECOMMENDATIONS FOR HIGH IMPACT PRACTICES (HIPs)

The University of Wisconsin-Eau Claire encourages all students to participate in High Impact Practices. The following information identifies any specific recommendations that faculty in this major have concerning which HIPs might be most beneficial to students, and any recommendations about when those HIPs best fit into the degree plan. Students should also consult their faculty advisor for information on HIPs. There are many additional high impact opportunities available. Talk to your academic advisor for more information about incorporating HIPs like Study Abroad, Intercultural Immersion, Internship, and/or Student/Faculty Collaborative Research into your time at UW-Eau Claire.

Core General Education Requirements (CGER)

Core General Education Requirements (CGER)

The Core General Education Requirements (CGER) includes a minimum of 10 courses across 6 categories. Students must complete a minimum of 36 credits in courses approved for the CGER Core.

- Mathematics & Quantitative Reasoning (MQR) - 4 credits, one course minimum
 - Includes the University Mathematics Requirement¹
- Communication & Literacy (CL) - 8 credits, two courses minimum
 - Includes the University Writing Requirement (CL-W)²
- Natural Sciences & Wellness (NSW/NSWL) - 6 credits, one course minimum (NSW-Lab required)
- Social & Behavioral Sciences (SBS) - 6 credits, two courses minimum
- Humanities & Arts (HA) - 6 credits, two courses minimum
- Civics & Perspectives (CP) - 6 credits, two courses minimum

¹ **University Mathematics Requirement:**

Students satisfy the University Mathematics Requirement in one of four ways:

- completing an approved university-level mathematics course (MQR) with a grade of C (not C-) or above
- achieving a suitable score on the UW Math Placement Test (<https://www.uwec.edu/academics/academic-support/advising/testing/placement-testing/>)
- achieving a suitable score on an exam such as the Advanced Placement Calculus or Advanced Placement Statistics exams

- achieving a suitable score on a Credit by Examination administered by the Department of Mathematics.

² University Writing Requirement:

Students satisfy the University Writing Requirement in one of four ways:

- completing a Blugold Seminar in Critical Reading and Writing course (WRIT 102 (<https://catalog.uwec.edu/search/?P=WRIT%20102>), WRIT 114 (<https://catalog.uwec.edu/search/?P=WRIT%20114>), WRIT 116 (<https://catalog.uwec.edu/search/?P=WRIT%20116>), WRIT 118 (<https://catalog.uwec.edu/search/?P=WRIT%20118>), or WRIT 120 (<https://catalog.uwec.edu/search/?P=WRIT%20120>)) with a grade of C (not C-) or above
- achieving a suitable score on the English Placement Test (<https://www.uwec.edu/academics/blugold-seminar/writ-courses-placement/>) (WPT ENGL)
- achieving a suitable score on an exam such as the Advanced Placement English Literature and Composition or Advanced Placement English Language and Composition exams
- achieving a suitable score on the University Writing Program Portfolio.

Completion via Placement Test

- Writing: If the CL-W subcategory is satisfied through a placement test, the CGER Communication and Literacy requirement will be reduced from 8 credits (2 courses) to 3 credits (1 course).
- Mathematics: If the University Math Requirement is satisfied through a placement test, the CGER Mathematics & Quantitative Reasoning requirement will be considered fully met, replacing the 4-credit (1 course) requirement.
- Students must still complete 36 credits across 10 courses, with any remaining credits or courses eligible to be taken from any CGER category.

Biology

Phillips 330

715-836-4166

Department Website (<https://www.uwec.edu/academics/college-arts-sciences/departments-programs/biology/>)

The Study of Life

Biologists study the diversity, function, and interconnection of living organisms on earth from the molecular and cellular level to that of the whole organism. It is a broad science with many subdisciplines that range from the theoretical to the applied and from the microbe to the biome. Biological knowledge and understanding is essential for the intelligent evaluation of a range of issues facing civilization whether they be emerging diseases; invasive species and loss of biodiversity; or advances in medical, biotechnological, and ecological research.

The mission and vision of the department is to foster an interdisciplinary community that promotes an enthusiasm for lifetime learning in the biological sciences through education, research and service. Our students will be curious, confident, connected, and competent. We provide students with basic concepts and skills as well as an enlightening and participatory learning environment via coursework and high impact practices so students may solve problems and confront issues of the future whether they be scientific, social, political, or ethical in context. We also provide an inclusive atmosphere and opportunities, to assist students in identifying career possibilities consistent with their interests and abilities in the life sciences.

Student Organizations

Biology Club is a student organization for those interested in Biology. We also have organizations that span from the Saltwater Reef team to pre-professional groups. Meetings provide opportunities to meet other biology majors/minors and professors, hear speakers on various biology related topics, learn about possible internships and research opportunities, and participate in fun activities such as trips to science museums, aquariums, and zoos.

Biology Department Honors Requirements

Eligibility:

- (1) Upper class biology majors (60 credits or more) with resident, total, and Biology GPAs of 3.50 or higher.
- (2) Transfer students with junior status who declare a biology major and enter with GPAs of 3.50 or higher.

Requirements:

- An invitation by a biology faculty/staff member to pursue Biology Departmental Honors. Students may apply without an invitation but must have a letter of support from a biology faculty/staff member.
- At least 3 credits earned over at least 2 semesters, in either BIOL 384, BIOL 395, BIOL 396, BIOL 399, or BIOL 499.
- Presentation of collaborative research at one of the following:
 - an on-campus event (CERCA, the Provost's Honors Symposium)
 - an off-campus conference (a regional, national or international professional conference)
 - publication of collaborative research results in a peer-reviewed journal.
- Submission and approval of an Honors thesis of their research, including the following steps:
 - During the thesis semester, students will register for 1 credit of BIOL 489 (Biology Honors Thesis) or HNRS 490 (Honors Senior Thesis or Project).
 - Students are expected to make substantial intellectual contributions to the development, implementation, or scholarly interpretation of the project.
 - The thesis will be evaluated for acceptability by the research mentor and at least one additional faculty or staff member.

NOTE: Students must maintain a resident, total, and biology GPA of at least 3.50 for continued eligibility for Biology Department Honors.

Minors

- Minor: Biology, General, Liberal Arts

Biology, Ecology and Environmental Biology Emphasis, Comprehensive Major

Liberal Arts (Code 080-001)

University Requirements

GRADUATION REQUIREMENTS FOR BACCALAUREATE DEGREE

Credit Requirements	
Minimum total for graduation ¹	120
Upper division credits (courses numbered 300 and higher)	39
Core General Education	10 courses, 36 credits

Academic Concentrations	
Grade Point Requirements ²	
Total	2.00 average
Resident	2.00 average
Major	2.00 average
Minor	2.00 average
Certificate	2.00 average

University Residency Requirements	
Minimum total	30
Senior year	23
Major, Standard, upper division in residence	12
Major, Comprehensive, upper division in residence	21
Certificate	25 percent of credits

Procedures Required for Graduation	
Obtain admission to the degree program and/or the College offering it.	
Apply for graduation on CampS.	

¹ Certain programs exceed this minimum.
² See special requirements in each College.

Applicability of Credits Toward Graduation

Junior College or Two-Year College Credits. A maximum of 72 semester credits earned in a junior college or two-year college will be accepted as degree credits at UW-Eau Claire.

Extension Credits. Credits earned in credit outreach courses offered by UW-Eau Claire are treated as resident credits. Credits earned in extension courses offered by other units of the Universities of Wisconsin System are treated as transfer credits. All other (non-UW) extension and correspondence credits are normally limited to one-fourth of the total required for graduation from any curriculum.

WTCS Credits. A maximum of 72 semester credits earned in college parallel programs at Madison Area Technical College, Milwaukee Area Technical College, Nicolet Area Technical College, or Chippewa Valley Technical College may be accepted as degree credits at UW-Eau Claire. A set number of general education courses will be accepted from other technical schools. Occupational and technical courses may also be considered for transfer if the quality and content of the course work from the technical college is judged to be comparable to course work at UW-Eau Claire. Refer to the Transfer Credit Wizard (https://www.uwec.sis.wisconsin.edu/psp/eauprd-tb/EMPLOYEE/SA/c/EAU_SS_CUSTOM.EAU_TRNCRDWZ.GBL) or contact the UW-Eau Claire Admissions Office for information about the current transfer policy.

USAFI Credit. UW-Eau Claire will accept up to 32 semester credits for work done through the United States Armed Forces Institute, under the provision for non-UW correspondence credit (see Extension Credits above).

Activity Credit (band, chorus, drama, KINS 100-184 courses) Students may count toward graduation no more than one credit of KINS 110-184 courses. Students may count toward graduation no more than four credits earned in any single activity course and no more than 12 credits resulting from any combination of activity courses (excluding KINS 110-184 courses).

Other Restricted Credits. For other University restrictions, see the following: Cooperative Education; Credit by Examination; Satisfactory/Unsatisfactory Registration; Transfer of Credits. College or departmental restrictions may also be placed on Independent Study (399-499 courses), Directed Study (395-495), and other types of credits.

APPLICABILITY OF CREDITS TOWARD GRADUATION		Credit Restrictions
Satisfactory/Unsatisfactory		
Total degree credit		maximum 12
Major, Standard		maximum 1 course
Major, Comprehensive		maximum 2 courses
Minor		maximum 1 course
Credit by Examination		
Total degree credit		maximum ¼ of total
Major or minor		maximum ½ of total
Two-Year College Credits		
Total degree credit		maximum 72 credits
Activity credit (band, chorus, drama, KINS 100-184)		
Total KINS 100-184		maximum 1 credit

Total Band, chorus, drama	maximum 12 credits
Single course band, chorus, drama	maximum 4 credits
Extension credits	
UW-System	no maximum
Other extension/correspondence	maximum ¼ of total
USAFI	
USAFI	maximum 32 credits

¹ **University Mathematics Requirement:**

Students satisfy the University Mathematics Requirement in one of four ways:

- completing an approved university-level mathematics course (MQR) with a grade of C (not C-) or above
- achieving a suitable score on the UW Math Placement Test (<https://www.uwec.edu/academics/academic-support/advising/testing/placement-testing/>)
- achieving a suitable score on an exam such as the Advanced Placement Calculus or Advanced Placement Statistics exams
- achieving a suitable score on a Credit by Examination administered by the Department of Mathematics.

² **University Writing Requirement:**

Students satisfy the University Writing Requirement in one of four ways:

- completing a Blugold Seminar in Critical Reading and Writing course (WRIT 102 (<https://catalog.uwec.edu/search/?P=WRIT%20102>), WRIT 114 (<https://catalog.uwec.edu/search/?P=WRIT%20114>), WRIT 116 (<https://catalog.uwec.edu/search/?P=WRIT%20116>), WRIT 118 (<https://catalog.uwec.edu/search/?P=WRIT%20118>), or WRIT 120 (<https://catalog.uwec.edu/search/?P=WRIT%20120>)) with a grade of C (not C-) or above

catalog.uwec.edu/search/?P=WRIT%20118), or WRIT 120 (<https://catalog.uwec.edu/search/?P=WRIT%20120>)) with a grade of C (not C-) or above

- achieving a suitable score on the English Placement Test (<https://www.uwec.edu/academics/blugold-seminar/writ-courses-placement/>) (WPT ENGL)
- achieving a suitable score on an exam such as the Advanced Placement English Literature and Composition or Advanced Placement English Language and Composition exams
- achieving a suitable score on the University Writing Program Portfolio.

³ **Completion via Placement Tests**

- Writing: If the CL-W subcategory is satisfied through a placement test, the CGER Communication and Literacy requirement will be reduced from 8 credits (2 courses) to 3 credits (1 course).
- Mathematics: If the University Math Requirement is satisfied through a placement test, the CGER Mathematics & Quantitative Reasoning requirement will be considered fully met, replacing the 4-credit (1 course) requirement.
- Students must still complete 36 credits across 10 courses, with any remaining credits or courses eligible to be taken from any CGER category.

College Degree Requirements

Bachelor of Arts or Bachelor of Science Degree (B.A./B.S.)

University Graduation Requirements. All candidates for degrees must fulfill the requirements for credits, curriculum, GPA, and University residency as specified in the section of this catalog titled University Graduation Requirements.

College Graduation Requirements: Grade Point Averages. All candidates for degrees in the College of Arts and Sciences must earn minimum resident and total GPAs of 2.00 in the major, the minor, and the certificate. The resident and total GPAs for the major are computed using all attempted credits applicable to the major including those offered by departments other than the major department. The resident and total GPAs for the minor and the certificate are computed similarly.

Major-Minor and Major-Certificate Requirements. A standard major (a minimum of 36 credits) must be supplemented by a minor (a minimum of 24 credits) or by a certificate (12 to 18 credits) to meet graduation requirements for completing a first and second degree program. No minor or certificate is required with a Comprehensive Major (60 or more credits) or with two majors of 36 or more credits each.

Certain degree programs, which include Comprehensive Majors, may require more than the minimum of 120 credits for graduation.

Acceptable academic program combinations are determined at the college level. A major and a minor or a major and certificate or two majors (if available) may not be elected in the same department or program, except in the approved combinations listed here.

College Credits. Earn at least 90 credits in courses offered by the College of Arts and Sciences.

Bachelor of Arts Degree in the College of Arts and Sciences (B.A.)

Fulfillment of all University Graduation Requirements (which includes the Core General Education Requirements); all College-level degree requirements (major and minor/certificate emphases, GPAs, earning at least 90 credits in Arts and

Sciences course work); second language competency at the 102 level. Second language competency may be met in one of two ways: (1) Demonstrate a level of second language competency that qualifies the student to enter the 201-level course in a second language. (2) Earn a grade of at least C (not C-) or a mark of S in a 102-level second language course (or AIS 112 or AIS 122 or SLHS 103).

Bachelor of Science Degree in the College of Arts and Sciences (B.S.)

Fulfillment of all University Graduation Requirements (which includes the Core General Education Requirements); all College-level degree requirements (major and minor/certificate emphases, GPAs, earning at least 90 credits in Arts and Sciences course work); mathematics competency at the MATH 111, MATH 112 or MATH 113 level. Mathematics competency can be met in one of three ways:

(1) Achieve a score on the mathematics placement test that qualifies the student to enter MATH 114. (2) Earn a grade of at least C (not C-) or a mark of S in MATH 111, MATH 112, or MATH 113. (3) Achieve a satisfactory score on the MATH 112 competency test. This test may be attempted no more than two times.

Major Requirements

Liberal Arts (Code 080-001)

This emphasis provides extensive exposure to topics in ecology, field biology, and biological conservation. It is intended for students who are interested in field research, environmental monitoring and management, or natural resource conservation, or who desire strong preparation for graduate programs in ecology, environmental biology, or related fields. Research or internship is strongly recommended.

The emphasis requires completion of the core, the required credits as listed below, and biology electives to total at least 60 credits.

Core Requirements for All Biology Majors

Ecology and Environmental Biology Emphasis (Code 080-001); Microbiology Emphasis (Code 080-002); Biology, Liberal Arts (Code 080-203).

Code	Title	Credits
BIOL 221	Foundations of Biology I	4
BIOL 222	Foundations of Biology II	3
BIOL 223	Foundations of Biological Inquiry	2
Total Credits		9

Core Requirements for Biology, Liberal Arts

All students who pursue a Liberal Arts Comprehensive Major in Biology are also required to complete MATH 114, and one of the following Chemistry sequences: CHEM 105, CHEM 106, and CHEM 109, or CHEM 108 and CHEM 109, or CHEM 115, in addition to the 60 credits required for the major.

Biology, Ecology and Environmental Biology Emphasis, Comprehensive Major

Code	Title	Credits
Required Courses		
BIOL 180	Environmental Biology and Conservation	3
or GEOG 178	Planet Earth: Conservation of the Environment	
BIOL 308	Evolution	3
BIOL 318	Plant Form and Function	4
or BIOL 319	Animal Form and Function	
BIOL 321	Ecology	3

BIOL 323	Genetics	3
BIOL 383	Biostatistics	4

Elective Courses

Biological Sciences ¹

Select at least three of the following courses

BIOL 311	General Entomology
BIOL 318	Plant Form and Function ²
or BIOL 319	Animal Form and Function
BIOL 325	Plant Systematics
BIOL 328	Conservation Biology
BIOL 332	Field Botany
BIOL 338	Vegetation Ecology
BIOL 345	Invertebrate Zoology
BIOL 356	Vertebrate Biology
BIOL 362	Field Zoology
BIOL 365	Animal Behavior
BIOL 374	Marine Biology
BIOL 376	Aquatic Ecology
BIOL 379	Biology of Fishes

Additional biology courses not specifically excluded from the biology major may be used to complete the 48-credit total in biology.

Physical Sciences

Select any 12 credits from the following course list. Up to 12 credits maximum will be applied toward the comprehensive major. ³

GEOG 304	Introduction to Geomorphology
GEOG 335	Geographic Information Systems I
GEOG 336	Geospatial Field Methods
GEOG 337	Geographic Information Systems II
GEOG 338	Remote Sensing of the Environment
GEOG 340	Climatology
GEOG 345	Quaternary Environments
GEOG 350	Soils and the Environment
GEOG 355	Biogeography
GEOG 361	Environmental Hazards
GEOG 363	Watershed Analysis
GEOG 364	Fluvial Processes and Landforms
GEOG 435	Geographic Information Systems III
GEOG 438	Remote Sensing Data Analytics
GEOG 455	Web Geographic Information Systems
GEOL 110	Physical Geology
or GEOL 115	Environmental Geology
GEOL 301	Earth Resources and Sustainability
GEOL 304	Global Environmental Change
GEOL 308	Water Resources
GEOL 315	Hydrogeology I
PHYS 211	General Physics
PHYS 231	University Physics I
CHEM 213	Quantitative Analysis
CHEM 304	Environmental Chemistry
CHEM 325	Organic Chemistry I with Laboratory

- ¹ May include Marine Science II - Marine Biology from the Gulf Coast Research Laboratory.
- ² Select the course not chosen to fulfill requirements from the required course list.
- ³ May include Marine Science I - Oceanography from the Gulf Coast Research Laboratory.

Program Learning Outcomes

Students completing this program will be expected to meet the following learning outcomes:

- Demonstrate an understanding of foundational biological principles in the areas of cell/molecular biology, genetics, evolution, ecology, diversity of life, and structure & function of organisms.
- Understand and apply basic research methods in biology including research design, data analysis, and communication.
- Work collaboratively to explore and solve problems.
- Apply theories, concepts, findings, and methods of biology to problems/issues in society.
- Understand how biological theories, concepts, findings, and methods relate to other disciplines.
- Demonstrate competence in mathematics, statistics, and computer technology as tools for revealing and characterizing complex patterns in biological systems
- Understand and apply scientific reasoning and methods in learning science and/or in conducting biological research.
- Communicate scientific ideas and results in a variety of formats.
- Understand how to organize and evaluate data/information related to measuring diversity using field-specific recommended structures and criteria.

Biology, Ecology and Environmental Biology Emphasis, Comprehensive Major, B.S.

The following is a sample degree plan, based on the current catalog. It is based on the 120-credit graduation requirement and assumes no transferred credits, no requirements waived by placement tests, no courses taken in the summer or winter, no repeated courses, and no remedial courses that may be required. This sample degree plan is intended for first-year students entering UW-Eau Claire in the fall semester. Your own degree plan may differ depending on the course of study selected (second major, minor, etc.). UW-Eau Claire cannot guarantee all courses will be offered as shown, but will provide a range of courses that may enable prepared students to fulfill their requirements in a timely period. This sample degree plan is just a guide. Please consult your advisor, your degree audit, and the catalog to create your own degree plan. *Note:* In order to earn the required minimum of 120 credits for the degree in four years, you should plan to take 15 credits each semester or 30 credits each year.

To earn a degree, students must fulfill all University Graduation Requirements, including the Core General Education Requirements (CGER). CGER course work in the following sample degree plan uses abbreviations such as CGER CL, CGER HA, and CGER NSWL to represent the learning outcomes students will meet via completion of the course. Please click here for a description of the outcomes and requirements.

Students in this major have the option to pursue either a Bachelor of Arts (B.A.) or a Bachelor of Science (B.S.) degree. The degrees are distinguished by second language competency for the B.A. and a higher level of mathematics competency for the B.S.

FIRST YEAR

FIRST SEMESTER		
CHEM 108	General Chemistry I (CGER NSWL)	4
WRIT 114	Intensive Blugold Seminar in Critical Reading and Writing (CGER CL)	5

OR

WRIT 116	Blugold Seminar in Critical Reading and Writing (CGER CL)	
MATH 109	Algebra for Calculus (CGER MQR)	4
GEOG 178	Planet Earth: Conservation of the Environment (CGER NSW) ^a	3

OR

BIOL 180	Environmental Biology and Conservation (CGER NSW) ^a	

TOTAL 16

SECOND SEMESTER		
CHEM 109	General Chemistry II	4
MATH 112	Precalculus Mathematics (CGER MQR)	4

OR

MATH 113	Trigonometry (2 credits)	
BIOL 221	Foundations of Biology I (CGER NSWL) ^{b, c}	4

CGER Option: Humanities & Arts (HA) 3

TOTAL 15

SECOND YEAR

FIRST SEMESTER		
BIOL 222	Foundations of Biology II ^{c, d}	3
BIOL 223	Foundations of Biological Inquiry ^{c, d}	2
MATH 114	Calculus I (CGER MQR)	4
CGER Option: Civics & Perspectives (CP)		3
Physical science elective(s) - See Catalog		3

TOTAL 15

SECOND SEMESTER		
BIOL 323	Genetics ^e	3
BIOL 321	Ecology ^e	3
CGER Option: Social & Behavioral Sciences (SBS)		3
CGER Option: Communication & Literacy (CL)		3
General Elective		4

TOTAL 16

THIRD YEAR

FIRST SEMESTER		
BIOL 308	Evolution ^e	3
BIOL 318	Plant Form and Function ^e	4

OR

BIOL 319	Animal Form and Function ^f	
CGER Option: Humanities & Arts (HA)		3
Physical science elective - See Catalog		3-4

TOTAL 13-14

SECOND SEMESTER		
BIOL 383	Biostatistics	4
Biological science elective - See Catalog		4-5
Physical science elective - See Catalog		3
CGER Option: Social & Behavioral Sciences (SBS)		3

TOTAL	14-15
FOURTH YEAR	
FIRST SEMESTER	
Biological science elective - See Catalog	4
Biological science elective - See Catalog	4
General Elective	4
CGER Option: Civics & Perspectives (CP)	3
TOTAL	15
SECOND SEMESTER	
Biological science elective - See Catalog	3-4
Physical science elective	3
BIOL Elective	4
General Elective	4
TOTAL	14-15

Minimum total for the baccalaureate degree = 120 credits

- a Required for EEB majors.
- b Prerequisites: MATH 109 or placement into math course above 109; CHEM 105 and CHEM 106, or CHEM 108, or CHEM 115 or concurrent enrollment.
- c Best if Foundational Core course series (BIOL 221, BIOL 222, BIOL 223) is completed within 1st three semesters.
- d Grade of C or above in BIOL 221.
- e Grades of C or above in BIOL 222 and BIOL 223.
- f Grades of C or above in BIOL 222 and BIOL 223 or Grades of C or above in BIOL 221 and IDIS 125.

Note: Must maintain a 2.0 GPA in major program.

Course Suggestions

Consider GIS certificate as part of physical sciences; Consider CGER options as noted in Env. Society and Science, Environmental Science Minors. Students may also earn credit for directed and independent studies, internships, and through winterim or interim course offerings.

RECOMMENDATIONS FOR HIGH IMPACT PRACTICES (HIPs)

The University of Wisconsin-Eau Claire encourages all students to participate in High Impact Practices. The following information identifies any specific recommendations that faculty in this major have concerning which HIPs might be most beneficial to students, and any recommendations about when those HIPs best fit into the degree plan. Students should also consult their faculty advisor for information on HIPs. There are many additional high impact opportunities available. Talk to your academic advisor for more information about incorporating HIPs like Study Abroad (<https://studyabroad.apps.uwec.edu/>), Intercultural Immersion (<https://www.uwec.edu/immersion/>), Internship (<https://www.uwec.edu/offices-services/advising-retention-career-center/career-services/internship/job-searching-and/>), and/or Student/Faculty Collaborative Research (<https://www.uwec.edu/offices-services/office-research-and-sponsored-programs/getting-involved-student-faculty-research/>) into your time at UW-Eau Claire. These are best pursued after completion of Foundation coursework (BIOL 221, BIOL 222, and BIOL 223).

Core General Education Requirements (CGER)

Core General Education Requirements (CGER)

The Core General Education Requirements (CGER) includes a minimum of 10 courses across 6 categories. Students must complete a minimum of 36 credits in courses approved for the CGER Core.

- Mathematics & Quantitative Reasoning (MQR) - 4 credits, one course minimum
 - Includes the University Mathematics Requirement¹
- Communication & Literacy (CL) - 8 credits, two courses minimum
 - Includes the University Writing Requirement (CL-W)²
- Natural Sciences & Wellness (NSW/NSWL) - 6 credits, one course minimum (NSW-Lab required)
- Social & Behavioral Sciences (SBS) - 6 credits, two courses minimum
- Humanities & Arts (HA) - 6 credits, two courses minimum
- Civics & Perspectives (CP) - 6 credits, two courses minimum

¹ University Mathematics Requirement:

Students satisfy the University Mathematics Requirement in one of four ways:

- completing an approved university-level mathematics course (MQR) with a grade of C (not C-) or above
- achieving a suitable score on the UW Math Placement Test (<https://www.uwec.edu/academics/academic-support/advising/testing/placement-testing/>)
- achieving a suitable score on an exam such as the Advanced Placement Calculus or Advanced Placement Statistics exams
- achieving a suitable score on a Credit by Examination administered by the Department of Mathematics.

² University Writing Requirement:

Students satisfy the University Writing Requirement in one of four ways:

- completing a Blugold Seminar in Critical Reading and Writing course (WRIT 102 (<https://catalog.uwec.edu/search/?P=WRIT%20102>), WRIT 114 (<https://catalog.uwec.edu/search/?P=WRIT%20114>), WRIT 116 (<https://catalog.uwec.edu/search/?P=WRIT%20116>), WRIT 118 (<https://catalog.uwec.edu/search/?P=WRIT%20118>), or WRIT 120 (<https://catalog.uwec.edu/search/?P=WRIT%20120>)) with a grade of C (not C-) or above
- achieving a suitable score on the English Placement Test (<https://www.uwec.edu/academics/blugold-seminar/writ-courses-placement/>) (WPT ENGL)
- achieving a suitable score on an exam such as the Advanced Placement English Literature and Composition or Advanced Placement English Language and Composition exams
- achieving a suitable score on the University Writing Program Portfolio.

Completion via Placement Test

- Writing: If the CL-W subcategory is satisfied through a placement test, the CGER Communication and Literacy requirement will be reduced from 8 credits (2 courses) to 3 credits (1 course).
- Mathematics: If the University Math Requirement is satisfied through a placement test, the CGER Mathematics & Quantitative Reasoning requirement will be considered fully met, replacing the 4-credit (1 course) requirement.
- Students must still complete 36 credits across 10 courses, with any remaining credits or courses eligible to be taken from any CGER category.

Biology, Microbiology Emphasis, Comprehensive Major

Liberal Arts (Code 080-002)

University Requirements

GRADUATION REQUIREMENTS FOR BACCALAUREATE DEGREE

Credit Requirements	
Minimum total for graduation ¹	120
Upper division credits (courses numbered 300 and higher)	39
Core General Education	10 courses, 36 credits
Academic Concentrations	
Grade Point Requirements ²	
Total	2.00 average
Resident	2.00 average
Major	2.00 average
Minor	2.00 average
Certificate	2.00 average
University Residency Requirements	
Minimum total	30
Senior year	23
Major, Standard, upper division in residence	12
Major, Comprehensive, upper division in residence	21
Certificate	25 percent of credits
Procedures Required for Graduation	
Obtain admission to the degree program and/or the College offering it.	

Apply for graduation on CampS.

¹ Certain programs exceed this minimum.

² See special requirements in each College.

Applicability of Credits Toward Graduation

Junior College or Two-Year College Credits. A maximum of 72 semester credits earned in a junior college or two-year college will be accepted as degree credits at UW-Eau Claire.

Extension Credits. Credits earned in credit outreach courses offered by UW-Eau Claire are treated as resident credits. Credits earned in extension courses offered by other units of the Universities of Wisconsin System are treated as transfer credits. All other (non-UW) extension and correspondence credits are normally limited to one-fourth of the total required for graduation from any curriculum.

WTCS Credits. A maximum of 72 semester credits earned in college parallel programs at Madison Area Technical College, Milwaukee Area Technical College, Nicolet Area Technical College, or Chippewa Valley Technical College may be accepted as degree credits at UW-Eau Claire. A set number of general education courses will be accepted from other technical schools. Occupational and technical courses may also be considered for transfer if the quality and content of the course work from the technical college is judged to be comparable to course work at UW-Eau Claire. Refer to the Transfer Credit Wizard (https://www.uwec.sis.wisconsin.edu/psp/eauprd-tb/EMPLOYEE/SA/c/EAU_SS_CUSTOM.EAU_TRNCRDWZ.GBL) or contact the UW-Eau Claire Admissions Office for information about the current transfer policy.

USAFI Credit. UW-Eau Claire will accept up to 32 semester credits for work done through the United States Armed Forces Institute, under the provision for non-UW correspondence credit (see Extension Credits above).

Activity Credit (band, chorus, drama, KINS 100-184 courses) Students may count toward graduation no more than one credit of KINS 110-184 courses. Students may count toward graduation no more than four credits earned in any single activity course and no more than 12 credits resulting from any combination of activity courses (excluding KINS 110-184 courses).

Other Restricted Credits. For other University restrictions, see the following: Cooperative Education; Credit by Examination; Satisfactory/Unsatisfactory Registration; Transfer of Credits. College or departmental restrictions may also be placed on Independent Study (399-499 courses), Directed Study (395-495), and other types of credits.

APPLICABILITY OF CREDITS TOWARD GRADUATION	Credit Restrictions
Satisfactory/Unsatisfactory	
Total degree credit	maximum 12
Major, Standard	maximum 1 course
Major, Comprehensive	maximum 2 courses
Minor	maximum 1 course
Credit by Examination	
Total degree credit	maximum ¼ of total
Major or minor	maximum ½ of total
Two-Year College Credits	
Total degree credit	maximum 72 credits
Activity credit (band, chorus, drama, KINS 100-184)	
Total KINS 100-184	maximum 1 credit
Total Band, chorus, drama	maximum 12 credits
Single course band, chorus, drama	maximum 4 credits
Extension credits	
UW-System	no maximum
Other extension/correspondence	maximum ¼ of total
USAFI	
USAFI	maximum 32 credits

Core General Education Requirements (CGER)

CGER Categories

Mathematics & Quantitative Reasoning (MQR) (http://catalog.uwec.edu/undergraduate/outcome-mqr/)	4 credit hours, 1 course min
Includes University Math Requirement ¹	
Communication & Literacy (CL) (http://catalog.uwec.edu/undergraduate/outcome-cl/)	8 credit hours, 2 course min (including CL-W)

Includes University Writing Requirement (CL-W) (<http://catalog.uwec.edu/undergraduate/outcome-clw/>)²

Natural Sciences & Wellness (NSW/NSWL) (http://catalog.uwec.edu/undergraduate/outcome-NSW/)	6 credit hours, 1 course min (NSW-Lab required)
Social & Behavioral Sciences (SBS) (https://catalog.uwec.edu/undergraduate/outcome-sbs/)	6 credit hours, 2 course min
Humanities & Arts (HA) (http://catalog.uwec.edu/undergraduate/outcome-ha/)	6 credit hours, 2 course min

- achieving a suitable score on the English Placement Test (<https://www.uwec.edu/academics/blugold-seminar/writ-courses-placement/>) (WPT ENGL)
- achieving a suitable score on an exam such as the Advanced Placement English Literature and Composition or Advanced Placement English Language and Composition exams
- achieving a suitable score on the University Writing Program Portfolio.

³ Completion via Placement Tests

- Writing: If the CL-W subcategory is satisfied through a placement test, the CGER Communication and Literacy requirement will be reduced from 8 credits (2 courses) to 3 credits (1 course).
- Mathematics: If the University Math Requirement is satisfied through a placement test, the CGER Mathematics & Quantitative Reasoning requirement will be considered fully met, replacing the 4-credit (1 course) requirement.

- Students must still complete 36 credits across 10 courses, with any remaining credits or courses eligible to be taken from any CGER category.

College Degree Requirements

Bachelor of Arts or Bachelor of Science Degree (B.A./B.S.)

University Graduation Requirements. All candidates for degrees must fulfill the requirements for credits, curriculum, GPA, and University residency as specified in the section of this catalog titled University Graduation Requirements.

College Graduation Requirements: Grade Point Averages. All candidates for degrees in the College of Arts and Sciences must earn minimum resident and total GPAs of 2.00 in the major, the minor, and the certificate. The resident and total GPAs for the major are computed using all attempted credits applicable to the major including those offered by departments other than the major department. The resident and total GPAs for the minor and the certificate are computed similarly.

Major-Minor and Major-Certificate Requirements. A standard major (a minimum of 36 credits) must be supplemented by a minor (a minimum of 24 credits) or by a certificate (12 to 18 credits) to meet graduation requirements for completing a first and second degree program. No minor or certificate is required with a Comprehensive Major (60 or more credits) or with two majors of 36 or more credits each.

Certain degree programs, which include Comprehensive Majors, may require more than the minimum of 120 credits for graduation.

Acceptable academic program combinations are determined at the college level. A major and a minor or a major and certificate or two majors (if available) may not be elected in the same department or program, except in the approved combinations listed here.

College Credits. Earn at least 90 credits in courses offered by the College of Arts and Sciences.

Bachelor of Arts Degree in the College of Arts and Sciences (B.A.)

Fulfillment of all University Graduation Requirements (which includes the Core General Education Requirements); all College-level degree requirements (major and minor/certificate emphases, GPAs, earning at least 90 credits in Arts and Sciences course work); second language competency at the 102 level. Second language competency may be met in one of two ways: (1) Demonstrate a level of second language competency that qualifies the student to enter the 201-level course in a second language. (2) Earn a grade of at least C (not C-) or a mark of S in a 102-level second language course (or AIS 112 or AIS 122 or SLHS 103).

Bachelor of Science Degree in the College of Arts and Sciences (B.S.)

Fulfillment of all University Graduation Requirements (which includes the Core General Education Requirements); all College-level degree requirements (major and minor/certificate emphases, GPAs, earning at least 90 credits in Arts and Sciences course work); mathematics competency at the MATH 111, MATH 112 or MATH 113 level. Mathematics competency can be met in one of three ways:

- (1) Achieve a score on the mathematics placement test that qualifies the student to enter MATH 114.
- (2) Earn a grade of at least C (not C-) or a mark of S in MATH 111, MATH 112, or MATH 113.
- (3) Achieve a satisfactory score on the MATH 112 competency test. This test may be attempted no more than two times.

Major Requirements

Liberal Arts (Code 080-002)

This emphasis differs from the Biochemistry/Molecular Biology comprehensive major in that it provides more in-depth exposure to topics in microbiology including virology, immunology, and bacteriology. It is excellent preparation for careers in health science, industry, and for graduate training in microbiology and related fields.

The emphasis requires completion of the core, the required credits as listed below, and biology electives to total at least 60 credits.

Core Requirements for All Biology Majors

Ecology and Environmental Biology Emphasis (Code 080-001); Microbiology Emphasis (Code 080-002); Biology, Liberal Arts (Code 080-203).

Code	Title	Credits
BIOL 221	Foundations of Biology I	4
BIOL 222	Foundations of Biology II	3
BIOL 223	Foundations of Biological Inquiry	2
Total Credits		9

Core Requirements for Biology, Liberal Arts

All students who pursue a Liberal Arts Comprehensive Major in Biology are also required to complete MATH 114 and one of the following Chemistry sequences: CHEM 105, CHEM 106 and CHEM 109, or CHEM 108 and CHEM 109, or CHEM 115, in addition to the 60 credits required for the major.

Biology, Microbiology Emphasis, Comprehensive Major

Code	Title	Credits
Required Courses		
BIOL 305	Molecular and Cell Biology	4
BIOL 323	Genetics	3
BIOL 324	Genetics Inquiry	2
BIOL 361	Biology of Microorganisms	5
BIOL 402	Current Topics in Virology and Immunology	4
CHEM 325	Organic Chemistry I with Laboratory	4
CHEM 326	Organic Chemistry II with Laboratory	4
CHEM 352	Fundamentals of Biochemistry	4
Elective Courses		14

At least two courses from the following two categories, with at least one course coming from Category A

Category A

BIOL 306	Infectious Disease Biology
BIOL 371	Medical Mycology
BIOL 400	Medical Microbiology
BIOL 405	Advanced Cell and Molecular Lab

Category B

BIOL 409	Molecular Genetics
ENPH 443	Microbial Safety of Food
PH 450	Epidemiology
PHYS 211	General Physics
PHYS 212	General Physics

PHYS 231 University Physics I

PHYS 232 University Physics II

Program Learning Outcomes

Students completing this program will be expected to meet the following learning outcomes:

- Demonstrate an understanding of foundational biological principles in the areas of cell/molecular biology, genetics, evolution, ecology, diversity of life, and structure & function of organisms.
- Understand and apply basic research methods in biology including research design, data analysis, and communication.
- Work collaboratively to explore and solve problems.
- Apply theories, concepts, findings, and methods of biology to problems/issues in society.
- Understand how biological theories, concepts, findings, and methods relate to other disciplines.
- Demonstrate competence in mathematics, statistics, and computer technology as tools for revealing and characterizing complex patterns in biological systems.
- Understand and apply scientific reasoning and methods in learning science and/or in conducting biological research.
- Communicate scientific ideas and results in a variety of formats.
- Understand how to organize and evaluate data/information related to microbes using field-specific recommended structures and criteria.

Biology, Microbiology Emphasis, Comprehensive Major, B.S.

The following is a sample degree plan, based on the current catalog. It is based on the 120-credit graduation requirement and assumes no transferred credits, no requirements waived by placement tests, no courses taken in the summer or winter, no repeated courses, and no remedial courses that may be required. This sample degree plan is intended for first-year students entering UW-Eau Claire in the fall semester. Your own degree plan may differ depending on the course of study selected (second major, minor, etc.). UW-Eau Claire cannot guarantee all courses will be offered as shown, but will provide a range of courses that may enable prepared students to fulfill their requirements in a timely period. This sample degree plan is just a guide. Please consult your advisor, your degree audit, and the catalog to create your own degree plan. *Note:* In order to earn the required minimum of 120 credits for the degree in four years, you should plan to take 15 credits each semester or 30 credits each year.

To earn a degree, students must fulfill all University Graduation Requirements, including the Core General Education Requirements (CGER). CGER course work in the following sample degree plan uses abbreviations such as CGER CL, CGER HA, and CGER NSWL to represent the learning outcomes students will meet via completion of the course. Please click here for a description of the outcomes and requirements.

Students in this major have the option to pursue either a Bachelor of Arts (B.A.) or a Bachelor of Science (B.S.) degree. The degrees are distinguished by second language competency for the B.A. and a higher level of mathematics competency for the B.S.

FIRST YEAR

TOTAL	14-18

Minimum total for the baccalaureate degree = 120 credits

- a Prerequisites: MATH 109 or placement into math course above 109; CHEM 105 and CHEM 106, or CHEM 108, or CHEM 115 or concurrent enrollment.
- b Grade of C or above in BIOL 221.
- c Best if Foundational Core course series (BIOL 221, BIOL 222, BIOL 223) is completed within 1st three semesters.

Note 1: Students may also earn credit for directed and independent studies, internships, and through winterim or interim course offerings.

Note 2: Must maintain a 2.0 GPA in major program.

RECOMMENDATIONS FOR HIGH IMPACT PRACTICES (HIPs)

The University of Wisconsin-Eau Claire encourages all students to participate in High Impact Practices. The following information identifies any specific recommendations that faculty in this major have concerning which HIPs might be most beneficial to students, and any recommendations about when those HIPs best fit into the degree plan. Students should also consult their faculty advisor for information on HIPs. There are many additional high impact opportunities available. Talk to your academic advisor for more information about incorporating HIPs like Study Abroad, Intercultural Immersion, Internship, and/or Student/Faculty Collaborative Research into your time at UW-Eau Claire. These are best pursued after completion of Foundation coursework (BIOL 221, BIOL 222, and BIOL 223).

Core General Education Requirements (CGER)

Core General Education Requirements (CGER)

The Core General Education Requirements (CGER) includes a minimum of 10 courses across 6 categories. Students must complete a minimum of 36 credits in courses approved for the CGER Core.

- Mathematics & Quantitative Reasoning (MQR) - 4 credits, one course minimum
 - Includes the University Mathematics Requirement¹
- Communication & Literacy (CL) - 8 credits, two courses minimum
 - Includes the University Writing Requirement (CL-W)²
- Natural Sciences & Wellness (NSW/NSWL) - 6 credits, one course minimum (NSW-Lab required)
- Social & Behavioral Sciences (SBS) - 6 credits, two courses minimum
- Humanities & Arts (HA) - 6 credits, two courses minimum
- Civics & Perspectives (CP) - 6 credits, two courses minimum

¹ **University Mathematics Requirement:**

Students satisfy the University Mathematics Requirement in one of four ways:

- completing an approved university-level mathematics course (MQR) with a grade of C (not C-) or above
- achieving a suitable score on the UW Math Placement Test (<https://www.uwec.edu/academics/academic-support/advising/testing/placement-testing/>)
- achieving a suitable score on an exam such as the Advanced Placement Calculus or Advanced Placement Statistics exams
- achieving a suitable score on a Credit by Examination administered by the Department of Mathematics.

² **University Writing Requirement:**

- Students satisfy the University Writing Requirement in one of four ways:
- completing a Blugold Seminar in Critical Reading and Writing course (WRIT 102 (<https://catalog.uwec.edu/search/?P=WRIT%20102>), WRIT 114 (<https://catalog.uwec.edu/search/?P=WRIT%20114>), WRIT 116 (<https://catalog.uwec.edu/search/?P=WRIT%20116>), WRIT 118 (<https://catalog.uwec.edu/search/?P=WRIT%20118>), or WRIT 120 (<https://catalog.uwec.edu/search/?P=WRIT%20120>)) with a grade of C (not C-) or above
 - achieving a suitable score on the English Placement Test (<https://www.uwec.edu/academics/blugold-seminar/writ-courses-placement/>) (WPT ENGL)
 - achieving a suitable score on an exam such as the Advanced Placement English Literature and Composition or Advanced Placement English Language and Composition exams
 - achieving a suitable score on the University Writing Program Portfolio.

Completion via Placement Test

- Writing: If the CL-W subcategory is satisfied through a placement test, the CGER Communication and Literacy requirement will be reduced from 8 credits (2 courses) to 3 credits (1 course).
- Mathematics: If the University Math Requirement is satisfied through a placement test, the CGER Mathematics & Quantitative Reasoning requirement will be considered fully met, replacing the 4-credit (1 course) requirement.
- Students must still complete 36 credits across 10 courses, with any remaining credits or courses eligible to be taken from any CGER category.

A set number of general education courses will be accepted from other technical schools. Occupational and technical courses may also be considered for transfer if the quality and content of the course work from the technical college is judged to be comparable to course work at UW-Eau Claire. Refer to the Transfer Credit Wizard (https://www.uwec.sis.wisconsin.edu/psp/eauprd-tb/EMPLOYEE/SA/c/EAU_SS_CUSTOM.EAU_TRNCRDWZ.GBL) or contact the UW-Eau Claire Admissions Office for information about the current transfer policy.

USAFI Credit. UW-Eau Claire will accept up to 32 semester credits for work done through the United States Armed Forces Institute, under the provision for non-UW correspondence credit (see Extension Credits above).

Activity Credit (band, chorus, drama, KINS 100-184 courses) Students may count toward graduation no more than one credit of KINS 110-184 courses. Students may count toward graduation no more than four credits earned in any single activity course and no more than 12 credits resulting from any combination of activity courses (excluding KINS 110-184 courses).

Other Restricted Credits. For other University restrictions, see the following: Cooperative Education; Credit by Examination; Satisfactory/Unsatisfactory Registration; Transfer of Credits. College or departmental restrictions may also be placed on Independent Study (399-499 courses), Directed Study (395-495), and other types of credits.

APPLICABILITY OF CREDITS TOWARD GRADUATION		Credit Restrictions
Satisfactory/Unsatisfactory		
Total degree credit		maximum 12
Major, Standard		maximum 1 course
Major, Comprehensive		maximum 2 courses
Minor		maximum 1 course
Credit by Examination		
Total degree credit		maximum ¼ of total

Major or minor maximum ½ of total

Two-Year College Credits

Total degree credit maximum 72 credits

Activity credit (band, chorus, drama, KINS 100-184)

Total KINS 100-184 maximum 1 credit

Total Band, chorus, drama maximum 12 credits

Single course band, chorus, drama maximum 4 credits

Extension credits

UW-System no maximum

Other extension/correspondence maximum ¼ of total

USAFI

USAFI maximum 32 credits

Core General Education Requirements (CGER)

CGER Categories

Mathematics & Quantitative Reasoning (MQR) (<http://catalog.uwec.edu/undergraduate/outcome-mqr/>) 4 credit hours, 1 course min

Includes University Math Requirement ¹

Communication & Literacy (CL) (<http://catalog.uwec.edu/undergraduate/outcome-cl/>) 8 credit hours, 2 course min (including CL-W)

Includes University Writing Requirement (CL-W) (<http://catalog.uwec.edu/undergraduate/outcome-clw/>) ²

Natural Sciences & Wellness (NSW/NSWL) (<http://catalog.uwec.edu/undergraduate/outcome-NSW/>) 6 credit hours, 1 course min (NSW-Lab required)

Social & Behavioral Sciences (SBS) (<https://catalog.uwec.edu/undergraduate/outcome-sbs/>) 6 credit hours, 2 course min

Humanities & Arts (HA) (<http://catalog.uwec.edu/undergraduate/outcome-ha/>) 6 credit hours, 2 course min

Civics & Perspectives (CP) (<http://catalog.uwec.edu/undergraduate/outcome-cp/>) 6 credit hours, 2 course min

CGER Totals ³

Credits minimum 36 credits

Courses minimum 10 courses

¹ University Mathematics Requirement:

Students satisfy the University Mathematics Requirement in one of four ways:

- completing an approved university-level mathematics course (MQR) with a grade of C (not C-) or above
- achieving a suitable score on the UW Math Placement Test (<https://www.uwec.edu/academics/academic-support/advising/testing/placement-testing/>)
- achieving a suitable score on an exam such as the Advanced Placement Calculus or Advanced Placement Statistics exams

- achieving a suitable score on a Credit by Examination administered by the Department of Mathematics.

² University Writing Requirement:

Students satisfy the University Writing Requirement in one of four ways:

- completing a Blugold Seminar in Critical Reading and Writing course (WRIT 102 (<https://catalog.uwec.edu/search/?P=WRIT%20102>), WRIT 114 (<https://catalog.uwec.edu/search/?P=WRIT%20114>), WRIT 116 (<https://catalog.uwec.edu/search/?P=WRIT%20116>), WRIT 118 (<https://catalog.uwec.edu/search/?P=WRIT%20118>), or WRIT 120 (<https://catalog.uwec.edu/search/?P=WRIT%20120>)) with a grade of C (not C-) or above
- achieving a suitable score on the English Placement Test (<https://www.uwec.edu/academics/blugold-seminar/writ-courses-placement/>) (WPT ENGL)
- achieving a suitable score on an exam such as the Advanced Placement English Literature and Composition or Advanced Placement English Language and Composition exams
- achieving a suitable score on the University Writing Program Portfolio.

³ Completion via Placement Tests

- Writing: If the CL-W subcategory is satisfied through a placement test, the CGER Communication and Literacy requirement will be reduced from 8 credits (2 courses) to 3 credits (1 course).
- Mathematics: If the University Math Requirement is satisfied through a placement test, the CGER Mathematics & Quantitative Reasoning requirement will be considered fully met, replacing the 4-credit (1 course) requirement.
- Students must still complete 36 credits across 10 courses, with any remaining credits or courses eligible to be taken from any CGER category.

College Degree Requirements

Bachelor of Arts or Bachelor of Science Degree (B.A./B.S.)

University Graduation Requirements. All candidates for degrees must fulfill the requirements for credits, curriculum, GPA, and University residency as specified in the section of this catalog titled University Graduation Requirements.

College Graduation Requirements: Grade Point Averages. All candidates for degrees in the College of Arts and Sciences must earn minimum resident and total GPAs of 2.00 in the major, the minor, and the certificate. The resident and total GPAs for the major are computed using all attempted credits applicable to the major including those offered by departments other than the major department. The resident and total GPAs for the minor and the certificate are computed similarly.

Major-Minor and Major-Certificate Requirements. A standard major (a minimum of 36 credits) must be supplemented by a minor (a minimum of 24 credits) or by a certificate (12 to 18 credits) to meet graduation requirements for completing a first and second degree program. No minor or certificate is required with a Comprehensive Major (60 or more credits) or with two majors of 36 or more credits each.

Certain degree programs, which include Comprehensive Majors, may require more than the minimum of 120 credits for graduation.

Acceptable academic program combinations are determined at the college level. A major and a minor or a major and certificate or two majors (if available)

may not be elected in the same department or program, except in the approved combinations listed here.

College Credits. Earn at least 90 credits in courses offered by the College of Arts and Sciences.

Bachelor of Arts Degree in the College of Arts and Sciences (B.A.)

Fulfillment of all University Graduation Requirements (which includes the Core General Education Requirements); all College-level degree requirements (major and minor/certificate emphases, GPAs, earning at least 90 credits in Arts and Sciences course work); second language competency at the 102 level. Second language competency may be met in one of two ways: (1) Demonstrate a level of second language competency that qualifies the student to enter the 201-level course in a second language. (2) Earn a grade of at least C (not C-) or a mark of S in a 102-level second language course (or AIS 112 or AIS 122 or SLHS 103).

Bachelor of Science Degree in the College of Arts and Sciences (B.S.)

Fulfillment of all University Graduation Requirements (which includes the Core General Education Requirements); all College-level degree requirements (major and minor/certificate emphases, GPAs, earning at least 90 credits in Arts and Sciences course work); mathematics competency at the MATH 111, MATH 112 or MATH 113 level. Mathematics competency can be met in one of three ways: (1) Achieve a score on the mathematics placement test that qualifies the student to enter MATH 114. (2) Earn a grade of at least C (not C-) or a mark of S in MATH 111, MATH 112, or MATH 113. (3) Achieve a satisfactory score on the MATH 112 competency test. This test may be attempted no more than two times.

Major Requirements

Liberal Arts (Code 080-203)

Code	Title	Credits
Thirty-six semester credits, including:		
Core Courses:		
BIOL 221	Foundations of Biology I	4
BIOL 222	Foundations of Biology II	3
BIOL 223	Foundations of Biological Inquiry	2
BIOL 321	Ecology	3
BIOL 323	Genetics	3
A minimum of two upper-division lab courses selected from the following list:		
BIOL 311	General Entomology	4
BIOL 314	Human Anatomy and Physiology II	4
BIOL 317	Human Physiology	4
BIOL 318	Plant Form and Function	4
BIOL 319	Animal Form and Function	4
BIOL 324	Genetics Inquiry	2
BIOL 325	Plant Systematics	4
BIOL 328	Conservation Biology	4
BIOL 332	Field Botany	3
BIOL 338	Vegetation Ecology	4
BIOL 345	Invertebrate Zoology	4
BIOL 351	Systems Neuroscience Lab	3
BIOL 356	Vertebrate Biology	4
BIOL 361	Biology of Microorganisms	5
BIOL 362	Field Zoology	3

BIOL 365	Animal Behavior	4
BIOL 376	Aquatic Ecology	3-4
BIOL 379	Biology of Fishes	4
BIOL 380	Endocrinology	4
BIOL 386	Biology Research Methods	3
BIOL 405	Advanced Cell and Molecular Lab	4
BIOL 423	Collaborative Research in Biology	3

Additional biology courses not specifically excluded from the biology major to complete the 36 credit total in biology.

In addition to the 36 credits in biology, students who pursue the Liberal Arts Major in Biology must complete:

Code	Title	Credits
MATH 114	Calculus I	4
AND		
CHEM 105 & CHEM 106 & CHEM 109	General Chemistry I Lecture and General Chemistry I Laboratory and General Chemistry II	9
OR		
CHEM 108 & CHEM 109	General Chemistry I and General Chemistry II	8
OR		
CHEM 115	Chemical Principles	6

Program Learning Outcomes

Students completing this program will be expected to meet the following learning outcomes:

- Demonstrate an understanding of foundational biological principles in the areas of information flow, exchange, and storage, pathways and transformations of energy and matter, structure and function, and systems and evolution.
- Apply the process of science.
- Communicate and collaborate and to recognize the interdisciplinary nature of science.
- Use quantitative reasoning, models and/or simulation.
- Understand the relationship between science and society.

Biology, Major-Liberal Arts, B.S.

The following is a sample degree plan, based on the current catalog. It is based on the 120-credit graduation requirement and assumes no transferred credits, no requirements waived by placement tests, no courses taken in the summer or winter, no repeated courses, and no remedial courses that may be required. This sample degree plan is intended for first-year students entering UW-Eau Claire in the fall semester. Your own degree plan may differ depending on the course of study selected (second major, minor, etc.). UW-Eau Claire cannot guarantee all courses will be offered as shown, but will provide a range of courses that may enable prepared students to fulfill their requirements in a timely period. This sample degree plan is just a guide. Please consult your advisor, your degree audit, and the catalog to create your own degree plan. *Note:* In order to earn the required minimum of 120 credits for the degree in four years, you should plan to take 15 credits each semester or 30 credits each year.

To earn a degree, students must fulfill all University Graduation Requirements, including the Core General Education Requirements (CGER). CGER course work in the following sample degree plan uses abbreviations such as CGER CL, CGER HA, and CGER NSWL to represent the learning outcomes students will meet via

completion of the course. Please click here for a description of the outcomes and requirements.

Students in this major have the option to pursue either a Bachelor of Arts (B.A.) or a Bachelor of Science (B.S.) degree. The degrees are distinguished by second language competency for the B.A. and a higher level of mathematics competency for the B.S.

TOTAL	13-16

Minimum total for the baccalaureate degree = 120 credits

- a Prerequisites: MATH 109 or placement into math course above 109; CHEM 105 and CHEM 106, CHEM 108, or CHEM 115 or concurrent enrollment.
- b Grade of C or above in BIOL 221.
- c Best if Foundational Core course series (BIOL 221, BIOL 222, BIOL 223) is completed within 1st three semesters.
- d Grades of C or above in BIOL 222 and BIOL 223.

Note 1: Students may also earn credit for directed and independent studies, internships, and through winterim or interim course offerings.

Note 2: Must maintain a 2.0 GPA in major program.

RECOMMENDATIONS FOR HIGH IMPACT PRACTICES (HIPs)

The University of Wisconsin-Eau Claire encourages all students to participate in High Impact Practices. The following information identifies any specific recommendations that faculty in this major have concerning which HIPs might be most beneficial to students, and any recommendations about when those HIPs best fit into the degree plan. Students should also consult their faculty advisor for information on HIPs. There are many additional high impact opportunities available. Talk to your academic advisor for more information about incorporating HIPs like Study Abroad, Intercultural Immersion, Internship, and/or Student/Faculty Collaborative Research into your time at UW-Eau Claire. These are best pursued after completion of Foundation coursework (BIOL 221, BIOL 222, and BIOL 223).

Core General Education Requirements (CGER)

Core General Education Requirements (CGER)

The Core General Education Requirements (CGER) includes a minimum of 10 courses across 6 categories. Students must complete a minimum of 36 credits in courses approved for the CGER Core.

- Mathematics & Quantitative Reasoning (MQR) - 4 credits, one course minimum
 - Includes the University Mathematics Requirement¹
- Communication & Literacy (CL) - 8 credits, two courses minimum
 - Includes the University Writing Requirement (CL-W)²
- Natural Sciences & Wellness (NSW/NSWL) - 6 credits, one course minimum (NSW-Lab required)
- Social & Behavioral Sciences (SBS) - 6 credits, two courses minimum
- Humanities & Arts (HA) - 6 credits, two courses minimum
- Civics & Perspectives (CP) - 6 credits, two courses minimum

- ¹ **University Mathematics Requirement:**
Students satisfy the University Mathematics Requirement in one of four ways:
- completing an approved university-level mathematics course (MQR) with a grade of C (not C-) or above
 - achieving a suitable score on the UW Math Placement Test (<https://www.uwec.edu/academics/academic-support/advising/testing/placement-testing/>)
 - achieving a suitable score on an exam such as the Advanced Placement Calculus or Advanced Placement Statistics exams
 - achieving a suitable score on a Credit by Examination administered by the Department of Mathematics.
- ² **University Writing Requirement:**
Students satisfy the University Writing Requirement in one of four ways:
- completing a Blugold Seminar in Critical Reading and Writing course (WRIT 102 (<https://catalog.uwec.edu/search/?P=WRIT%20102>), WRIT 114 (<https://catalog.uwec.edu/search/?P=WRIT%20114>), WRIT 116 (<https://catalog.uwec.edu/search/?P=WRIT%20116>), WRIT 118 (<https://catalog.uwec.edu/search/?P=WRIT%20118>), or WRIT 120 (<https://catalog.uwec.edu/search/?P=WRIT%20120>)) with a grade of C (not C-) or above
 - achieving a suitable score on the English Placement Test (<https://www.uwec.edu/academics/blugold-seminar/writ-courses-placement/>) (WPT ENGL)
 - achieving a suitable score on an exam such as the Advanced Placement English Literature and Composition or Advanced Placement English Language and Composition exams
 - achieving a suitable score on the University Writing Program Portfolio.

Completion via Placement Test

- Writing: If the CL-W subcategory is satisfied through a placement test, the CGER Communication and Literacy requirement will be reduced from 8 credits (2 courses) to 3 credits (1 course).
- Mathematics: If the University Math Requirement is satisfied through a placement test, the CGER Mathematics & Quantitative Reasoning requirement will be considered fully met, replacing the 4-credit (1 course) requirement.
- Students must still complete 36 credits across 10 courses, with any remaining credits or courses eligible to be taken from any CGER category.

Science Teaching, Biology
Emphasis Comprehensive Major

Teaching (Code 241-004)

University Requirements

GRADUATION REQUIREMENTS FOR BACCALAUREATE
DEGREE

Senior year	23
Major, Standard, upper division in residence	12
Major, Comprehensive, upper division in residence	21
Certificate	25 percent of credits

Procedures Required for Graduation

Obtain admission to the degree program and/or the College offering it.

Apply for graduation on CampS.

- ¹ Certain programs exceed this minimum.
- ² See special requirements in each College.

Applicability of Credits Toward Graduation

Junior College or Two-Year College Credits. A maximum of 72 semester credits earned in a junior college or two-year college will be accepted as degree credits at UW-Eau Claire.

Extension Credits. Credits earned in credit outreach courses offered by UW-Eau Claire are treated as resident credits. Credits earned in extension courses offered by other units of the Universities of Wisconsin System are treated as transfer credits. All other (non-UW) extension and correspondence credits are normally limited to one-fourth of the total required for graduation from any curriculum.

WTCS Credits. A maximum of 72 semester credits earned in college parallel programs at Madison Area Technical College, Milwaukee Area Technical College, Nicolet Area Technical College, or Chippewa Valley Technical College may be accepted as degree credits at UW-Eau Claire. A set number of general education courses will be accepted from other technical schools. Occupational and technical courses may also be considered for transfer if the quality and content of the course work from the technical college is judged to be comparable to course work at UW-Eau Claire. Refer to the Transfer Credit Wizard (https://www.uwec.sis.wisconsin.edu/psp/eauprd-tb/EMPLOYEE/SA/c/EAU_SS_CUSTOM.EAU_TRNCRDWZ.GBL) or contact the UW-Eau Claire Admissions Office for information about the current transfer policy.

USAFI Credit. UW-Eau Claire will accept up to 32 semester credits for work done through the United States Armed Forces Institute, under the provision for non-UW correspondence credit (see Extension Credits above).

Activity Credit (band, chorus, drama, KINS 100-184 courses) Students may count toward graduation no more than one credit of KINS 110-184 courses. Students may count toward graduation no more than four credits earned in any single activity course and no more than 12 credits resulting from any combination of activity courses (excluding KINS 110-184 courses).

Other Restricted Credits. For other University restrictions, see the following: Cooperative Education; Credit by Examination; Satisfactory/Unsatisfactory Registration; Transfer of Credits. College or departmental restrictions may also be placed on Independent Study (399-499 courses), Directed Study (395-495), and other types of credits.

APPLICABILITY OF CREDITS TOWARD GRADUATION	Credit Restrictions

- Students must still complete 36 credits across 10 courses, with any remaining credits or courses eligible to be taken from any CGER category.

College Degree Requirements

College of Health and Human Sciences Requirements for Teacher Education Programs

1. Grade point requirements:

Abbreviation	Full Title
Resident	2.75 average
Total	2.75 average
Major	2.75 average
Minor (for certification only)	2.75 average

2. Residency requirements:

Abbreviation	Full Title
Minimum Total	30 credits
Senior Year	23 credits
Major, in upper division courses	12 credits
Comprehensive Major, in upper division courses	21 credits

3. Criteria and requirements for Admission to Education Program and Admission to the Professional Education Semester.
4. Specific requirements for programs offered in the College of Health and Human Sciences as outlined in department specific sections of this catalog.

Admission to Education Program

Admission to the Education Program

Students must apply for admission to the Education Program. Applications are due by October 1 for spring admission or March 1 for fall admission. To submit an application to an Education Program, students must satisfy all of the requirements listed below:

1. Approval by the appropriate department in the College of Health and Human Sciences.
2. Pre-education status.
3. Students must have attained at least Sophomore Status
4. Minimum total GPA of 2.5 or minimum resident GPA of 2.5. Admission is competitive; thus, the minimum GPA does not assure admission.
5. Completed the Core General Education Requirement (CGER) for Communication & Literacy-Writing with a C or better.
6. Completed the Core General Education Requirement (CGER) for Mathematics & Quantitative Reasoning with a C or better.
7. Good academic standing.
8. Complete an introductory education course with a field placement (SEIP 208, ES 212, or the equivalent) with a grade of C or better.

Specific majors may have additional department-level criteria. Consult with the department if needed.

Admission to the Professional Education Semester (Student Teaching or Internship)

Admission to the Professional Education Semester

The "Professional Education Semester" is defined as the semester in which a student is enrolled in the field experience of student teaching or internship.

Filing Notice of Intent to Student Teach Applications: Information concerning the Notice of Intent to Student Teach will be advertised widely and posted across campus each semester with an associated due date. Students who plan to enter the Professional Education Semester during the fall semester of the next academic year must file a Notice of Intent to Student Teach with the Teacher Education Program office in the fall. Students who plan to enter the Professional Education Semester during the spring semester of the next academic year must file a Notice of Intent to Student Teach with the Teacher Education Program office in the spring.

Students are encouraged to submit their Notice of Intent to Student Teach by the announced due date. Considerable time is required to process each notice—that is, to determine eligibility, to make arrangements with schools for an appropriate field experience assignment, and to allow for introductions,

orientations, and, in some cases, interviews. Students who file on time will benefit by the careful consideration that can be given to their requests; the later a notice is received, the fewer the placement assignments and choices still available will be. Failure to file a Notice of Intent to Student Teach on time may result in a delay of the Professional Education Semester.

Transfer and Special Students: No transfer or special student can enter the Professional Education Semester until after a full semester of residence and after earning a minimum of 15 credits at UW-Eau Claire. Senior transfer students enrolling in September must file an application for admission to the professional semester by December 1 for the following fall.

Criteria for Admission:

1. Admitted to the appropriate Education Program.
2. Good academic standing, as defined in the catalog.
3. A minimum of 90 earned credits prior to start of Professional Education Semester.
4. Minimum total GPA of 2.75 or minimum resident GPA of 2.75.
5. Completion of the 30-hour Human Relations Fieldwork requirement.
6. Evidence of freedom from Tuberculosis via test conducted by Student Health Services.
7. Completion of required criminal background check.

For placements that start in the Fall semester, criteria for admission must be met by March 1 of the prior semester. For placements that start in the Spring semester, criteria for admission must be met by October 1 of the prior semester. For placements that start in the summer session, criteria for admission must be met by February 1 of the prior semester.

Licensure Requirements

Licensure to Teach

College of Health and Human Sciences graduates who desire to teach in Wisconsin, will apply for licensure using the WI Department of Public Instruction's (DPI) ELO (Electronic Licensing Online) by following all steps listed on the site including fingerprinting if applicable.

Upon completion of all program requirements and WI DPI teaching requirements, information will be forwarded to DPI verifying program completion, the completion of all required tests, and information on all certifications the teaching candidates are eligible for with licensure. Candidates will then apply for their Initial License.

It is recommended that graduates seeking licensure to teach in states other than Wisconsin request application forms and instructions from the state in which licensure is desired. Early inquiry is suggested as the certification requirements vary by state. In most cases, an official transcript of credits must accompany the completed application form; additional tests or coursework may be required. In general, candidates may be able to obtain licenses in other states; however, these licenses may be issued with stipulations. It is the student's responsibility to understand the licensing requirements of other states. UW-Eau Claire programs are designed to meet the requirements in Wisconsin only.

Criteria for Recommendation for Licensure:

1. Completion of a baccalaureate degree.
2. Completion of an approved education major, minor, and/or certificate.

3. 2.75 or higher GPA in the major, minor, and/or certificate (if certifiable). All college level courses, except student teaching or internship are included when determining GPA for licensure.

4. Completion of student teaching or internship courses with an S.

5. Content area proficiency as demonstrated by earning a minimum 3.0 GPA in content courses OR via obtaining a passing score on the appropriate Praxis II. Candidates for licensure in Languages must obtain a passing score on the ACTFL written portion (WPT) and must pass the OPI/OPIc within three years prior to the start of student teaching or internship. All candidates seeking licensure must also earn a passing score on the FORT.

Major Requirements

Teaching (Code 241-004)

Secondary Education (Grades 4-12) students complete courses in the content area(s) they plan to teach; one or more methods courses specific to the content area; Professional Education coursework focused on instructional methods, assessment of student learning, and curriculum and lesson planning; and ten credits of Student Teaching or Student Teaching Internship.

A Secondary Education student must complete the following requirements to be recommended for licensure:

1. Earn a grade of C or higher in all content-area specific methods coursework and Professional Education coursework.
2. Earn a grade of S in student teaching or student teaching internship.
3. Earn a content area GPA of 3.0 or higher OR complete the appropriate Praxis II or ACTFL test with a passing grade.

Code	Title	Credits
SCIENCE TEACHING, BIOLOGY, MAJOR REQUIREMENTS		60-78
Biology Core Requirements		25-27
BIOL 221	Foundations of Biology I (CGER NSWL)	4
BIOL 222	Foundations of Biology II	3
BIOL 223	Foundations of Biological Inquiry	2

Option 1		
CHEM 108	General Chemistry I (CGER NSWL)	
CHEM 109	General Chemistry II	
Option 2		
CHEM 115	Chemical Principles (CGER NSWL)	
Earth & Space Science Core Requirements		11
PHYS 226	Astronomy-Solar System (CGER NSWL)	4
Select one:		
GEOL 110	Physical Geology (CGER NSWL)	
GEOL 115	Environmental Geology (CGER NSWL)	
Select one:		
GEOL 301	Earth Resources and Sustainability (CGER NSW)	
GEOL 304	Global Environmental Change	
GEOL 308	Water Resources	
PROFESSIONAL EDUCATION REQUIREMENTS		30
ES 212	Exploring Schooling K-12	2-3
ES 313	Curriculum, Instructional Methods, and Disciplinary Literacies in Grades K-12	3
ES 314	Collaboration, Engagement, and Assessment in Grades K-12	3
ES 441 or ES 440	Student Teaching in K-12 Education or Internship Teaching in K-12 Education	10
ES 490	Historical, Legal, and Philosophical Foundations of Education	3
ES 497	Field Experience Seminar	2
PSYC 260	Educational Psychology (CGER SBS)	3
SEIP 300	Inclusive Practices for Secondary Educators	3

Program Learning Outcomes

Students completing this program will be expected to meet the following learning outcomes:

- Demonstrate an understanding of foundational biological principles in the areas of cell/molecular biology, genetics, evolution, ecology, diversity of life, and structure & function of organisms.
- Understand and apply basic research methods in biology including research design, data analysis, and communication.
- Work collaboratively to explore and solve problems.
- Apply theories, concepts, findings, and methods of biology to problems/issues in society.
- Understand how biological theories, concepts, findings, and methods relate to other disciplines.

- Demonstrate competence in mathematics, statistics, and computer technology as tools for revealing and characterizing complex patterns in biological systems.
- Understand and apply scientific reasoning and methods in learning science and/or in conducting biological research.
- Communicate scientific ideas and results in a variety of formats.

Science Teaching, Biology Emphasis Comprehensive Major (B.S.)

The following is a sample degree plan, based on the current catalog. It is based on the 120-credit graduation requirement and assumes no transferred credits, no requirements waived by placement tests, no courses taken in the summer or winter, no repeated courses, and no remedial courses that may be required. This sample degree plan is intended for first-year students entering UW-Eau Claire in the fall semester. Your own degree plan may differ depending on the course of study selected (second major, minor, etc.). UW-Eau Claire cannot guarantee all courses will be offered as shown but will provide a range of courses that may enable prepared students to fulfill their requirements in a timely period. This sample degree plan is just a guide. Please consult your advisor, your degree audit, and the catalog to create your own degree plan. Note: In order to earn the required minimum of 120 credits for the degree in four years, you should plan to take 15 credits each semester or 30 credits each year.

To earn a degree, students must fulfill all University Graduation Requirements, including the Core General Education Requirements (CGER). CGER course work in the following sample degree plan uses abbreviations such as CGER CL, CGER HA, and CGER NSWL to represent the learning outcomes students will meet via completion of the course. Please click here for a description of the outcomes and requirements.

FIRST YEAR

First Semester		
CHEM 108	General Chemistry I (CGER NSWL)	4
MATH 109	Algebra for Calculus (CGER MQR)	4
Select one:		2-5
WRIT 114	Intensive Bugold Seminar in Critical Reading and Writing (CGER CL)	
WRIT 116	Bugold Seminar in Critical Reading and Writing (CGER CL)	
WRIT 118	Accelerated Bugold Seminar in Critical Reading and Writing (CGER CL)	
ES 149	Introduction to Education	1
CGER Course Option		
Second Semester		
CHEM 109	General Chemistry II	4
BIOL 221	Foundations of Biology I (CGER NSWL)	4
General Science Course ¹

SECOND SEMESTER		
ES 441	Student Teaching in K-12 Education	10
or ES 440	Internship Teaching in K-12 Education	
ES 497	Field Experience Seminar (LE-11, S3)	2

TOTAL FOURTH YEAR		30

¹ General Science courses include the following options:

Physics--select from PHYS 211 + PHYS 212 or PHYS 231, PHYS 232, MATH 114 + MATH 215

Chemistry--select from CHEM 108 + 109 (included in sample plan) or CHEM 115

Earth & Space Science--PHYS 226 + GEOL 110, GEOL 115, or GEOL 118 + GEOL 301, GEOL 304, or GEOL 308

² Apply for Admission to Education Program

RECOMMENDATIONS FOR HIGH IMPACT PRACTICES (HIPs)

The University of Wisconsin-Eau Claire encourages all students to participate in High Impact Practices. There are many high-impact opportunities available. Talk to your academic advisor for more information about incorporating HIPs like Study Abroad, Intercultural Immersion, Internship, and/or Student/Faculty Collaborative Research into your time at UW-Eau Claire.

Core General Education Requirements (CGER)

Core General Education Requirements (CGER)

The Core General Education Requirements (CGER) includes a minimum of 10 courses across 6 categories. Students must complete a minimum of 36 credits in courses approved for the CGER Core.

- Mathematics & Quantitative Reasoning (MQR) - 4 credits, one course minimum
 - Includes the University Mathematics Requirement¹
- Communication & Literacy (CL) - 8 credits, two courses minimum
 - Includes the University Writing Requirement (CL-W)²
- Natural Sciences & Wellness (NSW/NSWL) - 6 credits, one course minimum (NSW-Lab required)
- Social & Behavioral Sciences (SBS) - 6 credits, two courses minimum
- Humanities & Arts (HA) - 6 credits, two courses minimum
- Civics & Perspectives (CP) - 6 credits, two courses minimum

¹ University Mathematics Requirement:

Students satisfy the University Mathematics Requirement in one of four ways:

- completing an approved university-level mathematics course (MQR) with a grade of C (not C-) or above
- achieving a suitable score on the UW Math Placement Test (<https://www.uwec.edu/academics/academic-support/advising/testing/placement-testing/>)
- achieving a suitable score on an exam such as the Advanced Placement Calculus or Advanced Placement Statistics exams
- achieving a suitable score on a Credit by Examination administered by the Department of Mathematics.

² University Writing Requirement:

Students satisfy the University Writing Requirement in one of four ways:

- completing a Blugold Seminar in Critical Reading and Writing course (WRIT 102 (<https://catalog.uwec.edu/search/?P=WRIT%20102>), WRIT 114 (<https://catalog.uwec.edu/search/?P=WRIT%20114>), WRIT 116 (<https://catalog.uwec.edu/search/?P=WRIT%20116>), WRIT 118 (<https://catalog.uwec.edu/search/?P=WRIT%20118>), or WRIT 120 (<https://catalog.uwec.edu/search/?P=WRIT%20120>)) with a grade of C (not C-) or above
- achieving a suitable score on the English Placement Test (<https://www.uwec.edu/academics/blugold-seminar/writ-courses-placement/>) (WPT ENGL)

- achieving a suitable score on an exam such as the Advanced Placement English Literature and Composition or Advanced Placement English Language and Composition exams
- achieving a suitable score on the University Writing Program Portfolio.

Completion via Placement Test

- Writing: If the CL-W subcategory is satisfied through a placement test, the CGER Communication and Literacy requirement will be reduced from 8 credits (2 courses) to 3 credits (1 course).
- Mathematics: If the University Math Requirement is satisfied through a placement test, the CGER Mathematics & Quantitative Reasoning requirement will be considered fully met, replacing the 4-credit (1 course) requirement.
- Students must still complete 36 credits across 10 courses, with any remaining credits or courses eligible to be taken from any CGER category.

Biology, General, Minor

Liberal Arts (Code 080-401)

Code	Title	Credits
Twenty-four semester credits in Biology, including:		
BIOL 221	Foundations of Biology I	4
BIOL 222	Foundations of Biology II	3
BIOL 223	Foundations of Biological Inquiry	2

Program Learning Outcomes

Students completing this program will be expected to meet the following learning outcomes:

- Understand foundational biological principles in the areas of cell/molecular biology, genetics, evolution, ecology, diversity of life, and structure & function of organisms.
- Understand the process of biological research and the basics of scientific writing.
- Present the results of research in both written and oral forms.

Chemistry and Biochemistry

Phillips 430

715-836-3417

Department Website (<https://www.uwec.edu/academics/college-arts-sciences/departments-programs/chemistry-biochemistry/>)

The degree programs in the Department of Chemistry and Biochemistry offer the rare opportunity to build a useful and marketable set of technical skills, while obtaining a well-rounded liberal arts education that will provide communication and “people” skills. The department offers a variety of majors and interdisciplinary programs, with varying degrees of specialization designed to meet the needs and interests of a broad range of students. The A.C.S. certified majors are ideal for students seeking a rigorous and focused course of study, and are well-suited to those seeking immediate employment in the chemical industry or planning graduate study in chemistry or biochemistry. The liberal arts major offers broader professional options, is more flexible in terms of elective coursework, and is paired with a minor or second major. The liberal arts major is also an excellent choice for pre-pharmacy, pre-medicine, pre-dentistry, and other pre-professional students. Students interested in biological

chemistry may also consider the interdisciplinary comprehensive major in biochemistry/molecular biology offered jointly with the Biology Department.

The Chemistry with Business Emphasis major offers a unique course of study that is ideal for those seeking a business career in a technical industry. This program offers a powerful combination of technical training in the field of chemistry, a core of business classes, and a targeted course sequence focused on industrial chemistry. This renders students incredibly well-prepared to enter sales, marketing, or customer support roles immediately upon graduation.

Faculty/student collaborative research is the hallmark of the Chemistry Department. These hands-on learning opportunities are key to acquainting students with the day-to-day activities of practicing chemists and often lead to summer employment and internship opportunities. Many students also have the opportunity to present their work at professional meetings prior to graduation.

The Chemistry Department is accredited by the American Chemical Society (A.C.S.) to certify its comprehensive degrees as meeting the breadth and depth requirements of the A.C.S. There are two A.C.S. certified options, including one focused on biological chemistry.

Honor Societies and Student Organizations:

The UW-Eau Claire student affiliate chapter of the American Chemical Society (ACS-SA) is a national award-winning organization that involves students in social, professional, and service activities at the university and in the community. This group has continued since the A.C.S. incorporated ACS-SA members into its general membership as Student Members. The UW-Eau Claire ACS-SA helps inform fellow students of curricular options and career opportunities and coordinates a tutoring program serving students in lower-level chemistry courses. All chemistry and biochemistry/molecular biology students are encouraged to become members of ACS-SA.

Departmental Honors in Chemistry and Biochemistry

Open to students in all programs in the Department of Chemistry and Biochemistry who meet the following *requirements*:

1. GPA of 3.50 or higher, both cumulative and in chemistry courses. Participation in a collaborative research project with a chemistry faculty member that results in:
2. a presentation at an off-campus research conference, and
3. completion of CHEM 497 with a favorable review of the manuscript by the research advisor and at least two additional faculty members.

Procedure: Students seeking Departmental Honors must:

1. Complete all requirements listed above.
2. Complete the Departmental Honors Application: This is submitted as an eform that is approved by faculty reviewers and the Chair; a transcript, and copies of the CHEM 497 manuscript and presentation abstract are attached to the form.
3. Submit a completed application by the date specified on the form.

Note: Names of Departmental Honors graduates must be forwarded to the University Honors Program Director and Registrar at least three weeks prior to commencement.

Information for All Students about General Chemistry Placement

NOTE 1: CHEM 108 is the first course in a two-semester general chemistry sequence that includes CHEM 108 and CHEM 109, while CHEM 115 combines material from this two-semester sequence into a single one-semester course. Students, especially chemistry, biochemistry/molecular biology (B/MB),

and materials science majors (see Note 5), who meet the enrollment criteria described in NOTES 2 and 3 are strongly encouraged to take CHEM 115 to complete their general chemistry requirement in a single semester.

NOTE 2: High school math performance is the best predictor of success in all 100-level chemistry courses. Students who place into MATH 114 or higher should almost always take CHEM 115. Students who place into MATH 109 or lower should take CHEM 108 as their first course, followed by CHEM 109. Students who place into MATH 112 or MATH 113 should consider their chemistry background and anticipated degree program when choosing between CHEM 108 and CHEM 115. Students with a strong high school chemistry background (see NOTE 3), and who are planning to major (or minor) in chemistry, B/MB, or materials science should usually take CHEM 115. Students with less chemistry preparation, or who are not planning on majoring (or minoring) in chemistry, B/MB, or materials science should probably start by taking CHEM 108.

NOTE 3: A "strong background" in high school chemistry can take several forms. Successful completion of an AP chemistry course or similarly enriched chemistry course constitutes a strong background. Successful completion of two years of high school chemistry; or one year of high school chemistry and one year of high school physics generally provides a strong background as well.

NOTE 4: Students who take CHEM 115, and after consultation with their CHEM 115 instructor in the first 2 of weeks of the course determine that CHEM 108 is the more appropriate starting point for them in chemistry, will be allowed to transfer to CHEM 108. Therefore, for close decisions between original enrollment in CHEM 108 or CHEM 115, students are encouraged to enroll in CHEM 115.

NOTE 5: Chemistry, B/MB, and materials science majors and minors receive 6 credits toward the major for CHEM 115 or a combination of CHEM 108 and CHEM 109. Therefore, these students should take CHEM 115 if they meet the enrollment criteria so that they can move on sooner to other courses in their major.

Majors

- Comprehensive Major: Chemistry, A.C.S. Certified - B.A./B.S.
- Comprehensive Major: Chemistry, A.C.S. Certified, Biochemistry Emphasis - B.A./B.S.
- Major: Chemistry, Liberal Arts - B.A./B.S.
- Comprehensive Major: Chemistry with Business Emphasis - B.A./B.S.

- Comprehensive Major: Biochemistry/Molecular Biology, Liberal Arts - B.A./B.S. (College of Arts and Sciences Interdisciplinary Major)
- Comprehensive Major: Science Teaching, Chemistry Emphasis - B.S. (College of Health and Human Sciences Secondary Education Program)

Minors

- Minor: Chemistry, Liberal Arts

Chemistry, A.C.S. Certified, Comprehensive Major

(Code 100-012)

University Requirements

GRADUATION REQUIREMENTS FOR BACCALAUREATE DEGREE

Credit Requirements	
Minimum total for graduation ¹	120
Upper division credits (courses numbered 300 and higher)	39
Core General Education	10 courses, 36 credits

Academic Concentrations

Grade Point Requirements ²	
Total	2.00 average
Resident	2.00 average
Major	2.00 average
Minor	2.00 average
Certificate	2.00 average

University Residency Requirements

Minimum total	30
Senior year	23
Major, Standard, upper division in residence	12
Major, Comprehensive, upper division in residence	21
Certificate	25 percent of credits

Procedures Required for Graduation

- Obtain admission to the degree program and/or the College offering it.
- Apply for graduation on CampS.

¹ Certain programs exceed this minimum.
² See special requirements in each College.

Applicability of Credits Toward Graduation

Junior College or Two-Year College Credits. A maximum of 72 semester credits earned in a junior college or two-year college will be accepted as degree credits at UW-Eau Claire.

Extension Credits. Credits earned in credit outreach courses offered by UW-Eau Claire are treated as resident credits. Credits earned in extension courses offered by other units of the Universities of Wisconsin System are treated as transfer credits. All other (non-UW) extension and correspondence credits are normally limited to one-fourth of the total required for graduation from any curriculum.

WTCS Credits. A maximum of 72 semester credits earned in college parallel programs at Madison Area Technical College, Milwaukee Area Technical College, Nicolet Area Technical College, or Chippewa Valley Technical College may be accepted as degree credits at UW-Eau Claire. A set number of general education courses will be accepted from other technical schools. Occupational and technical courses may also be considered for transfer if the quality and content of the course work from the technical college is judged to be comparable to course work at UW-Eau Claire. Refer to the Transfer Credit Wizard (https://www.uwec.sis.wisconsin.edu/psp/eauprd-tb/EMPLOYEE/SA/c/EAU_SS_CUSTOM.EAU_TRNCRDWZ.GBL) or contact the UW-Eau Claire Admissions Office for information about the current transfer policy.

USAFI Credit. UW-Eau Claire will accept up to 32 semester credits for work done through the United States Armed Forces Institute, under the provision for non-UW correspondence credit (see Extension Credits above).

Activity Credit (band, chorus, drama, KINS 100-184 courses) Students may count toward graduation no more than one credit of KINS 110-184 courses. Students may count toward graduation no more than four credits earned in any single activity course and no more than 12 credits resulting from any combination of activity courses (excluding KINS 110-184 courses).

Other Restricted Credits. For other University restrictions, see the following: Cooperative Education; Credit by Examination; Satisfactory/Unsatisfactory Registration; Transfer of Credits. College or departmental restrictions may also be placed on Independent Study (399-499 courses), Directed Study (395-495), and other types of credits.

APPLICABILITY OF CREDITS TOWARD GRADUATION

Credit Restrictions

Satisfactory/Unsatisfactory	
Total degree credit	maximum 12
Major, Standard	maximum 1 course
Major, Comprehensive	maximum 2 courses
Minor	maximum 1 course

Credit by Examination

Total degree credit	maximum ¼ of total
Major or minor	maximum ½ of total

Two-Year College Credits

Total degree credit	maximum 72 credits

Activity credit (band, chorus, drama, KINS 100-184)

Total KINS 100-184	maximum 1 credit
Total Band, chorus, drama	maximum 12 credits
Single course band, chorus, drama	maximum 4 credits

Extension credits

UW-System	no maximum
Other extension/correspondence	maximum ¼ of total

USAFI

USAFI	maximum 32 credits

¹ **University Mathematics Requirement:**

Students satisfy the University Mathematics Requirement in one of four ways:

- completing an approved university-level mathematics course (MQR) with a grade of C (not C-) or above
- achieving a suitable score on the UW Math Placement Test (<https://www.uwec.edu/academics/academic-support/advising/testing/placement-testing/>)
- achieving a suitable score on an exam such as the Advanced Placement Calculus or Advanced Placement Statistics exams
- achieving a suitable score on a Credit by Examination administered by the Department of Mathematics.

² **University Writing Requirement:**

Students satisfy the University Writing Requirement in one of four ways:

- completing a Blugold Seminar in Critical Reading and Writing course (WRIT 102 (<https://catalog.uwec.edu/search/?P=WRIT%20102>), WRIT 114 (<https://catalog.uwec.edu/search/?P=WRIT%20114>), WRIT 116 (<https://catalog.uwec.edu/search/?P=WRIT%20116>), WRIT 118 (<https://catalog.uwec.edu/search/?P=WRIT%20118>), or WRIT 120 (<https://catalog.uwec.edu/search/?P=WRIT%20120>)) with a grade of C (not C-) or above
- achieving a suitable score on the English Placement Test (<https://www.uwec.edu/academics/blugold-seminar/writ-courses-placement/>) (WPT ENGL)

- achieving a suitable score on an exam such as the Advanced Placement English Literature and Composition or Advanced Placement English Language and Composition exams
- achieving a suitable score on the University Writing Program Portfolio.

³ **Completion via Placement Tests**

- Writing: If the CL-W subcategory is satisfied through a placement test, the CGER Communication and Literacy requirement will be reduced from 8 credits (2 courses) to 3 credits (1 course).
- Mathematics: If the University Math Requirement is satisfied through a placement test, the CGER Mathematics & Quantitative Reasoning requirement will be considered fully met, replacing the 4-credit (1 course) requirement.
- Students must still complete 36 credits across 10 courses, with any remaining credits or courses eligible to be taken from any CGER category.

College Degree Requirements

Bachelor of Arts or Bachelor of Science Degree (B.A./B.S.)

University Graduation Requirements. All candidates for degrees must fulfill the requirements for credits, curriculum, GPA, and University residency as specified in the section of this catalog titled University Graduation Requirements.

College Graduation Requirements: Grade Point Averages. All candidates for degrees in the College of Arts and Sciences must earn minimum resident and total GPAs of 2.00 in the major, the minor, and the certificate. The resident and total GPAs for the major are computed using all attempted credits applicable to the major including those offered by departments other than the major department. The resident and total GPAs for the minor and the certificate are computed similarly.

Major-Minor and Major-Certificate Requirements. A standard major (a minimum of 36 credits) must be supplemented by a minor (a minimum of 24 credits) or by a certificate (12 to 18 credits) to meet graduation requirements for completing a first and second degree program. No minor or certificate is required with a Comprehensive Major (60 or more credits) or with two majors of 36 or more credits each.

Certain degree programs, which include Comprehensive Majors, may require more than the minimum of 120 credits for graduation.

Acceptable academic program combinations are determined at the college level. A major and a minor or a major and certificate or two majors (if available) may not be elected in the same department or program, except in the approved combinations listed here.

College Credits. Earn at least 90 credits in courses offered by the College of Arts and Sciences.

Bachelor of Arts Degree in the College of Arts and Sciences (B.A.)

Fulfillment of all University Graduation Requirements (which includes the Core General Education Requirements); all College-level degree requirements (major and minor/certificate emphases, GPAs, earning at least 90 credits in Arts and Sciences course work); second language competency at the 102 level. Second language competency may be met in one of two ways: (1) Demonstrate a level of second language competency that qualifies the student to enter the 201-level course in a second language. (2) Earn a grade of at least C (not C-)

or a mark of S in a 102-level second language course (or AIS 112 or AIS 122 or SLHS 103).

Bachelor of Science Degree in the College of Arts and Sciences (B.S.)

Fulfillment of all University Graduation Requirements (which includes the Core General Education Requirements); all College-level degree requirements (major and minor/certificate emphases, GPAs, earning at least 90 credits in Arts and Sciences course work); mathematics competency at the MATH 111, MATH 112 or MATH 113 level. Mathematics competency can be met in one of three ways:

(1) Achieve a score on the mathematics placement test that qualifies the student to enter MATH 114. (2) Earn a grade of at least C (not C-) or a mark of S in MATH 111, MATH 112, or MATH 113. (3) Achieve a satisfactory score on the MATH 112 competency test. This test may be attempted no more than two times.

Major Requirements

(Code 100-012)

The A.C.S. Certified Major is designed to prepare students to function effectively and professionally as practicing chemists, in graduate programs and/or in careers in government or industry labs. It offers effective preparation for immediate employment or matriculation to graduate school.

Core Requirements for A.C.S. and Liberal Arts Chemistry Majors

A minimum of 63-semester credits, including:

Code	Title	Credits
Chemistry Core		
Select one of the following: ¹		6
CHEM 115	Chemical Principles	
CHEM 105 & CHEM 106 & CHEM 109	General Chemistry I Lecture and General Chemistry I Laboratory and General Chemistry II	
CHEM 108 & CHEM 109	General Chemistry I and General Chemistry II	
Required:		
CHEM 213	Quantitative Analysis	4
CHEM 218	Introduction to Inorganic Chemistry	3
CHEM 325	Organic Chemistry I with Laboratory	4
CHEM 326	Organic Chemistry II with Laboratory	4
Additional Required Courses		
PHYS 231 & PHYS 232	University Physics I and University Physics II	10
MATH 114 & MATH 215	Calculus I and Calculus II	8
Total Credits		39

¹ Only six credits of the CHEM 105/CHEM 106/CHEM 109 sequence, or the CHEM 108/CHEM 109 sequence, are credited to the major.

Capstone Experience for Chemistry Majors

The capstone experience is met by completing CHEM 411 for chemistry with business emphasis majors, and by CHEM 420, CHEM 438, CHEM 453 or CHEM 497 for other chemistry majors.

Comprehensive Major: Chemistry, A.C.S. Certified

Requirements

In addition to the chemistry core and required mathematics/physics courses, students must complete the following course work:

Code	Title	Credits
CHEM 344	Modern Applied Separations and Spectrometry	2
CHEM 352	Fundamentals of Biochemistry	4
CHEM 433	Physical Chemistry I	4
CHEM 434	Physical Chemistry II	4
Two of the following:		4-5
CHEM 420	Advanced Synthesis Laboratory	
CHEM 438	Physical Analysis Laboratory	
CHEM 453	Biochemistry Laboratory	
Electives		
Take 2 courses from the following. At least one of the courses must be CHEM 318, CHEM 401, CHEM 426, or CHEM 491		6
CHEM 304	Environmental Chemistry	
CHEM 318	Bioinorganic Chemistry	
CHEM 361	Molecules and Medicine	
CHEM 401	Inorganic Chemistry	
CHEM 411	Survey of Industrial Chemistry	
CHEM 426	Modern Organic Chemistry	
CHEM 460	Polymer Chemistry	
CHEM 491	Special Topics	
CHEM 497	Independent Study - Research Manuscript	
Total Credits		24-25

Program Learning Outcomes

Students completing this program will be expected to meet the following learning outcomes:

- **Knowledge and Understanding:** Students will develop a rigorous understanding of chemical principles, and apply them to predict and rationalize chemical properties.
 - **Structure and Bonding:** Students can describe the structural properties of matter, as well as rationalize and predict chemical stability or physical properties on the basis of structure.
 - **Reactivity and Stability:** Students can classify and rationalize chemical transformations, and predict and quantify products.
 - **Instrumentation Theory:** Students can describe the underlying physical principles of various instruments and measurement techniques.
- **Skills:** Students will develop the skills need to be effective practitioners of the field by devolving laboratory proficiency, the capacity to think critically and creatively, and the ability to communicate effectively.
 - **Laboratory Skills:** Students will develop proficient laboratory technique.
 - **Chemical Reasoning:** Students will develop critical and creative thinking skills, use them within the context of the field.
 - **Communication Skills:** Students will develop effective oral and written communication skills.
 - **Literature Skills:** Students will become proficient with the chemical literature.
- **Responsibility:** Students will become responsible practitioners of the field, by practicing laboratory safety, recognizing the societal impacts of

chemistry, and identifying contributions made by individuals with a variety of social identities.

- **Chemical Safety:** Students will function safely in a chemical laboratory, and will manage waste effectively.
- **Ethical and Professional Conduct:** Students will conduct themselves ethically and professionally, cultivate awareness of the impact of chemistry on society, and recognize contributions from a diverse population.
- **Distinction:** Students in the Chemistry, ACS, General Emphasis major will develop a deeper comprehension of how physical principles manifest chemical behavior.

Chemistry, A.C.S.^f Certified, Comprehensive Major, B.S. (Starting with CHEM 115 and MATH 114)

The following is a sample degree plan, based on the current catalog. It is based on the 120-credit graduation requirement and assumes no transferred credits, no requirements waived by placement tests, no courses taken in the summer or winter, no repeated courses, and no remedial courses that may be required. This sample degree plan is intended for first-year students entering UW-Eau Claire in the fall semester. Your own degree plan may differ depending on the course of study selected (second major, minor, etc.). UW-Eau Claire cannot guarantee all courses will be offered as shown, but will provide a range of courses that may enable prepared students to fulfill their requirements in a timely period. This sample degree plan is just a guide. Please consult your advisor, your degree audit, and the catalog to create your own degree plan. *Note:* In order to earn the required minimum of 120 credits for the degree in four years, you should plan to take 15 credits each semester or 30 credits each year.

To earn a degree, students must fulfill all University Graduation Requirements, including the Core General Education Requirements (CGER). CGER course work in the following sample degree plan uses abbreviations such as CGER CL, CGER HA, and CGER NSWL to represent the learning outcomes students will meet via completion of the course. Please click here for a description of the outcomes and requirements.

Students in this major have the option to pursue either a Bachelor of Arts (B.A.) or a Bachelor of Science (B.S.) degree. The degrees are distinguished by second language competency for the B.A. and a higher level of mathematics competency for the B.S.

TOTAL FOURTH YEAR 30

Minimum total for the baccalaureate degree = 120 credits

- CHEM 105, CHEM 106 (NSWL) and CHEM 109; or CHEM 108 (NSWL) and CHEM 109; may be taken in place of CHEM 115, but only 6 of the 8 or 9 credits will count towards the major.
- Students planning for graduate studies in chemistry (especially those interested in physical chemistry) are encouraged to take additional courses in mathematics (MATH 216, MATH 311, and/or MATH 324) and physics.
- Two out of the three upper-level labs need to be taken, including CHEM 420, CHEM 438, and CHEM 453. Students should plan to take these in different semesters.
- One chemistry elective must be taken from this list: CHEM 401, CHEM 426, or CHEM 491. The second chemistry elective may include a second selection from that list, or may selected one of these courses: CHEM 304, CHEM 361, CHEM 411, CHEM 460.
- Electives need to be carefully selected to ensure that a student's degree comprises at least 39 credits of upper division courses (300-400 level). While

students are encouraged to take additional courses in chemistry, electives can be selected from any discipline as long as the student meets the course prerequisites.

f The A.C.S. designation indicates that this major meets the certification guidelines of the American Chemical Society.

RECOMMENDATIONS FOR HIGH IMPACT PRACTICES (HIPs)

The University of Wisconsin-Eau Claire encourages all students to participate in High Impact Practices. The following information identifies any specific recommendations that faculty in this major have concerning which HIPs might be most beneficial to students, and any recommendations about when those HIPs best fit into the degree plan. Students should also consult their faculty advisor for information on HIPs. There are many additional high impact opportunities available. Talk to your academic advisor for more information about incorporating HIPs like Study Abroad, Intercultural Immersion, Internship, and/or Student/Faculty Collaborative Research into your time at UW-Eau Claire.

Chemistry, A.C.S.^f Certified, Comprehensive Major, B.S. (Starting with CHEM 108 and MATH 109)

The following is a sample degree plan, based on the current catalog. It is based on the 120-credit graduation requirement and assumes no transferred credits, no requirements waived by placement tests, no courses taken in the summer or winter, no repeated courses, and no remedial courses that may be required. This sample degree plan is intended for first-year students entering UW-Eau Claire in the fall semester. Your own degree plan may differ depending on the course of study selected (second major, minor, etc.). - d One chemistry elective must be taken from this list: CHEM 401, CHEM 426, or CHEM 491. The second chemistry elective may include a second selection from that list, or may select one of these courses: CHEM 304, CHEM 361, CHEM 411, CHEM 460.
- e Electives need to be carefully selected to ensure that a student's degree comprises at least 39 credits of upper division courses (300-400 level). While students are encouraged to take additional courses in chemistry, electives can be selected from any discipline as long as the student meets the course prerequisites.
- f The A.C.S. designation indicates that this major meets the certification guidelines of the American Chemical Society.

RECOMMENDATIONS FOR HIGH IMPACT PRACTICES (HIPs)

The University of Wisconsin-Eau Claire encourages all students to participate in High Impact Practices. The following information identifies any specific recommendations that faculty in this major have concerning which HIPs might be most beneficial to students, and any recommendations about when those HIPs best fit into the degree plan. Students should also consult their faculty advisor for information on HIPs. There are many additional high impact opportunities available. Talk to your academic advisor for more information about incorporating HIPs like Study Abroad (<https://studyabroad.apps.uwec.edu/>), Intercultural Immersion (<https://www.uwec.edu/immersion/>), Internship (<https://www.uwec.edu/offices-services/advising-retention-career-center/career-services/internship/job-searching-and/>), and/or Student/Faculty Collaborative Research (<https://www.uwec.edu/offices-services/office-research-and-sponsored-programs/getting-involved-student-faculty-research/>) into your time at UW-Eau Claire.

Core General Education Requirements (CGER)

Core General Education Requirements (CGER)

The Core General Education Requirements (CGER) includes a minimum of 10 courses across 6 categories. Students must complete a minimum of 36 credits in courses approved for the CGER Core.

- Mathematics & Quantitative Reasoning (MQR) - 4 credits, one course minimum
 - Includes the University Mathematics Requirement¹
- Communication & Literacy (CL) - 8 credits, two courses minimum
 - Includes the University Writing Requirement (CL-W)²
- Natural Sciences & Wellness (NSW/NSWL) - 6 credits, one course minimum (NSW-Lab required)
- Social & Behavioral Sciences (SBS) - 6 credits, two courses minimum
- Humanities & Arts (HA) - 6 credits, two courses minimum
- Civics & Perspectives (CP) - 6 credits, two courses minimum

¹ University Mathematics Requirement:

- Students satisfy the University Mathematics Requirement in one of four ways:
- completing an approved university-level mathematics course (MQR) with a grade of C (not C-) or above

- achieving a suitable score on the UW Math Placement Test (<https://www.uwec.edu/academics/academic-support/advising/testing/placement-testing/>)
- achieving a suitable score on an exam such as the Advanced Placement Calculus or Advanced Placement Statistics exams
- achieving a suitable score on a Credit by Examination administered by the Department of Mathematics.

² University Writing Requirement:

Students satisfy the University Writing Requirement in one of four ways:

- completing a Blugold Seminar in Critical Reading and Writing course (WRIT 102 (<https://catalog.uwec.edu/search/?P=WRIT%20102>), WRIT 114 (<https://catalog.uwec.edu/search/?P=WRIT%20114>), WRIT 116 (<https://catalog.uwec.edu/search/?P=WRIT%20116>), WRIT 118 (<https://catalog.uwec.edu/search/?P=WRIT%20118>), or WRIT 120 (<https://catalog.uwec.edu/search/?P=WRIT%20120>)) with a grade of C (not C-) or above
- achieving a suitable score on the English Placement Test (<https://www.uwec.edu/academics/blugold-seminar/writ-courses-placement/>) (WPT ENGL)
- achieving a suitable score on an exam such as the Advanced Placement English Literature and Composition or Advanced Placement English Language and Composition exams
- achieving a suitable score on the University Writing Program Portfolio.

Completion via Placement Test

- Writing: If the CL-W subcategory is satisfied through a placement test, the CGER Communication and Literacy requirement will be reduced from 8 credits (2 courses) to 3 credits (1 course).
- Mathematics: If the University Math Requirement is satisfied through a placement test, the CGER Mathematics & Quantitative Reasoning requirement will be considered fully met, replacing the 4-credit (1 course) requirement.
- Students must still complete 36 credits across 10 courses, with any remaining credits or courses eligible to be taken from any CGER category.

Chemistry, A.C.S. Certified, Biochemistry Emphasis, Comprehensive Major

(Code 100-011)

University Requirements

GRADUATION REQUIREMENTS FOR BACCALAUREATE DEGREE

Credit Requirements	
Minimum total for graduation ¹	120
Upper division credits (courses numbered 300 and higher)	39
Core General Education	10 courses, 36 credits
Academic Concentrations	
Grade Point Requirements ²	
Total	2.00 average
Resident	2.00 average
Major	2.00 average
Minor	2.00 average

Certificate	2.00 average
University Residency Requirements	
Minimum total	30
Senior year	23
Major, Standard, upper division in residence	12
Major, Comprehensive, upper division in residence	21
Certificate	25 percent of credits

Procedures Required for Graduation

Obtain admission to the degree program and/or the College offering it.

Apply for graduation on CampS.

¹ Certain programs exceed this minimum.

² See special requirements in each College.

Applicability of Credits Toward Graduation

Junior College or Two-Year College Credits. A maximum of 72 semester credits earned in a junior college or two-year college will be accepted as degree credits at UW-Eau Claire.

Extension Credits. Credits earned in credit outreach courses offered by UW-Eau Claire are treated as resident credits. Credits earned in extension courses offered by other units of the Universities of Wisconsin System are treated as transfer credits. All other (non-UW) extension and correspondence credits are normally limited to one-fourth of the total required for graduation from any curriculum.

WTCS Credits. A maximum of 72 semester credits earned in college parallel programs at Madison Area Technical College, Milwaukee Area Technical College, Nicolet Area Technical College, or Chippewa Valley Technical College may be accepted as degree credits at UW-Eau Claire. A set number of general education courses will be accepted from other technical schools. Occupational and technical courses may also be considered for transfer if the quality and content of the course work from the technical college is judged to be comparable to course work at UW-Eau Claire. Refer to the Transfer Credit Wizard (https://www.uwec.sis.wisconsin.edu/psp/eauprd-tb/EMPLOYEE/SA/c/EAU_SS_CUSTOM.EAU_TRNCRDWZ.GBL) or contact the UW-Eau Claire Admissions Office for information about the current transfer policy.

USAFI Credit. UW-Eau Claire will accept up to 32 semester credits for work done through the United States Armed Forces Institute, under the provision for non-UW correspondence credit (see Extension Credits above).

Activity Credit (band, chorus, drama, KINS 100-184 courses) Students may count toward graduation no more than one credit of KINS 110-184 courses. Students may count toward graduation no more than four credits earned in any single activity course and no more than 12 credits resulting from any combination of activity courses (excluding KINS 110-184 courses).

Other Restricted Credits. For other University restrictions, see the following: Cooperative Education; Credit by Examination; Satisfactory/Unsatisfactory Registration; Transfer of Credits. College or departmental restrictions may also be placed on Independent Study (399-499 courses), Directed Study (395-495), and other types of credits.

APPLICABILITY OF CREDITS TOWARD GRADUATION

	Credit Restrictions
Satisfactory/Unsatisfactory	
Total degree credit	maximum 12

Major, Standard	maximum 1 course
Major, Comprehensive	maximum 2 courses
Minor	maximum 1 course

Credit by Examination

Total degree credit	maximum ¼ of total
Major or minor	maximum ½ of total

Two-Year College Credits

Total degree credit	maximum 72 credits

Activity credit (band, chorus, drama, KINS 100-184)

Total KINS 100-184	maximum 1 credit
Total Band, chorus, drama	maximum 12 credits
Single course band, chorus, drama	maximum 4 credits

Extension credits

UW-System	no maximum
Other extension/correspondence	maximum ¼ of total

USAFI

USAFI	maximum 32 credits

Core General Education Requirements (CGER)**CGER Categories**

Mathematics & Quantitative Reasoning (MQR) (http://catalog.uwec.edu/undergraduate/outcome-mqr/)	4 credit hours, 1 course min
Includes University Math Requirement ¹	
Communication & Literacy (CL) (http://catalog.uwec.edu/undergraduate/outcome-cl/)	8 credit hours, 2 course min (including CL-W)
Includes University Writing Requirement (CL-W) (http://catalog.uwec.edu/undergraduate/outcome-clw/) ²	
Natural Sciences & Wellness (NSW/NSWL) (http://catalog.uwec.edu/undergraduate/outcome-NSW/)	6 credit hours, 1 course min (NSW-Lab required)
Social & Behavioral Sciences (SBS) (https://catalog.uwec.edu/undergraduate/outcome-sbs/)	6 credit hours, 2 course min
Humanities & Arts (HA) (http://catalog.uwec.edu/undergraduate/outcome-ha/)	6 credit hours, 2 course min
Civics & Perspectives (CP) (http://catalog.uwec.edu/undergraduate/outcome-cp/)	6 credit hours, 2 course min

CGER Totals ³

Credits	minimum 36 credits
Courses	minimum 10 courses

¹ University Mathematics Requirement:

Students satisfy the University Mathematics Requirement in one of four ways:

- completing an approved university-level mathematics course (MQR) with a grade of C (not C-) or above

- Students must still complete 36 credits across 10 courses, with any remaining credits or courses eligible to be taken from any CGER category.

College Degree Requirements

Bachelor of Arts or Bachelor of Science Degree (B.A./B.S.)

University Graduation Requirements. All candidates for degrees must fulfill the requirements for credits, curriculum, GPA, and University residency as specified in the section of this catalog titled University Graduation Requirements.

College Graduation Requirements: Grade Point Averages. All candidates for degrees in the College of Arts and Sciences must earn minimum resident and total GPAs of 2.00 in the major, the minor, and the certificate. The resident and total GPAs for the major are computed using all attempted credits applicable to the major including those offered by departments other than the major department. The resident and total GPAs for the minor and the certificate are computed similarly.

Major-Minor and Major-Certificate Requirements. A standard major (a minimum of 36 credits) must be supplemented by a minor (a minimum of 24

credits) or by a certificate (12 to 18 credits) to meet graduation requirements for completing a first and second degree program. No minor or certificate is required with a Comprehensive Major (60 or more credits) or with two majors of 36 or more credits each.

Certain degree programs, which include Comprehensive Majors, may require more than the minimum of 120 credits for graduation.

Acceptable academic program combinations are determined at the college level. A major and a minor or a major and certificate or two majors (if available) may not be elected in the same department or program, except in the approved combinations listed here.

College Credits. Earn at least 90 credits in courses offered by the College of Arts and Sciences.

Bachelor of Arts Degree in the College of Arts and Sciences (B.A.)

Fulfillment of all University Graduation Requirements (which includes the Core General Education Requirements); all College-level degree requirements (major and minor/certificate emphases, GPAs, earning at least 90 credits in Arts and Sciences course work); second language competency at the 102 level. Second language competency may be met in one of two ways: (1) Demonstrate a level of second language competency that qualifies the student to enter the 201-level course in a second language. (2) Earn a grade of at least C (not C-) or a mark of S in a 102-level second language course (or AIS 112 or AIS 122 or SLHS 103).

Bachelor of Science Degree in the College of Arts and Sciences (B.S.)

Fulfillment of all University Graduation Requirements (which includes the Core General Education Requirements); all College-level degree requirements (major and minor/certificate emphases, GPAs, earning at least 90 credits in Arts and Sciences course work); mathematics competency at the MATH 111, MATH 112 or MATH 113 level. Mathematics competency can be met in one of three ways:

(1) Achieve a score on the mathematics placement test that qualifies the student to enter MATH 114. (2) Earn a grade of at least C (not C-) or a mark of S in MATH 111, MATH 112, or MATH 113. (3) Achieve a satisfactory score on the MATH 112 competency test. This test may be attempted no more than two times.

Major Requirements

(Code 100-011)

The A.C.S. Certified, Biochemistry Emphasis Major is designed to prepare students to function effectively and professionally as practicing chemists working at the interface of chemistry and the biological sciences, in graduate programs and/or in careers in government or industry labs. This program offers solid preparation for students planning graduate study in biochemistry, biophysics, or medicinal chemistry, and also provides an exceptionally rigorous pre-medical or pre-pharmacy program with suitable biology electives.

Core Requirements for A.C.S. and Liberal Arts Chemistry Majors

Code	Title	Credits
A minimum of 65-semester credits, including:		
Chemistry Core		
Select one of the following: ¹		6
CHEM 115	Chemical Principles	
CHEM 105 & CHEM 106 & CHEM 109	General Chemistry I Lecture and General Chemistry I Laboratory and General Chemistry II	

CHEM 108 & CHEM 109	General Chemistry I and General Chemistry II	
Required:		
CHEM 213	Quantitative Analysis	4
CHEM 218	Introduction to Inorganic Chemistry	3
CHEM 325	Organic Chemistry I with Laboratory	4
CHEM 326	Organic Chemistry II with Laboratory	4
Additional Required Courses		
PHYS 231 & PHYS 232	University Physics I and University Physics II	10
MATH 114 & MATH 215	Calculus I and Calculus II	8
Total Credits		39

¹ Only six credits of the CHEM 105/CHEM 106/CHEM 109 sequence, or the CHEM 108/CHEM 109 sequence, are credited to the major.

Capstone Experience for Chemistry Majors

The capstone experience is met by completing CHEM 411 for chemistry with business emphasis majors, and by CHEM 420, CHEM 438, CHEM 453, or CHEM 497 for other chemistry majors.

Comprehensive Major: Chemistry, A.C.S. Certified, Biochemistry Emphasis

Requirements

In addition to the chemistry core and required mathematics/physics courses, students must complete the following course work:

Code	Title	Credits
BIOL 221	Foundations of Biology I	4
BIOL 223	Foundations of Biological Inquiry	2
CHEM 433	Physical Chemistry I ²	4
CHEM 452 & CHEM 453 & CHEM 454	Biochemistry I and Biochemistry Laboratory and Biochemistry II	8
CHEM 420 & CHEM 438	Advanced Synthesis Laboratory and Physical Analysis Laboratory	5
CHEM 318 or CHEM 361	Bioinorganic Chemistry Molecules and Medicine	3
Total Credits		26

² Students interested in graduate studies in biological or medicinal chemistry are strongly encouraged to take both CHEM 433 and CHEM 434.

Program Learning Outcomes

Students completing this program will be expected to meet the following learning outcomes:

- **Knowledge and Understanding:** Students will develop a rigorous understanding of chemical principles, and apply them to predict and rationalize chemical properties.
 - **Structure and Bonding:** Students can describe the structural properties of matter, as well as rationalize and predict chemical stability or physical properties on the basis of structure.
 - **Reactivity and Stability:** Students can classify and rationalize chemical transformations, and predict and quantify products.
 - **Instrumentation Theory:** Students can describe the underlying physical principles of various instruments and measurement techniques.

- **Skills:** Students will develop the skills need to be effective practitioners of the field by devolving laboratory proficiency, the capacity to think critically and creatively, and the ability to communicate effectively.
 - **Laboratory Skills:** Students will develop proficient laboratory technique.
 - **Chemical Reasoning:** Students will develop critical and creative thinking skills, use them within the context of the field.
 - **Communication Skills:** Students will develop effective oral and written communication skills.
 - **Literature Skills:** Students will become proficient with the chemical literature.
- **Responsibility:** Students will become responsible practitioners of the field, by practicing laboratory safety, recognizing the societal impacts of chemistry, and identifying contributions made by individuals with a variety of social identities.
 - **Chemical Safety:** Students will function safely in a chemical laboratory, and will manage waste effectively.
 - **Ethical and Professional Conduct:** Students will conduct themselves ethically and professionally, cultivate awareness of the impact of chemistry on society, and recognize contributions from a diverse population.
- **Distinction:** Students in the Chemistry, ACS, Biochemistry Emphasis will develop a deeper comprehension of how chemical principles underlie biological functions.

Chemistry, A.C.S.^d Certified, Biochemistry Emphasis, Comprehensive Major, B.S. (Starting with CHEM 115 and MATH 114)

The following is a sample degree plan, based on the current catalog. It is based on the 120-credit graduation requirement and assumes no transferred credits, no requirements waived by placement tests, no courses taken in the summer or winter, no repeated courses, and no remedial courses that may be required. This sample degree plan is intended for first-year students entering UW-Eau Claire in the fall semester. Your own degree plan may differ depending on the course of study selected (second major, minor, etc.). UW-Eau Claire cannot guarantee all courses will be offered as shown, but will provide a range of courses that may enable prepared students to fulfill their requirements in a timely period. This sample degree plan is just a guide. Please consult your advisor, your degree audit, and the catalog to create your own degree plan. *Note:* In order to earn the required minimum of 120 credits for the degree in four years, you should plan to take 15 credits each semester or 30 credits each year.

To earn a degree, students must fulfill all University Graduation Requirements, including the Core General Education Requirements (CGER). CGER course work in the following sample degree plan uses abbreviations such as CGER CL, CGER HA, and CGER NSWL to represent the learning outcomes students will meet via completion of the course. Please click here for a description of the outcomes and requirements.

Students in this major have the option to pursue either a Bachelor of Arts (B.A.) or a Bachelor of Science (B.S.) degree. The degrees are distinguished by second language competency for the B.A. and a higher level of mathematics competency for the B.S.

FIRST YEAR

FIRST SEMESTER		
CHEM 115	Chemical Principles (CGER NSWL, Fall Only) ^a	6

Minimum total for the baccalaureate degree = 120 credits

- a CHEM 105, CHEM 106 (NSWL) and CHEM 109; or CHEM 108 (NSWL) and CHEM 109; may be taken in place of CHEM 115, but only 6 of the 8 or 9 credits will count towards the major.
- b All three of the upper-level labs need to be taken, including CHEM 420, CHEM 438 and CHEM 453. Students should plan to take these in different semesters. If the Physics series, Biochemistry lecture series, and Synthetic Lab are not completed in the third year, additional semesters may be necessary to earn the degree.
- c Electives need to be carefully selected to ensure that a student's degree comprises at least 39 credits of upper division courses (300-400 level). While students are encouraged to take additional courses in chemistry, electives can be selected from any discipline as long as the student meets the course prerequisites.
- d The A.C.S. designation indicates that this major meets the certification guidelines of the American Chemical Society.

RECOMMENDATIONS FOR HIGH IMPACT PRACTICES (HIPs)

The University of Wisconsin-Eau Claire encourages all students to participate in High Impact Practices. The following information identifies any specific recommendations that faculty in this major have concerning which HIPs might be most beneficial to students, and any recommendations about when those HIPs best fit into the degree plan. Students should also consult their faculty advisor for information on HIPs. There are many additional high impact opportunities available. Talk to your academic advisor for more information about incorporating HIPs like Study Abroad, Intercultural Immersion, Internship, and/or Student/Faculty Collaborative Research into your time at UW-Eau Claire.

Chemistry, A.C.S.^d Certified, Biochemistry Emphasis, Comprehensive Major, B.S. (Starting with CHEM 108 and MATH 109)

The following is a sample degree plan, based on the current catalog. It is based on the 120-credit graduation requirement and assumes no transferred credits, no requirements waived by placement tests, no courses taken in the summer or winter, no repeated courses, and no remedial courses that may be required. This sample degree plan is intended for first-year students entering UW-Eau Claire in the fall semester. Your own degree plan may differ depending on the course of study selected (second major, minor, etc.). UW-Eau Claire cannot guarantee all courses will be offered as shown, but will provide a range of courses that may enable prepared students to fulfill their requirements in a timely period. This sample degree plan is just a guide. Core General Education Requirements (CGER)**Core General Education Requirements (CGER)**

The Core General Education Requirements (CGER) includes a minimum of 10 courses across 6 categories. Students must complete a minimum of 36 credits in courses approved for the CGER Core.

- Mathematics & Quantitative Reasoning (MQR) - 4 credits, one course minimum
 - Includes the University Mathematics Requirement¹
- Communication & Literacy (CL) - 8 credits, two courses minimum
 - Includes the University Writing Requirement (CL-W)²
- Natural Sciences & Wellness (NSW/NSWL) - 6 credits, one course minimum (NSW-Lab required)
- Social & Behavioral Sciences (SBS) - 6 credits, two courses minimum
- Humanities & Arts (HA) - 6 credits, two courses minimum
- Civics & Perspectives (CP) - 6 credits, two courses minimum

¹ **University Mathematics Requirement:**

Students satisfy the University Mathematics Requirement in one of four ways:

- completing an approved university-level mathematics course (MQR) with a grade of C (not C-) or above
- achieving a suitable score on the UW Math Placement Test (<https://www.uwec.edu/academics/academic-support/advising/testing/placement-testing/>)
- achieving a suitable score on an exam such as the Advanced Placement Calculus or Advanced Placement Statistics exams
- achieving a suitable score on a Credit by Examination administered by the Department of Mathematics.

- ² **University Writing Requirement:**
- Students satisfy the University Writing Requirement in one of four ways:
- completing a Blugold Seminar in Critical Reading and Writing course (WRIT 102 (<https://catalog.uwec.edu/search/?P=WRIT%20102>), WRIT 114 (<https://catalog.uwec.edu/search/?P=WRIT%20114>), WRIT 116 (<https://catalog.uwec.edu/search/?P=WRIT%20116>), WRIT 118 (<https://catalog.uwec.edu/search/?P=WRIT%20118>), or WRIT 120 (<https://catalog.uwec.edu/search/?P=WRIT%20120>)) with a grade of C (not C-) or above
 - achieving a suitable score on the English Placement Test (<https://www.uwec.edu/academics/blugold-seminar/writ-courses-placement/>) (WPT ENGL)
 - achieving a suitable score on an exam such as the Advanced Placement English Literature and Composition or Advanced Placement English Language and Composition exams
 - achieving a suitable score on the University Writing Program Portfolio.

- Completion via Placement Test**
- Writing: If the CL-W subcategory is satisfied through a placement test, the CGER Communication and Literacy requirement will be reduced from 8 credits (2 courses) to 3 credits (1 course).
 - Mathematics: If the University Math Requirement is satisfied through a placement test, the CGER Mathematics & Quantitative Reasoning requirement will be considered fully met, replacing the 4-credit (1 course) requirement.
 - Students must still complete 36 credits across 10 courses, with any remaining credits or courses eligible to be taken from any CGER category.

Chemistry, Major - Liberal Arts

Liberal Arts (Code 100-201)

University Requirements

GRADUATION REQUIREMENTS FOR BACCALAUREATE DEGREE	
Credit Requirements	
Minimum total for graduation ¹	120
Upper division credits (courses numbered 300 and higher)	39
Core General Education	10 courses, 36 credits
Academic Concentrations	
Grade Point Requirements ²	
Total	2.00 average
Resident	2.00 average
Major	2.00 average
Minor	2.00 average
Certificate	2.00 average
University Residency Requirements	
Minimum total	30
Senior year	23
Major, Standard, upper division in residence	12
Major, Comprehensive, upper division in residence	21
Certificate	25 percent of credits
Procedures Required for Graduation	

Obtain admission to the degree program and/or the College offering it.

Apply for graduation on CampS.

¹ Certain programs exceed this minimum.

² See special requirements in each College.

Applicability of Credits Toward Graduation

Junior College or Two-Year College Credits. A maximum of 72 semester credits earned in a junior college or two-year college will be accepted as degree credits at UW-Eau Claire.

Extension Credits. Credits earned in credit outreach courses offered by UW-Eau Claire are treated as resident credits. Credits earned in extension courses offered by other units of the Universities of Wisconsin System are treated as transfer credits. All other (non-UW) extension and correspondence credits are normally limited to one-fourth of the total required for graduation from any curriculum.

WTCS Credits. A maximum of 72 semester credits earned in college parallel programs at Madison Area Technical College, Milwaukee Area Technical College, Nicolet Area Technical College, or Chippewa Valley Technical College may be accepted as degree credits at UW-Eau Claire. A set number of general education courses will be accepted from other technical schools. Occupational and technical courses may also be considered for transfer if the quality and content of the course work from the technical college is judged to be comparable to course work at UW-Eau Claire. Refer to the Transfer Credit Wizard (https://www.uwec.sis.wisconsin.edu/psp/eauprd-tb/EMPLOYEE/SA/c/EAU_SS_CUSTOM.EAU_TRNCRDWZ.GBL) or contact the UW-Eau Claire Admissions Office for information about the current transfer policy.

USAFI Credit. UW-Eau Claire will accept up to 32 semester credits for work done through the United States Armed Forces Institute, under the provision for non-UW correspondence credit (see Extension Credits above).

Activity Credit (band, chorus, drama, KINS 100-184 courses) Students may count toward graduation no more than one credit of KINS 110-184 courses. Students may count toward graduation no more than four credits earned in any single activity course and no more than 12 credits resulting from any combination of activity courses (excluding KINS 110-184 courses).

Other Restricted Credits. For other University restrictions, see the following: Cooperative Education; Credit by Examination; Satisfactory/Unsatisfactory Registration; Transfer of Credits. College or departmental restrictions may also be placed on Independent Study (399-499 courses), Directed Study (395-495), and other types of credits.

APPLICABILITY OF CREDITS TOWARD GRADUATION		Credit Restrictions
Satisfactory/Unsatisfactory		
Total degree credit		maximum 12
Major, Standard		maximum 1 course
Major, Comprehensive		maximum 2 courses
Minor		maximum 1 course
Credit by Examination		
Total degree credit		maximum ¼ of total

Major or minor	maximum ½ of total

Two-Year College Credits

Total degree credit	maximum 72 credits

Activity credit (band, chorus, drama, KINS 100-184)

Total KINS 100-184	maximum 1 credit

Total Band, chorus, drama	maximum 12 credits

Single course band, chorus, drama	maximum 4 credits

Extension credits

UW-System	no maximum

Other extension/correspondence	maximum ¼ of total

USAFI

USAFI	maximum 32 credits

Core General Education Requirements (CGER)**CGER Categories**

Mathematics & Quantitative Reasoning (MQR) (http://catalog.uwec.edu/undergraduate/outcome-mqr/)	4 credit hours, 1 course min

Includes University Math Requirement ¹

Communication & Literacy (CL) (http://catalog.uwec.edu/undergraduate/outcome-cl/)	8 credit hours, 2 course min (including CL-W)

Includes University Writing Requirement (CL-W) (<http://catalog.uwec.edu/undergraduate/outcome-clw/>) ²

Natural Sciences & Wellness (NSW/NSWL) (http://catalog.uwec.edu/undergraduate/outcome-NSW/)	6 credit hours, 1 course min (NSW-Lab required)

Social & Behavioral Sciences (SBS) (https://catalog.uwec.edu/undergraduate/outcome-sbs/)	6 credit hours, 2 course min

Humanities & Arts (HA) (http://catalog.uwec.edu/undergraduate/outcome-ha/)	6 credit hours, 2 course min

Civics & Perspectives (CP) (http://catalog.uwec.edu/undergraduate/outcome-cp/)	6 credit hours, 2 course min

CGER Totals ³

Credits	minimum 36 credits

Courses	minimum 10 courses

¹ University Mathematics Requirement:

Students satisfy the University Mathematics Requirement in one of four ways:

- completing an approved university-level mathematics course (MQR) with a grade of C (not C-) or above
- achieving a suitable score on the UW Math Placement Test (<https://www.uwec.edu/academics/academic-support/advising/testing/placement-testing/>)
- achieving a suitable score on an exam such as the Advanced Placement Calculus or Advanced Placement Statistics exams

- achieving a suitable score on a Credit by Examination administered by the Department of Mathematics.

² University Writing Requirement:

Students satisfy the University Writing Requirement in one of four ways:

- completing a Blugold Seminar in Critical Reading and Writing course (WRIT 102 (<https://catalog.uwec.edu/search/?P=WRIT%20102>), WRIT 114 (<https://catalog.uwec.edu/search/?P=WRIT%20114>), WRIT 116 (<https://catalog.uwec.edu/search/?P=WRIT%20116>), WRIT 118 (<https://catalog.uwec.edu/search/?P=WRIT%20118>), or WRIT 120 (<https://catalog.uwec.edu/search/?P=WRIT%20120>)) with a grade of C (not C-) or above
- achieving a suitable score on the English Placement Test (<https://www.uwec.edu/academics/blugold-seminar/writ-courses-placement/>) (WPT ENGL)
- achieving a suitable score on an exam such as the Advanced Placement English Literature and Composition or Advanced Placement English Language and Composition exams
- achieving a suitable score on the University Writing Program Portfolio.

³ Completion via Placement Tests

- Writing: If the CL-W subcategory is satisfied through a placement test, the CGER Communication and Literacy requirement will be reduced from 8 credits (2 courses) to 3 credits (1 course).
- Mathematics: If the University Math Requirement is satisfied through a placement test, the CGER Mathematics & Quantitative Reasoning requirement will be considered fully met, replacing the 4-credit (1 course) requirement.
- Students must still complete 36 credits across 10 courses, with any remaining credits or courses eligible to be taken from any CGER category.

College Degree Requirements

Bachelor of Arts or Bachelor of Science Degree (B.A./B.S.)

University Graduation Requirements. All candidates for degrees must fulfill the requirements for credits, curriculum, GPA, and University residency as specified in the section of this catalog titled University Graduation Requirements.

College Graduation Requirements: Grade Point Averages. All candidates for degrees in the College of Arts and Sciences must earn minimum resident and total GPAs of 2.00 in the major, the minor, and the certificate. The resident and total GPAs for the major are computed using all attempted credits applicable to the major including those offered by departments other than the major department. The resident and total GPAs for the minor and the certificate are computed similarly.

Major-Minor and Major-Certificate Requirements. A standard major (a minimum of 36 credits) must be supplemented by a minor (a minimum of 24 credits) or by a certificate (12 to 18 credits) to meet graduation requirements for completing a first and second degree program. No minor or certificate is required with a Comprehensive Major (60 or more credits) or with two majors of 36 or more credits each.

Certain degree programs, which include Comprehensive Majors, may require more than the minimum of 120 credits for graduation.

Acceptable academic program combinations are determined at the college level. A major and a minor or a major and certificate or two majors (if available)

may not be elected in the same department or program, except in the approved combinations listed here.

College Credits. Earn at least 90 credits in courses offered by the College of Arts and Sciences.

Bachelor of Arts Degree in the College of Arts and Sciences (B.A.)

Fulfillment of all University Graduation Requirements (which includes the Core General Education Requirements); all College-level degree requirements (major and minor/certificate emphases, GPAs, earning at least 90 credits in Arts and Sciences course work); second language competency at the 102 level. Second language competency may be met in one of two ways: (1) Demonstrate a level of second language competency that qualifies the student to enter the 201-level course in a second language. (2) Earn a grade of at least C (not C-) or a mark of S in a 102-level second language course (or AIS 112 or AIS 122 or SLHS 103).

Bachelor of Science Degree in the College of Arts and Sciences (B.S.)

Fulfillment of all University Graduation Requirements (which includes the Core General Education Requirements); all College-level degree requirements (major and minor/certificate emphases, GPAs, earning at least 90 credits in Arts and Sciences course work); mathematics competency at the MATH 111, MATH 112 or MATH 113 level. Mathematics competency can be met in one of three ways: (1) Achieve a score on the mathematics placement test that qualifies the student to enter MATH 114. (2) Earn a grade of at least C (not C-) or a mark of S in MATH 111, MATH 112, or MATH 113. (3) Achieve a satisfactory score on the MATH 112 competency test. This test may be attempted no more than two times.

Major Requirements

Liberal Arts (Code 100-201)

The Liberal Arts Chemistry Major is designed to provide students with a solid foundation in the field, while offering the opportunity to pursue a parallel specialization, thus effectively preparing students for graduate or professional school, and/or a variety of career paths in chemistry, the health sciences, and related fields. This major is ideal for pre-medicine or pre-pharmacy students who are interested in a chemistry major, and any others who are seeking a minor in another field.

Core Requirements for A.C.S. and Liberal Arts Chemistry Majors

A minimum of 55-semester credits, including:

Code	Title	Credits
Chemistry Core		
Select one of the following: ¹		6
CHEM 115	Chemical Principles	
CHEM 105 & CHEM 106 & CHEM 109	General Chemistry I Lecture and General Chemistry I Laboratory and General Chemistry II	
CHEM 108 & CHEM 109	General Chemistry I and General Chemistry II	
Required:		
CHEM 213	Quantitative Analysis	4
CHEM 218	Introduction to Inorganic Chemistry	3
CHEM 325	Organic Chemistry I with Laboratory	4
CHEM 326	Organic Chemistry II with Laboratory	4

Additional Required Courses

PHYS 231 & PHYS 232	University Physics I and University Physics II	10
MATH 114 & MATH 215	Calculus I and Calculus II	8
Total Credits		39

¹ Only six credits of the CHEM 105/CHEM 106/CHEM 109 sequence, or the CHEM 108/CHEM 109 sequence, are credited to the major.

Capstone Experience for Chemistry Majors

The capstone experience is met by completing CHEM 411 for chemistry with business emphasis majors, and by CHEM 420, CHEM 438, CHEM 453 or CHEM 497 for other chemistry majors.

Chemistry, Major - Liberal Arts

Requirements

In addition to the chemistry core and required mathematics/physics courses, students must complete the following course work:

Code	Title	Credits
CHEM 433 & CHEM 434	Physical Chemistry I and Physical Chemistry II	8
One of the following:		2-3
CHEM 420	Advanced Synthesis Laboratory	
CHEM 438	Physical Analysis Laboratory	
CHEM 453	Biochemistry Laboratory	
Electives		
Select 6 credits of the following:		6
CHEM 304	Environmental Chemistry	
CHEM 318	Bioinorganic Chemistry	
CHEM 344	Modern Applied Separations and Spectrometry	
CHEM 352	Fundamentals of Biochemistry	
CHEM 361	Molecules and Medicine	
CHEM 399	Independent Study - Juniors	
CHEM 401	Inorganic Chemistry	
CHEM 411	Survey of Industrial Chemistry	
CHEM 426	Modern Organic Chemistry	
CHEM 460	Polymer Chemistry	
CHEM 491	Special Topics	
CHEM 495	Directed Studies	
CHEM 497	Independent Study - Research Manuscript	
CHEM 499	Independent Study - Seniors	
Total Credits		16-17

Program Learning Outcomes

Students completing this program will be expected to meet the following learning outcomes:

- Knowledge and Understanding: Students will develop a rigorous understanding of chemical principles, and apply them to predict and rationalize chemical properties.

- **Structure and Bonding:** Students can describe the structural properties of matter, as well as rationalize and predict chemical stability or physical properties on the basis of structure.
- **Reactivity and Stability:** Students can classify and rationalize chemical transformations, and predict and quantify products.
- **Instrumentation Theory:** Students can describe the underlying physical principles of various instruments and measurement techniques.
- **Skills:** Students will develop the skills need to be effective practitioners of the field by devolving laboratory proficiency, the capacity to think critically and creatively, and the ability to communicate effectively.
 - **Laboratory Skills:** Students will develop proficient laboratory technique.
 - **Chemical Reasoning:** Students will develop critical and creative thinking skills, use them within the context of the field.
 - **Communication Skills:** Students will develop effective oral and written.
 - **Literature Skills:** Students will become proficient with the chemical literature.
- **Responsibility:** Students will become responsible practitioners of the field, by practicing laboratory safety, recognizing the societal impacts of chemistry, and identifying contributions made by individuals with a variety of social identities.
 - **Chemical Safety:** Students will function safely in a chemical laboratory, and will manage waste effectively.
 - **Ethical and Professional Conduct:** Students will conduct themselves ethically and professionally, cultivate awareness of the impact of chemistry on society, and recognize contributions from a diverse population.
- **Distinction–Chemistry, Liberal Arts:** Students in the Chemistry, Liberal Arts major will develop some degree of specialization in an adjacent and/or complimentary field of study.

Chemistry, Major - Liberal Arts, B.S. (Starting with CHEM 115 and MATH 114)

The following is a sample degree plan, based on the current catalog. It is based on the 120-credit graduation requirement and assumes no transferred credits, no requirements waived by placement tests, no courses taken in the summer or winter, no repeated courses, and no remedial courses that may be required. This sample degree plan is intended for first-year students entering UW-Eau Claire in the fall semester. Your own degree plan may differ depending on the course of study selected (second major, minor, etc.). UW-Eau Claire cannot guarantee all courses will be offered as shown, but will provide a range of courses that may enable prepared students to fulfill their requirements in a timely period. This sample degree plan is just a guide. Please consult your advisor, your degree audit, and the catalog to create your own degree plan. *Note:* In order to earn the required minimum of 120 credits for the degree in four years, you should plan to take 15 credits each semester or 30 credits each year.

To earn a degree, students must fulfill all University Graduation Requirements, including the Core General Education Requirements (CGER). CGER course work in the following sample degree plan uses abbreviations such as CGER CL, CGER HA, and CGER NSWL to represent the learning outcomes students will meet via completion of the course. Please click here for a description of the outcomes and requirements.

Students in this major have the option to pursue either a Bachelor of Arts (B.A.) or a Bachelor of Science (B.S.) degree. The degrees are distinguished by second language competency for the B.A. and a higher level of mathematics competency for the B.S.

TOTAL FOURTH YEAR	29-31

Minimum total for the baccalaureate degree = 120 credits

- a CHEM 105, CHEM 106 (NSWL) and CHEM 109; or CHEM 108 (NSWL) and CHEM 109; may be taken in place of CHEM 115, but only 6 of the 8 or 9 credits will count towards the major.
- b Students planning for graduate studies in chemistry (especially those interested in physical chemistry) are encouraged to take additional courses in mathematics (MATH 216, MATH 311, and/or MATH 324) and physics.
- c One of the three upper-level labs need to be taken, including CHEM 420, CHEM 438, and CHEM 453. The CHEM 453 (Biochemistry Lab) option has a prerequisite of CHEM 352 (Fundamentals of Biochemistry), which can be taken as the Chemistry elective.
- d Select at least 6 credits from the following: CHEM 304, CHEM 344, CHEM 352, CHEM 361, CHEM 399, CHEM 401, CHEM 411, CHEM 426, CHEM 460, CHEM 491, CHEM 495, CHEM 497, and CHEM 499.
- e Electives need to be carefully selected to ensure that a student's degree comprises at least 39 credits of upper division courses (300-400 level) and that the student complete a minor in addition to the Chemistry major.

RECOMMENDATIONS FOR HIGH IMPACT PRACTICES (HIPs)

The University of Wisconsin-Eau Claire encourages all students to participate in High Impact Practices. The following information identifies any specific recommendations that faculty in this major have concerning which HIPs might be most beneficial to students, and any recommendations about when those HIPs best fit into the degree plan. Students should also consult their faculty advisor for information on HIPs. There are many additional high impact opportunities available. Talk to your academic advisor for more information about incorporating HIPs like Study Abroad, Intercultural Immersion, Internship, and/or Student/Faculty Collaborative Research into your time at UW-Eau Claire.

Chemistry, Major - Liberal Arts, B.S. (Starting with CHEM 108 and MATH 109)

The following is a sample degree plan, based on the current catalog. It is based on the 120-credit graduation requirement and assumes no transferred credits, no requirements waived by placement tests, no courses taken in the summer or winter, no repeated courses, and no remedial courses that may be required. This sample degree plan is intended for first-year students entering UW-Eau Claire in the fall semester. Your own degree plan may differ depending on the course of study selected (second major, minor, etc.). UW-Eau Claire cannot guarantee all courses will be offered as shown, but will provide a range of courses that may enable prepared students to fulfill their requirements in a timely period. This sample degree plan is just a guide. Please consult your advisor, your degree audit, and the catalog to create your own degree plan. *Note:* In order to earn the required minimum of 120 credits for the degree in four years, you should plan to take 15 credits each semester or 30 credits each year.

To earn a degree, students must fulfill all University Graduation Requirements, including the Core General Education Requirements (CGER). CGER course work in the following sample degree plan uses abbreviations such as CGER CL, CGER HA, and CGER NSWL to represent the learning outcomes students will meet via completion of the course. Please click here for a description of the outcomes and requirements.

Students in this major have the option to pursue either a Bachelor of Arts (B.A.) or a Bachelor of Science (B.S.) degree. The degrees are distinguished by second language competency for the B.A. and a higher level of mathematics competency for the B.S.

Minimum total for the baccalaureate degree = 120 credits

- CHEM 105, CHEM 106 (NSWL) and CHEM 109; or CHEM 108 (NSWL) and CHEM 109; may be taken in place of CHEM 115, but only 6 of the 8 or 9 credits will count towards the major.
- Students planning for graduate studies in chemistry (especially those interested in physical chemistry) are encouraged to take additional courses in mathematics (MATH 216, MATH 311, and/or MATH 324) and physics.
- One of the three upper-level labs need to be taken, including CHEM 420, CHEM 438, and CHEM 453. The CHEM 453 (Biochemistry Lab) option has a prerequisite of CHEM 352 (Fundamentals of Biochemistry), which can be taken as the Chemistry elective.
- Select at least 6 credits from the following: CHEM 304, CHEM 344, CHEM 352, CHEM 361, CHEM 399, CHEM 401, CHEM 411, CHEM 426, CHEM 460, CHEM 491, CHEM 495, CHEM 497, and CHEM 499.
- Electives need to be carefully selected to ensure that a student's degree comprises at least 39 credits of upper division courses (300-400 level) and that the student complete a minor in addition to the Chemistry major.

RECOMMENDATIONS FOR HIGH IMPACT PRACTICES (HIPs)

The University of Wisconsin-Eau Claire encourages all students to participate in High Impact Practices. The following information identifies any specific recommendations that faculty in this major have concerning which HIPs might be most beneficial to students, and any recommendations about when those HIPs best fit into the degree plan. Students should also consult their faculty advisor for information on HIPs. There are many additional high impact opportunities available. Talk to your academic advisor for more information about incorporating HIPs like Study Abroad, Intercultural Immersion, Internship, and/or Student/Faculty Collaborative Research into your time at UW-Eau Claire.

Core General Education Requirements (CGER)

Core General Education Requirements (CGER)

The Core General Education Requirements (CGER) includes a minimum of 10 courses across 6 categories. Students must complete a minimum of 36 credits in courses approved for the CGER Core.

- Mathematics & Quantitative Reasoning (MQR) - 4 credits, one course minimum
 - Includes the University Mathematics Requirement¹
- Communication & Literacy (CL) - 8 credits, two courses minimum
 - Includes the University Writing Requirement (CL-W)²
- Natural Sciences & Wellness (NSW/NSWL) - 6 credits, one course minimum (NSW-Lab required)
- Social & Behavioral Sciences (SBS) - 6 credits, two courses minimum

- Humanities & Arts (HA) - 6 credits, two courses minimum
- Civics & Perspectives (CP) - 6 credits, two courses minimum

¹ University Mathematics Requirement:

Students satisfy the University Mathematics Requirement in one of four ways:

- completing an approved university-level mathematics course (MQR) with a grade of C (not C-) or above
- achieving a suitable score on the UW Math Placement Test (<https://www.uwec.edu/academics/academic-support/advising/testing/placement-testing/>)
- achieving a suitable score on an exam such as the Advanced Placement Calculus or Advanced Placement Statistics exams
- achieving a suitable score on a Credit by Examination administered by the Department of Mathematics.

² University Writing Requirement:

Students satisfy the University Writing Requirement in one of four ways:

- completing a Blugold Seminar in Critical Reading and Writing course (WRIT 102 (<https://catalog.uwec.edu/search/?P=WRIT%20102>), WRIT 114 (<https://catalog.uwec.edu/search/?P=WRIT%20114>), WRIT 116 (<https://catalog.uwec.edu/search/?P=WRIT%20116>), WRIT 118 (<https://catalog.uwec.edu/search/?P=WRIT%20118>), or WRIT 120 (<https://catalog.uwec.edu/search/?P=WRIT%20120>)) with a grade of C (not C-) or above
- achieving a suitable score on the English Placement Test (<https://www.uwec.edu/academics/blugold-seminar/writ-courses-placement/>) (WPT ENGL)
- achieving a suitable score on an exam such as the Advanced Placement English Literature and Composition or Advanced Placement English Language and Composition exams
- achieving a suitable score on the University Writing Program Portfolio.

Completion via Placement Test

- Writing: If the CL-W subcategory is satisfied through a placement test, the CGER Communication and Literacy requirement will be reduced from 8 credits (2 courses) to 3 credits (1 course).
- Mathematics: If the University Math Requirement is satisfied through a placement test, the CGER Mathematics & Quantitative Reasoning requirement will be considered fully met, replacing the 4-credit (1 course) requirement.
- Students must still complete 36 credits across 10 courses, with any remaining credits or courses eligible to be taken from any CGER category.

Chemistry with Business Emphasis, Comprehensive Major

(Code 111-001)

University Requirements

GRADUATION REQUIREMENTS FOR BACCALAUREATE DEGREE

Credit Requirements	
Minimum total for graduation ¹	120
Upper division credits (courses numbered 300 and higher)	39
Core General Education	10 courses, 36 credits
Academic Concentrations	

Grade Point Requirements²

Total	2.00 average
Resident	2.00 average
Major	2.00 average
Minor	2.00 average
Certificate	2.00 average

University Residency Requirements

Minimum total	30
Senior year	23
Major, Standard, upper division in residence	12
Major, Comprehensive, upper division in residence	21
Certificate	25 percent of credits

Procedures Required for Graduation

Obtain admission to the degree program and/or the College offering it.

Apply for graduation on CampS.

¹ Certain programs exceed this minimum.

² See special requirements in each College.

Applicability of Credits Toward Graduation

Junior College or Two-Year College Credits. A maximum of 72 semester credits earned in a junior college or two-year college will be accepted as degree credits at UW-Eau Claire.

Extension Credits. Credits earned in credit outreach courses offered by UW-Eau Claire are treated as resident credits. Credits earned in extension courses offered by other units of the Universities of Wisconsin System are treated as transfer credits. All other (non-UW) extension and correspondence credits are normally limited to one-fourth of the total required for graduation from any curriculum.

WTCS Credits. A maximum of 72 semester credits earned in college parallel programs at Madison Area Technical College, Milwaukee Area Technical College, Nicolet Area Technical College, or Chippewa Valley Technical College may be accepted as degree credits at UW-Eau Claire. A set number of general education courses will be accepted from other technical schools. Occupational and technical courses may also be considered for transfer if the quality and content of the course work from the technical college is judged to be comparable to course work at UW-Eau Claire. Refer to the Transfer Credit Wizard (https://www.uwec.sis.wisconsin.edu/psp/eauprd-tb/EMPLOYEE/SA/c/EAU_SS_CUSTOM.EAU_TRNCRDWZ.GBL) or contact the UW-Eau Claire Admissions Office for information about the current transfer policy.

USAFI Credit. UW-Eau Claire will accept up to 32 semester credits for work done through the United States Armed Forces Institute, under the provision for non-UW correspondence credit (see Extension Credits above).

Activity Credit (band, chorus, drama, KINS 100-184 courses) Students may count toward graduation no more than one credit of KINS 110-184 courses. Students may count toward graduation no more than four credits earned in any single activity course and no more than 12 credits resulting from any combination of activity courses (excluding KINS 110-184 courses).

Other Restricted Credits. For other University restrictions, see the following: Cooperative Education; Credit by Examination; Satisfactory/Unsatisfactory Registration; Transfer of Credits. College or departmental restrictions may also

be placed on Independent Study (399-499 courses), Directed Study (395-495), and other types of credits.

APPLICABILITY OF CREDITS TOWARD GRADUATION**Credit Restrictions**

Satisfactory/Unsatisfactory	
Total degree credit	maximum 12
Major, Standard	maximum 1 course
Major, Comprehensive	maximum 2 courses
Minor	maximum 1 course

Credit by Examination

Total degree credit	maximum ¼ of total
Major or minor	maximum ½ of total

Two-Year College Credits

Total degree credit	maximum 72 credits

Activity credit (band, chorus, drama, KINS 100-184)

Total KINS 100-184	maximum 1 credit
Total Band, chorus, drama	maximum 12 credits
Single course band, chorus, drama	maximum 4 credits

Extension credits

UW-System	no maximum
Other extension/correspondence	maximum ¼ of total

USAFI

USAFI	maximum 32 credits

Core General Education Requirements (CGER)**CGER Categories**

Mathematics & Quantitative Reasoning (MQR) (http://catalog.uwec.edu/undergraduate/outcome-mqr/) Includes University Math Requirement ¹	4 credit hours, 1 course min
Communication & Literacy (CL) (http://catalog.uwec.edu/undergraduate/outcome-cl/) Includes University Writing Requirement (CL-W) (http://catalog.uwec.edu/undergraduate/outcome-clw/) ²	8 credit hours, 2 course min (including CL-W)
Natural Sciences & Wellness (NSW/NSWL) (http://catalog.uwec.edu/undergraduate/outcome-NSW/)	6 credit hours, 1 course min (NSW-Lab required)
Social & Behavioral Sciences (SBS) (https://catalog.uwec.edu/undergraduate/outcome-sbs/)	6 credit hours, 2 course min
Humanities & Arts (HA) (http://catalog.uwec.edu/undergraduate/outcome-ha/)	6 credit hours, 2 course min

Civics & Perspectives (CP) (http://catalog.uwec.edu/undergraduate/outcome-cp/)	6 credit hours, 2 course min
CGER Totals³	
Credits	minimum 36 credits
Courses	minimum 10 courses

¹ University Mathematics Requirement:

Students satisfy the University Mathematics Requirement in one of four ways:

- completing an approved university-level mathematics course (MQR) with a grade of C (not C-) or above
- achieving a suitable score on the UW Math Placement Test (<https://www.uwec.edu/academics/academic-support/advising/testing/placement-testing/>)

Students satisfy the University Writing Requirement in one of four ways:

- completing a Blugold Seminar in Critical Reading and Writing course (WRIT 102 (<https://catalog.uwec.edu/search/?P=WRIT%20102>), WRIT 114 (<https://catalog.uwec.edu/search/?P=WRIT%20114>), WRIT 116 (<https://catalog.uwec.edu/search/?P=WRIT%20116>), WRIT 118 (<https://catalog.uwec.edu/search/?P=WRIT%20118>), or WRIT 120 (<https://catalog.uwec.edu/search/?P=WRIT%20120>)) with a grade of C (not C-) or above
- achieving a suitable score on the English Placement Test (<https://www.uwec.edu/academics/blugold-seminar/writ-courses-placement/>) (WPT ENGL)
- achieving a suitable score on an exam such as the Advanced Placement English Literature and Composition or Advanced Placement English Language and Composition exams
- achieving a suitable score on the University Writing Program Portfolio.

³ Completion via Placement Tests

- Writing: If the CL-W subcategory is satisfied through a placement test, the CGER Communication and Literacy requirement will be reduced from 8 credits (2 courses) to 3 credits (1 course).
- Mathematics: If the University Math Requirement is satisfied through a placement test, the CGER Mathematics & Quantitative Reasoning requirement will be considered fully met, replacing the 4-credit (1 course) requirement.
- Students must still complete 36 credits across 10 courses, with any remaining credits or courses eligible to be taken from any CGER category.

College Degree Requirements

Bachelor of Arts or Bachelor of Science Degree (B.A./B.S.)

University Graduation Requirements. All candidates for degrees must fulfill the requirements for credits, curriculum, GPA, and University residency as specified in the section of this catalog titled University Graduation Requirements.

College Graduation Requirements: Grade Point Averages. All candidates for degrees in the College of Arts and Sciences must earn minimum resident and

total GPAs of 2.00 in the major, the minor, and the certificate. The resident and total GPAs for the major are computed using all attempted credits applicable to the major including those offered by departments other than the major department. The resident and total GPAs for the minor and the certificate are computed similarly.

Major-Minor and Major-Certificate Requirements. A standard major (a minimum of 36 credits) must be supplemented by a minor (a minimum of 24 credits) or by a certificate (12 to 18 credits) to meet graduation requirements for completing a first and second degree program. No minor or certificate is required with a Comprehensive Major (60 or more credits) or with two majors of 36 or more credits each.

Certain degree programs, which include Comprehensive Majors, may require more than the minimum of 120 credits for graduation.

Acceptable academic program combinations are determined at the college level. A major and a minor or a major and certificate or two majors (if available) may not be elected in the same department or program, except in the approved combinations listed here.

College Credits. Earn at least 90 credits in courses offered by the College of Arts and Sciences.

Bachelor of Arts Degree in the College of Arts and Sciences (B.A.)

Fulfillment of all University Graduation Requirements (which includes the Core General Education Requirements); all College-level degree requirements (major and minor/certificate emphases, GPAs, earning at least 90 credits in Arts and Sciences course work); second language competency at the 102 level. Second language competency may be met in one of two ways: (1) Demonstrate a level of second language competency that qualifies the student to enter the 201-level course in a second language. (2) Earn a grade of at least C (not C-) or a mark of S in a 102-level second language course (or AIS 112 or AIS 122 or SLHS 103).

Bachelor of Science Degree in the College of Arts and Sciences (B.S.)

Fulfillment of all University Graduation Requirements (which includes the Core General Education Requirements); all College-level degree requirements (major and minor/certificate emphases, GPAs, earning at least 90 credits in Arts and Sciences course work); mathematics competency at the MATH 111, MATH 112 or MATH 113 level. Mathematics competency can be met in one of three ways: (1) Achieve a score on the mathematics placement test that qualifies the student to enter MATH 114. (2) Earn a grade of at least C (not C-) or a mark of S in MATH 111, MATH 112, or MATH 113. (3) Achieve a satisfactory score on the MATH 112 competency test. This test may be attempted no more than two times.

Major Requirements

(Code 111-001)

The Chemistry with Business Emphasis Major is designed to provide students with a solid foundation in the field, together with a rudimentary understanding of the principles of commerce; effectively preparing them for business careers in the chemical industry and other technology-driven enterprises. It provides excellent preparation for sales, marketing, technical service, and customer support positions in the chemical industry, and is also appropriate for pre-professional students, including pre-pharmacy, pre-medicine, and pre-dentistry.

Code	Title	Credits
A minimum of 67 semester credits, including:		
Chemistry Course Requirements		28
Select one of the following:		6
CHEM 115	Chemical Principles	
CHEM 105 & CHEM 106 & CHEM 109	General Chemistry I Lecture and General Chemistry I Laboratory and General Chemistry II ¹	
CHEM 108 & CHEM 109	General Chemistry I and General Chemistry II	
Required:		
CHEM 213	Quantitative Analysis	4
CHEM 218	Introduction to Inorganic Chemistry	3
CHEM 325 & CHEM 326	Organic Chemistry I with Laboratory and Organic Chemistry II with Laboratory	8
CHEM 374	Chemical Industry Seminar	1
CHEM 411	Survey of Industrial Chemistry ²	3
Complete 3 credits selected from the following courses:		3
CHEM 304	Environmental Chemistry	
CHEM 344	Modern Applied Separations and Spectrometry	
CHEM 352	Fundamentals of Biochemistry	
CHEM 375	Frontiers in Chemical Research Seminar	
CHEM 460	Polymer Chemistry	
Business Course Requirements		21
ACCT 201	Introduction to Accounting	3
ECON 103 & ECON 104	Principles of Microeconomics and Principles of Macroeconomics	6
IS 240	Information Systems in Business	3
Three courses selected from the following: ⁵		9
FIN 320	Principles of Finance	
MGMT 340	Organizational Behavior: Leading and Developing People, Teams, and Culture	
MGMT 345	Managing Global Organizations	
MGMT 446	Advanced Organizational Behavior	
MKTG 330	Principles of Marketing	
MKTG 337	Professional Selling	
MKTG 433	Sales Management	
MKTG 437	Business-to-Business Marketing	
OSCM 341	Operations Management	
Communications Course Requirements		
One course selected from the following:		3
BCOM 206	Business Communication: Writing, Speaking, and Collaborating ³	
BCOM 207	Business Communication: Persuasive Messaging, Conversations, and Professional Development ⁴	
ENGL 312	Science Writing	
ENGL 313	Technical Writing	
Other Requirements (minimum)		15
MATH 246	Elementary Statistics	4

Select one of the following:

2-4

MATH 111	A Short Course in Calculus
MATH 112	Precalculus Mathematics
MATH 113	Trigonometry
MATH 114	Calculus I

Select one of the following:

9-10

PHYS 211 & PHYS 212	General Physics and General Physics
PHYS 231 & PHYS 232	University Physics I and University Physics II

¹ Only six of the course credits from the CHEM 105/CHEM 106/CHEM 109 sequence, or the CHEM 108/CHEM 109 sequence, count toward the major.

² The capstone experience is met by CHEM 411.

³ Students who earn less than a C in BCOM 206 must repeat the course to meet the College of Business communication requirement.

⁴ Students who earn less than C in BCOM 207 must repeat the course to meet the College of Business communication requirement.

⁵ Students must complete the Student Professional Development Program (<https://www.uwec.edu/academics/college-business/academic-resources/student-professional-development-program/>) (SPDP) prior to registering for any MGMT, MKTG, or OSCM course.

Program Learning Outcomes

Students completing this program will be expected to meet the following learning outcomes:

- **Knowledge and Understanding:** Students will develop a rigorous understanding of chemical principles, and apply them to predict and rationalize chemical properties.
 - **Structure and Bonding:** Students can describe the structural properties of matter, as well as rationalize and predict chemical stability or physical properties on the basis of structure.
 - **Reactivity and Stability:** Students can classify and rationalize chemical transformations, and predict and quantify products.
 - **Instrumentation Theory:** Students can describe the underlying physical principles of various instruments and measurement techniques.
- **Skills:** Students will develop the skills need to be effective practitioners of the field by devolving laboratory proficiency, the capacity to think critically and creatively, and the ability to communicate effectively.
 - **Laboratory Skills:** Students will develop proficient laboratory technique.
 - **Chemical Reasoning:** Students will develop critical and creative thinking skills, use them within the context of the field.
 - **Communication Skills:** Students will develop effective oral and written communication skills.
 - **Literature Skills:** Students will become proficient with the chemical literature.
- **Responsibility:** Students will become responsible practitioners of the field, by practicing laboratory safety, recognizing the societal impacts of chemistry, and identifying contributions made by individuals with a variety of social identities.
 - **Chemical Safety:** Students will function safely in a chemical laboratory, and will manage waste effectively.
 - **Ethical and Professional Conduct:** Students will conduct themselves ethically and professionally, cultivate awareness of the impact of

chemistry on society, and recognize contributions from a diverse population.

- Distinction: *Students in the Chemistry with Business Emphasis will develop a deeper comprehension of how the principles of commerce (e.g., Marketing, Accounting, Finance) function within the chemical industry.*

Chemistry with Business Emphasis, Comprehensive Major, B.S.

The following is a sample degree plan, based on the current catalog. It is based on the 120-credit graduation requirement and assumes no transferred credits, no requirements waived by placement tests, no courses taken in the summer or winter, no repeated courses, and no remedial courses that may be required. This sample degree plan is intended for first-year students entering UW-Eau Claire in the fall semester. Your own degree plan may differ depending on the course of study selected (second major, minor, etc.). UW-Eau Claire cannot guarantee all courses will be offered as shown, but will provide a range of courses that may enable prepared students to fulfill their requirements in a timely period. This sample degree plan is just a guide. Please consult your advisor, your degree audit, and the catalog to create your own degree plan. *Note:* In order to earn the required minimum of 120 credits for the degree in four years, you should plan to take 15 credits each semester or 30 credits each year.

To earn a degree, students must fulfill all University Graduation Requirements, including the Core General Education Requirements (CGER). CGER course work in the following sample degree plan uses abbreviations such as CGER CL, CGER HA, and CGER NSWL to represent the learning outcomes students will meet via completion of the course. Please click here for a description of the outcomes and requirements.

Students in this major have the option to pursue either a Bachelor of Arts (B.A.) or a Bachelor of Science (B.S.) degree. The degrees are distinguished by second language competency for the B.A. and a higher level of mathematics competency for the B.S.

Minimum total for the baccalaureate degree = 120 credits

- a Only 6 of the 8 credits from CHEM 108 (NSWL) and CHEM 109 will count towards the major. As an alternative, CHEM 115 (NSWL) may be substituted for CHEM 108 (NSWL) and CHEM 109.

- b Students may also take MATH 114 to meet the MQR requirement, and PHYS 231 and PHYS 232 to meet the Physics requirement. PHYS 232 requires MATH 215 as a pre- or co-requisite.
- c
- | | |
|---|---|
| FIN 320 – Principles of Finance | MKTG 330 – Principles of Marketing |
| MGMT 340 – Organizational Behavior Professional Selling | MKTG 337 – Professional Selling |
| OSCM 341 – Operations Management Sales Management | MKTG 433 – Sales Management |
| MGMT 345 – Managing Global Organizations Business-to-Business Marketing | MKTG 437 – Business-to-Business Marketing |
| MGMT 446 – Advanced Organizational Behavior | |
- d Electives need to be carefully selected to ensure that a student’s degree comprises at least 39 credits of upper division courses (300-400 level). While students are encouraged to take additional courses in chemistry and business, electives can be selected from any discipline as long as the student meets the course prerequisites.

RECOMMENDATIONS FOR HIGH IMPACT PRACTICES (HIPs)

The University of Wisconsin-Eau Claire encourages all students to participate in High Impact Practices. The following information identifies any specific recommendations that faculty in this major have concerning which HIPs might be most beneficial to students, and any recommendations about when those HIPs best fit into the degree plan. Students should also consult their faculty advisor for information on HIPs. There are many additional high impact opportunities available. Talk to your academic advisor for more information about incorporating HIPs like Study Abroad, Intercultural Immersion, Internship, and/or Student/Faculty Collaborative Research into your time at UW-Eau Claire.

Core General Education Requirements (CGER)

Core General Education Requirements (CGER)

The Core General Education Requirements (CGER) includes a minimum of 10 courses across 6 categories. Students must complete a minimum of 36 credits in courses approved for the CGER Core.

- Mathematics & Quantitative Reasoning (MQR) - 4 credits, one course minimum
 - Includes the University Mathematics Requirement¹
- Communication & Literacy (CL) - 8 credits, two courses minimum
 - Includes the University Writing Requirement (CL-W)²
- Natural Sciences & Wellness (NSW/NSWL) - 6 credits, one course minimum (NSW-Lab required)
- Social & Behavioral Sciences (SBS) - 6 credits, two courses minimum
- Humanities & Arts (HA) - 6 credits, two courses minimum
- Civics & Perspectives (CP) - 6 credits, two courses minimum

¹ **University Mathematics Requirement:**
Students satisfy the University Mathematics Requirement in one of four ways:

- completing an approved university-level mathematics course (MQR) with a grade of C (not C-) or above
- achieving a suitable score on the UW Math Placement Test (<https://www.uwec.edu/academics/academic-support/advising/testing/placement-testing/>)

- achieving a suitable score on an exam such as the Advanced Placement Calculus or Advanced Placement Statistics exams
- achieving a suitable score on a Credit by Examination administered by the Department of Mathematics.

² **University Writing Requirement:**
Students satisfy the University Writing Requirement in one of four ways:

- completing a Blugold Seminar in Critical Reading and Writing course (WRIT 102 (<https://catalog.uwec.edu/search/?P=WRIT%20102>), WRIT 114 (<https://catalog.uwec.edu/search/?P=WRIT%20114>), WRIT 116 (<https://catalog.uwec.edu/search/?P=WRIT%20116>), WRIT 118 (<https://catalog.uwec.edu/search/?P=WRIT%20118>), or WRIT 120 (<https://catalog.uwec.edu/search/?P=WRIT%20120>)) with a grade of C (not C-) or above
- achieving a suitable score on the English Placement Test (<https://www.uwec.edu/academics/blugold-seminar/writ-courses-placement/>) (WPT ENGL)
- achieving a suitable score on an exam such as the Advanced Placement English Literature and Composition or Advanced Placement English Language and Composition exams
- achieving a suitable score on the University Writing Program Portfolio.

Completion via Placement Test

- Writing: If the CL-W subcategory is satisfied through a placement test, the CGER Communication and Literacy requirement will be reduced from 8 credits (2 courses) to 3 credits (1 course).
- Mathematics: If the University Math Requirement is satisfied through a placement test, the CGER Mathematics & Quantitative Reasoning requirement will be considered fully met, replacing the 4-credit (1 course) requirement.
- Students must still complete 36 credits across 10 courses, with any remaining credits or courses eligible to be taken from any CGER category.

Science Teaching, Chemistry Emphasis Comprehensive Major

Teaching (Code 241-002)

University Requirements

GRADUATION REQUIREMENTS FOR BACCALAUREATE DEGREE	
Credit Requirements	
Minimum total for graduation ¹	120
Upper division credits (courses numbered 300 and higher)	39
Core General Education	10 courses, 36 credits
Academic Concentrations	
Grade Point Requirements ²	
Total	2.00 average
Resident	2.00 average
Major	2.00 average
Minor	2.00 average
Certificate	2.00 average
University Residency Requirements	
Minimum total	30
Senior year	23

Major, Standard, upper division in residence	12
Major, Comprehensive, upper division in residence	21
Certificate	25 percent of credits

Procedures Required for Graduation

Obtain admission to the degree program and/or the College offering it.

Apply for graduation on CampS.

¹ Certain programs exceed this minimum.

² See special requirements in each College.

Applicability of Credits Toward Graduation

Junior College or Two-Year College Credits. A maximum of 72 semester credits earned in a junior college or two-year college will be accepted as degree credits at UW-Eau Claire.

Extension Credits. Credits earned in credit outreach courses offered by UW-Eau Claire are treated as resident credits. Credits earned in extension courses offered by other units of the Universities of Wisconsin System are treated as transfer credits. All other (non-UW) extension and correspondence credits are normally limited to one-fourth of the total required for graduation from any curriculum.

WTCS Credits. A maximum of 72 semester credits earned in college parallel programs at Madison Area Technical College, Milwaukee Area Technical College, Nicolet Area Technical College, or Chippewa Valley Technical College may be accepted as degree credits at UW-Eau Claire. A set number of general education courses will be accepted from other technical schools. Occupational and technical courses may also be considered for transfer if the quality and content of the course work from the technical college is judged to be comparable to course work at UW-Eau Claire. Refer to the Transfer Credit Wizard (https://www.uwec.sis.wisconsin.edu/psp/eauprd-tb/EMPLOYEE/SA/c/EAU_SS_CUSTOM.EAU_TRNCRDWZ.GBL) or contact the UW-Eau Claire Admissions Office for information about the current transfer policy.

USAFI Credit. UW-Eau Claire will accept up to 32 semester credits for work done through the United States Armed Forces Institute, under the provision for non-UW correspondence credit (see Extension Credits above).

Activity Credit (band, chorus, drama, KINS 100-184 courses) Students may count toward graduation no more than one credit of KINS 110-184 courses. Students may count toward graduation no more than four credits earned in any single activity course and no more than 12 credits resulting from any combination of activity courses (excluding KINS 110-184 courses).

Other Restricted Credits. For other University restrictions, see the following: Cooperative Education; Credit by Examination; Satisfactory/Unsatisfactory Registration; Transfer of Credits. College or departmental restrictions may also be placed on Independent Study (399-499 courses), Directed Study (395-495), and other types of credits.

APPLICABILITY OF CREDITS TOWARD GRADUATION	Credit Restrictions
Satisfactory/Unsatisfactory	
Total degree credit	maximum 12
Major, Standard	maximum 1 course
Major, Comprehensive	maximum 2 courses

Minor	maximum 1 course

Credit by Examination

Total degree credit	maximum ¼ of total
Major or minor	maximum ½ of total

Two-Year College Credits

Total degree credit	maximum 72 credits

Activity credit (band, chorus, drama, KINS 100-184)

Total KINS 100-184	maximum 1 credit
Total Band, chorus, drama	maximum 12 credits
Single course band, chorus, drama	maximum 4 credits

Extension credits

UW-System	no maximum
Other extension/correspondence	maximum ¼ of total

USAFI

USAFI	maximum 32 credits

Core General Education Requirements (CGER)**CGER Categories**

Mathematics & Quantitative Reasoning (MQR) (http://catalog.uwec.edu/undergraduate/outcome-mqr/)	4 credit hours, 1 course min
Includes University Math Requirement ¹	
Communication & Literacy (CL) (http://catalog.uwec.edu/undergraduate/outcome-cl/)	8 credit hours, 2 course min (including CL-W)
Includes University Writing Requirement (CL-W) (http://catalog.uwec.edu/undergraduate/outcome-clw/) ²	
Natural Sciences & Wellness (NSW/NSWL) (http://catalog.uwec.edu/undergraduate/outcome-NSW/)	6 credit hours, 1 course min (NSW-Lab required)
Social & Behavioral Sciences (SBS) (https://catalog.uwec.edu/undergraduate/outcome-sbs/)	6 credit hours, 2 course min
Humanities & Arts (HA) (http://catalog.uwec.edu/undergraduate/outcome-ha/)	6 credit hours, 2 course min
Civics & Perspectives (CP) (http://catalog.uwec.edu/undergraduate/outcome-cp/)	6 credit hours, 2 course min

¹ University Mathematics Requirement:

Students satisfy the University Mathematics Requirement in one of four ways:

- completing an approved university-level mathematics course (MQR) with a grade of C (not C-) or above
- achieving a suitable score on the UW Math Placement Test (<https://www.uwec.edu/academics/academic-support/advising/testing/placement-testing/>)
- achieving a suitable score on an exam such as the Advanced Placement Calculus or Advanced Placement Statistics exams
- achieving a suitable score on a Credit by Examination administered by the Department of Mathematics.

² University Writing Requirement:

Students satisfy the University Writing Requirement in one of four ways:

- completing a Blugold Seminar in Critical Reading and Writing course (WRIT 102 (<https://catalog.uwec.edu/search/?P=WRIT%20102>), WRIT 114 (<https://catalog.uwec.edu/search/?P=WRIT%20114>), WRIT 116 (<https://catalog.uwec.edu/search/?P=WRIT%20116>), WRIT 118 (<https://catalog.uwec.edu/search/?P=WRIT%20118>), or WRIT 120 (<https://catalog.uwec.edu/search/?P=WRIT%20120>)) with a grade of C (not C-) or above
- achieving a suitable score on the English Placement Test (<https://www.uwec.edu/academics/blugold-seminar/writ-courses-placement/>) (WPT ENGL)
- achieving a suitable score on an exam such as the Advanced Placement English Literature and Composition or Advanced Placement English Language and Composition exams
- achieving a suitable score on the University Writing Program Portfolio.

³ Completion via Placement Tests

- Writing: If the CL-W subcategory is satisfied through a placement test, the CGER Communication and Literacy requirement will be reduced from 8 credits (2 courses) to 3 credits (1 course).
- Mathematics: If the University Math Requirement is satisfied through a placement test, the CGER Mathematics & Quantitative Reasoning requirement will be considered fully met, replacing the 4-credit (1 course) requirement.
- Students must still complete 36 credits across 10 courses, with any remaining credits or courses eligible to be taken from any CGER category.

College Degree Requirements

College of Health and Human Sciences Requirements for Teacher Education Programs

1. Grade point requirements:

Abbreviation	Full Title
Resident	2.75 average
Total	2.75 average
Major	2.75 average
Minor (for certification only)	2.75 average

2. Residency requirements:

Abbreviation	Full Title
Minimum Total	30 credits
Senior Year	23 credits
Major, in upper division courses	12 credits

Comprehensive Major, in upper division courses	21 credits

3. Criteria and requirements for Admission to Education Program and Admission to the Professional Education Semester.
4. Specific requirements for programs offered in the College of Health and Human Sciences as outlined in department specific sections of this catalog.

Admission to Education Program

Admission to the Education Program

Students must apply for admission to the Education Program. Applications are due by October 1 for spring admission or March 1 for fall admission. To submit an application to an Education Program, students must satisfy all of the requirements listed below:

1. Approval by the appropriate department in the College of Health and Human Sciences.
2. Pre-education status.
3. Students must have attained at least Sophomore Status
4. Minimum total GPA of 2.5 or minimum resident GPA of 2.5. Admission is competitive; thus, the minimum GPA does not assure admission.
5. Completed the Core General Education Requirement (CGER) for Communication & Literacy-Writing with a C or better.
6. Completed the Core General Education Requirement (CGER) for Mathematics & Quantitative Reasoning with a C or better.
7. Good academic standing.
8. Complete an introductory education course with a field placement (SEIP 208, ES 212, or the equivalent) with a grade of C or better.

Specific majors may have additional department-level criteria. Consult with the department if needed.

Admission to the Professional Education Semester (Student Teaching or Internship)

Admission to the Professional Education Semester

The "Professional Education Semester" is defined as the semester in which a student is enrolled in the field experience of student teaching or internship.

Filing Notice of Intent to Student Teach Applications: Information concerning the Notice of Intent to Student Teach will be advertised widely and posted across campus each semester with an associated due date. Students who plan to enter the Professional Education Semester during the fall semester of the next academic year must file a Notice of Intent to Student Teach with the Teacher Education Program office in the fall. Students who plan to enter the Professional Education Semester during the spring semester of the next academic year must file a Notice of Intent to Student Teach with the Teacher Education Program office in the spring.

Students are encouraged to submit their Notice of Intent to Student Teach by the announced due date. Considerable time is required to process each notice—that is, to determine eligibility, to make arrangements with schools for an appropriate field experience assignment, and to allow for introductions, orientations, and, in some cases, interviews. Students who file on time will benefit by the careful consideration that can be given to their requests; the later a notice is received, the fewer the placement assignments and choices still available will be. Failure to file a Notice of Intent to Student Teach on time may result in a delay of the Professional Education Semester.

Transfer and Special Students: No transfer or special student can enter the Professional Education Semester until after a full semester of residence and after earning a minimum of 15 credits at UW-Eau Claire. Senior transfer students enrolling in September must file an application for admission to the professional semester by December 1 for the following fall.

Criteria for Admission:

1. Admitted to the appropriate Education Program.
2. Good academic standing, as defined in the catalog.
3. A minimum of 90 earned credits prior to start of Professional Education Semester.
4. Minimum total GPA of 2.75 or minimum resident GPA of 2.75.
5. Completion of the 30-hour Human Relations Fieldwork requirement.
6. Evidence of freedom from Tuberculosis via test conducted by Student Health Services.
7. Completion of required criminal background check.

For placements that start in the Fall semester, criteria for admission must be met by March 1 of the prior semester. For placements that start in the Spring semester, criteria for admission must be met by October 1 of the prior semester.

For placements that start in the summer session, criteria for admission must be met by February 1 of the prior semester.

Licensure Requirements

Licensure to Teach

College of Health and Human Sciences graduates who desire to teach in Wisconsin, will apply for licensure using the WI Department of Public Instruction's (DPI) ELO (Electronic Licensing Online) by following all steps listed on the site including fingerprinting if applicable.

Upon completion of all program requirements and WI DPI teaching requirements, information will be forwarded to DPI verifying program completion, the completion of all required tests, and information on all certifications the teaching candidates are eligible for with licensure. Candidates will then apply for their Initial License.

It is recommended that graduates seeking licensure to teach in states other than Wisconsin request application forms and instructions from the state in which licensure is desired. Early inquiry is suggested as the certification requirements vary by state. In most cases, an official transcript of credits must accompany the completed application form; additional tests or coursework may be required. In general, candidates may be able to obtain licenses in other states; however, these licenses may be issued with stipulations. It is the student's responsibility to understand the licensing requirements of other states. UW-Eau Claire programs are designed to meet the requirements in Wisconsin only.

Criteria for Recommendation for Licensure:

1. Completion of a baccalaureate degree.
2. Completion of an approved education major, minor, and/or certificate.
3. 2.75 or higher GPA in the major, minor, and/or certificate (if certifiable). All college level courses, except student teaching or internship are included when determining GPA for licensure.
4. Completion of student teaching or internship courses with an S.

5. Content area proficiency as demonstrated by earning a minimum 3.0 GPA in content courses OR via obtaining a passing score on the appropriate Praxis II. Candidates for licensure in Languages must obtain a passing score on the ACTFL written portion (WPT) and must pass the OPI/OPIC within three years prior to the start of student teaching or internship. All candidates seeking licensure must also earn a passing score on the FORT.

Major Requirements

Teaching (Code 241-002)

Secondary Education (Grades 4-12) students complete courses in the content area(s) they plan to teach; one or more methods courses specific to the content area; Professional Education coursework focused on instructional methods, assessment of student learning, and curriculum and lesson planning; and ten credits of Student Teaching or Student Teaching Internship.

A Secondary Education student must complete the following requirements to be recommended for licensure:

1. Earn a grade of C or higher in all content-area specific methods coursework and Professional Education coursework.
2. Earn a grade of S in student teaching or student teaching internship.
3. Earn a content area GPA of 3.0 or higher OR complete the appropriate Praxis II or ACTFL test with a passing grade.

Program Learning Outcomes

Students completing this program will be expected to meet the following learning outcomes:

- Describe the structural properties of matter, as well as rationalize and predict chemical stability or physical properties on the basis of structure.
- Classify and rationalize chemical transformations and predict and quantify products.

- Describe the underlying physical principles of various instruments and measurement techniques.
- Develop proficient laboratory techniques.
- Develop critical and creative thinking skills and use them within the context of the field.
- Develop effective oral and written communication skills.
- Become proficient with the chemical literature.
- Function safely in a chemical laboratory and manage waste effectively.
- Conduct themselves ethically and professionally, cultivate awareness of the impact of chemistry on society and recognize contributions from a diverse population.
- Develop strategies and techniques for effectively teaching chemistry and scientific reasoning to students in fourth through twelfth grade.

Science Teaching, Chemistry Emphasis Comprehensive Major (B.S.)

The following is a sample degree plan, based on the current catalog. It is based on the 120-credit graduation requirement and assumes no transferred credits, no requirements waived by placement tests, no courses taken in the summer or winter, no repeated courses, and no remedial courses that may be required. This sample degree plan is intended for first-year students entering UW-Eau Claire in the fall semester. Your own degree plan may differ depending on the course of study selected (second major, minor, etc.). UW-Eau Claire cannot guarantee all courses will be offered as shown but will provide a range of courses that may enable prepared students to fulfill their requirements in a timely period. This sample degree plan is just a guide. Please consult your advisor, your degree audit, and the catalog to create your own degree plan. Note: In order to earn the required minimum of 120 credits for the degree in four years, you should plan to take 15 credits each semester or 30 credits each year.

To earn a degree, students must fulfill all University Graduation Requirements, including the Core General Education Requirements (CGER). CGER course work in the following sample degree plan uses abbreviations such as CGER CL, CGER HA, and CGER NSWL to represent the learning outcomes students will meet via completion of the course. Please click here for a description of the outcomes and requirements.

The University of Wisconsin-Eau Claire encourages all students to participate in High Impact Practices. There are many high-impact opportunities available. Talk to your academic advisor for more information about incorporating HIPs like Study Abroad, Intercultural Immersion, Internship, and/or (<https://www.uwec.edu/offices-services/office-research-and-sponsored-programs/getting-involved-student-faculty-research-1>) Student/Faculty Collaborative Research (<https://www.uwec.edu/offices-services/office-research-and-sponsored-programs/getting-involved-student-faculty-research-1>) into your time at UW-Eau Claire.

Core General Education Requirements (CGER)

Core General Education Requirements (CGER)

The Core General Education Requirements (CGER) includes a minimum of 10 courses across 6 categories. Students must complete a minimum of 36 credits in courses approved for the CGER Core.

- Mathematics & Quantitative Reasoning (MQR) - 4 credits, one course minimum
 - Includes the University Mathematics Requirement¹
- Communication & Literacy (CL) - 8 credits, two courses minimum
 - Includes the University Writing Requirement (CL-W)²
- Natural Sciences & Wellness (NSW/NSWL) - 6 credits, one course minimum (NSW-Lab required)
- Social & Behavioral Sciences (SBS) - 6 credits, two courses minimum
- Humanities & Arts (HA) - 6 credits, two courses minimum
- Civics & Perspectives (CP) - 6 credits, two courses minimum

¹ **University Mathematics Requirement:**

Students satisfy the University Mathematics Requirement in one of four ways:

- completing an approved university-level mathematics course (MQR) with a grade of C (not C-) or above
- achieving a suitable score on the UW Math Placement Test (<https://www.uwec.edu/academics/academic-support/advising/testing/placement-testing/>)
- achieving a suitable score on an exam such as the Advanced Placement Calculus or Advanced Placement Statistics exams
- achieving a suitable score on a Credit by Examination administered by the Department of Mathematics.

² **University Writing Requirement:**

Students satisfy the University Writing Requirement in one of four ways:

- completing a Blugold Seminar in Critical Reading and Writing course (WRIT 102 (<https://catalog.uwec.edu/search/?P=WRIT%20102>), WRIT 114 (<https://catalog.uwec.edu/search/?P=WRIT%20114>), WRIT 116 (<https://catalog.uwec.edu/search/?P=WRIT%20116>), WRIT 118 (<https://catalog.uwec.edu/search/?P=WRIT%20118>))

catalog.uwec.edu/search/?P=WRIT%20118), or WRIT 120 (<https://catalog.uwec.edu/search/?P=WRIT%20120>) with a grade of C (not C-) or above

- achieving a suitable score on the English Placement Test (<https://www.uwec.edu/academics/blugold-seminar/writ-courses-placement/>) (WPT ENGL)
- achieving a suitable score on an exam such as the Advanced Placement English Literature and Composition or Advanced Placement English Language and Composition exams
- achieving a suitable score on the University Writing Program Portfolio.

Completion via Placement Test

- Writing: If the CL-W subcategory is satisfied through a placement test, the CGER Communication and Literacy requirement will be reduced from 8 credits (2 courses) to 3 credits (1 course).
- Mathematics: If the University Math Requirement is satisfied through a placement test, the CGER Mathematics & Quantitative Reasoning requirement will be considered fully met, replacing the 4-credit (1 course) requirement.
- Students must still complete 36 credits across 10 courses, with any remaining credits or courses eligible to be taken from any CGER category.

Chemistry, Minor - Liberal Arts

Liberal Arts (Code 100-405)

Code	Title	Credits
A minimum of 24 semester credits, including:		
Chemistry Core		
Select one of the following: ¹		6
CHEM 115	Chemical Principles	
CHEM 105 & CHEM 106 & CHEM 109	General Chemistry I Lecture and General Chemistry I Laboratory and General Chemistry II	
CHEM 108 & CHEM 109	General Chemistry I and General Chemistry II	
Additional Required:		
CHEM 218	Introduction to Inorganic Chemistry	3
CHEM 325	Organic Chemistry I with Laboratory	4
CHEM 326	Organic Chemistry II with Laboratory	4
CHEM 213 or CHEM 352	Quantitative Analysis Fundamentals of Biochemistry	4
Total Core Credits		21
Elective(s)		
Remaining credits selected from:		
CHEM 213	Quantitative Analysis	
CHEM 304	Environmental Chemistry	
CHEM 318	Bioinorganic Chemistry	
CHEM 352	Fundamentals of Biochemistry	
CHEM 361	Molecules and Medicine	
CHEM 406	Biophysical Chemistry	
CHEM 411	Survey of Industrial Chemistry	
CHEM 426	Modern Organic Chemistry	
CHEM 433	Physical Chemistry I	

CHEM 434	Physical Chemistry II
CHEM 460	Polymer Chemistry

Other advanced courses may be approved by petition.

¹ Only six credits of the CHEM 105/CHEM 106/CHEM 109 sequence, or the CHEM 108/CHEM 109 sequence, are credited to the minor.

Program Learning Outcomes

Students completing this program will be expected to meet the following learning outcomes:

- **Structure and Bonding:** Students can describe the structural properties of matter, as well as rationalize and predict chemical stability or physical properties on the basis of structure.
- **Reactivity and Stability:** Students can classify and rationalize chemical transformations, and predict and quantify products.
- **Laboratory Skills:** Students will become proficient in rudimentary laboratory techniques.
- **Chemical Safety:** Students will function safely in a chemical laboratory, and will manage waste effectively.

Communication and Journalism

Hibbard Humanities Hall 152
715-836-2528

Department Website (<https://www.uwec.edu/academics/college-arts-sciences/departments-programs/communication-journalism/>)

The Department of Communication and Journalism faculty are committed to the development, integration, and practical application of theories, knowledge, and skills related to communication and journalism. Communication and journalism are crucial to a democratic society. Both require citizens to share and challenge information.

Departmental Goals

To prepare students for responsible roles in communication and journalism, the department offers diversified curricula, in which all students can expect to develop in these areas:

- awareness and knowledge of communication processes in diverse cultural, social, legal, and ethical contexts;
- critical and analytical thinking;
- research and information-gathering skills; and
- oral, written, and visual communication skills.

Areas of Emphasis

The department offers majors and minors in Communication, Journalism, and Integrated Strategic Communication with the following options for areas of emphasis:

- **Communication majors/minors:**
Communication Studies
Organizational Communication
- **Integrated Strategic Communication majors:**
Advertising
Public Relations
- **Integrated Strategic Communication minor**
- **Journalism major/minor**

Information for Majors

No student may have both a major and a minor or a major and a certificate from the Department of Communication and Journalism. No major or minor credit may be earned under the Satisfactory/Unsatisfactory option. Students majoring in Communication, Journalism, and Integrated Strategic Communication may not include CJ courses in a topical minor without prior, written approval of the department chair.

Many upper division courses (numbered 300 and above) required in major and minor programs are available only to students who have completed prerequisite courses with grades of C or above.

Students who choose a major in Integrated Strategic Communication or Journalism must meet curriculum accreditation standards set by the Accrediting Council on Education in Journalism and Mass Communications (ACEJMC).

Advising Information

Students who declare a major in the Department of Communication and Journalism as juniors or seniors may not be able to complete the courses required for that major in fewer than four semesters. When completing the paperwork to declare this major, especially Integrated Strategic Communication and Journalism majors, it is important for students to work out the course sequencing necessary to finish in a timely manner.

Communication and Journalism departmental policy specifies that any student who is absent from the first day of class without prior approval of the course instructor may be dropped from the class in order to make room for other students.

Extra-Curricular Opportunities

Communication, Journalism, and Integrated Strategic Communication majors and minors are urged to obtain practical experience from work with campus media and/or professional organizations.

Students may apply for opportunities to work for the award-winning student newspaper, The Spectator, or become a member of the nationally-ranked forensics squad. Lambda Pi Eta and Blugold Radio/WUEC-FM are additional student organizations that offer professional development, experience, and leadership opportunities for students.

University Requirements

GRADUATION REQUIREMENTS FOR BACCALAUREATE DEGREE

Credit Requirements	
Minimum total for graduation ¹	120
Upper division credits (courses numbered 300 and higher)	39
Core General Education	10 courses, 36 credits

Academic Concentrations	
Grade Point Requirements ²	
Total	2.00 average
Resident	2.00 average
Major	2.00 average
Minor	2.00 average
Certificate	2.00 average

University Residency Requirements	
Minimum total	30
Senior year	23
Major, Standard, upper division in residence	12
Major, Comprehensive, upper division in residence	21
Certificate	25 percent of credits

Procedures Required for Graduation	
Obtain admission to the degree program and/or the College offering it.	
Apply for graduation on CampS.	

¹ Certain programs exceed this minimum.

² See special requirements in each College.

Applicability of Credits Toward Graduation

Junior College or Two-Year College Credits. A maximum of 72 semester credits earned in a junior college or two-year college will be accepted as degree credits at UW-Eau Claire.

Extension Credits. Credits earned in credit outreach courses offered by UW-Eau Claire are treated as resident credits. Credits earned in extension courses offered by other units of the Universities of Wisconsin System are treated as transfer credits. All other (non-UW) extension and correspondence credits are normally limited to one-fourth of the total required for graduation from any curriculum.

WTCS Credits. A maximum of 72 semester credits earned in college parallel programs at Madison Area Technical College, Milwaukee Area Technical College, Nicolet Area Technical College, or Chippewa Valley Technical College may be accepted as degree credits at UW-Eau Claire. A set number of general education courses will be accepted from other technical schools. Occupational and technical courses may also be considered for transfer if the quality and content of the course work from the technical college is judged to be comparable to course work at UW-Eau Claire. Refer to the Transfer Credit Wizard (https://www.uwec.sis.wisconsin.edu/psp/eauprd-tb/EMPLOYEE/SA/c/EAU_SS_CUSTOM.EAU_TRNCRDWZ.GBL) or contact the UW-Eau Claire Admissions Office for information about the current transfer policy.

USAFI Credit. UW-Eau Claire will accept up to 32 semester credits for work done through the United States Armed Forces Institute, under the provision for non-UW correspondence credit (see Extension Credits above).

Activity Credit (band, chorus, drama, KINS 100-184 courses) Students may count toward graduation no more than one credit of KINS 110-184 courses. Students may count toward graduation no more than four credits earned in any single activity course and no more than 12 credits resulting from any combination of activity courses (excluding KINS 110-184 courses).

Other Restricted Credits. For other University restrictions, see the following: Cooperative Education; Credit by Examination; Satisfactory/Unsatisfactory Registration; Transfer of Credits. College or departmental restrictions may also be placed on Independent Study (399-499 courses), Directed Study (395-495), and other types of credits.

APPLICABILITY OF CREDITS TOWARD GRADUATION	Credit Restrictions
Satisfactory/Unsatisfactory	
Total degree credit	maximum 12
Major, Standard	maximum 1 course
Major, Comprehensive	maximum 2 courses
Minor	maximum 1 course
Credit by Examination	
Total degree credit	maximum ¼ of total
Major or minor	maximum ½ of total
Two-Year College Credits	
Total degree credit	maximum 72 credits

Activity credit (band, chorus, drama, KINS 100-184)	
Total KINS 100-184	maximum 1 credit
Total Band, chorus, drama	maximum 12 credits
Single course band, chorus, drama	maximum 4 credits
Extension credits	
UW-System	no maximum
Other extension/correspondence	maximum ¼ of total
USAFI	
USAFI	maximum 32 credits

Core General Education Requirements (CGER)

CGER Categories

Mathematics & Quantitative Reasoning (MQR) (http://catalog.uwec.edu/undergraduate/outcome-mqr/)	4 credit hours, 1 course min
Includes University Math Requirement ¹	
Communication & Literacy (CL) (http://catalog.uwec.edu/undergraduate/outcome-cl/)	8 credit hours, 2 course min (including CL-W)
Includes University Writing Requirement (CL-W) (http://catalog.uwec.edu/undergraduate/outcome-clw/) ²	
Natural Sciences & Wellness (NSW/NSWL) (http://catalog.uwec.edu/undergraduate/outcome-NSW/)	6 credit hours, 1 course min (NSW-Lab required)
Social & Behavioral Sciences (SBS) (https://catalog.uwec.edu/undergraduate/outcome-sbs/)	6 credit hours, 2 course min
Humanities & Arts (HA) (http://catalog.uwec.edu/undergraduate/outcome-ha/)	6 credit hours, 2 course min
Civics & Perspectives (CP) (http://catalog.uwec.edu/undergraduate/outcome-cp/)	6 credit hours, 2 course min
CGER Totals ³	
Credits	minimum 36 credits
Courses	minimum 10 courses

¹ University Mathematics Requirement:

Students satisfy the University Mathematics Requirement in one of four ways:

- completing an approved university-level mathematics course (MQR) with a grade of C (not C-) or above
- achieving a suitable score on the UW Math Placement Test (<https://www.uwec.edu/academics/academic-support/advising/testing/placement-testing/>)
- achieving a suitable score on an exam such as the Advanced Placement Calculus or Advanced Placement Statistics exams
- achieving a suitable score on a Credit by Examination administered by the Department of Mathematics.

² University Writing Requirement:

Students satisfy the University Writing Requirement in one of four ways:

- completing a Blugold Seminar in Critical Reading and Writing course (WRIT 102 (<https://catalog.uwec.edu/search/?P=WRIT%20102>), WRIT 114 (<https://catalog.uwec.edu/search/?P=WRIT%20114>), WRIT 116 (<https://catalog.uwec.edu/search/?P=WRIT%20116>), WRIT 118 (<https://catalog.uwec.edu/search/?P=WRIT%20118>), or WRIT 120 (<https://catalog.uwec.edu/search/?P=WRIT%20120>)) with a grade of C (not C-) or above
- achieving a suitable score on the English Placement Test (<https://www.uwec.edu/academics/blugold-seminar/writ-courses-placement/>) (WPT ENGL)
- achieving a suitable score on an exam such as the Advanced Placement English Literature and Composition or Advanced Placement English Language and Composition exams
- achieving a suitable score on the University Writing Program Portfolio.

³ Completion via Placement Tests

- Writing: If the CL-W subcategory is satisfied through a placement test, the CGER Communication and Literacy requirement will be reduced from 8 credits (2 courses) to 3 credits (1 course).
- Mathematics: If the University Math Requirement is satisfied through a placement test, the CGER Mathematics & Quantitative Reasoning requirement will be considered fully met, replacing the 4-credit (1 course) requirement.
- Students must still complete 36 credits across 10 courses, with any remaining credits or courses eligible to be taken from any CGER category.

College Degree Requirements

Bachelor of Arts or Bachelor of Science Degree (B.A./B.S.)

University Graduation Requirements. All candidates for degrees must fulfill the requirements for credits, curriculum, GPA, and University residency as specified in the section of this catalog titled University Graduation Requirements.

College Graduation Requirements: Grade Point Averages. All candidates for degrees in the College of Arts and Sciences must earn minimum resident and total GPAs of 2.00 in the major, the minor, and the certificate. The resident and total GPAs for the major are computed using all attempted credits applicable to the major including those offered by departments other than the major department. The resident and total GPAs for the minor and the certificate are computed similarly.

Major-Minor and Major-Certificate Requirements. A standard major (a minimum of 36 credits) must be supplemented by a minor (a minimum of 24 credits) or by a certificate (12 to 18 credits) to meet graduation requirements for completing a first and second degree program. No minor or certificate is required with a Comprehensive Major (60 or more credits) or with two majors of 36 or more credits each.

Certain degree programs, which include Comprehensive Majors, may require more than the minimum of 120 credits for graduation.

Acceptable academic program combinations are determined at the college level. A major and a minor or a major and certificate or two majors (if available) may not be elected in the same department or program, except in the approved combinations listed here.

College Credits. Earn at least 90 credits in courses offered by the College of Arts and Sciences.

Bachelor of Arts Degree in the College of Arts and Sciences (B.A.)

Fulfillment of all University Graduation Requirements (which includes the Core General Education Requirements); all College-level degree requirements (major and minor/certificate emphases, GPAs, earning at least 90 credits in Arts and Sciences course work); second language competency at the 102 level. Second language competency may be met in one of two ways: (1) Demonstrate a level of second language competency that qualifies the student to enter the 201-level course in a second language. (2) Earn a grade of at least C (not C-) or a mark of S in a 102-level second language course (or AIS 112 or AIS 122 or SLHS 103).

Bachelor of Science Degree in the College of Arts and Sciences (B.S.)

Fulfillment of all University Graduation Requirements (which includes the Core General Education Requirements); all College-level degree requirements (major and minor/certificate emphases, GPAs, earning at least 90 credits in Arts and Sciences course work); mathematics competency at the MATH 111, MATH 112 or MATH 113 level. Mathematics competency can be met in one of three ways: (1) Achieve a score on the mathematics placement test that qualifies the student to enter MATH 114. (2) Earn a grade of at least C (not C-) or a mark of S in MATH 111, MATH 112, or MATH 113. (3) Achieve a satisfactory score on the MATH 112 competency test. This test may be attempted no more than two times.

Major Requirements

Liberal Arts (Code 583-201)

This emphasis teaches students to analyze and enhance human communication through courses in theory, research, and practice. After completing a common core of courses, majors in this emphasis select a variety of electives including courses focused on how communication builds and maintains relationships and how messages in political and popular culture influence society.

Code	Title	Credits
Thirty-six semester credits, including:		
Communication Studies Core (18 credits)		
CJ 201	Introduction to Interpersonal Communication	3
CJ 202	Fundamentals of Speech	3
CJ 206	Human Communication Theory	3
CJ 207	Introduction to Rhetoric and Society	3
CJ 300	Research Methods	3
CJ 459	Communication Research Seminar	3
Communication Studies Electives (12 credits, at least 9 must be at the 300-level or higher):		12
CJ 205	Listening	
CJ 250	Introduction to Organizational Communication	
CJ 301	Intercultural Communication	
CJ 306	Topics in Advanced Interpersonal Communication	
CJ 307	Small Group Communication	
CJ 312	Communication and Gender	
CJ 314	Mass Media and Popular Culture	
CJ/WGSS 317	Diversity & Communication: Organizational & Media Contexts	

CJ 318	Topics in Communication and Social Advocacy
CJ 357	Professional Communication
CJ 406	Persuasion
CJ 407	Leadership Communication
CJ 498	Internship

General Communication and Journalism Electives: (6 credits from any course with a CJ prefix with the exception of CJ 203 which may not be used as credit toward a communication studies major. Students may choose courses from the list of communication studies electives above but no course may be used twice in the major.)

Note 1: No major or minor credit may be earned under the S/U option.

Note 2: Students pursuing the Communication Studies major and the Community Education and Collaboration certificate or the Navigating Health Systems certificate or the Sport Management certificate to meet graduation requirements for completing a first and second degree program must earn a minimum of 48 unique credits between the major and the certificate.

Program Learning Outcomes

Students completing this program will be expected to meet the following learning outcomes:

- Explain what it means to communicate ethically.
- Describe the role of communication in a variety of contexts.
- Make and support claims about communication artifacts.
- Apply discipline-specific theories in order to explain human communication/behavior and make suggestions for corrective actions where needed.
- Conduct a communication research project using recognized quantitative, qualitative, or critical methodologies.
- Explain the relationship between research and theory in the study of communication.
- Prepare and deliver oral presentations.
- Utilize communication to embrace difference.

Communication, Communication Studies Emphasis, Major, B.A.

The following is a sample degree plan, based on the current catalog. It is based on the 120-credit graduation requirement and assumes no transferred credits, no requirements waived by placement tests, no courses taken in the summer or winter, no repeated courses, and no remedial courses that may be required. This sample degree plan is intended for first-year students entering UW-Eau Claire in the fall semester. Your own degree plan may differ depending on the course of study selected (second major, minor, etc.). UW-Eau Claire cannot guarantee all courses will be offered as shown, but will provide a range of courses that may enable prepared students to fulfill their requirements in a timely period. This sample degree plan is just a guide. Please consult your advisor, your degree audit, and the catalog to create your own degree plan. *Note:* In order to earn the required minimum of 120 credits for the degree in four years, you should plan to take 15 credits each semester or 30 credits each year.

To earn a degree, students must fulfill all University Graduation Requirements, including the Core General Education Requirements (CGER). CGER course work in the following sample degree plan uses abbreviations such as CGER CL, CGER HA, and CGER NSWL to represent the learning outcomes students will meet via

completion of the course. Please click here for a description of the outcomes and requirements.

Students in this major have the option to pursue either a Bachelor of Arts (B.A.) or a Bachelor of Science (B.S.) degree. The degrees are distinguished by second language competency for the B.A. and a higher level of mathematics competency for the B.S.

Any 3-credit Elective Course	3
TOTAL FOURTH YEAR	30

Minimum total for the baccalaureate degree = 120 credits

* 9 of 12 credits in the "Communication Studies Electives" must be taken at the 300 level or above.

Notes

- Students must complete 39 credits in courses above the 300 level in order to complete their degree. Those credits may be accumulated in major courses, minor courses, core general education requirement electives, or general elective credits. Levels of major elective, minor elective, and core general education requirement elective, and general elective credits are not indicated on this guide. The student and advisor will monitor progress toward that requirement.
- If a student selects a certificate rather than a minor, there will be fewer required credits in the second program than are reflected in this guide.
- Depending on selection of electives and second program courses, some core general education requirements may be satisfied by a major or second program course. The student and advisor will monitor those opportunities.
- Students must complete 120 credits in order to complete their degree. The low range of credits on this guide does not total 120.

Course Information

Upper division electives in Communication Studies will be offered as CJ 318 and CJ 306. Students can take each of these courses up to three times provided that the topic of the course is different each time they enroll. CJ 318 topics include Rhetorical Criticism, Environmental Rhetoric, and Political Communication. CJ 306 topics include Family Communication and Communication and Conflict. The department is committed to offering one rhetoric/social advocacy elective course during fall semesters and one advanced interpersonal elective course during spring semesters. Please note that CJ 312 is considered an upper division interpersonal elective and will be offered in the spring of even numbered years.

Students are not obligated to choose upper division electives only in a specific track (e.g., a student could take CJ 318 twice and CJ 306 once), but students should take note that they would need to take an upper division elective during their second year if they wanted to take each available iteration of either topics course.

RECOMMENDATIONS FOR HIGH IMPACT PRACTICES (HIPs)

The University of Wisconsin-Eau Claire encourages all students to participate in High Impact Practices. The following information identifies any specific recommendations that faculty in this major have concerning which HIPs might be most beneficial to students, and any recommendations about when those HIPs best fit into the degree plan. Students should also consult their faculty advisor for information on HIPs. There are many additional high impact opportunities available. Talk to your academic advisor for more information about incorporating HIPs like Study Abroad, Intercultural Immersion, Internship, and/or Student/Faculty Collaborative Research into your time at UW-Eau Claire.

Core General Education Requirements (CGER)

Core General Education Requirements (CGER)

The Core General Education Requirements (CGER) includes a minimum of 10 courses across 6 categories. Students must complete a minimum of 36 credits in courses approved for the CGER Core.

- Mathematics & Quantitative Reasoning (MQR) - 4 credits, one course minimum
 - Includes the University Mathematics Requirement¹
- Communication & Literacy (CL) - 8 credits, two courses minimum
 - Includes the University Writing Requirement (CL-W)²
- Natural Sciences & Wellness (NSW/NSWL) - 6 credits, one course minimum (NSW-Lab required)
- Social & Behavioral Sciences (SBS) - 6 credits, two courses minimum
- Humanities & Arts (HA) - 6 credits, two courses minimum
- Civics & Perspectives (CP) - 6 credits, two courses minimum

¹ University Mathematics Requirement:

Students satisfy the University Mathematics Requirement in one of four ways:

- completing an approved university-level mathematics course (MQR) with a grade of C (not C-) or above
- achieving a suitable score on the UW Math Placement Test (<https://www.uwec.edu/academics/academic-support/advising/testing/placement-testing/>)
- achieving a suitable score on an exam such as the Advanced Placement Calculus or Advanced Placement Statistics exams
- achieving a suitable score on a Credit by Examination administered by the Department of Mathematics.

² University Writing Requirement:

Students satisfy the University Writing Requirement in one of four ways:

- completing a Blugold Seminar in Critical Reading and Writing course (WRIT 102 (<https://catalog.uwec.edu/search/?P=WRIT%20102>), WRIT 114 (<https://catalog.uwec.edu/search/?P=WRIT%20114>), WRIT 116 (<https://catalog.uwec.edu/search/?P=WRIT%20116>), WRIT 118 (<https://catalog.uwec.edu/search/?P=WRIT%20118>), or WRIT 120 (<https://catalog.uwec.edu/search/?P=WRIT%20120>)) with a grade of C (not C-) or above
- achieving a suitable score on the English Placement Test (<https://www.uwec.edu/academics/blugold-seminar/writ-courses-placement/>) (WPT ENGL)

- achieving a suitable score on an exam such as the Advanced Placement English Literature and Composition or Advanced Placement English Language and Composition exams
- achieving a suitable score on the University Writing Program Portfolio.

Completion via Placement Test

- Writing: If the CL-W subcategory is satisfied through a placement test, the CGER Communication and Literacy requirement will be reduced from 8 credits (2 courses) to 3 credits (1 course).
- Mathematics: If the University Math Requirement is satisfied through a placement test, the CGER Mathematics & Quantitative Reasoning requirement will be considered fully met, replacing the 4-credit (1 course) requirement.
- Students must still complete 36 credits across 10 courses, with any remaining credits or courses eligible to be taken from any CGER category.

Communication, Communication Studies, Minor

Liberal Arts (Code 583-401)

Includes University Writing Requirement (CL-W) (http://catalog.uwec.edu/undergraduate/outcome-clw/) ²	
Natural Sciences & Wellness (NSW/NSWL) (http://catalog.uwec.edu/undergraduate/outcome-NSW/)	6 credit hours, 1 course min (NSW-Lab required)
Social & Behavioral Sciences (SBS) (https://catalog.uwec.edu/undergraduate/outcome-sbs/)	6 credit hours, 2 course min
Humanities & Arts (HA) (http://catalog.uwec.edu/undergraduate/outcome-ha/)	6 credit hours, 2 course min
Civics & Perspectives (CP) (http://catalog.uwec.edu/undergraduate/outcome-cp/)	6 credit hours, 2 course min
CGER Totals ³	
Credits	minimum 36 credits
Courses	minimum 10 courses

¹ University Mathematics Requirement:

Students satisfy the University Mathematics Requirement in one of four ways:

- completing an approved university-level mathematics course (MQR) with a grade of C (not C-) or above
- achieving a suitable score on the UW Math Placement Test (<https://www.uwec.edu/academics/academic-support/advising/testing/placement-testing/>)
- achieving a suitable score on an exam such as the Advanced Placement Calculus or Advanced Placement Statistics exams
- achieving a suitable score on a Credit by Examination administered by the Department of Mathematics.

² University Writing Requirement:

Students satisfy the University Writing Requirement in one of four ways:

- completing a Bugold Seminar in Critical Reading and Writing course (WRIT 102 (<https://catalog.uwec.edu/search/?P=WRIT%20102>), WRIT 114

(<https://catalog.uwec.edu/search/?P=WRIT%20114>), WRIT 116 (<https://catalog.uwec.edu/search/?P=WRIT%20116>), WRIT 118 (<https://catalog.uwec.edu/search/?P=WRIT%20118>), or WRIT 120 (<https://catalog.uwec.edu/search/?P=WRIT%20120>)) with a grade of C (not C-) or above

- achieving a suitable score on the English Placement Test (<https://www.uwec.edu/academics/blugold-seminar/writ-courses-placement/>) (WPT ENGL)
- achieving a suitable score on an exam such as the Advanced Placement English Literature and Composition or Advanced Placement English Language and Composition exams
- achieving a suitable score on the University Writing Program Portfolio.

³ Completion via Placement Tests

- Writing: If the CL-W subcategory is satisfied through a placement test, the CGER Communication and Literacy requirement will be reduced from 8 credits (2 courses) to 3 credits (1 course).
- Mathematics: If the University Math Requirement is satisfied through a placement test, the CGER Mathematics & Quantitative Reasoning requirement will be considered fully met, replacing the 4-credit (1 course) requirement.
- Students must still complete 36 credits across 10 courses, with any remaining credits or courses eligible to be taken from any CGER category.

College Degree Requirements

Bachelor of Arts or Bachelor of Science Degree (B.A./B.S.)

University Graduation Requirements. All candidates for degrees must fulfill the requirements for credits, curriculum, GPA, and University residency as specified in the section of this catalog titled University Graduation Requirements.

College Graduation Requirements: Grade Point Averages. All candidates for degrees in the College of Arts and Sciences must earn minimum resident and total GPAs of 2.00 in the major, the minor, and the certificate. The resident and total GPAs for the major are computed using all attempted credits applicable to the major including those offered by departments other than the major department. The resident and total GPAs for the minor and the certificate are computed similarly.

Major-Minor and Major-Certificate Requirements. A standard major (a minimum of 36 credits) must be supplemented by a minor (a minimum of 24 credits) or by a certificate (12 to 18 credits) to meet graduation requirements for completing a first and second degree program. No minor or certificate is required with a Comprehensive Major (60 or more credits) or with two majors of 36 or more credits each.

Certain degree programs, which include Comprehensive Majors, may require more than the minimum of 120 credits for graduation.

Acceptable academic program combinations are determined at the college level. A major and a minor or a major and certificate or two majors (if available) may not be elected in the same department or program, except in the approved combinations listed here.

College Credits. Earn at least 90 credits in courses offered by the College of Arts and Sciences.

Bachelor of Arts Degree in the College of Arts and Sciences (B.A.)

Fulfillment of all University Graduation Requirements (which includes the Core General Education Requirements); all College-level degree requirements (major and minor/certificate emphases, GPAs, earning at least 90 credits in Arts and Sciences course work); second language competency at the 102 level. Second language competency may be met in one of two ways: (1) Demonstrate a level of second language competency that qualifies the student to enter the 201-level course in a second language. (2) Earn a grade of at least C (not C-) or a mark of S in a 102-level second language course (or AIS 112 or AIS 122 or SLHS 103).

Bachelor of Science Degree in the College of Arts and Sciences (B.S.)

Fulfillment of all University Graduation Requirements (which includes the Core General Education Requirements); all College-level degree requirements (major and minor/certificate emphases, GPAs, earning at least 90 credits in Arts and Sciences course work); mathematics competency at the MATH 111, MATH 112 or MATH 113 level. Mathematics competency can be met in one of three ways:

- (1) Achieve a score on the mathematics placement test that qualifies the student to enter MATH 114.
- (2) Earn a grade of at least C (not C-) or a mark of S in MATH 111, MATH 112, or MATH 113.
- (3) Achieve a satisfactory score on the MATH 112 competency test. This test may be attempted no more than two times.

Major Requirements

Liberal Arts (Code 583-250)

This emphasis assists students in the development of professional, group, and interpersonal communication skills that enable them to enhance the communities, organizations, and societies in which they live and work. Students learn to analyze, develop, and deliver messages to a variety of stakeholders.

Code	Title	Credits
Thirty-six semester credits, including:		
Core: 21 credits		
CJ 202	Fundamentals of Speech	3
or CJ 203	Fundamentals of Human Communication	
CJ 250	Introduction to Organizational Communication	3
CJ 300	Research Methods	3
CJ 307	Small Group Communication	3
CJ 355	Advanced Organizational Communication: Strategic Message Design	3
CJ 357	Professional Communication	3
CJ 459	Communication Research Seminar	3
Organizational Communication Electives - 9 credits from the following:		9
CJ 201	Introduction to Interpersonal Communication	
CJ 301	Intercultural Communication	
CJ/WGSS 317	Diversity & Communication: Organizational & Media Contexts	
CJ 350	Human Resource Development	
CJ 351	Strategic Event Planning	
CJ 407	Leadership Communication	
CJ 452	Health Communication	
CJ 470	Crisis Communication	
CJ 498	Internship	

CJ Electives: six credits (neither CJ 202 nor CJ 203 may be used as elective credits) **6**

Total Credits **36**

Note 1: No major or minor credit may be earned under the S/U option.

Note 2: Students pursuing the Organizational Communication major and the Community Education and Collaboration certificate or the Navigating Health Systems certificate or the Sports Management certificate to meet graduation requirements for completing a first and second degree program must earn a minimum of 48 unique credits between the major and the certificate.

Program Learning Outcomes

Students completing this program will be expected to meet the following learning outcomes:

- Explain how organizations are created and maintained through communication.
- Use communication theories and constructs to identify and analyze communication problems and develop ethical solutions.
- Access and analyze communication research to identify knowledge gaps and develop questions.
- Draw conclusions from data and articulate implications.
- Utilize communication to embrace difference.
- Orally present ideas using appropriate visual, verbal, and nonverbal communication behaviors.

Communication, Organizational Communication Emphasis, Major, B.A.

The following is a sample degree plan, based on the current catalog. It is based on the 120-credit graduation requirement and assumes no transferred credits, no requirements waived by placement tests, no courses taken in the summer or winter, no repeated courses, and no remedial courses that may be required. This sample degree plan is intended for first-year students entering UW-Eau Claire in the fall semester. Your own degree plan may differ depending on the course of study selected (second major, minor, etc.). UW-Eau Claire cannot guarantee all courses will be offered as shown, but will provide a range of courses that may enable prepared students to fulfill their requirements in a timely period. This sample degree plan is just a guide. Please consult your advisor, your degree audit, and the catalog to create your own degree plan. *Note:* In order to earn the required minimum of 120 credits for the degree in four years, you should plan to take 15 credits each semester or 30 credits each year.

To earn a degree, students must fulfill all University Graduation Requirements, including the Core General Education Requirements (CGER). CGER course work in the following sample degree plan uses abbreviations such as CGER CL, CGER HA, and CGER NSWL to represent the learning outcomes students will meet via completion of the course. Please click here for a description of the outcomes and requirements.

Students in this major have the option to pursue either a Bachelor of Arts (B.A.) or a Bachelor of Science (B.S.) degree. The degrees are distinguished by second language competency for the B.A. and a higher level of mathematics competency for the B.S.

Course in Second Program/Minor	3
Course in Second Program/Minor	3
Course in Second Program/Minor	3
Course in Second Program/Minor	3
Any 3-credit Elective Course	3
Any 3-credit Elective Course	3
Any 3-credit Elective Course	3
TOTAL FOURTH YEAR	30

Minimum total for the baccalaureate degree = 120 credits

Notes:

- Students must complete 39 credits in courses above the 300 level in order to complete their degree. Those credits may be accumulated in major courses, minor courses, core general education requirement electives, or general elective credits. Levels of major elective, minor elective, core general education requirement elective, and general elective credits are not indicated on this guide. The student and advisor will monitor progress toward that requirement.
- If a student selects a certificate rather than a minor, there will be fewer required credits in the second program than are reflected in this guide.
- Depending on selection of electives and second program courses, some core general education requirements may be satisfied by a major or second program course. The student and advisor will monitor those opportunities.
- Students must complete 120 credits in order to complete their degree. The low range of credits on this guide does not total 120.

RECOMMENDATIONS FOR HIGH IMPACT PRACTICES (HIPs)

The University of Wisconsin-Eau Claire encourages all students to participate in High Impact Practices. The following information identifies any specific recommendations that faculty in this major have concerning which HIPs might be most beneficial to students, and any recommendations about when those HIPs best fit into the degree plan. Students should also consult their faculty advisor for information on HIPs. There are many additional high impact opportunities available. Talk to your academic advisor for more information about incorporating HIPs like Study Abroad (<https://studyabroad.apps.uwec.edu/>), Intercultural Immersion (<https://www.uwec.edu/immersion/>), Internship (<https://www.uwec.edu/offices-services/advising-retention-career-center/career-services/internship/job-searching-and/>), and/or Student/Faculty Collaborative Research (<https://www.uwec.edu/offices-services/office-research-and-sponsored-programs/getting-involved-student-faculty-research/>) into your time at UW-Eau Claire.

There are several opportunities for HIPs in the Organizational Communication major. CJ 307 and CJ 355 are both required courses in which students work with community clients on a communication project (e.g., organizational training and/or intervention, social media plan, communications plan, etc.). Additionally, students can choose to take CJ 350 or CJ 351 as elective courses; these courses provide students an opportunity to participate in HIPs. Finally, students will participate in Faculty Student Collaborative Research, another HIP, in CJ 459. CJ students can consult their faculty advisor for more information on HIPs.

Core General Education Requirements (CGER)

Core General Education Requirements (CGER)

The Core General Education Requirements (CGER) includes a minimum of 10 courses across 6 categories. Students must complete a minimum of 36 credits in courses approved for the CGER Core.

- Mathematics & Quantitative Reasoning (MQR) - 4 credits, one course minimum
 - Includes the University Mathematics Requirement¹
- Communication & Literacy (CL) - 8 credits, two courses minimum
 - Includes the University Writing Requirement (CL-W)²
- Natural Sciences & Wellness (NSW/NSWL) - 6 credits, one course minimum (NSW-Lab required)
- Social & Behavioral Sciences (SBS) - 6 credits, two courses minimum
- Humanities & Arts (HA) - 6 credits, two courses minimum
- Civics & Perspectives (CP) - 6 credits, two courses minimum

¹ University Mathematics Requirement:

Students satisfy the University Mathematics Requirement in one of four ways:

- completing an approved university-level mathematics course (MQR) with a grade of C (not C-) or above
- achieving a suitable score on the UW Math Placement Test (<https://www.uwec.edu/academics/academic-support/advising/testing/placement-testing/>)
- achieving a suitable score on an exam such as the Advanced Placement Calculus or Advanced Placement Statistics exams
- achieving a suitable score on a Credit by Examination administered by the Department of Mathematics.

² University Writing Requirement:

Students satisfy the University Writing Requirement in one of four ways:

- completing a Blugold Seminar in Critical Reading and Writing course (WRIT 102 (<https://catalog.uwec.edu/search/?P=WRIT%20102>), WRIT 114 (<https://catalog.uwec.edu/search/?P=WRIT%20114>), WRIT 116 (<https://catalog.uwec.edu/search/?P=WRIT%20116>), WRIT 118 (<https://catalog.uwec.edu/search/?P=WRIT%20118>), or WRIT 120 (<https://catalog.uwec.edu/search/?P=WRIT%20120>)) with a grade of C (not C-) or above
- achieving a suitable score on the English Placement Test (<https://www.uwec.edu/academics/blugold-seminar/writ-courses-placement/>) (WPT ENGL)
- achieving a suitable score on an exam such as the Advanced Placement English Literature and Composition or Advanced Placement English Language and Composition exams
- achieving a suitable score on the University Writing Program Portfolio.

Completion via Placement Test

- Writing: If the CL-W subcategory is satisfied through a placement test, the CGER Communication and Literacy requirement will be reduced from 8 credits (2 courses) to 3 credits (1 course).
- Mathematics: If the University Math Requirement is satisfied through a placement test, the CGER Mathematics & Quantitative Reasoning requirement will be considered fully met, replacing the 4-credit (1 course) requirement.
- Students must still complete 36 credits across 10 courses, with any remaining credits or courses eligible to be taken from any CGER category.

Communication, Organizational Communication Emphasis, Minor

Liberal Arts (Code 583-450)

Students completing this program will be expected to meet the following learning outcomes:

- Explain how organizations are created and maintained through communication.
- Use communication theories and constructs to identify and analyze communication problems and develop ethical solutions.
- Orally present ideas using appropriate visual, verbal, and nonverbal communication behaviors.

Integrated Strategic Communication, Advertising Emphasis, Major

Liberal Arts (Code 585-201)

University Requirements

GRADUATION REQUIREMENTS FOR BACCALAUREATE DEGREE

Credit Requirements	
Minimum total for graduation ¹	120
Upper division credits (courses numbered 300 and higher)	39
Core General Education	10 courses, 36 credits

Academic Concentrations	
Grade Point Requirements ²	
Total	2.00 average
Resident	2.00 average
Major	2.00 average
Minor	2.00 average
Certificate	2.00 average

University Residency Requirements	
Minimum total	30
Senior year	23
Major, Standard, upper division in residence	12
Major, Comprehensive, upper division in residence	21
Certificate	25 percent of credits

Procedures Required for Graduation

Obtain admission to the degree program and/or the College offering it.

Apply for graduation on CampS.

¹ Certain programs exceed this minimum.

² See special requirements in each College.

Applicability of Credits Toward Graduation

Junior College or Two-Year College Credits. A maximum of 72 semester credits earned in a junior college or two-year college will be accepted as degree credits at UW-Eau Claire.

Extension Credits. Credits earned in credit outreach courses offered by UW-Eau Claire are treated as resident credits. Credits earned in extension courses offered by other units of the Universities of Wisconsin System are treated as transfer credits. All other (non-UW) extension and correspondence credits are normally limited to one-fourth of the total required for graduation from any curriculum.

WTCS Credits. A maximum of 72 semester credits earned in college parallel programs at Madison Area Technical College, Milwaukee Area Technical College, Nicolet Area Technical College, or Chippewa Valley Technical College may be accepted as degree credits at UW-Eau Claire. A set number of general education courses will be accepted from other technical schools. Occupational and technical courses may also be considered for transfer if the quality and content of the course work from the technical college is judged to be comparable to course work at UW-Eau Claire. Refer to the Transfer Credit Wizard (https://www.uwec.sis.wisconsin.edu/psp/eauprd-tb/EMPLOYEE/SA/c/EAU_SS_CUSTOM.EAU_TRNCRDWZ.GBL) or contact the UW-Eau Claire Admissions Office for information about the current transfer policy.

USAFI Credit. UW-Eau Claire will accept up to 32 semester credits for work done through the United States Armed Forces Institute, under the provision for non-UW correspondence credit (see Extension Credits above).

Activity Credit (band, chorus, drama, KINS 100-184 courses) Students may count toward graduation no more than one credit of KINS 110-184 courses. Students may count toward graduation no more than four credits earned

in any single activity course and no more than 12 credits resulting from any combination of activity courses (excluding KINS 110-184 courses).

Other Restricted Credits. For other University restrictions, see the following: Cooperative Education; Credit by Examination; Satisfactory/Unsatisfactory Registration; Transfer of Credits. College or departmental restrictions may also be placed on Independent Study (399-499 courses), Directed Study (395-495), and other types of credits.

APPLICABILITY OF CREDITS TOWARD GRADUATION

	Credit Restrictions
Satisfactory/Unsatisfactory	
Total degree credit	maximum 12
Major, Standard	maximum 1 course
Major, Comprehensive	maximum 2 courses
Minor	maximum 1 course
Credit by Examination	
Total degree credit	maximum ¼ of total
Major or minor	maximum ½ of total
Two-Year College Credits	
Total degree credit	maximum 72 credits
Activity credit (band, chorus, drama, KINS 100-184)	
Total KINS 100-184	maximum 1 credit
Total Band, chorus, drama	maximum 12 credits
Single course band, chorus, drama	maximum 4 credits
Extension credits	
UW-System	no maximum
Other extension/correspondence	maximum ¼ of total
USAFI	
USAFI	maximum 32 credits

- Mathematics: If the University Math Requirement is satisfied through a placement test, the CGER Mathematics & Quantitative Reasoning requirement will be considered fully met, replacing the 4-credit (1 course) requirement.
- Students must still complete 36 credits across 10 courses, with any remaining credits or courses eligible to be taken from any CGER category.

College Degree Requirements

Bachelor of Arts or Bachelor of Science Degree (B.A./B.S.)

University Graduation Requirements. All candidates for degrees must fulfill the requirements for credits, curriculum, GPA, and University residency

as specified in the section of this catalog titled University Graduation Requirements.

College Graduation Requirements: Grade Point Averages. All candidates for degrees in the College of Arts and Sciences must earn minimum resident and total GPAs of 2.00 in the major, the minor, and the certificate. The resident and total GPAs for the major are computed using all attempted credits applicable to the major including those offered by departments other than the major department. The resident and total GPAs for the minor and the certificate are computed similarly.

Major-Minor and Major-Certificate Requirements. A standard major (a minimum of 36 credits) must be supplemented by a minor (a minimum of 24 credits) or by a certificate (12 to 18 credits) to meet graduation requirements for completing a first and second degree program. No minor or certificate is required with a Comprehensive Major (60 or more credits) or with two majors of 36 or more credits each.

Certain degree programs, which include Comprehensive Majors, may require more than the minimum of 120 credits for graduation.

Acceptable academic program combinations are determined at the college level. A major and a minor or a major and certificate or two majors (if available) may not be elected in the same department or program, except in the approved combinations listed here.

College Credits. Earn at least 90 credits in courses offered by the College of Arts and Sciences.

Bachelor of Arts Degree in the College of Arts and Sciences (B.A.)

Fulfillment of all University Graduation Requirements (which includes the Core General Education Requirements); all College-level degree requirements (major and minor/certificate emphases, GPAs, earning at least 90 credits in Arts and Sciences course work); second language competency at the 102 level. Second language competency may be met in one of two ways: (1) Demonstrate a level of second language competency that qualifies the student to enter the 201-level course in a second language. (2) Earn a grade of at least C (not C-) or a mark of S in a 102-level second language course (or AIS 112 or AIS 122 or SLHS 103).

Bachelor of Science Degree in the College of Arts and Sciences (B.S.)

Fulfillment of all University Graduation Requirements (which includes the Core General Education Requirements); all College-level degree requirements (major and minor/certificate emphases, GPAs, earning at least 90 credits in Arts and Sciences course work); mathematics competency at the MATH 111, MATH 112 or MATH 113 level. Mathematics competency can be met in one of three ways:

(1) Achieve a score on the mathematics placement test that qualifies the student to enter MATH 114. (2) Earn a grade of at least C (not C-) or a mark of S in MATH 111, MATH 112, or MATH 113. (3) Achieve a satisfactory score on the MATH 112 competency test. This test may be attempted no more than two times.

Major Requirements

Liberal Arts (Code 585-201)

Understanding the objectives, message concepts, and strategies which underlie advertising is the goal of this sequence. Students are prepared to conduct research, establish goals, create messages, and implement plans.

Code	Title	Credits
Advertising majors must complete 36 credits that include:		
CJ 184	Multimedia Communication	3

CJ 202	Fundamentals of Speech	3
or CJ 203	Fundamentals of Human Communication	
CJ 260	Introduction to Integrated Strategic Communication	3
CJ 300	Research Methods	3
CJ 362	Strategic Media Planning	3
CJ 373	Writing for Integrated Strategic Communication	3
CJ 413	Media Law and Ethics	3
CJ 464	Advertising in Contemporary Society	3
CJ 479	Integrated Strategic Communication Management	3
Select one of the following courses:		3
CJ 365	Advertising Message Strategy	
CJ 374	Integrated Strategic Communication (ISC) Campaign Design and Evaluation	
CJ 380	Visual Communication Design	
CJ 460	Advertising Account Management	
CJ electives : six credits (neither CJ 202 nor CJ 203 may be used as elective credits)		6
Total Credits		36

Note 1: No major or minor credit may be earned under the S/U option.

Note 2: Students pursuing the Integrated Strategic Communication, Advertising major and the Community Education and Collaboration certificate or Navigating Health Systems certificate or the Sport Management certificate to meet graduation requirements for completing a first and second degree program must earn a minimum of 48 unique credits between the major and the certificate.

Program Learning Outcomes

Students completing this program will be expected to meet the following learning outcomes:

- Understand and apply the principles and laws of freedom of speech and press for the country in which the institution that invites ACEJMC is located, as well as receive instruction in and understand the range of systems of freedom of expression around the world, including the right to dissent, to monitor and criticize power, and to assemble and petition for redress of grievances.
- Demonstrate an understanding of the history and role of professionals and institutions in shaping communications.
- Demonstrate an understanding of gender, race ethnicity, sexual orientation and, as appropriate, other forms of diversity in domestic society in relation to mass communications.
- Demonstrate an understanding of the diversity of peoples and cultures and of the significance and impact of mass communications in a global society.
- Understand concepts and apply theories in the use and presentation of images and information.
- Demonstrate an understanding of professional ethical principles and work ethically in pursuit of truth, accuracy, fairness and diversity.
- Think critically, creatively and independently.
- Conduct research and evaluate information by methods appropriate to the communications professions in which they work.
- Write correctly and clearly in forms and styles appropriate for the communications professions, audiences and purposes they serve.

- Critically evaluate their own work and that of others for accuracy and fairness, clarity, appropriate style and grammatical correctness.
- Apply basic numerical and statistical concepts.

(Outcomes from Accrediting Council on Education in Journalism and Mass Communication)

Integrated Strategic Communication, Advertising Emphasis, Major, B.A.

The following is a sample degree plan, based on the current catalog. It is based on the 120-credit graduation requirement and assumes no transferred credits, no requirements waived by placement tests, no courses taken in the summer or winter, no repeated courses, and no remedial courses that may be required. This sample degree plan is intended for first-year students entering UW-Eau Claire in the fall semester. Your own degree plan may differ depending on the course of study selected (second major, minor, etc.). UW-Eau Claire cannot guarantee all courses will be offered as shown, but will provide a range of courses that may enable prepared students to fulfill their requirements in a timely period. This sample degree plan is just a guide. Please consult your advisor, your degree audit, and the catalog to create your own degree plan. *Note:* In order to earn the required minimum of 120 credits for the degree in four years, you should plan to take 15 credits each semester or 30 credits each year.

To earn a degree, students must fulfill all University Graduation Requirements, including the Core General Education Requirements (CGER). CGER course work in the following sample degree plan uses abbreviations such as CGER CL, CGER HA, and CGER NSWL to represent the learning outcomes students will meet via completion of the course. Please click here for a description of the outcomes and requirements.

Students in this major have the option to pursue either a Bachelor of Arts (B.A.) or a Bachelor of Science (B.S.) degree. The degrees are distinguished by second language competency for the B.A. and a higher level of mathematics competency for the B.S.

TOTAL FOURTH YEAR	30

Minimum total for the baccalaureate degree = 120 credits

Notes:

- Students must complete 39 credits in courses above the 300 level in order to complete their degree. Those credits may be accumulated in major courses, minor courses, core general education requirement electives, or general elective credits. Levels of major elective, minor elective, core general education requirement elective, and general elective credits are not indicated on this guide. The student and advisor will monitor progress toward that requirement.
- If a student selects a certificate rather than a minor, there will be fewer required credits in the second program than are reflected in this guide.
- Depending on selection of electives and second program courses, some core general education requirements may be satisfied by a major or second program course. The student and advisor will monitor those opportunities.
- Students must complete 120 credits in order to complete their degree. The low range of credits on this guide does not total 120.

RECOMMENDATIONS FOR HIGH IMPACT PRACTICES (HIPs)

The University of Wisconsin-Eau Claire encourages all students to participate in High Impact Practices. The following information identifies any specific recommendations that faculty in this major have concerning which HIPs might be most beneficial to students, and any recommendations about when those HIPs best fit into the degree plan. Students should also consult their faculty advisor for information on HIPs. There are many additional high impact opportunities available. Talk to your academic advisor for more information about incorporating HIPs like Study Abroad, Intercultural Immersion, Internship, and/or Student/Faculty Collaborative Research into your time at UW-Eau Claire.

Core General Education Requirements (CGER)

Core General Education Requirements (CGER)

The Core General Education Requirements (CGER) includes a minimum of 10 courses across 6 categories. Students must complete a minimum of 36 credits in courses approved for the CGER Core.

- Mathematics & Quantitative Reasoning (MQR) - 4 credits, one course minimum
 - Includes the University Mathematics Requirement¹
- Communication & Literacy (CL) - 8 credits, two courses minimum
 - Includes the University Writing Requirement (CL-W)²
- Natural Sciences & Wellness (NSW/NSWL) - 6 credits, one course minimum (NSW-Lab required)
- Social & Behavioral Sciences (SBS) - 6 credits, two courses minimum
- Humanities & Arts (HA) - 6 credits, two courses minimum
- Civics & Perspectives (CP) - 6 credits, two courses minimum

¹ University Mathematics Requirement:

- Students satisfy the University Mathematics Requirement in one of four ways:
- completing an approved university-level mathematics course (MQR) with a grade of C (not C-) or above
 - achieving a suitable score on the UW Math Placement Test (<https://www.uwec.edu/academics/academic-support/advising/testing/placement-testing/>)
 - achieving a suitable score on an exam such as the Advanced Placement Calculus or Advanced Placement Statistics exams
 - achieving a suitable score on a Credit by Examination administered by the Department of Mathematics.

² University Writing Requirement:

Students satisfy the University Writing Requirement in one of four ways:

- completing a Bugold Seminar in Critical Reading and Writing course (WRIT 102 (<https://catalog.uwec.edu/search/?P=WRIT%20102>), WRIT 114 (<https://catalog.uwec.edu/search/?P=WRIT%20114>), WRIT 116 (<https://catalog.uwec.edu/search/?P=WRIT%20116>), WRIT 118 (<https://catalog.uwec.edu/search/?P=WRIT%20118>), or WRIT 120 (<https://catalog.uwec.edu/search/?P=WRIT%20120>)) with a grade of C (not C-) or above
- achieving a suitable score on the English Placement Test (<https://www.uwec.edu/academics/bugold-seminar/writ-courses-placement/>) (WPT ENGL)
- achieving a suitable score on an exam such as the Advanced Placement English Literature and Composition or Advanced Placement English Language and Composition exams
- achieving a suitable score on the University Writing Program Portfolio.

Completion via Placement Test

- Writing: If the CL-W subcategory is satisfied through a placement test, the CGER Communication and Literacy requirement will be reduced from 8 credits (2 courses) to 3 credits (1 course).
- Mathematics: If the University Math Requirement is satisfied through a placement test, the CGER Mathematics & Quantitative Reasoning requirement will be considered fully met, replacing the 4-credit (1 course) requirement.
- Students must still complete 36 credits across 10 courses, with any remaining credits or courses eligible to be taken from any CGER category.

Integrated Strategic Communication, Certificate

(Code 585-601)

The **Certificate in Integrated Strategic Communication** is designed to teach students in a wide variety of non-communication fields to effectively communicate in a message-intensive world. Specifically, students will learn how to promote their skills to the public at large and to help the public build a better understanding of both their chosen field and the issues important to that field. The certificate will provide students with the skills and knowledge needed to identify and analyze target audiences and create messages designed for those audiences.

Code	Title	Credits
Fifteen semester credits, including:		
Required Courses		
CJ 184	Multimedia Communication	3
CJ 260	Introduction to Integrated Strategic Communication	3
CJ 300	Research Methods	3
or one of the following courses:		
MKTG 334	Marketing Research	
POLS 290	Introduction to Political Analysis	
PSYC 271	Methods of Research in Psychology	
SOC 332	Sociological Research Methods	
Select two of the following courses:		6
CJ 373	Writing for Integrated Strategic Communication	

CJ 374	Integrated Strategic Communication (ISC) Campaign Design and Evaluation
CJ 362	Strategic Media Planning

Note 1: Students majoring in any program in Communication and Journalism may not use this certificate to satisfy the graduation requirement of a second program.

Note 2: There must be at least 48 unique credits between a student's major and this certificate if course work overlaps for purposes of meeting graduation requirements for first and second degree programs.

Program Learning Outcomes

Students completing this program will be expected to meet the following learning outcomes:

- Demonstrate an understanding of the history and role of professionals and institutions in shaping communications.
- Understand concepts and apply theories in the use and presentation of images and information.
- Conduct research and evaluate information by methods appropriate to the communications professions in which they work.
- Write correctly and clearly in forms and styles appropriate for the communications professions, audiences and purposes they serve.
- Apply tools and technologies appropriate for the communications professions in which they work.

Integrated Strategic Communication, Minor

Liberal Arts (Code 585-403)

Code	Title	Credits
Twenty-four semester credits, including:		
CJ 184	Multimedia Communication	3
CJ 260	Introduction to Integrated Strategic Communication	3
CJ 300	Research Methods	3
CJ 362	Strategic Media Planning	3
CJ 373	Writing for Integrated Strategic Communication	3
CJ 413	Media Law and Ethics	3
CJ electives: six credits (only one of CJ 202 or CJ 203 may count toward elective credits in the minor)		6
Total Credits		24

Note: No major or minor credit may be earned under the S/U option.

Program Learning Outcomes

Students completing this program will be expected to meet the following learning outcomes:

- Understand and apply the principles and laws of freedom of speech and press for the country in which the institution that invites ACEJMC is located, as well as receive instruction in and understand the range of systems of freedom of expression around the world, including the right to dissent, to monitor and criticize power, and to assemble and petition for redress of grievances.

- Demonstrate an understanding of the history and role of professionals and institutions in shaping communications.
- Demonstrate an understanding of professional ethical principles and work ethically in pursuit of truth, accuracy, fairness and diversity.
- Conduct research and evaluate information by methods appropriate to the communications professions in which they work.
- Write correctly and clearly in forms and styles appropriate for the communications professions, audiences and purposes they serve.

(Outcomes from the Accrediting Council on Education in Journalism and Mass Communication)

Integrated Strategic Communication, Public Relations Emphasis, Major

Liberal Arts (Code 585-202)

University Requirements

GRADUATION REQUIREMENTS FOR BACCALAUREATE DEGREE

Credit Requirements	
Minimum total for graduation ¹	120
Upper division credits (courses numbered 300 and higher)	39
Core General Education	10 courses, 36 credits

Academic Concentrations	
Grade Point Requirements ²	
Total	2.00 average
Resident	2.00 average
Major	2.00 average
Minor	2.00 average
Certificate	2.00 average

University Residency Requirements	
Minimum total	30
Senior year	23
Major, Standard, upper division in residence	12
Major, Comprehensive, upper division in residence	21
Certificate	25 percent of credits

Procedures Required for Graduation	
Obtain admission to the degree program and/or the College offering it.	

Apply for graduation on CampS.

¹ Certain programs exceed this minimum.
² See special requirements in each College.

Applicability of Credits Toward Graduation

Junior College or Two-Year College Credits. A maximum of 72 semester credits earned in a junior college or two-year college will be accepted as degree credits at UW-Eau Claire.

Extension Credits. Credits earned in credit outreach courses offered by UW-Eau Claire are treated as resident credits. Credits earned in extension courses

offered by other units of the Universities of Wisconsin System are treated as transfer credits. All other (non-UW) extension and correspondence credits are normally limited to one-fourth of the total required for graduation from any curriculum.

WTCS Credits. A maximum of 72 semester credits earned in college parallel programs at Madison Area Technical College, Milwaukee Area Technical College, Nicolet Area Technical College, or Chippewa Valley Technical College may be accepted as degree credits at UW-Eau Claire. A set number of general education courses will be accepted from other technical schools. Occupational and technical courses may also be considered for transfer if the quality and content of the course work from the technical college is judged to be comparable to course work at UW-Eau Claire. Refer to the Transfer Credit Wizard (https://www.uwec.sis.wisconsin.edu/psp/eauprd-tb/EMPLOYEE/SA/c/EAU_SS_CUSTOM.EAU_TRNCRDWZ.GBL) or contact the UW-Eau Claire Admissions Office for information about the current transfer policy.

USAFI Credit. UW-Eau Claire will accept up to 32 semester credits for work done through the United States Armed Forces Institute, under the provision for non-UW correspondence credit (see Extension Credits above).

Activity Credit (band, chorus, drama, KINS 100-184 courses) Students may count toward graduation no more than one credit of KINS 110-184 courses. Students may count toward graduation no more than four credits earned in any single activity course and no more than 12 credits resulting from any combination of activity courses (excluding KINS 110-184 courses).

Other Restricted Credits. For other University restrictions, see the following: Cooperative Education; Credit by Examination; Satisfactory/Unsatisfactory Registration; Transfer of Credits. College or departmental restrictions may also be placed on Independent Study (399-499 courses), Directed Study (395-495), and other types of credits.

APPLICABILITY OF CREDITS TOWARD GRADUATION		Credit Restrictions
Satisfactory/Unsatisfactory		
Total degree credit		maximum 12
Major, Standard		maximum 1 course
Major, Comprehensive		maximum 2 courses
Minor		maximum 1 course
Credit by Examination		
Total degree credit		maximum ¼ of total
Major or minor		maximum ½ of total
Two-Year College Credits		
Total degree credit		maximum 72 credits
Activity credit (band, chorus, drama, KINS 100-184)		
Total KINS 100-184		maximum 1 credit
Total Band, chorus, drama		maximum 12 credits
Single course band, chorus, drama		maximum 4 credits
Extension credits		
UW-System		no maximum

Other extension/correspondence	maximum ¼ of total
USAFI	
USAFI	maximum 32 credits

CGER Totals ³	
Credits	minimum 36 credits
Courses	minimum 10 courses

¹ University Mathematics Requirement:

Students satisfy the University Mathematics Requirement in one of four ways:

- completing an approved university-level mathematics course (MQR) with a grade of C (not C-) or above
- achieving a suitable score on the UW Math Placement Test (<https://www.uwec.edu/academics/academic-support/advising/testing/placement-testing/>)
- achieving a suitable score on an exam such as the Advanced Placement Calculus or Advanced Placement Statistics exams
- achieving a suitable score on a Credit by Examination administered by the Department of Mathematics.

² University Writing Requirement:

Students satisfy the University Writing Requirement in one of four ways:

- completing a Blugold Seminar in Critical Reading and Writing course (WRIT 102 (<https://catalog.uwec.edu/search/?P=WRIT%20102>), WRIT 114 (<https://catalog.uwec.edu/search/?P=WRIT%20114>), WRIT 116 (<https://catalog.uwec.edu/search/?P=WRIT%20116>), WRIT 118 (<https://catalog.uwec.edu/search/?P=WRIT%20118>), or WRIT 120 (<https://catalog.uwec.edu/search/?P=WRIT%20120>)) with a grade of C (not C-) or above
- achieving a suitable score on the English Placement Test (<https://www.uwec.edu/academics/blugold-seminar/writ-courses-placement/>) (WPT ENGL)

- achieving a suitable score on an exam such as the Advanced Placement English Literature and Composition or Advanced Placement English Language and Composition exams
- achieving a suitable score on the University Writing Program Portfolio.

³ Completion via Placement Tests

- Writing: If the CL-W subcategory is satisfied through a placement test, the CGER Communication and Literacy requirement will be reduced from 8 credits (2 courses) to 3 credits (1 course).
- Mathematics: If the University Math Requirement is satisfied through a placement test, the CGER Mathematics & Quantitative Reasoning requirement will be considered fully met, replacing the 4-credit (1 course) requirement.
- Students must still complete 36 credits across 10 courses, with any remaining credits or courses eligible to be taken from any CGER category.

College Degree Requirements

Bachelor of Arts or Bachelor of Science Degree (B.A./B.S.)

University Graduation Requirements. All candidates for degrees must fulfill the requirements for credits, curriculum, GPA, and University residency as specified in the section of this catalog titled University Graduation Requirements.

College Graduation Requirements: Grade Point Averages. All candidates for degrees in the College of Arts and Sciences must earn minimum resident and total GPAs of 2.00 in the major, the minor, and the certificate. The resident and total GPAs for the major are computed using all attempted credits applicable to the major including those offered by departments other than the major department. The resident and total GPAs for the minor and the certificate are computed similarly.

Major-Minor and Major-Certificate Requirements. A standard major (a minimum of 36 credits) must be supplemented by a minor (a minimum of 24 credits) or by a certificate (12 to 18 credits) to meet graduation requirements for completing a first and second degree program. No minor or certificate is required with a Comprehensive Major (60 or more credits) or with two majors of 36 or more credits each.

Certain degree programs, which include Comprehensive Majors, may require more than the minimum of 120 credits for graduation.

Acceptable academic program combinations are determined at the college level. A major and a minor or a major and certificate or two majors (if available) may not be elected in the same department or program, except in the approved combinations listed here.

College Credits. Earn at least 90 credits in courses offered by the College of Arts and Sciences.

Bachelor of Arts Degree in the College of Arts and Sciences (B.A.)

Fulfillment of all University Graduation Requirements (which includes the Core General Education Requirements); all College-level degree requirements (major and minor/certificate emphases, GPAs, earning at least 90 credits in Arts and Sciences course work); second language competency at the 102 level. Second language competency may be met in one of two ways: (1) Demonstrate a level of second language competency that qualifies the student to enter the 201-level course in a second language. (2) Earn a grade of at least C (not C-)

or a mark of S in a 102-level second language course (or AIS 112 or AIS 122 or SLHS 103).

Bachelor of Science Degree in the College of Arts and Sciences (B.S.)

Fulfillment of all University Graduation Requirements (which includes the Core General Education Requirements); all College-level degree requirements (major and minor/certificate emphases, GPAs, earning at least 90 credits in Arts and Sciences course work); mathematics competency at the MATH 111, MATH 112 or MATH 113 level. Mathematics competency can be met in one of three ways:

(1) Achieve a score on the mathematics placement test that qualifies the student to enter MATH 114. (2) Earn a grade of at least C (not C-) or a mark of S in MATH 111, MATH 112, or MATH 113. (3) Achieve a satisfactory score on the MATH 112 competency test. This test may be attempted no more than two times.

Major Requirements

Liberal Arts (Code 585-202)

The goal of this emphasis is to understand objectives and strategies that shape the information delivered to publics. Students are prepared to analyze, design, and manage public relations messages.

Code	Title	Credits
Public Relations majors must complete 36 credit hours that include:		
CJ 184	Multimedia Communication	3
CJ 202	Fundamentals of Speech	3
or CJ 203	Fundamentals of Human Communication	
CJ 260	Introduction to Integrated Strategic Communication	3
CJ 300	Research Methods	3
CJ 373	Writing for Integrated Strategic Communication	3
CJ 374	Integrated Strategic Communication (ISC) Campaign Design and Evaluation	3
CJ 413	Media Law and Ethics	3
CJ 479	Integrated Strategic Communication Management	3
Select one of the following courses:		3
CJ 272	Social Media and Communication	
CJ 362	Strategic Media Planning	
CJ 380	Visual Communication Design	
CJ 470	Crisis Communication	
Select one of the following courses:		3
CJ 301	Intercultural Communication	
CJ/WGSS 317	Diversity & Communication: Organizational & Media Contexts	
CJ 464	Advertising in Contemporary Society	
CJ electives: six credits (neither CJ 202 nor CJ 203 may be used as elective credits)		6
Total Credits		36

Note 1: No major or minor credit may be earned under the S/U option.

Note 2: Students pursuing the Integrated Strategic Communication, Public Relations major and the Community Education and Collaboration certificate or Navigating Health Systems certificate or the Sport Management certificate to meet graduation requirements for completing a first and second degree

program must earn a minimum of 48 unique credits between the major and the certificate.

Program Learning Outcomes

Students completing this program will be expected to meet the following learning outcomes:

- Understand and apply the principles and laws of freedom of speech and press for the country in which the institution that invites ACEJMC is located, as well as receive instruction in and understand the range of systems of freedom of expression around the world, including the right to dissent, to monitor and criticize power, and to assemble and petition for redress of grievances.
- Demonstrate an understanding of the history and role of professionals and institutions in shaping communications.
- Demonstrate an understanding of gender, race ethnicity, sexual orientation and, as appropriate, other forms of diversity in domestic society in relation to mass communications.
- Demonstrate an understanding of the diversity of peoples and cultures and of the significance and impact of mass communications in a global society.
- Understand concepts and apply theories in the use and presentation of images and information.
- Demonstrate an understanding of professional ethical principles and work ethically in pursuit of truth, accuracy, fairness and diversity.
- Think critically, creatively and independently.
- Conduct research and evaluate information by methods appropriate to the communications professions in which they work.
- Write correctly and clearly in forms and styles appropriate for the communications professions, audiences and purposes they serve.
- Critically evaluate their own work and that of others for accuracy and fairness, clarity, appropriate style and grammatical correctness.
- Apply basic numerical and statistical concepts.

(Outcomes from Accrediting Council on Education in Journalism and Mass Communication)

Integrated Strategic Communication, Public Relations Emphasis, Major, B.A.

The following is a sample degree plan, based on the current catalog. It is based on the 120-credit graduation requirement and assumes no transferred credits, no requirements waived by placement tests, no courses taken in the summer or winter, no repeated courses, and no remedial courses that may be required. This sample degree plan is intended for first-year students entering UW-Eau Claire in the fall semester. Your own degree plan may differ depending on the course of study selected (second major, minor, etc.). UW-Eau Claire cannot guarantee all courses will be offered as shown, but will provide a range of courses that may enable prepared students to fulfill their requirements in a timely period. This sample degree plan is just a guide. Please consult your advisor, your degree audit, and the catalog to create your own degree plan. Note: In order to earn the required minimum of 120 credits for the degree in four years, you should plan to take 15 credits each semester or 30 credits each year.

To earn a degree, students must fulfill all University Graduation Requirements, including the Core General Education Requirements (CGER). CGER course work in the following sample degree plan uses abbreviations such as CGER CL, CGER HA, and CGER NSWL to represent the learning outcomes students will meet via completion of the course. Please click [here](#) for a description of the outcomes and requirements.

Students in this major have the option to pursue either a Bachelor of Arts (B.A.) or a Bachelor of Science (B.S.) degree. The degrees are distinguished by

second language competency for the B.A. and a higher level of mathematics competency for the B.S.

Notes:

- Students must complete 39 credits in courses above the 300 level in order to complete their degree. Those credits may be accumulated in major courses, minor courses, core general education requirement electives, or general elective credits. Levels of major elective, minor elective, core general education requirement elective, and general elective credits are not indicated on this guide. The student and advisor will monitor progress toward that requirement.
- If a student selects a certificate rather than a minor, there will be fewer required credits in the second program than are reflected in this guide.
- Depending on selection of electives and second program courses, some core general education requirements may be satisfied by a major or second program course. The student and advisor will monitor those opportunities.
- Students must complete 120 credits in order to complete their degree. The low range of credits on this guide does not total 120.

RECOMMENDATIONS FOR HIGH IMPACT PRACTICES (HIPs)

The University of Wisconsin-Eau Claire encourages all students to participate in High Impact Practices. The following information identifies any specific recommendations that faculty in this major have concerning which HIPs might be most beneficial to students, and any recommendations about when those HIPs best fit into the degree plan. Students should also consult their faculty advisor for information on HIPs. There are many additional high impact opportunities available. Talk to your academic advisor for more information about incorporating HIPs like Study Abroad (<https://studyabroad.apps.uwec.edu/>), Intercultural Immersion (<https://www.uwec.edu/immersion/>), Internship (<https://www.uwec.edu/offices-services/advising-retention-career-center/career-services/internship/job-searching-and/>), and/

or Student/Faculty Collaborative Research (<https://www.uwec.edu/offices-services/office-research-and-sponsored-programs/getting-involved-student-faculty-research/>) into your time at UW-Eau Claire.

Core General Education Requirements (CGER)

Core General Education Requirements (CGER)

The Core General Education Requirements (CGER) includes a minimum of 10 courses across 6 categories. Students must complete a minimum of 36 credits in courses approved for the CGER Core.

- Mathematics & Quantitative Reasoning (MQR) - 4 credits, one course minimum
 - Includes the University Mathematics Requirement¹
- Communication & Literacy (CL) - 8 credits, two courses minimum
 - Includes the University Writing Requirement (CL-W)²
- Natural Sciences & Wellness (NSW/NSWL) - 6 credits, one course minimum (NSW-Lab required)
- Social & Behavioral Sciences (SBS) - 6 credits, two courses minimum
- Humanities & Arts (HA) - 6 credits, two courses minimum
- Civics & Perspectives (CP) - 6 credits, two courses minimum

¹ University Mathematics Requirement:

Students satisfy the University Mathematics Requirement in one of four ways:

- completing an approved university-level mathematics course (MQR) with a grade of C (not C-) or above
- achieving a suitable score on the UW Math Placement Test (<https://www.uwec.edu/academics/academic-support/advising/testing/placement-testing/>)
- achieving a suitable score on an exam such as the Advanced Placement Calculus or Advanced Placement Statistics exams
- achieving a suitable score on a Credit by Examination administered by the Department of Mathematics.

² University Writing Requirement:

Students satisfy the University Writing Requirement in one of four ways:

- completing a Blugold Seminar in Critical Reading and Writing course (WRIT 102 (<https://catalog.uwec.edu/search/?P=WRIT%20102>), WRIT 114 (<https://catalog.uwec.edu/search/?P=WRIT%20114>), WRIT 116 (<https://catalog.uwec.edu/search/?P=WRIT%20116>), WRIT 118 (<https://catalog.uwec.edu/search/?P=WRIT%20118>), or WRIT 120 (<https://catalog.uwec.edu/search/?P=WRIT%20120>)) with a grade of C (not C-) or above
- achieving a suitable score on the English Placement Test (<https://www.uwec.edu/academics/blugold-seminar/writ-courses-placement/>) (WPT ENGL)
- achieving a suitable score on an exam such as the Advanced Placement English Literature and Composition or Advanced Placement English Language and Composition exams
- achieving a suitable score on the University Writing Program Portfolio.

Completion via Placement Test

- Writing: If the CL-W subcategory is satisfied through a placement test, the CGER Communication and Literacy requirement will be reduced from 8 credits (2 courses) to 3 credits (1 course).
- Mathematics: If the University Math Requirement is satisfied through a placement test, the CGER Mathematics & Quantitative Reasoning requirement will be considered fully met, replacing the 4-credit (1 course) requirement.

- Students must still complete 36 credits across 10 courses, with any remaining credits or courses eligible to be taken from any CGER category.

Journalism, Certificate

(Code 560-601)

The **Certificate in Journalism** is designed for students who wish to develop an understanding of the role journalism plays in a democracy and the underlying principles and practices of journalism. A combination of courses in journalism help students acquire the knowledge and introductory skills that will allow them to use the tools of journalism to develop and design reported information across media platforms. The journalism certificate aligns with the university mission as journalism fosters creativity, critical thinking, empathy for others, and intellectual courage to monitor power and question authority on behalf of the public.

Code	Title	Credits
Minimum of 12 credits required:		
Required courses (9 credits):		
CJ 184	Multimedia Communication	3
CJ 222	Beginning Journalism	3
CJ 413	Media Law and Ethics	3
Elective courses (3 credits). These courses allow students to select the journalism skills that most apply to their particular interests or career aspirations.		3
CJ 241	Audio and Video Production Process	
CJ 284	Introduction to Photography	
CJ 321	Intermediate Journalism	
CJ 322	Immersion Journalism	
Total Credits		12

Note 1: Courses used for the certificate may not be applied to the major.

Note 2: Students majoring in any program in Communication and Journalism may not use this certificate to satisfy the graduation requirement of a second program.

Program Learning Outcomes

Students completing this program will be expected to meet the following learning outcomes:

- Explain journalistic communication processes in diverse social, legal and ethical contexts.
- Demonstrate critical and analytical thinking skills.
- Demonstrate reporting and information gathering skills.
- Demonstrate strong oral, written, and visual communication skills.

Journalism, Major

Liberal Arts (Code 560-206)

University Requirements

GRADUATION REQUIREMENTS FOR BACCALAUREATE DEGREE	
Credit Requirements	
Minimum total for graduation ¹	120
Upper division credits (courses numbered 300 and higher)	39

Core General Education	10 courses, 36 credits

Academic Concentrations	
Grade Point Requirements ²	
Total	2.00 average
Resident	2.00 average
Major	2.00 average
Minor	2.00 average
Certificate	2.00 average
University Residency Requirements	
Minimum total	30
Senior year	23
Major, Standard, upper division in residence	12
Major, Comprehensive, upper division in residence	21
Certificate	25 percent of credits

Procedures Required for Graduation	
Obtain admission to the degree program and/or the College offering it.	
Apply for graduation on CampS.	

- ¹ Certain programs exceed this minimum.
- ² See special requirements in each College.

Applicability of Credits Toward Graduation

Junior College or Two-Year College Credits. A maximum of 72 semester credits earned in a junior college or two-year college will be accepted as degree credits at UW-Eau Claire.

Extension Credits. Credits earned in credit outreach courses offered by UW-Eau Claire are treated as resident credits. Credits earned in extension courses offered by other units of the Universities of Wisconsin System are treated as transfer credits. All other (non-UW) extension and correspondence credits are normally limited to one-fourth of the total required for graduation from any curriculum.

WTCS Credits. A maximum of 72 semester credits earned in college parallel programs at Madison Area Technical College, Milwaukee Area Technical College, Nicolet Area Technical College, or Chippewa Valley Technical College may be accepted as degree credits at UW-Eau Claire. A set number of general education courses will be accepted from other technical schools. Occupational and technical courses may also be considered for transfer if the quality and content of the course work from the technical college is judged to be comparable to course work at UW-Eau Claire. Refer to the Transfer Credit Wizard (https://www.uwec.sis.wisconsin.edu/psp/eauprd-tb/EMPLOYEE/SA/c/EAU_SS_CUSTOM.EAU_TRNCRDWZ.GBL) or contact the UW-Eau Claire Admissions Office for information about the current transfer policy.

USAFI Credit. UW-Eau Claire will accept up to 32 semester credits for work done through the United States Armed Forces Institute, under the provision for non-UW correspondence credit (see Extension Credits above).

Activity Credit (band, chorus, drama, KINS 100-184 courses) Students may count toward graduation no more than one credit of KINS 110-184 courses. Students may count toward graduation no more than four credits earned in any single activity course and no more than 12 credits resulting from any combination of activity courses (excluding KINS 110-184 courses).

Other Restricted Credits. For other University restrictions, see the following: Cooperative Education; Credit by Examination; Satisfactory/Unsatisfactory Registration; Transfer of Credits. College or departmental restrictions may also be placed on Independent Study (399-499 courses), Directed Study (395-495), and other types of credits.

APPLICABILITY OF CREDITS TOWARD GRADUATION	Credit Restrictions
Satisfactory/Unsatisfactory	
Total degree credit	maximum 12
Major, Standard	maximum 1 course
Major, Comprehensive	maximum 2 courses
Minor	maximum 1 course
Credit by Examination	
Total degree credit	maximum ¼ of total
Major or minor	maximum ½ of total
Two-Year College Credits	
Total degree credit	maximum 72 credits
Activity credit (band, chorus, drama, KINS 100-184)	
Total KINS 100-184	maximum 1 credit
Total Band, chorus, drama	maximum 12 credits
Single course band, chorus, drama	maximum 4 credits
Extension credits	
UW-System	no maximum
Other extension/correspondence	maximum ¼ of total
USAFI	
USAFI	maximum 32 credits

Core General Education Requirements (CGER)

CGER Categories

Mathematics & Quantitative Reasoning (MQR) (http://catalog.uwec.edu/undergraduate/outcome-mqr/)	4 credit hours, 1 course min
Includes University Math Requirement ¹	
Communication & Literacy (CL) (http://catalog.uwec.edu/undergraduate/outcome-cl/)	8 credit hours, 2 course min (including CL-W)
Includes University Writing Requirement (CL-W) (http://catalog.uwec.edu/undergraduate/outcome-clw/) ²	
Natural Sciences & Wellness (NSW/NSWL) (http://catalog.uwec.edu/undergraduate/outcome-NSW/)	6 credit hours, 1 course min (NSW-Lab required)
Social & Behavioral Sciences (SBS) (https://catalog.uwec.edu/undergraduate/outcome-sbs/)	6 credit hours, 2 course min

Humanities & Arts (HA) (http://catalog.uwec.edu/undergraduate/outcome-ha/)	6 credit hours, 2 course min
Civics & Perspectives (CP) (http://catalog.uwec.edu/undergraduate/outcome-cp/)	6 credit hours, 2 course min

CGER Totals ³

Credits	minimum 36 credits
Courses	minimum 10 courses

¹ University Mathematics Requirement:

Students satisfy the University Mathematics Requirement in one of four ways:

- completing an approved university-level mathematics course (MQR) with a grade of C (not C-) or above
- achieving a suitable score on the UW Math Placement Test (<https://www.uwec.edu/academics/academic-support/advising/testing/placement-testing/>)
- achieving a suitable score on an exam such as the Advanced Placement Calculus or Advanced Placement Statistics exams
- achieving a suitable score on a Credit by Examination administered by the Department of Mathematics.

² University Writing Requirement:

Students satisfy the University Writing Requirement in one of four ways:

- completing a Blugold Seminar in Critical Reading and Writing course (WRIT 102 (<https://catalog.uwec.edu/search/?P=WRIT%20102>), WRIT 114 (<https://catalog.uwec.edu/search/?P=WRIT%20114>), WRIT 116 (<https://catalog.uwec.edu/search/?P=WRIT%20116>), WRIT 118 (<https://catalog.uwec.edu/search/?P=WRIT%20118>), or WRIT 120 (<https://catalog.uwec.edu/search/?P=WRIT%20120>)) with a grade of C (not C-) or above
- achieving a suitable score on the English Placement Test (<https://www.uwec.edu/academics/blugold-seminar/writ-courses-placement/>) (WPT ENGL)
- achieving a suitable score on an exam such as the Advanced Placement English Literature and Composition or Advanced Placement English Language and Composition exams
- achieving a suitable score on the University Writing Program Portfolio.

³ Completion via Placement Tests

- Writing: If the CL-W subcategory is satisfied through a placement test, the CGER Communication and Literacy requirement will be reduced from 8 credits (2 courses) to 3 credits (1 course).
- Mathematics: If the University Math Requirement is satisfied through a placement test, the CGER Mathematics & Quantitative Reasoning requirement will be considered fully met, replacing the 4-credit (1 course) requirement.
- Students must still complete 36 credits across 10 courses, with any remaining credits or courses eligible to be taken from any CGER category.

College Degree Requirements

Bachelor of Arts or Bachelor of Science Degree (B.A./B.S.)

University Graduation Requirements. All candidates for degrees must fulfill the requirements for credits, curriculum, GPA, and University residency

as specified in the section of this catalog titled University Graduation Requirements.

College Graduation Requirements: Grade Point Averages. All candidates for degrees in the College of Arts and Sciences must earn minimum resident and total GPAs of 2.00 in the major, the minor, and the certificate. The resident and total GPAs for the major are computed using all attempted credits applicable to the major including those offered by departments other than the major department. The resident and total GPAs for the minor and the certificate are computed similarly.

Major-Minor and Major-Certificate Requirements. A standard major (a minimum of 36 credits) must be supplemented by a minor (a minimum of 24 credits) or by a certificate (12 to 18 credits) to meet graduation requirements for completing a first and second degree program. No minor or certificate is required with a Comprehensive Major (60 or more credits) or with two majors of 36 or more credits each.

Certain degree programs, which include Comprehensive Majors, may require more than the minimum of 120 credits for graduation.

Acceptable academic program combinations are determined at the college level. A major and a minor or a major and certificate or two majors (if available) may not be elected in the same department or program, except in the approved combinations listed here.

College Credits. Earn at least 90 credits in courses offered by the College of Arts and Sciences.

Bachelor of Arts Degree in the College of Arts and Sciences (B.A.)

Fulfillment of all University Graduation Requirements (which includes the Core General Education Requirements); all College-level degree requirements (major and minor/certificate emphases, GPAs, earning at least 90 credits in Arts and Sciences course work); second language competency at the 102 level. Second language competency may be met in one of two ways: (1) Demonstrate a level of second language competency that qualifies the student to enter the 201-level course in a second language. (2) Earn a grade of at least C (not C-) or a mark of S in a 102-level second language course (or AIS 112 or AIS 122 or SLHS 103).

Bachelor of Science Degree in the College of Arts and Sciences (B.S.)

Fulfillment of all University Graduation Requirements (which includes the Core General Education Requirements); all College-level degree requirements (major and minor/certificate emphases, GPAs, earning at least 90 credits in Arts and Sciences course work); mathematics competency at the MATH 111, MATH 112 or MATH 113 level. Mathematics competency can be met in one of three ways:

(1) Achieve a score on the mathematics placement test that qualifies the student to enter MATH 114. (2) Earn a grade of at least C (not C-) or a mark of S in MATH 111, MATH 112, or MATH 113. (3) Achieve a satisfactory score on the MATH 112 competency test. This test may be attempted no more than two times.

Major Requirements

Liberal Arts (Code 560-206)

Understanding the role of journalism in a democratic society is the goal of this major. This major prepares students to inform citizens and enhance democracy by gathering, writing, editing and delivering news across multiple platforms.

Code	Title	Credits
Journalism majors must complete 36 credits hours that include:		

CJ 184	Multimedia Communication	3
CJ 202	Fundamentals of Speech	3
or CJ 203	Fundamentals of Human Communication	
CJ 222	Beginning Journalism	3
CJ 300	Research Methods	3
CJ 321	Intermediate Journalism	3
CJ 413	Media Law and Ethics	3
CJ 427	Advanced Reporting and Editing	3
CJ 429	Digital Newsroom (capstone)	3
Select one of the following courses:		3
CJ 241	Audio and Video Production Process	
CJ 284	Introduction to Photography	
CJ 380	Visual Communication Design	
Select one of the following courses:		3
CJ 301	Intercultural Communication	
CJ/WGSS 317	Diversity & Communication: Organizational & Media Contexts	
CJ 464	Advertising in Contemporary Society	
CJ electives: six credits (neither CJ 202 nor CJ 203 may be used as elective credits)		6
Total Credits		36

Note 1: No major or minor credit may be earned under the S/U option.

Note 2: Students pursuing the Journalism major and the Community Education and Collaboration certificate or the Navigating Health Systems certificate or the Sport Management certificate to meet graduation requirements for completing a first and second degree program must earn a minimum of 48 unique credits between the major and the certificate.

Program Learning Outcomes

Students completing this program will be expected to meet the following learning outcomes:

- Understand and apply the principles and laws of freedom of speech and press for the country in which the institution that invites ACEJMC is located, as well as receive instruction in and understand the range of systems of freedom of expression around the world, including the right to dissent, to monitor and criticize power, and to assemble and petition for redress of grievances.
- Demonstrate an understanding of the history and role of professionals and institutions in shaping communications.
- Demonstrate an understanding of gender, race ethnicity, sexual orientation and, as appropriate, other forms of diversity in domestic society in relation to mass communications.
- Demonstrate an understanding of the diversity of peoples and cultures and of the significance and impact of mass communications in a global society.
- Understand concepts and apply theories in the use and presentation of images and information.
- Demonstrate an understanding of professional ethical principles and work ethically in pursuit of truth, accuracy, fairness and diversity.
- Think critically, creatively and independently.
- Conduct research and evaluate information by methods appropriate to the communications professions in which they work.
- Write correctly and clearly in forms and styles appropriate for the communications professions, audiences and purposes they serve.
- Critically evaluate their own work and that of others for accuracy and fairness, clarity, appropriate style and grammatical correctness.

- Apply basic numerical and statistical concepts.
- Apply tools and technologies appropriate for the communications professions in which they work.

(Outcomes from Accrediting Council on Education in Journalism and Mass Communication)

Journalism, Major, B.A.

The following is a sample degree plan, based on the current catalog. It is based on the 120-credit graduation requirement and assumes no transferred credits, no requirements waived by placement tests, no courses taken in the summer or winter, no repeated courses, and no remedial courses that may be required. This sample degree plan is intended for first-year students entering UW-Eau Claire in the fall semester. Your own degree plan may differ depending on the course of study selected (second major, minor, etc.). UW-Eau Claire cannot guarantee all courses will be offered as shown, but will provide a range of courses that may enable prepared students to fulfill their requirements in a timely period. This sample degree plan is just a guide. Please consult your advisor, your degree audit, and the catalog to create your own degree plan. *Note:* In order to earn the required minimum of 120 credits for the degree in four years, you should plan to take 15 credits each semester or 30 credits each year.

To earn a degree, students must fulfill all University Graduation Requirements, including the Core General Education Requirements (CGER). CGER course work in the following sample degree plan uses abbreviations such as CGER CL, CGER HA, and CGER NSWL to represent the learning outcomes students will meet via completion of the course. Please click here for a description of the outcomes and requirements.

Students in this major have the option to pursue either a Bachelor of Arts (B.A.) or a Bachelor of Science (B.S.) degree. The degrees are distinguished by second language competency for the B.A. and a higher level of mathematics competency for the B.S.

Any 3-credit Elective Course		3

TOTAL FOURTH YEAR	30

Minimum total for the baccalaureate degree = 120 credits

Notes

- Students must complete 39 credits in courses above the 300 level in order to complete their degree. Those credits may be accumulated in major courses, minor courses, core general education requirement electives, or general elective credits. Levels of major elective, minor elective, core general education requirement elective, and general elective credits are not indicated on this guide. The student and advisor will monitor progress toward that requirement.
- If a student selects a certificate rather than a minor, there will be fewer required credits in the second program than are reflected in this guide.
- Depending on selection of electives and second program courses, some core general education requirements may be satisfied by a major or second program course. The student and advisor will monitor those opportunities.
- Students interested in pursuing study abroad opportunities during the regular semester should plan carefully with their advisor. Some courses are not offered every semester and graduation could be delayed if you do not plan accordingly.
- Some suggested electives related to journalism include CJ 311 and CJ 322. Note that CJ 322 is currently offered every other year.
- Students must complete 120 credits in order to complete their degree. The low range of credits on this guide does not total 120.

RECOMMENDATIONS FOR HIGH IMPACT PRACTICES (HIPs)

The University of Wisconsin-Eau Claire encourages all students to participate in High Impact Practices. The following information identifies any specific recommendations that faculty in this major have concerning which HIPs might be most beneficial to students, and any recommendations about when those HIPs best fit into the degree plan. Students should also consult their faculty advisor for information on HIPs. There are many additional high impact opportunities available. Talk to your academic advisor for more information about incorporating HIPs like Study Abroad, Intercultural Immersion, Internship, and/or Student/Faculty Collaborative Research into your time at UW-Eau Claire.

Core General Education Requirements (CGER)

Core General Education Requirements (CGER)

The Core General Education Requirements (CGER) includes a minimum of 10 courses across 6 categories. Students must complete a minimum of 36 credits in courses approved for the CGER Core.

- Mathematics & Quantitative Reasoning (MQR) - 4 credits, one course minimum
 - Includes the University Mathematics Requirement¹
- Communication & Literacy (CL) - 8 credits, two courses minimum
 - Includes the University Writing Requirement (CL-W)²
- Natural Sciences & Wellness (NSW/NSWL) - 6 credits, one course minimum (NSW-Lab required)
- Social & Behavioral Sciences (SBS) - 6 credits, two courses minimum
- Humanities & Arts (HA) - 6 credits, two courses minimum
- Civics & Perspectives (CP) - 6 credits, two courses minimum

¹ University Mathematics Requirement:

Students satisfy the University Mathematics Requirement in one of four ways:

- completing an approved university-level mathematics course (MQR) with a grade of C (not C-) or above
- achieving a suitable score on the UW Math Placement Test (<https://www.uwec.edu/academics/academic-support/advising/testing/placement-testing/>)

- achieving a suitable score on an exam such as the Advanced Placement Calculus or Advanced Placement Statistics exams
- achieving a suitable score on a Credit by Examination administered by the Department of Mathematics.

² University Writing Requirement:

Students satisfy the University Writing Requirement in one of four ways:

- completing a Blugold Seminar in Critical Reading and Writing course (WRIT 102 (<https://catalog.uwec.edu/search/?P=WRIT%20102>), WRIT 114 (<https://catalog.uwec.edu/search/?P=WRIT%20114>), WRIT 116 (<https://catalog.uwec.edu/search/?P=WRIT%20116>), WRIT 118 (<https://catalog.uwec.edu/search/?P=WRIT%20118>), or WRIT 120 (<https://catalog.uwec.edu/search/?P=WRIT%20120>)) with a grade of C (not C-) or above
- achieving a suitable score on the English Placement Test (<https://www.uwec.edu/academics/blugold-seminar/writ-courses-placement/>) (WPT ENGL)
- achieving a suitable score on an exam such as the Advanced Placement English Literature and Composition or Advanced Placement English Language and Composition exams
- achieving a suitable score on the University Writing Program Portfolio.

Completion via Placement Test

- Writing: If the CL-W subcategory is satisfied through a placement test, the CGER Communication and Literacy requirement will be reduced from 8 credits (2 courses) to 3 credits (1 course).
- Mathematics: If the University Math Requirement is satisfied through a placement test, the CGER Mathematics & Quantitative Reasoning requirement will be considered fully met, replacing the 4-credit (1 course) requirement.
- Students must still complete 36 credits across 10 courses, with any remaining credits or courses eligible to be taken from any CGER category.

Journalism, Minor

Liberal Arts (Code 560-406)

Code	Title	Credits
Twenty-four semester credits, including:		
CJ 184	Multimedia Communication	3
CJ 202	Fundamentals of Speech	3
or CJ 203	Fundamentals of Human Communication	
CJ 222	Beginning Journalism	3
CJ 300	Research Methods	3
CJ 413	Media Law and Ethics	3
Select nine credits of electives in CJ courses (neither CJ 202 nor CJ 203 may be used as elective credits)		9
Total Credits		24

Note: No major or minor credit may be earned under the S/U option.

Program Learning Outcomes

Students completing this program will be expected to meet the following learning outcomes:

- Understand and apply the principles and laws of freedom of speech and press for the country in which the institution that invites ACEJMC is located, as well as receive instruction in and understand the range of

- systems of freedom of expression around the world, including the right to dissent, to monitor and criticize power, and to assemble and petition for redress of grievances.
- Demonstrate an understanding of the history and role of professionals and institutions in shaping communications.
 - Demonstrate an understanding of professional ethical principles and work ethically in pursuit of truth, accuracy, fairness and diversity.
 - Conduct research and evaluate information by methods appropriate to the communications professions in which they work.
 - Write correctly and clearly in forms and styles appropriate for the communications professions, audiences and purposes they serve.

Organizational Communication, Certificate

(Code 583-601)

The **Certificate in Organizational Communication** complements majors in every area of study by developing professional, group, and interpersonal communication skills that enable students to contribute to, and better serve, the communities, organizations and societies in which they live and work. Students in any field must be able to analyze, develop and deliver messages to a variety of stakeholders. The Certificate in Organizational Communication helps students hone these abilities by highlighting the role of communication in organizational effectiveness, and by engaging students in both theory and practice. The elective course options for the certificate allow students to focus on the specific communication skills that apply most directly to their particular interests or career aspirations.

Students pursuing an Organizational Communication Certificate are required to complete 12 credits toward the certificate.

Code	Title	Credits
Twelve semester credits, including:		
Required Courses		
CJ 250	Introduction to Organizational Communication	3
CJ 355	Advanced Organizational Communication: Strategic Message Design	3
Select six credits from the following:		6
CJ 184	Multimedia Communication	
CJ 201	Introduction to Interpersonal Communication	
CJ 206	Human Communication Theory	
CJ 301	Intercultural Communication	
CJ 307	Small Group Communication	
CJ/WGSS 317	Diversity & Communication: Organizational & Media Contexts	
CJ 350	Human Resource Development	
CJ 351	Strategic Event Planning	
CJ 357	Professional Communication	
CJ 406	Persuasion	
CJ 407	Leadership Communication	
CJ 470	Crisis Communication	
Total Credits		12

Note 1: Courses used for the certificate may not count for the student's major program.

Note 2: Students cannot pursue a Communication, Integrated Strategic Communication, or Journalism Major and the Organizational Communication Certificate to meet graduation requirements for completing a first and second degree program.

Program Learning Outcomes

Students completing this program will be expected to meet the following learning outcomes:

- Explain how organizations are created and maintained through communication.
- Use communication theories and constructs to identify and analyze communication problems and develop ethical solutions.

Social Advocacy and Change, Certificate

(Code 583-603)

The **Certificate in Social Advocacy and Change** is designed for students who wish to engage as active citizens by using communication skills and knowledge to promote change in a variety of social and political contexts (e.g., human rights and environmental concerns). Active citizenship exists where individuals use communication practices and theories to advocate for change on their own behalf or on the behalf of others, and where groups seek to find common cause or concern. A combination of courses in communication studies and organizational communication help students learn the knowledge and skills that will allow them to create responsible change in their communities.

Code	Title	Credits
Twelve semester credits, including:		
Required Courses		
CJ 202	Fundamentals of Speech	3
CJ 207	Introduction to Rhetoric and Society	3
CJ 318	Topics in Communication and Social Advocacy	3
CJ 355	Advanced Organizational Communication: Strategic Message Design	3
or CJ 406	Persuasion	

Note 1: Courses used for the certificate may not count for the student's major program.

Note 2: Students majoring in any program in Communication and Journalism may not use this certificate to satisfy the graduation requirement of a second program.

Program Learning Outcomes

Students completing this program will be expected to meet the following learning outcomes:

- Students will demonstrate competency in oral and written communication skills appropriate to social advocacy and change.
- Students will demonstrate knowledge of theories and concepts of communication appropriate to social advocacy and change.

- Students will demonstrate critical and creative thinking in the formation and the evaluation of communication practices used to address civic, social, or environmental challenges.

Computer Science

Phillips 130

715-836-2526

Department Website (<https://www.uwec.edu/academics/college-arts-sciences/departments-programs/computer-science/>)

About Us

Computer Science and Software Engineering are disciplines that combine concepts from mathematics, science, and engineering into a coherent and disciplined study of the software and hardware required for computation. The programs offered by the UW-Eau Claire Department of Computer Science provide the fundamental education necessary to prepare students for positions in industry or to pursue graduate study. The curriculum is organized so that graduates will be able to meet immediate demands for solving computational problems or designing state-of-the-art computer systems, yet also have an understanding of the basic principles and concepts in computer science needed to avoid technological obsolescence in a rapidly changing environment. This program is intended to produce computer science professionals, not merely technicians with some training in computer software and hardware. Success requires a strong aptitude in mathematics.

The Program for Majors and Minors

Department faculty constantly examine the curriculum to ensure that students gain both the breadth and depth of knowledge needed to be successful in careers in business and industry, or in graduate school. The major/minor curriculum includes:

1. Introductory courses which cover the basic principles of Computer Science.
2. The use of object-oriented and other programming paradigms.
3. An integrated blend of courses which cover the tools, knowledge, problem-solving, and programming techniques that form the basis for a successful career.
4. A capstone experience.

Departmental Honors in Computer Science

Eligibility: Students with resident and total GPAs of 3.50 or higher and a 3.50 or higher in at least 12 credits of computer science.

Procedure: A written application for Departmental Honors in Computer Science shall be approved by the research advisor and the departmental honors committee. The application and approval process must be completed no later than the end of the junior year.

Requirements:

1. The satisfactory completion of
 - a. six credits of registration in Computer Science Research, including the writing of a research paper;
 - b. an oral presentation to be given to at least three members of the faculty.
2. Resident and total GPAs of 3.50 or higher in both the computer science major and for all credits attempted to meet graduation requirements.
3. Participation in at least one Student ACM Programming Contest.

Information for All Students

It is strongly recommended that the student have a grade of C or above in any Computer Science course, which is to be used as a prerequisite to another course. Where a grade of C- or below is earned in a Computer Science course, the student should repeat the course before continuing.

Majors

- Major: Computer Science, Software Engineering, Liberal Arts - B.A./B.S.
- Comprehensive Major: Computer Science, Liberal Arts - B.A./B.S.
- Comprehensive Major: Artificial Intelligence, Liberal Arts - B.A./B.S. (College of Arts and Sciences Interdisciplinary Major)
- Major: Artificial Intelligence, Liberal Arts - B.A./B.S. (College of Arts and Sciences Interdisciplinary Major)

Minors

- Minor: Computer Science, Liberal Arts, Liberal Arts Emphasis
- Minor: Artificial Intelligence, Liberal Arts (College of Arts and Sciences Interdisciplinary Minor)

Certificates

- Certificate: Computer Programmer
- Certificate: Artificial Intelligence (College of Arts and Sciences Interdisciplinary Certificate)

Computer Programmer, Certificate

(Code 170-605)

The Department of Computer Science offers a certificate to students and working computer professionals who desire the knowledge and hands-on experience necessary to become computer programmers.

Code	Title	Credits
Fifteen semester credits, including:		
CS 140	Introduction to Computer Science	4
CS 150	Object-Oriented Programming	4
CS 163 or DS 150	Introduction to Programming in C++ Computing in Python: Fundamentals and Procedural Programming	3
CS 255	Data Structures and Algorithms	4
Total Credits		15

Note: Students cannot pursue the Computer Science Major and the Computer Programmer Certificate to meet graduation requirements for completing a first and second degree program.

Program Learning Outcomes

Students completing this program will be expected to meet the following learning outcome:

- Use and evaluate a wide variety of modern tools and languages used in the practical construction of computing systems.

Computer Science, Comprehensive Major

Liberal Arts (Code 170-030)

University Requirements

GRADUATION REQUIREMENTS FOR BACCALAUREATE DEGREE	
Credit Requirements	
Minimum total for graduation ¹	120
Upper division credits (courses numbered 300 and higher)	39
Core General Education	10 courses, 36 credits
Academic Concentrations	
Grade Point Requirements ²	
Total	2.00 average
Resident	2.00 average
Major	2.00 average
Minor	2.00 average
Certificate	2.00 average
University Residency Requirements	
Minimum total	30
Senior year	23
Major, Standard, upper division in residence	12
Major, Comprehensive, upper division in residence	21
Certificate	25 percent of credits
Procedures Required for Graduation	
Obtain admission to the degree program and/or the College offering it.	
Apply for graduation on CampS.	

¹ Certain programs exceed this minimum.
² See special requirements in each College.

Applicability of Credits Toward Graduation

Junior College or Two-Year College Credits. A maximum of 72 semester credits earned in a junior college or two-year college will be accepted as degree credits at UW-Eau Claire.

Extension Credits. Credits earned in credit outreach courses offered by UW-Eau Claire are treated as resident credits. Credits earned in extension courses offered by other units of the Universities of Wisconsin System are treated as transfer credits. All other (non-UW) extension and correspondence credits are normally limited to one-fourth of the total required for graduation from any curriculum.

WTCS Credits. A maximum of 72 semester credits earned in college parallel programs at Madison Area Technical College, Milwaukee Area Technical College, Nicolet Area Technical College, or Chippewa Valley Technical College may be accepted as degree credits at UW-Eau Claire. A set number of general

education courses will be accepted from other technical schools. Occupational and technical courses may also be considered for transfer if the quality and content of the course work from the technical college is judged to be comparable to course work at UW-Eau Claire. Refer to the Transfer Credit Wizard (https://www.uwec.sis.wisconsin.edu/psp/eauprd-tb/EMPLOYEE/SA/c/EAU_SS_CUSTOM.EAU_TRNCRDWZ.GBL) or contact the UW-Eau Claire Admissions Office for information about the current transfer policy.

USAFI Credit. UW-Eau Claire will accept up to 32 semester credits for work done through the United States Armed Forces Institute, under the provision for non-UW correspondence credit (see Extension Credits above).

Activity Credit (band, chorus, drama, KINS 100-184 courses) Students may count toward graduation no more than one credit of KINS 110-184 courses. Students may count toward graduation no more than four credits earned in any single activity course and no more than 12 credits resulting from any combination of activity courses (excluding KINS 110-184 courses).

Other Restricted Credits. For other University restrictions, see the following: Cooperative Education; Credit by Examination; Satisfactory/Unsatisfactory Registration; Transfer of Credits. College or departmental restrictions may also be placed on Independent Study (399-499 courses), Directed Study (395-495), and other types of credits.

APPLICABILITY OF CREDITS TOWARD GRADUATION		Credit Restrictions
Satisfactory/Unsatisfactory		
Total degree credit		maximum 12
Major, Standard		maximum 1 course
Major, Comprehensive		maximum 2 courses
Minor		maximum 1 course
Credit by Examination		
Total degree credit		maximum ¼ of total
Major or minor		maximum ½ of total
Two-Year College Credits		
Total degree credit		maximum 72 credits
Activity credit (band, chorus, drama, KINS 100-184)		
Total KINS 100-184		maximum 1 credit
Total Band, chorus, drama		maximum 12 credits
Single course band, chorus, drama		maximum 4 credits
Extension credits		
UW-System		no maximum
Other extension/correspondence		maximum ¼ of total
USAFI		
USAFI		maximum 32 credits

Core General Education Requirements (CGER)

CGER Categories

Mathematics & Quantitative Reasoning (MQR) (http://catalog.uwec.edu/undergraduate/outcome-mqr/)	4 credit hours, 1 course min
Includes University Math Requirement ¹	
Communication & Literacy (CL) (http://catalog.uwec.edu/undergraduate/outcome-cl/)	8 credit hours, 2 course min (including CL-W)
Includes University Writing Requirement (CL-W) (http://catalog.uwec.edu/undergraduate/outcome-clw/) ²	
Natural Sciences & Wellness (NSW/NSWL) (http://catalog.uwec.edu/undergraduate/outcome-NSW/)	6 credit hours, 1 course min (NSW-Lab required)
Social & Behavioral Sciences (SBS) (https://catalog.uwec.edu/undergraduate/outcome-sbs/)	6 credit hours, 2 course min
Humanities & Arts (HA) (http://catalog.uwec.edu/undergraduate/outcome-ha/)	6 credit hours, 2 course min
Civics & Perspectives (CP) (http://catalog.uwec.edu/undergraduate/outcome-cp/)	6 credit hours, 2 course min
CGER Totals ³	
Credits	minimum 36 credits
Courses	minimum 10 courses

¹ University Mathematics Requirement:

Students satisfy the University Mathematics Requirement in one of four ways:

- completing an approved university-level mathematics course (MQR) with a grade of C (not C-) or above
- achieving a suitable score on the UW Math Placement Test (<https://www.uwec.edu/academics/academic-support/advising/testing/placement-testing/>)
- achieving a suitable score on an exam such as the Advanced Placement Calculus or Advanced Placement Statistics exams
- achieving a suitable score on a Credit by Examination administered by the Department of Mathematics.

² University Writing Requirement:

Students satisfy the University Writing Requirement in one of four ways:

- completing a Blugold Seminar in Critical Reading and Writing course (WRIT 102 (<https://catalog.uwec.edu/search/?P=WRIT%20102>), WRIT 114 (<https://catalog.uwec.edu/search/?P=WRIT%20114>), WRIT 116 (<https://catalog.uwec.edu/search/?P=WRIT%20116>), WRIT 118 (<https://catalog.uwec.edu/search/?P=WRIT%20118>), or WRIT 120 (<https://catalog.uwec.edu/search/?P=WRIT%20120>)) with a grade of C (not C-) or above
- achieving a suitable score on the English Placement Test (<https://www.uwec.edu/academics/blugold-seminar/writ-courses-placement/>) (WPT ENGL)
- achieving a suitable score on an exam such as the Advanced Placement English Literature and Composition or Advanced Placement English Language and Composition exams
- achieving a suitable score on the University Writing Program Portfolio.

³ Completion via Placement Tests

- Writing: If the CL-W subcategory is satisfied through a placement test, the CGER Communication and Literacy requirement will be reduced from 8 credits (2 courses) to 3 credits (1 course).

- Mathematics: If the University Math Requirement is satisfied through a placement test, the CGER Mathematics & Quantitative Reasoning requirement will be considered fully met, replacing the 4-credit (1 course) requirement.
- Students must still complete 36 credits across 10 courses, with any remaining credits or courses eligible to be taken from any CGER category.

College Degree Requirements

Bachelor of Arts or Bachelor of Science Degree (B.A./B.S.)

University Graduation Requirements. All candidates for degrees must fulfill the requirements for credits, curriculum, GPA, and University residency as specified in the section of this catalog titled University Graduation Requirements.

College Graduation Requirements: Grade Point Averages. All candidates for degrees in the College of Arts and Sciences must earn minimum resident and total GPAs of 2.00 in the major, the minor, and the certificate. The resident and total GPAs for the major are computed using all attempted credits applicable to the major including those offered by departments other than the major department. The resident and total GPAs for the minor and the certificate are computed similarly.

Major-Minor and Major-Certificate Requirements. A standard major (a minimum of 36 credits) must be supplemented by a minor (a minimum of 24 credits) or by a certificate (12 to 18 credits) to meet graduation requirements for completing a first and second degree program. No minor or certificate is required with a Comprehensive Major (60 or more credits) or with two majors of 36 or more credits each.

Certain degree programs, which include Comprehensive Majors, may require more than the minimum of 120 credits for graduation.

Acceptable academic program combinations are determined at the college level. A major and a minor or a major and certificate or two majors (if available) may not be elected in the same department or program, except in the approved combinations listed here.

College Credits. Earn at least 90 credits in courses offered by the College of Arts and Sciences.

Bachelor of Arts Degree in the College of Arts and Sciences (B.A.)

Fulfillment of all University Graduation Requirements (which includes the Core General Education Requirements); all College-level degree requirements (major and minor/certificate emphases, GPAs, earning at least 90 credits in Arts and Sciences course work); second language competency at the 102 level. Second language competency may be met in one of two ways: (1) Demonstrate a level of second language competency that qualifies the student to enter the 201-level course in a second language. (2) Earn a grade of at least C (not C-) or a mark of S in a 102-level second language course (or AIS 112 or AIS 122 or SLHS 103).

Bachelor of Science Degree in the College of Arts and Sciences (B.S.)

Fulfillment of all University Graduation Requirements (which includes the Core General Education Requirements); all College-level degree requirements (major and minor/certificate emphases, GPAs, earning at least 90 credits in Arts and Sciences course work); mathematics competency at the MATH 111, MATH 112 or MATH 113 level. Mathematics competency can be met in one of three ways: (1) Achieve a score on the mathematics placement test that qualifies the student to enter MATH 114. (2) Earn a grade of at least C (not C-) or a mark of S

in MATH 111, MATH 112, or MATH 113. (3) Achieve a satisfactory score on the MATH 112 competency test. This test may be attempted no more than two times.

Major Requirements

Liberal Arts (Code 170-030)

This major is recommended for students who desire a strong foundation in software design and development, computer systems and networking, and mathematics.

Code	Title	Credits
A minimum of sixty semester credits, including:		
Computer Science core (34 crs)		
CS 140	Introduction to Computer Science	4
CS 150	Object-Oriented Programming	4
CS 255	Data Structures and Algorithms	4
CS 262	Database Systems	3
CS 268	Web Systems	3
CS 285	Computer Organization	4
CS 355	Software Engineering I	3
CS 452	Operating Systems	3
CS 462	Computer Networks	3
CS 497	Capstone Project (capstone course)	3
Mathematics Core (16 crs)		
MATH 114	Calculus I	4
MATH 215	Calculus II	4
MATH 314	Discrete Mathematics	4
MATH 246	Elementary Statistics	4
or MATH 345	Introduction to Probability and Mathematical Statistics	
Electives: 11 credits with at least 9 credits earned from courses at the 300-level or above		
AI 250	Foundations of Artificial Intelligence	
AI 350	Human-Computer Interaction	
AI 360	AI in Healthcare	
AI 420	Artificial Intelligence	
AI 427	Natural Language Processing and Generative AI	
CS 291	Special Topics	
CS 330	Programming Languages	
CS 370	Computer Security	
CS 376	Cryptography and Network Security	
CS 388	UNIX Systems Programming	
CS 399	Independent Study - Juniors	
CS 425	Machine Learning	
CS 426	Deep Learning	
CS 436	Mobile Software Development	
CS 450	Theory of Computation	
CS 455	Computer Graphics	
CS 485	Software Engineering II	
CS 491	Special Topics	
CS 498	Computer Science Internship	

Or other courses designated by the department (six-seven credits; recommended for students considering industry employment)

For a major in Computer Science, a student must complete:

Code	Title	Credits
Required courses not counted toward credits in major:		
Complete one of the following:		3
CJ 202	Fundamentals of Speech	
ENGL 312	Science Writing	
ENGL 313	Technical Writing	
Complete one lab science sequence chosen from:		9-10
PHYS 211 & PHYS 212	General Physics and General Physics	
OR		
PHYS 231 & PHYS 232	University Physics I and University Physics II	

Program Learning Outcomes

Students completing this program will be expected to meet the following learning outcomes:

- Apply the foundational elements of mathematics, logic, critical thinking and problem-solving skills to develop the algorithms and data structures necessary to solve a wide variety of computing problems.
- Analyze a problem, identify and define the computing requirements appropriate to its solution and demonstrate comprehension of the tradeoffs involved in design choices.
- Design, implement and evaluate a computing system or component to meet desired needs.
- Apply and use concepts from computer architecture and operating systems in computing system design, implementation and performance analysis.
- Use and evaluate a wide variety of modern tools and languages used in the practical construction of computing systems.
- Collaborate effectively in a team environment.
- Recognize social, ethical, and legal issues that surround the production and use of technology.
- Communicate effectively, both orally and in writing, to technical and non-technical audiences.

Computer Science, Comprehensive Major, B.S.

The following is a sample degree plan, based on the current catalog. It is based on the 120-credit graduation requirement and assumes no transferred credits, no requirements waived by placement tests, no courses taken in the summer or winter, no repeated courses, and no remedial courses that may be required. This sample degree plan is intended for first-year students entering UW-Eau Claire in the fall semester. Your own degree plan may differ depending on the course of study selected (second major, minor, etc.). UW-Eau Claire cannot guarantee all courses will be offered as shown, but will provide a range of courses that may enable prepared students to fulfill their requirements in a timely period. This sample degree plan is just a guide. Please consult your advisor, your degree audit, and the catalog to create your own degree plan. *Note:* In order to earn the required minimum of 120 credits for the degree in four years, you should plan to take 15 credits each semester or 30 credits each year.

To earn a degree, students must fulfill all University Graduation Requirements, including the Core General Education Requirements (CGER). CGER course work in the following sample degree plan uses abbreviations such as CGER CL, CGER HA, and CGER NSWL to represent the learning outcomes students will meet via completion of the course. Please click [here](#) for a description of the outcomes and requirements.

Students in this major have the option to pursue either a Bachelor of Arts (B.A.) or a Bachelor of Science (B.S.) degree. The degrees are distinguished by second language competency for the B.A. and a higher level of mathematics competency for the B.S.

FIRST YEAR

FIRST SEMESTER		
CS 140	Introduction to Computer Science	4
MATH 114	Calculus I	4

a At least 9 of the 12 credits must be earned from courses at the 300-level or above. Choose from AI 250, AI 350, AI 420, CS 291, CS 330, CS 370, CS 376, CS 388, CS 399, CS 425, CS 426, CS 436, CS 450, CS 455, CS 485, CS 491, CS 498, or other courses designated by the department.

RECOMMENDATIONS FOR HIGH IMPACT PRACTICES (HIPs)

The University of Wisconsin-Eau Claire encourages all students to participate in High Impact Practices. The following information identifies any specific recommendations that faculty in this major have concerning which HIPs might be most beneficial to students, and any recommendations about when those HIPs best fit into the degree plan. Students should also consult their faculty advisor for information on HIPs. There are many additional high impact opportunities available. Talk to your academic advisor for more information about incorporating HIPs like Study Abroad (<https://studyabroad.apps.uwec.edu/>), Intercultural Immersion (<https://www.uwec.edu/immersion/>), Internship (<https://www.uwec.edu/offices-services/advising-retention-career-center/career-services/internship/job-searching-and/>), and/or Student/Faculty Collaborative Research (<https://www.uwec.edu/offices-services/office-research-and-sponsored-programs/getting-involved-student-faculty-research/>) into your time at UW-Eau Claire.

Core General Education Requirements (CGER)

Core General Education Requirements (CGER)

The Core General Education Requirements (CGER) includes a minimum of 10 courses across 6 categories. Students must complete a minimum of 36 credits in courses approved for the CGER Core.

- Mathematics & Quantitative Reasoning (MQR) - 4 credits, one course minimum
 - Includes the University Mathematics Requirement¹
- Communication & Literacy (CL) - 8 credits, two courses minimum
 - Includes the University Writing Requirement (CL-W)²
- Natural Sciences & Wellness (NSW/NSWL) - 6 credits, one course minimum (NSW-Lab required)
- Social & Behavioral Sciences (SBS) - 6 credits, two courses minimum
- Humanities & Arts (HA) - 6 credits, two courses minimum
- Civics & Perspectives (CP) - 6 credits, two courses minimum

¹ University Mathematics Requirement:

Students satisfy the University Mathematics Requirement in one of four ways:

- completing an approved university-level mathematics course (MQR) with a grade of C (not C-) or above

- achieving a suitable score on the UW Math Placement Test (<https://www.uwec.edu/academics/academic-support/advising/testing/placement-testing/>)
- achieving a suitable score on an exam such as the Advanced Placement Calculus or Advanced Placement Statistics exams
- achieving a suitable score on a Credit by Examination administered by the Department of Mathematics.

² University Writing Requirement:

Students satisfy the University Writing Requirement in one of four ways:

- completing a Blugold Seminar in Critical Reading and Writing course (WRIT 102 (<https://catalog.uwec.edu/search/?P=WRIT%20102>), WRIT 114 (<https://catalog.uwec.edu/search/?P=WRIT%20114>), WRIT 116 (<https://catalog.uwec.edu/search/?P=WRIT%20116>), WRIT 118 (<https://catalog.uwec.edu/search/?P=WRIT%20118>), or WRIT 120 (<https://catalog.uwec.edu/search/?P=WRIT%20120>)) with a grade of C (not C-) or above
- achieving a suitable score on the English Placement Test (<https://www.uwec.edu/academics/blugold-seminar/writ-courses-placement/>) (WPT ENGL)
- achieving a suitable score on an exam such as the Advanced Placement English Literature and Composition or Advanced Placement English Language and Composition exams
- achieving a suitable score on the University Writing Program Portfolio.

Completion via Placement Test

- Writing: If the CL-W subcategory is satisfied through a placement test, the CGER Communication and Literacy requirement will be reduced from 8 credits (2 courses) to 3 credits (1 course).
- Mathematics: If the University Math Requirement is satisfied through a placement test, the CGER Mathematics & Quantitative Reasoning requirement will be considered fully met, replacing the 4-credit (1 course) requirement.
- Students must still complete 36 credits across 10 courses, with any remaining credits or courses eligible to be taken from any CGER category.

2 **University Writing Requirement:**

Students satisfy the University Writing Requirement in one of four ways:

- completing a Blugold Seminar in Critical Reading and Writing course (WRIT 102 (<https://catalog.uwec.edu/search/?P=WRIT%20102>), WRIT 114 (<https://catalog.uwec.edu/search/?P=WRIT%20114>), WRIT 116 (<https://catalog.uwec.edu/search/?P=WRIT%20116>), WRIT 118 (<https://catalog.uwec.edu/search/?P=WRIT%20118>), or WRIT 120 (<https://catalog.uwec.edu/search/?P=WRIT%20120>)) with a grade of C (not C-) or above
- achieving a suitable score on the English Placement Test (<https://www.uwec.edu/academics/blugold-seminar/writ-courses-placement/>) (WPT ENGL)
- achieving a suitable score on an exam such as the Advanced Placement English Literature and Composition or Advanced Placement English Language and Composition exams
- achieving a suitable score on the University Writing Program Portfolio.

3 **Completion via Placement Tests**

- Writing: If the CL-W subcategory is satisfied through a placement test, the CGER Communication and Literacy requirement will be reduced from 8 credits (2 courses) to 3 credits (1 course).
- Mathematics: If the University Math Requirement is satisfied through a placement test, the CGER Mathematics & Quantitative Reasoning requirement will be considered fully met, replacing the 4-credit (1 course) requirement.
- Students must still complete 36 credits across 10 courses, with any remaining credits or courses eligible to be taken from any CGER category.

College Degree Requirements

Bachelor of Arts or Bachelor of Science Degree (B.A./B.S.)

University Graduation Requirements. All candidates for degrees must fulfill the requirements for credits, curriculum, GPA, and University residency as specified in the section of this catalog titled University Graduation Requirements.

College Graduation Requirements: Grade Point Averages. All candidates for degrees in the College of Arts and Sciences must earn minimum resident and total GPAs of 2.00 in the major, the minor, and the certificate. The resident and total GPAs for the major are computed using all attempted credits applicable to the major including those offered by departments other than the major department. The resident and total GPAs for the minor and the certificate are computed similarly.

Major-Minor and Major-Certificate Requirements. A standard major (a minimum of 36 credits) must be supplemented by a minor (a minimum of 24 credits) or by a certificate (12 to 18 credits) to meet graduation requirements for completing a first and second degree program. No minor or certificate is required with a Comprehensive Major (60 or more credits) or with two majors of 36 or more credits each.

Certain degree programs, which include Comprehensive Majors, may require more than the minimum of 120 credits for graduation.

Acceptable academic program combinations are determined at the college level. A major and a minor or a major and certificate or two majors (if available) may not be elected in the same department or program, except in the approved combinations listed here.

College Credits. Earn at least 90 credits in courses offered by the College of Arts and Sciences.

Bachelor of Arts Degree in the College of Arts and Sciences (B.A.)

Fulfillment of all University Graduation Requirements (which includes the Core General Education Requirements); all College-level degree requirements (major and minor/certificate emphases, GPAs, earning at least 90 credits in Arts and Sciences course work); second language competency at the 102 level. Second language competency may be met in one of two ways: (1) Demonstrate a level of second language competency that qualifies the student to enter the 201-level course in a second language. (2) Earn a grade of at least C (not C-) or a mark of S in a 102-level second language course (or AIS 112 or AIS 122 or SLHS 103).

Bachelor of Science Degree in the College of Arts and Sciences (B.S.)

Fulfillment of all University Graduation Requirements (which includes the Core General Education Requirements); all College-level degree requirements (major and minor/certificate emphases, GPAs, earning at least 90 credits in Arts and Sciences course work); mathematics competency at the MATH 111, MATH 112 or MATH 113 level. Mathematics competency can be met in one of three ways: (1) Achieve a score on the mathematics placement test that qualifies the student to enter MATH 114. (2) Earn a grade of at least C (not C-) or a mark of S in MATH 111, MATH 112, or MATH 113. (3) Achieve a satisfactory score on the MATH 112 competency test. This test may be attempted no more than two times.

Major Requirements

Liberal Arts (Code 170-205)

This major is recommended for students who desire a strong foundation in software design and development.

Code	Title	Credits
A minimum of 40 semester credits, including:		
Software Engineering Core (34 crs)		
CS 140	Introduction to Computer Science	4
CS 150	Object-Oriented Programming	4
CS 255	Data Structures and Algorithms	4
CS 262	Database Systems	3
CS 268	Web Systems	3
CS 285	Computer Organization	4
CS 330	Programming Languages	3
CS 355	Software Engineering I	3
CS 452	Operating Systems	3
CS 485	Software Engineering II (capstone course)	3
Select a minimum of six credits of electives from the following courses not already included in the Software Engineering core:		6
AI 350	Human-Computer Interaction	
AI 360	AI in Healthcare	
AI 427	Natural Language Processing and Generative AI	

CS 370	Computer Security
CS 376	Cryptography and Network Security
CS 388	UNIX Systems Programming
CS 399	Independent Study - Juniors
CS 425	Machine Learning
CS 426	Deep Learning
CS 436	Mobile Software Development
CS 450	Theory of Computation
CS 455	Computer Graphics
CS 462	Computer Networks
CS 491	Special Topics
CS 498	Computer Science Internship

Or other courses designated by the department (three-four credits; recommended for students considering industry employment)

NOTE 1: MATH 114 or equivalent is required.

NOTE 2: MATH 314 or equivalent is required.

NOTE 3: CJ 202, ENGL 312, or ENGL 313 must be completed for a major in Computer Science, Software Engineering.

Program Learning Outcomes

Students completing this program will be expected to meet the following learning outcomes:

- Apply the foundational elements of mathematics, logic, critical thinking and problem-solving skills to develop the algorithms and data structures necessary to solve a wide variety of computing problems.
- Analyze a problem, identify and define the computing requirements appropriate to its solution and demonstrate comprehension of the tradeoffs involved in design choices.
- Design, implement and evaluate a computing system or component to meet desired needs.
- Apply and use concepts from computer architecture and operating systems in computing system design, implementation and performance analysis.
- Use and evaluate a wide variety of modern tools and languages used in the practical construction of computing systems.
- Collaborate effectively in a team environment.
- Recognize social, ethical, and legal issues that surround the production and use of technology.
- Communicate effectively, both orally and in writing, to technical and non-technical audiences.

Computer Science, Software Engineering, Major, B.S.

The following is a sample degree plan, based on the current catalog. It is based on the 120-credit graduation requirement and assumes no transferred credits, no requirements waived by placement tests, no courses taken in the summer or winter, no repeated courses, and no remedial courses that may be required. This sample degree plan is intended for first-year students entering UW-Eau Claire in the fall semester. Your own degree plan may differ depending on the course of study selected (second major, minor, etc.). UW-Eau Claire cannot guarantee all courses will be offered as shown, but will provide a range of courses that may enable prepared students to fulfill their requirements in a timely period. This sample degree plan is just a guide. Please consult your advisor, your degree audit, and the catalog to create your own degree plan. *Note:* In order to earn the required minimum of 120 credits for the degree

in four years, you should plan to take 15 credits each semester or 30 credits each year.

To earn a degree, students must fulfill all University Graduation Requirements, including the Core General Education Requirements (CGER). CGER course work in the following sample degree plan uses abbreviations such as CGER CL, CGER HA, and CGER NSWL to represent the learning outcomes students will meet via completion of the course. Please click [here](#) for a description of the outcomes and requirements.

Students in this major have the option to pursue either a Bachelor of Arts (B.A.) or a Bachelor of Science (B.S.) degree. The degrees are distinguished by second language competency for the B.A. and a higher level of mathematics competency for the B.S.

FIRST YEAR

FIRST SEMESTER		
CS 140	Introduction to Computer Science	4
MATH 112	Precalculus Mathematics	4

OR

MATH 109	Algebra for Calculus	
AND		
MATH 113	Trigonometry (Winterim, Prerequisite or concurrent enrollment for CS 150)	
WRIT 114	Intensive Blugold Seminar in Critical Reading and Writing	5
or WRIT 116	Blugold Seminar in Critical Reading and Writing	

CGER Course Option		3
TOTAL		16

SECOND SEMESTER		
CS 150	Object-Oriented Programming	4
CS 262	Database Systems	3
MATH 114	Calculus I	4
CGER Course Option		3

Minimum total for the baccalaureate degree = 120 credits

a 6 credits, choose from: AI 350, CS 370, CS 376, CS 388, CS 399, CS 425, CS 426, CS 436, CS 450, CS 455, CS 462, CS 491, CS 498, or other courses designated by the department.

RECOMMENDATIONS FOR HIGH IMPACT PRACTICES (HIPs)

The University of Wisconsin-Eau Claire encourages all students to participate in High Impact Practices. The following information identifies any specific recommendations that faculty in this major have concerning which HIPs might be most beneficial to students, and any recommendations about when those HIPs best fit into the degree plan. Students should also consult their faculty advisor for information on HIPs. There are many additional high impact opportunities available. Talk to your academic advisor for more information about incorporating HIPs like Study Abroad (<https://studyabroad.apps.uwec.edu/>), Intercultural Immersion (<https://www.uwec.edu/immersion/>), Internship (<https://www.uwec.edu/offices-services/advising-retention-career-center/career-services/internship/job-searching-and/>), and/or Student/Faculty Collaborative Research (<https://www.uwec.edu/offices-services/office-research-and-sponsored-programs/getting-involved-student-faculty-research/>) into your time at UW-Eau Claire.

Core General Education Requirements (CGER)

Core General Education Requirements (CGER)

The Core General Education Requirements (CGER) includes a minimum of 10 courses across 6 categories. Students must complete a minimum of 36 credits in courses approved for the CGER Core.

- Mathematics & Quantitative Reasoning (MQR) - 4 credits, one course minimum
 - Includes the University Mathematics Requirement¹
- Communication & Literacy (CL) - 8 credits, two courses minimum
 - Includes the University Writing Requirement (CL-W)²
- Natural Sciences & Wellness (NSW/NSWL) - 6 credits, one course minimum (NSW-Lab required)
- Social & Behavioral Sciences (SBS) - 6 credits, two courses minimum

- Humanities & Arts (HA) - 6 credits, two courses minimum
- Civics & Perspectives (CP) - 6 credits, two courses minimum

¹ University Mathematics Requirement:

Students satisfy the University Mathematics Requirement in one of four ways:

- completing an approved university-level mathematics course (MQR) with a grade of C (not C-) or above
- achieving a suitable score on the UW Math Placement Test (<https://www.uwec.edu/academics/academic-support/advising/testing/placement-testing/>)
- achieving a suitable score on an exam such as the Advanced Placement Calculus or Advanced Placement Statistics exams
- achieving a suitable score on a Credit by Examination administered by the Department of Mathematics.

² University Writing Requirement:

Students satisfy the University Writing Requirement in one of four ways:

- completing a Blugold Seminar in Critical Reading and Writing course (WRIT 102 (<https://catalog.uwec.edu/search/?P=WRIT%20102>), WRIT 114 (<https://catalog.uwec.edu/search/?P=WRIT%20114>), WRIT 116 (<https://catalog.uwec.edu/search/?P=WRIT%20116>), WRIT 118 (<https://catalog.uwec.edu/search/?P=WRIT%20118>), or WRIT 120 (<https://catalog.uwec.edu/search/?P=WRIT%20120>)) with a grade of C (not C-) or above
- achieving a suitable score on the English Placement Test (<https://www.uwec.edu/academics/blugold-seminar/writ-courses-placement/>) (WPT ENGL)
- achieving a suitable score on an exam such as the Advanced Placement English Literature and Composition or Advanced Placement English Language and Composition exams
- achieving a suitable score on the University Writing Program Portfolio.

Completion via Placement Test

- Writing: If the CL-W subcategory is satisfied through a placement test, the CGER Communication and Literacy requirement will be reduced from 8 credits (2 courses) to 3 credits (1 course).
- Mathematics: If the University Math Requirement is satisfied through a placement test, the CGER Mathematics & Quantitative Reasoning requirement will be considered fully met, replacing the 4-credit (1 course) requirement.
- Students must still complete 36 credits across 10 courses, with any remaining credits or courses eligible to be taken from any CGER category.

Economics

Schneider Social Science 476

715-836-5743

Department Website (<https://www.uwec.edu/academics/college-arts-sciences/departments-programs/economics/>)

What is Economics?

Economics is a study of people in the ordinary business of life; it examines that part of individual and social action which is most closely connected with the attainment and with the use of the material requirements for wellbeing. Thus it is on one side a study of material wealth; and on the other, and more important side, a part of the study of people. The Department of Economics believes that understanding economics requires both learning economic theory and applying that theory. To this end, the department encourages internships,

student/faculty collaborative research activities, small-group learning, and applied projects.

To aid our graduates in the transition to employment or further education, the department sponsors trips to area graduate schools and visits by individuals employed in economics-related occupations and it maintains a file of alumni mentors.

Honor Societies and Student Organizations

Omicron Delta Epsilon (Economics Honors Society) and Student Economics Association.

For more information on either organization, see the Department Chair. Departmental Honors Program in Economics

Entrance Requirements:

- 1. Majors who have completed at least the two introductory economics courses with a GPA in economics courses of 3.50 or higher, and resident and total GPAs of 3.35 or higher,
- 2. and submit a written application before the beginning of the senior year for approval by the Economics Department faculty.
- 3. Requirements for Continued Participation: If at any time a student's resident and total GPAs fall below 3.35, or a student's GPA in economics courses falls below 3.20, that student will no longer be eligible to participate in the program.

Graduation Requirements:

- 1. Complete the requirements for an economics major, including ECON 316.
- 2. Complete at least six credits in the department's Honors Seminars taught by graduate faculty. If unable to schedule six credits of seminar, the student can petition the department to replace three credits of Honors Seminar with three credits of Honors Independent Study.
- 3. Satisfactory completion of an Honors paper under the direction of a department member of the graduate faculty.
- 4. Satisfactory completion of an oral examination, conducted by at least three faculty members, on economic theory (ECON 303 and ECON 304) and on the student's Honors Paper.
- 5. Resident and total GPAs of 3.50 or higher at graduation for all courses and in Economics Department courses. For more information, see the Department Chair.

Majors

- Major: Economics, Liberal Arts - B.A./B.S. (<http://catalog.uwec.edu/undergraduate/arts-sciences/economics/economics-major-ba-bs/>)
- Comprehensive Major: Economics, Business - B.B.A. (<http://catalog.uwec.edu/undergraduate/arts-sciences/economics/economics-comprehensive-major-business-bba/>)

Minors

- Minor: Economics, Liberal Arts

Certificates

- Certificate: Economics of Global Issues

Economics of Global Issues, Certificate

(Code 360-601)

This Certificate provides students an opportunity to develop their global competency. One of the goals of UWEC is to provide students with "globally infused curricular and co-curricular experiences". This Certificate will also complement other programs on campus, such as the Global Studies minor, the Latin American and Latinx Studies major/minor, the Women's, Gender, and Sexuality Studies major/minor, and other programs in Political Science.

Code	Title	Credits
Twelve semester credits, including:		
ECON 103	Principles of Microeconomics	3
ECON 104	Principles of Macroeconomics	3
Two of the following courses:		6
ECON 250	Sports Economics	
ECON 327	The Economics of Power, Prejudice and Poverty	
ECON 351	International Economics	
ECON 355	Economic Development	
ECON 390	Global Economics Immersion Experience	
Total Credits		12

Note: Students cannot pursue the Economics Major and the Economics of Global Issues Certificate to meet graduation requirements for completing a first and second degree program. Courses taken for the certificate cannot be applied to the student's major program.

Program Learning Outcomes

Students completing this program will be expected to meet the following learning outcomes:

- Analyze and interpret how cultures, environments, practices, and values differ from or are similar to one another.
- Analyze and interpret the nature of global systems, institutions or relationships of power in a historical or geographical context.
- Analyze and interpret the global implications of individual or collective decisions.

Economics, Minor - Liberal Arts

Liberal Arts (Code 360-400)

Code	Title	Credits
Twenty-four semester credits, including:		
ECON 103	Principles of Microeconomics	3
ECON 104	Principles of Macroeconomics	3
ECON 303	Intermediate Microeconomic Theory	3
ECON 304	Intermediate Macroeconomic Theory	3

Remaining credits in Economic electives

Maximum of three courses from the following:

ECON 222	Introduction to Game Theory
ECON 250	Sports Economics
ECON 268	Environmental Economics
ECON 280	Health Economics
ECON 390	Global Economics Immersion Experience

Program Learning Outcomes

Students completing this program will be expected to meet the following learning outcomes:

- Use economic models (including supply and demand, models of the behavior of competitive and monopolistic firms, consumer optimization models, and macroeconomic models such as the Solow growth model, AS/AD model, and IS/LM model) to analyze economic behavior, social issues, and policy problems.
- Assemble and analyze economic data to test economic hypotheses.
- Effectively present their economic reasoning in concise written statements, extended research papers, or oral presentations.

Quantitative Economics, Business, Comprehensive Major

(Code: 220-001)

University Requirements

GRADUATION REQUIREMENTS FOR BACCALAUREATE DEGREE

Credit Requirements

Minimum total for graduation ¹	120
Upper division credits (courses numbered 300 and higher)	39
Core General Education	10 courses, 36 credits

Academic Concentrations

Grade Point Requirements ²

Total	2.00 average
Resident	2.00 average
Major	2.00 average
Minor	2.00 average
Certificate	2.00 average

University Residency Requirements

Minimum total	30
Senior year	23
Major, Standard, upper division in residence	12
Major, Comprehensive, upper division in residence	21
Certificate	25 percent of credits

Procedures Required for Graduation

Obtain admission to the degree program and/or the College offering it.

Apply for graduation on CampS.

¹ Certain programs exceed this minimum.

² See special requirements in each College.

Applicability of Credits Toward Graduation

Junior College or Two-Year College Credits. A maximum of 72 semester credits earned in a junior college or two-year college will be accepted as degree credits at UW-Eau Claire.

Extension Credits. Credits earned in credit outreach courses offered by UW-Eau Claire are treated as resident credits. Credits earned in extension courses offered by other units of the Universities of Wisconsin System are treated as transfer credits. All other (non-UW) extension and correspondence credits are normally limited to one-fourth of the total required for graduation from any curriculum.

WTCS Credits. A maximum of 72 semester credits earned in college parallel programs at Madison Area Technical College, Milwaukee Area Technical College, Nicolet Area Technical College, or Chippewa Valley Technical College may be accepted as degree credits at UW-Eau Claire. A set number of general education courses will be accepted from other technical schools. Occupational and technical courses may also be considered for transfer if the quality and content of the course work from the technical college is judged to be comparable to course work at UW-Eau Claire. Refer to the Transfer Credit Wizard (https://www.uwec.sis.wisconsin.edu/psp/eauprd-tb/EMPLOYEE/SA/c/EAU_SS_CUSTOM.EAU_TRNCRDWZ.GBL) or contact the UW-Eau Claire Admissions Office for information about the current transfer policy.

USAFI Credit. UW-Eau Claire will accept up to 32 semester credits for work done through the United States Armed Forces Institute, under the provision for non-UW correspondence credit (see Extension Credits above).

Activity Credit (band, chorus, drama, KINS 100-184 courses) Students may count toward graduation no more than one credit of KINS 110-184 courses. Students may count toward graduation no more than four credits earned in any single activity course and no more than 12 credits resulting from any combination of activity courses (excluding KINS 110-184 courses).

Other Restricted Credits. For other University restrictions, see the following: Cooperative Education; Credit by Examination; Satisfactory/Unsatisfactory Registration; Transfer of Credits. College or departmental restrictions may also be placed on Independent Study (399-499 courses), Directed Study (395-495), and other types of credits.

APPLICABILITY OF CREDITS TOWARD GRADUATION

Credit Restrictions

Satisfactory/Unsatisfactory

Total degree credit	maximum 12
Major, Standard	maximum 1 course
Major, Comprehensive	maximum 2 courses
Minor	maximum 1 course

Credit by Examination

Total degree credit	maximum ¼ of total
Major or minor	maximum ½ of total

Two-Year College Credits

Total degree credit	maximum 72 credits

Activity credit (band, chorus, drama, KINS 100-184)	
Total KINS 100-184	maximum 1 credit
Total Band, chorus, drama	maximum 12 credits
Single course band, chorus, drama	maximum 4 credits
Extension credits	
UW-System	no maximum
Other extension/correspondence	maximum ¼ of total
USAFI	
USAFI	maximum 32 credits

Core General Education Requirements (CGER)

CGER Categories

Mathematics & Quantitative Reasoning (MQR) (http://catalog.uwec.edu/undergraduate/outcome-mqr/)	4 credit hours, 1 course min
Includes University Math Requirement ¹	
Communication & Literacy (CL) (http://catalog.uwec.edu/undergraduate/outcome-cl/)	8 credit hours, 2 course min (including CL-W)
Includes University Writing Requirement (CL-W) (http://catalog.uwec.edu/undergraduate/outcome-clw/) ²	
Natural Sciences & Wellness (NSW/NSWL) (http://catalog.uwec.edu/undergraduate/outcome-NSW/)	6 credit hours, 1 course min (NSW-Lab required)
Social & Behavioral Sciences (SBS) (https://catalog.uwec.edu/undergraduate/outcome-sbs/)	6 credit hours, 2 course min
Humanities & Arts (HA) (http://catalog.uwec.edu/undergraduate/outcome-ha/)	6 credit hours, 2 course min
Civics & Perspectives (CP) (http://catalog.uwec.edu/undergraduate/outcome-cp/)	6 credit hours, 2 course min
CGER Totals ³	
Credits	minimum 36 credits
Courses	minimum 10 courses

¹ University Mathematics Requirement:

Students satisfy the University Mathematics Requirement in one of four ways:

- completing an approved university-level mathematics course (MQR) with a grade of C (not C-) or above
- achieving a suitable score on the UW Math Placement Test (<https://www.uwec.edu/academics/academic-support/advising/testing/placement-testing/>)
- achieving a suitable score on an exam such as the Advanced Placement Calculus or Advanced Placement Statistics exams
- achieving a suitable score on a Credit by Examination administered by the Department of Mathematics.

² University Writing Requirement:

Students satisfy the University Writing Requirement in one of four ways:

- completing a Blugold Seminar in Critical Reading and Writing course (WRIT 102 (<https://catalog.uwec.edu/search/?P=WRIT%20102>), WRIT 114 (<https://catalog.uwec.edu/search/?P=WRIT%20114>), WRIT 116 (<https://catalog.uwec.edu/search/?P=WRIT%20116>), WRIT 118 (<https://catalog.uwec.edu/search/?P=WRIT%20118>), or WRIT 120 (<https://catalog.uwec.edu/search/?P=WRIT%20120>)) with a grade of C (not C-) or above
- achieving a suitable score on the English Placement Test (<https://www.uwec.edu/academics/blugold-seminar/writ-courses-placement/>) (WPT ENGL)
- achieving a suitable score on an exam such as the Advanced Placement English Literature and Composition or Advanced Placement English Language and Composition exams
- achieving a suitable score on the University Writing Program Portfolio.

³ Completion via Placement Tests

- Writing: If the CL-W subcategory is satisfied through a placement test, the CGER Communication and Literacy requirement will be reduced from 8 credits (2 courses) to 3 credits (1 course).
- Mathematics: If the University Math Requirement is satisfied through a placement test, the CGER Mathematics & Quantitative Reasoning requirement will be considered fully met, replacing the 4-credit (1 course) requirement.
- Students must still complete 36 credits across 10 courses, with any remaining credits or courses eligible to be taken from any CGER category.

College Degree Requirements

Bachelor of Business Administration Degree Requirements

Credits for Graduation

All candidates for the BBA degree need a minimum of 120 credits to graduate.

Student Professional Development Program

All students pursuing a major in the College of Business must complete the Student Professional Development Workshops. All students pursuing a minor in the Department of Management and Leadership Programs must complete the Student Professional Development Workshops. The program is designed to equip students with the skills needed to present themselves professionally during their job search and upon entering their chosen careers. Students are strongly encouraged to complete the workshops prior to the end of their third semester on campus. The program consists of four workshops: The Business Professional, Professional Image, Professional Etiquette, Professional Networking Event. For more information, visit the College of Business website (<http://www.uwec.edu/academics/college-business/academic-resources/student-professional-development-program/>).

Grade Point Requirements

Candidates for the BBA degree must earn a minimum GPA of 2.00 in their major and in courses taken in residence. (See the special requirements for the Comprehensive Major in Health Care Administration.) If a minor is required, or is to be listed as an official minor, the candidate must earn a minimum GPA of 2.00 in the minor.

- Unless otherwise indicated, no College of Business course may be taken on a Satisfactory/Unsatisfactory basis as part of a major, minor, or certificate described by one of the departments in the College of Business. This excludes courses that are only offered on an S/U basis. Specific programs (major, minor, certificate) may have additional requirements. Please check program requirements.

- Business courses may be taken on a Satisfactory/Unsatisfactory basis only concurrent with or following completion of the student's major or business minor.

Major Requirements

(Code: 220-001)

Proficiency Requirements

BSAD 180, MATH 111 or MATH 114 or equivalent. Does not count toward credits in the major.

The BUSCORE

The BUSCORE is the common body of courses taken by all BBA students with the exception of the Health Care Administration major. It consists of the following courses:

Code	Title	Credits
BUSCORE Courses		
ACCT 201	Introduction to Accounting	3
BLAW 305	Legal and Regulatory Environment	3
BCOM 206	Business Communication: Writing, Speaking, and Collaborating ¹	3
BSAD 300	Cultural Competence for Today's Workplace	1
FIN 320	Principles of Finance	3
IS 240	Information Systems in Business	3
MKTG 330	Principles of Marketing	3
MGMT 340	Organizational Behavior: Leading and Developing People, Teams, and Culture	3
MGMT 449	Strategic Management in a Global Business Environment ²	3
OSCM 341	Operations Management	3
Total Credits		28

¹ Students must earn a grade of C or above in BCOM 206/BCOM 207.

² MGMT 449 is a capstone course that requires prior completion of all other BUSCORE courses. This prerequisite is strictly enforced.

A Bachelor of Business Administration degree with a comprehensive major in economics consists of the 28-credit BUSCORE and completion of 35 additional credits as follows:

Code	Title	Credits
Economics, Business, Comprehensive Major		
ECON 103	Principles of Microeconomics	3
ECON 104	Principles of Macroeconomics	3
ECON 303	Intermediate Microeconomic Theory	3
ECON 304	Intermediate Macroeconomic Theory	3
ECON 316	Econometrics	3
MATH 246	Elementary Statistics ¹	4
Electives from the following courses, bringing total credits in the major to 63:		
ECON 311	History of Economic Thought	
ECON 318	Business Fluctuations and Forecasting	

ECON 321	Money and Banking
ECON 327	The Economics of Power, Prejudice and Poverty
ECON 335	Labor Economics
ECON 351	International Economics
ECON 355	Economic Development
ECON 399	Independent Study - Juniors
ECON 491	Special Topics
ECON 492	Honors Seminar
ECON 494	Academic Internship
ECON 495	Directed Studies
ECON 496	Honors Independent Study
ECON 498	Professional Internship
ECON 499	Independent Study - Seniors
FIN 322	Investments
FIN 327	Long Term Financial Management
No more than two courses from the following:	
ECON 222	Introduction to Game Theory
ECON 250	Sports Economics
ECON 268	Environmental Economics
ECON 280	Health Economics
ECON 390	Global Economics Immersion Experience

¹ A student may substitute MATH 347 for MATH 246 in the major.

NOTE: A maximum of six credits earned in ECON 399, ECON 494, ECON 495, ECON 496, ECON 498, and/or ECON 499 may count toward the major.

Program Learning Outcomes

Students in this program are assessed on their ability to meet the following COB learning goals:

- Written and Oral Communication: Students will be effective communicators.
- Problem Solving: Students will be effective problem solvers.
- BBA Common Body of Knowledge: Students will demonstrate discipline-specific knowledge (represented by the BUSCORE).

Additionally, students completing this program will be expected to meet the following learning outcomes:

- Use economic models (including supply and demand, models of the behavior of competitive and monopolistic firms, consumer optimization models, and macroeconomic models such as the Solow growth model, AS/AD model, and IS/LM model) to analyze economic behavior, social issues, and policy problems.
- Assemble and analyze economic data to test economic hypotheses.
- Effectively present their economic reasoning in concise written statements, extended research papers, or oral presentations.

Quantitative Economics, Business, B.B.A. (Comprehensive Major)

The following is a sample degree plan, based on the current catalog. It is based on the 120-credit graduation requirement and assumes no transferred credits, no requirements waived by placement tests, no courses taken in the summer or winter, no repeated courses, and no remedial courses that may be required. This sample degree plan is intended for first-year students entering

UW-Eau Claire in the fall semester. Your own degree plan may differ depending on the course of study selected (second major, minor, etc.). UW-Eau Claire cannot guarantee all courses will be offered as shown, but will provide a range of courses that may enable prepared students to fulfill their requirements in a timely period. This sample degree plan is just a guide. Please consult your advisor, your degree audit, and the catalog to create your own degree plan. *Note:* In order to earn the required minimum of 120 credits for the degree in four years, you should plan to take 15 credits each semester or 30 credits each year.

To earn a degree, students must fulfill all University Graduation Requirements, including the Core General Education Requirements (CGER). CGER course work in the following sample degree plan uses abbreviations such as CGER CL, CGER HA, and CGER NSWL to represent the learning outcomes students will meet via completion of the course. Please click [here](#) for a description of the outcomes and requirements.

FIRST YEAR

FIRST SEMESTER

MATH 109	Algebra for Calculus (CGER MQR)	4

SECOND SEMESTER

MATH 111	A Short Course in Calculus ¹	4

SOMETIME IN THE FIRST YEAR

BSAD 180	Foundations for Success in Business	3

ECON 103	Principles of Microeconomics (CGER SBS)	3

ECON 104	Principles of Macroeconomics (CGER SBS)	3

WRIT 114	Intensive Blugold Seminar in Critical Reading and Writing (CGER CL)	5

OR		

WRIT 116	Blugold Seminar in Critical Reading and Writing (CGER CL)	

OR		

WRIT 118	Accelerated Blugold Seminar in Critical Reading and Writing (CGER CL)	

OR		

WRIT 118	Accelerated Blugold Seminar in Critical Reading and Writing (CGER CL)	

SOMETIME IN THE FIRST OR SECOND YEAR

CGER Option: Natural Sciences & Wellness (NSW)	3

CGER Option: Humanities & Arts (HA)	3

CGER Option: Humanities & Arts (HA)	3

CGER Option: Civics & Perspectives (CP)	3

SPDP: Student Professional Development Program (SPDP) workshop completion recommended by the end of the 1st year, 2nd semester, but no later than the end of the 3rd semester or 45 credits earned. ²

Study Away: Students have options: Study Abroad or NSE! Students participating in study abroad may opt-in to complete one of the two Integrative Learning 1 (I1) experiences. Many courses taken at approved study-abroad institutions will satisfy LE or program requirements. Students choosing to pay UW-Eau Claire tuition to study in the United States, Canada, Guam, Puerto Rico, or the U.S Virgin Islands should explore the many participating NSE schools listed on the National Student Exchange (NSE) website. Consult the Transfer Credit Wizard and consult with your academic advisor to plan which LE or program courses to take while studying away. See third-year note below regarding upper-division business courses.

SECOND YEAR

FIRST SEMESTER

ECON 304	Intermediate Macroeconomic Theory	3

MATH 246	Elementary Statistics (CGER MQR)	4

SECOND SEMESTER

ECON 303	Intermediate Microeconomic Theory	3

ECON 316	Econometrics	3

SOMETIME IN THE SECOND YEAR

ACCT 201	Introduction to Accounting	3

BCOM 206	Business Communication: Writing, Speaking, and Collaborating (CGER CL)	3

IS 240	Information Systems in Business	3

IS 240	Information Systems in Business	3

THIRD YEAR

SOMETIME IN THE THIRD YEAR

BSAD 300	Cultural Competence for Today's Workplace	1

BLAW 305	Legal and Regulatory Environment	3

ECON 318	Business Fluctuations and Forecasting	3

ECON Elective: See catalog and degree audit for list.	3

FIN 320	Principles of Finance	3

MGMT 340	Organizational Behavior: Leading and Developing People, Teams, and Culture	3

OSCM 341	Operations Management	3

MKTG 330	Principles of Marketing	3

CGER Option: Civics & Perspectives (CP)	3

CGER Option: Civics & Perspectives (CP)	3

CGER Option: Civics & Perspectives (CP)	3

CGER Option: Civics & Perspectives (CP)	3

SOMETIME IN THE THIRD OR FOURTH YEAR

Study Away for Economics, Business Majors: For institutions with the most direct course equivalencies for business courses, consider especially Ireland (Limerick), Australia (Southern Cross and Perth), and New Zealand (Massey). Courses that transfer to UWEC as 907U courses with a program prefix (e.g., ECON, FIN) might contribute as major electives. Students participating in the National Student Exchange (NSE) program can use the "majors" search option on the NSE website to identify discipline-specific programs. Work closely with your academic advisor to plan for your study away experience.

SOMETIME IN THE FOURTH YEAR

MGMT 449	Strategic Management in a Global Business Environment	3

ECON Elective: 300- or 400-level courses. See catalog and degree audit for list.	3

ECON Elective: 300- or 400-level courses. See catalog and degree audit for list.	3

ECON Elective: 300- or 400-level courses. See catalog and degree audit for list.	3

ECON Elective: 300- or 400-level courses. See catalog and degree audit for list.	3

Electives: Electives to reach 120 credits	

Electives: Electives to reach 120 credits	

¹ Students who are considering graduate school in Economics are strongly encouraged to take additional math courses. Students with grad school aspirations should take MATH 114.

² Please see this webpage (<https://www.uwec.edu/academics/college-business/academic-resources/student-professional-development-program/>) for more information regarding the SPDP program.

³ Students opting to complete the I1 through study abroad can replace this course with an approved elective course.

RECOMMENDATIONS FOR HIGH IMPACT PRACTICES (HIPs)

The University of Wisconsin-Eau Claire encourages all students to participate in High Impact Practices. The following information identifies any specific recommendations that faculty in this major have concerning which HIPs might be most beneficial to students, and any recommendations about when those HIPs best fit into the degree plan. Students should also consult their faculty advisor for information on HIPs. There are many additional high impact opportunities available. Talk to your academic advisor for more information about incorporating HIPs like Study Abroad (<https://studyabroad.apps.uwec.edu/>), Intercultural Immersion (<https://www.uwec.edu/immersion/>), Internships, (<https://www.uwec.edu/academics/college-business>) and/or Student/Faculty Collaborative Research (<https://www.uwec.edu/offices-services/office-research-and-sponsored-programs/getting-involved-student-faculty-research>) into your time at UW-Eau Claire.

The Department of Economics is highly active in the following areas. Please consult with the department chair to see how you might get more involved.

- Faculty/Student Research – over 40% of economics majors are involved in faculty/student research every year. Students present at conferences regionally, nationally, and internationally, as well as co-author papers.
- International Immersions – At least 2 international immersion experiences available annually within the department of economics
- Internships – Active class led internship program ()

Core General Education Requirements (CGER)

Core General Education Requirements (CGER)

The Core General Education Requirements (CGER) includes a minimum of 10 courses across 6 categories. Students must complete a minimum of 36 credits in courses approved for the CGER Core.

- Mathematics & Quantitative Reasoning (MQR) - 4 credits, one course minimum
 - Includes the University Mathematics Requirement¹
- Communication & Literacy (CL) - 8 credits, two courses minimum
 - Includes the University Writing Requirement (CL-W)²
- Natural Sciences & Wellness (NSW/NSWL) - 6 credits, one course minimum (NSW-Lab required)
- Social & Behavioral Sciences (SBS) - 6 credits, two courses minimum
- Humanities & Arts (HA) - 6 credits, two courses minimum
- Civics & Perspectives (CP) - 6 credits, two courses minimum

¹ University Mathematics Requirement:

- Students satisfy the University Mathematics Requirement in one of four ways:
- completing an approved university-level mathematics course (MQR) with a grade of C (not C-) or above
 - achieving a suitable score on the UW Math Placement Test (<https://www.uwec.edu/academics/academic-support/advising/testing/placement-testing/>)
 - achieving a suitable score on an exam such as the Advanced Placement Calculus or Advanced Placement Statistics exams
 - achieving a suitable score on a Credit by Examination administered by the Department of Mathematics.

² University Writing Requirement:

- Students satisfy the University Writing Requirement in one of four ways:
- completing a Blugold Seminar in Critical Reading and Writing course (WRIT 102 (<https://catalog.uwec.edu/search/?P=WRIT%20102>), WRIT 114 (<https://catalog.uwec.edu/search/?P=WRIT%20114>), WRIT 116 (<https://catalog.uwec.edu/search/?P=WRIT%20116>), WRIT 118 (<https://catalog.uwec.edu/search/?P=WRIT%20118>), or WRIT 120 (<https://catalog.uwec.edu/search/?P=WRIT%20120>)) with a grade of C (not C-) or above
 - achieving a suitable score on the English Placement Test (<https://www.uwec.edu/academics/blugold-seminar/writ-courses-placement/>) (WPT ENGL)
 - achieving a suitable score on an exam such as the Advanced Placement English Literature and Composition or Advanced Placement English Language and Composition exams
 - achieving a suitable score on the University Writing Program Portfolio.

Completion via Placement Test

- Writing: If the CL-W subcategory is satisfied through a placement test, the CGER Communication and Literacy requirement will be reduced from 8 credits (2 courses) to 3 credits (1 course).
- Mathematics: If the University Math Requirement is satisfied through a placement test, the CGER Mathematics & Quantitative Reasoning requirement will be considered fully met, replacing the 4-credit (1 course) requirement.
- Students must still complete 36 credits across 10 courses, with any remaining credits or courses eligible to be taken from any CGER category.

Quantitative Economics, Major-Liberal Arts

(Code: 220-200)

University Requirements

GRADUATION REQUIREMENTS FOR BACCALAUREATE DEGREE

Credit Requirements	
Minimum total for graduation ¹	120
Upper division credits (courses numbered 300 and higher)	39
Core General Education	10 courses, 36 credits
Academic Concentrations	
Grade Point Requirements ²	
Total	2.00 average
Resident	2.00 average
Major	2.00 average
Minor	2.00 average
Certificate	2.00 average
University Residency Requirements	
Minimum total	30
Senior year	23
Major, Standard, upper division in residence	12
Major, Comprehensive, upper division in residence	21
Certificate	25 percent of credits

Procedures Required for Graduation

- Obtain admission to the degree program and/or the College offering it.
- Apply for graduation on CampS.

¹ Certain programs exceed this minimum.

² See special requirements in each College.

Applicability of Credits Toward Graduation

Junior College or Two-Year College Credits. A maximum of 72 semester credits earned in a junior college or two-year college will be accepted as degree credits at UW-Eau Claire.

Extension Credits. Credits earned in credit outreach courses offered by UW-Eau Claire are treated as resident credits. Credits earned in extension courses offered by other units of the Universities of Wisconsin System are treated as transfer credits. All other (non-UW) extension and correspondence credits are normally limited to one-fourth of the total required for graduation from any curriculum.

WTCS Credits. A maximum of 72 semester credits earned in college parallel programs at Madison Area Technical College, Milwaukee Area Technical College, Nicolet Area Technical College, or Chippewa Valley Technical College may be accepted as degree credits at UW-Eau Claire. A set number of general education courses will be accepted from other technical schools. Occupational and technical courses may also be considered for transfer if the quality and content of the course work from the technical college is judged to be comparable to course work at UW-Eau Claire. Refer to the Transfer Credit Wizard (https://www.uwec.sis.wisconsin.edu/psp/eauprd-tb/EMPLOYEE/SA/c/EAU_SS_CUSTOM.EAU_TRNCRDWZ.GBL) or contact the UW-Eau Claire Admissions Office for information about the current transfer policy.

USAFI Credit. UW-Eau Claire will accept up to 32 semester credits for work done through the United States Armed Forces Institute, under the provision for non-UW correspondence credit (see Extension Credits above).

Activity Credit (band, chorus, drama, KINS 100-184 courses) Students may count toward graduation no more than one credit of KINS 110-184 courses. Students may count toward graduation no more than four credits earned in any single activity course and no more than 12 credits resulting from any combination of activity courses (excluding KINS 110-184 courses).

Other Restricted Credits. For other University restrictions, see the following: Cooperative Education; Credit by Examination; Satisfactory/Unsatisfactory Registration; Transfer of Credits. College or departmental restrictions may also be placed on Independent Study (399-499 courses), Directed Study (395-495), and other types of credits.

APPLICABILITY OF CREDITS TOWARD GRADUATION	Credit Restrictions
Satisfactory/Unsatisfactory	
Total degree credit	maximum 12
Major, Standard	maximum 1 course
Major, Comprehensive	maximum 2 courses
Minor	maximum 1 course
Credit by Examination	
Total degree credit	maximum ¼ of total
Major or minor	maximum ½ of total
Two-Year College Credits	
Total degree credit	maximum 72 credits

Activity credit (band, chorus, drama, KINS 100-184)	
Total KINS 100-184	maximum 1 credit
Total Band, chorus, drama	maximum 12 credits
Single course band, chorus, drama	maximum 4 credits
Extension credits	
UW-System	no maximum
Other extension/correspondence	maximum ¼ of total
USAFI	
USAFI	maximum 32 credits

Core General Education Requirements (CGER)

CGER Categories

Mathematics & Quantitative Reasoning (MQR) (http://catalog.uwec.edu/undergraduate/outcome-mqr/)	4 credit hours, 1 course min
Includes University Math Requirement ¹	
Communication & Literacy (CL) (http://catalog.uwec.edu/undergraduate/outcome-cl/)	8 credit hours, 2 course min (including CL-W)
Includes University Writing Requirement (CL-W) (http://catalog.uwec.edu/undergraduate/outcome-clw/) ²	
Natural Sciences & Wellness (NSW/NSWL) (http://catalog.uwec.edu/undergraduate/outcome-NSW/)	6 credit hours, 1 course min (NSW-Lab required)
Social & Behavioral Sciences (SBS) (https://catalog.uwec.edu/undergraduate/outcome-sbs/)	6 credit hours, 2 course min
Humanities & Arts (HA) (http://catalog.uwec.edu/undergraduate/outcome-ha/)	6 credit hours, 2 course min
Civics & Perspectives (CP) (http://catalog.uwec.edu/undergraduate/outcome-cp/)	6 credit hours, 2 course min

CGER Totals ³	
Credits	minimum 36 credits
Courses	minimum 10 courses

¹ University Mathematics Requirement:

Students satisfy the University Mathematics Requirement in one of four ways:

- completing an approved university-level mathematics course (MQR) with a grade of C (not C-) or above
- achieving a suitable score on the UW Math Placement Test (<https://www.uwec.edu/academics/academic-support/advising/testing/placement-testing/>)
- achieving a suitable score on an exam such as the Advanced Placement Calculus or Advanced Placement Statistics exams
- achieving a suitable score on a Credit by Examination administered by the Department of Mathematics.

² University Writing Requirement:

Students satisfy the University Writing Requirement in one of four ways:

- completing a Blugold Seminar in Critical Reading and Writing course (WRIT 102 (<https://catalog.uwec.edu/search/?P=WRIT%20102>), WRIT 114 (<https://catalog.uwec.edu/search/?P=WRIT%20114>), WRIT 116 (<https://catalog.uwec.edu/search/?P=WRIT%20116>), WRIT 118 (<https://catalog.uwec.edu/search/?P=WRIT%20118>), or WRIT 120 (<https://catalog.uwec.edu/search/?P=WRIT%20120>)) with a grade of C (not C-) or above
- achieving a suitable score on the English Placement Test (<https://www.uwec.edu/academics/blugold-seminar/writ-courses-placement/>) (WPT ENGL)
- achieving a suitable score on an exam such as the Advanced Placement English Literature and Composition or Advanced Placement English Language and Composition exams
- achieving a suitable score on the University Writing Program Portfolio.

³ Completion via Placement Tests

- Writing: If the CL-W subcategory is satisfied through a placement test, the CGER Communication and Literacy requirement will be reduced from 8 credits (2 courses) to 3 credits (1 course).
- Mathematics: If the University Math Requirement is satisfied through a placement test, the CGER Mathematics & Quantitative Reasoning requirement will be considered fully met, replacing the 4-credit (1 course) requirement.
- Students must still complete 36 credits across 10 courses, with any remaining credits or courses eligible to be taken from any CGER category.

College Degree Requirements

Bachelor of Arts or Bachelor of Science Degree (B.A./B.S.)

University Graduation Requirements. All candidates for degrees must fulfill the requirements for credits, curriculum, GPA, and University residency as specified in the section of this catalog titled University Graduation Requirements.

College Graduation Requirements: Grade Point Averages. All candidates for degrees in the College of Arts and Sciences must earn minimum resident and total GPAs of 2.00 in the major, the minor, and the certificate. The resident and total GPAs for the major are computed using all attempted credits applicable to the major including those offered by departments other than the major department. The resident and total GPAs for the minor and the certificate are computed similarly.

Major-Minor and Major-Certificate Requirements. A standard major (a minimum of 36 credits) must be supplemented by a minor (a minimum of 24 credits) or by a certificate (12 to 18 credits) to meet graduation requirements for completing a first and second degree program. No minor or certificate is required with a Comprehensive Major (60 or more credits) or with two majors of 36 or more credits each.

Certain degree programs, which include Comprehensive Majors, may require more than the minimum of 120 credits for graduation.

Acceptable academic program combinations are determined at the college level. A major and a minor or a major and certificate or two majors (if available) may not be elected in the same department or program, except in the approved combinations listed here.

College Credits. Earn at least 90 credits in courses offered by the College of Arts and Sciences.

Bachelor of Arts Degree in the College of Arts and Sciences (B.A.)

Fulfillment of all University Graduation Requirements (which includes the Core General Education Requirements); all College-level degree requirements (major and minor/certificate emphases, GPAs, earning at least 90 credits in Arts and Sciences course work); second language competency at the 102 level. Second language competency may be met in one of two ways: (1) Demonstrate a level of second language competency that qualifies the student to enter the 201-level course in a second language. (2) Earn a grade of at least C (not C-) or a mark of S in a 102-level second language course (or AIS 112 or AIS 122 or SLHS 103).

Bachelor of Science Degree in the College of Arts and Sciences (B.S.)

Fulfillment of all University Graduation Requirements (which includes the Core General Education Requirements); all College-level degree requirements (major and minor/certificate emphases, GPAs, earning at least 90 credits in Arts and Sciences course work); mathematics competency at the MATH 111, MATH 112 or MATH 113 level. Mathematics competency can be met in one of three ways: (1) Achieve a score on the mathematics placement test that qualifies the student to enter MATH 114. (2) Earn a grade of at least C (not C-) or a mark of S in MATH 111, MATH 112, or MATH 113. (3) Achieve a satisfactory score on the MATH 112 competency test. This test may be attempted no more than two times.

Major Requirements

(Code: 220-200)

Code	Title	Credits
Thirty-six semester credits in economics and supporting courses, including:		
ECON 103	Principles of Microeconomics	3
ECON 104	Principles of Macroeconomics	3
ECON 303	Intermediate Microeconomic Theory	3
ECON 304	Intermediate Macroeconomic Theory	3
ECON 316	Econometrics	3
MATH 246	Elementary Statistics	4
Remaining credits in Economics electives		
Students may count a maximum of three courses from the following:		
ACCT 201	Introduction to Accounting	
ECON 222	Introduction to Game Theory	
ECON 250	Sports Economics	
ECON 268	Environmental Economics	
ECON 280	Health Economics	
ECON 390	Global Economics Immersion Experience	

A student may substitute MATH 347 for MATH 246 in the major.

NOTE 1: MATH 111 or MATH 114 or their equivalent must be completed. Credits will not count toward the major.

NOTE 2: A maximum of six credits earned in ECON 399, ECON 494, ECON 495, ECON 496, ECON 498, and/or ECON 499 may count toward the major.

Note 3: Students pursuing the Economics major and the Sport Management certificate to meet graduation requirements for completing a first and second degree program must earn a minimum of 48 unique credits between the major and the certificate.

Program Learning Outcomes

Students completing this program will be expected to meet the following learning outcomes:

- Use economic models (including supply and demand, models of the behavior of competitive and monopolistic firms, consumer optimization models, and macroeconomic models such as the Solow growth model, AS/AD model, and IS/LM model) to analyze economic behavior, social issues, and policy problems.
- Assemble and analyze economic data to test economic hypotheses.
- Effectively present their economic reasoning in concise written statements, extended research papers, or oral presentations.
- Describe and explain the wide differences in economic outcomes by race, gender, and across countries.

Quantitative Economics, Major - Liberal Arts, B.A. or B.S.

The following is a sample degree plan, based on the current catalog. It is based on the 120-credit graduation requirement and assumes no transferred credits, no requirements waived by placement tests, no courses taken in the summer or winter, no repeated courses, and no remedial courses that may be required. This sample degree plan is intended for first-year students entering UW-Eau Claire in the fall semester. Your own degree plan may differ depending on the course of study selected (second major, minor, etc.). UW-Eau Claire cannot guarantee all courses will be offered as shown, but will provide a range of courses that may enable prepared students to fulfill their requirements in a timely period. This sample degree plan is just a guide. Please consult your advisor, your degree audit, and the catalog to create your own degree plan. *Note:* In order to earn the required minimum of 120 credits for the degree in four years, you should plan to take 15 credits each semester or 30 credits each year.

To earn a degree, students must fulfill all University Graduation Requirements, including the Core General Education Requirements (CGER). CGER course work in the following sample degree plan uses abbreviations such as CGER CL, CGER HA, and CGER NSWL to represent the learning outcomes students will meet via completion of the course. Please click here for a description of the outcomes and requirements.

Students in this major have the option to pursue either a Bachelor of Arts (B.A.) or a Bachelor of Science (B.S.) degree. The degrees are distinguished by second language competency for the B.A. and a higher level of mathematics competency for the B.S.

RECOMMENDATIONS FOR HIGH IMPACT PRACTICES (HIPs)

The University of Wisconsin-Eau Claire encourages all students to participate in High Impact Practices. The following information identifies any specific recommendations that faculty in this major have concerning which HIPs might be most beneficial to students, and any recommendations about when those HIPs best fit into the degree plan. Students should also consult their faculty advisor for information on HIPs. There are many additional high impact opportunities available. Talk to your academic advisor for more information about incorporating HIPs like Study Abroad, Intercultural Immersion, Internship, and/or Student/Faculty Collaborative Research into your time at UW-Eau Claire.

The Department of Economics is highly active in the following areas. Please consult with the department chair to see how you might get more involved.

- Faculty/Student Research – over 40 researchers in economics every year. Students present at conferences regionally, nationally, and internationally, as well as co-author papers.
- International Immersions – At least 2 international immersion experiences available annually within the department of economics.
- Internships – Active class led internship program (ECON 498).

Core General Education Requirements (CGER)

Core General Education Requirements (CGER)

The Core General Education Requirements (CGER) includes a minimum of 10 courses across 6 categories. Students must complete a minimum of 36 credits in courses approved for the CGER Core.

- Mathematics & Quantitative Reasoning (MQR) - 4 credits, one course minimum
 - Includes the University Mathematics Requirement¹
- Communication & Literacy (CL) - 8 credits, two courses minimum
 - Includes the University Writing Requirement (CL-W)²
- Natural Sciences & Wellness (NSW/NSWL) - 6 credits, one course minimum (NSW-Lab required)
- Social & Behavioral Sciences (SBS) - 6 credits, two courses minimum
- Humanities & Arts (HA) - 6 credits, two courses minimum
- Civics & Perspectives (CP) - 6 credits, two courses minimum

¹ University Mathematics Requirement:

Students satisfy the University Mathematics Requirement in one of four ways:

- completing an approved university-level mathematics course (MQR) with a grade of C (not C-) or above
- achieving a suitable score on the UW Math Placement Test (<https://www.uwec.edu/academics/academic-support/advising/testing/placement-testing/>)
- achieving a suitable score on an exam such as the Advanced Placement Calculus or Advanced Placement Statistics exams

- achieving a suitable score on a Credit by Examination administered by the Department of Mathematics.

² University Writing Requirement:

Students satisfy the University Writing Requirement in one of four ways:

- completing a Blugold Seminar in Critical Reading and Writing course (WRIT 102 (<https://catalog.uwec.edu/search/?P=WRIT%20102>), WRIT 114 (<https://catalog.uwec.edu/search/?P=WRIT%20114>), WRIT 116 (<https://catalog.uwec.edu/search/?P=WRIT%20116>), WRIT 118 (<https://catalog.uwec.edu/search/?P=WRIT%20118>), or WRIT 120 (<https://catalog.uwec.edu/search/?P=WRIT%20120>)) with a grade of C (not C-) or above
- achieving a suitable score on the English Placement Test (<https://www.uwec.edu/academics/blugold-seminar/writ-courses-placement/>) (WPT ENGL)
- achieving a suitable score on an exam such as the Advanced Placement English Literature and Composition or Advanced Placement English Language and Composition exams
- achieving a suitable score on the University Writing Program Portfolio.

Completion via Placement Test

- Writing: If the CL-W subcategory is satisfied through a placement test, the CGER Communication and Literacy requirement will be reduced from 8 credits (2 courses) to 3 credits (1 course).
- Mathematics: If the University Math Requirement is satisfied through a placement test, the CGER Mathematics & Quantitative Reasoning requirement will be considered fully met, replacing the 4-credit (1 course) requirement.
- Students must still complete 36 credits across 10 courses, with any remaining credits or courses eligible to be taken from any CGER category.

English

Centennial Hall 4102

715-836-2639

Department Website (<https://www.uwec.edu/academics/college-arts-sciences/departments-programs/english/>)

English as an academic discipline encompasses the study of literature, literary theory, critical/cultural theory, film, creative writing, professional writing, rhetoric, teaching, and linguistics. In English courses, students develop strong critical thinking and analytical skills; they learn to read with interpretive power and write with fluency, power, and precision; and they apply a variety of research strategies and methods.

Advising Information

The English Department maintains updated advising guides and four-year degree plans for all of its majors, minors, and certificates; these materials are available in the English Department office and on the English Department website (<https://www.uwec.edu/academics/college-arts-sciences/departments-programs/english/>).

Students contemplating a major, minor, or certificate in English are encouraged to make an appointment in the English Department office with the Director of Undergraduate Studies in English.

Programs

Students at UW-Eau Claire may choose a major in one of our five emphasis areas: Creative Writing; Critical Studies in Literatures, Cultures, and Film; English Language Arts Teaching; Linguistics; Rhetorics of Science, Technology,

and Culture. The English Language Arts Teaching program is a comprehensive major which does not need a second program, while the other majors each require an additional minor, certificate, or second major program. The English Department also offers minors and certificates in Creative Writing, Critical Studies in Literatures, Cultures, and Film, and Rhetorics of Science, Technology, and Culture. The English Department administers the College of Arts and Sciences' Interdisciplinary Linguistics minor and certificate. Each program in English offers students a framework of core English courses and a focused concentration of courses in the emphasis.

All English majors take three core courses, designed to provide a strong foundation in English studies:

ENGL 210	Introduction to Critical Studies	5
ENGL 221	Introductory English Linguistics	3
ENGL 284	Introduction to Theory and Criticism	3

ENGL 210 provides students with an understanding of textuality and how texts function within historicized cultural contexts. All English minors take ENGL 210 as their one core English course. ENGL 221 introduces students to the scientific study of language, including linguistic structure, the history of the English language, and language acquisition. ENGL 284 provides a broadly conceived understanding of theory and criticism, and introduces students to the practice of self-reflectively theorizing and critiquing within the field of English. These core courses provide students with a strong basis for their work in the discipline.

Our English programs are designed to give students focused study in a particular area or emphasis. Students deepen their study of English through intermediate and advanced coursework in their specific emphasis and have many opportunities to integrate their previous learning by producing major research or creative projects. Students in English develop strong analytical skills, critical thinking abilities, oral and written communication skills, and a depth of knowledge about language, literature, and culture, all of which will serve them well in their careers or graduate work. Finally, the English Department prides itself on its accomplished faculty, rigorous curriculum, and welcoming community.

Departmental Honors Program, Student Organizations, and Other Opportunities

We believe that getting involved beyond the classroom in the major/minor enhances students' college experience and gives them valuable career-building and life-enriching skills. Please visit the English department website (<https://www.uwec.edu/academics/college-arts-sciences/departments-programs/english/>) for information about these opportunities.

- **Departmental Honors Program in English**—engage in high impact research, creative, and integrative opportunities. The Departmental Honors Program fosters integrative learning through independent and collaborative experiences, promotes advanced engagement with scholarly resources, and recognizes outstanding achievement in academic and scholarly activity.
- **English Festival**—organize events and activities of interest to English majors, minors, and faculty.
- **English Ambassadors**—promote the department at recruitment events, mentor English majors/minors, and advise the department on student concerns.
- **NOTA (None of the Above)**—contribute to the creation of the campus' creative literary and arts publication and host events promoting the literary and creative arts.
- **Sigma Tau Delta/Theta Zeta Chapter**—English honor society committed to fostering relationships between students and faculty and inspiring

students to promote their love of English to the campus and local community through service projects and activities.

- **Center for Writing Excellence Writing Assistants & Writing Fellows**—tutor in the Center for Writing Excellence or assist professors in writing-intensive courses.
- **Student Mentors/Student Academic Apprentices**—mentor or apprentice in an English or Writing course.
- **Writing Internships**—build your writing and professional skills by working for community agencies or businesses in the Chippewa Valley.

General Restrictions

Auditors will be admitted to writing courses only with the written permission of the instructor and the department chair.

Second-language Speakers. The beginning composition course for second-language speakers of English is ordinarily ESL 305 (contact Department of Languages) followed by a first-year writing course offered by the English Department.

Majors

- Major: English, Linguistics, Liberal Arts - B.A./B.S.
- Major: English, Critical Studies in Literatures, Cultures, and Film, Liberal Arts - B.A./B.S.
- Major: English, Creative Writing, Liberal Arts - B.A./B.S.
- Major: English, Rhetorics of Science, Technology, and Culture, Liberal Arts - B.A./B.S.
- Comprehensive Major: English & Language Arts Teaching - B.A. (College of Health and Human Sciences Secondary Education Program)

Minors

- Minor: English, Critical Studies in Literatures, Cultures, and Film, Liberal Arts
- Minor: English, Creative Writing, Liberal Arts
- Minor: English, Rhetorics of Science, Technology, and Culture, Liberal Arts
- Minor: Interdisciplinary Linguistics (<https://catalog.uwec.edu/undergraduate/arts-sciences/interdisciplinary/interdisciplinary-linguistics-minor/>)

Certificates

- Certificate: Creative Writing
- Certificate: Critical Studies in Literatures, Cultures, and Film
- Certificate: Rhetorics of Science, Technology, and Culture
- Certificate: Interdisciplinary Linguistics (<https://catalog.uwec.edu/undergraduate/arts-sciences/interdisciplinary/interdisciplinary-linguistics-certificate/>)

English & Language Arts Teaching, Comprehensive Major

Teaching (Code 541-001)

University Requirements

GRADUATION REQUIREMENTS FOR BACCALAUREATE DEGREE

Credit Requirements	
Minimum total for graduation ¹	120
Upper division credits (courses numbered 300 and higher)	39
Core General Education	10 courses, 36 credits

Academic Concentrations

Grade Point Requirements ²

Total	2.00 average
Resident	2.00 average
Major	2.00 average
Minor	2.00 average
Certificate	2.00 average

University Residency Requirements

Minimum total	30
Senior year	23
Major, Standard, upper division in residence	12
Major, Comprehensive, upper division in residence	21
Certificate	25 percent of credits

Procedures Required for Graduation

Obtain admission to the degree program and/or the College offering it.

Apply for graduation on CampS.

¹ Certain programs exceed this minimum.

² See special requirements in each College.

Applicability of Credits Toward Graduation

Junior College or Two-Year College Credits. A maximum of 72 semester credits earned in a junior college or two-year college will be accepted as degree credits at UW-Eau Claire.

Extension Credits. Credits earned in credit outreach courses offered by UW-Eau Claire are treated as resident credits. Credits earned in extension courses offered by other units of the Universities of Wisconsin System are treated as transfer credits. All other (non-UW) extension and correspondence credits are normally limited to one-fourth of the total required for graduation from any curriculum.

WTCS Credits. A maximum of 72 semester credits earned in college parallel programs at Madison Area Technical College, Milwaukee Area Technical College, Nicolet Area Technical College, or Chippewa Valley Technical College may be accepted as degree credits at UW-Eau Claire. A set number of general education courses will be accepted from other technical schools. Occupational and technical courses may also be considered for transfer if the quality and content of the course work from the technical college is judged to be comparable to course work at UW-Eau Claire. Refer to the Transfer Credit Wizard (https://www.uwec.sis.wisconsin.edu/psp/eauprd-tb/EMPLOYEE/SA/c/EAU_SS_CUSTOM.EAU_TRNCRDWZ.GBL) or contact the UW-Eau Claire Admissions Office for information about the current transfer policy.

USAFI Credit. UW-Eau Claire will accept up to 32 semester credits for work done through the United States Armed Forces Institute, under the provision for non-UW correspondence credit (see Extension Credits above).

Activity Credit (band, chorus, drama, KINS 100-184 courses) Students may count toward graduation no more than one credit of KINS 110-184 courses. Students may count toward graduation no more than four credits earned in any single activity course and no more than 12 credits resulting from any combination of activity courses (excluding KINS 110-184 courses).

Other Restricted Credits. For other University restrictions, see the following: Cooperative Education; Credit by Examination; Satisfactory/Unsatisfactory Registration; Transfer of Credits. College or departmental restrictions may also be placed on Independent Study (399-499 courses), Directed Study (395-495), and other types of credits.

APPLICABILITY OF CREDITS TOWARD GRADUATION		Credit Restrictions
Satisfactory/Unsatisfactory		
Total degree credit		maximum 12
Major, Standard		maximum 1 course
Major, Comprehensive		maximum 2 courses
Minor		maximum 1 course
Credit by Examination		
Total degree credit		maximum ¼ of total
Major or minor		maximum ½ of total
Two-Year College Credits		
Total degree credit		maximum 72 credits
Activity credit (band, chorus, drama, KINS 100-184)		
Total KINS 100-184		maximum 1 credit
Total Band, chorus, drama		maximum 12 credits
Single course band, chorus, drama		maximum 4 credits

Extension credits	
UW-System	no maximum
Other extension/correspondence	maximum ¼ of total
USAFI	
USAFI	maximum 32 credits

Core General Education Requirements (CGER)

CGER Categories

Mathematics & Quantitative Reasoning (MQR) (http://catalog.uwec.edu/undergraduate/outcome-mqr/)	4 credit hours, 1 course min
Includes University Math Requirement ¹	
Communication & Literacy (CL) (http://catalog.uwec.edu/undergraduate/outcome-cl/)	8 credit hours, 2 course min (including CL-W)
Includes University Writing Requirement (CL-W) (http://catalog.uwec.edu/undergraduate/outcome-clw/) ²	
Natural Sciences & Wellness (NSW/NSWL) (http://catalog.uwec.edu/undergraduate/outcome-NSW/)	6 credit hours, 1 course min (NSW-Lab required)
Social & Behavioral Sciences (SBS) (https://catalog.uwec.edu/undergraduate/outcome-sbs/)	6 credit hours, 2 course min
Humanities & Arts (HA) (http://catalog.uwec.edu/undergraduate/outcome-ha/)	6 credit hours, 2 course min
Civics & Perspectives (CP) (http://catalog.uwec.edu/undergraduate/outcome-cp/)	6 credit hours, 2 course min
CGER Totals ³	
Credits	minimum 36 credits
Courses	minimum 10 courses

¹ University Mathematics Requirement:

Students satisfy the University Mathematics Requirement in one of four ways:

- completing an approved university-level mathematics course (MQR) with a grade of C (not C-) or above
- achieving a suitable score on the UW Math Placement Test (<https://www.uwec.edu/academics/academic-support/advising/testing/placement-testing/>)
- achieving a suitable score on an exam such as the Advanced Placement Calculus or Advanced Placement Statistics exams
- achieving a suitable score on a Credit by Examination administered by the Department of Mathematics.

² University Writing Requirement:

Students satisfy the University Writing Requirement in one of four ways:

- completing a Blugold Seminar in Critical Reading and Writing course (WRIT 102 (<https://catalog.uwec.edu/search/?P=WRIT%20102>), WRIT 114 (<https://catalog.uwec.edu/search/?P=WRIT%20114>), WRIT 116 (<https://catalog.uwec.edu/search/?P=WRIT%20116>), WRIT 118 (<https://catalog.uwec.edu/search/?P=WRIT%20118>), or WRIT 120 (<https://catalog.uwec.edu/search/?P=WRIT%20120>)) with a grade of C (not C-) or above

- achieving a suitable score on the English Placement Test (<https://www.uwec.edu/academics/blugold-seminar/writ-courses-placement/>) (WPT ENGL)
- achieving a suitable score on an exam such as the Advanced Placement English Literature and Composition or Advanced Placement English Language and Composition exams
- achieving a suitable score on the University Writing Program Portfolio.

³ Completion via Placement Tests

- Writing: If the CL-W subcategory is satisfied through a placement test, the CGER Communication and Literacy requirement will be reduced from 8 credits (2 courses) to 3 credits (1 course).
- Mathematics: If the University Math Requirement is satisfied through a placement test, the CGER Mathematics & Quantitative Reasoning requirement will be considered fully met, replacing the 4-credit (1 course) requirement.
- Students must still complete 36 credits across 10 courses, with any remaining credits or courses eligible to be taken from any CGER category.

College Degree Requirements

College of Health and Human Sciences Requirements for Teacher Education Programs

1. Grade point requirements:

Abbreviation	Full Title
Resident	2.75 average
Total	2.75 average
Major	2.75 average
Minor (for certification only)	2.75 average

2. Residency requirements:

Abbreviation	Full Title
Minimum Total	30 credits
Senior Year	23 credits
Major, in upper division courses	12 credits
Comprehensive Major, in upper division courses	21 credits

3. Criteria and requirements for Admission to Education Program and Admission to the Professional Education Semester.
4. Specific requirements for programs offered in the College of Health and Human Sciences as outlined in department specific sections of this catalog.

Admission to Education Program

Admission to the Education Program

Students must apply for admission to the Education Program. Applications are due by October 1 for spring admission or March 1 for fall admission. To submit an application to an Education Program, students must satisfy all of the requirements listed below:

1. Approval by the appropriate department in the College of Health and Human Sciences.
2. Pre-education status.
3. Students must have attained at least Sophomore Status

4. Minimum total GPA of 2.5 or minimum resident GPA of 2.5. Admission is competitive; thus, the minimum GPA does not assure admission.
5. Completed the Core General Education Requirement (CGER) for Communication & Literacy-Writing with a C or better.
6. Completed the Core General Education Requirement (CGER) for Mathematics & Quantitative Reasoning with a C or better.
7. Good academic standing.
8. Complete an introductory education course with a field placement (SEIP 208, ES 212, or the equivalent) with a grade of C or better.

Specific majors may have additional department-level criteria. Consult with the department if needed.

Admission to Professional Education Semester (Student Teaching or Internship)

Admission to the Professional Education Semester

The "Professional Education Semester" is defined as the semester in which a student is enrolled in the field experience of student teaching or internship.

Filing Notice of Intent to Student Teach Applications: Information concerning the Notice of Intent to Student Teach will be advertised widely and posted across campus each semester with an associated due date. Students who plan to enter the Professional Education Semester during the fall semester of the next academic year must file a Notice of Intent to Student Teach with the Teacher Education Program office in the fall. Students who plan to enter the Professional Education Semester during the spring semester of the next academic year must file a Notice of Intent to Student Teach with the Teacher Education Program office in the spring.

Students are encouraged to submit their Notice of Intent to Student Teach by the announced due date. Considerable time is required to process each notice—that is, to determine eligibility, to make arrangements with schools for an appropriate field experience assignment, and to allow for introductions, orientations, and, in some cases, interviews. Students who file on time will benefit by the careful consideration that can be given to their requests; the later a notice is received, the fewer the placement assignments and choices still available will be. Failure to file a Notice of Intent to Student Teach on time may result in a delay of the Professional Education Semester.

Transfer and Special Students: No transfer or special student can enter the Professional Education Semester until after a full semester of residence and after earning a minimum of 15 credits at UW-Eau Claire. Senior transfer students enrolling in September must file an application for admission to the professional semester by December 1 for the following fall.

Criteria for Admission:

1. Admitted to the appropriate Education Program.
2. Good academic standing, as defined in the catalog.
3. A minimum of 90 earned credits prior to start of Professional Education Semester.
4. Minimum total GPA of 2.75 or minimum resident GPA of 2.75.
5. Completion of the 30-hour Human Relations Fieldwork requirement.
6. Evidence of freedom from Tuberculosis via test conducted by Student Health Services.
7. Completion of required criminal background check.

For placements that start in the Fall semester, criteria for admission must be met by March 1 of the prior semester. For placements that start in the Spring

semester, criteria for admission must be met by October 1 of the prior semester.

For placements that start in the summer session, criteria for admission must be met by February 1 of the prior semester.

Licensure Requirements

Licensure to Teach

College of Health and Human Sciences graduates who desire to teach in Wisconsin, will apply for licensure using the WI Department of Public Instruction's (DPI) ELO (Electronic Licensing Online) by following all steps listed on the site including fingerprinting if applicable.

Upon completion of all program requirements and WI DPI teaching requirements, information will be forwarded to DPI verifying program completion, the completion of all required tests, and information on all certifications the teaching candidates are eligible for with licensure. Candidates will then apply for their Initial License.

It is recommended that graduates seeking licensure to teach in states other than Wisconsin request application forms and instructions from the state in which licensure is desired. Early inquiry is suggested as the certification requirements vary by state. In most cases, an official transcript of credits must accompany the completed application form; additional tests or coursework may be required. In general, candidates may be able to obtain licenses in other states; however, these licenses may be issued with stipulations. It is the student's responsibility to understand the licensing requirements of other states. UW-Eau Claire programs are designed to meet the requirements in Wisconsin only.

Criteria for Recommendation for Licensure:

1. Completion of a baccalaureate degree.
2. Completion of an approved education major, minor, and/or certificate.
3. 2.75 or higher GPA in the major, minor, and/or certificate (if certifiable). All college level courses, except student teaching or internship are included when determining GPA for licensure.
4. Completion of student teaching or internship courses with an S.
5. Content area proficiency as demonstrated by earning a minimum 3.0 GPA in content courses OR via obtaining a passing score on the appropriate Praxis II. Candidates for licensure in Languages must obtain a passing score on the ACTFL written portion (WPT) and must pass the OPI/OPIC within three years prior to the start of student teaching or internship. All candidates seeking licensure must also earn a passing score on the FORT.

Major Requirements

Teaching (Code 541-001)

Secondary Education (Grades 4-12) students complete courses in the content area(s) they plan to teach; one or more methods courses specific to the content area; Professional Education coursework focused on instructional methods, assessment of student learning, and curriculum and lesson planning; and ten credits of Student Teaching or Student Teaching Internship.

A Secondary Education student must complete the following requirements to be recommended for licensure:

1. Earn a grade of C or higher in all content-area specific methods coursework and Professional Education coursework.
2. Earn a grade of S in student teaching or student teaching internship.

3. Earn a content area GPA of 3.0 or higher OR complete the appropriate Praxis II or ACTFL test with a passing grade.

Code	Title	Credits
ENGLISH & LANGUAGE ARTS MAJOR REQUIREMENTS		62
Core Requirements		11
ENGL 210	Introduction to Critical Studies (CGER HA)	5
ENGL 221	Introductory English Linguistics (CGER SBS)	3
ENGL 284	Introduction to Theory and Criticism	3
English & Language Arts Teaching Emphasis Requirements		18
ES 383	Literature for Adolescents	3
ES 385	Social Foundations: Human Relations (CGER CP)	3
ENGL 212 or CJ 207	Histories and Theories of Rhetoric Introduction to Rhetoric and Society	3

ENGL 409	Grant Proposal Writing	3
ENGL 455	Seminar in Rhetorics of Science, Technology, and Culture	3

Program Learning Outcomes

Students completing this program will be expected to meet the following learning outcomes:

- Read and Interpret text from a variety of critical perspectives
- Write effectively for different purposes and audiences
- Plan, conduct, and document research using appropriate sources
- Describe the dynamic nature, diversity, and structure of the English language
- Apply knowledge of subject area, student learning, educational research, and pedagogical theory to instructional design

English & Language Arts Teaching, Comprehensive Major (B.A.)

The following is a sample degree plan, based on the current catalog. It is based on the 120-credit graduation requirement and assumes no transferred credits, no requirements waived by placement tests, no courses taken in the summer or winter, no repeated courses, and no remedial courses that may be required. This sample degree plan is intended for first-year students entering UW-Eau Claire in the fall semester. Your own degree plan may differ depending on the course of study selected (second major, minor, etc.). UW-Eau Claire cannot guarantee all courses will be offered as shown but will provide a range of courses that may enable prepared students to fulfill their requirements in a timely period. This sample degree plan is just a guide. Please consult your advisor, your degree audit, and the catalog to create your own degree plan. Note: In order to earn the required minimum of 120 credits for the degree in four years, you should plan to take 15 credits each semester or 30 credits each year.

To earn a degree, students must fulfill all University Graduation Requirements, including the Core General Education Requirements (CGER). CGER course work in the following sample degree plan uses abbreviations such as CGER CL, CGER HA, and CGER NSWL to represent the learning outcomes students will meet via completion of the course. Please click [here](#) for a description of the outcomes and requirements.

FIRST YEAR**First Semester**

Select one: 2-5

WRIT 114	Intensive Blugold Seminar in Critical Reading and Writing (CGER CL)	
WRIT 116	Blugold Seminar in Critical Reading and Writing (CGER CL)

Second Semester

CJ 203	Fundamentals of Human Communication (CGER CL)	3
ENGL 2XX - 200-level course in a required Literature, Culture, Theory, or Film category		
ENGL 3XX - 300-level course in a required Literature, Culture, Theory, or Film category		
PSYC 260	Educational Psychology (CGER SBS)	3
ES 212	Exploring Schooling K-12	2-3
TOTAL SECOND YEAR		30

THIRD YEAR ¹**First Semester**

ENGL 319	Introduction to English Education Methods	3
ENGL 2XX/3XX/4XX - 200 to 400-level elective		
ENGL 3XX/4XX - 300 to 400-level in a required Literature, Culture, Theory, and Film category		
Communication & Journalism elective		3
CGER Core Elective (HA or CP if needed) or Elective		

Second Semester

ENGL 3XX/4XX - 300 to 400-level elective		
ENGL 3XX/4XX - 300 to 400-level elective		
ES 490	Historical, Legal, and Philosophical Foundations of Education	3
SEIP 300	Inclusive Practices for Secondary Educators	3
ES 383	Literature for Adolescents	3
TOTAL THIRD YEAR		30

FOURTH YEAR**First Semester**

ENGL 4XX - 400-level in required Literature, Culture, Theory, or Film category		
ES 313	Curriculum, Instructional Methods, and Disciplinary Literacies in Grades K-12	3
ES 314	Collaboration, Engagement, and Assessment in Grades K-12	3
ENGL 419	Seminar in English Education Methods	3

Second Semester

ES 441	Student Teaching in K-12 Education	10
or ES 440	Internship Teaching in K-12 Education	
ES 497	Field Experience Seminar	2
TOTAL FOURTH YEAR		30

¹ Apply for Education Program.**RECOMMENDATIONS FOR HIGH IMPACT PRACTICES (HIPs)**

The University of Wisconsin-Eau Claire encourages all students to participate in High Impact Practices. There are many high-impact opportunities available. Talk to your academic advisor for more information about incorporating HIPs like Study Abroad, Intercultural Immersion, Internship, and/or Student/Faculty Collaborative Research into your time at UW-Eau Claire.

Core General Education Requirements (CGER)

Core General Education Requirements (CGER)

The Core General Education Requirements (CGER) includes a minimum of 10 courses across 6 categories. Students must complete a minimum of 36 credits in courses approved for the CGER Core.

- Mathematics & Quantitative Reasoning (MQR) - 4 credits, one course minimum
 - Includes the University Mathematics Requirement¹
- Communication & Literacy (CL) - 8 credits, two courses minimum
 - Includes the University Writing Requirement (CL-W)²
- Natural Sciences & Wellness (NSW/NSWL) - 6 credits, one course minimum (NSW-Lab required)
- Social & Behavioral Sciences (SBS) - 6 credits, two courses minimum
- Humanities & Arts (HA) - 6 credits, two courses minimum
- Civics & Perspectives (CP) - 6 credits, two courses minimum

¹ University Mathematics Requirement:

- Students satisfy the University Mathematics Requirement in one of four ways:
- completing an approved university-level mathematics course (MQR) with a grade of C (not C-) or above
 - achieving a suitable score on the UW Math Placement Test (<https://www.uwec.edu/academics/academic-support/advising/testing/placement-testing/>)
 - achieving a suitable score on an exam such as the Advanced Placement Calculus or Advanced Placement Statistics exams
 - achieving a suitable score on a Credit by Examination administered by the Department of Mathematics.

² University Writing Requirement:

- Students satisfy the University Writing Requirement in one of four ways:
- completing a Blugold Seminar in Critical Reading and Writing course (WRIT 102 (<https://catalog.uwec.edu/search/?P=WRIT%20102>), WRIT 114 (<https://catalog.uwec.edu/search/?P=WRIT%20114>), WRIT 116 (<https://catalog.uwec.edu/search/?P=WRIT%20116>), WRIT 118 (<https://catalog.uwec.edu/search/?P=WRIT%20118>), or WRIT 120 (<https://catalog.uwec.edu/search/?P=WRIT%20120>)) with a grade of C (not C-) or above
 - achieving a suitable score on the English Placement Test (<https://www.uwec.edu/academics/blugold-seminar/writ-courses-placement/>) (WPT ENGL)
 - achieving a suitable score on an exam such as the Advanced Placement English Literature and Composition or Advanced Placement English Language and Composition exams
 - achieving a suitable score on the University Writing Program Portfolio.

Completion via Placement Test

- Writing: If the CL-W subcategory is satisfied through a placement test, the CGER Communication and Literacy requirement will be reduced from 8 credits (2 courses) to 3 credits (1 course).
- Mathematics: If the University Math Requirement is satisfied through a placement test, the CGER Mathematics & Quantitative Reasoning requirement will be considered fully met, replacing the 4-credit (1 course) requirement.
- Students must still complete 36 credits across 10 courses, with any remaining credits or courses eligible to be taken from any CGER category.

English, Creative Writing
Emphasis, Major

Liberal Arts (Code 540-204)

University Requirements

GRADUATION REQUIREMENTS FOR BACCALAUREATE
DEGREE

Credit Requirements	
Minimum total for graduation ¹	120
Upper division credits (courses numbered 300 and higher)	39
Core General Education	10 courses, 36 credits
Academic Concentrations	
Grade Point Requirements ²	
Total	2.00 average
Resident	2.00 average
Major	2.00 average
Minor	2.00 average
Certificate	2.00 average
University Residency Requirements	
Minimum total	30
Senior year	23
Major, Standard, upper division in residence	12
Major, Comprehensive, upper division in residence	21
Certificate	25 percent of credits

Procedures Required for Graduation

- Obtain admission to the degree program and/or the College offering it.
- Apply for graduation on CampS.

¹ Certain programs exceed this minimum.
² See special requirements in each College.

Applicability of Credits Toward Graduation

Junior College or Two-Year College Credits. A maximum of 72 semester credits earned in a junior college or two-year college will be accepted as degree credits at UW-Eau Claire.

Extension Credits. Credits earned in credit outreach courses offered by UW-Eau Claire are treated as resident credits. Credits earned in extension courses offered by other units of the Universities of Wisconsin System are treated as transfer credits. All other (non-UW) extension and correspondence credits are normally limited to one-fourth of the total required for graduation from any curriculum.

WTCS Credits. A maximum of 72 semester credits earned in college parallel programs at Madison Area Technical College, Milwaukee Area Technical College, Nicolet Area Technical College, or Chippewa Valley Technical College may be accepted as degree credits at UW-Eau Claire. A set number of general education courses will be accepted from other technical schools. Occupational and technical courses may also be considered for transfer if the quality and content of the course work from the technical college is judged to be comparable to course work at UW-Eau Claire. Refer to the Transfer Credit Wizard (<https://www.uwec.sis.wisconsin.edu/psp/eauprd-tb/EMPLOYEE/>)

SA/c/EAU_SS_CUSTOM.EAU_TRNCRDWZ.GBL) or contact the UW-Eau Claire Admissions Office for information about the current transfer policy.

USAFI Credit. UW-Eau Claire will accept up to 32 semester credits for work done through the United States Armed Forces Institute, under the provision for non-UW correspondence credit (see Extension Credits above).

Activity Credit (band, chorus, drama, KINS 100-184 courses) Students may count toward graduation no more than one credit of KINS 110-184 courses. Students may count toward graduation no more than four credits earned in any single activity course and no more than 12 credits resulting from any combination of activity courses (excluding KINS 110-184 courses).

Other Restricted Credits. For other University restrictions, see the following: Cooperative Education; Credit by Examination; Satisfactory/Unsatisfactory Registration; Transfer of Credits. College or departmental restrictions may also be placed on Independent Study (399-499 courses), Directed Study (395-495), and other types of credits.

APPLICABILITY OF CREDITS TOWARD GRADUATION		Credit Restrictions
Satisfactory/Unsatisfactory		
Total degree credit		maximum 12
Major, Standard		maximum 1 course
Major, Comprehensive		maximum 2 courses
Minor		maximum 1 course
Credit by Examination		
Total degree credit		maximum ¼ of total
Major or minor		maximum ½ of total
Two-Year College Credits		
Total degree credit		maximum 72 credits
Activity credit (band, chorus, drama, KINS 100-184)		
Total KINS 100-184		maximum 1 credit
Total Band, chorus, drama		maximum 12 credits
Single course band, chorus, drama		maximum 4 credits
Extension credits		
UW-System		no maximum
Other extension/correspondence		maximum ¼ of total
USAFI		
USAFI		maximum 32 credits

¹ University Mathematics Requirement:

Students satisfy the University Mathematics Requirement in one of four ways:

- completing an approved university-level mathematics course (MQR) with a grade of C (not C-) or above
- achieving a suitable score on the UW Math Placement Test (<https://www.uwec.edu/academics/academic-support/advising/testing/placement-testing/>)
- achieving a suitable score on an exam such as the Advanced Placement Calculus or Advanced Placement Statistics exams
- achieving a suitable score on a Credit by Examination administered by the Department of Mathematics.

² University Writing Requirement:

Students satisfy the University Writing Requirement in one of four ways:

- completing a Blugold Seminar in Critical Reading and Writing course (WRIT 102 (<https://catalog.uwec.edu/search/?P=WRIT%20102>), WRIT 114 (<https://catalog.uwec.edu/search/?P=WRIT%20114>), WRIT 116 (<https://catalog.uwec.edu/search/?P=WRIT%20116>), WRIT 118 (<https://catalog.uwec.edu/search/?P=WRIT%20118>), or WRIT 120 (<https://catalog.uwec.edu/search/?P=WRIT%20120>)) with a grade of C (not C-) or above
- achieving a suitable score on the English Placement Test (<https://www.uwec.edu/academics/blugold-seminar/writ-courses-placement/>) (WPT ENGL)
- achieving a suitable score on an exam such as the Advanced Placement English Literature and Composition or Advanced Placement English Language and Composition exams
- achieving a suitable score on the University Writing Program Portfolio.

³ Completion via Placement Tests

- Writing: If the CL-W subcategory is satisfied through a placement test, the CGER Communication and Literacy requirement will be reduced from 8 credits (2 courses) to 3 credits (1 course).
- Mathematics: If the University Math Requirement is satisfied through a placement test, the CGER Mathematics & Quantitative Reasoning requirement will be considered fully met, replacing the 4-credit (1 course) requirement.

- Students must still complete 36 credits across 10 courses, with any remaining credits or courses eligible to be taken from any CGER category.

College Degree Requirements

Bachelor of Arts or Bachelor of Science Degree (B.A./B.S.)

University Graduation Requirements. All candidates for degrees must fulfill the requirements for credits, curriculum, GPA, and University residency as specified in the section of this catalog titled University Graduation Requirements.

College Graduation Requirements: Grade Point Averages. All candidates for degrees in the College of Arts and Sciences must earn minimum resident and total GPAs of 2.00 in the major, the minor, and the certificate. The resident and total GPAs for the major are computed using all attempted credits applicable to the major including those offered by departments other than the major department. The resident and total GPAs for the minor and the certificate are computed similarly.

Major-Minor and Major-Certificate Requirements. A standard major (a minimum of 36 credits) must be supplemented by a minor (a minimum of 24 credits) or by a certificate (12 to 18 credits) to meet graduation requirements for completing a first and second degree program. No minor or certificate is required with a Comprehensive Major (60 or more credits) or with two majors of 36 or more credits each.

Certain degree programs, which include Comprehensive Majors, may require more than the minimum of 120 credits for graduation.

Acceptable academic program combinations are determined at the college level. A major and a minor or a major and certificate or two majors (if available) may not be elected in the same department or program, except in the approved combinations listed here.

College Credits. Earn at least 90 credits in courses offered by the College of Arts and Sciences.

Bachelor of Arts Degree in the College of Arts and Sciences (B.A.)

Fulfillment of all University Graduation Requirements (which includes the Core General Education Requirements); all College-level degree requirements (major and minor/certificate emphases, GPAs, earning at least 90 credits in Arts and Sciences course work); second language competency at the 102 level. Second language competency may be met in one of two ways: (1) Demonstrate a level of second language competency that qualifies the student to enter the 201-level course in a second language. (2) Earn a grade of at least C (not C-) or a mark of S in a 102-level second language course (or AIS 112 or AIS 122 or SLHS 103).

Bachelor of Science Degree in the College of Arts and Sciences (B.S.)

Fulfillment of all University Graduation Requirements (which includes the Core General Education Requirements); all College-level degree requirements (major and minor/certificate emphases, GPAs, earning at least 90 credits in Arts and Sciences course work); mathematics competency at the MATH 111, MATH 112 or MATH 113 level. Mathematics competency can be met in one of three ways:

(1) Achieve a score on the mathematics placement test that qualifies the student to enter MATH 114. (2) Earn a grade of at least C (not C-) or a mark of S in MATH 111, MATH 112, or MATH 113. (3) Achieve a satisfactory score on the MATH 112 competency test. This test may be attempted no more than two times.

Major Requirements

Liberal Arts (Code 540-204)

Code	Title	Credits
Thirty-eight semester credits, including:		
Core (11 credits)		
ENGL 210	Introduction to Critical Studies	5
ENGL 221	Introductory English Linguistics	3
ENGL 284	Introduction to Theory and Criticism	3
Emphasis Requirements (15 credits)		
ENGL 220	Introduction to Creative Writing (with a grade of B or above)	3
ENGL 310	Intermediate Poetry Writing	3
ENGL 311	Intermediate Fiction/Nonfiction Writing	3
Six credits from two of the following courses:		6
ENGL 410	Creative Writing Workshop - Poetry	
ENGL 411	Creative Writing Workshop - Fiction	
ENGL 412	Creative Writing Workshop - Nonfiction	
ENGL 413	Prose Writing Workshop-Topics	
THEA 414	Playwriting	
Literature/Culture Requirements (12 credits)		
Six credits from:		6
ENGL 245	American Literature Since 1945	
ENGL/CJ 273	Creative and Narrative Nonfiction	
ENGL 274	The Short Story	
ENGL 275	The Novel	
ENGL 276	Poetry	
ENGL 278	Young Adult Literature	
Required:		
Three credits of literature/culture at the 300- or 400-level		3
Three credits of literature/culture at the 400-level		3

Note: Students will need to earn at least 48 unique credits between any approved English program combinations for purposes of meeting graduation requirements for first and second degree programs.

ENGL 409	Grant Proposal Writing	3
ENGL 455	Seminar in Rhetorics of Science, Technology, and Culture	3

Program Learning Outcomes

Students completing this program will be expected to meet the following learning outcomes:

Outcomes for all English Programs

- Read and interpret text from a variety of critical perspectives.
- Write effectively for different purposes and audiences.
- Plan, conduct, and document research using appropriate sources.

- Describe the dynamic nature, diversity, and structure of the English language.

Outcomes for Creative Writing Emphasis

- Create original, effective poetry.
- Create original, effective fiction or creative non-fiction.

English, Creative Writing Emphasis, Major, B.A.

The following is a sample degree plan, based on the current catalog. It is based on the 120-credit graduation requirement and assumes no transferred credits, no requirements waived by placement tests, no courses taken in the summer or winter, no repeated courses, and no remedial courses that may be required. This sample degree plan is intended for first-year students entering UW-Eau Claire in the fall semester. Your own degree plan may differ depending on the course of study selected (second major, minor, etc.). UW-Eau Claire cannot guarantee all courses will be offered as shown, but will provide a range of courses that may enable prepared students to fulfill their requirements in a timely period. This sample degree plan is just a guide. Please consult your advisor, your degree audit, and the catalog to create your own degree plan. *Note:* In order to earn the required minimum of 120 credits for the degree in four years, you should plan to take 15 credits each semester or 30 credits each year.

To earn a degree, students must fulfill all University Graduation Requirements, including the Core General Education Requirements (CGER). CGER course work in the following sample degree plan uses abbreviations such as CGER CL, CGER HA, and CGER NSWL to represent the learning outcomes students will meet via completion of the course. Please click [here](#) for a description of the outcomes and requirements.

Students in this major have the option to pursue either a Bachelor of Arts (B.A.) or a Bachelor of Science (B.S.) degree. The degrees are distinguished by second language competency for the B.A. and a higher level of mathematics competency for the B.S.

RECOMMENDATIONS FOR HIGH IMPACT PRACTICES (HIPs)

The University of Wisconsin-Eau Claire encourages all students to participate in High Impact Practices. The following information identifies any specific recommendations that faculty in this major have concerning which HIPs might be most beneficial to students, and any recommendations about when those HIPs best fit into the degree plan. Students should also consult their faculty advisor for information on HIPs. There are many additional high impact opportunities available. Talk to your academic advisor for more information about incorporating HIPs like Study Abroad (<https://studyabroad.apps.uwec.edu/>), Intercultural Immersion (<https://www.uwec.edu/immersion/>), Internship (<https://www.uwec.edu/offices-services/advising-retention-career-center/career-services/internship/job-searching-and>), and/or Student/Faculty Collaborative Research (<https://www.uwec.edu/offices-services/office-research-and-sponsored-programs/getting-involved-student-faculty-research>) into your time at UW-Eau Claire.

Core General Education Requirements (CGER)

Core General Education Requirements (CGER)

The Core General Education Requirements (CGER) includes a minimum of 10 courses across 6 categories. Students must complete a minimum of 36 credits in courses approved for the CGER Core.

- Mathematics & Quantitative Reasoning (MQR) - 4 credits, one course minimum
 - Includes the University Mathematics Requirement¹
- Communication & Literacy (CL) - 8 credits, two courses minimum
 - Includes the University Writing Requirement (CL-W)²
- Natural Sciences & Wellness (NSW/NSWL) - 6 credits, one course minimum (NSW-Lab required)
- Social & Behavioral Sciences (SBS) - 6 credits, two courses minimum
- Humanities & Arts (HA) - 6 credits, two courses minimum
- Civics & Perspectives (CP) - 6 credits, two courses minimum

¹ **University Mathematics Requirement:**

Students satisfy the University Mathematics Requirement in one of four ways:

- completing an approved university-level mathematics course (MQR) with a grade of C (not C-) or above
- achieving a suitable score on the UW Math Placement Test (<https://www.uwec.edu/academics/academic-support/advising/testing/placement-testing/>)
- achieving a suitable score on an exam such as the Advanced Placement Calculus or Advanced Placement Statistics exams
- achieving a suitable score on a Credit by Examination administered by the Department of Mathematics.

² **University Writing Requirement:**

Students satisfy the University Writing Requirement in one of four ways:

- completing a Bugold Seminar in Critical Reading and Writing course (WRIT 102 (<https://catalog.uwec.edu/search/?P=WRIT%20102>), WRIT 114 (<https://catalog.uwec.edu/search/?P=WRIT%20114>), WRIT 116 (<https://catalog.uwec.edu/search/?P=WRIT%20116>), WRIT 118 (<https://catalog.uwec.edu/search/?P=WRIT%20118>), or WRIT 120 (<https://catalog.uwec.edu/search/?P=WRIT%20120>)) with a grade of C (not C-) or above
- achieving a suitable score on the English Placement Test (<https://www.uwec.edu/academics/bugold-seminar/writ-courses-placement/>) (WPT ENGL)
- achieving a suitable score on an exam such as the Advanced Placement English Literature and Composition or Advanced Placement English Language and Composition exams
- achieving a suitable score on the University Writing Program Portfolio.

Completion via Placement Test

- Writing: If the CL-W subcategory is satisfied through a placement test, the CGER Communication and Literacy requirement will be reduced from 8 credits (2 courses) to 3 credits (1 course).
- Mathematics: If the University Math Requirement is satisfied through a placement test, the CGER Mathematics & Quantitative Reasoning requirement will be considered fully met, replacing the 4-credit (1 course) requirement.
- Students must still complete 36 credits across 10 courses, with any remaining credits or courses eligible to be taken from any CGER category.

English, Creative Writing, Certificate

(Code 540-603)

Code	Title	Credits

ENGL 411	Creative Writing Workshop - Fiction	
ENGL 412	Creative Writing Workshop - Nonfiction	
ENGL 413	Prose Writing Workshop-Topics	

Note: There must be at least 48 unique credits between a student's major and this certificate if course work overlaps for purposes of meeting graduation requirements for first and second degree programs.

Program Learning Outcomes

Students completing this program will be expected to meet the following learning outcomes:

Outcomes for all English Programs

- Read and interpret text from a variety of critical perspectives.
- Write effectively for different purposes and audiences.
- Plan, conduct, and document research using appropriate sources.
- Describe the dynamic nature, diversity, and structure of the English language.

Outcomes for Creative Writing Emphasis

- Create original, effective poetry.
- Create original, effective fiction or creative non-fiction.

English, Creative Writing, Minor

Liberal Arts (Code 540-412)

Code	Title	Credits
Twenty-six semester credits, including:		
ENGL 210	Introduction to Critical Studies	5
Select six credits from the following:		6
ENGL 245	American Literature Since 1945	
ENGL/CJ 273	Creative and Narrative Nonfiction	
ENGL 274	The Short Story	
ENGL 275	The Novel	
ENGL 276	Poetry	
Required:		
Three credits of literature/culture at the 300-level		3
ENGL 220	Introduction to Creative Writing	3
ENGL 310	Intermediate Poetry Writing	3
or ENGL 311	Intermediate Fiction/Nonfiction Writing	
Three credits from:		3
ENGL 410	Creative Writing Workshop - Poetry	
ENGL 411	Creative Writing Workshop - Fiction	
ENGL 412	Creative Writing Workshop - Nonfiction	
ENGL 413	Prose Writing Workshop-Topics	
THEA 414	Playwriting	

Three additional English credits	3
ENGL 278	Young Adult Literature

Note: Students will need to earn at least 48 unique credits between any approved English program combinations for purposes of meeting graduation requirements for first and second degree programs.

Outcomes for all English Programs

- Read and interpret text from a variety of critical perspectives.
- Write effectively for different purposes and audiences.
- Plan, conduct, and document research using appropriate sources.
- Describe the dynamic nature, diversity, and structure of the English language.

Outcomes for Creative Writing Emphasis

- Create original, effective poetry.
- Create original, effective fiction or creative non-fiction.

English, Critical Studies in Literatures, Cultures, and Film Emphasis, Major

Liberal Arts (Code 540-212)

University Requirements

GRADUATION REQUIREMENTS FOR BACCALAUREATE DEGREE

Credit Requirements	
Minimum total for graduation ¹	120
Upper division credits (courses numbered 300 and higher)	39
Core General Education	10 courses, 36 credits
Academic Concentrations	
Grade Point Requirements ²	
Total	2.00 average
Resident	2.00 average
Major	2.00 average
Minor	2.00 average
Certificate	2.00 average
University Residency Requirements	
Minimum total	30
Senior year	23
Major, Standard, upper division in residence	12
Major, Comprehensive, upper division in residence	21

Certificate	25 percent of credits

Procedures Required for Graduation

Obtain admission to the degree program and/or the College offering it.

Apply for graduation on CampS.

¹ Certain programs exceed this minimum.

² See special requirements in each College.

Applicability of Credits Toward Graduation

Junior College or Two-Year College Credits. A maximum of 72 semester credits earned in a junior college or two-year college will be accepted as degree credits at UW-Eau Claire.

Extension Credits. Credits earned in credit outreach courses offered by UW-Eau Claire are treated as resident credits. Credits earned in extension courses offered by other units of the Universities of Wisconsin System are treated as transfer credits. All other (non-UW) extension and correspondence credits are normally limited to one-fourth of the total required for graduation from any curriculum.

WTCS Credits. A maximum of 72 semester credits earned in college parallel programs at Madison Area Technical College, Milwaukee Area Technical College, Nicolet Area Technical College, or Chippewa Valley Technical College may be accepted as degree credits at UW-Eau Claire. A set number of general education courses will be accepted from other technical schools. Occupational and technical courses may also be considered for transfer if the quality and content of the course work from the technical college is judged to be comparable to course work at UW-Eau Claire. Refer to the Transfer Credit Wizard (https://www.uwec.sis.wisconsin.edu/psp/eauprd-tb/EMPLOYEE/SA/c/EAU_SS_CUSTOM.EAU_TRNCRDWZ.GBL) or contact the UW-Eau Claire Admissions Office for information about the current transfer policy.

USAFI Credit. UW-Eau Claire will accept up to 32 semester credits for work done through the United States Armed Forces Institute, under the provision for non-UW correspondence credit (see Extension Credits above).

Activity Credit (band, chorus, drama, KINS 100-184 courses) Students may count toward graduation no more than one credit of KINS 110-184 courses. Students may count toward graduation no more than four credits earned in any single activity course and no more than 12 credits resulting from any combination of activity courses (excluding KINS 110-184 courses).

Other Restricted Credits. For other University restrictions, see the following: Cooperative Education; Credit by Examination; Satisfactory/Unsatisfactory Registration; Transfer of Credits. College or departmental restrictions may also be placed on Independent Study (399-499 courses), Directed Study (395-495), and other types of credits.

APPLICABILITY OF CREDITS TOWARD GRADUATION	Credit Restrictions
Satisfactory/Unsatisfactory	
Total degree credit	maximum 12
Major, Standard	maximum 1 course
Major, Comprehensive	maximum 2 courses
Minor	maximum 1 course

Credit by Examination

Total degree credit	maximum ¼ of total
Major or minor	maximum ½ of total

Two-Year College Credits

Total degree credit	maximum 72 credits

Activity credit (band, chorus, drama, KINS 100-184)

Total KINS 100-184	maximum 1 credit
Total Band, chorus, drama	maximum 12 credits
Single course band, chorus, drama	maximum 4 credits

Extension credits

UW-System	no maximum
Other extension/correspondence	maximum ¼ of total

USAFI

USAFI	maximum 32 credits

Core General Education Requirements (CGER)**CGER Categories**

Mathematics & Quantitative Reasoning (MQR) (http://catalog.uwec.edu/undergraduate/outcome-mqr/)	4 credit hours, 1 course min
Includes University Math Requirement ¹	
Communication & Literacy (CL) (http://catalog.uwec.edu/undergraduate/outcome-cl/)	8 credit hours, 2 course min (including CL-W)
Includes University Writing Requirement (CL-W) (http://catalog.uwec.edu/undergraduate/outcome-clw/) ²	
Natural Sciences & Wellness (NSW/NSWL) (http://catalog.uwec.edu/undergraduate/outcome-NSW/)	6 credit hours, 1 course min (NSW-Lab required)
Social & Behavioral Sciences (SBS) (https://catalog.uwec.edu/undergraduate/outcome-sbs/)	6 credit hours, 2 course min
Humanities & Arts (HA) (http://catalog.uwec.edu/undergraduate/outcome-ha/)	6 credit hours, 2 course min
Civics & Perspectives (CP) (http://catalog.uwec.edu/undergraduate/outcome-cp/)	6 credit hours, 2 course min

CGER Totals ³

Credits	minimum 36 credits
Courses	minimum 10 courses

¹ University Mathematics Requirement:

- Students satisfy the University Mathematics Requirement in one of four ways:
- completing an approved university-level mathematics course (MQR) with a grade of C (not C-) or above

- achieving a suitable score on the UW Math Placement Test (<https://www.uwec.edu/academics/academic-support/advising/testing/placement-testing/>)
- achieving a suitable score on an exam such as the Advanced Placement Calculus or Advanced Placement Statistics exams
- achieving a suitable score on a Credit by Examination administered by the Department of Mathematics.

² **University Writing Requirement:**

- Students satisfy the University Writing Requirement in one of four ways:
- completing a Blugold Seminar in Critical Reading and Writing course (WRIT 102 (<https://catalog.uwec.edu/search/?P=WRIT%20102>), WRIT 114 (<https://catalog.uwec.edu/search/?P=WRIT%20114>), WRIT 116 (<https://catalog.uwec.edu/search/?P=WRIT%20116>), WRIT 118 (<https://catalog.uwec.edu/search/?P=WRIT%20118>), or WRIT 120 (<https://catalog.uwec.edu/search/?P=WRIT%20120>)) with a grade of C (not C-) or above
 - achieving a suitable score on the English Placement Test (<https://www.uwec.edu/academics/blugold-seminar/writ-courses-placement/>) (WPT ENGL)
 - achieving a suitable score on an exam such as the Advanced Placement English Literature and Composition or Advanced Placement English Language and Composition exams
 - achieving a suitable score on the University Writing Program Portfolio.

³ **Completion via Placement Tests**

- Writing: If the CL-W subcategory is satisfied through a placement test, the CGER Communication and Literacy requirement will be reduced from 8 credits (2 courses) to 3 credits (1 course).
- Mathematics: If the University Math Requirement is satisfied through a placement test, the CGER Mathematics & Quantitative Reasoning requirement will be considered fully met, replacing the 4-credit (1 course) requirement.
- Students must still complete 36 credits across 10 courses, with any remaining credits or courses eligible to be taken from any CGER category.

College Degree Requirements

Bachelor of Arts or Bachelor of Science Degree (B.A./B.S.)

University Graduation Requirements. All candidates for degrees must fulfill the requirements for credits, curriculum, GPA, and University residency as specified in the section of this catalog titled University Graduation Requirements.

College Graduation Requirements: Grade Point Averages. All candidates for degrees in the College of Arts and Sciences must earn minimum resident and total GPAs of 2.00 in the major, the minor, and the certificate. The resident and total GPAs for the major are computed using all attempted credits applicable to the major including those offered by departments other than the major department. The resident and total GPAs for the minor and the certificate are computed similarly.

Major-Minor and Major-Certificate Requirements. A standard major (a minimum of 36 credits) must be supplemented by a minor (a minimum of 24 credits) or by a certificate (12 to 18 credits) to meet graduation requirements for completing a first and second degree program. No minor or certificate is required with a Comprehensive Major (60 or more credits) or with two majors of 36 or more credits each.

Certain degree programs, which include Comprehensive Majors, may require more than the minimum of 120 credits for graduation.

Acceptable academic program combinations are determined at the college level. A major and a minor or a major and certificate or two majors (if available) may not be elected in the same department or program, except in the approved combinations listed here.

College Credits. Earn at least 90 credits in courses offered by the College of Arts and Sciences.

Bachelor of Arts Degree in the College of Arts and Sciences (B.A.)

Fulfillment of all University Graduation Requirements (which includes the Core General Education Requirements); all College-level degree requirements (major and minor/certificate emphases, GPAs, earning at least 90 credits in Arts and Sciences course work); second language competency at the 102 level. Second language competency may be met in one of two ways: (1) Demonstrate a level of second language competency that qualifies the student to enter the 201-level course in a second language. (2) Earn a grade of at least C (not C-) or a mark of S in a 102-level second language course (or AIS 112 or AIS 122 or SLHS 103).

Bachelor of Science Degree in the College of Arts and Sciences (B.S.)

Fulfillment of all University Graduation Requirements (which includes the Core General Education Requirements); all College-level degree requirements (major and minor/certificate emphases, GPAs, earning at least 90 credits in Arts and Sciences course work); mathematics competency at the MATH 111, MATH 112 or MATH 113 level. Mathematics competency can be met in one of three ways: (1) Achieve a score on the mathematics placement test that qualifies the student to enter MATH 114. (2) Earn a grade of at least C (not C-) or a mark of S in MATH 111, MATH 112, or MATH 113. (3) Achieve a satisfactory score on the MATH 112 competency test. This test may be attempted no more than two times.

Major Requirements

Liberal Arts (Code 540-212)

Code	Title	Credits
Thirty-eight semester credits, including:		
Core (11 credits)		
ENGL 210	Introduction to Critical Studies	5
ENGL 221	Introductory English Linguistics	3
ENGL 284	Introduction to Theory and Criticism	3
Emphasis Requirements		
At least one course from three of the following areas (15 credits):		
British literature/culture course before 1790		
British literature/culture course after 1790		
American literature/culture course before 1865		
American literature/culture course after 1865		
World/Post-Colonial literature/culture		
American Ethnic literature/culture		
Women's literature/culture		
Theory, Film, and Popular Culture Studies		
Additional Elective Credits in English (12 credits)		

A minimum of six of these credits must come from any of the above areas; the remaining six credits may come from any ENGL course or AIS 142 or THEA 318.

NOTE 1: Up to six credits may come from the 100- or 200-level, with no more than three credits from AIS 142, ENGL 122, ENGL 130, ENGL 150, and ENGL 181.

NOTE 2: At least nine credits must be taken at the 400-level.

NOTE 3: Students will need to earn at least 48 unique credits between any approved English program combinations for purposes of meeting graduation requirements for first and second degree programs.

Program Learning Outcomes

Students completing this program will be expected to meet the following learning outcomes:

Outcomes for all English Programs

- Read and interpret text from a variety of critical perspectives.
- Write effectively for different purposes and audiences.
- Plan, conduct, and document research using appropriate sources.
- Describe the dynamic nature, diversity, and structure of the English language.

Outcomes for Critical Studies Emphasis

- Read and interpret literatures, cultures, and film from a variety of historical periods and genres.
- Critique literatures, cultures, and film from a variety of theoretical perspectives.
- Intervene and judge where power is constructed and mobilized

English, Critical Studies In Literatures, Cultures, and Film Emphasis, Major, B.A.

The following is a sample degree plan, based on the current catalog. It is based on the 120-credit graduation requirement and assumes no transferred credits, no requirements waived by placement tests, no courses taken in the summer or winter, no repeated courses, and no remedial courses that may be required. This sample degree plan is intended for first-year students entering UW-Eau Claire in the fall semester. Your own degree plan may differ depending on the course of study selected (second major, minor, etc.). UW-Eau Claire cannot guarantee all courses will be offered as shown, but will provide a range of courses that may enable prepared students to fulfill their requirements in a timely period. This sample degree plan is just a guide. Please consult your advisor, your degree audit, and the catalog to create your own degree plan. Note: In order to earn the required minimum of 120 credits for the degree in four years, you should plan to take 15 credits each semester or 30 credits each year.

To earn a degree, students must fulfill all University Graduation Requirements, including the Core General Education Requirements (CGER). CGER course work in the following sample degree plan uses abbreviations such as CGER CL, CGER HA, and CGER NSWL to represent the learning outcomes students will meet via

completion of the course. Please click [here](#) for a description of the outcomes and requirements.

Students in this major have the option to pursue either a Bachelor of Arts (B.A.) or a Bachelor of Science (B.S.) degree. The degrees are distinguished by second language competency for the B.A. and a higher level of mathematics competency for the B.S.

FIRST YEAR

FIRST SEMESTER		
WRIT 114	Intensive Blugold Seminar in Critical Reading and Writing (CGER CL)	5
OR		
WRIT 116	Blugold Seminar in Critical Reading and Writing (CGER CL)

Elective	3
TOTAL	15

Minimum total for the baccalaureate degree = 120 credits

RECOMMENDATIONS FOR HIGH IMPACT PRACTICES (HIPs)

The University of Wisconsin-Eau Claire encourages all students to participate in High Impact Practices. The following information identifies any specific recommendations that faculty in this major have concerning which HIPs might be most beneficial to students, and any recommendations about when those HIPs best fit into the degree plan. Students should also consult their faculty advisor for information on HIPs. There are many additional high impact opportunities available. Talk to your academic advisor for more information about incorporating HIPs like Study Abroad (<https://studyabroad.apps.uwec.edu/>), Intercultural Immersion (<https://www.uwec.edu/immersion/>), Internship (<https://www.uwec.edu/offices-services/advising-retention-career-center/career-services/internship/job-searching-and/>), and/or Student/Faculty Collaborative Research (<https://www.uwec.edu/offices-services/office-research-and-sponsored-programs/getting-involved-student-faculty-research/>) into your time at UW-Eau Claire.

Core General Education Requirements (CGER)

Core General Education Requirements (CGER)

The Core General Education Requirements (CGER) includes a minimum of 10 courses across 6 categories. Students must complete a minimum of 36 credits in courses approved for the CGER Core.

- Mathematics & Quantitative Reasoning (MQR) - 4 credits, one course minimum
 - Includes the University Mathematics Requirement¹
- Communication & Literacy (CL) - 8 credits, two courses minimum
 - Includes the University Writing Requirement (CL-W)²
- Natural Sciences & Wellness (NSW/NSWL) - 6 credits, one course minimum (NSW-Lab required)
- Social & Behavioral Sciences (SBS) - 6 credits, two courses minimum
- Humanities & Arts (HA) - 6 credits, two courses minimum
- Civics & Perspectives (CP) - 6 credits, two courses minimum

¹ University Mathematics Requirement:

Students satisfy the University Mathematics Requirement in one of four ways:

- completing an approved university-level mathematics course (MQR) with a grade of C (not C-) or above
- achieving a suitable score on the UW Math Placement Test (<https://www.uwec.edu/academics/academic-support/advising/testing/placement-testing/>)
- achieving a suitable score on an exam such as the Advanced Placement Calculus or Advanced Placement Statistics exams
- achieving a suitable score on a Credit by Examination administered by the Department of Mathematics.

² University Writing Requirement:

Students satisfy the University Writing Requirement in one of four ways:

- completing a Blugold Seminar in Critical Reading and Writing course (WRIT 102 (<https://catalog.uwec.edu/search/?P=WRIT%20102>), WRIT 114 (<https://catalog.uwec.edu/search/?P=WRIT%20114>), WRIT 116 (<https://catalog.uwec.edu/search/?P=WRIT%20116>), WRIT 118 (<https://catalog.uwec.edu/search/?P=WRIT%20118>), or WRIT 120 (<https://catalog.uwec.edu/search/?P=WRIT%20120>)) with a grade of C (not C-) or above
- achieving a suitable score on the English Placement Test (<https://www.uwec.edu/academics/blugold-seminar/writ-courses-placement/>) (WPT ENGL)
- achieving a suitable score on an exam such as the Advanced Placement English Literature and Composition or Advanced Placement English Language and Composition exams
- achieving a suitable score on the University Writing Program Portfolio.

Completion via Placement Test

- Writing: If the CL-W subcategory is satisfied through a placement test, the CGER Communication and Literacy requirement will be reduced from 8 credits (2 courses) to 3 credits (1 course).
- Mathematics: If the University Math Requirement is satisfied through a placement test, the CGER Mathematics & Quantitative Reasoning requirement will be considered fully met, replacing the 4-credit (1 course) requirement.
- Students must still complete 36 credits across 10 courses, with any remaining credits or courses eligible to be taken from any CGER category.

English, Critical Studies in Literatures, Cultures, and Film, Certificate

(Code 540-601)

Code	Title	Credits
Seventeen semester credits, including:		
ENGL 210	Introduction to Critical Studies	5
ENGL 284	Introduction to Theory and Criticism	3
Nine credits of literature/culture/theory/film (no more than three credits at the 100- or 200-level and at least three credits at the 400-level)		9

Note: Students will need to earn at least 48 unique credits between any approved English program combinations and for other program combinations

where course work overlaps for purposes of meeting graduation requirements for first and second degree programs.

English, Linguistics, Major

Liberal Arts (Code 540-205)

University Requirements

GRADUATION REQUIREMENTS FOR BACCALAUREATE DEGREE

Credit Requirements	
Minimum total for graduation ¹	120
Upper division credits (courses numbered 300 and higher)	39
Core General Education	10 courses, 36 credits

Academic Concentrations

Grade Point Requirements ²

Total	2.00 average
Resident	2.00 average
Major	2.00 average
Minor	2.00 average
Certificate	2.00 average

University Residency Requirements

Minimum total	30
Senior year	23
Major, Standard, upper division in residence	12
Major, Comprehensive, upper division in residence	21
Certificate	25 percent of credits

Procedures Required for Graduation

Obtain admission to the degree program and/or the College offering it.

Apply for graduation on CampS.

¹ Certain programs exceed this minimum.

² See special requirements in each College.

Applicability of Credits Toward Graduation

Junior College or Two-Year College Credits. A maximum of 72 semester credits earned in a junior college or two-year college will be accepted as degree credits at UW-Eau Claire.

Extension Credits. Credits earned in credit outreach courses offered by UW-Eau Claire are treated as resident credits. Credits earned in extension courses offered by other units of the Universities of Wisconsin System are treated as transfer credits. All other (non-UW) extension and correspondence credits are normally limited to one-fourth of the total required for graduation from any curriculum.

WTCS Credits. A maximum of 72 semester credits earned in college parallel programs at Madison Area Technical College, Milwaukee Area Technical College, Nicolet Area Technical College, or Chippewa Valley Technical College may be accepted as degree credits at UW-Eau Claire. A set number of general education courses will be accepted from other technical schools. Occupational and technical courses may also be considered for transfer if the quality and content of the course work from the technical college is judged to be comparable to course work at UW-Eau Claire. Refer to the Transfer Credit Wizard (https://www.uwec.sis.wisconsin.edu/psp/eauprd-tb/EMPLOYEE/SA/c/EAU_SS_CUSTOM.EAU_TRNCRDWZ.GBL) or contact the UW-Eau Claire Admissions Office for information about the current transfer policy.

USAFI Credit. UW-Eau Claire will accept up to 32 semester credits for work done through the United States Armed Forces Institute, under the provision for non-UW correspondence credit (see Extension Credits above).

Activity Credit (band, chorus, drama, KINS 100-184 courses) Students may count toward graduation no more than one credit of KINS 110-184 courses. Students may count toward graduation no more than four credits earned in any single activity course and no more than 12 credits resulting from any combination of activity courses (excluding KINS 110-184 courses).

Other Restricted Credits. For other University restrictions, see the following: Cooperative Education; Credit by Examination; Satisfactory/Unsatisfactory Registration; Transfer of Credits. College or departmental restrictions may also be placed on Independent Study (399-499 courses), Directed Study (395-495), and other types of credits.

APPLICABILITY OF CREDITS TOWARD GRADUATION

	Credit Restrictions
Satisfactory/Unsatisfactory	
Total degree credit	maximum 12
Major, Standard	maximum 1 course
Major, Comprehensive	maximum 2 courses
Minor	maximum 1 course
Credit by Examination	
Total degree credit	maximum ¼ of total
Major or minor	maximum ½ of total
Two-Year College Credits	
Total degree credit	maximum 72 credits
Activity credit (band, chorus, drama, KINS 100-184)	
Total KINS 100-184	maximum 1 credit

Total Band, chorus, drama	maximum 12 credits
Single course band, chorus, drama	maximum 4 credits
Extension credits	
UW-System	no maximum
Other extension/correspondence	maximum ¼ of total
USAFI	
USAFI	maximum 32 credits

Core General Education Requirements (CGER)

CGER Categories

Mathematics & Quantitative Reasoning (MQR) (http://catalog.uwec.edu/undergraduate/outcome-mqr/)	4 credit hours, 1 course min
Includes University Math Requirement ¹	
Communication & Literacy (CL) (http://catalog.uwec.edu/undergraduate/outcome-cl/)	8 credit hours, 2 course min (including CL-W)
Includes University Writing Requirement (CL-W) (http://catalog.uwec.edu/undergraduate/outcome-clw/) ²	
Natural Sciences & Wellness (NSW/NSWL) (http://catalog.uwec.edu/undergraduate/outcome-NSW/)	6 credit hours, 1 course min (NSW-Lab required)
Social & Behavioral Sciences (SBS) (https://catalog.uwec.edu/undergraduate/outcome-sbs/)	6 credit hours, 2 course min
Humanities & Arts (HA) (http://catalog.uwec.edu/undergraduate/outcome-ha/)	6 credit hours, 2 course min
Civics & Perspectives (CP) (http://catalog.uwec.edu/undergraduate/outcome-cp/)	6 credit hours, 2 course min
CGER Totals ³	
Credits	minimum 36 credits
Courses	minimum 10 courses

¹ University Mathematics Requirement:

Students satisfy the University Mathematics Requirement in one of four ways:

- completing an approved university-level mathematics course (MQR) with a grade of C (not C-) or above
- achieving a suitable score on the UW Math Placement Test (<https://www.uwec.edu/academics/academic-support/advising/testing/placement-testing/>)
- achieving a suitable score on an exam such as the Advanced Placement Calculus or Advanced Placement Statistics exams
- achieving a suitable score on a Credit by Examination administered by the Department of Mathematics.

² University Writing Requirement:

Students satisfy the University Writing Requirement in one of four ways:

- completing a Blugold Seminar in Critical Reading and Writing course (WRIT 102 (<https://catalog.uwec.edu/search/?P=WRIT%20102>), WRIT 114 (<https://catalog.uwec.edu/search/?P=WRIT%20114>), WRIT 116 (<https://catalog.uwec.edu/search/?P=WRIT%20116>), WRIT 118 (<https://catalog.uwec.edu/search/?P=WRIT%20118>))

- catalog.uwec.edu/search/?P=WRIT%20118), or WRIT 120 (<https://catalog.uwec.edu/search/?P=WRIT%20120>) with a grade of C (not C-) or above
- achieving a suitable score on the English Placement Test (<https://www.uwec.edu/academics/blugold-seminar/writ-courses-placement/>) (WPT ENGL)
 - achieving a suitable score on an exam such as the Advanced Placement English Literature and Composition or Advanced Placement English Language and Composition exams
 - achieving a suitable score on the University Writing Program Portfolio.

3 **Completion via Placement Tests**

- Writing: If the CL-W subcategory is satisfied through a placement test, the CGER Communication and Literacy requirement will be reduced from 8 credits (2 courses) to 3 credits (1 course).
- Mathematics: If the University Math Requirement is satisfied through a placement test, the CGER Mathematics & Quantitative Reasoning requirement will be considered fully met, replacing the 4-credit (1 course) requirement.
- Students must still complete 36 credits across 10 courses, with any remaining credits or courses eligible to be taken from any CGER category.

College Degree Requirements

Bachelor of Arts or Bachelor of Science Degree (B.A./B.S.)

University Graduation Requirements. All candidates for degrees must fulfill the requirements for credits, curriculum, GPA, and University residency as specified in the section of this catalog titled University Graduation Requirements.

College Graduation Requirements: Grade Point Averages. All candidates for degrees in the College of Arts and Sciences must earn minimum resident and total GPAs of 2.00 in the major, the minor, and the certificate. The resident and total GPAs for the major are computed using all attempted credits applicable to the major including those offered by departments other than the major department. The resident and total GPAs for the minor and the certificate are computed similarly.

Major-Minor and Major-Certificate Requirements. A standard major (a minimum of 36 credits) must be supplemented by a minor (a minimum of 24 credits) or by a certificate (12 to 18 credits) to meet graduation requirements for completing a first and second degree program. No minor or certificate is required with a Comprehensive Major (60 or more credits) or with two majors of 36 or more credits each.

Certain degree programs, which include Comprehensive Majors, may require more than the minimum of 120 credits for graduation.

Acceptable academic program combinations are determined at the college level. A major and a minor or a major and certificate or two majors (if available) may not be elected in the same department or program, except in the approved combinations listed here.

College Credits. Earn at least 90 credits in courses offered by the College of Arts and Sciences.

Bachelor of Arts Degree in the College of Arts and Sciences (B.A.)

Fulfillment of all University Graduation Requirements (which includes the Core General Education Requirements); all College-level degree requirements (major and minor/certificate emphases, GPAs, earning at least 90 credits in Arts and

Sciences course work); second language competency at the 102 level. Second language competency may be met in one of two ways: (1) Demonstrate a level of second language competency that qualifies the student to enter the 201-level course in a second language. (2) Earn a grade of at least C (not C-) or a mark of S in a 102-level second language course (or AIS 112 or AIS 122 or SLHS 103).

Bachelor of Science Degree in the College of Arts and Sciences (B.S.)

Fulfillment of all University Graduation Requirements (which includes the Core General Education Requirements); all College-level degree requirements (major and minor/certificate emphases, GPAs, earning at least 90 credits in Arts and Sciences course work); mathematics competency at the MATH 111, MATH 112 or MATH 113 level. Mathematics competency can be met in one of three ways:

(1) Achieve a score on the mathematics placement test that qualifies the student to enter MATH 114. (2) Earn a grade of at least C (not C-) or a mark of S in MATH 111, MATH 112, or MATH 113. (3) Achieve a satisfactory score on the MATH 112 competency test. This test may be attempted no more than two times.

Major Requirements

Liberal Arts (Code 540-205)

Code	Title	Credits
Thirty-six semester credits, including:		
Core (11 credits)		
ENGL 210	Introduction to Critical Studies	5
ENGL 221	Introductory English Linguistics	3
ENGL 284	Introduction to Theory and Criticism	3
Emphasis Requirements		
Six linguistics courses		
Required (at least one iteration of each of these three courses):		
ENGL 321	Topics in the Structure of English ¹	3
ENGL 325	Topics in Language in Society ¹	3
ENGL 421	Seminar in Linguistic Research ¹	3
Elective options:		8
ANTH 315	Language in Culture and Society	
ENGL 122	The Study of Language	
FLG 365	Special Topics in Teaching English to Speakers of Other Languages	
FLG 378	Second Language Acquisition Theory	
PHIL 250	Symbolic Logic	
PHIL 322	Philosophy of Language	
SLHS 257	Language Development	
SLHS 262	Phonetics: Theory and Application	

Literature/Culture Requirements	
Three literature/culture courses, including at least:	9
One literature/culture course at the 300- or 400-level	
No more than one literature/culture course at the 100-level	

¹ Additional iterations of ENGL 321, ENGL 325, and ENGL 421 with a different topic may be counted in Elective options.

NOTE 1: No more than six credits from the 100- or 200-level, with no more than three credits from AIS 142, ENGL 122, ENGL 130, ENGL 150, or ENGL 181.

NOTE 2: Students will need to earn at least 48 unique credits between any approved English program combinations for purposes of meeting graduation requirements for first and second degree programs.

NOTE 3: Students pursuing the English, Linguistics major and the Bilingual-Bicultural Education certificate to meet graduation requirements for completing a first and second degree program must earn a minimum of 48 unique credits between the major and the certificate.

Program Learning Outcomes

Students completing this program will be expected to meet the following learning outcomes:

Outcomes for all English Majors

- Read and interpret text from a variety of critical perspectives.
- Write effectively for different purposes and audiences.
- Plan, conduct, and document research using appropriate sources.
- Describe the dynamic nature, diversity, and structure of the English language.

Outcomes for Linguistics Emphasis

- Analyze linguistic data to form and test hypotheses in one or more of the following areas of linguistic structure: Sounds (phonology), Words (morphology), Sentences (syntax), Meanings (semantics)
- Apply knowledge of linguistics (broadly defined) to issues relating to the use of language.

English, Linguistics, Major, B.A.

The following is a sample degree plan, based on the current catalog. It is based on the 120-credit graduation requirement and assumes no transferred credits, no requirements waived by placement tests, no courses taken in the summer or winter, no repeated courses, and no remedial courses that may be required. This sample degree plan is intended for first-year students entering UW-Eau Claire in the fall semester. Your own degree plan may differ depending on the course of study selected (second major, minor, etc.). UW-Eau Claire cannot guarantee all courses will be offered as shown, but will provide a range of courses that may enable prepared students to fulfill their requirements in a timely period. This sample degree plan is just a guide. Please consult your advisor, your degree audit, and the catalog to create your own degree plan. *Note:* In order to earn the required minimum of 120 credits for the degree in four years, you should plan to take 15 credits each semester or 30 credits each year.

To earn a degree, students must fulfill all University Graduation Requirements, including the Core General Education Requirements (CGER). CGER course work in the following sample degree plan uses abbreviations such as CGER CL, CGER HA, and CGER NSWL to represent the learning outcomes students will meet via completion of the course. Please click here for a description of the outcomes and requirements.

Students in this major have the option to pursue either a Bachelor of Arts (B.A.) or a Bachelor of Science (B.S.) degree. The degrees are distinguished by second language competency for the B.A. and a higher level of mathematics competency for the B.S.

SOME TIME IN THE FIRST YEAR

WRIT 114	Intensive Blugold Seminar in Critical Reading and Writing (CGER CL)	5

OR

WRIT 116	Blugold Seminar in Critical Reading and Writing (CGER CL)

RECOMMENDATIONS FOR HIGH IMPACT PRACTICES (HIPs)

The University of Wisconsin-Eau Claire encourages all students to participate in High Impact Practices. The following information identifies any specific recommendations that faculty in this major have concerning which HIPs might be most beneficial to students, and any recommendations about when those HIPs best fit into the degree plan. Students should also consult their faculty advisor for information on HIPs. There are many additional high impact opportunities available. Talk to your academic advisor for more information about incorporating HIPs like Study Abroad, Intercultural Immersion, Internship, and/or Student/Faculty Collaborative Research into your time at UW-Eau Claire.

Core General Education Requirements (CGER)

Core General Education Requirements (CGER)

The Core General Education Requirements (CGER) includes a minimum of 10 courses across 6 categories. Students must complete a minimum of 36 credits in courses approved for the CGER Core.

- Mathematics & Quantitative Reasoning (MQR) - 4 credits, one course minimum
 - Includes the University Mathematics Requirement¹
- Communication & Literacy (CL) - 8 credits, two courses minimum
 - Includes the University Writing Requirement (CL-W)²
- Natural Sciences & Wellness (NSW/NSWL) - 6 credits, one course minimum (NSW-Lab required)
- Social & Behavioral Sciences (SBS) - 6 credits, two courses minimum
- Humanities & Arts (HA) - 6 credits, two courses minimum
- Civics & Perspectives (CP) - 6 credits, two courses minimum

¹ University Mathematics Requirement:

Students satisfy the University Mathematics Requirement in one of four ways:

- completing an approved university-level mathematics course (MQR) with a grade of C (not C-) or above
- achieving a suitable score on the UW Math Placement Test (<https://www.uwec.edu/academics/academic-support/advising/testing/placement-testing/>)
- achieving a suitable score on an exam such as the Advanced Placement Calculus or Advanced Placement Statistics exams

- achieving a suitable score on a Credit by Examination administered by the Department of Mathematics.

² University Writing Requirement:

Students satisfy the University Writing Requirement in one of four ways:

- completing a Blugold Seminar in Critical Reading and Writing course (WRIT 102 (<https://catalog.uwec.edu/search/?P=WRIT%20102>), WRIT 114 (<https://catalog.uwec.edu/search/?P=WRIT%20114>), WRIT 116 (<https://catalog.uwec.edu/search/?P=WRIT%20116>), WRIT 118 (<https://catalog.uwec.edu/search/?P=WRIT%20118>), or WRIT 120 (<https://catalog.uwec.edu/search/?P=WRIT%20120>)) with a grade of C (not C-) or above
- achieving a suitable score on the English Placement Test (<https://www.uwec.edu/academics/blugold-seminar/writ-courses-placement/>) (WPT ENGL)
- achieving a suitable score on an exam such as the Advanced Placement English Literature and Composition or Advanced Placement English Language and Composition exams
- achieving a suitable score on the University Writing Program Portfolio.

Completion via Placement Test

- Writing: If the CL-W subcategory is satisfied through a placement test, the CGER Communication and Literacy requirement will be reduced from 8 credits (2 courses) to 3 credits (1 course).
- Mathematics: If the University Math Requirement is satisfied through a placement test, the CGER Mathematics & Quantitative Reasoning requirement will be considered fully met, replacing the 4-credit (1 course) requirement.
- Students must still complete 36 credits across 10 courses, with any remaining credits or courses eligible to be taken from any CGER category.

English, Rhetorics of Science, Technology, and Culture Emphasis, Major

Liberal Arts (Code 540-211)

University Requirements

GRADUATION REQUIREMENTS FOR BACCALAUREATE DEGREE

Credit Requirements	
Minimum total for graduation ¹	120
Upper division credits (courses numbered 300 and higher)	39
Core General Education	10 courses, 36 credits

Academic Concentrations	
Grade Point Requirements ²	
Total	2.00 average
Resident	2.00 average
Major	2.00 average
Minor	2.00 average
Certificate	2.00 average

University Residency Requirements

Minimum total	30
Senior year	23
Major, Standard, upper division in residence	12

Major, Comprehensive, upper division in residence	21
Certificate	25 percent of credits

Procedures Required for Graduation

Obtain admission to the degree program and/or the College offering it.

Apply for graduation on CampS.

¹ Certain programs exceed this minimum.

² See special requirements in each College.

Applicability of Credits Toward Graduation

Junior College or Two-Year College Credits. A maximum of 72 semester credits earned in a junior college or two-year college will be accepted as degree credits at UW-Eau Claire.

Extension Credits. Credits earned in credit outreach courses offered by UW-Eau Claire are treated as resident credits. Credits earned in extension courses offered by other units of the Universities of Wisconsin System are treated as transfer credits. All other (non-UW) extension and correspondence credits are normally limited to one-fourth of the total required for graduation from any curriculum.

WTCS Credits. A maximum of 72 semester credits earned in college parallel programs at Madison Area Technical College, Milwaukee Area Technical College, Nicolet Area Technical College, or Chippewa Valley Technical College may be accepted as degree credits at UW-Eau Claire. A set number of general education courses will be accepted from other technical schools. Occupational and technical courses may also be considered for transfer if the quality and content of the course work from the technical college is judged to be comparable to course work at UW-Eau Claire. Refer to the Transfer Credit Wizard (https://www.uwec.sis.wisconsin.edu/psp/eauprd-tb/EMPLOYEE/SA/c/EAU_SS_CUSTOM.EAU_TRNCRDWZ.GBL) or contact the UW-Eau Claire Admissions Office for information about the current transfer policy.

USAFI Credit. UW-Eau Claire will accept up to 32 semester credits for work done through the United States Armed Forces Institute, under the provision for non-UW correspondence credit (see Extension Credits above).

Activity Credit (band, chorus, drama, KINS 100-184 courses) Students may count toward graduation no more than one credit of KINS 110-184 courses. Students may count toward graduation no more than four credits earned in any single activity course and no more than 12 credits resulting from any combination of activity courses (excluding KINS 110-184 courses).

Other Restricted Credits. For other University restrictions, see the following: Cooperative Education; Credit by Examination; Satisfactory/Unsatisfactory Registration; Transfer of Credits. College or departmental restrictions may also be placed on Independent Study (399-499 courses), Directed Study (395-495), and other types of credits.

APPLICABILITY OF CREDITS TOWARD GRADUATION	Credit Restrictions
Satisfactory/Unsatisfactory	
Total degree credit	maximum 12
Major, Standard	maximum 1 course
Major, Comprehensive	maximum 2 courses

Minor	maximum 1 course

Credit by Examination

Total degree credit	maximum ¼ of total
Major or minor	maximum ½ of total

Two-Year College Credits

Total degree credit	maximum 72 credits

Activity credit (band, chorus, drama, KINS 100-184)

Total KINS 100-184	maximum 1 credit
Total Band, chorus, drama	maximum 12 credits
Single course band, chorus, drama	maximum 4 credits

Extension credits

UW-System	no maximum
Other extension/correspondence	maximum ¼ of total

USAFI

USAFI	maximum 32 credits

 - achieving a suitable score on the University Writing Program Portfolio.

³ **Completion via Placement Tests**

- Writing: If the CL-W subcategory is satisfied through a placement test, the CGER Communication and Literacy requirement will be reduced from 8 credits (2 courses) to 3 credits (1 course).
- Mathematics: If the University Math Requirement is satisfied through a placement test, the CGER Mathematics & Quantitative Reasoning requirement will be considered fully met, replacing the 4-credit (1 course) requirement.
- Students must still complete 36 credits across 10 courses, with any remaining credits or courses eligible to be taken from any CGER category.

College Degree Requirements

Bachelor of Arts or Bachelor of Science Degree (B.A./B.S.)

University Graduation Requirements. All candidates for degrees must fulfill the requirements for credits, curriculum, GPA, and University residency as specified in the section of this catalog titled University Graduation Requirements.

College Graduation Requirements: Grade Point Averages. All candidates for degrees in the College of Arts and Sciences must earn minimum resident and total GPAs of 2.00 in the major, the minor, and the certificate. The resident and total GPAs for the major are computed using all attempted credits applicable to the major including those offered by departments other than the major department. The resident and total GPAs for the minor and the certificate are computed similarly.

Major-Minor and Major-Certificate Requirements. A standard major (a minimum of 36 credits) must be supplemented by a minor (a minimum of 24 credits) or by a certificate (12 to 18 credits) to meet graduation requirements for completing a first and second degree program. No minor or certificate is

required with a Comprehensive Major (60 or more credits) or with two majors of 36 or more credits each.

Certain degree programs, which include Comprehensive Majors, may require more than the minimum of 120 credits for graduation.

Acceptable academic program combinations are determined at the college level. A major and a minor or a major and certificate or two majors (if available) may not be elected in the same department or program, except in the approved combinations listed here.

College Credits. Earn at least 90 credits in courses offered by the College of Arts and Sciences.

Bachelor of Arts Degree in the College of Arts and Sciences (B.A.)

Fulfillment of all University Graduation Requirements (which includes the Core General Education Requirements); all College-level degree requirements (major and minor/certificate emphases, GPAs, earning at least 90 credits in Arts and Sciences course work); second language competency at the 102 level. Second language competency may be met in one of two ways: (1) Demonstrate a level of second language competency that qualifies the student to enter the 201-level course in a second language. (2) Earn a grade of at least C (not C-) or a mark of S in a 102-level second language course (or AIS 112 or AIS 122 or SLHS 103).

Bachelor of Science Degree in the College of Arts and Sciences (B.S.)

Fulfillment of all University Graduation Requirements (which includes the Core General Education Requirements); all College-level degree requirements (major and minor/certificate emphases, GPAs, earning at least 90 credits in Arts and Sciences course work); mathematics competency at the MATH 111, MATH 112 or MATH 113 level. Mathematics competency can be met in one of three ways: (1) Achieve a score on the mathematics placement test that qualifies the student to enter MATH 114. (2) Earn a grade of at least C (not C-) or a mark of S in MATH 111, MATH 112, or MATH 113. (3) Achieve a satisfactory score on the MATH 112 competency test. This test may be attempted no more than two times.

Major Requirements

Liberal Arts (Code 540-211)

Code	Title	Credits
Thirty-six semester credits, including:		
Core (11 credits)		
ENGL 210	Introduction to Critical Studies	5
ENGL 221	Introductory English Linguistics	3
ENGL 284	Introduction to Theory and Criticism	3
Emphasis Requirements		
ENGL 212	Histories and Theories of Rhetoric	3
ENGL 455	Seminar in Rhetorics of Science, Technology, and Culture	3
Twelve credits from:		12
ENGL 307	Editing and Publications Management	
ENGL 312	Science Writing	
ENGL 313	Technical Writing	
ENGL 314	Cultural Rhetorics	
ENGL 315	Visual Rhetorics of Science, Technology, and Culture	
ENGL 316	Rhetorics of Social Justice	

ENGL 409	Grant Proposal Writing	
ENGL 498	Internship in Writing	
or three credits outside the department with advisor approval		
Literature/Culture Requirements		
Nine credits of literature/culture ¹		9

¹ No more than six credits from the 100- or 200-level, with no more than three credits from AIS 142, ENGL 130, ENGL 150, or ENGL 181; no fewer than three credits from the 300- or 400-level.

Note: Students will need to earn at least 48 unique credits between any approved English program combinations for purposes of meeting graduation requirements for first and second degree programs.

Program Learning Outcomes

Students completing this program will be expected to meet the following learning outcomes:

Outcomes for all English Programs

- Read and interpret text from a variety of critical perspectives.
- Write effectively for different purposes and audiences.
- Plan, conduct, and document research using appropriate sources.
- Describe the dynamic nature, diversity, and structure of the English language.

Outcomes for Rhetorics of Science, Technology, and Culture Emphasis

- Rhetorically analyze complex scientific, technological, and cultural texts and contexts.
- Produce texts that effectively address scientific, technological, and cultural issues.

English, Rhetorics of Science, Technology, and Culture Emphasis, Major, B.A.

The following is a sample degree plan, based on the current catalog. It is based on the 120-credit graduation requirement and assumes no transferred credits, no requirements waived by placement tests, no courses taken in the summer or winter, no repeated courses, and no remedial courses that may be required. This sample degree plan is intended for first-year students entering UW-Eau Claire in the fall semester. Your own degree plan may differ depending on the course of study selected (second major, minor, etc.). UW-Eau Claire cannot guarantee all courses will be offered as shown, but will provide a range of courses that may enable prepared students to fulfill their requirements in a timely period. This sample degree plan is just a guide. Please consult your advisor, your degree audit, and the catalog to create your own degree plan. *Note:* In order to earn the required minimum of 120 credits for the degree in four years, you should plan to take 15 credits each semester or 30 credits each year.

To earn a degree, students must fulfill all University Graduation Requirements, including the Core General Education Requirements (CGER). CGER course work in the following sample degree plan uses abbreviations such as CGER CL, CGER

HA, and CGER NSWL to represent the learning outcomes students will meet via completion of the course. Please click [here](#) for a description of the outcomes and requirements.

Students in this major have the option to pursue either a Bachelor of Arts (B.A.) or a Bachelor of Science (B.S.) degree. The degrees are distinguished by second language competency for the B.A. and a higher level of mathematics competency for the B.S.

Minimum total for the baccalaureate degree = 120 credits**RECOMMENDATIONS FOR HIGH IMPACT PRACTICES (HIPs)**

The University of Wisconsin-Eau Claire encourages all students to participate in High Impact Practices. The following information identifies any specific recommendations that faculty in this major have concerning which HIPs might be most beneficial to students, and any recommendations about when those HIPs best fit into the degree plan. Students should also consult their faculty advisor for information on HIPs. There are many additional high impact opportunities available. Talk to your academic advisor for more information about incorporating HIPs like Study Abroad (<https://studyabroad.apps.uwec.edu/>), Intercultural Immersion (<https://www.uwec.edu/immersion/>), Internship (<https://www.uwec.edu/offices-services/advising-retention-career-center/career-services/internship/job-searching-and/>), and/or Student/Faculty Collaborative Research (<https://www.uwec.edu/offices-services/office-research-and-sponsored-programs/getting-involved-student-faculty-research/>) into your time at UW-Eau Claire.

Core General Education Requirements (CGER)

Core General Education Requirements (CGER)

The Core General Education Requirements (CGER) includes a minimum of 10 courses across 6 categories. Students must complete a minimum of 36 credits in courses approved for the CGER Core.

- Mathematics & Quantitative Reasoning (MQR) - 4 credits, one course minimum
 - Includes the University Mathematics Requirement¹
- Communication & Literacy (CL) - 8 credits, two courses minimum
 - Includes the University Writing Requirement (CL-W)²
- Natural Sciences & Wellness (NSW/NSWL) - 6 credits, one course minimum (NSW-Lab required)
- Social & Behavioral Sciences (SBS) - 6 credits, two courses minimum
- Humanities & Arts (HA) - 6 credits, two courses minimum
- Civics & Perspectives (CP) - 6 credits, two courses minimum

¹ **University Mathematics Requirement:**

Students satisfy the University Mathematics Requirement in one of four ways:

- completing an approved university-level mathematics course (MQR) with a grade of C (not C-) or above
- achieving a suitable score on the UW Math Placement Test (<https://www.uwec.edu/academics/academic-support/advising/testing/placement-testing/>)
- achieving a suitable score on an exam such as the Advanced Placement Calculus or Advanced Placement Statistics exams
- achieving a suitable score on a Credit by Examination administered by the Department of Mathematics.

² **University Writing Requirement:**

Students satisfy the University Writing Requirement in one of four ways:

- completing a Blugold Seminar in Critical Reading and Writing course (WRIT 102 (<https://catalog.uwec.edu/search/?P=WRIT%20102>), WRIT 114 (<https://catalog.uwec.edu/search/?P=WRIT%20114>), WRIT 116 (<https://catalog.uwec.edu/search/?P=WRIT%20116>), WRIT 118 (<https://catalog.uwec.edu/search/?P=WRIT%20118>), or WRIT 120 (<https://catalog.uwec.edu/search/?P=WRIT%20120>)) with a grade of C (not C-) or above
- achieving a suitable score on the English Placement Test (<https://www.uwec.edu/academics/blugold-seminar/writ-courses-placement/>) (WPT ENGL)
- achieving a suitable score on an exam such as the Advanced Placement English Literature and Composition or Advanced Placement English Language and Composition exams
- achieving a suitable score on the University Writing Program Portfolio.

Completion via Placement Test

- Writing: If the CL-W subcategory is satisfied through a placement test, the CGER Communication and Literacy requirement will be reduced from 8 credits (2 courses) to 3 credits (1 course).
- Mathematics: If the University Math Requirement is satisfied through a placement test, the CGER Mathematics & Quantitative Reasoning requirement will be considered fully met, replacing the 4-credit (1 course) requirement.
- Students must still complete 36 credits across 10 courses, with any remaining credits or courses eligible to be taken from any CGER category.

English, Rhetorics of Science, Technology, and Culture, Certificate

(Code 540-602)

Rhetorical understanding and the ability to produce rhetorically effective texts are excellent complements to any academic discipline, because every specialty depends on the discovery and dissemination of ideas, as well as the structuring of arguments in the process of building knowledge in a field. The Rhetorics of Science, Technology, and Culture (RSTC) certificate offers a focused study in the kinds of choices we make when we analyze and communicate scientific, technical, and diverse cultural phenomena, whether through traditional written text, visuals, video, internet venues, or some multimodal combination of those.

Students will have opportunities not only to research in a wide variety of fields, including understanding different modes of communication and cultural practices, but to create and edit documents that best address the needs of their intended audiences, ranging from specialists to the general public. An RSTC certificate could enhance the career options of any student majoring or minoring in a science, technology, or social science field, and in its attention to various kinds of practical know-how—e.g., science writing, technical writing, grant writing, nature writing, editing—could also increase the career options for students in the humanities and the arts.

Code	Title	Credits
Fifteen semester credits, selected from:		15
ENGL 212 or CJ 207	Histories and Theories of Rhetoric Introduction to Rhetoric and Society	
ENGL 307	Editing and Publications Management	
ENGL 312	Science Writing	
ENGL 313	Technical Writing	
ENGL 314	Cultural Rhetorics	
ENGL 315	Visual Rhetorics of Science, Technology, and Culture	
ENGL 316	Rhetorics of Social Justice	
ENGL 409	Grant Proposal Writing	
ENGL 455	Seminar in Rhetorics of Science, Technology, and Culture ¹	
ENGL 498	Internship in Writing	

¹ Strongly recommended, but should not be taken until student has successfully completed at least three other courses in the array.

Note: Students will need to earn at least 48 unique credits between any approved English program combinations and for other program combinations where course work overlaps for purposes of meeting graduation requirements for first and second degree programs.

Program Learning Outcome

Students completing this program will be expected to meet the following learning outcomes:

Outcomes for all English Programs

- Read and interpret text from a variety of critical perspectives.
- Write effectively for different purposes and audiences.
- Plan, conduct, and document research using appropriate sources.

- Describe the dynamic nature, diversity, and structure of the English language.
- Outcomes for Rhetorics of Science, Technology, and Culture Emphasis
- Rhetorically analyze complex scientific, technological, and cultural texts and contexts.
 - Produce texts that effectively address scientific, technological, and cultural issues.

English, Rhetorics of Science, Technology, and Culture, Minor

Liberal Arts (Code 540-414)

Code	Title	Credits
Twenty-six semester credits, including:		
ENGL 210	Introduction to Critical Studies	5
Six credits of literature/culture (no more than three credits at the 100- or 200-level, and no fewer than three credits at the 300-level)		6
ENGL 212	Histories and Theories of Rhetoric	3
Select nine credits from the following:		9
ENGL 307	Editing and Publications Management	
ENGL 312	Science Writing	
ENGL 313	Technical Writing	
ENGL 314	Cultural Rhetorics	
ENGL 315	Visual Rhetorics of Science, Technology, and Culture	
ENGL 316	Rhetorics of Social Justice	
ENGL 409	Grant Proposal Writing	
ENGL 498	Internship in Writing	
or three credits outside the department with advisor approval		
Required:		
ENGL 455	Seminar in Rhetorics of Science, Technology, and Culture	3

Note: Students will need to earn at least 48 unique credits between any approved English program combinations for purposes of meeting graduation requirements for first and second degree programs.

Information for English Majors and Minors

British Literature/Culture before 1790

ENGL 252	Perspectives on Pre-1790 British Literature	3
ENGL 257	Representative Shakespeare	3

Program Learning Outcomes

Students completing this program will be expected to meet the following learning outcomes:

Outcomes for all English Programs

- Read and interpret text from a variety of critical perspectives.
- Write effectively for different purposes and audiences.

- Plan, conduct, and document research using appropriate sources.
- Describe the dynamic nature, diversity, and structure of the English language.

Outcomes for Rhetorics of Science, Technology, and Culture Emphasis

- Rhetorically analyze complex scientific, technological, and cultural texts and contexts.
- Produce texts that effectively address scientific, technological, and cultural issues.

Geography and Anthropology

Phillips 257

715-836-3244

Department Website (<https://www.uwec.edu/academics/college-arts-sciences/departments-programs/geography-anthropology/>)

Geographers describe, analyze, and explain the patterns and processes of natural environmental and the human cultural systems of the earth. They emphasize the importance of the location and patterns of people, places, and events; the physical and human characteristics of regions; and the relations between people, places, culture, and environment.

With training in both the natural and social sciences, and the tools and perspectives for understanding them, geographers have a wide range of career opportunities in public and private sectors. Geographers find work in such fields as municipal and regional planning, marketing, real estate, tourism, transportation, teaching, environmental analysis, and natural resource management. Geographers are increasingly in demand for jobs that require expertise in geospatial techniques, such as geographic information systems (GIS), global positioning systems (GPS), remote sensing, and computer cartography.

The discipline of anthropology adopts an integrative, comprehensive approach to the study of humankind. Anthropologists seek to understand human conditions by examining the biological evolution of human beings, the human capacity to create culture, and the diverse ways of life developed by societies around the world.

Honor Societies, Student Organizations, and Internships

GTU: Gamma Theta Upsilon is an international honor society in geography.

Internship Opportunities

For information, contact your advisor

Departmental Honors in Geography and Anthropology

The Department of Geography and Anthropology encourages and creates opportunities for all of its students to participate in research and creative learning activities with department faculty. Especially motivated and high-achieving students are invited to pursue Departmental Honors in Geography or Anthropology. The Departmental Honors Program enhances students' undergraduate experience, recognizes outstanding work and achievement, and can open up exceptional educational and professional opportunities.

Eligibility:

Must be a declared major or minor, have completed the core introductory courses (GEOG 104, GEOG 111, GEOG 178, and GEOG 200 or ANTH 161, ANTH 165, ANTH 169, and an area course), and have resident and major/minor GPAs of at least 3.50.

Application Procedures:

Student applicants should submit an electronic application for Departmental Honors in Geography or Anthropology to the Department Chair – through the applicant's advisor – for approval as soon as interested and eligible, but no later than prior to the start of the student's final semester before graduation. Department faculty and staff may also identify qualified students and encourage them to apply. The e-form application should elaborate on professional activities, research interests, and aspirations; an unofficial copy of transcripts should be attached. Final approval and recommendation for Departmental Honors will be made following satisfactory completion of all requirements (see below). Please see the Department Chair for more information and application details.

Requirements:

1. Conduct research and disseminate results: Satisfactorily complete one substantial faculty-student research collaboration in Geography or Anthropology that results in
 - a. a presentation at a regional, national, or international professional conference; and
 - b. an oral presentation to be given to at least three members of the faculty in such forums as departmental capstone presentations, regional conferences, UW-Eau Claire's annual Provost's Honors Symposium or professionally comparable venues.
2. Satisfactorily complete GEOG 368 or ANTH 499, to include a thesis or substantial paper written under the supervision of a Geography or Anthropology faculty member, or publish collaborative research results (see Requirement #1) in a peer-reviewed journal.
3. Maintain a 3.5 cumulative resident GPA and a 3.5 GPA in Geography or Anthropology courses.

Majors

- Comprehensive Major: Geography, Liberal Arts, Environmental Geography Emphasis - B.A./B.S.
- Comprehensive Major: Geography, Liberal Arts, Transnational Geographies Emphasis - B.A./B.S.
- Major: Geography, Liberal Arts - B.A./B.S.
- Comprehensive Major: Geospatial Analysis and Technology, Liberal Arts - B.A./B.S.

Minors

- Minor: Geography, Liberal Arts

Certificates

- Certificate: Anthropology
- Certificate: Cartography and Geovisualization
- Certificate: Geospatial
- Certificate: Geospatial, Geographic Information Systems
- Certificate: Geospatial, Mapping
- Certificate: Geospatial, Remote Sensing
- Certificate: Urban and Regional Planning

Anthropology, Certificate

(Code 470-601)

The **Anthropology Certificate** is a 12-credit certificate that is well defined and offers a coherent disciplinary approach to subjects that are often shared with other disciplines and fields of study such as history, culture, social processes, language, and human evolution broadly construed. In providing specifically anthropological perspectives, the certificate serves to enrich and deepen student learning in other disciplines. It complements interdisciplinary majors like American Indian Studies; Latin American and Latinx Studies; Women's, Gender, and Sexuality Studies; as well as other disciplinary majors in the humanities and the social and natural sciences, including geography, history, and biology.

Code	Title	Credits
12 credits, including:		
Required Courses:		
ANTH/AIS 161	Introduction to Cultural Anthropology	3
AIS 444	Indigenous Theory and Methodologies	3
Elective Courses:		6
ANTH 165	Introduction to Physical Anthropology	
ANTH 169	Introduction to Archaeology	
ANTH 291	Special Topics	
ANTH/GEOG 312	Space, Society, Subject	
ANTH/GEOG 313	Culture and Transnational Dynamics	
ANTH 315	Language in Culture and Society	
ANTH 325	North American Indians	
ANTH 395	Directed Studies	
ANTH 399	Independent Study - Juniors	
ANTH 463	Religion and Culture	
ANTH 491	Special Topics	
ANTH 499	Independent Study - Seniors	
One area course: A regional geography course in consultation with certificate advisor		
Total Credits		12

Note: Courses included in the certificate program may not be applied to the major program.

Program Learning Outcomes

Students completing this program will be expected to meet the following learning outcomes:

- Understand key anthropological concepts for explaining the human experience.

- Analyze socio-cultural dynamics in local, global, and comparative contexts.
- Appreciate for political and ethical issues of equity, diversity and inclusivity in contemporary and past societies, as well as in the history and practice of anthropology.

Cartography and Geovisualization, Certificate

The visualization of spatial data through maps, infographics, and other forms of visual storytelling is a critical and effective avenue for communicating information in our interconnected world. Producing evocative maps and other cartographic products, however, requires familiarity with geospatial science and experience with creative design. Students enrolled in the **Cartography and Geovisualization Certificate** will acquire skills in the art and science of map production through the use and application of geographic information systems (GIS), industry standard illustration software, and online mapping platforms. This certificate is ideal for students who are interested map production and who wish to integrate a distinct and complementary set of valuable technical abilities with their primary area(s) of study.

The Cartography and Geovisualization Certificate is designed for students who:

- are interested in learning about the production of maps and their value in communicating visual and written stories.
- may seek employment in careers that are informed by or benefit from experience in map production and storytelling.
- desire to pursue a graduate degree in a discipline that is informed by or benefits from experience in map production and visual storytelling.

(Code 140-605)

Code	Title	Credits
12 Credits Required		
GEOG 280	Introduction to Cartography and Visualization	3
GEOG 335	Geographic Information Systems I	3
GEOG 337	Geographic Information Systems II	3
GEOG 339	Applied Cartography and Geovisualization	3
Note 1: Completion of GEOG 280 and GEOG 335 is recommended prior to enrollment in GEOG 339		
Note 2: Students cannot pursue the Geography Major and the Cartography and Geovisualization Certificate to meet graduation requirements for completing a first and second degree program. Courses taken for the certificate cannot be applied to the major program.		
Program Learning Outcomes		

Students completing this program will be expected to meet the following learning outcomes:

- Demonstrate competency in the knowledge and application of the fundamentals of cartographic design.
- Demonstrate proficiency in the ethics of collection, use, and analysis of spatial data used in the production of cartographic visualizations.
- Demonstrate the ability to synthesize and map spatial data and create effective cartographic visualizations.

Geography, Environmental Geography, Comprehensive Major

Liberal Arts (Code 140-007)

University Requirements

GRADUATION REQUIREMENTS FOR BACCALAUREATE DEGREE

Credit Requirements

Minimum total for graduation ¹	120
Upper division credits (courses numbered 300 and higher)	39
Core General Education	10 courses, 36 credits

Academic Concentrations

Grade Point Requirements ²

Total	2.00 average
Resident	2.00 average
Major	2.00 average
Minor	2.00 average
Certificate	2.00 average

University Residency Requirements

Minimum total	30
Senior year	23
Major, Standard, upper division in residence	12
Major, Comprehensive, upper division in residence	21
Certificate	25 percent of credits

Procedures Required for Graduation

Obtain admission to the degree program and/or the College offering it.

Apply for graduation on CampS.

¹ Certain programs exceed this minimum.

² See special requirements in each College.

Applicability of Credits Toward Graduation

Junior College or Two-Year College Credits. A maximum of 72 semester credits earned in a junior college or two-year college will be accepted as degree credits at UW-Eau Claire.

Extension Credits. Credits earned in credit outreach courses offered by UW-Eau Claire are treated as resident credits. Credits earned in extension courses offered by other units of the Universities of Wisconsin System are treated as transfer credits. All other (non-UW) extension and correspondence credits are normally limited to one-fourth of the total required for graduation from any curriculum.

WTCS Credits. A maximum of 72 semester credits earned in college parallel programs at Madison Area Technical College, Milwaukee Area Technical College, Nicolet Area Technical College, or Chippewa Valley Technical College may be accepted as degree credits at UW-Eau Claire. A set number of general education courses will be accepted from other technical schools. Occupational and technical courses may also be considered for transfer if the quality and content of the course work from the technical college is judged to be

comparable to course work at UW-Eau Claire. Refer to the Transfer Credit Wizard (https://www.uwec.sis.wisconsin.edu/psp/eauprd-tb/EMPLOYEE/SA/c/EAU_SS_CUSTOM.EAU_TRNCRDWZ.GBL) or contact the UW-Eau Claire Admissions Office for information about the current transfer policy.

USAFI Credit. UW-Eau Claire will accept up to 32 semester credits for work done through the United States Armed Forces Institute, under the provision for non-UW correspondence credit (see Extension Credits above).

Activity Credit (band, chorus, drama, KINS 100-184 courses) Students may count toward graduation no more than one credit of KINS 110-184 courses. Students may count toward graduation no more than four credits earned in any single activity course and no more than 12 credits resulting from any combination of activity courses (excluding KINS 110-184 courses).

Other Restricted Credits. For other University restrictions, see the following: Cooperative Education; Credit by Examination; Satisfactory/Unsatisfactory Registration; Transfer of Credits. College or departmental restrictions may also be placed on Independent Study (399-499 courses), Directed Study (395-495), and other types of credits.

APPLICABILITY OF CREDITS TOWARD GRADUATION

Credit Restrictions

Satisfactory/Unsatisfactory	
Total degree credit	maximum 12
Major, Standard	maximum 1 course
Major, Comprehensive	maximum 2 courses
Minor	maximum 1 course

Credit by Examination

Total degree credit	maximum ¼ of total
Major or minor	maximum ½ of total

Two-Year College Credits

Total degree credit	maximum 72 credits

Activity credit (band, chorus, drama, KINS 100-184)

Total KINS 100-184	maximum 1 credit
Total Band, chorus, drama	maximum 12 credits
Single course band, chorus, drama	maximum 4 credits

Extension credits

UW-System	no maximum
Other extension/correspondence	maximum ¼ of total

USAFI

USAFI	maximum 32 credits

Core General Education Requirements (CGER)

CGER Categories

Mathematics & Quantitative Reasoning (MQR) (http://catalog.uwec.edu/undergraduate/outcome-mqr/)	4 credit hours, 1 course min

Includes University Math Requirement ¹

Communication & Literacy (CL) (http://catalog.uwec.edu/undergraduate/outcome-cl/)	8 credit hours, 2 course min (including CL-W)

Includes University Writing Requirement (CL-W) (<http://catalog.uwec.edu/undergraduate/outcome-clw/>) ²

Natural Sciences & Wellness (NSW/NSWL) (http://catalog.uwec.edu/undergraduate/outcome-NSW/)	6 credit hours, 1 course min (NSW-Lab required)

Social & Behavioral Sciences (SBS) (https://catalog.uwec.edu/undergraduate/outcome-sbs/)	6 credit hours, 2 course min

Humanities & Arts (HA) (http://catalog.uwec.edu/undergraduate/outcome-ha/)	6 credit hours, 2 course min

Civics & Perspectives (CP) (http://catalog.uwec.edu/undergraduate/outcome-cp/)	6 credit hours, 2 course min

CGER Totals ³

Credits	minimum 36 credits
Courses	minimum 10 courses

¹ University Mathematics Requirement:

Students satisfy the University Mathematics Requirement in one of four ways:

- completing an approved university-level mathematics course (MQR) with a grade of C (not C-) or above
- achieving a suitable score on the UW Math Placement Test (<https://www.uwec.edu/academics/academic-support/advising/testing/placement-testing/>)
- achieving a suitable score on an exam such as the Advanced Placement Calculus or Advanced Placement Statistics exams
- achieving a suitable score on a Credit by Examination administered by the Department of Mathematics.

² University Writing Requirement:

Students satisfy the University Writing Requirement in one of four ways:

- completing a Blugold Seminar in Critical Reading and Writing course (WRIT 102 (<https://catalog.uwec.edu/search/?P=WRIT%20102>), WRIT 114 (<https://catalog.uwec.edu/search/?P=WRIT%20114>), WRIT 116 (<https://catalog.uwec.edu/search/?P=WRIT%20116>), WRIT 118 (<https://catalog.uwec.edu/search/?P=WRIT%20118>), or WRIT 120 (<https://catalog.uwec.edu/search/?P=WRIT%20120>)) with a grade of C (not C-) or above
- achieving a suitable score on the English Placement Test (<https://www.uwec.edu/academics/blugold-seminar/writ-courses-placement/>) (WPT ENGL)
- achieving a suitable score on an exam such as the Advanced Placement English Literature and Composition or Advanced Placement English Language and Composition exams
- achieving a suitable score on the University Writing Program Portfolio.

³ Completion via Placement Tests

- Writing: If the CL-W subcategory is satisfied through a placement test, the CGER Communication and Literacy requirement will be reduced from 8 credits (2 courses) to 3 credits (1 course).
- Mathematics: If the University Math Requirement is satisfied through a placement test, the CGER Mathematics & Quantitative Reasoning

requirement will be considered fully met, replacing the 4-credit (1 course) requirement.

- Students must still complete 36 credits across 10 courses, with any remaining credits or courses eligible to be taken from any CGER category.

College Degree Requirements

Bachelor of Arts or Bachelor of Science Degree (B.A./B.S.)

University Graduation Requirements. All candidates for degrees must fulfill the requirements for credits, curriculum, GPA, and University residency as specified in the section of this catalog titled University Graduation Requirements.

College Graduation Requirements: Grade Point Averages. All candidates for degrees in the College of Arts and Sciences must earn minimum resident and total GPAs of 2.00 in the major, the minor, and the certificate. The resident and total GPAs for the major are computed using all attempted credits applicable to the major including those offered by departments other than the major department. The resident and total GPAs for the minor and the certificate are computed similarly.

Major-Minor and Major-Certificate Requirements. A standard major (a minimum of 36 credits) must be supplemented by a minor (a minimum of 24 credits) or by a certificate (12 to 18 credits) to meet graduation requirements for completing a first and second degree program. No minor or certificate is required with a Comprehensive Major (60 or more credits) or with two majors of 36 or more credits each.

Certain degree programs, which include Comprehensive Majors, may require more than the minimum of 120 credits for graduation.

Acceptable academic program combinations are determined at the college level. A major and a minor or a major and certificate or two majors (if available) may not be elected in the same department or program, except in the approved combinations listed here.

College Credits. Earn at least 90 credits in courses offered by the College of Arts and Sciences.

Bachelor of Arts Degree in the College of Arts and Sciences (B.A.)

Fulfillment of all University Graduation Requirements (which includes the Core General Education Requirements); all College-level degree requirements (major and minor/certificate emphases, GPAs, earning at least 90 credits in Arts and Sciences course work); second language competency at the 102 level. Second language competency may be met in one of two ways: (1) Demonstrate a level of second language competency that qualifies the student to enter the 201-level course in a second language. (2) Earn a grade of at least C (not C-) or a mark of S in a 102-level second language course (or AIS 112 or AIS 122 or SLHS 103).

Bachelor of Science Degree in the College of Arts and Sciences (B.S.)

Fulfillment of all University Graduation Requirements (which includes the Core General Education Requirements); all College-level degree requirements (major and minor/certificate emphases, GPAs, earning at least 90 credits in Arts and Sciences course work); mathematics competency at the MATH 111, MATH 112 or MATH 113 level. Mathematics competency can be met in one of three ways:

- (1) Achieve a score on the mathematics placement test that qualifies the student to enter MATH 114.
- (2) Earn a grade of at least C (not C-) or a mark of S in MATH 111, MATH 112, or MATH 113.
- (3) Achieve a satisfactory score on the

MATH 112 competency test. This test may be attempted no more than two times.

Major Requirements

Liberal Arts (Code 140-007)

Environmental Geography

Requires completion of the core courses, the required credits, and departmental and non-departmental electives to total at least 60 credits.

A minimum of 60 semester credits, including completion of the following:

Code	Title	Credits
Geography Major Core Requirements		
GEOG 104	Planet Earth: The Physical Environment	4
GEOG 111	Planet Earth: Human Geography	3
GEOG 178	Planet Earth: Conservation of the Environment	3
GEOG 200	Foundations of Geography	3
GEOG 335	Geographic Information Systems I	3
GEOG 370	Quantitative Methods in Geography	3

Five additional courses to be selected from three of five Advanced Geography Approaches ¹

¹ One of the additional courses must be GEOG 368 - note that the Advanced Geography Approach to which it applies may vary by semester.

Code	Title	Credits
In addition to the core requirements for the geography major, students in the Environmental Geography Emphasis must take:		
12 credits from environmental courses from other disciplines (selected with consent of advisor)		12
Geography electives to complete 60 credits; at least one elective must be an upper level Physical Geography course and one elective must be an upper level Human-Environmental Geography course		
Note: A maximum of six credits earned in GEOG 395, GEOG 399, and/or GEOG 499 may count toward the major.		

Advanced Geography Approaches

Five courses from at least three advanced approaches are required for major programs. Four courses from at least three advanced approaches are required for minor programs.

Physical Geography

GEOG 304	Introduction to Geomorphology	4
GEOG 340	Climatology	3
GEOG 345	Quaternary Environments	3
GEOG 350	Soils and the Environment	4
GEOG 355	Biogeography	3
GEOG 363	Watershed Analysis	4
GEOG 364	Fluvial Processes and Landforms	4

Human-Environmental Geography

GEOG 270	Introduction to Urban and Regional Planning	3

GEOG 341	Weather and Society	3
GEOG 361	Environmental Hazards	3
GEOG 365	Tourism Geographies	3
GEOG 375	Environmental Quality	3
GEOG 377	U.S. Environmental and Sustainability Policy	3
GEOG 378	International Environmental Problems and Policy	3
GEOG 445	Historical Geography	3

Human Geography

GEOG 155	Economic Geography	3
GEOG 288	Cultural Landscapes of North America	3
GEOG 312	Space, Society, Subject	3
GEOG 313	Culture and Transnational Dynamics	3
GEOG 322	Native Geographies	3
GEOG 352	Business Geographics	3
GEOG 366	Geography International Immersion Experience	1-3
GEOG 367	Landscape Analysis: Cultural	3
GEOG 369	Geography of Food	3
GEOG 444	Legal Geographies of Race in the U.S.	3
GEOG 446	Political Geography	3
GEOG 470	Urban Geography	3

Geography Techniques

GEOG 280	Introduction to Cartography and Visualization	3
GEOG 335	Geographic Information Systems I ¹	3
GEOG 336	Geospatial Field Methods	3
GEOG 337	Geographic Information Systems II	3
GEOG 338	Remote Sensing of the Environment	3
GEOG 339	Applied Cartography and Geovisualization	3
GEOG 358	LiDAR Analysis & Applications	3
GEOG 370	Quantitative Methods in Geography ¹	3
GEOG 390	Geospatial Applications of UAS	3
GEOG 435	Geographic Information Systems III	3
GEOG 438	Remote Sensing Data Analytics	3
GEOG 455	Web Geographic Information Systems	3

Regional Geography

GEOG 301	Geography of Western Europe	3
GEOG 308	Geography of Russia and Eastern Europe	3
GEOG 319	Geography of the Middle East and North Africa	3
GEOG 321	Geography of Latin America	3
GEOG 325	Geography of the United States and Canada	3
GEOG 379	Geography of Wisconsin	3

Other Geography Courses

The following courses can be applied to any of the five approaches with consent of the advisor:

GEOG 368	Geography Field Seminar ¹	3

GEOG 395	Directed Studies	1-3
GEOG 399	Independent Study - Juniors	1-3
GEOG 491	Advanced Special Topics	1-3
GEOG 498	Geography Internship	1-3
GEOG 499	Independent Study - Seniors	1-3

¹ Required courses for majors only.

Program Learning Outcomes

Students completing this program will be expected to meet the following learning outcomes:

- **Content: Geographic Foundation:** Demonstrate geographical knowledge, understanding, and significance through analysis, explanation, and critique (Explain where things are located, why they are located where they are, what difference that location makes, and to whom).
- **Skills:**
 - **Geographic Techniques:** Effectively use and apply the tools of geographic inquiry (e.g., field and laboratory to gather quantitative and qualitative geographic data; GIS to acquire, manage, display, and analyze spatial data in digital form; cartography to display spatial information effectively; and spatial statistical methods to model and make inferences about spatial relationships and patterns).
 - **Communication:** Effectively explain how geographic approaches and perspectives are used to address socially/environmentally relevant questions and problems and why identifying the underlying spatial relationships is significant.
- **Responsibility:**
 - **Equity, Diversity, and Inclusion (EDI):** Use geographic knowledge and skills to evaluate assumptions, representations, and institutions in order to challenge existing structures in ways that respect diversity and foster social/environmental equity and inclusivity.
 - **Ethics:** Use geographic knowledge and skills to address social and environmental challenges in ways that maximize the benefits and minimize the harm to others.
- **Dispositions:**
 - **Interdisciplinary perspective:** Synthesize the information, concepts, and methods of natural and social sciences for geographic research and applications.
 - **Relational perspective:** Explain how people, places, and regions are linked by networks and processes across space and scale (such as local-global, within regions, globalization, trade, immigration, internet technology, climate).
- **Comprehensive:**
 - **Environmental:** Recognizes the geography of environmental issues, events, or problems and uses geographic knowledge and skills to properly understand and respond to them.

Geography, Environmental Geography, Comprehensive Major, B.S.

The following is a sample degree plan, based on the current catalog. It is based on the 120-credit graduation requirement and assumes no transferred credits, no requirements waived by placement tests, no courses taken in the summer or winter, no repeated courses, and no remedial courses that may be required. This sample degree plan is intended for first-year students entering UW-Eau Claire in the fall semester. Your own degree plan may differ depending on the course of study selected (second major, minor, etc.). UW-Eau Claire cannot guarantee all courses will be offered as shown, but will provide a range of courses that may enable prepared students to fulfill their requirements in a timely period. This sample degree plan is just a guide. Please consult

your advisor, your degree audit, and the catalog to create your own degree plan. *Note:* In order to earn the required minimum of 120 credits for the degree in four years, you should plan to take 15 credits each semester or 30 credits each year.

To earn a degree, students must fulfill all University Graduation Requirements, including the Core General Education Requirements (CGER). CGER course work in the following sample degree plan uses abbreviations such as CGER CL, CGER HA, and CGER NSWL to represent the learning outcomes students will meet via completion of the course. Please click [here](#) for a description of the outcomes and requirements.

Students in this major have the option to pursue either a Bachelor of Arts (B.A.) or a Bachelor of Science (B.S.) degree. The degrees are distinguished by second language competency for the B.A. and a higher level of mathematics competency for the B.S.

FIRST YEAR

FIRST SEMESTER		
GEOG 178	Planet Earth: Conservation of the Environment (CGER NSW)	3
WRIT 114	Intensive Bugold Seminar in Critical Reading and Writing (CGER CL)	5
OR		
WRIT 116	Bugold Seminar in Critical Reading and Writing (CGER CL)	
CGER Option: Humanities & Arts (HA)		3
CGER Option: Communication & Literacy (CL)		3
SECOND SEMESTER		
GEOG 104	Planet Earth: The Physical Environment (CGER NSWL)	4
GEOG 111	Planet Earth: Human Geography (CGER SBS)	3
CGER Option: Social & Behavioral Sciences (SBS)		3
MATH 111	A Short Course in Calculus (CGER MQR)	4
OR		
MATH 112	Precalculus Mathematics (CGER MQR)	
TOTAL		28

SECOND YEAR

GEOG 200	Foundations of Geography	3
GEOG 335	Geographic Information Systems I	3
CGER Option: Civics & Perspectives (CP)		3
Environmental Elective		3
Electives		5
SECOND SEMESTER		
GEOG Advanced Approach - Physical Geography ^a		3
CGER Option: Civics & Perspectives (CP)		3
CGER Option: Civics & Perspectives (CP)		3
CGER Option: Humanities & Arts (HA)		3
Elective		3
TOTAL		32

THIRD YEAR

FIRST SEMESTER		
GEOG Advanced Approach: Human-Environment Geography		3
GEOG Elective		3

GEOG Elective	3
Elective ^b	3
Environmental Elective ^c	3
SECOND SEMESTER	
GEOG 368 Geography Field Seminar (Advanced Approach)	3
GEOG 370 Quantitative Methods in Geography	3
Elective: Upper Level	3
Elective	3
Environmental Elective	3
TOTAL	30
FOURTH YEAR	
FIRST SEMESTER	
GEOG Elective	3
GEOG Advanced Approach: Human-Environment Geography	3
Elective: Upper Level	3
Environmental Elective	3
GEOG Elective	3
SECOND SEMESTER	
GEOG 369 Geography of Food (Advanced Approach: Human Geography)	3
GEOG Advanced Approach: Physical Geography	3
Elective: Upper Level	3
Elective	3
GEOG Elective	3
TOTAL	30

Minimum total for the baccalaureate degree = 120 credits

- a Geography majors must take 5 courses from any 3 of the 5 advanced geography approaches. Environmental Geography comprehensive majors must take an upper level course in Physical Geography and in Human-Environment Geography. One of these must be GEOG 368. See catalog.
- b Electives need to be carefully selected to ensure that a student's degree comprises at least 39 credits of upper division courses (300-400 level). While students are encouraged to take additional courses in geography, these can be selected from any discipline provided student meets course prerequisites. Required Geography courses plus Geography electives (and environmental electives from other departments) must equal at least 60 credits.
- c Environmental Geography comprehensive majors are required to take 12 credits of environmental course work outside of the major with consent of their advisor.

Course Information

- GEOG 200 is recommended prior to enrollment in GEOG 335 and GEOG 370.
- GEOG 335 is a prerequisite for GEOG 370.
- GEOG 104, GEOG 111, GEOG 178, and GEOG 200 are expected as prerequisites for GEOG 368.
- One year before graduation, Geography majors must complete a form to certify their selected courses from the Advanced Geography Approaches. They must complete this form a second time one semester before graduation.

RECOMMENDATIONS FOR HIGH IMPACT PRACTICES (HIPs)

The University of Wisconsin-Eau Claire encourages all students to participate in High Impact Practices. The following information identifies any specific

recommendations that faculty in this major have concerning which HIPs might be most beneficial to students, and any recommendations about when those HIPs best fit into the degree plan. Students should also consult their faculty advisor for information on HIPs. There are many additional high impact opportunities available. Talk to your academic advisor for more information about incorporating HIPs like Study Abroad (<https://studyabroad.apps.uwec.edu/>), Intercultural Immersion (<https://www.uwec.edu/immersion/>), Internship (<https://www.uwec.edu/offices-services/advising-retention-career-center/career-services/internship/job-searching-and/>), and/or Student/Faculty Collaborative Research (<https://www.uwec.edu/offices-services/office-research-and-sponsored-programs/getting-involved-student-faculty-research/>) into your time at UW-Eau Claire.

Required HIP: GEOG 368 : Geography Field Seminar

Optional HIPs: Study Abroad, National Student Exchange, Faculty-led International Immersions (FLIIs), Student-Faculty Collaborative Research

Core General Education Requirements (CGER)

Core General Education Requirements (CGER)

The Core General Education Requirements (CGER) includes a minimum of 10 courses across 6 categories. Students must complete a minimum of 36 credits in courses approved for the CGER Core.

- Mathematics & Quantitative Reasoning (MQR) - 4 credits, one course minimum
 - Includes the University Mathematics Requirement¹
- Communication & Literacy (CL) - 8 credits, two courses minimum
 - Includes the University Writing Requirement (CL-W)²
- Natural Sciences & Wellness (NSW/NSWL) - 6 credits, one course minimum (NSW-Lab required)
- Social & Behavioral Sciences (SBS) - 6 credits, two courses minimum
- Humanities & Arts (HA) - 6 credits, two courses minimum
- Civics & Perspectives (CP) - 6 credits, two courses minimum

¹ **University Mathematics Requirement:**

Students satisfy the University Mathematics Requirement in one of four ways:

- completing an approved university-level mathematics course (MQR) with a grade of C (not C-) or above
- achieving a suitable score on the UW Math Placement Test (<https://www.uwec.edu/academics/academic-support/advising/testing/placement-testing/>)
- achieving a suitable score on an exam such as the Advanced Placement Calculus or Advanced Placement Statistics exams
- achieving a suitable score on a Credit by Examination administered by the Department of Mathematics.

² **University Writing Requirement:**

Students satisfy the University Writing Requirement in one of four ways:

- completing a Blugold Seminar in Critical Reading and Writing course (WRIT 102 (<https://catalog.uwec.edu/search/?P=WRIT%20102>), WRIT 114 (<https://catalog.uwec.edu/search/?P=WRIT%20114>), WRIT 116 (<https://catalog.uwec.edu/search/?P=WRIT%20116>), WRIT 118 (<https://catalog.uwec.edu/search/?P=WRIT%20118>), or WRIT 120 (<https://catalog.uwec.edu/search/?P=WRIT%20120>)) with a grade of C (not C-) or above
- achieving a suitable score on the English Placement Test (<https://www.uwec.edu/academics/blugold-seminar/writ-courses-placement/>) (WPT ENGL)

- achieving a suitable score on an exam such as the Advanced Placement English Literature and Composition or Advanced Placement English Language and Composition exams
- achieving a suitable score on the University Writing Program Portfolio.

Completion via Placement Test

- Writing: If the CL-W subcategory is satisfied through a placement test, the CGER Communication and Literacy requirement will be reduced from 8 credits (2 courses) to 3 credits (1 course).
- Mathematics: If the University Math Requirement is satisfied through a placement test, the CGER Mathematics & Quantitative Reasoning requirement will be considered fully met, replacing the 4-credit (1 course) requirement.
- Students must still complete 36 credits across 10 courses, with any remaining credits or courses eligible to be taken from any CGER category.

Geography, Major

Liberal Arts (Code 140-214)

University Requirements

GRADUATION REQUIREMENTS FOR BACCALAUREATE DEGREE

Credit Requirements	
Minimum total for graduation ¹	120
Upper division credits (courses numbered 300 and higher)	39
Core General Education	10 courses, 36 credits
Academic Concentrations	
Grade Point Requirements ²	
Total	2.00 average
Resident	2.00 average
Major	2.00 average
Minor	2.00 average
Certificate	2.00 average
University Residency Requirements	
Minimum total	30
Senior year	23
Major, Standard, upper division in residence	12
Major, Comprehensive, upper division in residence	21
Certificate	25 percent of credits

Procedures Required for Graduation

- Obtain admission to the degree program and/or the College offering it.
- Apply for graduation on CampS.

¹ Certain programs exceed this minimum.
² See special requirements in each College.

Applicability of Credits Toward Graduation

Junior College or Two-Year College Credits. A maximum of 72 semester credits earned in a junior college or two-year college will be accepted as degree credits at UW-Eau Claire.

Extension Credits. Credits earned in credit outreach courses offered by UW-Eau Claire are treated as resident credits. Credits earned in extension courses offered by other units of the Universities of Wisconsin System are treated as transfer credits. All other (non-UW) extension and correspondence credits are normally limited to one-fourth of the total required for graduation from any curriculum.

WTCS Credits. A maximum of 72 semester credits earned in college parallel programs at Madison Area Technical College, Milwaukee Area Technical College, Nicolet Area Technical College, or Chippewa Valley Technical College may be accepted as degree credits at UW-Eau Claire. A set number of general education courses will be accepted from other technical schools. Occupational and technical courses may also be considered for transfer if the quality and content of the course work from the technical college is judged to be comparable to course work at UW-Eau Claire. Refer to the Transfer Credit Wizard (https://www.uwec.sis.wisconsin.edu/psp/eauprd-tb/EMPLOYEE/SA/c/EAU_SS_CUSTOM.EAU_TRNCRDWZ.GBL) or contact the UW-Eau Claire Admissions Office for information about the current transfer policy.

USAFI Credit. UW-Eau Claire will accept up to 32 semester credits for work done through the United States Armed Forces Institute, under the provision for non-UW correspondence credit (see Extension Credits above).

Activity Credit (band, chorus, drama, KINS 100-184 courses) Students may count toward graduation no more than one credit of KINS 110-184 courses. Students may count toward graduation no more than four credits earned in any single activity course and no more than 12 credits resulting from any combination of activity courses (excluding KINS 110-184 courses).

Other Restricted Credits. For other University restrictions, see the following: Cooperative Education; Credit by Examination; Satisfactory/Unsatisfactory Registration; Transfer of Credits. College or departmental restrictions may also be placed on Independent Study (399-499 courses), Directed Study (395-495), and other types of credits.

APPLICABILITY OF CREDITS TOWARD GRADUATION		Credit Restrictions
Satisfactory/Unsatisfactory		
Total degree credit		maximum 12
Major, Standard		maximum 1 course
Major, Comprehensive		maximum 2 courses
Minor		maximum 1 course
Credit by Examination		
Total degree credit		maximum ¼ of total
Major or minor		maximum ½ of total
Two-Year College Credits		
Total degree credit		maximum 72 credits
Activity credit (band, chorus, drama, KINS 100-184)		
Total KINS 100-184		maximum 1 credit
Total Band, chorus, drama		maximum 12 credits
Single course band, chorus, drama		maximum 4 credits

Extension credits	
UW-System	no maximum
Other extension/correspondence	maximum ¼ of total
USAFI	
USAFI	maximum 32 credits

Core General Education Requirements (CGER)

CGER Categories

Mathematics & Quantitative Reasoning (MQR) (http://catalog.uwec.edu/undergraduate/outcome-mqr/)	4 credit hours, 1 course min
Includes University Math Requirement ¹	
Communication & Literacy (CL) (http://catalog.uwec.edu/undergraduate/outcome-cl/)	8 credit hours, 2 course min (including CL-W)
Includes University Writing Requirement (CL-W) (http://catalog.uwec.edu/undergraduate/outcome-clw/) ²	
Natural Sciences & Wellness (NSW/NSWL) (http://catalog.uwec.edu/undergraduate/outcome-NSW/)	6 credit hours, 1 course min (NSW-Lab required)
Social & Behavioral Sciences (SBS) (https://catalog.uwec.edu/undergraduate/outcome-sbs/)	6 credit hours, 2 course min
Humanities & Arts (HA) (http://catalog.uwec.edu/undergraduate/outcome-ha/)	6 credit hours, 2 course min
Civics & Perspectives (CP) (http://catalog.uwec.edu/undergraduate/outcome-cp/)	6 credit hours, 2 course min
CGER Totals ³	
Credits	minimum 36 credits
Courses	minimum 10 courses

¹ University Mathematics Requirement:

Students satisfy the University Mathematics Requirement in one of four ways:

- completing an approved university-level mathematics course (MQR) with a grade of C (not C-) or above
- achieving a suitable score on the UW Math Placement Test (<https://www.uwec.edu/academics/academic-support/advising/testing/placement-testing/>)
- achieving a suitable score on an exam such as the Advanced Placement Calculus or Advanced Placement Statistics exams
- achieving a suitable score on a Credit by Examination administered by the Department of Mathematics.

² University Writing Requirement:

Students satisfy the University Writing Requirement in one of four ways:

- completing a Blugold Seminar in Critical Reading and Writing course (WRIT 102 (<https://catalog.uwec.edu/search/?P=WRIT%20102>), WRIT 114 (<https://catalog.uwec.edu/search/?P=WRIT%20114>), WRIT 116 (<https://catalog.uwec.edu/search/?P=WRIT%20116>), WRIT 118 (<https://catalog.uwec.edu/search/?P=WRIT%20118>), or WRIT 120 (<https://catalog.uwec.edu/search/?P=WRIT%20120>)) with a grade of C (not C-) or above

- achieving a suitable score on the English Placement Test (<https://www.uwec.edu/academics/blugold-seminar/writ-courses-placement/>) (WPT ENGL)
- achieving a suitable score on an exam such as the Advanced Placement English Literature and Composition or Advanced Placement English Language and Composition exams
- achieving a suitable score on the University Writing Program Portfolio.

³ Completion via Placement Tests

- Writing: If the CL-W subcategory is satisfied through a placement test, the CGER Communication and Literacy requirement will be reduced from 8 credits (2 courses) to 3 credits (1 course).
- Mathematics: If the University Math Requirement is satisfied through a placement test, the CGER Mathematics & Quantitative Reasoning requirement will be considered fully met, replacing the 4-credit (1 course) requirement.
- Students must still complete 36 credits across 10 courses, with any remaining credits or courses eligible to be taken from any CGER category.

College Degree Requirements

Bachelor of Arts or Bachelor of Science Degree (B.A./B.S.)

University Graduation Requirements. All candidates for degrees must fulfill the requirements for credits, curriculum, GPA, and University residency as specified in the section of this catalog titled University Graduation Requirements.

College Graduation Requirements: Grade Point Averages. All candidates for degrees in the College of Arts and Sciences must earn minimum resident and total GPAs of 2.00 in the major, the minor, and the certificate. The resident and total GPAs for the major are computed using all attempted credits applicable to the major including those offered by departments other than the major department. The resident and total GPAs for the minor and the certificate are computed similarly.

Major-Minor and Major-Certificate Requirements. A standard major (a minimum of 36 credits) must be supplemented by a minor (a minimum of 24 credits) or by a certificate (12 to 18 credits) to meet graduation requirements for completing a first and second degree program. No minor or certificate is required with a Comprehensive Major (60 or more credits) or with two majors of 36 or more credits each.

Certain degree programs, which include Comprehensive Majors, may require more than the minimum of 120 credits for graduation.

Acceptable academic program combinations are determined at the college level. A major and a minor or a major and certificate or two majors (if available) may not be elected in the same department or program, except in the approved combinations listed here.

College Credits. Earn at least 90 credits in courses offered by the College of Arts and Sciences.

Bachelor of Arts Degree in the College of Arts and Sciences (B.A.)

Fulfillment of all University Graduation Requirements (which includes the Core General Education Requirements); all College-level degree requirements (major and minor/certificate emphases, GPAs, earning at least 90 credits in Arts and Sciences course work); second language competency at the 102 level. Second language competency may be met in one of two ways: (1) Demonstrate a level of second language competency that qualifies the student to enter the

201-level course in a second language. (2) Earn a grade of at least C (not C-) or a mark of S in a 102-level second language course (or AIS 112 or AIS 122 or SLHS 103).

Bachelor of Science Degree in the College of Arts and Sciences (B.S.)

Fulfillment of all University Graduation Requirements (which includes the Core General Education Requirements); all College-level degree requirements (major and minor/certificate emphases, GPAs, earning at least 90 credits in Arts and Sciences course work); mathematics competency at the MATH 111, MATH 112 or MATH 113 level. Mathematics competency can be met in one of three ways:

(1) Achieve a score on the mathematics placement test that qualifies the student to enter MATH 114. (2) Earn a grade of at least C (not C-) or a mark of S in MATH 111, MATH 112, or MATH 113. (3) Achieve a satisfactory score on the MATH 112 competency test. This test may be attempted no more than two times.

Major Requirements

Liberal Arts (Code 140-214)

Code	Title	Credits
A minimum of 36 semester credits consisting of the Geography Major Core Requirements:		
GEOG 104	Planet Earth: The Physical Environment	4
GEOG 111	Planet Earth: Human Geography	3
GEOG 178	Planet Earth: Conservation of the Environment	3
GEOG 200	Foundations of Geography	3
GEOG 335	Geographic Information Systems I	3
GEOG 370	Quantitative Methods in Geography	3
Five additional courses to be selected from three of five Advanced Geography Approaches ¹		
Note: A maximum of six credits earned in GEOG 395, GEOG 399, and/or GEOG 499 may count toward the major.		

¹ One of the additional courses must be GEOG 368 - note that the Advanced Geography Approach to which it applies may vary by semester

Advanced Geography Approaches

Five courses from at least three advanced approaches are required for major programs. Four courses from at least three advanced approaches are required for minor programs.

Physical Geography

GEOG 304	Introduction to Geomorphology	4
GEOG 340	Climatology	3
GEOG 345	Quaternary Environments	3
GEOG 350	Soils and the Environment	4
GEOG 355	Biogeography	3
GEOG 363	Watershed Analysis	4
GEOG 364	Fluvial Processes and Landforms	4

Human-Environmental Geography

GEOG 270	Introduction to Urban and Regional Planning	3
GEOG 341	Weather and Society	3
GEOG 361	Environmental Hazards	3
GEOG 365	Tourism Geographies	3

GEOG 375	Environmental Quality	3
GEOG 377	U.S. Environmental and Sustainability Policy	3
GEOG 378	International Environmental Problems and Policy	3
GEOG 445	Historical Geography	3

Human Geography

GEOG 155	Economic Geography	3
GEOG 288	Cultural Landscapes of North America	3
GEOG 312	Space, Society, Subject	3
GEOG 313	Culture and Transnational Dynamics	3
GEOG 322	Native Geographies	3
GEOG 352	Business Geographics	3
GEOG 366	Geography International Immersion Experience	1-3
GEOG 367	Landscape Analysis: Cultural	3
GEOG 369	Geography of Food	3
GEOG 444	Legal Geographies of Race in the U.S.	3
GEOG 446	Political Geography	3
GEOG 470	Urban Geography	3

Geography Techniques

GEOG 280	Introduction to Cartography and Visualization	3
GEOG 335	Geographic Information Systems I ¹	3
GEOG 336	Geospatial Field Methods	3
GEOG 337	Geographic Information Systems II	3
GEOG 338	Remote Sensing of the Environment	3
GEOG 339	Applied Cartography and Geovisualization	3
GEOG 358	LiDAR Analysis & Applications	3
GEOG 370	Quantitative Methods in Geography ¹	3
GEOG 390	Geospatial Applications of UAS	3
GEOG 435	Geographic Information Systems III	3
GEOG 438	Remote Sensing Data Analytics	3
GEOG 455	Web Geographic Information Systems	3

Regional Geography

GEOG 301	Geography of Western Europe	3
GEOG 308	Geography of Russia and Eastern Europe	3
GEOG 319	Geography of the Middle East and North Africa	3
GEOG 321	Geography of Latin America	3
GEOG 325	Geography of the United States and Canada	3
GEOG 379	Geography of Wisconsin	3

Other Geography Courses

The following courses can be applied to any of the five approaches with consent of the advisor:

GEOG 368	Geography Field Seminar ¹	3
GEOG 395	Directed Studies	1-3
GEOG 399	Independent Study - Juniors	1-3
GEOG 491	Advanced Special Topics	1-3

GEOG 498	Geography Internship	1-3
GEOG 499	Independent Study - Seniors	1-3

¹ Required courses for majors only.

Program Learning Outcomes

Students completing this program will be expected to meet the following learning outcomes:

- **Content: Geographic Foundation:** Demonstrate geographical knowledge, understanding, and significance through analysis, explanation, and critique (Explain where things are located, why they are located where they are, what difference that location makes, and to whom).
- **Skills:**
 - **Geographic Techniques:** Effectively use and apply the tools of geographic inquiry (e.g., field and laboratory to gather quantitative and qualitative geographic data; GIS to acquire, manage, display, and analyze spatial data in digital form; cartography to display spatial information effectively; and spatial statistical methods to model and make inferences about spatial relationships and patterns).
 - **Communication:** Effectively explain how geographic approaches and perspectives are used to address socially/environmentally relevant questions and problems and why identifying the underlying spatial relationships is significant.
- **Responsibility:**
 - **Equity, Diversity, and Inclusion (EDI):** Use geographic knowledge and skills to evaluate assumptions, representations, and institutions in order to challenge existing structures in ways that respect diversity and foster social/environmental equity and inclusivity.
 - **Ethics:** Use geographic knowledge and skills to address social and environmental challenges in ways that maximize the benefits and minimize the harm to others.
- **Dispositions:**
 - **Interdisciplinary perspective:** Synthesize the information, concepts, and methods of the humanities and the natural and social sciences for geographic research and applications.
 - **Relational perspective:** Explain how people, places, and regions are linked by networks and processes across space and scale (such as local-global, within regions, globalization, trade, immigration, internet technology, climate).

Geography, Major, B.A. & B.S., 2-Yr

The following is a sample degree plan, based on the current catalog. It is based on the 120-credit graduation requirement and assumes no transferred credits, no requirements waived by placement tests, no courses taken in the summer or winter, no repeated courses, and no remedial courses that may be required. This sample degree plan is intended for first-year students entering UW-Eau Claire in the fall semester. Your own degree plan may differ depending on the course of study selected (second major, minor, etc.). UW-Eau Claire cannot guarantee all courses will be offered as shown, but will provide a range of courses that may enable prepared students to fulfill their requirements in a timely period. This sample degree plan is just a guide. Please consult your advisor, your degree audit, and the catalog to create your own degree plan. *Note:* In order to earn the required minimum of 120 credits for the degree in four years, you should plan to take 15 credits each semester or 30 credits each year.

To earn a degree, students must fulfill all University Graduation Requirements, including the Core General Education Requirements (CGER). CGER course work in the following sample degree plan uses abbreviations such as CGER CL, CGER

HA, and CGER NSWL to represent the learning outcomes students will meet via completion of the course. Please click [here](#) for a description of the outcomes and requirements.

Students in this major have the option to pursue either a Bachelor of Arts (B.A.) or a Bachelor of Science (B.S.) degree. The degrees are distinguished by second language competency for the B.A. and a higher level of mathematics competency for the B.S.

Minimum total for the baccalaureate degree = 120 credits

a Geography majors must take 5 courses from any 3 of the 5 advanced geography approaches. One of these must be GEOG 368. See catalog.

b Electives need to be carefully selected to ensure that a student's degree comprises at least 39 credits of upper division courses (300-400 level). While students are encouraged to take additional courses in geography, electives

can be selected from any discipline as long as the student meets the course prerequisites.

Course Information

- GEOG 200 is recommended prior to enrollment in GEOG 335 and GEOG 370.
- GEOG 335 is a prerequisite for GEOG 370.
- GEOG 104, GEOG 111, GEOG 178, and GEOG 200 are expected as prerequisites for GEOG 368.
- One year before graduation, Geography majors must complete a form to certify their selected courses from the Advanced Geography Approaches. They must complete this form a second time one semester before graduation.
- Students must complete the requirements for a second program – this can be either a minor or an approved certificate.
- Required Geography courses plus Geography electives must equal at least 36 credits.

RECOMMENDATIONS FOR OPTIONAL HIGH IMPACT PRACTICES (HIPs)

The University of Wisconsin-Eau Claire encourages all students to participate in High Impact Practices. The following information identifies any specific recommendations that faculty in this major have concerning which HIPs might be most beneficial to students, and any recommendations about when those HIPs best fit into the degree plan. Students should also consult their faculty advisor for information on HIPs. There are many additional high impact opportunities available. Talk to your academic advisor for more information about incorporating HIPs like Study Abroad (<https://studyabroad.apps.uwec.edu/>), Intercultural Immersion (<https://www.uwec.edu/immersion/>), Internship (<https://www.uwec.edu/offices-services/advising-retention-career-center/career-services/internship/job-searching-and/>), and/or Student/Faculty Collaborative Research (<https://www.uwec.edu/offices-services/office-research-and-sponsored-programs/getting-involved-student-faculty-research/>) into your time at UW-Eau Claire.

Required HIP: GEOG 368 : Geography Field Seminar

Optional HIPs: Faculty-led International Immersions (FLIIs), Student-Faculty Collaborative Research

Geography, Major, B.A.

The following is a sample degree plan, based on the current catalog. UW-Eau Claire cannot guarantee all courses will be offered as shown, but will provide a range of courses that may enable prepared students to fulfill their requirements in a timely period. This sample degree plan is just a guide. Please consult your advisor, your degree audit, and the catalog to create your own degree plan. *Note:* In order to earn the required minimum of 120 credits for the degree in four years, you should plan to take 15 credits each semester or 30 credits each year.

To earn a degree, students must fulfill all University Graduation Requirements, including the Core General Education Requirements (CGER). CGER course work in the following sample degree plan uses abbreviations such as CGER CL, CGER

HA, and CGER NSWL to represent the learning outcomes students will meet via completion of the course. Please click here for a description of the outcomes and requirements.

Students in this major have the option to pursue either a Bachelor of Arts (B.A.) or a Bachelor of Science (B.S.) degree. The degrees are distinguished by second language competency for the B.A. and a higher level of mathematics competency for the B.S.

Geography, Major, B.A.>

FIRST YEAR

FIRST SEMESTER		
GEOG 178	Planet Earth: Conservation of the Environment (CGER NSW)	3
WRIT 114	Intensive Blugold Seminar in Critical Reading and Writing (CGER CL)	5
OR		
WRIT 116	Blugold Seminar in Critical Reading and Writing (CGER CL)	
CGER Option: Humanities & Arts (HA)		3
101-level Second Language (CGER CL)		4

SECOND SEMESTER

GEOG 104	Planet Earth: The Physical Environment (CGER NSWL)	4
GEOG 111	Planet Earth: Human Geography (CGER SBS)	3
CGER Option: Social & Behavioral Sciences (SBS)		3
102-level Second Language (CGER CL)		4
TOTAL		30

SECOND YEAR

FIRST SEMESTER		
GEOG 200	Foundations of Geography	3
GEOG 335	Geographic Information Systems I	3
CGER Option: Humanities & Arts (HA)		3
CGER Option: Civics & Perspectives (CP)		3
Second Program		3

SECOND SEMESTER

GEOG Advanced Approach- Human Geography ^a	3
CGER Option: Civics & Perspectives (CP)	3
CGER Option: Mathematics & Quantitative Reasoning (MQR)	4
CGER Option: Civics & Perspectives (CP)	3
Second Program	3
TOTAL	30

THIRD YEAR

FIRST SEMESTER	
GEOG Advanced Approach-Human-Environment Geography	3
CGER Option: Civics & Perspectives (CP)	3
Elective	3
Second Program	3
Second Program	3

SECOND SEMESTER

GEOG 368	Geography Field Seminar (Advanced Approach)	3
GEOG 370	Quantitative Methods in Geography	3

Elective-Upper Level ^b	3
Elective	3
Second Program	3
TOTAL	30
FOURTH YEAR	
FIRST SEMESTER	
GEOG Elective	3
GEOG Advanced Approach-Geography Techniques	3
Elective-Upper Level	3
Second Program	3
Second Program	3
SECOND SEMESTER	
GEOG Advanced Approach-Human Geography	3
GEOG Advanced Approach-Geography Techniques	3
Elective-Upper Level	3
Elective	3
Second Program	3
TOTAL	30

Minimum total for the baccalaureate degree = 120 credits

- a Geography majors must take 5 courses from any 3 of the 5 advanced geography approaches. One of these must be GEOG 368. See catalog.
- b Electives need to be carefully selected to ensure that a student's degree comprises at least 39 credits of upper division courses (300-400 level). While students are encouraged to take additional courses in geography, electives can be selected from any discipline as long as the student meets the course prerequisites.

Course Information

- GEOG 200 is recommended prior to enrollment in GEOG 335 and GEOG 370.
- GEOG 335 is a prerequisite for GEOG 370.
- GEOG 104, GEOG 111, GEOG 178, and GEOG 200 are expected as prerequisites for GEOG 368.
- One year before graduation, Geography majors must complete a form to certify their selected courses from the Advanced Geography Approaches. They must complete this form a second time one semester before graduation.
- Students must complete the requirements for a second program – this can be either a minor or an approved certificate.
- Required Geography courses plus Geography electives must equal at least 36 credits.

RECOMMENDATIONS FOR OPTIONAL HIGH IMPACT PRACTICES (HIPs)

The University of Wisconsin-Eau Claire encourages all students to participate in High Impact Practices. The following information identifies any specific recommendations that faculty in this major have concerning which HIPs might be most beneficial to students, and any recommendations about when those HIPs best fit into the degree plan. Students should also consult their faculty advisor for information on HIPs. There are many additional high impact opportunities available. Talk to your academic advisor for

more information about incorporating HIPs like Study Abroad (<https://studyabroad.apps.uwec.edu/>), Intercultural Immersion (<https://www.uwec.edu/immersion/>), Internship (<https://www.uwec.edu/offices-services/advising-retention-career-center/career-services/internship/job-searching-and/>), and/or Student/Faculty Collaborative Research (<https://www.uwec.edu/offices-services/office-research-and-sponsored-programs/getting-involved-student-faculty-research/>) into your time at UW-Eau Claire.

Required HIP: GEOG 368 : Geography Field Seminar
Optional HIPs: Faculty-led International Immersions (FLIIs), Student-Faculty Collaborative Research

Core General Education Requirements (CGER)

Core General Education Requirements (CGER)

The Core General Education Requirements (CGER) includes a minimum of 10 courses across 6 categories. Students must complete a minimum of 36 credits in courses approved for the CGER Core.

- Mathematics & Quantitative Reasoning (MQR) - 4 credits, one course minimum
 - Includes the University Mathematics Requirement¹
- Communication & Literacy (CL) - 8 credits, two courses minimum
 - Includes the University Writing Requirement (CL-W)²
- Natural Sciences & Wellness (NSW/NSWL) - 6 credits, one course minimum (NSW-Lab required)
- Social & Behavioral Sciences (SBS) - 6 credits, two courses minimum
- Humanities & Arts (HA) - 6 credits, two courses minimum
- Civics & Perspectives (CP) - 6 credits, two courses minimum

¹ University Mathematics Requirement:

Students satisfy the University Mathematics Requirement in one of four ways:

- completing an approved university-level mathematics course (MQR) with a grade of C (not C-) or above
- achieving a suitable score on the UW Math Placement Test (<https://www.uwec.edu/academics/academic-support/advising/testing/placement-testing/>)
- achieving a suitable score on an exam such as the Advanced Placement Calculus or Advanced Placement Statistics exams
- achieving a suitable score on a Credit by Examination administered by the Department of Mathematics.

² University Writing Requirement:

Students satisfy the University Writing Requirement in one of four ways:

- completing a Blugold Seminar in Critical Reading and Writing course (WRIT 102 (<https://catalog.uwec.edu/search/?P=WRIT%20102>), WRIT 114 (<https://catalog.uwec.edu/search/?P=WRIT%20114>), WRIT 116 (<https://catalog.uwec.edu/search/?P=WRIT%20116>), WRIT 118 (<https://catalog.uwec.edu/search/?P=WRIT%20118>), or WRIT 120 (<https://catalog.uwec.edu/search/?P=WRIT%20120>)) with a grade of C (not C-) or above
- achieving a suitable score on the English Placement Test (<https://www.uwec.edu/academics/blugold-seminar/writ-courses-placement/>) (WPT ENGL)
- achieving a suitable score on an exam such as the Advanced Placement English Literature and Composition or Advanced Placement English Language and Composition exams
- achieving a suitable score on the University Writing Program Portfolio.

Completion via Placement Test

- Writing: If the CL-W subcategory is satisfied through a placement test, the CGER Communication and Literacy requirement will be reduced from 8 credits (2 courses) to 3 credits (1 course).
- Mathematics: If the University Math Requirement is satisfied through a placement test, the CGER Mathematics & Quantitative Reasoning requirement will be considered fully met, replacing the 4-credit (1 course) requirement.
- Students must still complete 36 credits across 10 courses, with any remaining credits or courses eligible to be taken from any CGER category.

Geography, Minor - Liberal Arts

Liberal Arts (Code 140-410)

Code	Title	Credits
A minimum of 24 semester credits, including:		
GEOG 104	Planet Earth: The Physical Environment	4
GEOG 111	Planet Earth: Human Geography	3
GEOG 178	Planet Earth: Conservation of the Environment	3
GEOG 200	Foundations of Geography	3
Four courses to be selected from three of the five Advanced Geography Approaches (see below)		

Advanced Geography Approaches

Five courses from at least three advanced approaches are required for major programs. Four courses from at least three advanced approaches are required for minor programs.

Physical Geography

GEOG 304	Introduction to Geomorphology	4
GEOG 340	Climatology	3
GEOG 345	Quaternary Environments	3
GEOG 350	Soils and the Environment	4
GEOG 355	Biogeography	3
GEOG 363	Watershed Analysis	4
GEOG 364	Fluvial Processes and Landforms	4

Human-Environmental Geography

GEOG 270	Introduction to Urban and Regional Planning	3
GEOG 341	Weather and Society	3
GEOG 361	Environmental Hazards	3
GEOG 365	Tourism Geographies	3
GEOG 375	Environmental Quality	3
GEOG 377	U.S. Environmental and Sustainability Policy	3
GEOG 378	International Environmental Problems and Policy	3
GEOG 445	Historical Geography	3

Human Geography

GEOG 155	Economic Geography	3
GEOG 288	Cultural Landscapes of North America	3
GEOG 312	Space, Society, Subject	3
GEOG 313	Culture and Transnational Dynamics	3

GEOG 322	Native Geographies	3
GEOG 352	Business Geographics	3
GEOG 366	Geography International Immersion Experience	1-3
GEOG 367	Landscape Analysis: Cultural	3
GEOG 369	Geography of Food	3
GEOG 444	Legal Geographies of Race in the U.S.	3
GEOG 446	Political Geography	3
GEOG 470	Urban Geography	3

Geography Techniques

GEOG 280	Introduction to Cartography and Visualization	3
GEOG 335	Geographic Information Systems I ¹	3
GEOG 336	Geospatial Field Methods	3
GEOG 337	Geographic Information Systems II	3
GEOG 338	Remote Sensing of the Environment	3
GEOG 339	Applied Cartography and Geovisualization	3
GEOG 358	LiDAR Analysis & Applications	3
GEOG 370	Quantitative Methods in Geography ¹	3
GEOG 390	Geospatial Applications of UAS	3
GEOG 435	Geographic Information Systems III	3
GEOG 438	Remote Sensing Data Analytics	3
GEOG 455	Web Geographic Information Systems	3

Regional Geography

GEOG 301	Geography of Western Europe	3
GEOG 308	Geography of Russia and Eastern Europe	3
GEOG 319	Geography of the Middle East and North Africa	3
GEOG 321	Geography of Latin America	3
GEOG 325	Geography of the United States and Canada	3
GEOG 379	Geography of Wisconsin	3

Other Geography Courses

The following courses can be applied to any of the five approaches with consent of the advisor:

GEOG 368	Geography Field Seminar ¹	3
GEOG 395	Directed Studies	1-3
GEOG 399	Independent Study - Juniors	1-3
GEOG 491	Advanced Special Topics	1-3
GEOG 498	Geography Internship	1-3
GEOG 499	Independent Study - Seniors	1-3

¹ Required courses for majors only.

Program Learning Outcomes

Students completing this program will be expected to meet the following learning outcomes:

- Demonstrate geographical knowledge, understanding, and significance through analysis, explanation, and critique.
- Effectively use and apply the tools of geographic inquiry.

- Effectively explain how geographic approaches and perspectives are used to address socially/environmentally relevant questions and problems and why identifying the underlying spatial relationships is significant.

Geography, Transnational Geographies, Comprehensive Major

Liberal Arts (Code 140-009)

University Requirements

GRADUATION REQUIREMENTS FOR BACCALAUREATE DEGREE

Credit Requirements	
Minimum total for graduation ¹	120
Upper division credits (courses numbered 300 and higher)	39
Core General Education	10 courses, 36 credits
Academic Concentrations	
Grade Point Requirements ²	
Total	2.00 average
Resident	2.00 average
Major	2.00 average
Minor	2.00 average
Certificate	2.00 average
University Residency Requirements	
Minimum total	30
Senior year	23
Major, Standard, upper division in residence	12
Major, Comprehensive, upper division in residence	21
Certificate	25 percent of credits
Procedures Required for Graduation	
Obtain admission to the degree program and/or the College offering it.	
Apply for graduation on CampS.	

¹ Certain programs exceed this minimum.
² See special requirements in each College.

Applicability of Credits Toward Graduation

Junior College or Two-Year College Credits. A maximum of 72 semester credits earned in a junior college or two-year college will be accepted as degree credits at UW-Eau Claire.

Extension Credits. Credits earned in credit outreach courses offered by UW-Eau Claire are treated as resident credits. Credits earned in extension courses offered by other units of the Universities of Wisconsin System are treated as transfer credits. All other (non-UW) extension and correspondence credits are normally limited to one-fourth of the total required for graduation from any curriculum.

WTCS Credits. A maximum of 72 semester credits earned in college parallel programs at Madison Area Technical College, Milwaukee Area Technical College, Nicolet Area Technical College, or Chippewa Valley Technical College may be accepted as degree credits at UW-Eau Claire. A set number of general

education courses will be accepted from other technical schools. Occupational and technical courses may also be considered for transfer if the quality and content of the course work from the technical college is judged to be comparable to course work at UW-Eau Claire. Refer to the Transfer Credit Wizard (https://www.uwec.sis.wisconsin.edu/psp/eauprd-tb/EMPLOYEE/SA/c/EAU_SS_CUSTOM.EAU_TRNCRDWZ.GBL) or contact the UW-Eau Claire Admissions Office for information about the current transfer policy.

USAFI Credit. UW-Eau Claire will accept up to 32 semester credits for work done through the United States Armed Forces Institute, under the provision for non-UW correspondence credit (see Extension Credits above).

Activity Credit (band, chorus, drama, KINS 100-184 courses) Students may count toward graduation no more than one credit of KINS 110-184 courses. Students may count toward graduation no more than four credits earned in any single activity course and no more than 12 credits resulting from any combination of activity courses (excluding KINS 110-184 courses).

Other Restricted Credits. For other University restrictions, see the following: Cooperative Education; Credit by Examination; Satisfactory/Unsatisfactory Registration; Transfer of Credits. College or departmental restrictions may also be placed on Independent Study (399-499 courses), Directed Study (395-495), and other types of credits.

APPLICABILITY OF CREDITS TOWARD GRADUATION		Credit Restrictions
Satisfactory/Unsatisfactory		
Total degree credit		maximum 12
Major, Standard		maximum 1 course
Major, Comprehensive		maximum 2 courses
Minor		maximum 1 course
Credit by Examination		
Total degree credit		maximum ¼ of total
Major or minor		maximum ½ of total
Two-Year College Credits		
Total degree credit		maximum 72 credits
Activity credit (band, chorus, drama, KINS 100-184)		
Total KINS 100-184		maximum 1 credit
Total Band, chorus, drama		maximum 12 credits
Single course band, chorus, drama		maximum 4 credits
Extension credits		
UW-System		no maximum
Other extension/correspondence		maximum ¼ of total
USAFI		
USAFI		maximum 32 credits

Core General Education Requirements (CGER)

CGER Categories

Mathematics & Quantitative Reasoning (MQR) (http://catalog.uwec.edu/undergraduate/outcome-mqr/)	4 credit hours, 1 course min
Includes University Math Requirement ¹	
Communication & Literacy (CL) (http://catalog.uwec.edu/undergraduate/outcome-cl/)	8 credit hours, 2 course min (including CL-W)
Includes University Writing Requirement (CL-W) (http://catalog.uwec.edu/undergraduate/outcome-clw/) ²	
Natural Sciences & Wellness (NSW/NSWL) (http://catalog.uwec.edu/undergraduate/outcome-NSW/)	6 credit hours, 1 course min (NSW-Lab required)
Social & Behavioral Sciences (SBS) (https://catalog.uwec.edu/undergraduate/outcome-sbs/)	6 credit hours, 2 course min
Humanities & Arts (HA) (http://catalog.uwec.edu/undergraduate/outcome-ha/)	6 credit hours, 2 course min
Civics & Perspectives (CP) (http://catalog.uwec.edu/undergraduate/outcome-cp/)	6 credit hours, 2 course min
CGER Totals ³	
Credits	minimum 36 credits
Courses	minimum 10 courses

¹ University Mathematics Requirement:

Students satisfy the University Mathematics Requirement in one of four ways:

- completing an approved university-level mathematics course (MQR) with a grade of C (not C-) or above
- achieving a suitable score on the UW Math Placement Test (<https://www.uwec.edu/academics/academic-support/advising/testing/placement-testing/>)
- achieving a suitable score on an exam such as the Advanced Placement Calculus or Advanced Placement Statistics exams
- achieving a suitable score on a Credit by Examination administered by the Department of Mathematics.

² University Writing Requirement:

Students satisfy the University Writing Requirement in one of four ways:

- completing a Blugold Seminar in Critical Reading and Writing course (WRIT 102 (<https://catalog.uwec.edu/search/?P=WRIT%20102>), WRIT 114 (<https://catalog.uwec.edu/search/?P=WRIT%20114>), WRIT 116 (<https://catalog.uwec.edu/search/?P=WRIT%20116>), WRIT 118 (<https://catalog.uwec.edu/search/?P=WRIT%20118>), or WRIT 120 (<https://catalog.uwec.edu/search/?P=WRIT%20120>)) with a grade of C (not C-) or above
- achieving a suitable score on the English Placement Test (<https://www.uwec.edu/academics/blugold-seminar/writ-courses-placement/>) (WPT ENGL)
- achieving a suitable score on an exam such as the Advanced Placement English Literature and Composition or Advanced Placement English Language and Composition exams
- achieving a suitable score on the University Writing Program Portfolio.

³ Completion via Placement Tests

- Writing: If the CL-W subcategory is satisfied through a placement test, the CGER Communication and Literacy requirement will be reduced from 8 credits (2 courses) to 3 credits (1 course).

- Mathematics: If the University Math Requirement is satisfied through a placement test, the CGER Mathematics & Quantitative Reasoning requirement will be considered fully met, replacing the 4-credit (1 course) requirement.
- Students must still complete 36 credits across 10 courses, with any remaining credits or courses eligible to be taken from any CGER category.

College Degree Requirements

Bachelor of Arts or Bachelor of Science Degree (B.A./B.S.)

University Graduation Requirements. All candidates for degrees must fulfill the requirements for credits, curriculum, GPA, and University residency as specified in the section of this catalog titled University Graduation Requirements.

College Graduation Requirements: Grade Point Averages. All candidates for degrees in the College of Arts and Sciences must earn minimum resident and total GPAs of 2.00 in the major, the minor, and the certificate. The resident and total GPAs for the major are computed using all attempted credits applicable to the major including those offered by departments other than the major department. The resident and total GPAs for the minor and the certificate are computed similarly.

Major-Minor and Major-Certificate Requirements. A standard major (a minimum of 36 credits) must be supplemented by a minor (a minimum of 24 credits) or by a certificate (12 to 18 credits) to meet graduation requirements for completing a first and second degree program. No minor or certificate is required with a Comprehensive Major (60 or more credits) or with two majors of 36 or more credits each.

Certain degree programs, which include Comprehensive Majors, may require more than the minimum of 120 credits for graduation.

Acceptable academic program combinations are determined at the college level. A major and a minor or a major and certificate or two majors (if available) may not be elected in the same department or program, except in the approved combinations listed here.

College Credits. Earn at least 90 credits in courses offered by the College of Arts and Sciences.

Bachelor of Arts Degree in the College of Arts and Sciences (B.A.)

Fulfillment of all University Graduation Requirements (which includes the Core General Education Requirements); all College-level degree requirements (major and minor/certificate emphases, GPAs, earning at least 90 credits in Arts and Sciences course work); second language competency at the 102 level. Second language competency may be met in one of two ways: (1) Demonstrate a level of second language competency that qualifies the student to enter the 201-level course in a second language. (2) Earn a grade of at least C (not C-) or a mark of S in a 102-level second language course (or AIS 112 or AIS 122 or SLHS 103).

Bachelor of Science Degree in the College of Arts and Sciences (B.S.)

Fulfillment of all University Graduation Requirements (which includes the Core General Education Requirements); all College-level degree requirements (major and minor/certificate emphases, GPAs, earning at least 90 credits in Arts and Sciences course work); mathematics competency at the MATH 111, MATH 112 or MATH 113 level. Mathematics competency can be met in one of three ways: (1) Achieve a score on the mathematics placement test that qualifies the student to enter MATH 114. (2) Earn a grade of at least C (not C-) or a mark of S

in MATH 111, MATH 112, or MATH 113. (3) Achieve a satisfactory score on the MATH 112 competency test. This test may be attempted no more than two times.

Major Requirements

Liberal Arts (Code 140-009)

Transnational Geographies

The Transnational Geographies Comprehensive Major provides an opportunity for students to pursue their interests in human geographic processes - including economic, political, historical, migratory, and cultural flows and interconnections - that take place across national boundaries. This major is ideal for students who are interested in cross-cultural interactions, social justice, ethnographic field research, work or study abroad, or for those who desire strong preparation for careers in civic governance, policies, and planning; intercultural work in the public or private sectors, and non-profit/NGO community and regional development.

A minimum of 60 semester credits, including completion of the following:

Code	Title	Credits
Geography Major Core Requirements		
GEOG 104	Planet Earth: The Physical Environment	4
GEOG 111	Planet Earth: Human Geography	3
GEOG 178	Planet Earth: Conservation of the Environment	3
GEOG 200	Foundations of Geography	3
GEOG 335	Geographic Information Systems I	3
GEOG 370	Quantitative Methods in Geography	3
Five additional courses selected from three of five Advanced Geography Approaches ¹		

¹ One of the additional courses must be GEOG 368 - note that the Advanced Geography Approach to which it applies may vary by semester.

Code	Title	Credits
In addition to the core requirements for the geography major, students in the Transnational Geographies Emphasis must take:		
One of the following GEOG/ANTH courses that will count toward the geography elective:		6
GEOG/ANTH 312	Space, Society, Subject	
OR		
GEOG/ANTH 313	Culture and Transnational Dynamics	
AND		
WGSS 335	Transnational Feminism	
Minimum of one course from each of the following two categories and a total of 9 credits:		
Category I - Internationally focused transnational courses		3-6
AIS/RELS 330	Indigenous Religions of the Americas	
ENGL 130	Introduction to World/Postcolonial Literature	
ENGL 230	Survey of World/Postcolonial Literature	
ENGL 330	Topics in World/Postcolonial Literature	
ENGL 430	Seminar in World/Postcolonial Literature	

FLTR 330	Chinese Culture through Films	
FLTR/LAS 350	Latin American Literature in Translation	
HIST 152	Modern East and Southeast Asia	
HIST 292	Origins of Current World Conflicts	
HIST 316	Studies in Asian/Pacific World History	
HIST 319	Studies in Global and Comparative History	
HIST 325	History and Memory in Europe	
HIST 326	Twentieth Century Europe, 1900 to Present	
HIST 360	Modern France	
HIST 362	Modern Germany	
HIST 381	Comparative Genocide	
HIST 382	Imperialism Since 1800	
HIST 383	Modern Africa	
HIST 384	The Vietnam War	
HIST 388	History of China	
HIST 389	History of Japan	
LAS/HIST 172	Latin American History: Colonial to the Present	
LAS/POLS 319	Politics of Latin America	
LAS/SPAN 352	Latin American Civilization	
LAS/SPAN 354	Latin American Civilization: Regional Focus	
MUSI 225	Global Traditions in Music	
POLS 260	Introduction to Comparative Politics	
POLS 321	Politics of the Middle East	
POLS 322	Politics of Russia	
POLS 323	Politics of Eastern Europe	
POLS 324	Politics of Asia	
POLS 327	Politics of Continental Europe	
POLS 329	Political Violence	
POLS 332	International Conflict	
POLS 334	International Political Economy	
POLS 336	Arab-Israeli Conflict	
RELS 309	Islam	
RELS 312	Buddhism: Past and Present	
RELS 314	Hinduism	
RELS 323	Chinese and Japanese Religions	
RELS 378	The Holocaust, 1933-1945	
SOC 366	Society in Contemporary China	
WGSS/RELS 203	Women and World Religions	
WGSS/HIST 313	Gender, Sex, and Science in European History	
WGSS/ENGL 332	Women in African Literature	
WGSS/POLS 352	Gender and Politics in Global Perspective	
Category II - Domestically focused transnational courses		3-6
AIS 142	Introduction to American Indian Literatures	
AIS/HIST 240	American Indian History	
AIS 242	The American Indian in Literature and Film	

AIS 243	Introduction to Contemporary American Indian Communities
AIS/HIST 369	Wisconsin American Indian History
AIS 444	Indigenous Theory and Methodologies
AIS 345	American Indian Autobiography
AIS 346	Major Works in American Indian Literature
ENGL 268	Survey of American Ethnic Literature
ENGL 468	Seminar in American Ethnic Literature
ES 385	Social Foundations: Human Relations
HIST 212	Hmong and America
HIST 317	Studies in the History of Race in the U.S.
LAS 222	Introduction to U.S. Latino History and Culture
SOC 312	Race and Ethnicity in the U.S.
WGSS 100	Introduction to Women's, Gender, and Sexuality Studies
WGSS 215	African-American Feminism in the Humanities
WGSS 306	Transgender Activism and Cultural Production
WGSS 315	Women of Color Feminisms
WGSS/HMNG 365	Intersectionality: Critical Approaches to Identity and Injustice

Geography electives to complete 60 credits

Note: A maximum of six credits earned in GEOG 395, GEOG 399, and/or GEOG 499 may count toward the major.

Advanced Geography Approaches

Five courses from at least three advanced approaches are required for major programs. Four courses from at least three advanced approaches are required for minor programs.

Physical Geography

GEOG 304	Introduction to Geomorphology	4
GEOG 340	Climatology	3
GEOG 345	Quaternary Environments	3
GEOG 350	Soils and the Environment	4
GEOG 355	Biogeography	3
GEOG 363	Watershed Analysis	4
GEOG 364	Fluvial Processes and Landforms	4

Human-Environmental Geography

GEOG 270	Introduction to Urban and Regional Planning	3
GEOG 341	Weather and Society	3
GEOG 361	Environmental Hazards	3
GEOG 365	Tourism Geographies	3
GEOG 375	Environmental Quality	3
GEOG 377	U.S. Environmental and Sustainability Policy	3
GEOG 378	International Environmental Problems and Policy	3
GEOG 445	Historical Geography	3

Human Geography

GEOG 155	Economic Geography	3
GEOG 288	Cultural Landscapes of North America	3
GEOG 312	Space, Society, Subject	3
GEOG 313	Culture and Transnational Dynamics	3
GEOG 322	Native Geographies	3
GEOG 352	Business Geographics	3
GEOG 366	Geography International Immersion Experience	1-3
GEOG 367	Landscape Analysis: Cultural	3
GEOG 369	Geography of Food	3
GEOG 444	Legal Geographies of Race in the U.S.	3
GEOG 446	Political Geography	3
GEOG 470	Urban Geography	3

Geography Techniques

GEOG 280	Introduction to Cartography and Visualization	3
GEOG 335	Geographic Information Systems I ¹	3
GEOG 336	Geospatial Field Methods	3
GEOG 337	Geographic Information Systems II	3
GEOG 338	Remote Sensing of the Environment	3
GEOG 339	Applied Cartography and Geovisualization	3
GEOG 358	LiDAR Analysis & Applications	3
GEOG 370	Quantitative Methods in Geography ¹	3
GEOG 390	Geospatial Applications of UAS	3
GEOG 435	Geographic Information Systems III	3
GEOG 438	Remote Sensing Data Analytics	3
GEOG 455	Web Geographic Information Systems	3

Regional Geography

GEOG 301	Geography of Western Europe	3
GEOG 308	Geography of Russia and Eastern Europe	3
GEOG 319	Geography of the Middle East and North Africa	3
GEOG 321	Geography of Latin America	3
GEOG 325	Geography of the United States and Canada	3
GEOG 379	Geography of Wisconsin	3

Other Geography Courses

The following courses can be applied to any of the five approaches with consent of the advisor:

GEOG 368	Geography Field Seminar ¹	3
GEOG 395	Directed Studies	1-3
GEOG 399	Independent Study - Juniors	1-3
GEOG 491	Advanced Special Topics	1-3
GEOG 498	Geography Internship	1-3
GEOG 499	Independent Study - Seniors	1-3

¹ Required courses for majors only.

Program Learning Outcomes

Students completing this program will be expected to meet the following learning outcomes:

- **Content:**
 - Geographic Foundation: Demonstrate geographical knowledge, understanding, and significance through analysis, explanation, and critique (Explain where things are located, why they are located where they are, what difference that location makes, and to whom).
- **Skills:**
 - Geographic Techniques: Effectively use and apply the tools of geographic inquiry (e.g., field and laboratory to gather quantitative and qualitative geographic data; GIS to acquire, manage, display, and analyze spatial data in digital form; cartography to display spatial information effectively; and spatial statistical methods to model and make inferences about spatial relationships and patterns).
 - Communication: Effectively explain how geographic approaches and perspectives are used to address socially/environmentally relevant questions and problems and why identifying the underlying spatial relationships is significant.
- **Responsibility:**
 - Equity, Diversity, and Inclusion (EDI): Use geographic knowledge and skills to evaluate assumptions, representations, and institutions in order to challenge existing structures in ways that respect diversity and foster social/environmental equity and inclusivity.
 - Ethics: Use geographic knowledge and skills to address social and environmental challenges in ways that maximize the benefits and minimize the harm to others.
- **Dispositions:**
 - Interdisciplinary perspective: Synthesize the information, concepts, and methods of natural and social sciences for geographic research and applications.
 - Relational perspective: Explain how people, places, and regions are linked by networks and processes across space and scale (such as local-global, within regions, globalization, trade, immigration, internet technology, climate).
- **Comprehensive:**
 - Transnational: Recognizes the geography of cross-boundary connections and interactions of people and institutions and uses geographic knowledge and skills to critically understand and respond to them.

Geography, Transnational Geographies, Comprehensive Major, B.A.

The following is a sample degree plan, based on the current catalog. It is based on the 120-credit graduation requirement and assumes no transferred credits, no requirements waived by placement tests, no courses taken in the summer or winter, no repeated courses, and no remedial courses that may be required. This sample degree plan is intended for first-year students entering UW-Eau Claire in the fall semester. Your own degree plan may differ depending on the course of study selected (second major, minor, etc.). UW-Eau Claire cannot guarantee all courses will be offered as shown, but will provide a range of courses that may enable prepared students to fulfill their requirements in a timely period. This sample degree plan is just a guide. Please consult your advisor, your degree audit, and the catalog to create your own degree plan. *Note:* In order to earn the required minimum of 120 credits for the degree in four years, you should plan to take 15 credits each semester or 30 credits each year.

To earn a degree, students must fulfill all University Graduation Requirements, including the Core General Education Requirements (CGER). CGER course work in the following sample degree plan uses abbreviations such as CGER CL, CGER HA, and CGER NSWL to represent the learning outcomes students will meet via

completion of the course. Please click here for a description of the outcomes and requirements.

Students in this major have the option to pursue either a Bachelor of Arts (B.A.) or a Bachelor of Science (B.S.) degree. The degrees are distinguished by second language competency for the B.A. and a higher level of mathematics competency for the B.S.

FIRST YEAR

FIRST SEMESTER		
GEOG 178	Planet Earth: Conservation of the Environment (CGER NSW)	3
WRIT 114	Intensive Blugold Seminar in Critical Reading and Writing (CGER CL)	5

OR

WRIT 116	Blugold Seminar in Critical Reading and Writing (CGER CL)	
CGER Option: Humanities & Arts (HA)		3
101-level Second Language (CGER CL)		4

SECOND SEMESTER

GEOG 104	Planet Earth: The Physical Environment (CGER NSWL)	4
GEOG 111	Planet Earth: Human Geography (CGER SBS)	3
CGER Option: Social & Behavioral Sciences (SBS)		3
102-level Second Language (CGER CL)		4

TOTAL	29

SECOND YEAR

FIRST SEMESTER		
GEOG 200	Foundations of Geography	3
GEOG 335	Geographic Information Systems I	3
CGER Option: Humanities & Arts (HA)		3
CGER Option: Humanities & Arts (HA)		3

FOURTH YEAR		
FIRST SEMESTER		
GEOG Elective		3
GEOG Advanced Approach - Regional Geography		3
GEOG Elective		3
Transnational Category I or II		3
GEOG Elective - Upper Level		3
SECOND SEMESTER		
GEOG Advanced Approach - Human Geography		3
GEOG Advanced Approach - Regional Geography		3
Elective - Upper Level		3
Elective		3
GEOG Elective		3
TOTAL		30

Minimum total for the baccalaureate degree = 120 credits

- Geography majors must take 5 courses from any 3 of the 5 advanced geography approaches. See catalog.
- In addition to the requirements for the geography liberal education degree, students in the Transnational emphasis must take three classes from the following two categories, and at least one from each: Category I and Category II. See catalog for details.
- Electives need to be carefully selected to ensure that a student's degree comprises at least 39 credits of upper division courses (300-400 level). While students are encouraged to take additional courses in geography, electives can be selected from any discipline as long as the student meets the course prerequisites. Required Geography courses plus Geography electives (and transnational electives from other departments) must equal at least 60 credits.

Course Information

- GEOG 200 is recommended prior to enrollment in GEOG 335 and GEOG 370.
- GEOG 335 is a prerequisite for GEOG 370.
- Students must take 12 credits from transnational courses from other disciplines. See catalog for specific details.
- One year before graduation, Geography majors must complete a form to certify their selected courses from the Advanced Geography Approaches. They must complete this form a second time one semester before graduation.

RECOMMENDATIONS FOR HIGH IMPACT PRACTICES (HIPs)

The University of Wisconsin-Eau Claire encourages all students to participate in High Impact Practices. The following information identifies any specific recommendations that faculty in this major have concerning which HIPs might be most beneficial to students, and any recommendations about when those HIPs best fit into the degree plan. Students should also consult their faculty advisor for information on HIPs. There are many additional high impact opportunities available. Talk to your academic advisor for more information about incorporating HIPs like Study Abroad (<https://studyabroad.apps.uwec.edu/>), Intercultural Immersion (<https://www.uwec.edu/immersion/>), Internship ([retention-career-center/career-services/internship/job-searching-and\), and/or Student/Faculty Collaborative Research \(<https://www.uwec.edu/offices-services/office-research-and-sponsored-programs/getting-involved-student-faculty-research>\) into your time at UW-Eau Claire.](https://www.uwec.edu/offices-services/advising-</p>
</div>
<div data-bbox=)

Required HIP: GEOG 368 : Geography Field Seminar
Optional HIPs: Study Abroad, National Student Exchange, Faculty-led International Immersions (FLIEs), Student-Faculty Collaborative Research.

Core General Education Requirements (CGER)

Core General Education Requirements (CGER)

The Core General Education Requirements (CGER) includes a minimum of 10 courses across 6 categories. Students must complete a minimum of 36 credits in courses approved for the CGER Core.

- Mathematics & Quantitative Reasoning (MQR) - 4 credits, one course minimum
 - Includes the University Mathematics Requirement¹
- Communication & Literacy (CL) - 8 credits, two courses minimum
 - Includes the University Writing Requirement (CL-W)²
- Natural Sciences & Wellness (NSW/NSWL) - 6 credits, one course minimum (NSW-Lab required)
- Social & Behavioral Sciences (SBS) - 6 credits, two courses minimum
- Humanities & Arts (HA) - 6 credits, two courses minimum
- Civics & Perspectives (CP) - 6 credits, two courses minimum

¹ University Mathematics Requirement:

Students satisfy the University Mathematics Requirement in one of four ways:

- completing an approved university-level mathematics course (MQR) with a grade of C (not C-) or above
- achieving a suitable score on the UW Math Placement Test (<https://www.uwec.edu/academics/academic-support/advising/testing/placement-testing/>)
- achieving a suitable score on an exam such as the Advanced Placement Calculus or Advanced Placement Statistics exams
- achieving a suitable score on a Credit by Examination administered by the Department of Mathematics.

² University Writing Requirement:

Students satisfy the University Writing Requirement in one of four ways:

- completing a Blugold Seminar in Critical Reading and Writing course (WRIT 102 (<https://catalog.uwec.edu/search/?P=WRIT%20102>), WRIT 114 (<https://catalog.uwec.edu/search/?P=WRIT%20114>), WRIT 116 (<https://catalog.uwec.edu/search/?P=WRIT%20116>), WRIT 118 (<https://catalog.uwec.edu/search/?P=WRIT%20118>), or WRIT 120 (<https://catalog.uwec.edu/search/?P=WRIT%20120>)) with a grade of C (not C-) or above
- achieving a suitable score on the English Placement Test (<https://www.uwec.edu/academics/blugold-seminar/writ-courses-placement/>) (WPT ENGL)
- achieving a suitable score on an exam such as the Advanced Placement English Literature and Composition or Advanced Placement English Language and Composition exams
- achieving a suitable score on the University Writing Program Portfolio.

Completion via Placement Test

- Writing: If the CL-W subcategory is satisfied through a placement test, the CGER Communication and Literacy requirement will be reduced from 8 credits (2 courses) to 3 credits (1 course).
- Mathematics: If the University Math Requirement is satisfied through a placement test, the CGER Mathematics & Quantitative Reasoning requirement will be considered fully met, replacing the 4-credit (1 course) requirement.
- Students must still complete 36 credits across 10 courses, with any remaining credits or courses eligible to be taken from any CGER category.

Geospatial Analysis and Technology, Comprehensive Major

Liberal Arts (Code 141-001)

University Requirements

GRADUATION REQUIREMENTS FOR BACCALAUREATE DEGREE

Credit Requirements	
Minimum total for graduation ¹	120
Upper division credits (courses numbered 300 and higher)	39
Core General Education	10 courses, 36 credits
Academic Concentrations	
Grade Point Requirements ²	
Total	2.00 average
Resident	2.00 average
Major	2.00 average
Minor	2.00 average
Certificate	2.00 average
University Residency Requirements	
Minimum total	30
Senior year	23
Major, Standard, upper division in residence	12
Major, Comprehensive, upper division in residence	21
Certificate	25 percent of credits

Procedures Required for Graduation

- Obtain admission to the degree program and/or the College offering it.
- Apply for graduation on CampS.

¹ Certain programs exceed this minimum.
² See special requirements in each College.

Applicability of Credits Toward Graduation

Junior College or Two-Year College Credits. A maximum of 72 semester credits earned in a junior college or two-year college will be accepted as degree credits at UW-Eau Claire.

Extension Credits. Credits earned in credit outreach courses offered by UW-Eau Claire are treated as resident credits. Credits earned in extension courses offered by other units of the Universities of Wisconsin System are treated as

transfer credits. All other (non-UW) extension and correspondence credits are normally limited to one-fourth of the total required for graduation from any curriculum.

WTCS Credits. A maximum of 72 semester credits earned in college parallel programs at Madison Area Technical College, Milwaukee Area Technical College, Nicolet Area Technical College, or Chippewa Valley Technical College may be accepted as degree credits at UW-Eau Claire. A set number of general education courses will be accepted from other technical schools. Occupational and technical courses may also be considered for transfer if the quality and content of the course work from the technical college is judged to be comparable to course work at UW-Eau Claire. Refer to the Transfer Credit Wizard (https://www.uwec.sis.wisconsin.edu/psp/eauprd-tb/EMPLOYEE/SA/c/EAU_SS_CUSTOM.EAU_TRNCRDWZ.GBL) or contact the UW-Eau Claire Admissions Office for information about the current transfer policy.

USAFI Credit. UW-Eau Claire will accept up to 32 semester credits for work done through the United States Armed Forces Institute, under the provision for non-UW correspondence credit (see Extension Credits above).

Activity Credit (band, chorus, drama, KINS 100-184 courses) Students may count toward graduation no more than one credit of KINS 110-184 courses. Students may count toward graduation no more than four credits earned in any single activity course and no more than 12 credits resulting from any combination of activity courses (excluding KINS 110-184 courses).

Other Restricted Credits. For other University restrictions, see the following: Cooperative Education; Credit by Examination; Satisfactory/Unsatisfactory Registration; Transfer of Credits. College or departmental restrictions may also be placed on Independent Study (399-499 courses), Directed Study (395-495), and other types of credits.

APPLICABILITY OF CREDITS TOWARD GRADUATION		Credit Restrictions
Satisfactory/Unsatisfactory		
Total degree credit		maximum 12
Major, Standard		maximum 1 course
Major, Comprehensive		maximum 2 courses
Minor		maximum 1 course
Credit by Examination		
Total degree credit		maximum ¼ of total
Major or minor		maximum ½ of total
Two-Year College Credits		
Total degree credit		maximum 72 credits
Activity credit (band, chorus, drama, KINS 100-184)		
Total KINS 100-184		maximum 1 credit
Total Band, chorus, drama		maximum 12 credits
Single course band, chorus, drama		maximum 4 credits
Extension credits		
UW-System		no maximum

Other extension/correspondence	maximum ¼ of total
USAFI	
USAFI	maximum 32 credits

Core General Education Requirements (CGER)

CGER Categories

Mathematics & Quantitative Reasoning (MQR) (http://catalog.uwec.edu/undergraduate/outcome-mqr/)	4 credit hours, 1 course min
Includes University Math Requirement ¹	
Communication & Literacy (CL) (http://catalog.uwec.edu/undergraduate/outcome-cl/)	8 credit hours, 2 course min (including CL-W)
Includes University Writing Requirement (CL-W) (http://catalog.uwec.edu/undergraduate/outcome-clw/) ²	
Natural Sciences & Wellness (NSW/NSWL) (http://catalog.uwec.edu/undergraduate/outcome-NSW/)	6 credit hours, 1 course min (NSW-Lab required)
Social & Behavioral Sciences (SBS) (https://catalog.uwec.edu/undergraduate/outcome-sbs/)	6 credit hours, 2 course min
Humanities & Arts (HA) (http://catalog.uwec.edu/undergraduate/outcome-ha/)	6 credit hours, 2 course min
Civics & Perspectives (CP) (http://catalog.uwec.edu/undergraduate/outcome-cp/)	6 credit hours, 2 course min
CGER Totals ³	
Credits	minimum 36 credits
Courses	minimum 10 courses

¹ **University Mathematics Requirement:**

Students satisfy the University Mathematics Requirement in one of four ways:

- completing an approved university-level mathematics course (MQR) with a grade of C (not C-) or above
- achieving a suitable score on the UW Math Placement Test (<https://www.uwec.edu/academics/academic-support/advising/testing/placement-testing/>)
- achieving a suitable score on an exam such as the Advanced Placement Calculus or Advanced Placement Statistics exams
- achieving a suitable score on a Credit by Examination administered by the Department of Mathematics.

² **University Writing Requirement:**

Students satisfy the University Writing Requirement in one of four ways:

- completing a Blugold Seminar in Critical Reading and Writing course (WRIT 102 (<https://catalog.uwec.edu/search/?P=WRIT%20102>), WRIT 114 (<https://catalog.uwec.edu/search/?P=WRIT%20114>), WRIT 116 (<https://catalog.uwec.edu/search/?P=WRIT%20116>), WRIT 118 (<https://catalog.uwec.edu/search/?P=WRIT%20118>), or WRIT 120 (<https://catalog.uwec.edu/search/?P=WRIT%20120>)) with a grade of C (not C-) or above
- achieving a suitable score on the English Placement Test (<https://www.uwec.edu/academics/blugold-seminar/writ-courses-placement/>) (WPT ENGL)

- achieving a suitable score on an exam such as the Advanced Placement English Literature and Composition or Advanced Placement English Language and Composition exams
- achieving a suitable score on the University Writing Program Portfolio.

³ **Completion via Placement Tests**

- Writing: If the CL-W subcategory is satisfied through a placement test, the CGER Communication and Literacy requirement will be reduced from 8 credits (2 courses) to 3 credits (1 course).
- Mathematics: If the University Math Requirement is satisfied through a placement test, the CGER Mathematics & Quantitative Reasoning requirement will be considered fully met, replacing the 4-credit (1 course) requirement.
- Students must still complete 36 credits across 10 courses, with any remaining credits or courses eligible to be taken from any CGER category.

College Degree Requirements

Bachelor of Arts or Bachelor of Science Degree (B.A./B.S.)

University Graduation Requirements. All candidates for degrees must fulfill the requirements for credits, curriculum, GPA, and University residency as specified in the section of this catalog titled University Graduation Requirements.

College Graduation Requirements: Grade Point Averages. All candidates for degrees in the College of Arts and Sciences must earn minimum resident and total GPAs of 2.00 in the major, the minor, and the certificate. The resident and total GPAs for the major are computed using all attempted credits applicable to the major including those offered by departments other than the major department. The resident and total GPAs for the minor and the certificate are computed similarly.

Major-Minor and Major-Certificate Requirements. A standard major (a minimum of 36 credits) must be supplemented by a minor (a minimum of 24 credits) or by a certificate (12 to 18 credits) to meet graduation requirements for completing a first and second degree program. No minor or certificate is required with a Comprehensive Major (60 or more credits) or with two majors of 36 or more credits each.

Certain degree programs, which include Comprehensive Majors, may require more than the minimum of 120 credits for graduation.

Acceptable academic program combinations are determined at the college level. A major and a minor or a major and certificate or two majors (if available) may not be elected in the same department or program, except in the approved combinations listed here.

College Credits. Earn at least 90 credits in courses offered by the College of Arts and Sciences.

Bachelor of Arts Degree in the College of Arts and Sciences (B.A.)

Fulfillment of all University Graduation Requirements (which includes the Core General Education Requirements); all College-level degree requirements (major and minor/certificate emphases, GPAs, earning at least 90 credits in Arts and Sciences course work); second language competency at the 102 level. Second language competency may be met in one of two ways: (1) Demonstrate a level of second language competency that qualifies the student to enter the 201-level course in a second language. (2) Earn a grade of at least C (not C-)

or a mark of S in a 102-level second language course (or AIS 112 or AIS 122 or SLHS 103).

Bachelor of Science Degree in the College of Arts and Sciences (B.S.)

Fulfillment of all University Graduation Requirements (which includes the Core General Education Requirements); all College-level degree requirements (major and minor/certificate emphases, GPAs, earning at least 90 credits in Arts and Sciences course work); mathematics competency at the MATH 111, MATH 112 or MATH 113 level. Mathematics competency can be met in one of three ways:

(1) Achieve a score on the mathematics placement test that qualifies the student to enter MATH 114. (2) Earn a grade of at least C (not C-) or a mark of S in MATH 111, MATH 112, or MATH 113. (3) Achieve a satisfactory score on the MATH 112 competency test. This test may be attempted no more than two times.

Major Requirements

Liberal Arts (Code 141-001)

The Geospatial Analysis and Technology major will ground students in current geographic and geospatial traditions in a multidisciplinary learning approach.

This comprehensive major integrates tools and skills with an engaging curriculum and high impact practices, such as internships and undergraduate research opportunities. It engages critical thinking both inside and outside the classroom. Specific areas of interest include Geographic Information Systems, Remote Sensing, LiDAR, Field Data Collection, Business Geographics, and Unmanned Aerial Systems.

Minimum of 60 semester credits including:

Code	Title	Credits
Core Requirements		
GEOG 104	Planet Earth: The Physical Environment	4
GEOG 111	Planet Earth: Human Geography	3
GEOG 135 or GEOG 178	Planet Earth: Our Digital Globe Planet Earth: Conservation of the Environment	3
GEOG 200	Foundations of Geography	3
DS 150	Computing in Python: Fundamentals and Procedural Programming	4
IS 240	Information Systems in Business	3
GEOG 335	Geographic Information Systems I	3
GEOG 336	Geospatial Field Methods	3
GEOG 337	Geographic Information Systems II	3
GEOG 338	Remote Sensing of the Environment	3
GEOG 370	Quantitative Methods in Geography	3
GEOG 435 or GEOG 438	Geographic Information Systems III Remote Sensing Data Analytics	3
GEOG 498	Geography Internship (3 credits required)	1-3
Any 300 or 400 level geography course not noted in major requirements		3
Subtotal		44
Remaining credits to be chosen from the following with at least 6 credits from outside Geography:		16
Geography Geospatial Electives		
GEOG 280	Introduction to Cartography and Visualization	

GEOG 339	Applied Cartography and Geovisualization
GEOG 352	Business Geographics
GEOG 358	LiDAR Analysis & Applications
GEOG 363	Watershed Analysis
GEOG 390	Geospatial Applications of UAS
GEOG 395	Directed Studies ²
GEOG 399	Independent Study - Juniors ²
GEOG 435	Geographic Information Systems III ¹
GEOG 438	Remote Sensing Data Analytics ¹
GEOG 455	Web Geographic Information Systems
GEOG 491	Advanced Special Topics ²
GEOG 499	Independent Study - Seniors ²
Other Elective Options (Minimum of 6 credits)	
IS 304	Fundamentals of Business Programming
IS 307	Introduction to Business Analytics
IS 310	Business Process Modeling
IS 314	Advanced Business Programming
IS 324	System Development Methodologies
IS 344	Database Management Systems
IS 345	Computer Networks
CS 140	Introduction to Computer Science
CS 150	Object-Oriented Programming
CS 163	Introduction to Programming in C++
CS 170	Computing for the Sciences and Mathematics
CS 318	Fundamentals of Web Page Design
CS 319	Introduction to Web Programming
ART 108	Foundations: Two-Dimensional Design
ART 312	Design Across the Disciplines
DS 140	Basics of Data Analysis with R
ENGL 312	Science Writing
ENGL 313	Technical Writing
ENT 371	Customer Discovery and Business Model Design
ENT 373	New Venture Feasibility
MATH 442	Advanced Statistical Modeling
MATH 445	Survey Sampling
MATH 447	Nonparametric Statistics
Note: A maximum of six credits earned in GEOG 395, GEOG 399, and/or GEOG 499 may count toward the major.	

¹ If not taken for Core Requirements.

² If applicable and with consent of faculty advisor.

Program Learning Outcomes

Students completing this program will be expected to meet the following learning outcomes:

- Content:
 - Geographic Foundation: Demonstrate geographical knowledge, understanding, and significance through analysis, explanation, and

critique (Explain where things are located, why they are located where they are, what difference that location makes, and to whom).

- Skills:
 - Geographic Techniques: Effectively use and apply the tools of geographic inquiry (e.g., field and laboratory to gather quantitative and qualitative geographic data; GIS to acquire, manage, display, and analyze spatial data in digital form; cartography to display spatial information effectively; and spatial statistical methods to model and make inferences about spatial relationships and patterns).
 - Communication: Effectively explain how geographic approaches and perspectives are used to address socially/environmentally relevant questions and problems and why identifying the underlying spatial relationships is significant.
- Responsibility:
 - Equity, Diversity, and Inclusion (EDI): Use geographic knowledge and skills to evaluate assumptions, representations, and institutions in order to challenge existing structures in ways that respect diversity and foster social/environmental equity and inclusivity.
 - Ethics: Use geographic knowledge and skills to address social and environmental challenges in ways that maximize the benefits and minimize the harm to others.
- Dispositions:
 - Interdisciplinary perspective: Synthesize the information, concepts, and methods of the humanities and the natural and social sciences for geographic research and applications.
 - Relational perspective: Explain how people, places, and regions are linked by networks and processes across space and scale (such as local-global, within regions, globalization, trade, immigration, internet technology, climate).
- Comprehensive:
 - Geospatial: Expertly use geospatial information/data and technologies to address geographical issues.

Geospatial Analysis and Technology, Comprehensive Major, B.S.

The following is a sample degree plan, based on the current catalog. It is based on the 120-credit graduation requirement and assumes no transferred credits, no requirements waived by placement tests, no courses taken in the summer or winter, no repeated courses, and no remedial courses that may be required. This sample degree plan is intended for first-year students entering UW-Eau Claire in the fall semester. Your own degree plan may differ depending on the course of study selected (second major, minor, etc.). UW-Eau Claire cannot guarantee all courses will be offered as shown, but will provide a range of courses that may enable prepared students to fulfill their requirements in a timely period. This sample degree plan is just a guide. Please consult your advisor, your degree audit, and the catalog to create your own degree plan. Note: In order to earn the required minimum of 120 credits for the degree in four years, you should plan to take 15 credits each semester or 30 credits each year.

To earn a degree, students must fulfill all University Graduation Requirements, including the Core General Education Requirements (CGER). CGER course work in the following sample degree plan uses abbreviations such as CGER CL, CGER HA, and CGER NSWL to represent the learning outcomes students will meet via completion of the course. Please click here for a description of the outcomes and requirements.

Students in this major have the option to pursue either a Bachelor of Arts (B.A.) or a Bachelor of Science (B.S.) degree. The degrees are distinguished by second language competency for the B.A. and a higher level of mathematics competency for the B.S.

Minimum total for the baccalaureate degree = 120 credits

- a Environmental Geography and Geospatial comprehensive majors are required to take 12 credits of related course work outside of the major with consent of their advisor.
- b Electives need to be carefully selected to ensure that a student's degree comprises at least 39 credits of upper division courses (300-400 level). While students are encouraged to take additional courses in geography, these can be selected from any discipline provided student meets course prerequisites. Required Geography courses plus Geography electives (and environmental electives from other departments) must equal at least 60 credits.

Course Information

- GEOG 200 is recommended prior to enrollment in GEOG 335 and GEOG 370.
- GEOG 335 is a prerequisite for GEOG 370.
- Student must complete one upper-level GEOG course in an advanced geography approach that is not a Geospatial course (300/400).
- Student must choose either GEOG 435 or GEOG 438 and will be advised to follow similar courses for additional Geospatial Elective (i.e. GEOG 438 would lead into GEOG 358 LiDAR)
- Student can take GEOG 498 Internship.
- With consent of advisor, a minimum of 12 credits must be taken outside of Geography. Seven outside credits are earned by the requirement of DS 150 and IS 240.
- Required Geography courses plus DS 150 and IS 240 plus Geography electives (and Geospatial Electives and electives from other departments) must equal at least 60 credits.

RECOMMENDATIONS FOR OPTIONAL HIGH IMPACT PRACTICES (HIPs)

The University of Wisconsin-Eau Claire encourages all students to participate in High Impact Practices. The following information identifies any specific recommendations that faculty in this major have concerning which HIPs might be most beneficial to students, and any recommendations about when those HIPs best fit into the degree plan. Students should also consult their faculty advisor for information on HIPs. There are many additional high impact opportunities available. Talk to your academic advisor for more information about incorporating HIPs like Study Abroad (<https://studyabroad.apps.uwec.edu/>), Intercultural Immersion (<https://www.uwec.edu/immersion/>), Internship (<https://www.uwec.edu/offices-services/advising-retention-career-center/career-services/internship/job-searching-and/>), and/

or Student/Faculty Collaborative Research (<https://www.uwec.edu/offices-services/office-research-and-sponsored-programs/getting-involved-student-faculty-research/>) into your time at UW-Eau Claire.

Required HIP: GEOG 498 : Geography Internship

Optional HIPs: GEOG 368 : Geography Field Seminar , Study Abroad, National Student Exchange, Faculty-led International Immersions (FLIIs), Student-Faculty Collaborative Research

Core General Education Requirements (CGER)

Core General Education Requirements (CGER)

The Core General Education Requirements (CGER) includes a minimum of 10 courses across 6 categories. Students must complete a minimum of 36 credits in courses approved for the CGER Core.

- Mathematics & Quantitative Reasoning (MQR) - 4 credits, one course minimum
 - Includes the University Mathematics Requirement¹
- Communication & Literacy (CL) - 8 credits, two courses minimum
 - Includes the University Writing Requirement (CL-W)²
- Natural Sciences & Wellness (NSW/NSWL) - 6 credits, one course minimum (NSW-Lab required)
- Social & Behavioral Sciences (SBS) - 6 credits, two courses minimum
- Humanities & Arts (HA) - 6 credits, two courses minimum
- Civics & Perspectives (CP) - 6 credits, two courses minimum

¹ University Mathematics Requirement:

Students satisfy the University Mathematics Requirement in one of four ways:

- completing an approved university-level mathematics course (MQR) with a grade of C (not C-) or above
- achieving a suitable score on the UW Math Placement Test (<https://www.uwec.edu/academics/academic-support/advising/testing/placement-testing/>)
- achieving a suitable score on an exam such as the Advanced Placement Calculus or Advanced Placement Statistics exams
- achieving a suitable score on a Credit by Examination administered by the Department of Mathematics.

² University Writing Requirement:

Students satisfy the University Writing Requirement in one of four ways:

- completing a Blugold Seminar in Critical Reading and Writing course (WRIT 102 (<https://catalog.uwec.edu/search/?P=WRIT%20102>), WRIT 114 (<https://catalog.uwec.edu/search/?P=WRIT%20114>), WRIT 116 (<https://catalog.uwec.edu/search/?P=WRIT%20116>), WRIT 118 (<https://catalog.uwec.edu/search/?P=WRIT%20118>), or WRIT 120 (<https://catalog.uwec.edu/search/?P=WRIT%20120>)) with a grade of C (not C-) or above
- achieving a suitable score on the English Placement Test (<https://www.uwec.edu/academics/blugold-seminar/writ-courses-placement/>) (WPT ENGL)
- achieving a suitable score on an exam such as the Advanced Placement English Literature and Composition or Advanced Placement English Language and Composition exams
- achieving a suitable score on the University Writing Program Portfolio.

Completion via Placement Test

- Writing: If the CL-W subcategory is satisfied through a placement test, the CGER Communication and Literacy requirement will be reduced from 8 credits (2 courses) to 3 credits (1 course).
- Mathematics: If the University Math Requirement is satisfied through a placement test, the CGER Mathematics & Quantitative Reasoning requirement will be considered fully met, replacing the 4-credit (1 course) requirement.
- Students must still complete 36 credits across 10 courses, with any remaining credits or courses eligible to be taken from any CGER category.

Geospatial, Certificate

(Code 140-601)

The Department of Geography and Anthropology offers a Geospatial Certificate Program with Four Options: Geospatial Certificate, Geospatial Certificate in Geographic Information Systems, Geospatial Certificate in Remote Sensing, and Geospatial Certificate in Mapping. The goals of the Certificate are:

1. to provide students with the fundamentals and a working knowledge of the core geospatial technology skills, specifically geographic information systems, remote sensing, field data collection (GPS and surveying) and spatial thinking,
2. to give students the option to specialize by choosing an emphasis in one of three different areas: Geographic Information Systems, Remote Sensing, or Computer Mapping, and
3. to expose students to ethical issues involved with the use of geospatial technology.

While the Certificate is targeted primarily at professionals in the workforce who want to further their education by adding this credential onto their existing degrees, it provides current UW-Eau Claire students an opportunity to add a specific high demand set of skills and associated credentials onto their already marketable liberal arts degree from UW-Eau Claire. For advising, see Professor Ryan Weichelt (Geography and Anthropology).

All students will take these four core courses.

Code	Title	Credits
Twelve semester credits, including:		
GEOG 335	Geographic Information Systems I	3
GEOG 336	Geospatial Field Methods	3
GEOG 337	Geographic Information Systems II	3
GEOG 338	Remote Sensing of the Environment	3
Total Credits		12

Students who wish to specialize can choose one of the following options:

- Geospatial Certificate in Geographic Information Systems
- Geospatial Certificate in Remote Sensing
- Geospatial Certificate in Mapping

Note: Students can only receive one of the three specialized certificates, due to the potential overlap between the electives. Students cannot pursue the Geography Major and any of the Geospatial Certificates to meet graduation requirements for completing a first and second degree program.

Program Learning Outcomes

Students completing this program will be expected to meet the following learning outcomes:

- Demonstrate the skills necessary to perform standard geospatial tasks.
- Demonstrate proficiency in industry standard software and using industry standard field equipment.

Geospatial, Geographic Information Systems, Certificate

(Code 140-602)

The Department of Geography and Anthropology offers a Geospatial Certificate Program with Four Options: Geospatial Certificate, Geospatial Certificate in Geographic Information Systems, Geospatial Certificate in Remote Sensing, and Geospatial Certificate in Mapping. The goals of the Certificate are:

1. to provide students with the fundamentals and a working knowledge of the core geospatial technology skills, specifically geographic information systems, remote sensing, field data collection (GPS and surveying) and spatial thinking,
2. to give students the option to specialize by choosing an emphasis in one of three different areas: Geographic Information Systems, Remote Sensing, or Computer Mapping, and
3. to expose students to ethical issues involved with the use of geospatial technology.

While the Certificate is targeted primarily at professionals in the workforce who want to further their education by adding this credential onto their existing degrees, it provides current UW-Eau Claire students an opportunity to add a specific high demand set of skills and associated credentials onto their already marketable liberal arts degree from UW-Eau Claire. For advising, see Professor Ryan Weichelt (Geography and Anthropology).

Code	Title	Credits
Eighteen semester credits, including:		
GEOG 335	Geographic Information Systems I	3
GEOG 336	Geospatial Field Methods	3
GEOG 337	Geographic Information Systems II	3
GEOG 338	Remote Sensing of the Environment	3
GEOG 435	Geographic Information Systems III	3
Electives, select one of the following:		
GEOG 370	Quantitative Methods in Geography	
GEOG 455	Web Geographic Information Systems	

Note: Students can only receive one of the three specialized certificates, due to the potential overlap between the electives. Students cannot pursue the Geography Major and any of the Geospatial Certificates to meet graduation requirements for completing a first and second degree program.

Program Learning Outcomes

Students completing this program will be expected to meet the following learning outcomes:

- Demonstrate the skills necessary to perform standard geospatial tasks.
- Demonstrate proficiency in industry standard software and using industry standard field equipment.

- Design, compile, and develop a spatial database and set of analytical tools within a Geographic Information System framework appropriate to a given problem.

Geospatial, Mapping, Certificate

(Code 140-604)

The Department of Geography and Anthropology offers a Geospatial Certificate Program with Four Options: Geospatial Certificate, Geospatial Certificate in Geographic Information Systems, Geospatial Certificate in Remote Sensing, and Geospatial Certificate in Mapping. The goals of the Certificate are:

1. to provide students with the fundamentals and a working knowledge of the core geospatial technology skills, specifically geographic information systems, remote sensing, field data collection (GPS and surveying) and spatial thinking,
2. to give students the option to specialize by choosing an emphasis in one of three different areas: Geographic Information Systems, Remote Sensing, or Computer Mapping, and
3. to expose students to ethical issues involved with the use of geospatial technology.

While the Certificate is targeted primarily at professionals in the workforce who want to further their education by adding this credential onto their existing degrees, it provides current UW-Eau Claire students an opportunity to add a specific high demand set of skills and associated credentials onto their already marketable liberal arts degree from UW-Eau Claire. For advising, see Professor Ryan Weichelt (Geography and Anthropology).

Code	Title	Credits
Eighteen semester credits, including:		
GEOG 335	Geographic Information Systems I	3
GEOG 336	Geospatial Field Methods	3
GEOG 337	Geographic Information Systems II	3
GEOG 338	Remote Sensing of the Environment	3
GEOG 339	Applied Cartography and Geovisualization	3
Electives, select one of the following:		
GEOG 370	Quantitative Methods in Geography	
GEOG 455	Web Geographic Information Systems	

Note: Students can only receive one of the three specialized certificates, due to the potential overlap between the electives. Students cannot pursue the Geography Major and any of the Geospatial Certificates to meet graduation requirements for completing a first and second degree program.

Program Learning Outcomes

- Students completing this program will be expected to meet the following learning outcomes:
- Demonstrate the skills necessary to perform standard geospatial tasks.
 - Demonstrate proficiency in industry standard software and using industry standard field equipment.
 - Apply the skills of operating GPS equipment to the collection of geospatial data in a variety of field mapping environments for the purpose of integrating GPS data with existing Geographic Information System resources.

Geospatial, Remote Sensing, Certificate

(Code 140-603)

The Department of Geography and Anthropology offers a Geospatial Certificate Program with Four Options: Geospatial Certificate, Geospatial Certificate in Geographic Information Systems, Geospatial Certificate in Remote Sensing, and Geospatial Certificate in Mapping. The goals of the Certificate are:

1. to provide students with the fundamentals and a working knowledge of the core geospatial technology skills, specifically geographic information systems, remote sensing, field data collection (GPS and surveying) and spatial thinking,
2. to give students the option to specialize by choosing an emphasis in one of three different areas: Geographic Information Systems, Remote Sensing, or Computer Mapping, and
3. to expose students to ethical issues involved with the use of geospatial technology.

While the Certificate is targeted primarily at professionals in the workforce who want to further their education by adding this credential onto their existing degrees, it provides current UW-Eau Claire students an opportunity to add a specific high demand set of skills and associated credentials onto their already marketable liberal arts degree from UW-Eau Claire. For advising, see Professor Ryan Weichelt (Geography and Anthropology).

Code	Title	Credits
Eighteen semester credits, including:		
GEOG 335	Geographic Information Systems I	3
GEOG 336	Geospatial Field Methods	3
GEOG 337	Geographic Information Systems II	3
GEOG 338	Remote Sensing of the Environment	3
GEOG 438	Remote Sensing Data Analytics	3
Electives, select one of the following:		
GEOG 358	LiDAR Analysis & Applications	
GEOG 435	Geographic Information Systems III	

Note: Students can only receive one of the three specialized certificates, due to the potential overlap between the electives. Students cannot pursue the Geography Major and any of the Geospatial Certificates to meet graduation requirements for completing a first and second degree program.

Program Learning Outcomes

- Students completing this program will be expected to meet the following learning outcomes:
- Demonstrate the skills necessary to perform standard geospatial tasks.
 - Demonstrate proficiency in industry standard software and using industry standard field equipment.
 - Apply the skills of preprocessing optical remotely sensed data, customizing or developing a suitable algorithm to extract biophysical and/ or sociocultural information from the data, and utilizing the information in a given geospatial problem.

Urban and Regional Planning, Certificate

The 15-credit **Urban and Regional Planning Certificate** provides students with fundamental theories, perspectives, and skills of land use planning. Though planning occurs across scale (e.g., neighborhood, community, urban, regional) and sector (e.g., economic, transportation, environmental), its fundamental emphasis is on the spatial implications and relationships of land use activities and how place is linked to quality of life. Planning is highly interdisciplinary, so the elective options of the certificate are flexible and allow students to draw from the sub-fields of planning in which they are most interested (geographic, sociological, environmental, political, and economic). This certificate is ideal for students who are interested in understanding and improving the places in which we live, work, and play. It provides a foundation for employment with public sector planning agencies, NGOs, and private sector planning firms, and it supports students interested in planning-related graduate programs.

(Code 140-606)

Code	Title	Credits
15 credits required		
Required courses		
GEOG 270	Introduction to Urban and Regional Planning	3
GEOG 335	Geographic Information Systems I	3
Elective courses		
Choose three courses with at least one from outside geography:		
ENV 310	Sustainable Cities	
ENV/GEOG 377	U.S. Environmental and Sustainability Policy	
GEOG 444	Legal Geographies of Race in the U.S.	
GEOG 470	Urban Geography	
POLS 301	State and Local Politics	
POLS 346	Public Policy in the United States	
PSYC 245	Social Psychology	
SOC 314	Social Class and Inequality	
SOC 321	The Individual in Society	
Internship course for credit with an urban, environmental, or regional planner focus may be applied to the certificate with advisor approval.		

Note 1: Students cannot pursue the Geography Major and the Urban and Regional Planning Certificate to meet graduation requirements for completing a first and second degree program.

Note 2: A minimum of 48 unique credits must be earned between the student's major and this certificate for purposes of meeting graduation requirements for first and second degree programs.

Program Learning Outcomes

Students completing this program will be expected to meet the following learning outcomes:

- The student will effectively explain the goals of land use planning, why planning is necessary, and how planning is informed by complementing perspectives in various disciplines.

- The student will apply planning knowledge to a Urban Development Term Project, balancing the competing interests within a fictitious community.

Geology and Environmental Science

Phillips 157
715-836-3732
Department Website (<https://www.uwec.edu/academics/college-arts-sciences/departments-programs/geology/>)

Geology and Environmental Science is the study of the earth and earth processes. Geologists work to solve environmental problems and supervise the exploration and development of earth resources. They are employed in the environmental industry, the mining industry, regulatory agencies such as the DNR and EPA, and as educators. Although many professions in geology require graduate school training, a bachelor's degree in geology allows career options in geology, environmental geology, and other professional fields such as resource law and engineering. The Geology and Environmental Science Department provides a rigorous but flexible program, and stresses the importance of a broad science curriculum. A curriculum balancing field and laboratory experience is tailored to meet the needs of each individual. The geology major is flexible enough to allow individual students to customize their program. Examples of customized programs (to be designed working with an advisor) include Marine Geology, Geochemistry, and Geophysics.

Honor Societies and Student Organizations

The Geology and Environmental Science Department offers one student organization. The Geology Club is open to all majors and minors. Geology and Environmental Science students participate in group activities through the club, organize the annual spring banquet, and participate in service activities. Please visit the department office for more information.

Departmental Honors Program in Geology and Environmental Science

Requirements:

1. Satisfactorily complete either: 1) one substantial faculty–student research collaboration in Geology and Environmental Science that results in a first-authored presentation at a regional, national, or international professional conference; or 2) a written paper containing original research that is supervised/sponsored by a faculty member in the Department of Geology and Environmental Science.
2. Maintain a 3.5 cumulative GPA and a 3.5 GPA in Geology courses.

Satisfactory/Unsatisfactory Policy.

No degree credit may be earned under the Satisfactory/Unsatisfactory option in any required courses in a geology major or minor.

Faculty

Sarah A. Vitale, Chair

Tadesse B. Alemu
Phillip D. Ihinger
Robert W.D. Lodge
Zachary P. Meyers
Kent M. Syverson

Majors

- Comprehensive Major: Geology, General Geology Emphasis, Liberal Arts - B.A./B.S.
- Comprehensive Major: Geology, Hydrogeology and Water Chemistry Emphasis, Liberal Arts - B.A./B.S.
- Comprehensive Major: Geology, Environmental Science Emphasis, Liberal Arts - B.A./B.S.
- Comprehensive Major: Geology, Dual Degree Geological Engineering Emphasis, Liberal Arts - B.A./B.S.
- Comprehensive Major: Science Teaching, Earth/Space Science Emphasis - B.S. (College of Health and Human Sciences Secondary Education Program)
- Major: Geology, Liberal Arts - B.A./B.S.

Minors

- Minor: Geology, Liberal Arts

Certificates

- Certificate: Earth Resources
- Certificate: Responsible Mining
- Certificate: Water Resources

Geology, Dual Degree Geological Engineering Emphasis, Comprehensive Major

Liberal Arts (Code 160-014)

University Requirements

GRADUATION REQUIREMENTS FOR BACCALAUREATE DEGREE

Credit Requirements	
Minimum total for graduation ¹	120
Upper division credits (courses numbered 300 and higher)	39
Core General Education	10 courses, 36 credits
Academic Concentrations	
Grade Point Requirements ²	
Total	2.00 average
Resident	2.00 average
Major	2.00 average
Minor	2.00 average
Certificate	2.00 average
University Residency Requirements	
Minimum total	30
Senior year	23
Major, Standard, upper division in residence	12
Major, Comprehensive, upper division in residence	21
Certificate	25 percent of credits
Procedures Required for Graduation	
Obtain admission to the degree program and/or the College offering it.	
Apply for graduation on CampS.	

¹ Certain programs exceed this minimum.

² See special requirements in each College.

Applicability of Credits Toward Graduation

Junior College or Two-Year College Credits. A maximum of 72 semester credits earned in a junior college or two-year college will be accepted as degree credits at UW-Eau Claire.

Extension Credits. Credits earned in credit outreach courses offered by UW-Eau Claire are treated as resident credits. Credits earned in extension courses offered by other units of the Universities of Wisconsin System are treated as transfer credits. All other (non-UW) extension and correspondence credits are normally limited to one-fourth of the total required for graduation from any curriculum.

WTCS Credits. A maximum of 72 semester credits earned in college parallel programs at Madison Area Technical College, Milwaukee Area Technical College, Nicolet Area Technical College, or Chippewa Valley Technical College may be accepted as degree credits at UW-Eau Claire. A set number of general education courses will be accepted from other technical schools. Occupational and technical courses may also be considered for transfer if the quality and content of the course work from the technical college is judged to be comparable to course work at UW-Eau Claire. Refer to the Transfer Credit Wizard (https://www.uwec.sis.wisconsin.edu/psp/eauprd-tb/EMPLOYEE/SA/c/EAU_SS_CUSTOM.EAU_TRNCRDWZ.GBL) or contact the UW-Eau Claire Admissions Office for information about the current transfer policy.

USAFI Credit. UW-Eau Claire will accept up to 32 semester credits for work done through the United States Armed Forces Institute, under the provision for non-UW correspondence credit (see Extension Credits above).

Activity Credit (band, chorus, drama, KINS 100-184 courses) Students may count toward graduation no more than one credit of KINS 110-184 courses. Students may count toward graduation no more than four credits earned in any single activity course and no more than 12 credits resulting from any combination of activity courses (excluding KINS 110-184 courses).

Other Restricted Credits. For other University restrictions, see the following: Cooperative Education; Credit by Examination; Satisfactory/Unsatisfactory Registration; Transfer of Credits. College or departmental restrictions may also be placed on Independent Study (399-499 courses), Directed Study (395-495), and other types of credits.

APPLICABILITY OF CREDITS TOWARD GRADUATION		Credit Restrictions
Satisfactory/Unsatisfactory		
Total degree credit		maximum 12
Major, Standard		maximum 1 course
Major, Comprehensive		maximum 2 courses
Minor		maximum 1 course
Credit by Examination		
Total degree credit		maximum ¼ of total
Major or minor		maximum ½ of total
Two-Year College Credits		
Total degree credit		maximum 72 credits

Activity credit (band, chorus, drama, KINS 100-184)	
Total KINS 100-184	maximum 1 credit
Total Band, chorus, drama	maximum 12 credits
Single course band, chorus, drama	maximum 4 credits
Extension credits	
UW-System	no maximum
Other extension/correspondence	maximum ¼ of total
USAFI	
USAFI	maximum 32 credits

Core General Education Requirements (CGER)

CGER Categories

Mathematics & Quantitative Reasoning (MQR) (http://catalog.uwec.edu/undergraduate/outcome-mqr/)	4 credit hours, 1 course min
Includes University Math Requirement ¹	
Communication & Literacy (CL) (http://catalog.uwec.edu/undergraduate/outcome-cl/)	8 credit hours, 2 course min (including CL-W)
Includes University Writing Requirement (CL-W) (http://catalog.uwec.edu/undergraduate/outcome-clw/) ²	
Natural Sciences & Wellness (NSW/NSWL) (http://catalog.uwec.edu/undergraduate/outcome-NSW/)	6 credit hours, 1 course min (NSW-Lab required)
Social & Behavioral Sciences (SBS) (https://catalog.uwec.edu/undergraduate/outcome-sbs/)	6 credit hours, 2 course min
Humanities & Arts (HA) (http://catalog.uwec.edu/undergraduate/outcome-ha/)	6 credit hours, 2 course min
Civics & Perspectives (CP) (http://catalog.uwec.edu/undergraduate/outcome-cp/)	6 credit hours, 2 course min
CGER Totals ³	
Credits	minimum 36 credits
Courses	minimum 10 courses

¹ University Mathematics Requirement:

Students satisfy the University Mathematics Requirement in one of four ways:

- completing an approved university-level mathematics course (MQR) with a grade of C (not C-) or above
- achieving a suitable score on the UW Math Placement Test (<https://www.uwec.edu/academics/academic-support/advising/testing/placement-testing/>)
- achieving a suitable score on an exam such as the Advanced Placement Calculus or Advanced Placement Statistics exams
- achieving a suitable score on a Credit by Examination administered by the Department of Mathematics.

² University Writing Requirement:

Students satisfy the University Writing Requirement in one of four ways:

- completing a Blugold Seminar in Critical Reading and Writing course (WRIT 102 (<https://catalog.uwec.edu/search/?P=WRIT%20102>), WRIT 114 (<https://catalog.uwec.edu/search/?P=WRIT%20114>), WRIT 116 (<https://catalog.uwec.edu/search/?P=WRIT%20116>), WRIT 118 (<https://catalog.uwec.edu/search/?P=WRIT%20118>), or WRIT 120 (<https://catalog.uwec.edu/search/?P=WRIT%20120>)) with a grade of C (not C-) or above
- achieving a suitable score on the English Placement Test (<https://www.uwec.edu/academics/blugold-seminar/writ-courses-placement/>) (WPT ENGL)
- achieving a suitable score on an exam such as the Advanced Placement English Literature and Composition or Advanced Placement English Language and Composition exams
- achieving a suitable score on the University Writing Program Portfolio.

³ Completion via Placement Tests

- Writing: If the CL-W subcategory is satisfied through a placement test, the CGER Communication and Literacy requirement will be reduced from 8 credits (2 courses) to 3 credits (1 course).
- Mathematics: If the University Math Requirement is satisfied through a placement test, the CGER Mathematics & Quantitative Reasoning requirement will be considered fully met, replacing the 4-credit (1 course) requirement.
- Students must still complete 36 credits across 10 courses, with any remaining credits or courses eligible to be taken from any CGER category.

College Degree Requirements

Bachelor of Arts or Bachelor of Science Degree (B.A./B.S.)

University Graduation Requirements. All candidates for degrees must fulfill the requirements for credits, curriculum, GPA, and University residency as specified in the section of this catalog titled University Graduation Requirements.

College Graduation Requirements: Grade Point Averages. All candidates for degrees in the College of Arts and Sciences must earn minimum resident and total GPAs of 2.00 in the major, the minor, and the certificate. The resident and total GPAs for the major are computed using all attempted credits applicable to the major including those offered by departments other than the major department. The resident and total GPAs for the minor and the certificate are computed similarly.

Major-Minor and Major-Certificate Requirements. A standard major (a minimum of 36 credits) must be supplemented by a minor (a minimum of 24 credits) or by a certificate (12 to 18 credits) to meet graduation requirements for completing a first and second degree program. No minor or certificate is required with a Comprehensive Major (60 or more credits) or with two majors of 36 or more credits each.

Certain degree programs, which include Comprehensive Majors, may require more than the minimum of 120 credits for graduation.

Acceptable academic program combinations are determined at the college level. A major and a minor or a major and certificate or two majors (if available) may not be elected in the same department or program, except in the approved combinations listed here.

College Credits. Earn at least 90 credits in courses offered by the College of Arts and Sciences.

Bachelor of Arts Degree in the College of Arts and Sciences (B.A.)

Fulfillment of all University Graduation Requirements (which includes the Core General Education Requirements); all College-level degree requirements (major and minor/certificate emphases, GPAs, earning at least 90 credits in Arts and Sciences course work); second language competency at the 102 level. Second language competency may be met in one of two ways: (1) Demonstrate a level of second language competency that qualifies the student to enter the 201-level course in a second language. (2) Earn a grade of at least C (not C-) or a mark of S in a 102-level second language course (or AIS 112 or AIS 122 or SLHS 103).

Bachelor of Science Degree in the College of Arts and Sciences (B.S.)

Fulfillment of all University Graduation Requirements (which includes the Core General Education Requirements); all College-level degree requirements (major and minor/certificate emphases, GPAs, earning at least 90 credits in Arts and Sciences course work); mathematics competency at the MATH 111, MATH 112 or MATH 113 level. Mathematics competency can be met in one of three ways:

(1) Achieve a score on the mathematics placement test that qualifies the student to enter MATH 114. (2) Earn a grade of at least C (not C-) or a mark of S in MATH 111, MATH 112, or MATH 113. (3) Achieve a satisfactory score on the MATH 112 competency test. This test may be attempted no more than two times.

Major Requirements**Liberal Arts (Code 160-014)**

The objective of the comprehensive major in geology is to prepare students for graduate programs in geological sciences or for careers as professional geologists, hydrogeologists, or geological engineers. The liberal arts comprehensive major requires completion of the Core and one of the four Emphases.

NOTE: Communication classes, both written and oral, are strongly recommended to fulfill liberal education requirements in any of the emphases.

Core Requirements for all Liberal Arts Emphases in the Comprehensive Geology Major

Code	Title	Credits
27-29 credits		
Select one of the following:		4
GEOL 106	Earth Science	
GEOL 110	Physical Geology	
GEOL 115	Environmental Geology	
Required:		
GEOL 312	Mineralogy and Petrology I	5
GEOL 320	Sedimentology and Stratigraphy	4
GEOL 330	Structural Geology	4
GEOL 468	Geological Field Methods	1
GEOL 470	Field Geology I	3
CHEM 115	Chemical Principles (or equivalent)	6
Capstone Experience (required for all majors)		0-2

All Geology majors are required to complete a capstone experience. Approved capstone experiences include 1) successful completion of GEOL 470 and GEOL 471 with a grade of C or above in both courses, 2) successful completion of GEOL 470 and GEOL 472 with a grade of C or above in both courses, 3) student-faculty collaborative research that includes the student giving a public presentation of the research and being listed as the first author of the research

presentation, 4) a department-approved internship, 5) other department-approved experiences. Working with their advisor, students submit a proposal to the department faculty outlining their capstone experience choice and explicitly stating how the capstone fits into their personal career goals. The capstone experience proposal must be submitted to the Chair of the Department no later than the second week of the fall semester of the senior year.

Dual Degree Geological Engineering Emphasis

This emphasis combines the benefits of a traditional geology degree with those of a formal engineering education. In this program students receive a UW-Eau Claire geology degree in conjunction with a bachelor's degree in engineering from the University of Minnesota. Students will typically complete most of the UW-Eau Claire University requirements and Dual Degree geology requirements while at UW-Eau Claire before transferring to the engineering school. Students should visit the department office for a sample course schedule that would allow them to complete three full years at UW-Eau Claire and be prepared to transfer to the University of Minnesota for an additional one to two years.

Students must complete a minimum of 84 semester credits before transferring to the engineering school, 56 of which must be taken in residence at UW-Eau Claire.

This emphasis requires completion of the Comprehensive Geology Major Core plus the required credits as listed below. Successful completion of GEOL 470 with a grade of C or above will constitute completion of the capstone experience. Students must fulfill the Core General Education Requirements for UW-Eau Claire and the Liberal Education requirements for University of Minnesota. This can be accomplished in a reasonable manner with careful course selection. Please see Geology advisor.

Code	Title	Credits
Minimum 60 semester credits, including:		
Required Courses		
GEOL 315	Hydrogeology I	4
GEOL 345	Geomorphology and Aerial Photography Interpretation	3
or GEOL 420	Glacial Geology	
MATH 215	Calculus II	4
MATH 216	Calculus III	4
PHYS 231	University Physics I	5
PHYS 232	University Physics II	5
PHYS 255	Statics	3

NOTE 1: No degree credit may be earned under the Satisfactory/Unsatisfactory option in any required courses in a geology major or minor.

NOTE 2: For students planning to practice as professional engineers, GEOG 335; GEOL 416 at UW-Eau Claire or equivalent courses at University of Minnesota are strongly recommended.

NOTE 3: Students should plan on taking MATH 311 (UW-Eau Claire; Differential Equations) or Math 2243 (University of Minnesota; Differential Equations and Linear Algebra) prior to the first semester at University of Minnesota. Differential Equations is a prerequisite for the fluid mechanics course which is to be taken during the first semester at UM.

Program Learning Outcomes

Students completing this program will be expected to meet the following learning outcomes:

- Explain Earth processes.
- Use mathematics and computational methods to analyze scientific and geological data.
- Read, write, and critically evaluate geological papers.
- Construct an internally consistent geological map utilizing field data, topographic maps, geological maps, air photos, geographic information systems (GIS) data, and geological cross sections.
- Develop geologic models and effectively communicate an applied geology interpretation based on observations.

Geology, Dual Degree Geological Engineering Emphasis, Comprehensive Major, B.S.

The following is a sample degree plan, based on the current catalog. It is based on the 120-credit graduation requirement and assumes no transferred credits, no requirements waived by placement tests, no courses taken in the summer or winter, no repeated courses, and no remedial courses that may be required. This sample degree plan is intended for first-year students entering UW-Eau Claire in the fall semester. Your own degree plan may differ depending on the course of study selected (second major, minor, etc.). UW-Eau Claire cannot guarantee all courses will be offered as shown, but will provide a range of courses that may enable prepared students to fulfill their requirements in a timely period. This sample degree plan is just a guide. Please consult your advisor, your degree audit, and the catalog to create your own degree plan. *Note:* In order to earn the required minimum of 120 credits for the degree in four years, you should plan to take 15 credits each semester or 30 credits each year.

To earn a degree, students must fulfill all University Graduation Requirements, including the Core General Education Requirements (CGER). CGER course work in the following sample degree plan uses abbreviations such as CGER CL, CGER HA, and CGER NSWL to represent the learning outcomes students will meet via completion of the course. Please click here for a description of the outcomes and requirements.

Students in this major have the option to pursue either a Bachelor of Arts (B.A.) or a Bachelor of Science (B.S.) degree. The degrees are distinguished by second language competency for the B.A. and a higher level of mathematics competency for the B.S.

CGER Option: 4 courses from CL, CP, HA, or SBS as appropriate		12
TOTAL FOURTH YEAR		28

Minimum total for the baccalaureate degree = 120 credits

- 1

Many geological issues involve working with people from other cultures. Core General Education Requirement electives can help broaden students' perspectives. A valuable class counting toward this requirement, Civics & Perspectives (CP), is AIS 101. Courses such as HIST 114 and HIST 115 fulfill Humanities & Arts (HA) requirements at UWEC and UMN.
- 2

UMN's LE requirements must be fulfilled, as well as UWEC's CGER requirements. To satisfy UMN LE, students must take a BIOL lab course.
- 3

Keep the syllabus and all written reports (including the description of the writing assignment, rough drafts, instructor comments, etc.) as documentation. A student might be able to petition that this course meets the "writing intensive" designation at UMN if the student can prove their case. A student needs four of these courses beyond WRIT 114/WRIT 116, so documenting writing experiences could save a student much time fulfilling UMN requirements.
- 4

GEOG 335 should be taken prior to GEOL 468.
- 5

Fulfills a technical elective at UMN.
- 6

A grade of C (not C-) or above in GEOL 470 meets the Geology capstone requirement for this major.
- 7

Electives must be selected to ensure that a student's degree comprises at least 39 credits of upper division courses (300-400 level). Students are encouraged to take additional courses in chemistry, ecology, physics, math, GIS, and written and oral communication, but electives can be selected from any discipline as long as course prerequisites are met.

Students will typically spend four years at UWEC and 1.5 years at UMN. Students must satisfy Core General Education Requirements for UWEC and Liberal Education requirements for UMN, and they must achieve a satisfactory GPA to be accepted at UMN (floating, but generally >3.2). Graduates of this program will receive a Geology degree from UWEC and a Geoen지니어ing degree from UMN.

RECOMMENDATIONS FOR HIGH IMPACT PRACTICES (HIPs)
The University of Wisconsin-Eau Claire encourages all students to participate in High Impact Practices. The following information identifies any specific recommendations that faculty in this major have concerning which HIPs might be most beneficial to students, and any recommendations about when those HIPs best fit into the degree plan. Students should also consult their faculty advisor for information on HIPs. There are many additional high impact opportunities available. Talk to your academic advisor for more information about incorporating HIPs like Study Abroad, (<https://studyabroad.apps.uwec.edu/>) Intercultural Immersion, (<https://www.uwec.edu/immersion/>) Internship (<https://www.uwec.edu/offices-services/advising-retention-career-center/career-services/internship/job-searching-and/>), and/ or Student/Faculty Collaborative Research (<https://www.uwec.edu/offices-services/office-research-and-sponsored-programs/getting-involved-student-faculty-research>) into your time at UW-Eau Claire.

Core General Education Requirements (CGER)

Core General Education Requirements (CGER)

The Core General Education Requirements (CGER) includes a minimum of 10 courses across 6 categories. Students must complete a minimum of 36 credits in courses approved for the CGER Core.

- Mathematics & Quantitative Reasoning (MQR) - 4 credits, one course minimum

• Includes the University Mathematics Requirement¹

• Communication & Literacy (CL) - 8 credits, two courses minimum

• Includes the University Writing Requirement (CL-W)²

• Natural Sciences & Wellness (NSW/NSWL) - 6 credits, one course minimum (NSW-Lab required)

- Social & Behavioral Sciences (SBS) - 6 credits, two courses minimum

• Humanities & Arts (HA) - 6 credits, two courses minimum

• Civics & Perspectives (CP) - 6 credits, two courses minimum
- 1

University Mathematics Requirement:
Students satisfy the University Mathematics Requirement in one of four ways:
 - completing an approved university-level mathematics course (MQR) with a grade of C (not C-) or above
 - achieving a suitable score on the UW Math Placement Test (<https://www.uwec.edu/academics/academic-support/advising/testing/placement-testing/>)
 - achieving a suitable score on an exam such as the Advanced Placement Calculus or Advanced Placement Statistics exams
 - achieving a suitable score on a Credit by Examination administered by the Department of Mathematics.
- 2

University Writing Requirement:
Students satisfy the University Writing Requirement in one of four ways:
 - completing a Blugold Seminar in Critical Reading and Writing course (WRIT 102 (<https://catalog.uwec.edu/search/?P=WRIT%20102>), WRIT 114 (<https://catalog.uwec.edu/search/?P=WRIT%20114>), WRIT 116 (<https://catalog.uwec.edu/search/?P=WRIT%20116>), WRIT 118 (<https://catalog.uwec.edu/search/?P=WRIT%20118>), or WRIT 120 (<https://catalog.uwec.edu/search/?P=WRIT%20120>)) with a grade of C (not C-) or above
 - achieving a suitable score on the English Placement Test (<https://www.uwec.edu/academics/blugold-seminar/writ-courses-placement/>) (WPT ENGL)
 - achieving a suitable score on an exam such as the Advanced Placement English Literature and Composition or Advanced Placement English Language and Composition exams
 - achieving a suitable score on the University Writing Program Portfolio.

- Completion via Placement Test**
- Writing: If the CL-W subcategory is satisfied through a placement test, the CGER Communication and Literacy requirement will be reduced from 8 credits (2 courses) to 3 credits (1 course).

• Mathematics: If the University Math Requirement is satisfied through a placement test, the CGER Mathematics & Quantitative Reasoning requirement will be considered fully met, replacing the 4-credit (1 course) requirement.

• Students must still complete 36 credits across 10 courses, with any remaining credits or courses eligible to be taken from any CGER category.

Geology, Environmental Science Emphasis, Comprehensive Major

Liberal Arts (Code 160-011)

University Requirements

GRADUATION REQUIREMENTS FOR BACCALAUREATE DEGREE

Credit Requirements	
Minimum total for graduation ¹	120
Upper division credits (courses numbered 300 and higher)	39

Core General Education 10 courses, 36 credits

Academic Concentrations

Grade Point Requirements ²

Total	2.00 average
Resident	2.00 average
Major	2.00 average
Minor	2.00 average
Certificate	2.00 average

University Residency Requirements

Minimum total	30
Senior year	23
Major, Standard, upper division in residence	12
Major, Comprehensive, upper division in residence	21
Certificate	25 percent of credits

Procedures Required for Graduation

Obtain admission to the degree program and/or the College offering it.

Apply for graduation on CampS.

¹ Certain programs exceed this minimum.

² See special requirements in each College.

Applicability of Credits Toward Graduation

Junior College or Two-Year College Credits. A maximum of 72 semester credits earned in a junior college or two-year college will be accepted as degree credits at UW-Eau Claire.

Extension Credits. Credits earned in credit outreach courses offered by UW-Eau Claire are treated as resident credits. Credits earned in extension courses offered by other units of the Universities of Wisconsin System are treated as transfer credits. All other (non-UW) extension and correspondence credits are normally limited to one-fourth of the total required for graduation from any curriculum.

WTCS Credits. A maximum of 72 semester credits earned in college parallel programs at Madison Area Technical College, Milwaukee Area Technical College, Nicolet Area Technical College, or Chippewa Valley Technical College may be accepted as degree credits at UW-Eau Claire. A set number of general education courses will be accepted from other technical schools. Occupational and technical courses may also be considered for transfer if the quality and content of the course work from the technical college is judged to be comparable to course work at UW-Eau Claire. Refer to the Transfer Credit Wizard (https://www.uwec.sis.wisconsin.edu/psp/eauprd-tb/EMPLOYEE/SA/c/EAU_SS_CUSTOM.EAU_TRNCRDWZ.GBL) or contact the UW-Eau Claire Admissions Office for information about the current transfer policy.

USAFI Credit. UW-Eau Claire will accept up to 32 semester credits for work done through the United States Armed Forces Institute, under the provision for non-UW correspondence credit (see Extension Credits above).

Activity Credit (band, chorus, drama, KINS 100-184 courses) Students may count toward graduation no more than one credit of KINS 110-184 courses. Students may count toward graduation no more than four credits earned in any single activity course and no more than 12 credits resulting from any combination of activity courses (excluding KINS 110-184 courses).

Other Restricted Credits. For other University restrictions, see the following: Cooperative Education; Credit by Examination; Satisfactory/Unsatisfactory Registration; Transfer of Credits. College or departmental restrictions may also be placed on Independent Study (399-499 courses), Directed Study (395-495), and other types of credits.

APPLICABILITY OF CREDITS TOWARD GRADUATION Credit Restrictions

Satisfactory/Unsatisfactory	
Total degree credit	maximum 12
Major, Standard	maximum 1 course
Major, Comprehensive	maximum 2 courses
Minor	maximum 1 course

Credit by Examination

Total degree credit	maximum ¼ of total
Major or minor	maximum ½ of total

Two-Year College Credits

Total degree credit	maximum 72 credits

Activity credit (band, chorus, drama, KINS 100-184)

Total KINS 100-184	maximum 1 credit
Total Band, chorus, drama	maximum 12 credits
Single course band, chorus, drama	maximum 4 credits

Extension credits

UW-System	no maximum
Other extension/correspondence	maximum ¼ of total

USAFI

USAFI	maximum 32 credits

Core General Education Requirements (CGER)

CGER Categories

Mathematics & Quantitative Reasoning (MQR) (http://catalog.uwec.edu/undergraduate/outcome-mqr/)	4 credit hours, 1 course min
Includes University Math Requirement ¹	
Communication & Literacy (CL) (http://catalog.uwec.edu/undergraduate/outcome-cl/)	8 credit hours, 2 course min (including CL-W)
Includes University Writing Requirement (CL-W) (http://catalog.uwec.edu/undergraduate/outcome-clw/) ²	
Natural Sciences & Wellness (NSW/NSWL) (http://catalog.uwec.edu/undergraduate/outcome-NSW/)	6 credit hours, 1 course min (NSW-Lab required)
Social & Behavioral Sciences (SBS) (https://catalog.uwec.edu/undergraduate/outcome-sbs/)	6 credit hours, 2 course min

Humanities & Arts (HA) (http://catalog.uwec.edu/undergraduate/outcome-ha/)	6 credit hours, 2 course min
Civics & Perspectives (CP) (http://catalog.uwec.edu/undergraduate/outcome-cp/)	6 credit hours, 2 course min
CGER Totals³	
Credits	minimum 36 credits
Courses	minimum 10 courses

¹ University Mathematics Requirement:

Students satisfy the University Mathematics Requirement in one of four ways:

- completing an approved university-level mathematics course (MQR) with a grade of C (not C-) or above
- achieving a suitable score on the UW Math Placement Test (<https://www.uwec.edu/academics/academic-support/advising/testing/placement-testing/>)
- achieving a suitable score on an exam such as the Advanced Placement Calculus or Advanced Placement Statistics exams
- achieving a suitable score on a Credit by Examination administered by the Department of Mathematics.

² University Writing Requirement:

Students satisfy the University Writing Requirement in one of four ways:

- completing a Blugold Seminar in Critical Reading and Writing course (WRIT 102 (<https://catalog.uwec.edu/search/?P=WRIT%20102>), WRIT 114 (<https://catalog.uwec.edu/search/?P=WRIT%20114>), WRIT 116 (<https://catalog.uwec.edu/search/?P=WRIT%20116>), WRIT 118 (<https://catalog.uwec.edu/search/?P=WRIT%20118>), or WRIT 120 (<https://catalog.uwec.edu/search/?P=WRIT%20120>)) with a grade of C (not C-) or above
- achieving a suitable score on the English Placement Test (<https://www.uwec.edu/academics/blugold-seminar/writ-courses-placement/>) (WPT ENGL)
- achieving a suitable score on an exam such as the Advanced Placement English Literature and Composition or Advanced Placement English Language and Composition exams
- achieving a suitable score on the University Writing Program Portfolio.

³ Completion via Placement Tests

- Writing: If the CL-W subcategory is satisfied through a placement test, the CGER Communication and Literacy requirement will be reduced from 8 credits (2 courses) to 3 credits (1 course).
- Mathematics: If the University Math Requirement is satisfied through a placement test, the CGER Mathematics & Quantitative Reasoning requirement will be considered fully met, replacing the 4-credit (1 course) requirement.
- Students must still complete 36 credits across 10 courses, with any remaining credits or courses eligible to be taken from any CGER category.

College Degree Requirements

Bachelor of Arts or Bachelor of Science Degree (B.A./B.S.)

University Graduation Requirements. All candidates for degrees must fulfill the requirements for credits, curriculum, GPA, and University residency

as specified in the section of this catalog titled University Graduation Requirements.

College Graduation Requirements: Grade Point Averages. All candidates for degrees in the College of Arts and Sciences must earn minimum resident and total GPAs of 2.00 in the major, the minor, and the certificate. The resident and total GPAs for the major are computed using all attempted credits applicable to the major including those offered by departments other than the major department. The resident and total GPAs for the minor and the certificate are computed similarly.

Major-Minor and Major-Certificate Requirements. A standard major (a minimum of 36 credits) must be supplemented by a minor (a minimum of 24 credits) or by a certificate (12 to 18 credits) to meet graduation requirements for completing a first and second degree program. No minor or certificate is required with a Comprehensive Major (60 or more credits) or with two majors of 36 or more credits each.

Certain degree programs, which include Comprehensive Majors, may require more than the minimum of 120 credits for graduation.

Acceptable academic program combinations are determined at the college level. A major and a minor or a major and certificate or two majors (if available) may not be elected in the same department or program, except in the approved combinations listed here.

College Credits. Earn at least 90 credits in courses offered by the College of Arts and Sciences.

Bachelor of Arts Degree in the College of Arts and Sciences (B.A.)

Fulfillment of all University Graduation Requirements (which includes the Core General Education Requirements); all College-level degree requirements (major and minor/certificate emphases, GPAs, earning at least 90 credits in Arts and Sciences course work); second language competency at the 102 level. Second language competency may be met in one of two ways: (1) Demonstrate a level of second language competency that qualifies the student to enter the 201-level course in a second language. (2) Earn a grade of at least C (not C-) or a mark of S in a 102-level second language course (or AIS 112 or AIS 122 or SLHS 103).

Bachelor of Science Degree in the College of Arts and Sciences (B.S.)

Fulfillment of all University Graduation Requirements (which includes the Core General Education Requirements); all College-level degree requirements (major and minor/certificate emphases, GPAs, earning at least 90 credits in Arts and Sciences course work); mathematics competency at the MATH 111, MATH 112 or MATH 113 level. Mathematics competency can be met in one of three ways:

- (1) Achieve a score on the mathematics placement test that qualifies the student to enter MATH 114.
- (2) Earn a grade of at least C (not C-) or a mark of S in MATH 111, MATH 112, or MATH 113.
- (3) Achieve a satisfactory score on the MATH 112 competency test. This test may be attempted no more than two times.

Major Requirements

Liberal Arts (Code 160-011)

The objective of the comprehensive major in geology is to prepare students for graduate programs in geological sciences or for careers as professional geologists, hydrogeologists, or geological engineers. The liberal arts comprehensive major requires completion of the Core and one of the four Emphases.

NOTE: Communication classes, both written and oral, are strongly recommended to fulfill core general education requirements in any of the emphases.

Core Requirements for all Liberal Arts Emphases in the Comprehensive Geology Major

Code	Title	Credits
27-29 credits		
Select one of the following:		4
GEOL 106	Earth Science	
GEOL 110	Physical Geology	
GEOL 115	Environmental Geology	
Required:		
GEOL 312	Mineralogy and Petrology I	5
GEOL 320	Sedimentology and Stratigraphy	4
GEOL 330	Structural Geology	4
GEOL 468	Geological Field Methods	1
GEOL 470	Field Geology I	3
CHEM 115	Chemical Principles (or equivalent)	6
Capstone Experience (required for all majors)		0-2

All Geology majors are required to complete a capstone experience. Approved capstone experiences include 1) successful completion of GEOL 470 and GEOL 471 with a grade of C or above in both courses, 2) successful completion of GEOL 470 and GEOL 472 with a grade of C or above in both courses, 3) student-faculty collaborative research that includes the student giving a public presentation of the research and being listed as the first author of the research presentation, 4) a department-approved internship, 5) other department-approved experiences. Working with their advisor, students submit a proposal to the department faculty outlining their capstone experience choice and explicitly stating how the capstone fits into their personal career goals. The capstone experience proposal must be submitted to the Chair of the Department no later than the second week of the fall semester of the senior year.

Environmental Science Emphasis

Recommended for students who are interested in careers working in environmental fields, such as environmental geology, land conservation, and environmental policy, or who desire to attend graduate school in environmental science, environmental law, or resource planning.

This emphasis requires completion of the Comprehensive Geology Major Core plus the required and elective credits as listed below.

Code	Title	Credits
Minimum 60 semester credits, including:		
Required Courses		
GEOL 301 or GEOL 304	Earth Resources and Sustainability Global Environmental Change	3
GEOL 308	Water Resources	3
GEOL 315	Hydrogeology I	4
GEOL 345 or GEOL 420	Geomorphology and Aerial Photography Interpretation Glacial Geology	3
GEOL 452	Responsible Mining Seminar	1
GEOG 335	Geographic Information Systems I	3

ENV/GEOG 377	U.S. Environmental and Sustainability Policy	3
MATH 246	Elementary Statistics	4

Electives

Select two of the following elective courses. It is strongly recommended students select these courses from more than one of the listed disciplines. Students should work with a Geology faculty advisor to select the most suitable course combination.

Biology:

BIOL 321	Ecology
BIOL 328	Conservation Biology
BIOL 338	Vegetation Ecology
BIOL 376	Aquatic Ecology

Geography:

GEOG 336	Geospatial Field Methods
GEOG 337	Geographic Information Systems II
GEOG 338	Remote Sensing of the Environment
GEOG 350	Soils and the Environment
GEOG 363	Watershed Analysis

Chemistry:

CHEM 213	Quantitative Analysis
CHEM 218	Introduction to Inorganic Chemistry
CHEM 304	Environmental Chemistry
CHEM 325	Organic Chemistry I with Laboratory
GEOL 336	Introduction to Geochemistry

Plus electives to total at least 60 credits selected from the following geology courses:

GEOL 313	Mineralogy and Petrology II
GEOL 416	Hydrogeology II
GEOL 418	Global Tectonics

NOTE 1: All students are also required to complete MATH 114 in addition to the 60 credits required for the major.

NOTE 2: No degree credit may be earned under the Satisfactory/Unsatisfactory option in any required courses in a geology major or minor.

Program Learning Outcomes

Students completing this program will be expected to meet the following learning outcomes:

- Explain Earth processes.
- Use mathematics and computational methods to analyze scientific and geological data.
- Read, write, and critically evaluate geological papers.
- Construct an internally consistent geological map utilizing field data, topographic maps, geological maps, air photos, geographic information systems (GIS) data, and geological cross sections.
- Use analytical and quantitative methods to evaluate an environmental problem.

Geology, Environmental Science Emphasis, Comprehensive Major, B.S.

The following is a sample degree plan, based on the current catalog. It is based on the 120-credit graduation requirement and assumes no transferred credits, no requirements waived by placement tests, no courses taken in the summer or winter, no repeated courses, and no remedial courses that may be

required. This sample degree plan is intended for first-year students entering UW-Eau Claire in the fall semester. Your own degree plan may differ depending on the course of study selected (second major, minor, etc.). UW-Eau Claire cannot guarantee all courses will be offered as shown, but will provide a range of courses that may enable prepared students to fulfill their requirements in a timely period. This sample degree plan is just a guide. Please consult your advisor, your degree audit, and the catalog to create your own degree plan. Note: In order to earn the required minimum of 120 credits for the degree in four years, you should plan to take 15 credits each semester or 30 credits each year.

To earn a degree, students must fulfill all University Graduation Requirements, including the Core General Education Requirements (CGER). CGER course work in the following sample degree plan uses abbreviations such as CGER CL, CGER HA, and CGER NSWL to represent the learning outcomes students will meet via completion of the course. Please click here for a description of the outcomes and requirements.

Students in this major have the option to pursue either a Bachelor of Arts (B.A.) or a Bachelor of Science (B.S.) degree. The degrees are distinguished by second language competency for the B.A. and a higher level of mathematics competency for the B.S.

Electives ⁵		14-17

TOTAL FOURTH YEAR 23-27

Minimum total for the baccalaureate degree = 120 credits

¹ All students pursuing a Liberal Arts Comprehensive Major in Geology are also required to complete MATH 114 in addition to the 60 credits required for the major.

² Many geological issues involve working with people from other cultures. Core General Education Requirement (CGER) electives can help broaden students' perspectives. Suggested CGER include AIS 101, AIS 243, AIS 322/GEOG 322, HIST 114, and HIST 115.

³ GEOG 335 should be taken prior to GEOL 468.

⁴ Plus electives to total at least 60 credits selected from the following: GEOL 313 Mineralogy and Petrology II, GEOL 330 Structural Geology, GEOL 416 Hydrogeology II, and GEOL 418 Global Tectonics.

⁵ Electives must be selected to ensure that a student's degree comprises at least 39 credits of upper-division courses (300-400 level). Students are encouraged to take additional courses in chemistry, ecology, physics, math, GIS, and written and oral communication, but electives can be selected from

any discipline as long as the course prerequisites are met. The degree also must have 120 credits.

- ⁶ Select two elective courses from Biology (BIOL 321 Ecology, BIOL 328 Conservation Biology, BIOL 338 Vegetation Ecology, or BIOL 376 Aquatic Ecology), Geography (GEOG 337 Geographic Information Systems II, GEOG 338 Remote Sensing of the Environment, GEOG 350 Soils and the Environment, or GEOG 363 Watershed Analysis), and Chemistry (CHEM 213 Quantitative Analysis, CHEM 218 Introduction to Inorganic Chemistry, CHEM 304 Environmental Chemistry, CHEM 325 Organic Chemistry I with Laboratory, or GEOL 336 Introduction to Geochemistry). It is strongly recommended that students select one course from each of the Biology, Geography, and Chemistry course options. Students should work with a Geology faculty advisor to select the most suitable course combination.
- ⁷ Earning a grade of C (not C-) in GEOL 470 and GEOL 471 or GEOL 472 fulfills the Geology capstone requirement. Students not taking GEOL 471 or GEOL 472 must consult with a Geology faculty advisor for capstone options and submit a capstone proposal to the Department Chair.

RECOMMENDATIONS FOR HIGH IMPACT PRACTICES (HIPs)

The University of Wisconsin-Eau Claire encourages all students to participate in High Impact Practices. The following information identifies any specific recommendations that faculty in this major have concerning which HIPs might be most beneficial to students, and any recommendations about when those HIPs best fit into the degree plan. Students should also consult their faculty advisor for information on HIPs. There are many additional high impact opportunities available. Talk to your academic advisor for more information about incorporating HIPs like Study Abroad (<https://studyabroad.apps.uwec.edu/>), Intercultural Immersion (<https://www.uwec.edu/immersion/>), Internship (<https://www.uwec.edu/offices-services/advising-retention-career-center/career-services/internship/job-searching-and/>), and/or Student/Faculty Collaborative Research (<https://www.uwec.edu/offices-services/office-research-and-sponsored-programs/getting-involved-student-faculty-research/>) into your time at UW-Eau Claire.

Core General Education Requirements (CGER)

Core General Education Requirements (CGER)

The Core General Education Requirements (CGER) includes a minimum of 10 courses across 6 categories. Students must complete a minimum of 36 credits in courses approved for the CGER Core.

- Mathematics & Quantitative Reasoning (MQR) - 4 credits, one course minimum
 - Includes the University Mathematics Requirement¹
- Communication & Literacy (CL) - 8 credits, two courses minimum
 - Includes the University Writing Requirement (CL-W)²
- Natural Sciences & Wellness (NSW/NSWL) - 6 credits, one course minimum (NSW-Lab required)
- Social & Behavioral Sciences (SBS) - 6 credits, two courses minimum
- Humanities & Arts (HA) - 6 credits, two courses minimum
- Civics & Perspectives (CP) - 6 credits, two courses minimum

¹ **University Mathematics Requirement:**

Students satisfy the University Mathematics Requirement in one of four ways:

- completing an approved university-level mathematics course (MQR) with a grade of C (not C-) or above
- achieving a suitable score on the UW Math Placement Test (<https://www.uwec.edu/academics/academic-support/advising/testing/placement-testing/>)

- achieving a suitable score on an exam such as the Advanced Placement Calculus or Advanced Placement Statistics exams
- achieving a suitable score on a Credit by Examination administered by the Department of Mathematics.

² **University Writing Requirement:**

Students satisfy the University Writing Requirement in one of four ways:

- completing a Blugold Seminar in Critical Reading and Writing course (WRIT 102 (<https://catalog.uwec.edu/search/?P=WRIT%20102>), WRIT 114 (<https://catalog.uwec.edu/search/?P=WRIT%20114>), WRIT 116 (<https://catalog.uwec.edu/search/?P=WRIT%20116>), WRIT 118 (<https://catalog.uwec.edu/search/?P=WRIT%20118>), or WRIT 120 (<https://catalog.uwec.edu/search/?P=WRIT%20120>)) with a grade of C (not C-) or above
- achieving a suitable score on the English Placement Test (<https://www.uwec.edu/academics/blugold-seminar/writ-courses-placement/>) (WPT ENGL)
- achieving a suitable score on an exam such as the Advanced Placement English Literature and Composition or Advanced Placement English Language and Composition exams
- achieving a suitable score on the University Writing Program Portfolio.

Completion via Placement Test

- Writing: If the CL-W subcategory is satisfied through a placement test, the CGER Communication and Literacy requirement will be reduced from 8 credits (2 courses) to 3 credits (1 course).
- Mathematics: If the University Math Requirement is satisfied through a placement test, the CGER Mathematics & Quantitative Reasoning requirement will be considered fully met, replacing the 4-credit (1 course) requirement.
- Students must still complete 36 credits across 10 courses, with any remaining credits or courses eligible to be taken from any CGER category.

Major, Standard, upper division in residence	12
Major, Comprehensive, upper division in residence	21
Certificate	25 percent of credits

Procedures Required for Graduation

Obtain admission to the degree program and/or the College offering it.

Apply for graduation on CampS.

¹ Certain programs exceed this minimum.

² See special requirements in each College.

Applicability of Credits Toward Graduation

Junior College or Two-Year College Credits. A maximum of 72 semester credits earned in a junior college or two-year college will be accepted as degree credits at UW-Eau Claire.

Extension Credits. Credits earned in credit outreach courses offered by UW-Eau Claire are treated as resident credits. Credits earned in extension courses offered by other units of the Universities of Wisconsin System are treated as transfer credits. All other (non-UW) extension and correspondence credits are normally limited to one-fourth of the total required for graduation from any curriculum.

WTCS Credits. A maximum of 72 semester credits earned in college parallel programs at Madison Area Technical College, Milwaukee Area Technical College, Nicolet Area Technical College, or Chippewa Valley Technical College may be accepted as degree credits at UW-Eau Claire. A set number of general education courses will be accepted from other technical schools. Occupational and technical courses may also be considered for transfer if the quality and content of the course work from the technical college is judged to be comparable to course work at UW-Eau Claire. Refer to the Transfer Credit Wizard (https://www.uwec.sis.wisconsin.edu/psp/eauprd-tb/EMPLOYEE/SA/c/EAU_SS_CUSTOM.EAU_TRNCRDWZ.GBL) or contact the UW-Eau Claire Admissions Office for information about the current transfer policy.

USAFI Credit. UW-Eau Claire will accept up to 32 semester credits for work done through the United States Armed Forces Institute, under the provision for non-UW correspondence credit (see Extension Credits above).

Activity Credit (band, chorus, drama, KINS 100-184 courses) Students may count toward graduation no more than one credit of KINS 110-184 courses. Students may count toward graduation no more than four credits earned in any single activity course and no more than 12 credits resulting from any combination of activity courses (excluding KINS 110-184 courses).

Other Restricted Credits. For other University restrictions, see the following: Cooperative Education; Credit by Examination; Satisfactory/Unsatisfactory Registration; Transfer of Credits. College or departmental restrictions may also be placed on Independent Study (399-499 courses), Directed Study (395-495), and other types of credits.

APPLICABILITY OF CREDITS TOWARD GRADUATION**Credit Restrictions****Satisfactory/Unsatisfactory**

Total degree credit	maximum 12
Major, Standard	maximum 1 course
Major, Comprehensive	maximum 2 courses

Minor	maximum 1 course

Credit by Examination

Total degree credit	maximum ¼ of total
Major or minor	maximum ½ of total

Two-Year College Credits

Total degree credit	maximum 72 credits

Activity credit (band, chorus, drama, KINS 100-184)

Total KINS 100-184	maximum 1 credit
Total Band, chorus, drama	maximum 12 credits
Single course band, chorus, drama	maximum 4 credits

Extension credits

UW-System	no maximum
Other extension/correspondence	maximum ¼ of total

USAFI

USAFI	maximum 32 credits

- completing a Blugold Seminar in Critical Reading and Writing course (WRIT 102 (<https://catalog.uwec.edu/search/?P=WRIT%20102>), WRIT 114 (<https://catalog.uwec.edu/search/?P=WRIT%20114>), WRIT 116 (<https://catalog.uwec.edu/search/?P=WRIT%20116>), WRIT 118 (<https://catalog.uwec.edu/search/?P=WRIT%20118>), or WRIT 120 (<https://catalog.uwec.edu/search/?P=WRIT%20120>)) with a grade of C (not C-) or above
 - achieving a suitable score on the English Placement Test (<https://www.uwec.edu/academics/blugold-seminar/writ-courses-placement/>) (WPT ENGL)
 - achieving a suitable score on an exam such as the Advanced Placement English Literature and Composition or Advanced Placement English Language and Composition exams
 - achieving a suitable score on the University Writing Program Portfolio.

³ **Completion via Placement Tests**

- Writing: If the CL-W subcategory is satisfied through a placement test, the CGER Communication and Literacy requirement will be reduced from 8 credits (2 courses) to 3 credits (1 course).
- Mathematics: If the University Math Requirement is satisfied through a placement test, the CGER Mathematics & Quantitative Reasoning requirement will be considered fully met, replacing the 4-credit (1 course) requirement.
- Students must still complete 36 credits across 10 courses, with any remaining credits or courses eligible to be taken from any CGER category.

College Degree Requirements

Bachelor of Arts or Bachelor of Science Degree (B.A./B.S.)

University Graduation Requirements. All candidates for degrees must fulfill the requirements for credits, curriculum, GPA, and University residency as specified in the section of this catalog titled University Graduation Requirements.

College Graduation Requirements: Grade Point Averages. All candidates for degrees in the College of Arts and Sciences must earn minimum resident and total GPAs of 2.00 in the major, the minor, and the certificate. The resident and total GPAs for the major are computed using all attempted credits applicable to the major including those offered by departments other than the major department. The resident and total GPAs for the minor and the certificate are computed similarly.

Major-Minor and Major-Certificate Requirements. A standard major (a minimum of 36 credits) must be supplemented by a minor (a minimum of 24 credits) or by a certificate (12 to 18 credits) to meet graduation requirements for completing a first and second degree program. No minor or certificate is

required with a Comprehensive Major (60 or more credits) or with two majors of 36 or more credits each.

Certain degree programs, which include Comprehensive Majors, may require more than the minimum of 120 credits for graduation.

Acceptable academic program combinations are determined at the college level. A major and a minor or a major and certificate or two majors (if available) may not be elected in the same department or program, except in the approved combinations listed here.

College Credits. Earn at least 90 credits in courses offered by the College of Arts and Sciences.

Bachelor of Arts Degree in the College of Arts and Sciences (B.A.)

Fulfillment of all University Graduation Requirements (which includes the Core General Education Requirements); all College-level degree requirements (major and minor/certificate emphases, GPAs, earning at least 90 credits in Arts and Sciences course work); second language competency at the 102 level. Second language competency may be met in one of two ways: (1) Demonstrate a level of second language competency that qualifies the student to enter the 201-level course in a second language. (2) Earn a grade of at least C (not C-) or a mark of S in a 102-level second language course (or AIS 112 or AIS 122 or SLHS 103).

Bachelor of Science Degree in the College of Arts and Sciences (B.S.)

Fulfillment of all University Graduation Requirements (which includes the Core General Education Requirements); all College-level degree requirements (major and minor/certificate emphases, GPAs, earning at least 90 credits in Arts and Sciences course work); mathematics competency at the MATH 111, MATH 112 or MATH 113 level. Mathematics competency can be met in one of three ways: (1) Achieve a score on the mathematics placement test that qualifies the student to enter MATH 114. (2) Earn a grade of at least C (not C-) or a mark of S in MATH 111, MATH 112, or MATH 113. (3) Achieve a satisfactory score on the MATH 112 competency test. This test may be attempted no more than two times.

Major Requirements

Liberal Arts (Code 160-010)

The objective of the comprehensive major in geology is to prepare students for graduate programs in geological sciences or for careers as professional geologists, hydrogeologists, or geological engineers. The liberal arts comprehensive major requires completion of the Core and one of the four Emphases.

NOTE: Communication classes, both written and oral, are strongly recommended to fulfill core general education requirements in any of the emphases.

Core Requirements for all Liberal Arts Emphases in the Comprehensive Geology Major

Code	Title	Credits
27-29 credits		
Select one of the following:		4
GEOL 106	Earth Science	
GEOL 110	Physical Geology	
GEOL 115	Environmental Geology	
Required:		
GEOL 312	Mineralogy and Petrology I	5

GEOL 320	Sedimentology and Stratigraphy	4
GEOL 330	Structural Geology	4
GEOL 468	Geological Field Methods	1
GEOL 470	Field Geology I	3
CHEM 115	Chemical Principles (or equivalent)	6
Capstone Experience (required for all majors)		0-2

All Geology majors are required to complete a capstone experience. Approved capstone experiences include 1) successful completion of GEOL 470 and GEOL 471 with a grade of C or above in both courses, 2) successful completion of GEOL 470 and GEOL 472 with a grade of C or above in both courses, 3) student-faculty collaborative research that includes the student giving a public presentation of the research and being listed as the first author of the research presentation, 4) a department-approved internship, 5) other department-approved experiences. Working with their advisor, students submit a proposal to the department faculty outlining their capstone experience choice and explicitly stating how the capstone fits into their personal career goals. The capstone experience proposal must be submitted to the Chair of the Department no later than the second week of the fall semester of the senior year.

General Geology Emphasis

Recommended for students planning careers in geology, especially those planning to attend graduate school in geology or engineering.

This emphasis requires completion of the Comprehensive Geology Major Core plus the required and elective credits as listed below.

Code	Title	Credits
Minimum 60 semester credits, including:		
Required Courses		
GEOL 313	Mineralogy and Petrology II	4
GEOL 315	Hydrogeology I	4
GEOL 418	Global Tectonics	4
GEOL 471	Field Geology II	3
MATH 215	Calculus II	4
PHYS 211	General Physics	5
or PHYS 231	University Physics I	
GEOG 335	Geographic Information Systems I	3
Electives		
At least two courses selected from:		
GEOL 336	Introduction to Geochemistry	
GEOL 345	Geomorphology and Aerial Photography Interpretation	
or GEOL 420	Glacial Geology	
GEOL 365	Economic Mineral Deposits	
GEOL 416	Hydrogeology II	
Select additional electives to total at least 60 credits from the following:		
BIOL 308	Evolution	
BIOL 338	Vegetation Ecology	
BIOL 345	Invertebrate Zoology	
BIOL 356	Vertebrate Biology	
CHEM 213	Quantitative Analysis	
CHEM 218	Introduction to Inorganic Chemistry	
CHEM 433	Physical Chemistry I	

CHEM 434	Physical Chemistry II
GEOG 338	Remote Sensing of the Environment
GEOG 345	Quaternary Environments
GEOG 350	Soils and the Environment
GEOG 363	Watershed Analysis
GEOG 364	Fluvial Processes and Landforms
GEOG 435	Geographic Information Systems III
MSE 315	Materials Characterization
Any Geology course numbered 300 or above	
MATH 216	Calculus III
MATH 246	Elementary Statistics
MATH 311	Differential Equations
MATH 324	Linear Algebra
PHYS 212	General Physics
or PHYS 232	University Physics II
PHYS 226	Astronomy-Solar System
PHYS 229	Astronomy-Stars and Galaxies
PHYS 350	Electric and Electronic Circuits
PHYS 375	Electromagnetic Fields

NOTE 1: No degree credit may be earned under the Satisfactory/Unsatisfactory option in any required courses in a geology major or minor.

NOTE 2: Students should be advised that a second semester of physics is usually required for entrance to graduate school.

Program Learning Outcomes

Students completing this program will be expected to meet the following learning outcomes:

- Explain Earth processes.
- Use mathematics and computational methods to analyze scientific and geological data.
- Read, write, and critically evaluate geological papers.
- Construct an internally consistent geological map utilizing field data, topographic maps, geological maps, air photos, geographic information systems (GIS) data, and geological cross sections.
- Describe and identify common rocks, minerals, and fossils.

Geology, General Geology Emphasis, Comprehensive Major, B.S.

The following is a sample degree plan, based on the current catalog. It is based on the 120-credit graduation requirement and assumes no transferred credits, no requirements waived by placement tests, no courses taken in the summer or winter, no repeated courses, and no remedial courses that may be required. This sample degree plan is intended for first-year students entering UW-Eau Claire in the fall semester. Your own degree plan may differ depending on the course of study selected (second major, minor, etc.). UW-Eau Claire cannot guarantee all courses will be offered as shown, but will provide a range of courses that may enable prepared students to fulfill their requirements in a timely period. This sample degree plan is just a guide. Please consult your advisor, your degree audit, and the catalog to create your own degree plan. *Note:* In order to earn the required minimum of 120 credits for the degree in four years, you should plan to take 15 credits each semester or 30 credits each year.

To earn a degree, students must fulfill all University Graduation Requirements, including the Core General Education Requirements (CGER). CGER course work in the following sample degree plan uses abbreviations such as CGER CL, CGER

HA, and CGER NSWL to represent the learning outcomes students will meet via completion of the course. Please click here for a description of the outcomes and requirements.

Students in this major have the option to pursue either a Bachelor of Arts (B.A.) or a Bachelor of Science (B.S.) degree. The degrees are distinguished by second language competency for the B.A. and a higher level of mathematics competency for the B.S.

SOME TIME IN THE FIRST YEAR

GEOL 106	Earth Science (CGER NSWL)	4

OR

GEOL 110	Physical Geology (CGER NSWL)	

OR

GEOL 115	Environmental Geology (CGER NSWL)	

MATH 114	Calculus I (CGER MQR)	4

CHEM 108	General Chemistry I	4

CGER Option: Humanities & Arts (HA) - e.g., ENGL 130, HIST 114, HIST 115		3

or CGER Option: Civics & Perspectives (CP) - e.g., AIS 101 ¹		

CHEM 109	General Chemistry II	4

MATH 215	Calculus II	4

WRIT 114	Intensive Blugold Seminar in Critical Reading and Writing (CGER CL)	5

OR

WRIT 116	Blugold Seminar in Critical Reading and Writing (CGER CL)	

GEOL Elective - choose from GEOL 301 (CGER NSW), GEOL 304, or GEOL 308 (CGER NSW)		3

TOTAL FIRST YEAR		31

SECOND YEAR

FIRST SEMESTER

GEOL 212	Introduction to Geology and Environmental Science	1

GEOL 312	Mineralogy and Petrology I	5

SECOND SEMESTER

GEOL 313	Mineralogy and Petrology II	4

GEOL 320	Sedimentology and Stratigraphy	4

SOME TIME IN THE SECOND YEAR

GEOG 335	Geographic Information Systems I ²	3

GEOL Elective		4

CGER Option: 2 courses from CL (e.g., CJ 203), CP (e.g., GEOG 270), HA (e.g., ART 105), or SBS (e.g., CJ 201, ECON 103) as appropriate		6

Elective - GEOG 337 is recommended but not required		3

TOTAL SECOND YEAR		30

THIRD YEAR

FIRST SEMESTER

GEOL 330	Structural Geology	4

GEOL 468	Geological Field Methods	1

GEOL 315	Hydrogeology I	4

SECOND SEMESTER

GEOL 418	Global Tectonics	4

GEOL elective - choose from GEOL 336 or GEOL 416 ³		3-4

SOME TIME IN THE THIRD YEAR

OR

PHYS 231	University Physics I (CGER NSWL) ⁴	

CGER Option: 3 courses from CL, CP, HA, or SBS as appropriate		9

TOTAL THIRD YEAR		30-31

WINTERIM AND SUMMER DURING/AFTER THIRD YEAR

WINTERIM New Mexico, 3 weeks		

GEOL 470	Field Geology I	3

SUMMER Montana, 3 weeks		

GEOL 471	Field Geology II ⁵	3

TOTAL		6

FOURTH YEAR

FIRST SEMESTER

GEOL Elective - choose from GEOL 345 / GEOL 420, 365 ³		3-4

SOME TIME IN THE FOURTH YEAR

Elective - choose from BIOL (e.g., BIOL 321), PHYS (e.g., PHYS 212, 232), CHEM, and MATH (e.g., MATH 246) ^{4, 6}		13

CGER Option: 2 courses from CL, CP, HA, or SBS as appropriate		6

TOTAL		22-23

Minimum total for the baccalaureate degree = 120 credits

¹ Many geological issues involve working with people from other cultures. Core General Education Requirement (CGER) electives can help broaden students' perspectives. Suggested CGER include AIS 101, AIS 243, AIS 322/GEOG 322, HIST 114, and HIST 115.

² GEOG 335 should be taken prior to GEOL 468.

³ Minimum of two courses from GEOL 336, GEOL 345 or GEOL 420, GEOL 365, GEOL 416.

⁴ Two semesters of Physics are generally required for attending graduate school, so PHYS 212 or PHYS 232 is strongly recommended.

⁵ Earning a grade of C (not C-) in GEOL 470 and GEOL 471 fulfills the Geology capstone requirement.

⁶ Electives must be selected to ensure that a student's degree comprises at least 39 credits of upper-division courses (300-400 level). Students are encouraged to take additional courses in chemistry, ecology, physics, math, GIS, and written and oral communication, but electives can be selected from any discipline as long as the course prerequisites are met. The degree also must have 120 credits.

RECOMMENDATIONS FOR HIGH IMPACT PRACTICES (HIPs)

The University of Wisconsin-Eau Claire encourages all students to participate in High Impact Practices. The following information identifies any specific recommendations that faculty in this major have concerning which HIPs might be most beneficial to students, and any recommendations about when those HIPs best fit into the degree plan. Students should also consult their faculty advisor for information on HIPs. There are many additional high impact opportunities available. Talk to your academic advisor for more information about incorporating HIPs like Study Abroad (<https://studyabroad.apps.uwec.edu/>), Intercultural Immersion (<https://www.uwec.edu/immersion/>), Internship (<https://www.uwec.edu/offices-services/advising-retention-career-center/career-services/internship/job-searching-and/>), and/or Student/Faculty Collaborative Research (<https://www.uwec.edu/offices-services/office-research-and-sponsored-programs/getting-involved-student-faculty-research/>) into your time at UW-Eau Claire.

Core General Education Requirements (CGER)

Core General Education Requirements (CGER)

The Core General Education Requirements (CGER) includes a minimum of 10 courses across 6 categories. Students must complete a minimum of 36 credits in courses approved for the CGER Core.

- Mathematics & Quantitative Reasoning (MQR) - 4 credits, one course minimum
 - Includes the University Mathematics Requirement¹
- Communication & Literacy (CL) - 8 credits, two courses minimum
 - Includes the University Writing Requirement (CL-W)²
- Natural Sciences & Wellness (NSW/NSWL) - 6 credits, one course minimum (NSW-Lab required)
- Social & Behavioral Sciences (SBS) - 6 credits, two courses minimum
- Humanities & Arts (HA) - 6 credits, two courses minimum
- Civics & Perspectives (CP) - 6 credits, two courses minimum

¹ University Mathematics Requirement:

Students satisfy the University Mathematics Requirement in one of four ways:

- completing an approved university-level mathematics course (MQR) with a grade of C (not C-) or above
- achieving a suitable score on the UW Math Placement Test (<https://www.uwec.edu/academics/academic-support/advising/testing/placement-testing/>)
- achieving a suitable score on an exam such as the Advanced Placement Calculus or Advanced Placement Statistics exams
- achieving a suitable score on a Credit by Examination administered by the Department of Mathematics.

² University Writing Requirement:

Students satisfy the University Writing Requirement in one of four ways:

- completing a Blugold Seminar in Critical Reading and Writing course (WRIT 102 (<https://catalog.uwec.edu/search/?P=WRIT%20102>), WRIT 114 (<https://catalog.uwec.edu/search/?P=WRIT%20114>), WRIT 116 (<https://catalog.uwec.edu/search/?P=WRIT%20116>), WRIT 118 (<https://catalog.uwec.edu/search/?P=WRIT%20118>), or WRIT 120 (<https://catalog.uwec.edu/search/?P=WRIT%20120>)) with a grade of C (not C-) or above
- achieving a suitable score on the English Placement Test (<https://www.uwec.edu/academics/blugold-seminar/writ-courses-placement/>) (WPT ENGL)
- achieving a suitable score on an exam such as the Advanced Placement English Literature and Composition or Advanced Placement English Language and Composition exams
- achieving a suitable score on the University Writing Program Portfolio.

Completion via Placement Test

- Writing: If the CL-W subcategory is satisfied through a placement test, the CGER Communication and Literacy requirement will be reduced from 8 credits (2 courses) to 3 credits (1 course).
- Mathematics: If the University Math Requirement is satisfied through a placement test, the CGER Mathematics & Quantitative Reasoning requirement will be considered fully met, replacing the 4-credit (1 course) requirement.
- Students must still complete 36 credits across 10 courses, with any remaining credits or courses eligible to be taken from any CGER category.

USAFI		
USAFI		maximum 32 credits

Core General Education Requirements (CGER)

CGER Categories

Mathematics & Quantitative Reasoning (MQR) (http://catalog.uwec.edu/undergraduate/outcome-mqr/)	4 credit hours, 1 course min

Includes University Math Requirement ¹

Communication & Literacy (CL) (http://catalog.uwec.edu/undergraduate/outcome-cl/)	8 credit hours, 2 course min (including CL-W)

Includes University Writing Requirement (CL-W) (<http://catalog.uwec.edu/undergraduate/outcome-clw/>) ²

Natural Sciences & Wellness (NSW/NSWL) (http://catalog.uwec.edu/undergraduate/outcome-NSW/)	6 credit hours, 1 course min (NSW-Lab required)

Social & Behavioral Sciences (SBS) (https://catalog.uwec.edu/undergraduate/outcome-sbs/)	6 credit hours, 2 course min

Humanities & Arts (HA) (http://catalog.uwec.edu/undergraduate/outcome-ha/)	6 credit hours, 2 course min

Civics & Perspectives (CP) (http://catalog.uwec.edu/undergraduate/outcome-cp/)	6 credit hours, 2 course min

CGER Totals ³

Credits	minimum 36 credits
Courses	minimum 10 courses

¹ University Mathematics Requirement:

Students satisfy the University Mathematics Requirement in one of four ways:

- completing an approved university-level mathematics course (MQR) with a grade of C (not C-) or above
- achieving a suitable score on the UW Math Placement Test (<https://www.uwec.edu/academics/academic-support/advising/testing/placement-testing/>)
- achieving a suitable score on an exam such as the Advanced Placement Calculus or Advanced Placement Statistics exams
- achieving a suitable score on a Credit by Examination administered by the Department of Mathematics.

² University Writing Requirement:

Students satisfy the University Writing Requirement in one of four ways:

- completing a Blugold Seminar in Critical Reading and Writing course (WRIT 102 (<https://catalog.uwec.edu/search/?P=WRIT%20102>), WRIT 114 (<https://catalog.uwec.edu/search/?P=WRIT%20114>), WRIT 116 (<https://catalog.uwec.edu/search/?P=WRIT%20116>), WRIT 118 (<https://catalog.uwec.edu/search/?P=WRIT%20118>), or WRIT 120 (<https://catalog.uwec.edu/search/?P=WRIT%20120>)) with a grade of C (not C-) or above
- achieving a suitable score on the English Placement Test (<https://www.uwec.edu/academics/blugold-seminar/writ-courses-placement/>) (WPT ENGL)
- achieving a suitable score on an exam such as the Advanced Placement English Literature and Composition or Advanced Placement English Language and Composition exams
- achieving a suitable score on the University Writing Program Portfolio.

³ Completion via Placement Tests

- Writing: If the CL-W subcategory is satisfied through a placement test, the CGER Communication and Literacy requirement will be reduced from 8 credits (2 courses) to 3 credits (1 course).
- Mathematics: If the University Math Requirement is satisfied through a placement test, the CGER Mathematics & Quantitative Reasoning

requirement will be considered fully met, replacing the 4-credit (1 course) requirement.

- Students must still complete 36 credits across 10 courses, with any remaining credits or courses eligible to be taken from any CGER category.

College Degree Requirements

Bachelor of Arts or Bachelor of Science Degree (B.A./B.S.)

University Graduation Requirements. All candidates for degrees must fulfill the requirements for credits, curriculum, GPA, and University residency as specified in the section of this catalog titled University Graduation Requirements.

College Graduation Requirements: Grade Point Averages. All candidates for degrees in the College of Arts and Sciences must earn minimum resident and total GPAs of 2.00 in the major, the minor, and the certificate. The resident and total GPAs for the major are computed using all attempted credits applicable to the major including those offered by departments other than the major department. The resident and total GPAs for the minor and the certificate are computed similarly.

Major-Minor and Major-Certificate Requirements. A standard major (a minimum of 36 credits) must be supplemented by a minor (a minimum of 24 credits) or by a certificate (12 to 18 credits) to meet graduation requirements for completing a first and second degree program. No minor or certificate is required with a Comprehensive Major (60 or more credits) or with two majors of 36 or more credits each.

Certain degree programs, which include Comprehensive Majors, may require more than the minimum of 120 credits for graduation.

Acceptable academic program combinations are determined at the college level. A major and a minor or a major and certificate or two majors (if available) may not be elected in the same department or program, except in the approved combinations listed here.

College Credits. Earn at least 90 credits in courses offered by the College of Arts and Sciences.

Bachelor of Arts Degree in the College of Arts and Sciences (B.A.)

Fulfillment of all University Graduation Requirements (which includes the Core General Education Requirements); all College-level degree requirements (major and minor/certificate emphases, GPAs, earning at least 90 credits in Arts and Sciences course work); second language competency at the 102 level. Second language competency may be met in one of two ways: (1) Demonstrate a level of second language competency that qualifies the student to enter the 201-level course in a second language. (2) Earn a grade of at least C (not C-) or a mark of S in a 102-level second language course (or AIS 112 or AIS 122 or SLHS 103).

Bachelor of Science Degree in the College of Arts and Sciences (B.S.)

Fulfillment of all University Graduation Requirements (which includes the Core General Education Requirements); all College-level degree requirements (major and minor/certificate emphases, GPAs, earning at least 90 credits in Arts and Sciences course work); mathematics competency at the MATH 111, MATH 112 or MATH 113 level. Mathematics competency can be met in one of three ways:

- (1) Achieve a score on the mathematics placement test that qualifies the student to enter MATH 114.
- (2) Earn a grade of at least C (not C-) or a mark of S in MATH 111, MATH 112, or MATH 113.
- (3) Achieve a satisfactory score on the

MATH 112 competency test. This test may be attempted no more than two times.

Major Requirements

Liberal Arts (Code 160-013)

The objective of the comprehensive major in geology is to prepare students for graduate programs in geological sciences or geological engineering, or for careers as professional hydrogeologists or geologists. The liberal arts comprehensive major requires completion of the Core and one of the four Emphases.

NOTE: Communication classes, both written and oral, are strongly recommended to fulfill core general education requirements in any of the emphases.

Core Requirements for all Liberal Arts Emphases in the Comprehensive Geology Major

Code	Title	Credits
27-29 credits		
Select one of the following:		4
GEOL 106	Earth Science	
GEOL 110	Physical Geology	
GEOL 115	Environmental Geology	
Required:		
GEOL 312	Mineralogy and Petrology I	5
GEOL 320	Sedimentology and Stratigraphy	4
GEOL 330	Structural Geology	4
GEOL 468	Geological Field Methods	1
GEOL 470	Field Geology I	3
CHEM 115	Chemical Principles (or equivalent)	6
Capstone Experience (required for all majors)		0-2

All Geology majors are required to complete a capstone experience. Approved capstone experiences include 1) successful completion of GEOL 470 and GEOL 471 with a grade of C or above in both courses, 2) successful completion of GEOL 470 and GEOL 472 with a grade of C or above in both courses, 3) student-faculty collaborative research that includes the student giving a public presentation of the research and being listed as the first author of the research presentation, 4) a department-approved internship, 5) other department-approved experiences. Working with their advisor, students submit a proposal to the department faculty outlining their capstone experience choice and explicitly stating how the capstone fits into their personal career goals. The capstone experience proposal must be submitted to the Chair of the Department no later than the second week of the fall semester of the senior year.

Hydrogeology and Water Chemistry Emphasis

Recommended for students planning careers in geology such as hydrogeology, geochemistry, and environmental geology. This program is designed to fulfill requirements for admission to graduate programs in hydrogeology, geochemistry, and environmental geology. This program also meets 1998 Wisconsin Department of Natural Resources' academic requirements for classification as a hydrogeologist.

This emphasis requires completion of the Comprehensive Geology Major Core plus the required and elective credits as listed below.

Code	Title	Credits
Minimum 60 semester credits, including:		
Required Courses		
GEOL 308	Water Resources	3
GEOL 315	Hydrogeology I	4
GEOL 336	Introduction to Geochemistry	3
GEOL 345	Geomorphology and Aerial Photography Interpretation	3
GEOL 416	Hydrogeology II	4
GEOL 472	Field Hydrology	3
MATH 215	Calculus II	4
PHYS 211 or PHYS 231	General Physics University Physics I	5
GEOG 335	Geographic Information Systems I	3
Plus electives to total at least 60 credits selected from the following:		
CHEM 213	Quantitative Analysis	
CHEM 218	Introduction to Inorganic Chemistry	
CHEM 325	Organic Chemistry I with Laboratory	
CHEM 401	Inorganic Chemistry	
CHEM 426	Modern Organic Chemistry	
CHEM 433	Physical Chemistry I	
GEOG 350	Soils and the Environment	
GEOG 363	Watershed Analysis	
GEOG 364	Fluvial Processes and Landforms	
GEOG 435	Geographic Information Systems III	
MSE 315	Materials Characterization	
or any geology course numbered 300 or higher		

NOTE 1: No degree credit may be earned under the Satisfactory/Unsatisfactory option in any required courses in a geology major or minor.

NOTE 2: Students should be advised that a second semester of physics is usually required for entrance to graduate school.

Program Learning Outcomes

Students completing this program will be expected to meet the following learning outcomes:

- Explain Earth processes.
- Use mathematics and computational methods to analyze scientific and geological data.
- Read, write, and critically evaluate geological papers.
- Construct an internally consistent geological map utilizing field data, topographic maps, geological maps, air photos, geographic information systems (GIS) data, and geological cross sections.
- Develop geologic models and effectively communicate a hydrogeologic interpretation based on observations.

Geology, Hydrogeology and Water Chemistry Emphasis, Comprehensive Major, B.S.

The following is a sample degree plan, based on the current catalog. It is based on the 120-credit graduation requirement and assumes no transferred credits, no requirements waived by placement tests, no courses taken in the summer or winter, no repeated courses, and no remedial courses that may be required. This sample degree plan is intended for first-year students entering UW-Eau Claire in the fall semester. Your own degree plan may differ depending

on the course of study selected (second major, minor, etc.). UW-Eau Claire cannot guarantee all courses will be offered as shown, but will provide a range of courses that may enable prepared students to fulfill their requirements in a timely period. This sample degree plan is just a guide. Please consult your advisor, your degree audit, and the catalog to create your own degree plan. *Note:* In order to earn the required minimum of 120 credits for the degree in four years, you should plan to take 15 credits each semester or 30 credits each year.

To earn a degree, students must fulfill all University Graduation Requirements, including the Core General Education Requirements (CGER). CGER course work in the following sample degree plan uses abbreviations such as CGER CL, CGER HA, and CGER NSWL to represent the learning outcomes students will meet via completion of the course. Please click here for a description of the outcomes and requirements.

Students in this major have the option to pursue either a Bachelor of Arts (B.A.) or a Bachelor of Science (B.S.) degree. The degrees are distinguished by second language competency for the B.A. and a higher level of mathematics competency for the B.S.

FIRST YEAR

FIRST SEMESTER		
GEOL 106	Earth Science (CGER NSWL)	4

CGER Option: 3 courses from CL (e.g., CJ 203), CP (e.g., GEOG 270), HA (e.g., ART 105), or SBS (e.g., CJ 201, ECON 103) as appropriate	9
TOTAL SECOND YEAR	30
THIRD YEAR	
FIRST SEMESTER	
GEOL 315 Hydrogeology I	4
GEOL 330 Structural Geology	4
GEOL 345 Geomorphology and Aerial Photography Interpretation	3
or GEOL 420 Glacial Geology	
GEOL 468 Geological Field Methods	1
SECOND SEMESTER	
GEOL 416 Hydrogeology II	4
GEOL 336 Introduction to Geochemistry	3
SOME TIME IN THE THIRD YEAR	
CGER Option: 3 courses from CL, CP, HA, or SBS as appropriate	9
Elective - PHYS, CHEM, GEOL, MATH 246, or BIOL 321 ^{5, 6}	3-4
TOTAL THIRD YEAR	31-32
WINTERIM AND SUMMER DURING/AFTER THIRD YEAR	
WINTERIM New Mexico, 3 weeks	
GEOL 470 Field Geology I	3
SUMMER Wisconsin, 3 weeks	
GEOL 472 Field Hydrology	3
SOME TIME IN THE FOURTH YEAR	
Electives - PHYS, CHEM, GEOL, MATH 246, or BIOL 321 ^{5, 6}	10-12
CGER Option: 1 course from CL, CP, HA, or SBS as appropriate	3
Elective courses in writing, public speaking, GIS, etc..	12
TOTAL FOURTH YEAR	25-27

Minimum total for the baccalaureate degree = 120 credits

- ¹ **CGER (Core General Education Requirements):** Many geological issues involve working with people from other cultures. Core General Education Requirement electives can help broaden students' perspectives. Suggested CGER include AIS 101, AIS 243, AIS 322/GEOG 322, HIST 114, and HIST 115.
- ² GEOG 335 should be taken prior to GEOL 468.
- ³ Two semesters of Physics are generally required for attending graduate school, so PHYS 212 or PHYS 232 is strongly recommended.
- ⁴ Earning a grade of C (not C-) in GEOL 470 and GEOL 472 fulfills the Geology capstone requirement.
- ⁵ Plus electives to total at least 60 credits selected from the following: CHEM 213, CHEM 218, CHEM 325, CHEM 401, CHEM 426, CHEM 433; GEOG 337, GEOG 350, GEOG 363, GEOG 364, GEOG 435; or any GEOL course numbered 300 or higher.
- ⁶ Electives must be selected to ensure that a student's degree comprises at least 39 credits of upper-division courses (300-400 level). Students are encouraged to take additional courses in chemistry, ecology, physics, math, GIS, and written and oral communication, but electives can be selected from any discipline as long as the course prerequisites are met.

RECOMMENDATIONS FOR HIGH IMPACT PRACTICES (HIPs)

The University of Wisconsin-Eau Claire encourages all students to participate in High Impact Practices. The following information identifies any specific recommendations that faculty in this major have concerning which HIPs might be most beneficial to students, and any recommendations about when those HIPs best fit into the degree plan. Students should also consult

their faculty advisor for information on HIPs. There are many additional high impact opportunities available. Talk to your academic advisor for more information about incorporating HIPs like Study Abroad (<https://studyabroad.apps.uwec.edu/>), Intercultural Immersion (<https://www.uwec.edu/immersion/>), Internship (<https://www.uwec.edu/offices-services/advising-retention-career-center/career-services/internship/job-searching-and/>), and/or Student/Faculty Collaborative Research (<https://www.uwec.edu/offices-services/office-research-and-sponsored-programs/getting-involved-student-faculty-research/>) into your time at UW-Eau Claire.

Core General Education Requirements (CGER)

Core General Education Requirements (CGER)

The Core General Education Requirements (CGER) includes a minimum of 10 courses across 6 categories. Students must complete a minimum of 36 credits in courses approved for the CGER Core.

- Mathematics & Quantitative Reasoning (MQR) - 4 credits, one course minimum
 - Includes the University Mathematics Requirement¹
- Communication & Literacy (CL) - 8 credits, two courses minimum
 - Includes the University Writing Requirement (CL-W)²
- Natural Sciences & Wellness (NSW/NSWL) - 6 credits, one course minimum (NSW-Lab required)
- Social & Behavioral Sciences (SBS) - 6 credits, two courses minimum
- Humanities & Arts (HA) - 6 credits, two courses minimum
- Civics & Perspectives (CP) - 6 credits, two courses minimum

¹ **University Mathematics Requirement:**

Students satisfy the University Mathematics Requirement in one of four ways:

- completing an approved university-level mathematics course (MQR) with a grade of C (not C-) or above
- achieving a suitable score on the UW Math Placement Test (<https://www.uwec.edu/academics/academic-support/advising/testing/placement-testing/>)
- achieving a suitable score on an exam such as the Advanced Placement Calculus or Advanced Placement Statistics exams
- achieving a suitable score on a Credit by Examination administered by the Department of Mathematics.

² **University Writing Requirement:**

Students satisfy the University Writing Requirement in one of four ways:

- completing a Blugold Seminar in Critical Reading and Writing course (WRIT 102 (<https://catalog.uwec.edu/search/?P=WRIT%20102>), WRIT 114 (<https://catalog.uwec.edu/search/?P=WRIT%20114>), WRIT 116 (<https://catalog.uwec.edu/search/?P=WRIT%20116>), WRIT 118 (<https://catalog.uwec.edu/search/?P=WRIT%20118>), or WRIT 120 (<https://catalog.uwec.edu/search/?P=WRIT%20120>)) with a grade of C (not C-) or above
- achieving a suitable score on the English Placement Test (<https://www.uwec.edu/academics/blugold-seminar/writ-courses-placement/>) (WPT ENGL)
- achieving a suitable score on an exam such as the Advanced Placement English Literature and Composition or Advanced Placement English Language and Composition exams
- achieving a suitable score on the University Writing Program Portfolio.

Completion via Placement Test

- Writing: If the CL-W subcategory is satisfied through a placement test, the CGER Communication and Literacy requirement will be reduced from 8 credits (2 courses) to 3 credits (1 course).
- Mathematics: If the University Math Requirement is satisfied through a placement test, the CGER Mathematics & Quantitative Reasoning requirement will be considered fully met, replacing the 4-credit (1 course) requirement.
- Students must still complete 36 credits across 10 courses, with any remaining credits or courses eligible to be taken from any CGER category.

Geology, Major

Liberal Arts (Code 160-204)

University Requirements

GRADUATION REQUIREMENTS FOR BACCALAUREATE DEGREE

Credit Requirements	
Minimum total for graduation ¹	120
Upper division credits (courses numbered 300 and higher)	39
Core General Education	10 courses, 36 credits
Academic Concentrations	
Grade Point Requirements ²	
Total	2.00 average
Resident	2.00 average
Major	2.00 average
Minor	2.00 average
Certificate	2.00 average
University Residency Requirements	
Minimum total	30
Senior year	23
Major, Standard, upper division in residence	12
Major, Comprehensive, upper division in residence	21
Certificate	25 percent of credits

Procedures Required for Graduation

- Obtain admission to the degree program and/or the College offering it.
- Apply for graduation on CampS.

¹ Certain programs exceed this minimum.
² See special requirements in each College.

Applicability of Credits Toward Graduation

Junior College or Two-Year College Credits. A maximum of 72 semester credits earned in a junior college or two-year college will be accepted as degree credits at UW-Eau Claire.

Extension Credits. Credits earned in credit outreach courses offered by UW-Eau Claire are treated as resident credits. Credits earned in extension courses offered by other units of the Universities of Wisconsin System are treated as transfer credits. All other (non-UW) extension and correspondence credits are normally limited to one-fourth of the total required for graduation from any curriculum.

WTCS Credits. A maximum of 72 semester credits earned in college parallel programs at Madison Area Technical College, Milwaukee Area Technical College, Nicolet Area Technical College, or Chippewa Valley Technical College may be accepted as degree credits at UW-Eau Claire. A set number of general education courses will be accepted from other technical schools. Occupational and technical courses may also be considered for transfer if the quality and content of the course work from the technical college is judged to be comparable to course work at UW-Eau Claire. Refer to the Transfer Credit Wizard (https://www.uwec.sis.wisconsin.edu/psp/eauprd-tb/EMPLOYEE/SA/c/EAU_SS_CUSTOM.EAU_TRNCRDWZ.GBL) or contact the UW-Eau Claire Admissions Office for information about the current transfer policy.

USAFI Credit. UW-Eau Claire will accept up to 32 semester credits for work done through the United States Armed Forces Institute, under the provision for non-UW correspondence credit (see Extension Credits above).

Activity Credit (band, chorus, drama, KINS 100-184 courses) Students may count toward graduation no more than one credit of KINS 110-184 courses. Students may count toward graduation no more than four credits earned in any single activity course and no more than 12 credits resulting from any combination of activity courses (excluding KINS 110-184 courses).

Other Restricted Credits. For other University restrictions, see the following: Cooperative Education; Credit by Examination; Satisfactory/Unsatisfactory Registration; Transfer of Credits. College or departmental restrictions may also be placed on Independent Study (399-499 courses), Directed Study (395-495), and other types of credits.

APPLICABILITY OF CREDITS TOWARD GRADUATION		Credit Restrictions
Satisfactory/Unsatisfactory		
Total degree credit		maximum 12
Major, Standard		maximum 1 course
Major, Comprehensive		maximum 2 courses
Minor		maximum 1 course
Credit by Examination		
Total degree credit		maximum ¼ of total
Major or minor		maximum ½ of total
Two-Year College Credits		
Total degree credit		maximum 72 credits
Activity credit (band, chorus, drama, KINS 100-184)		
Total KINS 100-184		maximum 1 credit
Total Band, chorus, drama		maximum 12 credits
Single course band, chorus, drama		maximum 4 credits
Extension credits		
UW-System		no maximum

College Degree Requirements

Bachelor of Arts or Bachelor of Science Degree (B.A./B.S.)

University Graduation Requirements. All candidates for degrees must fulfill the requirements for credits, curriculum, GPA, and University residency as specified in the section of this catalog titled University Graduation Requirements.

College Graduation Requirements: Grade Point Averages. All candidates for degrees in the College of Arts and Sciences must earn minimum resident and total GPAs of 2.00 in the major, the minor, and the certificate. The resident and total GPAs for the major are computed using all attempted credits applicable to the major including those offered by departments other than the major department. The resident and total GPAs for the minor and the certificate are computed similarly.

Major-Minor and Major-Certificate Requirements. A standard major (a minimum of 36 credits) must be supplemented by a minor (a minimum of 24 credits) or by a certificate (12 to 18 credits) to meet graduation requirements for completing a first and second degree program. No minor or certificate is required with a Comprehensive Major (60 or more credits) or with two majors of 36 or more credits each.

Certain degree programs, which include Comprehensive Majors, may require more than the minimum of 120 credits for graduation.

Acceptable academic program combinations are determined at the college level. A major and a minor or a major and certificate or two majors (if available) may not be elected in the same department or program, except in the approved combinations listed here.

College Credits. Earn at least 90 credits in courses offered by the College of Arts and Sciences.

Bachelor of Arts Degree in the College of Arts and Sciences (B.A.)

Fulfillment of all University Graduation Requirements (which includes the Core General Education Requirements); all College-level degree requirements (major and minor/certificate emphases, GPAs, earning at least 90 credits in Arts and Sciences course work); second language competency at the 102 level. Second language competency may be met in one of two ways: (1) Demonstrate a level of second language competency that qualifies the student to enter the 201-level course in a second language. (2) Earn a grade of at least C (not C-)

or a mark of S in a 102-level second language course (or AIS 112 or AIS 122 or SLHS 103).

Bachelor of Science Degree in the College of Arts and Sciences (B.S.)

Fulfillment of all University Graduation Requirements (which includes the Core General Education Requirements); all College-level degree requirements (major and minor/certificate emphases, GPAs, earning at least 90 credits in Arts and Sciences course work); mathematics competency at the MATH 111, MATH 112 or MATH 113 level. Mathematics competency can be met in one of three ways: (1) Achieve a score on the mathematics placement test that qualifies the student to enter MATH 114. (2) Earn a grade of at least C (not C-) or a mark of S in MATH 111, MATH 112, or MATH 113. (3) Achieve a satisfactory score on the MATH 112 competency test. This test may be attempted no more than two times.

Major Requirements

Liberal Arts (Code 160-204)

The Liberal Arts major in geology emphasizes broad training in general science; the relationship between earth science and other sciences; and the flexibility and creativity in program design for meeting an individual student's interest and employment needs. This major requires completion of the Core liberal arts program plus elective credits. This non-comprehensive major also requires completion of a minor or a second major in another department.

Core Requirements for the Geology Major

Code	Title	Credits
Minimum 36 semester credits, including:		
Required Courses (27-29 credits)		
Select one of the following:		4
GEOL 106	Earth Science	
GEOL 110	Physical Geology

CHEM 115	Chemical Principles (or equivalent)	6
Capstone experience ¹		0-2
Plus electives to total at least 36 credits selected from any geology course numbered 300 or higher.		

¹ All Geology majors are required to complete a capstone experience. Approved capstone experiences include 1) successful completion of GEOL 470 and GEOL 471 with a grade of C or above in both courses, 2) successful completion of GEOL 470 and GEOL 472 with a grade of C or above in both courses, 3) student-faculty collaborative research that includes the student giving a public presentation of the research and being listed as the first author of the research presentation, 4) a department-approved internship, 5) other department-approved experiences. Working with their advisor, students submit a proposal to the department faculty outlining their capstone experience choice and explicitly stating how the capstone fits into their personal career goals. The capstone experience proposal must be

submitted to the Chair of the Department no later than the second week of the fall semester of the senior year.

NOTE 1: No degree credit may be earned under the Satisfactory/Unsatisfactory option in any required courses in a geology major or minor.

NOTE 2: Communication classes, both written and oral, are strongly recommended to fulfill Core General Education Requirements in any of the emphases.

Program Learning Outcomes

Students completing this program will be expected to meet the following learning outcomes:

- Explain Earth processes.
- Use mathematics and computational methods to analyze scientific and geological data.
- Read, write, and critically evaluate geological papers.
- Construct an internally consistent geological map utilizing field data, topographic maps, geological maps, air photos, geographic information systems (GIS) data, and geological cross sections.
- Evaluate a geological field site and produce a professional report.

Geology, Major, B.S.

The following is a sample degree plan, based on the current catalog. It is based on the 120-credit graduation requirement and assumes no transferred credits, no requirements waived by placement tests, no courses taken in the summer or winter, no repeated courses, and no remedial courses that may be required. This sample degree plan is intended for first-year students entering UW-Eau Claire in the fall semester. Your own degree plan may differ depending on the course of study selected (second major, minor, etc.). UW-Eau Claire cannot guarantee all courses will be offered as shown, but will provide a range of courses that may enable prepared students to fulfill their requirements in a timely period. This sample degree plan is just a guide. Please consult your advisor, your degree audit, and the catalog to create your own degree plan. *Note:* In order to earn the required minimum of 120 credits for the degree in four years, you should plan to take 15 credits each semester or 30 credits each year.

To earn a degree, students must fulfill all University Graduation Requirements, including the Core General Education Requirements (CGER). CGER course work in the following sample degree plan uses abbreviations such as CGER CL, CGER HA, and CGER NSWL to represent the learning outcomes students will meet via completion of the course. Please click here for a description of the outcomes and requirements.

Students in this major have the option to pursue either a Bachelor of Arts (B.A.) or a Bachelor of Science (B.S.) degree. The degrees are distinguished by second language competency for the B.A. and a higher level of mathematics competency for the B.S.

SOME TIME IN THE FIRST YEAR

GEOL Elective - Upper-division, if necessary ^{2,5}		3-4
Minor Electives ⁵		3

CGER Option: 2 courses from CL, CP, HA, or SBS as appropriate 6

Electives 15

TOTAL FOURTH YEAR 27-28

Minimum total for the baccalaureate degree = 120 credits

- Many geological issues involve working with people from other cultures. Core General Education Requirement (CGER) electives can help broaden students' perspectives. Suggested CGER include AIS 101, AIS 243, AIS 322/GEOG 322, HIST 114, and HIST 115.
- Electives to total at least 36 credits selected from any geology course numbered 300 or higher.
- This major either requires a minor (24 credits) or a certificate with at least 12 unique credits. Consult with your advisor to select appropriate classes.
- GEOG 335 is recommended prior to GEOL 468.
- Electives must be selected to ensure that a student's degree comprises at least 39 credits of upper-division courses (300-400 level). Students are encouraged to take additional courses in chemistry, ecology, physics, math, GIS, and written and oral communication, but electives can be selected from any discipline as long as the course prerequisites are met.
- Earning a grade of C (not C-) in GEOL 470 and GEOL 471 or GEOL 472 fulfills the Geology capstone requirement. Students not taking GEOL 471 or GEOL 472 must consult with a Geology faculty advisor for capstone options and submit a capstone proposal to the Department Chair.

RECOMMENDATIONS FOR HIGH IMPACT PRACTICES (HIPs)

The University of Wisconsin-Eau Claire encourages all students to participate in High Impact Practices. The following information identifies any specific recommendations that faculty in this major have concerning which HIPs might be most beneficial to students, and any recommendations about when those HIPs best fit into the degree plan. Students should also consult their faculty advisor for information on HIPs. There are many additional high impact opportunities available. Talk to your academic advisor for more information about incorporating HIPs like Study Abroad (<https://studyabroad.apps.uwec.edu/>), Intercultural Immersion (<https://www.uwec.edu/immersion/>), Internship (<https://www.uwec.edu/offices-services/advising-retention-career-center/career-services/internship/job-searching-and/>), and/or Student/Faculty Collaborative Research (<https://www.uwec.edu/offices-services/office-research-and-sponsored-programs/getting-involved-student-faculty-research/>) into your time at UW-Eau Claire.

Core General Education Requirements (CGER)

Core General Education Requirements (CGER)

The Core General Education Requirements (CGER) includes a minimum of 10 courses across 6 categories. Students must complete a minimum of 36 credits in courses approved for the CGER Core.

- Mathematics & Quantitative Reasoning (MQR) - 4 credits, one course minimum
 - Includes the University Mathematics Requirement¹
- Communication & Literacy (CL) - 8 credits, two courses minimum
 - Includes the University Writing Requirement (CL-W)²
- Natural Sciences & Wellness (NSW/NSWL) - 6 credits, one course minimum (NSW-Lab required)
- Social & Behavioral Sciences (SBS) - 6 credits, two courses minimum
- Humanities & Arts (HA) - 6 credits, two courses minimum
- Civics & Perspectives (CP) - 6 credits, two courses minimum

¹ **University Mathematics Requirement:**

Students satisfy the University Mathematics Requirement in one of four ways:

- completing an approved university-level mathematics course (MQR) with a grade of C (not C-) or above
- achieving a suitable score on the UW Math Placement Test (<https://www.uwec.edu/academics/academic-support/advising/testing/placement-testing/>)
- achieving a suitable score on an exam such as the Advanced Placement Calculus or Advanced Placement Statistics exams
- achieving a suitable score on a Credit by Examination administered by the Department of Mathematics.

² **University Writing Requirement:**

Students satisfy the University Writing Requirement in one of four ways:

- completing a Blugold Seminar in Critical Reading and Writing course (WRIT 102 (<https://catalog.uwec.edu/search/?P=WRIT%20102>), WRIT 114 (<https://catalog.uwec.edu/search/?P=WRIT%20114>), WRIT 116 (<https://catalog.uwec.edu/search/?P=WRIT%20116>), WRIT 118 (<https://catalog.uwec.edu/search/?P=WRIT%20118>), or WRIT 120 (<https://catalog.uwec.edu/search/?P=WRIT%20120>)) with a grade of C (not C-) or above
- achieving a suitable score on the English Placement Test (<https://www.uwec.edu/academics/blugold-seminar/writ-courses-placement/>) (WPT ENGL)
- achieving a suitable score on an exam such as the Advanced Placement English Literature and Composition or Advanced Placement English Language and Composition exams
- achieving a suitable score on the University Writing Program Portfolio.

Completion via Placement Test

- Writing: If the CL-W subcategory is satisfied through a placement test, the CGER Communication and Literacy requirement will be reduced from 8 credits (2 courses) to 3 credits (1 course).
- Mathematics: If the University Math Requirement is satisfied through a placement test, the CGER Mathematics & Quantitative Reasoning requirement will be considered fully met, replacing the 4-credit (1 course) requirement.
- Students must still complete 36 credits across 10 courses, with any remaining credits or courses eligible to be taken from any CGER category.

Science Teaching, Earth/Space Science Emphasis Comprehensive Major

Teaching (Code 241-003)

University Requirements

GRADUATION REQUIREMENTS FOR BACCALAUREATE DEGREE

Credit Requirements	
Minimum total for graduation ¹	120
Upper division credits (courses numbered 300 and higher)	39
Core General Education	10 courses, 36 credits
Academic Concentrations	
Grade Point Requirements ²	
Total	2.00 average

Resident	2.00 average
Major	2.00 average
Minor	2.00 average
Certificate	2.00 average

University Residency Requirements

Minimum total	30
Senior year	23
Major, Standard, upper division in residence	12
Major, Comprehensive, upper division in residence	21
Certificate	25 percent of credits

Procedures Required for Graduation

Obtain admission to the degree program and/or the College offering it.

Apply for graduation on CampS.

- ¹ Certain programs exceed this minimum.
² See special requirements in each College.

Applicability of Credits Toward Graduation

Junior College or Two-Year College Credits. A maximum of 72 semester credits earned in a junior college or two-year college will be accepted as degree credits at UW-Eau Claire.

Extension Credits. Credits earned in credit outreach courses offered by UW-Eau Claire are treated as resident credits. Credits earned in extension courses offered by other units of the Universities of Wisconsin System are treated as transfer credits. All other (non-UW) extension and correspondence credits are normally limited to one-fourth of the total required for graduation from any curriculum.

WTCS Credits. A maximum of 72 semester credits earned in college parallel programs at Madison Area Technical College, Milwaukee Area Technical College, Nicolet Area Technical College, or Chippewa Valley Technical College may be accepted as degree credits at UW-Eau Claire. A set number of general education courses will be accepted from other technical schools. Occupational and technical courses may also be considered for transfer if the quality and content of the course work from the technical college is judged to be comparable to course work at UW-Eau Claire. Refer to the Transfer Credit Wizard (https://www.uwec.sis.wisconsin.edu/psp/eauprd-tb/EMPLOYEE/SA/c/EAU_SS_CUSTOM.EAU_TRNCRDWZ.GBL) or contact the UW-Eau Claire Admissions Office for information about the current transfer policy.

USAFI Credit. UW-Eau Claire will accept up to 32 semester credits for work done through the United States Armed Forces Institute, under the provision for non-UW correspondence credit (see Extension Credits above).

Activity Credit (band, chorus, drama, KINS 100-184 courses) Students may count toward graduation no more than one credit of KINS 110-184 courses. Students may count toward graduation no more than four credits earned in any single activity course and no more than 12 credits resulting from any combination of activity courses (excluding KINS 110-184 courses).

Other Restricted Credits. For other University restrictions, see the following: Cooperative Education; Credit by Examination; Satisfactory/Unsatisfactory Registration; Transfer of Credits. College or departmental restrictions may also be placed on Independent Study (399-499 courses), Directed Study (395-495), and other types of credits.

APPLICABILITY OF CREDITS TOWARD GRADUATION	Credit Restrictions
Satisfactory/Unsatisfactory	
Total degree credit	maximum 12
Major, Standard	maximum 1 course
Major, Comprehensive	maximum 2 courses
Minor	maximum 1 course
Credit by Examination	
Total degree credit	maximum ¼ of total
Major or minor	maximum ½ of total
Two-Year College Credits	
Total degree credit	maximum 72 credits
Activity credit (band, chorus, drama, KINS 100-184)	
Total KINS 100-184	maximum 1 credit
Total Band, chorus, drama	maximum 12 credits
Single course band, chorus, drama	maximum 4 credits
Extension credits	
UW-System	no maximum
Other extension/correspondence	maximum ¼ of total
USAFI	
USAFI	maximum 32 credits

Core General Education Requirements (CGER)

CGER Categories

Mathematics & Quantitative Reasoning (MQR) (http://catalog.uwec.edu/undergraduate/outcome-mqr/) Includes University Math Requirement ¹	4 credit hours, 1 course min
Communication & Literacy (CL) (http://catalog.uwec.edu/undergraduate/outcome-cl/) Includes University Writing Requirement (CL-W) (http://catalog.uwec.edu/undergraduate/outcome-clw/) ²	8 credit hours, 2 course min (including CL-W)
Natural Sciences & Wellness (NSW/NSWL) (http://catalog.uwec.edu/undergraduate/outcome-NSW/)	6 credit hours, 1 course min (NSW-Lab required)
Social & Behavioral Sciences (SBS) (https://catalog.uwec.edu/undergraduate/outcome-sbs/)	6 credit hours, 2 course min
Humanities & Arts (HA) (http://catalog.uwec.edu/undergraduate/outcome-ha/)	6 credit hours, 2 course min
Civics & Perspectives (CP) (http://catalog.uwec.edu/undergraduate/outcome-cp/)	6 credit hours, 2 course min
CGER Totals ³	

Credits	minimum 36 credits
Courses	minimum 10 courses

¹ **University Mathematics Requirement:**

Students satisfy the University Mathematics Requirement in one of four ways:

- completing an approved university-level mathematics course (MQR) with a grade of C (not C-) or above
- achieving a suitable score on the UW Math Placement Test (<https://www.uwec.edu/academics/academic-support/advising/testing/placement-testing/>)
- achieving a suitable score on an exam such as the Advanced Placement Calculus or Advanced Placement Statistics exams
- achieving a suitable score on a Credit by Examination administered by the Department of Mathematics.

² **University Writing Requirement:**

Students satisfy the University Writing Requirement in one of four ways:

- completing a Blugold Seminar in Critical Reading and Writing course (WRIT 102 (<https://catalog.uwec.edu/search/?P=WRIT%20102>), WRIT 114 (<https://catalog.uwec.edu/search/?P=WRIT%20114>), WRIT 116 (<https://catalog.uwec.edu/search/?P=WRIT%20116>), WRIT 118 (<https://catalog.uwec.edu/search/?P=WRIT%20118>), or WRIT 120 (<https://catalog.uwec.edu/search/?P=WRIT%20120>)) with a grade of C (not C-) or above
- achieving a suitable score on the English Placement Test (<https://www.uwec.edu/academics/blugold-seminar/writ-courses-placement/>) (WPT ENGL)
- achieving a suitable score on an exam such as the Advanced Placement English Literature and Composition or Advanced Placement English Language and Composition exams
- achieving a suitable score on the University Writing Program Portfolio.

³ **Completion via Placement Tests**

- Writing: If the CL-W subcategory is satisfied through a placement test, the CGER Communication and Literacy requirement will be reduced from 8 credits (2 courses) to 3 credits (1 course).
- Mathematics: If the University Math Requirement is satisfied through a placement test, the CGER Mathematics & Quantitative Reasoning requirement will be considered fully met, replacing the 4-credit (1 course) requirement.
- Students must still complete 36 credits across 10 courses, with any remaining credits or courses eligible to be taken from any CGER category.

College Degree Requirements

College of Health and Human Sciences Requirements for Teacher Education Programs

1. Grade point requirements:

Abbreviation	Full Title
Resident	2.75 average
Total	2.75 average
Major	2.75 average
Minor (for certification only)	2.75 average

2. Residency requirements:

Abbreviation	Full Title
Minimum Total	30 credits
Senior Year	23 credits
Major, in upper division courses	12 credits
Comprehensive Major, in upper division courses	21 credits

3. Criteria and requirements for Admission to Education Program and Admission to the Professional Education Semester.
4. Specific requirements for programs offered in the College of Health and Human Sciences as outlined in department specific sections of this catalog.

Admission to Education Program

Admission to the Education Program

Students must apply for admission to the Education Program. Applications are due by October 1 for spring admission or March 1 for fall admission. To submit an application to an Education Program, students must satisfy all of the requirements listed below:

1. Approval by the appropriate department in the College of Health and Human Sciences.
2. Pre-education status.
3. Students must have attained at least Sophomore Status
4. Minimum total GPA of 2.5 or minimum resident GPA of 2.5. Admission is competitive; thus, the minimum GPA does not assure admission.
5. Completed the Core General Education Requirement (CGER) for Communication & Literacy-Writing with a C or better.
6. Completed the Core General Education Requirement (CGER) for Mathematics & Quantitative Reasoning with a C or better.
7. Good academic standing.
8. Complete an introductory education course with a field placement (SEIP 208, ES 212, or the equivalent) with a grade of C or better.

Specific majors may have additional department-level criteria. Consult with the department if needed.

Admission to the Professional Education Semester (Student Teaching or Internship)

Admission to the Professional Education Semester

The "Professional Education Semester" is defined as the semester in which a student is enrolled in the field experience of student teaching or internship.

Filing Notice of Intent to Student Teach Applications: Information concerning the Notice of Intent to Student Teach will be advertised widely and posted across campus each semester with an associated due date. Students who plan to enter the Professional Education Semester during the fall semester of the next academic year must file a Notice of Intent to Student Teach with the Teacher Education Program office in the fall. Students who plan to enter the Professional Education Semester during the spring semester of the next academic year must file a Notice of Intent to Student Teach with the Teacher Education Program office in the spring.

Students are encouraged to submit their Notice of Intent to Student Teach by the announced due date. Considerable time is required to process each notice—that is, to determine eligibility, to make arrangements with schools for an appropriate field experience assignment, and to allow for introductions,

orientations, and, in some cases, interviews. Students who file on time will benefit by the careful consideration that can be given to their requests; the later a notice is received, the fewer the placement assignments and choices still available will be. Failure to file a Notice of Intent to Student Teach on time may result in a delay of the Professional Education Semester.

Transfer and Special Students: No transfer or special student can enter the Professional Education Semester until after a full semester of residence and after earning a minimum of 15 credits at UW-Eau Claire. Senior transfer students enrolling in September must file an application for admission to the professional semester by December 1 for the following fall.

Criteria for Admission:

1. Admitted to the appropriate Education Program.
2. Good academic standing, as defined in the catalog.
3. A minimum of 90 earned credits prior to start of Professional Education Semester.
4. Minimum total GPA of 2.75 or minimum resident GPA of 2.75.
5. Completion of the 30-hour Human Relations Fieldwork requirement.
6. Evidence of freedom from Tuberculosis via test conducted by Student Health Services.
7. Completion of required criminal background check.

For placements that start in the Fall semester, criteria for admission must be met by March 1 of the prior semester. For placements that start in the Spring semester, criteria for admission must be met by October 1 of the prior semester. For placements that start in the summer session, criteria for admission must be met by February 1 of the prior semester.

Licensure Requirements

Licensure to Teach

College of Health and Human Sciences graduates who desire to teach in Wisconsin, will apply for licensure using the WI Department of Public Instruction's (DPI) ELO (Electronic Licensing Online) by following all steps listed on the site including fingerprinting if applicable.

Upon completion of all program requirements and WI DPI teaching requirements, information will be forwarded to DPI verifying program completion, the completion of all required tests, and information on all certifications the teaching candidates are eligible for with licensure. Candidates will then apply for their Initial License.

It is recommended that graduates seeking licensure to teach in states other than Wisconsin request application forms and instructions from the state in which licensure is desired. Early inquiry is suggested as the certification requirements vary by state. In most cases, an official transcript of credits must accompany the completed application form; additional tests or coursework may be required. In general, candidates may be able to obtain licenses in other states; however, these licenses may be issued with stipulations. It is the student's responsibility to understand the licensing requirements of other states. UW-Eau Claire programs are designed to meet the requirements in Wisconsin only.

Criteria for Recommendation for Licensure:

1. Completion of a baccalaureate degree.
2. Completion of an approved education major, minor, and/or certificate.

3. 2.75 or higher GPA in the major, minor, and/or certificate (if certifiable). All college level courses, except student teaching or internship are included when determining GPA for licensure.

4. Completion of student teaching or internship courses with an S.

5. Content area proficiency as demonstrated by earning a minimum 3.0 GPA in content courses OR via obtaining a passing score on the appropriate Praxis II. Candidates for licensure in Languages must obtain a passing score on the ACTFL written portion (WPT) and must pass the OPI/OPIc within three years prior to the start of student teaching or internship. All candidates seeking licensure must also earn a passing score on the FORT.

Major Requirements

Teaching (Code 241-003)

Secondary Education (Grades 4-12) students complete courses in the content area(s) they plan to teach; one or more methods courses specific to the content area; Professional Education coursework focused on instructional methods, assessment of student learning, and curriculum and lesson planning; and ten credits of Student Teaching or Student Teaching Internship.

A Secondary Education student must complete the following requirements to be recommended for licensure:

1. Earn a grade of C or higher in all content-area specific methods coursework and Professional Education coursework.
2. Earn a grade of S in student teaching or student teaching internship.
3. Earn a content area GPA of 3.0 or higher OR complete the appropriate Praxis II or ACTFL test with a passing grade.

Program Learning Outcomes

Students completing this program will be expected to meet the following outcomes:

- Develop a comprehensive understanding of Earth and space sciences.
- Teach ethically and professionally, cultivating an awareness of the interplay of society, the environment, natural resources, and the climate.
- Be able to contextualize Earth's place in the solar system, the galaxy, and the universe.
- Describe common rocks and minerals.
- Use and interpret topographic maps, geological maps, air photos, geographic information systems (GIS) data, and geological cross sections.
- Acquire a knowledge of surficial Earth processes and their principles.
- Develop geologic models and effectively communicate a geologic interpretation based on observations.
- Characterize the origin of earth and water resources.
- Use mathematics and computational methods to analyze scientific data.
- Recognize the value of contributions from a diverse population.

Science Teaching, Earth/Space Science Emphasis Comprehensive Major (B.S.)

The following is a sample degree plan, based on the current catalog. It is based on the 120-credit graduation requirement and assumes no transferred credits, no requirements waived by placement tests, no courses taken in the summer or winter, no repeated courses, and no remedial courses that may be required. This sample degree plan is intended for first-year students entering UW-Eau Claire in the fall semester. Your own degree plan may differ depending on the course of study selected (second major, minor, etc.). UW-Eau Claire cannot guarantee all courses will be offered as shown but will provide a range of courses that may enable prepared students to fulfill their requirements in a timely period. This sample degree plan is just a guide. Please consult your advisor, your degree audit, and the catalog to create your own degree plan. Note: In order to earn the required minimum of 120 credits for the degree in four years, you should plan to take 15 credits each semester or 30 credits each year.

To earn a degree, students must fulfill all University Graduation Requirements, including the Core General Education Requirements (CGER). CGER course work in the following sample degree plan uses abbreviations such as CGER CL, CGER HA, and CGER NSWL to represent the learning outcomes students will meet via completion of the course. Please click [here](#) for a description of the outcomes and requirements.

TOTAL FOURTH YEAR		30

¹ Can substitute PHYS 211 + PHYS 212 for PHYS 231 + PHYS 232 + MATH 114 + MATH 215

² Can substitute CHEM 108 + CHEM 109 for CHEM 115

³ Can substitute three of the following BIOL courses: BIOL 105 + BIOL 106 + BIOL 151 + BIOL 196 for BIOL 221 + BIOL 222 + BIOL 223

⁴ Consult with academic or faculty advisor about timing of course offerings

RECOMMENDATIONS FOR HIGH IMPACT PRACTICES (HIPs)

The University of Wisconsin-Eau Claire encourages all students to participate in High Impact Practices. There are many high-impact opportunities available. Talk to your academic advisor for more information about incorporating HIPs like Study Abroad (<https://studyabroad.apps.uwec.edu/>), Intercultural Immersion (<https://www.uwec.edu/immersion/>), Internship (<https://www.uwec.edu/academics/academic-experience/internships>), and/or Student/Faculty Collaborative Research (<https://www.uwec.edu/offices-services/office-research-and-sponsored-programs/getting-involved-student-faculty-research-1>) into your time at UW-Eau Claire.

Core General Education Requirements (CGER)

Core General Education Requirements (CGER)

The Core General Education Requirements (CGER) includes a minimum of 10 courses across 6 categories. Students must complete a minimum of 36 credits in courses approved for the CGER Core.

- Mathematics & Quantitative Reasoning (MQR) - 4 credits, one course minimum
 - Includes the University Mathematics Requirement¹
- Communication & Literacy (CL) - 8 credits, two courses minimum
 - Includes the University Writing Requirement (CL-W)²
- Natural Sciences & Wellness (NSW/NSWL) - 6 credits, one course minimum (NSW-Lab required)
- Social & Behavioral Sciences (SBS) - 6 credits, two courses minimum
- Humanities & Arts (HA) - 6 credits, two courses minimum
- Civics & Perspectives (CP) - 6 credits, two courses minimum

¹ University Mathematics Requirement:

Students satisfy the University Mathematics Requirement in one of four ways:

- completing an approved university-level mathematics course (MQR) with a grade of C (not C-) or above
- achieving a suitable score on the UW Math Placement Test (<https://www.uwec.edu/academics/academic-support/advising/testing/placement-testing/>)
- achieving a suitable score on an exam such as the Advanced Placement Calculus or Advanced Placement Statistics exams
- achieving a suitable score on a Credit by Examination administered by the Department of Mathematics.

² University Writing Requirement:

Students satisfy the University Writing Requirement in one of four ways:

- completing a Blugold Seminar in Critical Reading and Writing course (WRIT 102 (<https://catalog.uwec.edu/search/?P=WRIT%20102>), WRIT 114

(<https://catalog.uwec.edu/search/?P=WRIT%20114>), WRIT 116 (<https://catalog.uwec.edu/search/?P=WRIT%20116>), WRIT 118 (<https://catalog.uwec.edu/search/?P=WRIT%20118>), or WRIT 120 (<https://catalog.uwec.edu/search/?P=WRIT%20120>)) with a grade of C (not C-) or above

- achieving a suitable score on the English Placement Test (<https://www.uwec.edu/academics/blugold-seminar/writ-courses-placement/>) (WPT ENGL)
- achieving a suitable score on an exam such as the Advanced Placement English Literature and Composition or Advanced Placement English Language and Composition exams
- achieving a suitable score on the University Writing Program Portfolio.

Completion via Placement Test

- Writing: If the CL-W subcategory is satisfied through a placement test, the CGER Communication and Literacy requirement will be reduced from 8 credits (2 courses) to 3 credits (1 course).
- Mathematics: If the University Math Requirement is satisfied through a placement test, the CGER Mathematics & Quantitative Reasoning requirement will be considered fully met, replacing the 4-credit (1 course) requirement.
- Students must still complete 36 credits across 10 courses, with any remaining credits or courses eligible to be taken from any CGER category.

Geology, Minor - Liberal Arts

Liberal Arts (Code 160-401)

Code	Title	Credits
Minimum 24 semester credits in geology, including:		
Select one of the following:		4
GEOL 106	Earth Science	
GEOL 110	Physical Geology	
GEOL 115	Environmental Geology	
Required		
GEOL 312	Mineralogy and Petrology I	5
Select a minimum of six semester credits from the following:		6
GEOL 291	Special Topics	
GEOL 301	Earth Resources and Sustainability	
GEOL 304	Global Environmental Change	
GEOL 308	Water Resources	
GEOL 313	Mineralogy and Petrology II	
GEOL 315	Hydrogeology I	
GEOL 320	Sedimentology and Stratigraphy	
GEOL 330	Structural Geology	
GEOL 336	Introduction to Geochemistry	
GEOL 337	Analytical Geochemistry Laboratory	
GEOL 343	Geological Field Excursion	
GEOL 345	Geomorphology and Aerial Photography Interpretation	
GEOL 365	Economic Mineral Deposits	
GEOL 390	Geologic Immersion Experience	
GEOL 395	Directed Studies	
GEOL 416	Hydrogeology II	
GEOL 418	Global Tectonics	
GEOL 420	Glacial Geology	

GEOL 468	Geological Field Methods
GEOL 470	Field Geology I
GEOL 471	Field Geology II
GEOL 472	Field Hydrology
GEOL 491	Advanced Special Topics

NOTE 1: No degree credit may be earned under the Satisfactory/Unsatisfactory option in any required courses in a geology major or minor.

NOTE 2: Recommended electives: GEOL 470, GEOL 471, and GEOL 472.

Program Learning Outcomes

Students completing this program will be expected to meet the following learning outcomes:

- Explain Earth processes.
- Use mathematics and computational methods to analyze scientific and geological data.
- Read, write, and critically evaluate geological papers.
- Construct an internally consistent geological map utilizing field data, topographic maps, geological maps, air photos, geographic information systems (GIS) data, and geological cross sections.
- Evaluate a geological field site and produce a professional report.

History

Hibbard Humanities Hall 701

715-836-5501

Department Website (<https://www.uwec.edu/academics/college-arts-sciences/departments-programs/history/>)

The study of history examines how men and women throughout the world have lived in the past. It pays special attention to continuities and changes in human communities over time and to interactions among people from different cultures. The study of history enhances critical thinking and effective communication by teaching students how to evaluate different interpretations of the past. It teaches them to use evidence effectively to understand the meaning and impact of events and processes. Studying history increases students' social responsibility as they come to understand their own life experiences as part of an historical process. History students master the essential skills of a liberal education by learning to read critically, to manage and analyze information, to build logical arguments, and to write persuasively.

Students can major, minor, or pursue certificates in history through the College of Arts and Sciences. Those wishing to teach history in secondary schools can major in Social Studies Teaching, History emphasis, a degree program offered through the College of Health and Human Sciences. History majors in the College of Arts and Sciences often pursue careers in fields such as law, government, journalism, business, and information management. The department also offers a public history emphasis within the major for students interested in working in museums, archives, historic preservation, and other public history career fields. Some students continue academic study and obtain graduate degrees, so that they can further their public history careers or teach at the post-secondary level.

Department Honors in History

GPA

3.5 GPA in Major; 3.5 overall GPA – All Tracks

TRACK A – Liberal Arts and Public History Emphasis

- 3.75 average or better in HIST 288 and HIST 489 (capstone sequence)
- 1 honors credit (taken as HIST 496) attached to HIST 489 OR HIST 486
- Public presentation of capstone project (on or off-campus)
- Successful completion of ONE of the following (portfolio reflection required)
 - Faculty-student research project
 - Independent studies
 - Student teaching apprenticeship (HIST 397)
 - History-related service learning
 - Immersion experience
 - National History Day

TRACK B – Social Studies Teaching, History Emphasis

- 3.75 average or better in HIST 288
- 1 honors credit (taken as HIST 396) attached to HIST 288
- Successful completion of TWO of the following experiences (portfolio reflection required for each completed experience):
 - HIST 494
 - Faculty-student research project
 - Independent studies
 - Student teaching apprenticeship (HIST 397)
 - History-related secondary school service
 - Immersion experience
 - National History Day

For information regarding Department Honors, see Professor Patricia Turner (HHH-721)

Information for Majors and Minors

NOTE 1: Majors who plan to prepare for college teaching are urged to attain a reading competency in at least one foreign language and preferably two.

NOTE 2: Majors or minors in history seeking licensure to teach are required by Wisconsin law to complete instruction in the conservation of natural resources and in consumer cooperatives/cooperative marketing. Take ECON 103 and either GEOG 178 or BIOL 180 to meet these requirements.

University Requirements

GRADUATION REQUIREMENTS FOR BACCALAUREATE DEGREE

Credit Requirements	
Minimum total for graduation ¹	120
Upper division credits (courses numbered 300 and higher)	39
Core General Education	10 courses, 36 credits
Academic Concentrations	
Grade Point Requirements ²	
Total	2.00 average
Resident	2.00 average
Major	2.00 average
Minor	2.00 average
Certificate	2.00 average
University Residency Requirements	
Minimum total	30
Senior year	23
Major, Standard, upper division in residence	12
Major, Comprehensive, upper division in residence	21
Certificate	25 percent of credits
Procedures Required for Graduation	
Obtain admission to the degree program and/or the College offering it.	
Apply for graduation on CampS.	

¹ Certain programs exceed this minimum.
² See special requirements in each College.

Applicability of Credits Toward Graduation

Junior College or Two-Year College Credits. A maximum of 72 semester credits earned in a junior college or two-year college will be accepted as degree credits at UW-Eau Claire.

Extension Credits. Credits earned in credit outreach courses offered by UW-Eau Claire are treated as resident credits. Credits earned in extension courses offered by other units of the Universities of Wisconsin System are treated as transfer credits. All other (non-UW) extension and correspondence credits are normally limited to one-fourth of the total required for graduation from any curriculum.

WTCS Credits. A maximum of 72 semester credits earned in college parallel programs at Madison Area Technical College, Milwaukee Area Technical College, Nicolet Area Technical College, or Chippewa Valley Technical College

may be accepted as degree credits at UW-Eau Claire. A set number of general education courses will be accepted from other technical schools. Occupational and technical courses may also be considered for transfer if the quality and content of the course work from the technical college is judged to be comparable to course work at UW-Eau Claire. Refer to the Transfer Credit Wizard (https://www.uwec.sis.wisconsin.edu/psp/eauprd-tb/EMPLOYEE/SA/c/EAU_SS_CUSTOM.EAU_TRNCRDWZ.GBL) or contact the UW-Eau Claire Admissions Office for information about the current transfer policy.

USAFI Credit. UW-Eau Claire will accept up to 32 semester credits for work done through the United States Armed Forces Institute, under the provision for non-UW correspondence credit (see Extension Credits above).

Activity Credit (band, chorus, drama, KINS 100-184 courses) Students may count toward graduation no more than one credit of KINS 110-184 courses. Students may count toward graduation no more than four credits earned in any single activity course and no more than 12 credits resulting from any combination of activity courses (excluding KINS 110-184 courses).

Other Restricted Credits. For other University restrictions, see the following: Cooperative Education; Credit by Examination; Satisfactory/Unsatisfactory Registration; Transfer of Credits. College or departmental restrictions may also be placed on Independent Study (399-499 courses), Directed Study (395-495), and other types of credits.

APPLICABILITY OF CREDITS TOWARD GRADUATION		Credit Restrictions
Satisfactory/Unsatisfactory		
Total degree credit		maximum 12
Major, Standard		maximum 1 course
Major, Comprehensive		maximum 2 courses
Minor		maximum 1 course
Credit by Examination		
Total degree credit		maximum ¼ of total
Major or minor		maximum ½ of total
Two-Year College Credits		
Total degree credit		maximum 72 credits
Activity credit (band, chorus, drama, KINS 100-184)		
Total KINS 100-184		maximum 1 credit
Total Band, chorus, drama		maximum 12 credits
Single course band, chorus, drama		maximum 4 credits
Extension credits		
UW-System		no maximum
Other extension/correspondence		maximum ¼ of total
USAFI		
USAFI		maximum 32 credits

Core General Education Requirements (CGER)

CGER Categories

Mathematics & Quantitative Reasoning (MQR) (http://catalog.uwec.edu/undergraduate/outcome-mqr/)	4 credit hours, 1 course min
Includes University Math Requirement ¹	
Communication & Literacy (CL) (http://catalog.uwec.edu/undergraduate/outcome-cl/)	8 credit hours, 2 course min (including CL-W)
Includes University Writing Requirement (CL-W) (http://catalog.uwec.edu/undergraduate/outcome-clw/) ²	
Natural Sciences & Wellness (NSW/NSWL) (http://catalog.uwec.edu/undergraduate/outcome-NSW/)	6 credit hours, 1 course min (NSW-Lab required)
Social & Behavioral Sciences (SBS) (https://catalog.uwec.edu/undergraduate/outcome-sbs/)	6 credit hours, 2 course min
Humanities & Arts (HA) (http://catalog.uwec.edu/undergraduate/outcome-ha/)	6 credit hours, 2 course min
Civics & Perspectives (CP) (http://catalog.uwec.edu/undergraduate/outcome-cp/)	6 credit hours, 2 course min
CGER Totals ³	
Credits	minimum 36 credits
Courses	minimum 10 courses

¹ University Mathematics Requirement:

Students satisfy the University Mathematics Requirement in one of four ways:

- completing an approved university-level mathematics course (MQR) with a grade of C (not C-) or above
- achieving a suitable score on the UW Math Placement Test (<https://www.uwec.edu/academics/academic-support/advising/testing/placement-testing/>)
- achieving a suitable score on an exam such as the Advanced Placement Calculus or Advanced Placement Statistics exams
- achieving a suitable score on a Credit by Examination administered by the Department of Mathematics.

² University Writing Requirement:

Students satisfy the University Writing Requirement in one of four ways:

- completing a Blugold Seminar in Critical Reading and Writing course (WRIT 102 (<https://catalog.uwec.edu/search/?P=WRIT%20102>), WRIT 114 (<https://catalog.uwec.edu/search/?P=WRIT%20114>), WRIT 116 (<https://catalog.uwec.edu/search/?P=WRIT%20116>), WRIT 118 (<https://catalog.uwec.edu/search/?P=WRIT%20118>), or WRIT 120 (<https://catalog.uwec.edu/search/?P=WRIT%20120>)) with a grade of C (not C-) or above
- achieving a suitable score on the English Placement Test (<https://www.uwec.edu/academics/blugold-seminar/writ-courses-placement/>) (WPT ENGL)
- achieving a suitable score on an exam such as the Advanced Placement English Literature and Composition or Advanced Placement English Language and Composition exams
- achieving a suitable score on the University Writing Program Portfolio.

³ Completion via Placement Tests

- Writing: If the CL-W subcategory is satisfied through a placement test, the CGER Communication and Literacy requirement will be reduced from 8 credits (2 courses) to 3 credits (1 course).

- Mathematics: If the University Math Requirement is satisfied through a placement test, the CGER Mathematics & Quantitative Reasoning requirement will be considered fully met, replacing the 4-credit (1 course) requirement.
- Students must still complete 36 credits across 10 courses, with any remaining credits or courses eligible to be taken from any CGER category.

College Degree Requirements

Bachelor of Arts or Bachelor of Science Degree (B.A./B.S.)

University Graduation Requirements. All candidates for degrees must fulfill the requirements for credits, curriculum, GPA, and University residency as specified in the section of this catalog titled University Graduation Requirements.

College Graduation Requirements: Grade Point Averages. All candidates for degrees in the College of Arts and Sciences must earn minimum resident and total GPAs of 2.00 in the major, the minor, and the certificate. The resident and total GPAs for the major are computed using all attempted credits applicable to the major including those offered by departments other than the major department. The resident and total GPAs for the minor and the certificate are computed similarly.

Major-Minor and Major-Certificate Requirements. A standard major (a minimum of 36 credits) must be supplemented by a minor (a minimum of 24 credits) or by a certificate (12 to 18 credits) to meet graduation requirements for completing a first and second degree program. No minor or certificate is required with a Comprehensive Major (60 or more credits) or with two majors of 36 or more credits each.

Certain degree programs, which include Comprehensive Majors, may require more than the minimum of 120 credits for graduation.

Acceptable academic program combinations are determined at the college level. A major and a minor or a major and certificate or two majors (if available) may not be elected in the same department or program, except in the approved combinations listed here.

College Credits. Earn at least 90 credits in courses offered by the College of Arts and Sciences.

Bachelor of Arts Degree in the College of Arts and Sciences (B.A.)

Fulfillment of all University Graduation Requirements (which includes the Core General Education Requirements); all College-level degree requirements (major and minor/certificate emphases, GPAs, earning at least 90 credits in Arts and Sciences course work); second language competency at the 102 level. Second language competency may be met in one of two ways: (1) Demonstrate a level of second language competency that qualifies the student to enter the 201-level course in a second language. (2) Earn a grade of at least C (not C-) or a mark of S in a 102-level second language course (or AIS 112 or AIS 122 or SLHS 103).

Bachelor of Science Degree in the College of Arts and Sciences (B.S.)

Fulfillment of all University Graduation Requirements (which includes the Core General Education Requirements); all College-level degree requirements (major and minor/certificate emphases, GPAs, earning at least 90 credits in Arts and Sciences course work); mathematics competency at the MATH 111, MATH 112 or MATH 113 level. Mathematics competency can be met in one of three ways: (1) Achieve a score on the mathematics placement test that qualifies the student to enter MATH 114. (2) Earn a grade of at least C (not C-) or a mark of S

in MATH 111, MATH 112, or MATH 113. (3) Achieve a satisfactory score on the MATH 112 competency test. This test may be attempted no more than two times.

Major Requirements

Liberal Arts (Code 380-201)

Code	Title	Credits
This major consists of 36 semester credits, including:		
Foundational Requirement: Courses at the 100 and 200 level (not including HIST 288). Minimum of 6 credits. Maximum of 15 credits.		
HIST 124	World History to 1500	3
or HIST 125	World History Since 1500	
At least one of the following courses:		
HIST 114	United States History to 1877	3
HIST 115	United States History Since 1877	
HIST/WGSS 205	American Women's History	3
HIST 210	African American History 1865 to Present	
HIST/AIS 240	American Indian History	3
Introduction to Research Methods and Historical Professions, 9 credits		
HIST 198	Doing History: Skills and Practice	3
HIST 288	Introduction to Research Methods and the Profession	3
HIST 386	Introduction to Public History	3
Advanced Courses: Courses at the 300 and 400 level (not including HIST 386 and HIST 489). Minimum of 12 credits.		
Capstone Thesis, 3 credits		
HIST 489	Research Seminar	3
Within their 36 credits, students must complete a minimum of 6 credits of Diversity and 6 credits of Global coursework:		
Diversity Requirement, 6 credits		
Choose from:		6
HIST/WGSS 205	American Women's History	3
HIST 210	African American History 1865 to Present	
HIST 212	Hmong and America	3
HIST/AIS 240	American Indian History	
HIST/WGSS 313	Gender, Sex, and Science in European History	3
HIST 317	Studies in the History of Race in the U.S.	
HIST 344	African American Civil Rights Movement, 1914-Present	3
HIST 345	Civil Rights and American Memory	
HIST 367	Historical Roots of Health Disparities in the Americas	3
HIST/AIS 368	Studies in American Indian History	
HIST/AIS 369	Wisconsin American Indian History	3
HIST 370	History of the Family in America	
HIST/WGSS 394	Studies in the History of Women	3

Global Requirement, 6 credits

Choose from:		6
HIST 152	Modern East and Southeast Asia	3
HIST/LAS 172	Latin American History: Colonial to the Present	
HIST 284	The Nazis and Germany, 1914-1945	3
HIST 286	History of World War II	
HIST 292	Origins of Current World Conflicts	3
HIST 302	Ancient Near Eastern Civilizations	
HIST 304	Greek Civilization	3
HIST 306	Roman Civilization	
HIST 308	Ancient Historiography	3
HIST/WGSS 313	Gender, Sex, and Science in European History	
HIST 316	Studies in Asian/Pacific World History	3
HIST 319	Studies in Global and Comparative History	
HIST 325	History and Memory in Europe	3
HIST 326	Twentieth Century Europe, 1900 to Present	
HIST 349	The Global History of Disease	3
HIST 360	Modern France	
HIST 362	Modern Germany	3
HIST 376	World War I and II Military	
HIST 377	American War in the Post 1945 World	3
HIST 381	Comparative Genocide	
HIST 382	Imperialism Since 1800	3
HIST 383	Modern Africa	
HIST 384	The Vietnam War	3
HIST 388	History of China	
HIST 389	History of Japan	3
HIST 392	History of Antisemitism	
HIST 393	Roots of Selected Contemporary World Problems	3
HIST 401	Public History in Great Britain	

Notes:

1. The same course may be taken to satisfy more than one requirement, when relevant.
2. Relevant history courses other than those listed above may be counted toward fulfilling requirements with department approval.
3. HIST 288 should be taken before any 300-level or 400-level course, if possible.

Program Learning Outcomes

Students completing this program will be expected to meet the following learning outcomes:

- Analyze diverse experiences of or viewpoints on past events or historical developments.
- Recognize both continuity and change over time and describe their consequences.

- Identify and interpret primary and secondary sources in order to effectively construct historical narratives orally and in writing.
- Construct arguments that explain how history can inform the present.
- Evaluate credibility, position, or perspective of various forms of historical evidence.
- Compare and connect local and global histories.

History, Major - Liberal Arts, B.A.

The following is a sample degree plan, based on the current catalog. It is based on the 120-credit graduation requirement and assumes no transferred credits, no requirements waived by placement tests, no courses taken in the summer or winter, no repeated courses, and no remedial courses that may be required. This sample degree plan is intended for first-year students entering UW-Eau Claire in the fall semester. Your own degree plan may differ depending on the course of study selected (second major, minor, etc.). UW-Eau Claire cannot guarantee all courses will be offered as shown, but will provide a range of courses that may enable prepared students to fulfill their requirements in a timely period. This sample degree plan is just a guide. Please consult your advisor, your degree audit, and the catalog to create your own degree plan. *Note:* In order to earn the required minimum of 120 credits for the degree in four years, you should plan to take 15 credits each semester or 30 credits each year.

To earn a degree, students must fulfill all University Graduation Requirements, including the Core General Education Requirements (CGER). CGER course work in the following sample degree plan uses abbreviations such as CGER CL, CGER HA, and CGER NSWL to represent the learning outcomes students will meet via completion of the course. Please click here for a description of the outcomes and requirements.

Students in this major have the option to pursue either a Bachelor of Arts (B.A.) or a Bachelor of Science (B.S.) degree. The degrees are distinguished by second language competency for the B.A. and a higher level of mathematics competency for the B.S.

SOME TIME IN THE FIRST YEAR

Minimum total for the baccalaureate degree = 120 credits

- a Each History course can meet different CGER outcomes. These include:
- Social & Behavioral Sciences (SBS) - HIST 210
 - Humanities & Arts (HA) - HIST 114, HIST 115
 - Civics & Perspectives (CP) - HIST 205, HIST 240

RECOMMENDATIONS FOR HIGH IMPACT PRACTICES (HIPs)

The University of Wisconsin-Eau Claire encourages all students to participate in High Impact Practices. The following information identifies any specific recommendations that faculty in this major have concerning which HIPs might be most beneficial to students, and any recommendations about when those HIPs best fit into the degree plan. Students should also consult their faculty advisor for information on HIPs. There are many additional high impact opportunities available. Talk to your academic advisor for more information about incorporating HIPs like Study Abroad, Intercultural

Immersion, Internship, and/or Student/Faculty Collaborative Research into your time at UW-Eau Claire.

We highly recommend Study Abroad or an Intercultural Immersion program, especially those that are tied to the history department, such as CETS: Central European Travel Seminar (IDIS 340) or Public History in Great Britain (HIST 401).

History majors pursue student-faculty collaborative research in HIST 489 : Research Seminar. However, we encourage students to see their faculty advisors about research opportunities available earlier in the program.

Core General Education Requirements (CGER)

Core General Education Requirements (CGER)

The Core General Education Requirements (CGER) includes a minimum of 10 courses across 6 categories. Students must complete a minimum of 36 credits in courses approved for the CGER Core.

- Mathematics & Quantitative Reasoning (MQR) - 4 credits, one course minimum
 - Includes the University Mathematics Requirement¹
- Communication & Literacy (CL) - 8 credits, two courses minimum
 - Includes the University Writing Requirement (CL-W)²
- Natural Sciences & Wellness (NSW/NSWL) - 6 credits, one course minimum (NSW-Lab required)
- Social & Behavioral Sciences (SBS) - 6 credits, two courses minimum
- Humanities & Arts (HA) - 6 credits, two courses minimum
- Civics & Perspectives (CP) - 6 credits, two courses minimum

¹ University Mathematics Requirement:

Students satisfy the University Mathematics Requirement in one of four ways:

- completing an approved university-level mathematics course (MQR) with a grade of C (not C-) or above
- achieving a suitable score on the UW Math Placement Test (<https://www.uwec.edu/academics/academic-support/advising/testing/placement-testing/>)
- achieving a suitable score on an exam such as the Advanced Placement Calculus or Advanced Placement Statistics exams
- achieving a suitable score on a Credit by Examination administered by the Department of Mathematics.

² University Writing Requirement:

Students satisfy the University Writing Requirement in one of four ways:

- completing a Blugold Seminar in Critical Reading and Writing course (WRIT 102 (<https://catalog.uwec.edu/search/?P=WRIT%20102>), WRIT 114 (<https://catalog.uwec.edu/search/?P=WRIT%20114>), WRIT 116 (<https://catalog.uwec.edu/search/?P=WRIT%20116>), WRIT 118 (<https://catalog.uwec.edu/search/?P=WRIT%20118>), or WRIT 120 (<https://catalog.uwec.edu/search/?P=WRIT%20120>)) with a grade of C (not C-) or above
- achieving a suitable score on the English Placement Test (<https://www.uwec.edu/academics/blugold-seminar/writ-courses-placement/>) (WPT ENGL)
- achieving a suitable score on an exam such as the Advanced Placement English Literature and Composition or Advanced Placement English Language and Composition exams
- achieving a suitable score on the University Writing Program Portfolio.

Completion via Placement Test

- Writing: If the CL-W subcategory is satisfied through a placement test, the CGER Communication and Literacy requirement will be reduced from 8 credits (2 courses) to 3 credits (1 course).
- Mathematics: If the University Math Requirement is satisfied through a placement test, the CGER Mathematics & Quantitative Reasoning requirement will be considered fully met, replacing the 4-credit (1 course) requirement.
- Students must still complete 36 credits across 10 courses, with any remaining credits or courses eligible to be taken from any CGER category.

The accelerated pathway to a M.A. in History – Liberal Arts and History – Public History provides qualified undergraduate students the opportunity to complete up to 15 credits of approved accelerated coursework that fulfill both M.A. and B.A./B.S. degree requirements. Students admitted to this accelerated program will work with their academic advisor and the history graduate director to create a personalized accelerated program that conforms to the policies and procedures detailed below.

Eligibility for Admission to the History Accelerated Program (Liberal Arts and Public History)

- Junior standing (minimum of 60 credits completed).
- Completion of all prerequisite coursework.
- 3.0 overall GPA.
- Completion of History 288 with a B+ or better.
- Completed application, including a letter of intent and two recommendations.

Terms of Enrollment in the History Accelerated Program (Liberal Arts and Public History)

- Complete up to 15 accelerated credits. Students are required to work with the history graduate director to select and enroll in accelerated courses.
- Earn a B or better in all accelerated courses.
- Because the accelerated courses taken during this accelerated program also count toward the bachelor's degree, this credit may not be transferable to graduate programs outside of UWEC.
- Accelerated credits are billed at the graduate level tuition rate.
- Acceptance into the history accelerated program does not guarantee acceptance into the history M.A. program.
- Students may leave the history accelerated program at any time without consequences.

Completion of History Accelerated Program (Liberal Arts and Public History)

- Submit graduate application for history M.A. program prior to completing bachelor's degree.
- Application of accelerated coursework to the graduate program will be confirmed upon admission into the history M.A. program and completion of the first term in the history M.A. program.

History, Public History Emphasis, Major

GRADUATION REQUIREMENTS FOR BACCALAUREATE DEGREE

Credit Requirements

Minimum total for graduation ¹	120
Upper division credits (courses numbered 300 and higher)	39
Core General Education	10 courses, 36 credits
Academic Concentrations	
Grade Point Requirements ²	
Total	2.00 average
Resident	2.00 average
Major	2.00 average
Minor	2.00 average
Certificate	2.00 average
University Residency Requirements	
Minimum total	30
Senior year	23
Major, Standard, upper division in residence	12
Major, Comprehensive, upper division in residence	21
Certificate	25 percent of credits
Procedures Required for Graduation	
Obtain admission to the degree program and/or the College offering it.	
Apply for graduation on CampS.	

¹ Certain programs exceed this minimum.

² See special requirements in each College.

Applicability of Credits Toward Graduation

Junior College or Two-Year College Credits. A maximum of 72 semester credits earned in a junior college or two-year college will be accepted as degree credits at UW-Eau Claire.

Extension Credits. Credits earned in credit outreach courses offered by UW-Eau Claire are treated as resident credits. Credits earned in extension courses offered by other units of the Universities of Wisconsin System are treated as transfer credits. All other (non-UW) extension and correspondence credits are normally limited to one-fourth of the total required for graduation from any curriculum.

WTCS Credits. A maximum of 72 semester credits earned in college parallel programs at Madison Area Technical College, Milwaukee Area Technical College, Nicolet Area Technical College, or Chippewa Valley Technical College may be accepted as degree credits at UW-Eau Claire. A set number of general education courses will be accepted from other technical schools. Occupational and technical courses may also be considered for transfer if the quality and content of the course work from the technical college is judged to be comparable to course work at UW-Eau Claire. Refer to the Transfer Credit Wizard (https://www.uwec.sis.wisconsin.edu/psp/eauprd-tb/EMPLOYEE/SA/c/EAU_SS_CUSTOM.EAU_TRNCRDWZ.GBL) or contact the UW-Eau Claire Admissions Office for information about the current transfer policy.

USAFI Credit. UW-Eau Claire will accept up to 32 semester credits for work done through the United States Armed Forces Institute, under the provision for non-UW correspondence credit (see Extension Credits above).

Activity Credit (band, chorus, drama, KINS 100-184 courses) Students may count toward graduation no more than one credit of KINS 110-184 courses. Students may count toward graduation no more than four credits earned

in any single activity course and no more than 12 credits resulting from any combination of activity courses (excluding KINS 110-184 courses).

Other Restricted Credits. For other University restrictions, see the following: Cooperative Education; Credit by Examination; Satisfactory/Unsatisfactory Registration; Transfer of Credits. College or departmental restrictions may also be placed on Independent Study (399-499 courses), Directed Study (395-495), and other types of credits.

APPLICABILITY OF CREDITS TOWARD GRADUATION	Credit Restrictions

¹ University Mathematics Requirement:

Students satisfy the University Mathematics Requirement in one of four ways:

- completing an approved university-level mathematics course (MQR) with a grade of C (not C-) or above
- achieving a suitable score on the UW Math Placement Test (<https://www.uwec.edu/academics/academic-support/advising/testing/placement-testing/>)
- achieving a suitable score on an exam such as the Advanced Placement Calculus or Advanced Placement Statistics exams
- achieving a suitable score on a Credit by Examination administered by the Department of Mathematics.

² University Writing Requirement:

Students satisfy the University Writing Requirement in one of four ways:

- completing a Blugold Seminar in Critical Reading and Writing course (WRIT 102 (<https://catalog.uwec.edu/search/?P=WRIT%20102>), WRIT 114 (<https://catalog.uwec.edu/search/?P=WRIT%20114>), WRIT 116 (<https://catalog.uwec.edu/search/?P=WRIT%20116>), WRIT 118 (<https://catalog.uwec.edu/search/?P=WRIT%20118>), or WRIT 120 (<https://catalog.uwec.edu/search/?P=WRIT%20120>)) with a grade of C (not C-) or above
- achieving a suitable score on the English Placement Test (<https://www.uwec.edu/academics/blugold-seminar/writ-courses-placement/>) (WPT ENGL)
- achieving a suitable score on an exam such as the Advanced Placement English Literature and Composition or Advanced Placement English Language and Composition exams
- achieving a suitable score on the University Writing Program Portfolio.

³ Completion via Placement Tests

- Writing: If the CL-W subcategory is satisfied through a placement test, the CGER Communication and Literacy requirement will be reduced from 8 credits (2 courses) to 3 credits (1 course).
- Mathematics: If the University Math Requirement is satisfied through a placement test, the CGER Mathematics & Quantitative Reasoning requirement will be considered fully met, replacing the 4-credit (1 course) requirement.
- Students must still complete 36 credits across 10 courses, with any remaining credits or courses eligible to be taken from any CGER category.

College Degree Requirements

Bachelor of Arts or Bachelor of Science Degree (B.A./B.S.)

University Graduation Requirements. All candidates for degrees must fulfill the requirements for credits, curriculum, GPA, and University residency

as specified in the section of this catalog titled University Graduation Requirements.

College Graduation Requirements: Grade Point Averages. All candidates for degrees in the College of Arts and Sciences must earn minimum resident and total GPAs of 2.00 in the major, the minor, and the certificate. The resident and total GPAs for the major are computed using all attempted credits applicable to the major including those offered by departments other than the major department. The resident and total GPAs for the minor and the certificate are computed similarly.

Major-Minor and Major-Certificate Requirements. A standard major (a minimum of 36 credits) must be supplemented by a minor (a minimum of 24 credits) or by a certificate (12 to 18 credits) to meet graduation requirements for completing a first and second degree program. No minor or certificate is required with a Comprehensive Major (60 or more credits) or with two majors of 36 or more credits each.

Certain degree programs, which include Comprehensive Majors, may require more than the minimum of 120 credits for graduation.

Acceptable academic program combinations are determined at the college level. A major and a minor or a major and certificate or two majors (if available) may not be elected in the same department or program, except in the approved combinations listed here.

College Credits. Earn at least 90 credits in courses offered by the College of Arts and Sciences.

Bachelor of Arts Degree in the College of Arts and Sciences (B.A.)

Fulfillment of all University Graduation Requirements (which includes the Core General Education Requirements); all College-level degree requirements (major and minor/certificate emphases, GPAs, earning at least 90 credits in Arts and Sciences course work); second language competency at the 102 level. Second language competency may be met in one of two ways: (1) Demonstrate a level of second language competency that qualifies the student to enter the 201-level course in a second language. (2) Earn a grade of at least C (not C-) or a mark of S in a 102-level second language course (or AIS 112 or AIS 122 or SLHS 103).

Bachelor of Science Degree in the College of Arts and Sciences (B.S.)

Fulfillment of all University Graduation Requirements (which includes the Core General Education Requirements); all College-level degree requirements (major and minor/certificate emphases, GPAs, earning at least 90 credits in Arts and Sciences course work); mathematics competency at the MATH 111, MATH 112 or MATH 113 level. Mathematics competency can be met in one of three ways: (1) Achieve a score on the mathematics placement test that qualifies the student to enter MATH 114. (2) Earn a grade of at least C (not C-) or a mark of S in MATH 111, MATH 112, or MATH 113. (3) Achieve a satisfactory score on the MATH 112 competency test. This test may be attempted no more than two times.

Major Requirements

Liberal Arts (Code 380-205)

Code	Title	Credits
This major consists of 36 semester credits, including:		
Foundational Requirement: Courses at the 100 and 200 level (not including HIST 288). Minimum of 6 credits. Maximum of 15 credits.		
HIST 124	World History to 1500	3

or HIST 125	World History Since 1500	
At least one of the following courses		
HIST 114	United States History to 1877	
HIST 115	United States History Since 1877	
HIST/WGSS 205	American Women's History	
HIST 210	African American History 1865 to Present	
HIST/AIS 240	American Indian History	
Introduction to Research Methods and the Historical Professions, 9 credits		
HIST 198	Doing History: Skills and Practice	3
HIST 288	Introduction to Research Methods and the Profession	3
HIST 386	Introduction to Public History	3
Advanced Courses: Courses at the 300 and 400 level (not including HIST 489). Minimum of 12 credits.		
Must include the Public History sequence:		
HIST 486	Seminar in Public History	3
HIST 498	Internship	3
Capstone Thesis, 3 credits		
HIST 489	Research Seminar	3
Within their 36 credits, students must complete a minimum of 6 credits of Diversity coursework:		
Diversity requirement, 6 credits		
Choose from:		6
HIST/WGSS 205	American Women's History	
HIST 210	African American History 1865 to Present	
HIST 212	Hmong and America	
HIST/AIS 240	American Indian History	
HIST/WGSS 313	Gender, Sex, and Science in European History	
HIST 317	Studies in the History of Race in the U.S.	
HIST 344	African American Civil Rights Movement, 1914-Present	
HIST 345	Civil Rights and American Memory	
HIST 367	Historical Roots of Health Disparities in the Americas	
HIST/AIS 368	Studies in American Indian History	
HIST/AIS 369	Wisconsin Indian History	
HIST 370	History of the Family in America	
HIST/WGSS 394	Studies in the History of Women	

Notes:

1. The same course may be taken to satisfy more than one requirement, when relevant.
2. Relevant history courses other than those listed above may be counted toward fulfilling requirements with department approval.
3. HIST 288 should be taken before any 300-level or 400-level course, if possible.

Program Learning Outcomes

Students completing this program will be expected to meet the following learning outcomes:

- Analyze diverse experiences of or viewpoints on past events or historical developments.
- Recognize both continuity and change over time and describe their consequences.
- Identify and interpret primary and secondary sources in order to effectively construct historical narratives orally and in writing.
- Construct arguments that explain how history can inform the present.
- Evaluate credibility, position, or perspective of various forms of historical evidence.
- Compare and connect local and global histories.
- Create complex interpretations of the past collaboratively with public audiences.

History, Public History Emphasis, Major, B.A.

The following is a sample degree plan, based on the current catalog. It is based on the 120-credit graduation requirement and assumes no transferred credits, no requirements waived by placement tests, no courses taken in the summer or winter, no repeated courses, and no remedial courses that may be required. This sample degree plan is intended for first-year students entering UW-Eau Claire in the fall semester. Your own degree plan may differ depending on the course of study selected (second major, minor, etc.). UW-Eau Claire cannot guarantee all courses will be offered as shown, but will provide a range of courses that may enable prepared students to fulfill their requirements in a timely period. This sample degree plan is just a guide. Please consult your advisor, your degree audit, and the catalog to create your own degree plan. *Note:* In order to earn the required minimum of 120 credits for the degree in four years, you should plan to take 15 credits each semester or 30 credits each year.

To earn a degree, students must fulfill all University Graduation Requirements, including the Core General Education Requirements (CGER). CGER course work in the following sample degree plan uses abbreviations such as CGER CL, CGER HA, and CGER NSWL to represent the learning outcomes students will meet via completion of the course. Please click here for a description of the outcomes and requirements.

Students in this major have the option to pursue either a Bachelor of Arts (B.A.) or a Bachelor of Science (B.S.) degree. The degrees are distinguished by second language competency for the B.A. and a higher level of mathematics competency for the B.S.

Minimum total for the baccalaureate degree = 120 credits

- a Each History course can meet different CGER outcomes. These include:
- Social & Behavioral Sciences (SBS) - HIST 210
 - Humanities & Arts (HA) - HIST 114, HIST 115
 - Civics & Perspectives (CP) - HIST 205, HIST 240

RECOMMENDATIONS FOR HIGH IMPACT PRACTICES (HIPs)

The University of Wisconsin-Eau Claire encourages all students to participate in High Impact Practices. The following information identifies any specific

recommendations that faculty in this major have concerning which HIPs might be most beneficial to students, and any recommendations about when those HIPs best fit into the degree plan. Students should also consult their faculty advisor for information on HIPs. There are many additional high impact opportunities available. Talk to your academic advisor for more information about incorporating HIPs like Study Abroad, Intercultural Immersion, Internship, and/or Student/Faculty Collaborative Research into your time at UW-Eau Claire.

We highly recommend Study Abroad or an Intercultural Immersion program, especially those that are tied to the history department, such as CETS: Central European Travel Seminar (IDIS 340) or Public History in Great Britain (HIST 401).

Public History majors pursue student-faculty collaborative research in HIST 489 : Research Seminar and HIST 486 : Public History Seminar, which always involved interpreting history for a community partner. However, we encourage students to see their faculty advisors about research opportunities available earlier in the program.

All Public History majors are required to complete an internship. Students work with faculty to identify opportunities. Please contact Dr. John Mann mannjw@uwec.edu if you have questions about this process.

Core General Education Requirements (CGER)

Core General Education Requirements (CGER)

The Core General Education Requirements (CGER) includes a minimum of 10 courses across 6 categories. Students must complete a minimum of 36 credits in courses approved for the CGER Core.

- Mathematics & Quantitative Reasoning (MQR) - 4 credits, one course minimum
 - Includes the University Mathematics Requirement¹
- Communication & Literacy (CL) - 8 credits, two courses minimum
 - Includes the University Writing Requirement (CL-W)²
- Natural Sciences & Wellness (NSW/NSWL) - 6 credits, one course minimum (NSW-Lab required)
- Social & Behavioral Sciences (SBS) - 6 credits, two courses minimum
- Humanities & Arts (HA) - 6 credits, two courses minimum
- Civics & Perspectives (CP) - 6 credits, two courses minimum

¹ **University Mathematics Requirement:**

Students satisfy the University Mathematics Requirement in one of four ways:

- completing an approved university-level mathematics course (MQR) with a grade of C (not C-) or above
- achieving a suitable score on the UW Math Placement Test (<https://www.uwec.edu/academics/academic-support/advising/testing/placement-testing/>)
- achieving a suitable score on an exam such as the Advanced Placement Calculus or Advanced Placement Statistics exams
- achieving a suitable score on a Credit by Examination administered by the Department of Mathematics.

² **University Writing Requirement:**

Students satisfy the University Writing Requirement in one of four ways:

- completing a Blugold Seminar in Critical Reading and Writing course (WRIT 102 (<https://catalog.uwec.edu/search/?P=WRIT%20102>), WRIT 114 (<https://catalog.uwec.edu/search/?P=WRIT%20114>), WRIT 116 (<https://catalog.uwec.edu/search/?P=WRIT%20116>), WRIT 118 (<https://catalog.uwec.edu/search/?P=WRIT%20118>), or WRIT 120 (<https://catalog.uwec.edu/search/?P=WRIT%20120>))

catalog.uwec.edu/search/?P=WRIT%20120)) with a grade of C (not C-) or above

- achieving a suitable score on the English Placement Test (<https://www.uwec.edu/academics/blugold-seminar/writ-courses-placement/>) (WPT ENGL)
- achieving a suitable score on an exam such as the Advanced Placement English Literature and Composition or Advanced Placement English Language and Composition exams
- achieving a suitable score on the University Writing Program Portfolio.

Completion via Placement Test

- Writing: If the CL-W subcategory is satisfied through a placement test, the CGER Communication and Literacy requirement will be reduced from 8 credits (2 courses) to 3 credits (1 course).
- Mathematics: If the University Math Requirement is satisfied through a placement test, the CGER Mathematics & Quantitative Reasoning requirement will be considered fully met, replacing the 4-credit (1 course) requirement.
- Students must still complete 36 credits across 10 courses, with any remaining credits or courses eligible to be taken from any CGER category.

The accelerated pathway to a M.A. in History – Liberal Arts and History – Public History provides qualified undergraduate students the opportunity to complete up to 15 credits of approved accelerated coursework that fulfill both M.A. and B.A./B.S. degree requirements. Students admitted to this accelerated program will work with their academic advisor and the history graduate director to create a personalized accelerated program that conforms to the policies and procedures detailed below.

Eligibility for Admission to the History Accelerated Program (Liberal Arts and Public History)

- Junior standing (minimum of 60 credits completed).
- Completion of all prerequisite coursework.
- 3.0 overall GPA.
- Completion of History 288 with a B+ or better.
- Completed application, including a letter of intent and two recommendations.

Terms of Enrollment in the History Accelerated Program (Liberal Arts and Public History)

- Complete up to 15 accelerated credits. Students are required to work with the history graduate director to select and enroll in accelerated courses.
- Earn a B or better in all accelerated courses.
- Because the accelerated courses taken during this accelerated program also count toward the bachelor's degree, this credit may not be transferable to graduate programs outside of UWEC.
- Accelerated credits are billed at the graduate level tuition rate.
- Acceptance into the history accelerated program does not guarantee acceptance into the history M.A. program.
- Students may leave the history accelerated program at any time without consequences.

Completion of History Accelerated Program (Liberal Arts and Public History)

- Submit graduate application for history M.A. program prior to completing bachelor's degree.

- Application of accelerated coursework to the graduate program will be confirmed upon admission into the history M.A. program and completion of the first term in the history M.A. program.

Core General Education Requirements (CGER)

CGER Categories

Mathematics & Quantitative Reasoning (MQR) (http://catalog.uwec.edu/undergraduate/outcome-mqr/)	4 credit hours, 1 course min
Includes University Math Requirement ¹	
Communication & Literacy (CL) (http://catalog.uwec.edu/undergraduate/outcome-cl/)	8 credit hours, 2 course min (including CL-W)
Includes University Writing Requirement (CL-W) (http://catalog.uwec.edu/undergraduate/outcome-clw/) ²	
Natural Sciences & Wellness (NSW/NSWL) (http://catalog.uwec.edu/undergraduate/outcome-NSW/)	6 credit hours, 1 course min (NSW-Lab required)
Social & Behavioral Sciences (SBS) (https://catalog.uwec.edu/undergraduate/outcome-sbs/)	6 credit hours, 2 course min
Humanities & Arts (HA) (http://catalog.uwec.edu/undergraduate/outcome-ha/)	6 credit hours, 2 course min
Civics & Perspectives (CP) (http://catalog.uwec.edu/undergraduate/outcome-cp/)	6 credit hours, 2 course min
CGER Totals ³	
Credits	minimum 36 credits
Courses	minimum 10 courses

¹ University Mathematics Requirement:

Students satisfy the University Mathematics Requirement in one of four ways:

- completing an approved university-level mathematics course (MQR) with a grade of C (not C-) or above
- achieving a suitable score on the UW Math Placement Test (<https://www.uwec.edu/academics/academic-support/advising/testing/placement-testing/>)
- achieving a suitable score on an exam such as the Advanced Placement Calculus or Advanced Placement Statistics exams
- achieving a suitable score on a Credit by Examination administered by the Department of Mathematics.

² University Writing Requirement:

Students satisfy the University Writing Requirement in one of four ways:

- completing a Blugold Seminar in Critical Reading and Writing course (WRIT 102 (<https://catalog.uwec.edu/search/?P=WRIT%20102>), WRIT 114 (<https://catalog.uwec.edu/search/?P=WRIT%20114>), WRIT 116 (<https://catalog.uwec.edu/search/?P=WRIT%20116>), WRIT 118 (<https://catalog.uwec.edu/search/?P=WRIT%20118>), or WRIT 120 (<https://catalog.uwec.edu/search/?P=WRIT%20120>)) with a grade of C (not C-) or above
- achieving a suitable score on the English Placement Test (<https://www.uwec.edu/academics/blugold-seminar/writ-courses-placement/>) (WPT ENGL)
- achieving a suitable score on an exam such as the Advanced Placement English Literature and Composition or Advanced Placement English Language and Composition exams
- achieving a suitable score on the University Writing Program Portfolio.

³ Completion via Placement Tests

- Writing: If the CL-W subcategory is satisfied through a placement test, the CGER Communication and Literacy requirement will be reduced from 8 credits (2 courses) to 3 credits (1 course).

- Mathematics: If the University Math Requirement is satisfied through a placement test, the CGER Mathematics & Quantitative Reasoning requirement will be considered fully met, replacing the 4-credit (1 course) requirement.
- Students must still complete 36 credits across 10 courses, with any remaining credits or courses eligible to be taken from any CGER category.

College Degree Requirements

College of Health and Human Sciences Requirements for Teacher Education Programs

1. Grade point requirements:

Abbreviation	Full Title
Resident	2.75 average
Total	2.75 average
Major	2.75 average
Minor (for certification only)	2.75 average

2. Residency requirements:

Abbreviation	Full Title
Minimum Total	30 credits
Senior Year	23 credits
Major, in upper division courses	12 credits
Comprehensive Major, in upper division courses	21 credits

3. Criteria and requirements for Admission to Education Program and Admission to the Professional Education Semester.
4. Specific requirements for programs offered in the College of Health and Human Sciences as outlined in department specific sections of this catalog.

Admission to Education Program

Admission to the Education Program

Students must apply for admission to the Education Program. Applications are due by October 1 for spring admission or March 1 for fall admission. To submit an application to an Education Program, students must satisfy all of the requirements listed below:

1. Approval by the appropriate department in the College of Health and Human Sciences.
2. Pre-education status.
3. Students must have attained at least Sophomore Status
4. Minimum total GPA of 2.5 or minimum resident GPA of 2.5. Admission is competitive; thus, the minimum GPA does not assure admission.
5. Completed the Core General Education Requirement (CGER) for Communication & Literacy-Writing with a C or better.
6. Completed the Core General Education Requirement (CGER) for Mathematics & Quantitative Reasoning with a C or better.
7. Good academic standing.
8. Complete an introductory education course with a field placement (SEIP 208, ES 212, or the equivalent) with a grade of C or better.

Specific majors may have additional department-level criteria. Consult with the department if needed.

Admission to the Professional Education Semester (Student Teaching or Internship)

Admission to the Professional Education Semester

The "Professional Education Semester" is defined as the semester in which a student is enrolled in the field experience of student teaching or internship.

Filing Notice of Intent to Student Teach Applications: Information concerning the Notice of Intent to Student Teach will be advertised widely and posted across campus each semester with an associated due date. Students who plan to enter the Professional Education Semester during the fall semester of the next academic year must file a Notice of Intent to Student Teach with the Teacher Education Program office in the fall. Students who plan to enter the Professional Education Semester during the spring semester of the next academic year must file a Notice of Intent to Student Teach with the Teacher Education Program office in the spring.

Students are encouraged to submit their Notice of Intent to Student Teach by the announced due date. Considerable time is required to process each notice—that is, to determine eligibility, to make arrangements with schools for an appropriate field experience assignment, and to allow for introductions, orientations, and, in some cases, interviews. Students who file on time will benefit by the careful consideration that can be given to their requests; the later a notice is received, the fewer the placement assignments and choices still available will be. Failure to file a Notice of Intent to Student Teach on time may result in a delay of the Professional Education Semester.

Transfer and Special Students: No transfer or special student can enter the Professional Education Semester until after a full semester of residence and after earning a minimum of 15 credits at UW-Eau Claire. Senior transfer students enrolling in September must file an application for admission to the professional semester by December 1 for the following fall.

Criteria for Admission:

1. Admitted to the appropriate Education Program.
2. Good academic standing, as defined in the catalog.
3. A minimum of 90 earned credits prior to start of Professional Education Semester.
4. Minimum total GPA of 2.75 or minimum resident GPA of 2.75.
5. Completion of the 30-hour Human Relations Fieldwork requirement.
6. Evidence of freedom from Tuberculosis via test conducted by Student Health Services.
7. Completion of required criminal background check.

For placements that start in the Fall semester, criteria for admission must be met by March 1 of the prior semester. For placements that start in the Spring semester, criteria for admission must be met by October 1 of the prior semester. For placements that start in the summer session, criteria for admission must be met by February 1 of the prior semester.

Licensure Requirements

Licensure to Teach

College of Health and Human Sciences graduates who desire to teach in Wisconsin, will apply for licensure using the WI Department of Public

Instruction's (DPI) ELO (Electronic Licensing Online) by following all steps listed on the site including fingerprinting if applicable.

Upon completion of all program requirements and WI DPI teaching requirements, information will be forwarded to DPI verifying program completion, the completion of all required tests, and information on all certifications the teaching candidates are eligible for with licensure. Candidates will then apply for their Initial License.

It is recommended that graduates seeking licensure to teach in states other than Wisconsin request application forms and instructions from the state in which licensure is desired. Early inquiry is suggested as the certification requirements vary by state. In most cases, an official transcript of credits must accompany the completed application form; additional tests or coursework may be required. In general, candidates may be able to obtain licenses in other states; however, these licenses may be issued with stipulations. It is the student's responsibility to understand the licensing requirements of other states. UW-Eau Claire programs are designed to meet the requirements in Wisconsin only.

Criteria for Recommendation for Licensure:

1. Completion of a baccalaureate degree.
2. Completion of an approved education major, minor, and/or certificate.
3. 2.75 or higher GPA in the major, minor, and/or certificate (if certifiable). All college level courses, except student teaching or internship are included when determining GPA for licensure.
4. Completion of student teaching or internship courses with an S.
5. Content area proficiency as demonstrated by earning a minimum 3.0 GPA in content courses OR via obtaining a passing score on the appropriate Praxis II. Candidates for licensure in Languages must obtain a passing score on the ACTFL written portion (WPT) and must pass the OPI/OPIC within three years prior to the start of student teaching or internship. All candidates seeking licensure must also earn a passing score on the FORT.

Major Requirements

Teaching (Code 500-027)

Secondary Education (Grades 4-12) students complete courses in the content area(s) they plan to teach; one or more methods courses specific to the content area; Professional Education coursework focused on instructional methods, assessment of student learning, and curriculum and lesson planning; and ten credits of Student Teaching or Student Teaching Internship.

A Secondary Education student must complete the following requirements to be recommended for licensure:

1. Earn a grade of C or higher in all content-area specific methods coursework and Professional Education coursework.
2. Earn a grade of S in student teaching or student teaching internship.
3. Earn a content area GPA of 3.0 or higher OR complete the appropriate Praxis II or ACTFL test with a passing grade.

Code	Title	Credits
SOCIAL STUDIES TEACHING, HISTORY EMPHASIS, MAJOR REQUIREMENTS		60
History Core Requirements		24
HIST 114	United States History to 1877 (CGER HA)	3
or HIST 115	United States History Since 1877	

HIST 124	World History to 1500 (CGER HA)	3
HIST 125	World History Since 1500 (CGER CP)	3
HIST 198	Doing History: Skills and Practice	3

GEOG 178	Planet Earth: Conservation of the Environment (CGER NSW)	3
or BIOL 180	Environmental Biology and Conservation	
PSYC 260	Educational Psychology (CGER SBS)	3
SEIP 300	Inclusive Practices for Secondary Educators	3

¹ The courses that meet the Diversity Requirement and the Global Requirement can be found here (<https://catalog.uwec.edu/undergraduate/arts-sciences/history/history-major-ba-bs/#text>).

Program Learning Outcomes

Candidates in this program will be able to meet the following learning outcomes: (These learning outcomes are based on the National Council for the Social Studies)

Content Knowledge

Demonstrate knowledge of social studies disciplines. Candidates are knowledgeable of disciplinary concepts, facts, and tool; structures of inquiry; and forms of representation.

- Element 1a: Candidates are knowledgeable about the concepts, facts, and tools in civics, economics, geography, history and the social/behavioral sciences.
- Element 1b: Candidates are knowledgeable about disciplinary inquiry in civics, economics, geography, history, and the social/behavioral sciences.
- Element 1c: Candidates are knowledgeable about disciplinary forms of representation in civics, economics, geography, history, and the social/behavioral sciences.

Application of Content Through Planning

Plan learning sequences that leverage social studies knowledge and literacies, technology, and theory and research to support the civic competence of learners.

- Element 2a Candidates plan learning sequences that demonstrate social studies knowledge aligned with the C3 Framework, state-required content standards, and theory and research.
- Element 2b Candidates plan learning sequences that engage learners with disciplinary concepts, facts, and tools from the social studies disciplines to facilitate social studies literacies for civic life.
- Element 2c Candidates plan learning sequences that engage learners in disciplinary inquiry to develop social studies literacies for civic life.
- Element 2d Candidates plan learning sequences where learners create disciplinary forms of representation that convey social studies knowledge and civic competence.

- Element 2e Candidates plan learning sequences that use technology to foster civic competence.

Design and Implementation of Instruction and Assessment

Design and implement instruction and authentic assessments, informed by data literacy and learner self-assessment, that promote civic competence.

- Element 3a Candidates design and implement a range of authentic assessments that measure learners' mastery of disciplinary knowledge, inquiry, and forms of representation for civic competence and demonstrate alignment with state required content standards.
- Element 3b Candidates design and implement learning experiences that engage learners in disciplinary knowledge, inquiry, and forms of representation for civic competence and demonstrate alignment with state-required content standards.
- Element 3c Candidates use theory and research to implement a variety of instructional practices and authentic assessments featuring disciplinary knowledge, inquiry, and forms of representation for civic competence.
- Element 3d Candidates exhibit data literacy by using assessment data to guide instructional decision-making and reflect on student learning outcomes related to disciplinary knowledge, inquiry, and forms of representation for civic competence.
- Element 3e Candidates engage learners in self-assessment practices that support individualized learning outcomes related to disciplinary knowledge, inquiry, and forms of representation for civic competence.

Social Studies Learners and Learning

Use knowledge of learners to plan and implement relevant and responsive pedagogy, create collaborative and interdisciplinary learning environments, and prepare learners to be informed advocates for an inclusive and equitable society.

- Element 4a Candidates use knowledge of learners' socio-cultural assets, learning demands, and individual identities to plan and implement relevant and responsive pedagogy that ensures equitable learning opportunities in social studies.
- Element 4b Candidates facilitate collaborative, interdisciplinary learning environments in which learners use disciplinary facts, concepts, and tools, engage in disciplinary inquiry, and create disciplinary forms of representation.
- Element 4c Candidates engage learners in ethical reasoning to deliberate social, political, and economic issues, communicate conclusions, and take informed action toward achieving a more inclusive and equitable society.

Professional Responsibility and Informed Action

Reflect and expand upon their social studies knowledge, inquiry skills, and civic dispositions to advance social justice and promote human rights through informed action in schools and/or communities.

- Element 5a Candidates use theory and research to continually improve their social studies knowledge, inquiry skills, and civic dispositions, and adapt practice to meet the needs of each learner.
- Element 5b Candidates explore, interrogate, and reflect upon their own cultural frames to attend to issues of equity, diversity, access, power, human rights, and social justice within their schools and/or communities.
- Element 5c Candidates take informed action in schools and/or communities and serve as advocates for learners, the teaching profession, and/or social studies.

Social Studies Teaching, History Emphasis, Comprehensive Major (B.A.)

The following is a sample degree plan, based on the current catalog. It is based on the 120-credit graduation requirement and assumes no transferred credits, no requirements waived by placement tests, no courses taken in the summer or winter, no repeated courses, and no remedial courses that may be required. This sample degree plan is intended for first-year students entering UW-Eau Claire in the fall semester. Your own degree plan may differ depending on the course of study selected (second major, minor, etc.). UW-Eau Claire cannot guarantee all courses will be offered as shown but will provide a range of courses that may enable prepared students to fulfill their requirements in a timely period. This sample degree plan is just a guide. Please consult your advisor, your degree audit, and the catalog to create your own degree plan. Note: In order to earn the required minimum of 120 credits for the degree in four years, you should plan to take 15 credits each semester or 30 credits each year.

To earn a degree, students must fulfill all University Graduation Requirements, including the Core General Education Requirements (CGER). CGER course work in the following sample degree plan uses abbreviations such as CGER CL, CGER HA, and CGER NSWL to represent the learning outcomes students will meet via completion of the course. Please click here for a description of the outcomes and requirements.

FIRST YEAR

First Semester		
HIST 124	World History to 1500 (CGER HA)	3

¹ Apply for Education Program

² Select one course from the Diversity list and one course from the Global list. Course options can be found here (<https://catalog.uwec.edu/undergraduate/arts-sciences/history/history-major-ba-bs/#text>).

³ Select one course from the following options: GEOG 301, GEOG 308, GEOG 319, GEOG 321, GEOG 322, GEOG 325, GEOG 365, GEOG 369, GEOG 379, GEOG 444, GEOG 446, or GEOG 470.

RECOMMENDATIONS FOR HIGH IMPACT PRACTICES (HIPs)

The University of Wisconsin-Eau Claire encourages all students to participate in High Impact Practices. There are many high-impact opportunities available. Talk to your academic advisor for more information about incorporating HIPs like Study Abroad, Intercultural Immersion, Internship, and/or Student/Faculty Collaborative Research into your time at UW-Eau Claire.

Core General Education Requirements (CGER)

Core General Education Requirements (CGER)

The Core General Education Requirements (CGER) includes a minimum of 10 courses across 6 categories. Students must complete a minimum of 36 credits in courses approved for the CGER Core.

- Mathematics & Quantitative Reasoning (MQR) - 4 credits, one course minimum
 - Includes the University Mathematics Requirement¹
- Communication & Literacy (CL) - 8 credits, two courses minimum
 - Includes the University Writing Requirement (CL-W)²
- Natural Sciences & Wellness (NSW/NSWL) - 6 credits, one course minimum (NSW-Lab required)
- Social & Behavioral Sciences (SBS) - 6 credits, two courses minimum
- Humanities & Arts (HA) - 6 credits, two courses minimum
- Civics & Perspectives (CP) - 6 credits, two courses minimum

¹ University Mathematics Requirement:

- Students satisfy the University Mathematics Requirement in one of four ways:
- completing an approved university-level mathematics course (MQR) with a grade of C (not C-) or above
 - achieving a suitable score on the UW Math Placement Test (<https://www.uwec.edu/academics/academic-support/advising/testing/placement-testing/>)
 - achieving a suitable score on an exam such as the Advanced Placement Calculus or Advanced Placement Statistics exams
 - achieving a suitable score on a Credit by Examination administered by the Department of Mathematics.

² University Writing Requirement:

- Students satisfy the University Writing Requirement in one of four ways:
- completing a Blugold Seminar in Critical Reading and Writing course (WRIT 102 (<https://catalog.uwec.edu/search/?P=WRIT%20102>), WRIT 114 (<https://catalog.uwec.edu/search/?P=WRIT%20114>), WRIT 116 (<https://catalog.uwec.edu/search/?P=WRIT%20116>), WRIT 118 (<https://catalog.uwec.edu/search/?P=WRIT%20118>), or WRIT 120 (<https://catalog.uwec.edu/search/?P=WRIT%20120>)) with a grade of C (not C-) or above
 - achieving a suitable score on the English Placement Test (<https://www.uwec.edu/academics/blugold-seminar/writ-courses-placement/>) (WPT ENGL)
 - achieving a suitable score on an exam such as the Advanced Placement English Literature and Composition or Advanced Placement English Language and Composition exams
 - achieving a suitable score on the University Writing Program Portfolio.

Completion via Placement Test

- Writing: If the CL-W subcategory is satisfied through a placement test, the CGER Communication and Literacy requirement will be reduced from 8 credits (2 courses) to 3 credits (1 course).
- Mathematics: If the University Math Requirement is satisfied through a placement test, the CGER Mathematics & Quantitative Reasoning requirement will be considered fully met, replacing the 4-credit (1 course) requirement.
- Students must still complete 36 credits across 10 courses, with any remaining credits or courses eligible to be taken from any CGER category.

History, Minor - Liberal Arts

Liberal Arts (Code 380-401)

Code	Title	Credits
Twenty-four semester credits of history, including:		
At least six credits of history courses at the 100-200 level.		6
At least 12 credits of history courses at 300-400 level.		12

Program Learning Outcomes

- Students completing this program will be expected to meet the following learning outcomes:
- Analyze diverse experiences of or viewpoints on past events or historical developments.
 - Recognize both continuity and change over time and describe their consequences.
 - Identify and interpret primary and secondary sources in order to effectively construct historical narratives orally and in writing.
 - Evaluate credibility, position, or perspective of various forms of historical evidence.

Global and Comparative History, Certificate

(Code 380-627)

This certificate is designed for undergraduate students with an interest in history who have chosen a major other than History. It is particularly geared toward students for whom a deeper understanding of the history of global interactions will complement and enhance their major area of study and/or future careers (for example: the World Politics emphasis in Political Science, Business, Geography, Religion, Economics, Languages and Women's, Gender, and Sexuality Studies).

Code	Title	Credits
12 credits required, including:		
HIST 124	World History to 1500	3
or HIST 125	World History Since 1500	
The remaining 9 credits from the following courses with at least 6 credits from the 300 or 400 level:		9
HIST 124	World History to 1500	
HIST 125	World History Since 1500	
HIST 152	Modern East and Southeast Asia	
HIST/LAS 172	Latin American History: Colonial to the Present	
HIST 212	Hmong and America	
HIST 284	The Nazis and Germany, 1914-1945	

HIST 286	History of World War II
HIST 292	Origins of Current World Conflicts
HIST 302	Ancient Near Eastern Civilizations
HIST 304	Greek Civilization
HIST 306	Roman Civilization
HIST/WGSS 313	Gender, Sex, and Science in European History
HIST 316	Studies in Asian/Pacific World History
HIST 319	Studies in Global and Comparative History
HIST 325	History and Memory in Europe
HIST 326	Twentieth Century Europe, 1900 to Present
HIST 349	The Global History of Disease
HIST 360	Modern France
HIST 362	Modern Germany
HIST 376	World War I and II Military
HIST 377	American War in the Post 1945 World
HIST 381	Comparative Genocide
HIST 382	Imperialism Since 1800
HIST 383	Modern Africa
HIST 384	The Vietnam War
HIST 388	History of China
HIST 389	History of Japan
HIST 392	History of Antisemitism
HIST 393	Roots of Selected Contemporary World Problems
HIST 401	Public History in Great Britain

Note: Courses cannot be counted in both the major and the certificate program. Students cannot pursue the History Major or the History, Public History Emphasis Major and the Global and Comparative History Certificate to meet graduation requirements for completing a first and second degree program.

Program Learning Outcomes

Students completing this program will be expected to meet the following learning outcomes:

- Analyze diverse experiences of or viewpoints on past events or historical developments.
- Recognize both continuity and change over time and describe their consequences.
- Compare and connect local and global histories.

History of Race, Gender, and Society, Certificate

(Code 380-628)

This certificate is designed for undergraduate students with an interest in history that have chosen a major other than History. It is particularly geared toward students for whom a deeper understanding of the history of race, gender and society will complement and enhance their major area of study and/or future careers (for example, Sociology, Women's, Gender, and Sexuality Studies, Social Work, Education, and Criminal Justice).

Code	Title	Credits
12 credits required, including:		
One of the following courses:		
HIST/WGSS 205	American Women's History	
HIST 210	African American History 1865 to Present	
HIST 212	Hmong and America	
HIST/AIS 240	American Indian History	
The remaining 9 credits may be chosen from the following courses with at least 6 credits from the 300 or 400 level:		
HIST 114	United States History to 1877	
HIST 115	United States History Since 1877	
HIST/LAS 172	Latin American History: Colonial to the Present	
HIST/WGSS 205	American Women's History	
HIST 210	African American History 1865 to Present	
HIST 212	Hmong and America	
HIST/AIS 240	American Indian History	
HIST 284	The Nazis and Germany, 1914-1945	
HIST/WGSS 313	Gender, Sex, and Science in European History	
HIST 317	Studies in the History of Race in the U.S.	
HIST 344	African American Civil Rights Movement, 1914-Present	
HIST 345	Civil Rights and American Memory	
HIST 367	Historical Roots of Health Disparities in the Americas	
HIST/AIS 368	Studies in American Indian History	
HIST/AIS 369	Wisconsin Indian History	
HIST 370	History of the Family in America	
HIST 381	Comparative Genocide	
HIST 382	Imperialism Since 1800	
HIST 383	Modern Africa	
HIST 392	History of Antisemitism	
HIST/WGSS 394	Studies in the History of Women	
LAS 222	Introduction to U.S. Latino History and Culture	

Note: Courses cannot be counted in both the major and the certificate program. Students cannot pursue the History Major or the History, Public History Emphasis Major and the History of Race, Gender, and Society Certificate to meet graduation requirements for completing a first and second degree program.

Program Learning Outcomes

Students completing this program will be expected to meet the following learning outcomes:

- Analyze diverse experiences of or viewpoints on past events or historical developments.
- Recognize both continuity and change over time and describe their consequences.
- Construct arguments that explain how history can inform the present.

Languages

Centennial Hall 4508

715-836-4287

Department Website (<https://www.uwec.edu/academics/college-arts-sciences/departments-programs/languages/>)

The Department of Languages provides a vital component in the undergraduate liberal arts education offered at the University of Wisconsin-Eau Claire. The department promotes multilingualism as the key to intercultural understanding. It does so through courses in language, culture, and literature, including English language for speakers of other languages; major and minor programs in a number of world languages; study abroad opportunities and internships in many countries; and student/faculty collaborative research. Graduates from the Department of Languages serve at home and abroad as ambassadors for a diverse, peacefully interacting global society.

Major, Minor, and Certificate Programs

The Department of Languages offers Liberal Arts and Teaching majors and minors in French and Spanish, and a Liberal Arts minor in German and Japanese. In addition, a Spanish for Health Professions minor is available as well as certificate programs in Chinese, French, and German. Language students may also be interested in the certificate in Teaching English as a Foreign Language (TEFL), or the minor or certificate in Ancient Studies. Students of Spanish have the opportunity to pursue a major or minor in Latin American and Latinx Studies (LAS). Other opportunities to study languages exist outside the Department of Languages: the Critical Hmong Studies certificate (housed in the Race, Ethnicity, Gender and Sexuality Studies Department), the Ojibwe Language and Culture certificate (housed in the American Indian Studies Program), the American Sign Language (ASL) certificate (housed in the Speech, Language and Hearing Sciences Department), the minor in Teaching of English to Speakers of Other Languages (TESOL, housed in the Department of Education Studies).

Other Languages Offered

In addition to the major, minor, and certificate programs, the Department of Languages provides instruction in Classical Greek, Hmong, Latin, and Russian. One year of any of the languages taught in the department fulfills the one-year second language requirement for a Bachelor of Arts Degree in the College of Arts and Sciences. To meet this requirement, however, the student must earn a grade of at least C or a mark of S in a Language course numbered 102 or higher. The department is also the academic home for the Intensive English Program (English as a Second Language), see below.

Languages Honors Program

Eligibility

Languages majors, minors, and certificate students who have language GPAs of 3.50 or higher are eligible for the Languages Honors Program.

For students in French, German, and Spanish

Completion of two upper-division courses is required before applying to the Languages Honors Program.

For students in Japanese

JAPN 202 is required before applying to the Languages Honors Program.

JAPN 301 is required to complete the Languages Honors Program; JAPN 302 is encouraged.

For students in Chinese

CHIN 201 is required before applying to the Languages Honors Program. CHIN 202 is required to complete the Languages Honors Program.

Procedure

A student must submit the application to the Department of Languages via an e-form (<https://eform1.uwec.edu/form.aspx?pid=d6b4de7a-a68b-41af-97f5-ecc275ef7d2d&formid=77b67071-01d3-4236-a2dc-6fb3a65d3152&completetext=Please%20click%20the%20link%20below%20to%20continue>) prior to the student's last two semesters of study. The e-form will ask to identify a Languages faculty member (e.g., faculty adviser or a professor of your choice) to serve as a reference.

Requirements

At graduation, the student must have a language GPA of 3.50 or higher. In addition, the student must submit evidence to the department chair that two of the following have been satisfactorily completed at a standard of excellence deserving of a recognition in Honors.

1. A faculty/student collaborative research project with a language faculty member
2. An Honors project in an upper-division language course, with prior approval from instructor; the project will constitute a substantial addition to the course requirements
3. An official ACTFL Oral Proficiency Interview rating exceeding program expectation
Majors: Advanced Low or higher
Minors: Intermediate High or higher
Japanese minors: Intermediate Mid or higher
Certificates: Intermediate Mid or higher
Chinese certificates: Novice High or higher
4. A presentation at a conference or forum on a topic related to their language
5. A language-related experience (internship, volunteering) approved by a faculty member
6. A leadership role in a language student organization
7. A key role in organizing an event to promote languages and cultures
8. A sustained involvement in increasing the visibility of languages on campus
9. Another project (e.g., independent/directed study, honors thesis) may be considered if approved in advance by the instructor(s) involved and the department chair.

Residency Requirement for Prospective Language Teachers

All majors and minors who wish to be certified to teach a language must complete an appropriate period of language immersion in residence in a country in which the language is spoken, or provide an alternative language immersion experience that must be approved by the Department. The minimum time period for meeting the residence/immersion requirement is six weeks. However, the Department of Languages recommends that students spend at least one semester abroad.

Oral Proficiency Requirement for Prospective Language Teachers

Wisconsin Department of Public Instruction content guidelines require that language teachers demonstrate minimal oral proficiency at a level equivalent to Intermediate High according to the ACTFL Proficiency Guidelines. Prospective teachers at UW-Eau Claire must demonstrate such proficiency through an official ACTFL Oral Proficiency Interview (OPI). Information on the Oral Proficiency Interview and the ACTFL Proficiency Guidelines (Speaking) is available in the Department of Languages.

Placement Test in Languages

Students whose records indicate at least two units of second language study in Junior/Senior High School and who do not have college credit in the language are required to take a placement test in that language prior to registration in order to determine the level at which they should continue their language instruction. At the time of the test, students will be advised as to the language course in which they should enroll.

Students who place into a 102-level language class will be considered to have met the 101-level competency requirement and may not enroll in a 101-level class in the same language for credit without the permission of the Chair of the Department of Languages. Additionally, a student who places into a 201-level class or above will be considered to have met the 101- and 102-level requirements and may not enroll for credit in any course that is at a lower level than the one into which the student has placed without the permission of the Chair of the Department of Languages.

Placement testing procedures vary depending on which language is assessed. For information about these tests, consult the Placement Testing page (<https://www.uwec.edu/offices-services/academic-testing/placement-testing>) or visit Academic Testing (Vicki Lord Larson Hall 2100).

Roma Hoff Instructional Resource Center

The Roma Hoff Instructional Resource Center (RHIRC) located in Centennial Hall 4712 provides access to audio and video programs, films, and computer-assisted language material to support second language acquisition.

Credit for High School Work or Other Language Experience

Students with high school courses or other learning experiences in a second language may obtain college credit for their previous work by taking a confirming course under the following conditions:

1. The confirming course must be the first college-level course completed in the language and must be taken by a regularly enrolled student at UW-Eau Claire. However, students who have taken a college-level course while in high school are also eligible for credit for previous work by taking a confirming course.
2. The confirming course must be 102, 201, 202, or in French, FREN 315; in German, GERM 313, GERM 314 or GERM 315; in Spanish, SPAN 301.
3. The course must be passed with a letter grade of B (not B-) or above and may not be repeated for the purpose of requesting credits under this policy.
4. A maximum of 16 credits may be granted in any one language for previous work at a level lower than the confirming course.

Further information is available from the Chair of the Department.

Study Abroad

The Department of Languages encourages study abroad in any of their sponsored programs. Credits for language majors, minors, and certificates can be earned in any of these programs. Consult a Languages faculty advisor to select an approved program. A resident GPA requirement exists for acceptance in study abroad programs. For details, see the Center for International Education (<https://www.uwec.edu/academics/academic-experience/study-away/study-abroad>) in Schofield Hall 3.

International Employment

Students interested in a career in international business should consider a language program combined with the major, minor or certificate in International Business available to students in the College of Business. For

information about opportunities for international employment, consult Dr. Kristy Lauver, the advisor for students seeking the International Business major, minor or certificate in the College of Business.

Intensive English Program (English for Speakers of Other Languages)

Another important offering in the Department of Languages is English for second-language speakers of English on campus. The Intensive English Program (IEP) offers English Language Learners instruction during the regular academic year. All IEP courses are offered for credit and count towards resident GPA and credits for graduation. Successful completion of the advanced level of the IEP is one way to demonstrate English proficiency for degree programs at UWEC.

International students seeking a degree or on exchange from their home institutions, immigrants/refugees, and/or second-language speakers of English who are residents of the United States are welcome to take IEP coursework to further develop their English speaking, listening, reading, writing, grammar, vocabulary, and pronunciation.

International students who have not demonstrated English proficiency may take the English Placement Exam at UWEC. The English Placement Exam is conducted the week prior to the beginning of courses. The purpose of the English Placement Exam is to determine whether each second-language speaking student's English language proficiency is sufficient for active involvement in UWEC coursework. A second-language speaker of English must be linguistically prepared for the rigorous academic challenges at UW-Eau Claire in terms of in-class oral and aural interaction and out-of-class reading and writing.

For more information on admissions requirements for the IEP, undergraduate studies, or graduate studies, please contact the office of Admissions at admissions@uwec.edu.

Majors

- Major: French, Liberal Arts - B.A./B.S.
- Major: French Teaching - B.A. (College of Health and Human Sciences Secondary Education Program)
- Major: Spanish, Liberal Arts - B.A./B.S.

- Major: Spanish Teaching - B.A. (College of Health and Human Sciences Secondary Education Program)
- Comprehensive Major: Spanish Teaching, TESOL Emphasis - B.A. (College of Health and Human Sciences Secondary Education Program)

Minors

- Minor: Ancient Studies, Liberal Arts
- Minor: French, Liberal Arts
- Minor: French, Early Childhood/Adolescence Teaching
- Minor: German, Liberal Arts
- Minor: Japanese, Liberal Arts
- Minor: Spanish, Liberal Arts
- Minor: Spanish for Health Professions, Liberal Arts
- Minor: Spanish, Early Childhood/Adolescence Teaching

Certificates

- Certificate: Ancient Studies
- Certificate: Chinese
- Certificate: French Proficiency
- Certificate: German Proficiency

Chinese, Certificate

(Code 291-601)

The **Chinese Certificate** aims to deepen students’ Chinese language proficiency and cultural knowledge of China and Chinese-speaking regions in the world. This certificate will be a beneficial credential to reflect students’ investment in and knowledge of Chinese.

Code	Title	Credits
Minimum of fifteen semester credits, including:		
CHIN 101	Beginning Chinese	4
CHIN 102	Beginning Chinese	4
CHIN 201	Intermediate Chinese	4
At least 3 credits selected from: ¹		
CHIN 202	Intermediate Chinese	
FLG 150	Foreign Civilization and Culture (when focused on China)	
FLTR 392	Foreign Film as Cultural Expression (when focused on China)	
or FLTR 330	Chinese Culture through Films	
LANG 170	Language and Intercultural Competence	
HIST 152	Modern East and Southeast Asia	
HIST 388	History of China	
INTB 362	International Experience in China	

¹ Other courses with a focus on China may count toward the certificate electives in consultation with the advisor, Dr. Kaishan Kong.

Program Learning Outcomes

Students completing this program will be expected to meet the following learning outcomes:

- Engage in interpersonal communication on a variety of topics of a personal, public, and professional nature.

- Understand and interpret written and spoken language and visual images on a variety of topics of a personal, public, and professional nature.
- Present information, concepts, and ideas to an audience of listeners or readers on a variety of topics of a personal, public, and professional nature.
- Demonstrate an awareness and knowledge of practices, products and perspectives related to the target culture(s) in spoken, written, and visual forms.
- Connect and integrate their language study with other disciplines and communities for academic and social purposes.

The desired benchmark for language proficiency is Novice High or above on the ACTFL proficiency scale (<https://theglobalseal.com/actfl-language-proficiency-levels>).

French Proficiency, Certificate

(Code 260-601)

The certificate program in **French Proficiency** provides students with practical language and cultural skills complementing majors and minors in all other disciplines. The array of courses strengthens the academic and professional prospects of students who wish to acquire some linguistic and intercultural competence relevant to the French-speaking world.

Code	Title	Credits
To complete the certificate, 13 credits beyond FREN 201 are required, including:		
FREN 202	Intermediate French	4
FREN 315	Grammar	4
FREN 325	Pronunciation	3

Students may earn their remaining credits from any other FREN upper division courses.

Program Learning Outcomes

Students completing this program will be expected to meet the following learning outcomes:

- Engage in interpersonal communication on a variety of topics of a personal, public, and professional nature.
- Understand and interpret written and spoken language and visual images on a variety of topics of a personal, public, and professional nature.
- Present information, concepts, and ideas to an audience of listeners or readers on a variety of topics of a personal, public, and professional nature.
- Demonstrate an awareness and knowledge of practices, products and perspectives related to the target culture(s) in spoken, written, and visual forms.
- Connect and integrate their language study with other disciplines and communities for academic and social purposes.

The desired benchmark for language proficiency is Intermediate Low or above on the ACTFL proficiency scale (<https://theglobalseal.com/actfl-language-proficiency-levels>).

French Teaching, Major

Teaching (Code 261-201)

University Requirements

GRADUATION REQUIREMENTS FOR BACCALAUREATE DEGREE

Credit Requirements	
Minimum total for graduation ¹	120
Upper division credits (courses numbered 300 and higher)	39
Core General Education	10 courses, 36 credits
Academic Concentrations	
Grade Point Requirements ²	
Total	2.00 average
Resident	2.00 average
Major	2.00 average
Minor	2.00 average
Certificate	2.00 average
University Residency Requirements	
Minimum total	30
Senior year	23
Major, Standard, upper division in residence	12
Major, Comprehensive, upper division in residence	21
Certificate	25 percent of credits
Procedures Required for Graduation	
Obtain admission to the degree program and/or the College offering it.	
Apply for graduation on CampS.	

¹ Certain programs exceed this minimum.

² See special requirements in each College.

Applicability of Credits Toward Graduation

Junior College or Two-Year College Credits. A maximum of 72 semester credits earned in a junior college or two-year college will be accepted as degree credits at UW-Eau Claire.

Extension Credits. Credits earned in credit outreach courses offered by UW-Eau Claire are treated as resident credits. Credits earned in extension courses offered by other units of the Universities of Wisconsin System are treated as transfer credits. All other (non-UW) extension and correspondence credits are normally limited to one-fourth of the total required for graduation from any curriculum.

WTCS Credits. A maximum of 72 semester credits earned in college parallel programs at Madison Area Technical College, Milwaukee Area Technical College, Nicolet Area Technical College, or Chippewa Valley Technical College may be accepted as degree credits at UW-Eau Claire. A set number of general education courses will be accepted from other technical schools. Occupational and technical courses may also be considered for transfer if the quality and content of the course work from the technical college is judged to be comparable to course work at UW-Eau Claire. Refer to the Transfer Credit Wizard (https://www.uwec.sis.wisconsin.edu/psp/eauprd-tb/EMPLOYEE/SA/c/EAU_SS_CUSTOM.EAU_TRNCRDWZ.GBL) or contact the UW-Eau Claire Admissions Office for information about the current transfer policy.

USAFI Credit. UW-Eau Claire will accept up to 32 semester credits for work done through the United States Armed Forces Institute, under the provision for non-UW correspondence credit (see Extension Credits above).

Activity Credit (band, chorus, drama, KINS 100-184 courses) Students may count toward graduation no more than one credit of KINS 110-184 courses. Students may count toward graduation no more than four credits earned

in any single activity course and no more than 12 credits resulting from any combination of activity courses (excluding KINS 110-184 courses).

Other Restricted Credits. For other University restrictions, see the following: Cooperative Education; Credit by Examination; Satisfactory/Unsatisfactory Registration; Transfer of Credits. College or departmental restrictions may also be placed on Independent Study (399-499 courses), Directed Study (395-495), and other types of credits.

APPLICABILITY OF CREDITS TOWARD GRADUATION	Credit Restrictions
Satisfactory/Unsatisfactory	
Total degree credit	maximum 12
Major, Standard	maximum 1 course
Major, Comprehensive	maximum 2 courses
Minor	maximum 1 course
Credit by Examination	
Total degree credit	maximum ¼ of total
Major or minor	maximum ½ of total
Two-Year College Credits	
Total degree credit	maximum 72 credits
Activity credit (band, chorus, drama, KINS 100-184)	
Total KINS 100-184	maximum 1 credit
Total Band, chorus, drama	maximum 12 credits
Single course band, chorus, drama	maximum 4 credits
Extension credits	
UW-System	no maximum
Other extension/correspondence	maximum ¼ of total
USAFI	
USAFI	maximum 32 credits
Core General Education Requirements (CGER)	
CGER Categories	
Mathematics & Quantitative Reasoning (MQR) (http://catalog.uwec.edu/undergraduate/outcome-mqr/)	4 credit hours, 1 course min
Includes University Math Requirement ¹	
Communication & Literacy (CL) (http://catalog.uwec.edu/undergraduate/outcome-cl/)	8 credit hours, 2 course min (including CL-W)
Includes University Writing Requirement (CL-W) (http://catalog.uwec.edu/undergraduate/outcome-clw/) ²	
Natural Sciences & Wellness (NSW/NSWL) (http://catalog.uwec.edu/undergraduate/outcome-NSW/)	6 credit hours, 1 course min (NSW-Lab required)

Social & Behavioral Sciences (SBS) (https://catalog.uwec.edu/undergraduate/outcome-sbs/)	6 credit hours, 2 course min
Humanities & Arts (HA) (http://catalog.uwec.edu/undergraduate/outcome-ha/)	6 credit hours, 2 course min
Civics & Perspectives (CP) (http://catalog.uwec.edu/undergraduate/outcome-cp/)	6 credit hours, 2 course min
CGER Totals³	
Credits	minimum 36 credits
Courses	minimum 10 courses

¹ University Mathematics Requirement:

Students satisfy the University Mathematics Requirement in one of four ways:

- completing an approved university-level mathematics course (MQR) with a grade of C (not C-) or above
- achieving a suitable score on the UW Math Placement Test (<https://www.uwec.edu/academics/academic-support/advising/testing/placement-testing/>)
- achieving a suitable score on an exam such as the Advanced Placement Calculus or Advanced Placement Statistics exams
- achieving a suitable score on a Credit by Examination administered by the Department of Mathematics.

² University Writing Requirement:

Students satisfy the University Writing Requirement in one of four ways:

- completing a Blugold Seminar in Critical Reading and Writing course (WRIT 102 (<https://catalog.uwec.edu/search/?P=WRIT%20102>), WRIT 114 (<https://catalog.uwec.edu/search/?P=WRIT%20114>), WRIT 116 (<https://catalog.uwec.edu/search/?P=WRIT%20116>), or WRIT 118 (<https://catalog.uwec.edu/search/?P=WRIT%20118>), or WRIT 120 (<https://catalog.uwec.edu/search/?P=WRIT%20120>)) with a grade of C (not C-) or above
- achieving a suitable score on the English Placement Test (<https://www.uwec.edu/academics/blugold-seminar/writ-courses-placement/>) (WPT ENGL)
- achieving a suitable score on an exam such as the Advanced Placement English Literature and Composition or Advanced Placement English Language and Composition exams
- achieving a suitable score on the University Writing Program Portfolio.

³ Completion via Placement Tests

- Writing: If the CL-W subcategory is satisfied through a placement test, the CGER Communication and Literacy requirement will be reduced from 8 credits (2 courses) to 3 credits (1 course).
- Mathematics: If the University Math Requirement is satisfied through a placement test, the CGER Mathematics & Quantitative Reasoning requirement will be considered fully met, replacing the 4-credit (1 course) requirement.
- Students must still complete 36 credits across 10 courses, with any remaining credits or courses eligible to be taken from any CGER category.

College Degree Requirements

College of Health and Human Sciences Requirements for Teacher Education Programs

1. Grade point requirements:

Abbreviation	Full Title
Resident	2.75 average
Total	2.75 average
Major	2.75 average
Minor (for certification only)	2.75 average

2. Residency requirements:

Abbreviation	Full Title
Minimum Total	30 credits
Senior Year	23 credits
Major, in upper division courses	12 credits
Comprehensive Major, in upper division courses	21 credits

3. Criteria and requirements for Admission to Education Program and Admission to the Professional Education Semester.
4. Specific requirements for programs offered in the College of Health and Human Sciences as outlined in department specific sections of this catalog.

Admission to Education Program

Admission to the Education Program

Students must apply for admission to the Education Program. Applications are due by October 1 for spring admission or March 1 for fall admission. To submit an application to an Education Program, students must satisfy all of the requirements listed below:

1. Approval by the appropriate department in the College of Health and Human Sciences.
2. Pre-education status.
3. Students must have attained at least Sophomore Status
4. Minimum total GPA of 2.5 or minimum resident GPA of 2.5. Admission is competitive; thus, the minimum GPA does not assure admission.
5. Completed the Core General Education Requirement (CGER) for Communication & Literacy-Writing with a C or better.
6. Completed the Core General Education Requirement (CGER) for Mathematics & Quantitative Reasoning with a C or better.
7. Good academic standing.
8. Complete an introductory education course with a field placement (SEIP 208, ES 212, or the equivalent) with a grade of C or better.

Specific majors may have additional department-level criteria. Consult with the department if needed.

Admission to Professional Education Semester (Student Teaching or Internship)

Admission to the Professional Education Semester

The "Professional Education Semester" is defined as the semester in which a student is enrolled in the field experience of student teaching or internship.

Filing Notice of Intent to Student Teach Applications: Information concerning the Notice of Intent to Student Teach will be advertised widely and posted across campus each semester with an associated due date. Students who plan to enter the Professional Education Semester during the fall semester of the next academic year must file a Notice of Intent to Student Teach with the Teacher Education Program office in the fall. Students who plan to enter

the Professional Education Semester during the spring semester of the next academic year must file a Notice of Intent to Student Teach with the Teacher Education Program office in the spring.

Students are encouraged to submit their Notice of Intent to Student Teach by the announced due date. Considerable time is required to process each notice—that is, to determine eligibility, to make arrangements with schools for an appropriate field experience assignment, and to allow for introductions, orientations, and, in some cases, interviews. Students who file on time will benefit by the careful consideration that can be given to their requests; the later a notice is received, the fewer the placement assignments and choices still available will be. Failure to file a Notice of Intent to Student Teach on time may result in a delay of the Professional Education Semester.

Transfer and Special Students: No transfer or special student can enter the Professional Education Semester until after a full semester of residence and after earning a minimum of 15 credits at UW-Eau Claire. Senior transfer students enrolling in September must file an application for admission to the professional semester by December 1 for the following fall.

Criteria for Admission:

- 1. Admitted to the appropriate Education Program.
- 2. Good academic standing, as defined in the catalog.
- 3. A minimum of 90 earned credits prior to start of Professional Education Semester.
- 4. Minimum total GPA of 2.75 or minimum resident GPA of 2.75.
- 5. Completion of the 30-hour Human Relations Fieldwork requirement.
- 6. Evidence of freedom from Tuberculosis via test conducted by Student Health Services.
- 7. Completion of required criminal background check.

For placements that start in the Fall semester, criteria for admission must be met by March 1 of the prior semester. For placements that start in the Spring semester, criteria for admission must be met by October 1 of the prior semester. For placements that start in the summer session, criteria for admission must be met by February 1 of the prior semester.

Licensure Requirements

Licensure to Teach

College of Health and Human Sciences graduates who desire to teach in Wisconsin, will apply for licensure using the WI Department of Public Instruction’s (DPI) ELO (Electronic Licensing Online) by following all steps listed on the site including fingerprinting if applicable.

Upon completion of all program requirements and WI DPI teaching requirements, information will be forwarded to DPI verifying program completion, the completion of all required tests, and information on all certifications the teaching candidates are eligible for with licensure. Candidates will then apply for their Initial License.

It is recommended that graduates seeking licensure to teach in states other than Wisconsin request application forms and instructions from the state in which licensure is desired. Early inquiry is suggested as the certification requirements vary by state. In most cases, an official transcript of credits must accompany the completed application form; additional tests or coursework may be required. In general, candidates may be able to obtain licenses in other states; however, these licenses may be issued with stipulations. It is the student’s responsibility to understand the licensing requirements of other

states. UW-Eau Claire programs are designed to meet the requirements in Wisconsin only.

Criteria for Recommendation for Licensure:

- 1. Completion of a baccalaureate degree.
- 2. Completion of an approved education major, minor, and/or certificate.
- 3. 2.75 or higher GPA in the major, minor, and/or certificate (if certifiable). All college level courses, except student teaching or internship are included when determining GPA for licensure.
- 4. Completion of student teaching or internship courses with an S.
- 5. Content area proficiency as demonstrated by earning a minimum 3.0 GPA in content courses OR via obtaining a passing score on the appropriate Praxis II. Candidates for licensure in Languages must obtain a passing score on the ACTFL written portion (WPT) and must pass the OPI/OPIc within three years prior to the start of student teaching or internship. All candidates seeking licensure must also earn a passing score on the FORT.

Major Requirements

Teaching (Code 261-201)

Students pursuing a degree that will allow them to be licensed in a K-12 setting complete courses in the content area(s) they plan to teach; one or more methods courses specific to the content area; Professional Education coursework focused on instructional methods, assessment of student learning, and curriculum and lesson planning; and ten credits of Student Teaching or Student Teaching Internship.

A student seeking K-12 licensure must complete the following requirements:

- 1. Earn a grade of C or higher in all content-area specific methods coursework and Professional Education coursework.
- 2. Earn a grade of S in student teaching or student teaching internship.
- 3. Earn a content area GPA of 3.0 or higher OR complete the appropriate Praxis II, ACTFL, or other exam specified by the Teacher Education Program with a passing grade.

Code	Title	Credits
FRENCH MAJOR REQUIREMENTS		36
This major requires a minimum of 36 credits beyond FREN 102 or 28 credits beyond FREN 202 including:		
Core Requirements		10
FREN 315	Grammar	4
FREN 325	Pronunciation	3
FLG 378	Second Language Acquisition Theory	3

Students may earn their remaining credits from any 300 or 400-level FREN courses, but must take a minimum of six credits at the 400 level.

Language Immersion Requirement: All French teaching majors and minors must complete an appropriate period of language immersion in residence in a country in which the language is spoken, or participate in an alternative language language immersion experience that must receive departmental approval. The minimum time period for meeting the residence/immersion requirement is six weeks; however, the department recommends that students spend at least one semester abroad.

PROFESSIONAL EDUCATION REQUIREMENTS		37
ES 212	Exploring Schooling K-12	2-3
ES 313	Curriculum, Instructional Methods, and Disciplinary Literacies in Grades K-12	3
ES 314	Collaboration, Engagement, and Assessment in Grades K-12	3
ES 366	World Language Methods for Secondary Teaching	2-3
ES 385	Social Foundations: Human Relations (CGER CP)	3
ES 437	World Language Methods for Early and Middle Childhood	2
ES 490	Historical, Legal, and Philosophical Foundations of Education	3
ES 497	Field Experience Seminar	2
ES 441 or ES 440	Student Teaching in K-12 Education Internship Teaching in K-12 Education	10
PSYC 260	Educational Psychology (CGER SBS)	3
SEIP 300	Inclusive Practices for Secondary Educators	3

This major leads to licensure to teach French in grades K-12. To receive departmental recommendation for student teaching/internship and certification/licensure, passing the OPI or OPIc with a score of Intermediate High or above on the ACTFL rating scale is required. Please see your advisor for additional certification requirements.

Program Learning Outcomes

Students completing this program will be expected to meet the following learning outcomes:

- Engage in interpersonal communication on a variety of topics of a personal, public, and professional nature.
- Understand and interpret written and spoken language and visual images on a variety of topics of a personal, public, and professional nature.
- Present information, concepts, and ideas to an audience of listeners or readers on a variety of topics of a personal, public, and professional nature.
- Demonstrate an awareness and knowledge of practices, products and perspectives related to the target culture(s) in spoken, written, and visual forms.
- Connect and integrate their language study with other disciplines and communities for academic and social purposes.
- Use critical and creative thinking to evaluate and address issues in local and global contexts.
- Demonstrate knowledge and appropriate use of current pedagogical issues and practices that are pertinent to the field of second language acquisition.

French Teaching-Major (B.A.)

The following is a sample degree plan, based on the current catalog. It is based on the 120-credit graduation requirement and assumes no transferred credits, no requirements waived by placement tests, no courses taken in the summer or winter, no repeated courses, and no remedial courses that may be required. This sample degree plan is intended for first-year students entering UW-Eau Claire in the fall semester. Your own degree plan may differ depending on the course of study selected (second major, minor, etc.). UW-Eau Claire cannot guarantee all courses will be offered as shown but will provide a range of courses that may enable prepared students to fulfill their requirements

in a timely period. This sample degree plan is just a guide. Please consult your advisor, your degree audit, and the catalog to create your own degree plan. Note: In order to earn the required minimum of 120 credits for the degree in four years, you should plan to take 15 credits each semester or 30 credits each year.

To earn a degree, students must fulfill all University Graduation Requirements, including the Core General Education Requirements (CGER). CGER course work in the following sample degree plan uses abbreviations such as CGER CL, CGER HA, and CGER NSWL to represent the learning outcomes students will meet via completion of the course. Please click [here](#) for a description of the outcomes and requirements.

FIRST YEAR

First Semester		
FREN 201	Intermediate French (CGER CL)	4
Select one:		2-5
WRIT 114	Intensive Blugold Seminar in Critical Reading and Writing (CGER CL)	
WRIT 116	Blugold Seminar in Critical Reading and Writing (CGER CL)	
WRIT 118	Accelerated Blugold Seminar in Critical Reading and Writing (CGER CL)	
ES 149	Introduction to Education (Recommended)	1
CGER Option: Natural Sciences & Wellness (NSW)		
CGER Course Option: Humanities & Arts (HA)		
Second Semester		
FREN 202	Intermediate French	4
MATH 107	Mathematics in Latin American Cultures (CGER MQR)	4
	or MATH 106	Introduction to Mathematical Thinking
CGER Option: Natural Sciences & Wellness with Lab (NSWL)		
CGER Option: Civics & Perspectives (CP)

ES 497	Field Experience Seminar (LE-S3, IL)	2
ES 441	Student Teaching in K-12 Education	10
or ES 440	Internship Teaching in K-12 Education	
TOTAL FOURTH YEAR		30

¹ Elective options include courses needed to fulfill CGER, major, minor, or certificate requirements.

² Students typically apply for Admission to the Education Program during the first semester of their third year.

³ Before student teaching or internship, students must pass the OPI or OPIc and WPT with a score of Intermediate High or above on the ACTFL rating scale.

RECOMMENDATIONS FOR HIGH IMPACT PRACTICES (HIPs) The University of Wisconsin-Eau Claire encourages all students to participate in High Impact Practices. There are many high-impact opportunities available. Talk to your academic advisor for more information about incorporating HIPs like Study Abroad (<https://studyabroad.apps.uwec.edu/>), Intercultural Immersion (<https://www.uwec.edu/immersion/>), Internship (<https://www.uwec.edu/academics/academic-experience/internships>), and/or Student/Faculty Collaborative Research (<https://www.uwec.edu/offices-services/office-research-and-sponsored-programs/getting-involved-student-faculty-research-1>) into your time at UW-Eau Claire.

Core General Education Requirements (CGER)

Core General Education Requirements (CGER)

The Core General Education Requirements (CGER) includes a minimum of 10 courses across 6 categories. Students must complete a minimum of 36 credits in courses approved for the CGER Core.

- Mathematics & Quantitative Reasoning (MQR) - 4 credits, one course minimum
 - Includes the University Mathematics Requirement¹
- Communication & Literacy (CL) - 8 credits, two courses minimum
 - Includes the University Writing Requirement (CL-W)²

- Natural Sciences & Wellness (NSW/NSWL) - 6 credits, one course minimum (NSW-Lab required)
- Social & Behavioral Sciences (SBS) - 6 credits, two courses minimum
- Humanities & Arts (HA) - 6 credits, two courses minimum
- Civics & Perspectives (CP) - 6 credits, two courses minimum

¹ University Mathematics Requirement:

Students satisfy the University Mathematics Requirement in one of four ways:

- completing an approved university-level mathematics course (MQR) with a grade of C (not C-) or above
- achieving a suitable score on the UW Math Placement Test (<https://www.uwec.edu/academics/academic-support/advising/testing/placement-testing/>)
- achieving a suitable score on an exam such as the Advanced Placement Calculus or Advanced Placement Statistics exams
- achieving a suitable score on a Credit by Examination administered by the Department of Mathematics.

² University Writing Requirement:

Students satisfy the University Writing Requirement in one of four ways:

- completing a Blugold Seminar in Critical Reading and Writing course (WRIT 102 (<https://catalog.uwec.edu/search/?P=WRIT%20102>), WRIT 114 (<https://catalog.uwec.edu/search/?P=WRIT%20114>), WRIT 116 (<https://catalog.uwec.edu/search/?P=WRIT%20116>), WRIT 118 (<https://catalog.uwec.edu/search/?P=WRIT%20118>), or WRIT 120 (<https://catalog.uwec.edu/search/?P=WRIT%20120>)) with a grade of C (not C-) or above
- achieving a suitable score on the English Placement Test (<https://www.uwec.edu/academics/blugold-seminar/writ-courses-placement/>) (WPT ENGL)
- achieving a suitable score on an exam such as the Advanced Placement English Literature and Composition or Advanced Placement English Language and Composition exams
- achieving a suitable score on the University Writing Program Portfolio.

Completion via Placement Test

- Writing: If the CL-W subcategory is satisfied through a placement test, the CGER Communication and Literacy requirement will be reduced from 8 credits (2 courses) to 3 credits (1 course).
- Mathematics: If the University Math Requirement is satisfied through a placement test, the CGER Mathematics & Quantitative Reasoning requirement will be considered fully met, replacing the 4-credit (1 course) requirement.
- Students must still complete 36 credits across 10 courses, with any remaining credits or courses eligible to be taken from any CGER category.

French, Major - Liberal Arts

Liberal Arts (Code 260-201)

University Requirements

GRADUATION REQUIREMENTS FOR BACCALAUREATE DEGREE

Credit Requirements	
Minimum total for graduation ¹	120
Upper division credits (courses numbered 300 and higher)	39
Core General Education	10 courses, 36 credits

Academic Concentrations	
Grade Point Requirements ²	
Total	2.00 average
Resident	2.00 average
Major	2.00 average
Minor	2.00 average
Certificate	2.00 average
University Residency Requirements	
Minimum total	30
Senior year	23
Major, Standard, upper division in residence	12
Major, Comprehensive, upper division in residence	21
Certificate	25 percent of credits
Procedures Required for Graduation	
Obtain admission to the degree program and/or the College offering it.	
Apply for graduation on CampS.	

¹ Certain programs exceed this minimum.

² See special requirements in each College.

Applicability of Credits Toward Graduation

Junior College or Two-Year College Credits. A maximum of 72 semester credits earned in a junior college or two-year college will be accepted as degree credits at UW-Eau Claire.

Extension Credits. Credits earned in credit outreach courses offered by UW-Eau Claire are treated as resident credits. Credits earned in extension courses offered by other units of the Universities of Wisconsin System are treated as transfer credits. All other (non-UW) extension and correspondence credits are normally limited to one-fourth of the total required for graduation from any curriculum.

WTCS Credits. A maximum of 72 semester credits earned in college parallel programs at Madison Area Technical College, Milwaukee Area Technical College, Nicolet Area Technical College, or Chippewa Valley Technical College may be accepted as degree credits at UW-Eau Claire. A set number of general education courses will be accepted from other technical schools. Occupational and technical courses may also be considered for transfer if the quality and content of the course work from the technical college is judged to be comparable to course work at UW-Eau Claire. Refer to the Transfer Credit Wizard (https://www.uwec.sis.wisconsin.edu/psp/eauprd-tb/EMPLOYEE/SA/c/EAU_SS_CUSTOM.EAU_TRNCRDWZ.GBL) or contact the UW-Eau Claire Admissions Office for information about the current transfer policy.

USAFI Credit. UW-Eau Claire will accept up to 32 semester credits for work done through the United States Armed Forces Institute, under the provision for non-UW correspondence credit (see Extension Credits above).

Activity Credit (band, chorus, drama, KINS 100-184 courses) Students may count toward graduation no more than one credit of KINS 110-184 courses. Students may count toward graduation no more than four credits earned in any single activity course and no more than 12 credits resulting from any combination of activity courses (excluding KINS 110-184 courses).

Other Restricted Credits. For other University restrictions, see the following: Cooperative Education; Credit by Examination; Satisfactory/Unsatisfactory Registration; Transfer of Credits. College or departmental restrictions may also

be placed on Independent Study (399-499 courses), Directed Study (395-495), and other types of credits.

APPLICABILITY OF CREDITS TOWARD GRADUATION		Credit Restrictions
Satisfactory/Unsatisfactory		
Total degree credit		maximum 12
Major, Standard		maximum 1 course
Major, Comprehensive		maximum 2 courses
Minor		maximum 1 course
Credit by Examination

- achieving a suitable score on an exam such as the Advanced Placement English Literature and Composition or Advanced Placement English Language and Composition exams
- achieving a suitable score on the University Writing Program Portfolio.

³ Completion via Placement Tests

- Writing: If the CL-W subcategory is satisfied through a placement test, the CGER Communication and Literacy requirement will be reduced from 8 credits (2 courses) to 3 credits (1 course).
- Mathematics: If the University Math Requirement is satisfied through a placement test, the CGER Mathematics & Quantitative Reasoning requirement will be considered fully met, replacing the 4-credit (1 course) requirement.
- Students must still complete 36 credits across 10 courses, with any remaining credits or courses eligible to be taken from any CGER category.

College Degree Requirements

Bachelor of Arts or Bachelor of Science Degree (B.A./B.S.)

University Graduation Requirements. All candidates for degrees must fulfill the requirements for credits, curriculum, GPA, and University residency as specified in the section of this catalog titled University Graduation Requirements.

College Graduation Requirements: Grade Point Averages. All candidates for degrees in the College of Arts and Sciences must earn minimum resident and

total GPAs of 2.00 in the major, the minor, and the certificate. The resident and total GPAs for the major are computed using all attempted credits applicable to the major including those offered by departments other than the major department. The resident and total GPAs for the minor and the certificate are computed similarly.

Major-Minor and Major-Certificate Requirements. A standard major (a minimum of 36 credits) must be supplemented by a minor (a minimum of 24 credits) or by a certificate (12 to 18 credits) to meet graduation requirements for completing a first and second degree program. No minor or certificate is required with a Comprehensive Major (60 or more credits) or with two majors of 36 or more credits each.

Certain degree programs, which include Comprehensive Majors, may require more than the minimum of 120 credits for graduation.

Acceptable academic program combinations are determined at the college level. A major and a minor or a major and certificate or two majors (if available) may not be elected in the same department or program, except in the approved combinations listed here.

College Credits. Earn at least 90 credits in courses offered by the College of Arts and Sciences.

Bachelor of Arts Degree in the College of Arts and Sciences (B.A.)

Fulfillment of all University Graduation Requirements (which includes the Core General Education Requirements); all College-level degree requirements (major and minor/certificate emphases, GPAs, earning at least 90 credits in Arts and Sciences course work); second language competency at the 102 level. Second language competency may be met in one of two ways: (1) Demonstrate a level of second language competency that qualifies the student to enter the 201-level course in a second language. (2) Earn a grade of at least C (not C-) or a mark of S in a 102-level second language course (or AIS 112 or AIS 122 or SLHS 103).

Bachelor of Science Degree in the College of Arts and Sciences (B.S.)

Fulfillment of all University Graduation Requirements (which includes the Core General Education Requirements); all College-level degree requirements (major and minor/certificate emphases, GPAs, earning at least 90 credits in Arts and Sciences course work); mathematics competency at the MATH 111, MATH 112 or MATH 113 level. Mathematics competency can be met in one of three ways: (1) Achieve a score on the mathematics placement test that qualifies the student to enter MATH 114. (2) Earn a grade of at least C (not C-) or a mark of S in MATH 111, MATH 112, or MATH 113. (3) Achieve a satisfactory score on the MATH 112 competency test. This test may be attempted no more than two times.

Major Requirements

Liberal Arts (Code 260-201)

Code	Title	Credits
FREN 315	Grammar	4
FREN 325	Pronunciation	3

Students may earn their remaining credits from any other FREN upper division courses, but must take a minimum of six credits at the 400 level.

Program Learning Outcomes

Students completing this program will be expected to meet the following learning outcomes:

- Engage in interpersonal communication on a variety of topics of a personal, public, and professional nature.
- Understand and interpret written and spoken language and visual images on a variety of topics of a personal, public, and professional nature.
- Present information, concepts, and ideas to an audience of listeners or readers on a variety of topics of a personal, public, and professional nature.
- Demonstrate an awareness and knowledge of practices, products and perspectives related to the target culture(s) in spoken, written, and visual forms.
- Connect and integrate their language study with other disciplines and communities for academic and social purposes.
- Use critical and creative thinking to evaluate and address issues in local and global contexts.

The desired benchmark for language proficiency is Intermediate High or above on the ACTFL proficiency scale (<https://theglobalseal.com/actfl-language-proficiency-levels>).

French, Major - Liberal Arts, B.A. (without study abroad)

The following is a sample degree plan, based on the current catalog. It is based on the 120-credit graduation requirement and assumes no transferred credits, no requirements waived by placement tests, no courses taken in the summer or winter, no repeated courses, and no remedial courses that may be required. This sample degree plan is intended for first-year students entering UW-Eau Claire in the fall semester. Your own degree plan may differ depending on the course of study selected (second major, minor, etc.). UW-Eau Claire cannot guarantee all courses will be offered as shown, but will provide a range of courses that may enable prepared students to fulfill their requirements in a timely period. This sample degree plan is just a guide. Please consult your advisor, your degree audit, and the catalog to create your own degree plan. *Note:* In order to earn the required minimum of 120 credits for the degree in four years, you should plan to take 15 credits each semester or 30 credits each year.

To earn a degree, students must fulfill all University Graduation Requirements, including the Core General Education Requirements (CGER). CGER course work in the following sample degree plan uses abbreviations such as CGER CL, CGER HA, and CGER NSWL to represent the learning outcomes students will meet via completion of the course. Please click [here](#) for a description of the outcomes and requirements.

Students in this major have the option to pursue either a Bachelor of Arts (B.A.) or a Bachelor of Science (B.S.) degree. The degrees are distinguished by second language competency for the B.A. and a higher level of mathematics competency for the B.S.

- a Electives need to be carefully selected to ensure that a student's degree comprises at least 39 credits of upper division courses (300-400 level). While students are encouraged to take additional courses in French, electives can be selected from any discipline as long as the student meets the course prerequisites.

Studying abroad for one semester is highly encouraged to increase proficiency and cultural competence.

RECOMMENDATIONS FOR HIGH IMPACT PRACTICES (HIPs)

The University of Wisconsin-Eau Claire encourages all students to participate in High Impact Practices. The following information identifies any specific recommendations that faculty in this major have concerning which HIPs might be most beneficial to students, and any recommendations about when those HIPs best fit into the degree plan. Students should also consult their faculty advisor for information on HIPs. There are many additional high impact opportunities available. Talk to your academic advisor for more information about incorporating HIPs like Study Abroad (<https://studyabroad.apps.uwec.edu/>), Intercultural Immersion (<https://www.uwec.edu/immersion/>), Internship (<https://www.uwec.edu/offices-services/advising-retention-career-center/career-services/internship/job-searching-and>), and/or Student/Faculty Collaborative Research (<https://www.uwec.edu/offices-services/office-research-and-sponsored-programs/getting-involved-student-faculty-research>) into your time at UW-Eau Claire.

While students are encouraged to take additional courses in French, electives can be selected from any discipline as long as the student meets the course prerequisites.

Study Abroad

Students majoring in French are strongly encouraged to spend a semester studying abroad in one of our programs in Pau or Lyon, France. You need to be in good academic standing and have a cumulative GPA of 2.5. You must maintain enrollment and continue to meet the academic standing and GPA requirements the semester prior to departure. You must have completed French 201 prior to beginning the program. You may apply in your first year, but must have at least sophomore standing by the time the program begins.

RECOMMENDATIONS FOR HIGH IMPACT PRACTICES (HIPs)

The University of Wisconsin-Eau Claire encourages all students to participate in High Impact Practices. The following information identifies any specific recommendations that faculty in this major have concerning which HIPs might be most beneficial to students, and any recommendations about when those HIPs best fit into the degree plan. Students should also consult their faculty advisor for information on HIPs. There are many additional high impact opportunities available. Talk to your academic advisor for more information about incorporating HIPs like Study Abroad (<https://studyabroad.apps.uwec.edu/>), Intercultural Immersion (<https://www.uwec.edu/immersion/>), Internship (<https://www.uwec.edu/offices-services/advising-retention-career-center/career-services/internship/job-searching-and>), and/or Student/Faculty Collaborative Research (<https://www.uwec.edu/offices-services/office-research-and-sponsored-programs/getting-involved-student-faculty-research>) into your time at UW-Eau Claire.

For language-specific study abroad opportunities, see above and also faculty advisor, ARCC advisor, and the Center for International Education.

Core General Education Requirements (CGER)

Core General Education Requirements (CGER)

The Core General Education Requirements (CGER) includes a minimum of 10 courses across 6 categories. Students must complete a minimum of 36 credits in courses approved for the CGER Core.

- Mathematics & Quantitative Reasoning (MQR) - 4 credits, one course minimum
 - Includes the University Mathematics Requirement¹
- Communication & Literacy (CL) - 8 credits, two courses minimum
 - Includes the University Writing Requirement (CL-W)²
- Natural Sciences & Wellness (NSW/NSWL) - 6 credits, one course minimum (NSW-Lab required)
- Social & Behavioral Sciences (SBS) - 6 credits, two courses minimum
- Humanities & Arts (HA) - 6 credits, two courses minimum
- Civics & Perspectives (CP) - 6 credits, two courses minimum

¹ University Mathematics Requirement:

Students satisfy the University Mathematics Requirement in one of four ways:

- completing an approved university-level mathematics course (MQR) with a grade of C (not C-) or above
- achieving a suitable score on the UW Math Placement Test (<https://www.uwec.edu/academics/academic-support/advising/testing/placement-testing/>)
- achieving a suitable score on an exam such as the Advanced Placement Calculus or Advanced Placement Statistics exams
- achieving a suitable score on a Credit by Examination administered by the Department of Mathematics.

² University Writing Requirement:

Students satisfy the University Writing Requirement in one of four ways:

- completing a Blugold Seminar in Critical Reading and Writing course (WRIT 102 (<https://catalog.uwec.edu/search/?P=WRIT%20102>), WRIT 114 (<https://catalog.uwec.edu/search/?P=WRIT%20114>), WRIT 116 (<https://catalog.uwec.edu/search/?P=WRIT%20116>), WRIT 118 (<https://catalog.uwec.edu/search/?P=WRIT%20118>), or WRIT 120 (<https://catalog.uwec.edu/search/?P=WRIT%20120>)) with a grade of C (not C-) or above
- achieving a suitable score on the English Placement Test (<https://www.uwec.edu/academics/blugold-seminar/writ-courses-placement/>) (WPT ENGL)
- achieving a suitable score on an exam such as the Advanced Placement English Literature and Composition or Advanced Placement English Language and Composition exams
- achieving a suitable score on the University Writing Program Portfolio.

Completion via Placement Test

- Writing: If the CL-W subcategory is satisfied through a placement test, the CGER Communication and Literacy requirement will be reduced from 8 credits (2 courses) to 3 credits (1 course).
- Mathematics: If the University Math Requirement is satisfied through a placement test, the CGER Mathematics & Quantitative Reasoning requirement will be considered fully met, replacing the 4-credit (1 course) requirement.
- Students must still complete 36 credits across 10 courses, with any remaining credits or courses eligible to be taken from any CGER category.

French, Minor - Liberal Arts

Liberal Arts (Code 260-401)

Code	Title	Credits
A minimum of 24 semester credits beyond FREN 102, or 16 semester credits beyond FREN 202, including:		
FREN 315	Grammar	4
FREN 325	Pronunciation	3
Students may earn their remaining credits from any other FREN upper division courses.		

Program Learning Outcomes

Students completing this program will be expected to meet the following learning outcomes:

- Engage in interpersonal communication on a variety of topics of a personal, public, and professional nature.
- Understand and interpret written and spoken language and visual images on a variety of topics of a personal, public, and professional nature.
- Present information, concepts, and ideas to an audience of listeners or readers on a variety of topics of a personal, public, and professional nature.
- Demonstrate an awareness and knowledge of practices, products and perspectives related to the target culture(s) in spoken, written, and visual forms.
- Connect and integrate their language study with other disciplines and communities for academic and social purposes.

The desired benchmark for language proficiency is Intermediate Mid or above on the ACTFL proficiency scale (<https://theglobalseal.com/actfl-language-proficiency-levels>).

French, Minor - Teaching - EC-A

Early Childhood/Adolescence, Teaching (Code 260-406)

Code	Title	Credits
A minimum of 24 semester credits beyond FREN 102, or 16 semester credits beyond FREN 202, including:		
FREN 315	Grammar	4
FREN 325	Pronunciation	3
FLG 378	Second Language Acquisition Theory	3
Students may earn their remaining credits from any of the following:		
FREN 335	Cinema	
FREN 340	Professional Communication	
FREN 345	Francophone Literature	
FREN 354	History of France	
FREN 355	Modern Society	
FREN 401	Discussions on Contemporary Societal Issues	
FREN 430	Environmental and Linguistic Diversity	
FREN 491	Special Topics	
FREN 395	Directed Studies	
FREN 399	Independent Study - Juniors	
FREN 499	Independent Study - Seniors	
Language Immersion Requirement ¹		

¹ **Language Immersion Requirement:** All majors and minors who wish to be certified to teach a foreign language must complete an appropriate period of language immersion in residence in a country in which the language is spoken, or provide an alternative language immersion experience that must be approved by the Department. The minimum time period for meeting the residence/immersion requirement is six weeks. However, the Department of Languages recommends that students spend at least one semester abroad.

NOTE 1: This minor is restricted to students pursuing an education degree within the College of Health and Human Sciences. This minor leads to licensure to teach French in K-12 classrooms.

NOTE 2: For departmental recommendation for student teaching and certification, passing the OPI or OPIc and WPT with a score of Intermediate

High or above on the ACTFL rating scale is required. Please see your advisor for additional certification requirements.

Minors	Code	Prescribed Methods Course	Additional Requirement	Praxis II ACTFL Content TEst Required
French	260-406	ES 366 (F) and ES 437 (Sp)	Only with F Lg major	WPT and OPI or OPIc

Program Learning Outcomes

Students completing this program will be expected to meet the following learning outcomes:

- Engage in interpersonal communication on a variety of topics of a personal, public, and professional nature.
- Understand and interpret written and spoken language and visual images on a variety of topics of a personal, public, and professional nature.
- Present information, concepts, and ideas to an audience of listeners or readers on a variety of topics of a personal, public, and professional nature.
- Demonstrate an awareness and knowledge of practices, products and perspectives related to the target culture(s) in spoken, written, and visual forms.
- Connect and integrate their language study with other disciplines and communities for academic and social purposes.
- Use critical and creative thinking to evaluate and address issues in local and global contexts.
- Demonstrate knowledge and appropriate use of current pedagogical issues and practices that are pertinent to the field of second language acquisition.

German Proficiency, Certificate

(Code 280-601)

The certificate program in **German Proficiency** provides students with practical language and cultural skills complementing majors and minors in all other disciplines. The array of courses strengthens the academic and professional prospects of students who wish to acquire some linguistic and intercultural competence relevant to the German-speaking world.

Code	Title	Credits
To complete the certificate, 15 credits beyond GERM 101 are required, including:		
GERM 102	Beginning German	4
GERM 201	Intermediate German I	4
GERM 202	Intermediate German II	4

Students may earn their remaining credits from any GERM upper division courses.

Program Learning Outcomes

Students completing this program will be expected to meet the following learning outcomes:

- Engage in interpersonal communication on a variety of topics of a personal, public, and professional nature.
- Understand and interpret written and spoken language and visual images on a variety of topics of a personal, public, and professional nature.
- Present information, concepts, and ideas to an audience of listeners or readers on a variety of topics of a personal, public, and professional nature.

- Demonstrate an awareness and knowledge of practices, products and perspectives related to the target culture(s) in spoken, written, and visual forms.
- Connect and integrate their language study with other disciplines and communities for academic and social purposes.

The desired benchmark for language proficiency is Intermediate Low or above on the ACTFL proficiency scale (<https://theglobalseal.com/actfl-language-proficiency-levels>).

German, Minor - Liberal Arts

Liberal Arts (Code 280-401)

Code	Title	Credits
A minimum of 24 semester credits, including 16 credits in core courses:		
GERM 101	Beginning German	4
GERM 102	Beginning German	4
GERM 201	Intermediate German I	4
GERM 202	Intermediate German II	4
Eight credits from the following:		
FLG 165	Amish in North America	3
GERM 313	Grammar Review and Composition	3
GERM 314	Oral Proficiency	3
GERM 315	German for Professional Communication	3
GERM 325	The German Sound System	3
GERM 358	Introduction to Translation	2
GERM 363	Modern Germany: Literature, History, Culture	3
GERM 491	Special Topics	1-3

Program Learning Outcomes

Students completing this program will be expected to meet the following learning outcomes:

- Engage in interpersonal communication on a variety of topics of a personal, public, and professional nature.
- Understand and interpret written and spoken language and visual images on a variety of topics of a personal, public, and professional nature.
- Present information, concepts, and ideas to an audience of listeners or readers on a variety of topics of a personal, public, and professional nature.
- Demonstrate an awareness and knowledge of practices, products and perspectives related to the target culture(s) in spoken, written, and visual forms.
- Connect and integrate their language study with other disciplines and communities for academic and social purposes.

The desired benchmark for language proficiency is Intermediate Mid or above on the ACTFL proficiency scale (<https://theglobalseal.com/actfl-language-proficiency-levels>).

Japanese, Minor

Liberal Arts (Code 270-401)

Code	Title	Credits
A minimum of 24 semester credits, including 16 credits in core courses:		
JAPN 101	Beginning Japanese I	4
JAPN 102	Beginning Japanese II	4
JAPN 201	Intermediate Japanese I	4
JAPN 202	Intermediate Japanese II	4
Eight credits from the following, of which a minimum of six credits must be at the 300 or 400 level:		
FLG 150	Foreign Civilization and Culture (when focusing on Japan)	
HIST 152	Modern East and Southeast Asia	
HIST 389	History of Japan	
JAPN 301	Advanced Japanese Language and Culture I	
JAPN 302	Advanced Japanese Language and Culture II	
RELS 312	Buddhism: Past and Present	
RELS 323	Chinese and Japanese Religions	
RELS 326	Asian Religious Philosophies	

Up to three credits of Directed Studies or Independent Study for projects focusing on Japan may be applied to the minor with approval from the minor advisor.

Other Special Topics courses focusing on Japan may be considered as elective courses with consultation and approval of the minor advisor.

Students are strongly encouraged to participate in the study abroad program in Japan. Course credit gained at the study abroad site may be used to fulfill part of the Japanese minor with approval of the minor advisor.

Program Learning Outcomes

Students completing this program will be expected to meet the following learning outcomes:

- Engage in interpersonal communication on a variety of topics of a personal, public, and professional nature.
- Understand and interpret written and spoken language and visual images on a variety of topics of a personal, public, and professional nature.
- Present information, concepts, and ideas to an audience of listeners or readers on a variety of topics of a personal, public, and professional nature.
- Demonstrate an awareness and knowledge of practices, products and perspectives related to the target culture(s) in spoken, written, and visual forms.
- Connect and integrate their language study with other disciplines and communities for academic and social purposes.

The desired benchmark for language proficiency is Novice High or above on the ACTFL proficiency scale (<https://theglobalseal.com/actfl-language-proficiency-levels>).

Spanish for Health Professions, Minor

Liberal Arts (Code 320-408)

Information for all Spanish Majors and Minors

All Spanish majors and minors in any of the emphases offered must complete an appropriate period of language immersion in residence in a country in which the language is spoken, or participate in an alternative language immersion experience that must receive departmental approval. The minimum time period for meeting the residence/immersion requirement is six weeks; however, the department recommends that students spend at least one semester abroad.

Students who pursue Spanish and Latin American and Latinx Studies liberal arts program combinations will need to earn at least 48 unique credits between any program combinations for purposes of meeting graduation requirements for first and second degree programs.

Code	Title	Credits
A minimum of 24 semester credits beyond SPAN 102, or 16 credits beyond SPAN 202, including:		
Core Requirements		
SPAN 301	Conversation and Composition I	4
SPAN 302	Conversation and Composition II	3
SPAN 420	Spanish for Health Professions	3
or SPAN 430	Topics in Spanish and Health	
LAS 222	Introduction to U.S. Latino History and Culture	3
or LAS 324	Latinx Health and Migration to the U.S.	
Choose one upper division Spanish elective course (SPAN 420 or SPAN 430 recommended if not used for core requirements).		3

Program Learning Outcomes

Students completing this program will be expected to meet the following learning outcomes:

- Engage in interpersonal communication on a variety of topics of a personal, public, and professional nature.
- Understand and interpret written and spoken language and visual images on a variety of topics of a personal, public, and professional nature.
- Present information, concepts, and ideas to an audience of listeners or readers on a variety of topics of a personal, public, and professional nature.
- Demonstrate an awareness and knowledge of practices, products and perspectives related to the target culture(s) in spoken, written, and visual forms.
- Connect and integrate their language study with other disciplines and communities for academic and social purposes.

The desired benchmark for language proficiency is Intermediate Mid or above on the ACTFL proficiency scale (<https://theglobalseal.com/actfl-language-proficiency-levels>).

Spanish Teaching, Major

Teaching (Code 321-200)

University Requirements

GRADUATION REQUIREMENTS FOR BACCALAUREATE DEGREE	
Credit Requirements	
Minimum total for graduation ¹	120
Upper division credits (courses numbered 300 and higher)	39

Core General Education	10 courses, 36 credits

Academic Concentrations	
Grade Point Requirements ²	
Total	2.00 average
Resident	2.00 average
Major	2.00 average
Minor	2.00 average
Certificate	2.00 average
University Residency Requirements	
Minimum total	30
Senior year	23
Major, Standard, upper division in residence	12
Major, Comprehensive, upper division in residence	21
Certificate	25 percent of credits

Procedures Required for Graduation	
Obtain admission to the degree program and/or the College offering it.	
Apply for graduation on CampS.	

¹ Certain programs exceed this minimum.
² See special requirements in each College.

Applicability of Credits Toward Graduation

Junior College or Two-Year College Credits. A maximum of 72 semester credits earned in a junior college or two-year college will be accepted as degree credits at UW-Eau Claire.

Extension Credits. Credits earned in credit outreach courses offered by UW-Eau Claire are treated as resident credits. Credits earned in extension courses offered by other units of the Universities of Wisconsin System are treated as transfer credits. All other (non-UW) extension and correspondence credits are normally limited to one-fourth of the total required for graduation from any curriculum.

WTCS Credits. A maximum of 72 semester credits earned in college parallel programs at Madison Area Technical College, Milwaukee Area Technical College, Nicolet Area Technical College, or Chippewa Valley Technical College may be accepted as degree credits at UW-Eau Claire. A set number of general education courses will be accepted from other technical schools. Occupational and technical courses may also be considered for transfer if the quality and content of the course work from the technical college is judged to be comparable to course work at UW-Eau Claire. Refer to the Transfer Credit Wizard (https://www.uwec.sis.wisconsin.edu/psp/eauprd-tb/EMPLOYEE/SA/c/EAU_SS_CUSTOM.EAU_TRNCRDWZ.GBL) or contact the UW-Eau Claire Admissions Office for information about the current transfer policy.

USAFI Credit. UW-Eau Claire will accept up to 32 semester credits for work done through the United States Armed Forces Institute, under the provision for non-UW correspondence credit (see Extension Credits above).

Activity Credit (band, chorus, drama, KINS 100-184 courses) Students may count toward graduation no more than one credit of KINS 110-184 courses. Students may count toward graduation no more than four credits earned in any single activity course and no more than 12 credits resulting from any combination of activity courses (excluding KINS 110-184 courses).

Other Restricted Credits. For other University restrictions, see the following: Cooperative Education; Credit by Examination; Satisfactory/Unsatisfactory Registration; Transfer of Credits. College or departmental restrictions may also be placed on Independent Study (399-499 courses), Directed Study (395-495), and other types of credits.

APPLICABILITY OF CREDITS TOWARD GRADUATION	Credit Restrictions
Satisfactory/Unsatisfactory	
Total degree credit	maximum 12
Major, Standard	maximum 1 course
Major, Comprehensive	maximum 2 courses
Minor	maximum 1 course
Credit by Examination	
Total degree credit	maximum ¼ of total
Major or minor	maximum ½ of total
Two-Year College Credits	
Total degree credit	maximum 72 credits
Activity credit (band, chorus, drama, KINS 100-184)	
Total KINS 100-184	maximum 1 credit
Total Band, chorus, drama	maximum 12 credits
Single course band, chorus, drama	maximum 4 credits
Extension credits	
UW-System	no maximum
Other extension/correspondence	maximum ¼ of total
USAFI	
USAFI	maximum 32 credits

Core General Education Requirements (CGER)

CGER Categories

Mathematics & Quantitative Reasoning (MQR) (http://catalog.uwec.edu/undergraduate/outcome-mqr/)	4 credit hours, 1 course min
Includes University Math Requirement ¹	
Communication & Literacy (CL) (http://catalog.uwec.edu/undergraduate/outcome-cl/)	8 credit hours, 2 course min (including CL-W)
Includes University Writing Requirement (CL-W) (http://catalog.uwec.edu/undergraduate/outcome-clw/) ²	
Natural Sciences & Wellness (NSW/NSWL) (http://catalog.uwec.edu/undergraduate/outcome-NSW/)	6 credit hours, 1 course min (NSW-Lab required)
Social & Behavioral Sciences (SBS) (https://catalog.uwec.edu/undergraduate/outcome-sbs/)	6 credit hours, 2 course min

Humanities & Arts (HA) (http://catalog.uwec.edu/undergraduate/outcome-ha/)	6 credit hours, 2 course min
Civics & Perspectives (CP) (http://catalog.uwec.edu/undergraduate/outcome-cp/)	6 credit hours, 2 course min

CGER Totals ³

Credits	minimum 36 credits
Courses	minimum 10 courses

¹ University Mathematics Requirement:

Students satisfy the University Mathematics Requirement in one of four ways:

- completing an approved university-level mathematics course (MQR) with a grade of C (not C-) or above
- achieving a suitable score on the UW Math Placement Test (<https://www.uwec.edu/academics/academic-support/advising/testing/placement-testing/>)
- achieving a suitable score on an exam such as the Advanced Placement Calculus or Advanced Placement Statistics exams
- achieving a suitable score on a Credit by Examination administered by the Department of Mathematics.

² University Writing Requirement:

Students satisfy the University Writing Requirement in one of four ways:

- completing a Blugold Seminar in Critical Reading and Writing course (WRIT 102 (<https://catalog.uwec.edu/search/?P=WRIT%20102>), WRIT 114 (<https://catalog.uwec.edu/search/?P=WRIT%20114>), WRIT 116 (<https://catalog.uwec.edu/search/?P=WRIT%20116>), WRIT 118 (<https://catalog.uwec.edu/search/?P=WRIT%20118>), or WRIT 120 (<https://catalog.uwec.edu/search/?P=WRIT%20120>)) with a grade of C (not C-) or above
- achieving a suitable score on the English Placement Test (<https://www.uwec.edu/academics/blugold-seminar/writ-courses-placement/>) (WPT ENGL)
- achieving a suitable score on an exam such as the Advanced Placement English Literature and Composition or Advanced Placement English Language and Composition exams
- achieving a suitable score on the University Writing Program Portfolio.

³ Completion via Placement Tests

- Writing: If the CL-W subcategory is satisfied through a placement test, the CGER Communication and Literacy requirement will be reduced from 8 credits (2 courses) to 3 credits (1 course).
- Mathematics: If the University Math Requirement is satisfied through a placement test, the CGER Mathematics & Quantitative Reasoning requirement will be considered fully met, replacing the 4-credit (1 course) requirement.
- Students must still complete 36 credits across 10 courses, with any remaining credits or courses eligible to be taken from any CGER category.

College Degree Requirements

College of Health and Human Sciences Requirements for Teacher Education Programs

1. Grade point requirements:

Abbreviation	Full Title
Resident	2.75 average
Total	2.75 average
Major	2.75 average
Minor (for certification only)	2.75 average

2. Residency requirements:

Abbreviation	Full Title
Minimum Total	30 credits
Senior Year	23 credits
Major, in upper division courses	12 credits
Comprehensive Major, in upper division courses	21 credits

3. Criteria and requirements for Admission to Education Program and Admission to the Professional Education Semester.
4. Specific requirements for programs offered in the College of Health and Human Sciences as outlined in department specific sections of this catalog.

Admission to Education Program

Admission to the Education Program

Students must apply for admission to the Education Program. Applications are due by October 1 for spring admission or March 1 for fall admission. To submit an application to an Education Program, students must satisfy all of the requirements listed below:

1. Approval by the appropriate department in the College of Health and Human Sciences.
2. Pre-education status.
3. Students must have attained at least Sophomore Status
4. Minimum total GPA of 2.5 or minimum resident GPA of 2.5. Admission is competitive; thus, the minimum GPA does not assure admission.
5. Completed the Core General Education Requirement (CGER) for Communication & Literacy-Writing with a C or better.
6. Completed the Core General Education Requirement (CGER) for Mathematics & Quantitative Reasoning with a C or better.
7. Good academic standing.
8. Complete an introductory education course with a field placement (SEIP 208, ES 212, or the equivalent) with a grade of C or better.

Specific majors may have additional department-level criteria. Consult with the department if needed.

Admission to Professional Education Semester (Student Teaching or Internship)

Admission to the Professional Education Semester

The "Professional Education Semester" is defined as the semester in which a student is enrolled in the field experience of student teaching or internship.

Filing Notice of Intent to Student Teach Applications: Information concerning the Notice of Intent to Student Teach will be advertised widely and posted across campus each semester with an associated due date. Students who plan to enter the Professional Education Semester during the fall semester of the next academic year must file a Notice of Intent to Student Teach with the Teacher Education Program office in the fall. Students who plan to enter

the Professional Education Semester during the spring semester of the next academic year must file a Notice of Intent to Student Teach with the Teacher Education Program office in the spring.

Students are encouraged to submit their Notice of Intent to Student Teach by the announced due date. Considerable time is required to process each notice—that is, to determine eligibility, to make arrangements with schools for an appropriate field experience assignment, and to allow for introductions, orientations, and, in some cases, interviews. Students who file on time will benefit by the careful consideration that can be given to their requests; the later a notice is received, the fewer the placement assignments and choices still available will be. Failure to file a Notice of Intent to Student Teach on time may result in a delay of the Professional Education Semester.

Transfer and Special Students: No transfer or special student can enter the Professional Education Semester until after a full semester of residence and after earning a minimum of 15 credits at UW-Eau Claire. Senior transfer students enrolling in September must file an application for admission to the professional semester by December 1 for the following fall.

Criteria for Admission:

1. Admitted to the appropriate Education Program.
2. Good academic standing, as defined in the catalog.
3. A minimum of 90 earned credits prior to start of Professional Education Semester.
4. Minimum total GPA of 2.75 or minimum resident GPA of 2.75.
5. Completion of the 30-hour Human Relations Fieldwork requirement.
6. Evidence of freedom from Tuberculosis via test conducted by Student Health Services.
7. Completion of required criminal background check.

For placements that start in the Fall semester, criteria for admission must be met by March 1 of the prior semester. For placements that start in the Spring semester, criteria for admission must be met by October 1 of the prior semester. For placements that start in the summer session, criteria for admission must be met by February 1 of the prior semester.

Licensure Requirements

Licensure to Teach

College of Health and Human Sciences graduates who desire to teach in Wisconsin, will apply for licensure using the WI Department of Public Instruction's (DPI) ELO (Electronic Licensing Online) by following all steps listed on the site including fingerprinting if applicable.

Upon completion of all program requirements and WI DPI teaching requirements, information will be forwarded to DPI verifying program completion, the completion of all required tests, and information on all certifications the teaching candidates are eligible for with licensure. Candidates will then apply for their Initial License.

It is recommended that graduates seeking licensure to teach in states other than Wisconsin request application forms and instructions from the state in which licensure is desired. Early inquiry is suggested as the certification requirements vary by state. In most cases, an official transcript of credits must accompany the completed application form; additional tests or coursework may be required. In general, candidates may be able to obtain licenses in other states; however, these licenses may be issued with stipulations. It is the student's responsibility to understand the licensing requirements of other

states. UW-Eau Claire programs are designed to meet the requirements in Wisconsin only.

Criteria for Recommendation for Licensure:

1. Completion of a baccalaureate degree.
2. Completion of an approved education major, minor, and/or certificate.
3. 2.75 or higher GPA in the major, minor, and/or certificate (if certifiable). All college level courses, except student teaching or internship are included when determining GPA for licensure.
4. Completion of student teaching or internship courses with an S.
5. Content area proficiency as demonstrated by earning a minimum 3.0 GPA in content courses OR via obtaining a passing score on the appropriate Praxis II. Candidates for licensure in Languages must obtain a passing score on the ACTFL written portion (WPT) and must pass the OPI/OPIc within three years prior to the start of student teaching or internship. All candidates seeking licensure must also earn a passing score on the FORT.

Major Requirements

Teaching (Code 321-200)

Students pursuing a degree that will allow them to be licensed in a K-12 setting complete courses in the content area(s) they plan to teach; one or more methods courses specific to the content area; Professional Education coursework focused on instructional methods, assessment of student learning, and curriculum and lesson planning; and ten credits of Student Teaching or Student Teaching Internship.

A student seeking K-12 licensure must complete the following requirements:

1. Earn a grade of C or higher in all content-area specific methods coursework and Professional Education coursework.
2. Earn a grade of S in student teaching or student teaching internship.
3. Earn a content area GPA of 3.0 or higher OR complete the appropriate Praxis II, ACTFL, or other exam specified by the Teacher Education Program with a passing grade.

Code	Title	Credits
SPANISH MAJOR REQUIREMENTS		36
This major requires a minimum of 36 credits beyond SPAN 102 or 28 credits beyond SPAN 202, including:		
Core Requirements		10
SPAN 301	Conversation and Composition I	4
SPAN 302	Conversation and Composition II	3
SPAN 405	Advanced Conversation	3

Students may earn their remaining credits from any 300 or 400-level SPAN courses, but must take a minimum of three credits at the 400 level.

Language Immersion Requirement: All Spanish teaching majors and minors must complete an appropriate period of language immersion in residence in a country in which the language is spoken, or participate in an alternative language immersion experience that must receive departmental approval. The minimum time period for meeting the residence/immersion requirements is six weeks; however, the department recommends that students spend at least one semester abroad.

PROFESSIONAL EDUCATION REQUIREMENTS		40
ES 212	Exploring Schooling K-12	2-3
ES 313	Curriculum, Instructional Methods, and Disciplinary Literacies in Grades K-12	3
ES 314	Collaboration, Engagement, and Assessment in Grades K-12	3
ES 366	World Language Methods for Secondary Teaching	2-3
ES 385	Social Foundations: Human Relations (CGER CP)	3
ES 437	World Language Methods for Early and Middle Childhood	2
ES 490	Historical, Legal, and Philosophical Foundations of Education	3
ES 497	Field Experience Seminar	2
ES 441 or ES 440	Student Teaching in K-12 Education Internship Teaching in K-12 Education	10
FLG 378	Second Language Acquisition Theory	3
PSYC 260	Educational Psychology (CGER SBS)	3
SEIP 300	Inclusive Practices for Secondary Educators	3

This major leads to licensure to teach Spanish in grades K-12. To receive departmental recommendation for student teaching/internship and certification/licensure, passing the OPI or OPIc with a score of Intermediate High or above on the ACTFL rating scale is required. Please see your advisor for additional certification requirements.

Program Learning Outcomes

Students completing this program will be expected to meet the following learning outcomes:

- Engage in interpersonal communication on a variety of topics of a personal, public, and professional nature.
- Understand and interpret written and spoken language and visual images on a variety of topics of a personal, public, and professional nature.
- Present information, concepts, and ideas to an audience of listeners or readers on a variety of topics of a personal, public, and professional nature.
- Demonstrate an awareness and knowledge of practices, products and perspectives related to the target culture(s) in spoken, written, and visual forms.
- Connect and integrate their language study with other disciplines and communities for academic and social purposes.
- Use critical and creative thinking to evaluate and address issues in local and global contexts.
- Demonstrate knowledge and appropriate use of current pedagogical issues and practices that are pertinent to the field of second language acquisition.

Spanish Teaching- Major (B.A.)

The following is a sample degree plan, based on the current catalog. It is based on the 120-credit graduation requirement and assumes no transferred credits, no requirements waived by placement tests, no courses taken in the summer or winter, no repeated courses, and no remedial courses that may be required. This sample degree plan is intended for first-year students entering UW-Eau Claire in the fall semester. Your own degree plan may differ depending on the course of study selected (second major, minor, etc.). UW-Eau Claire cannot guarantee all courses will be offered as shown but will provide a range

of courses that may enable prepared students to fulfill their requirements in a timely period. This sample degree plan is just a guide. Please consult your advisor, your degree audit, and the catalog to create your own degree plan. Note: In order to earn the required minimum of 120 credits for the degree in four years, you should plan to take 15 credits each semester or 30 credits each year.

To earn a degree, students must fulfill all University Graduation Requirements, including the Core General Education Requirements (CGER). CGER course work in the following sample degree plan uses abbreviations such as CGER CL, CGER HA, and CGER NSWL to represent the learning outcomes students will meet via completion of the course. Please click here for a description of the outcomes and requirements.

¹ Elective options include courses needed to fulfill CGER, minor, or certificate requirements.

² Students typically apply for Admission to the Education Program during the first semester of their third year.

³ Before student teaching, passing the OPI or OPIC with a score of Intermediate High or above on the ACTFL rating scale is required for both language education majors and minors. Please see your advisor for additional certification requirements.

RECOMMENDATIONS FOR HIGH IMPACT PRACTICES (HIPs) The University of Wisconsin-Eau Claire encourages all students to participate in High Impact Practices. There are many high-impact opportunities available. Talk to your academic advisor for more information about incorporating HIPs like Study Abroad (<https://studyabroad.apps.uwec.edu/>), Intercultural Immersion (<https://www.uwec.edu/immersion/>), Internship (<https://www.uwec.edu/offices-services/advising-retention-career-center/career-services/internship/job-searching-and>), and/or Student/Faculty Collaborative Research (<https://www.uwec.edu/offices-services/office-research-and-sponsored-programs/getting-involved-student-faculty-research>) into your time at UW-Eau Claire.

Core General Education Requirements (CGER)

Core General Education Requirements (CGER)

The Core General Education Requirements (CGER) includes a minimum of 10 courses across 6 categories. Students must complete a minimum of 36 credits in courses approved for the CGER Core.

- Mathematics & Quantitative Reasoning (MQR) - 4 credits, one course minimum
 - Includes the University Mathematics Requirement¹
- Communication & Literacy (CL) - 8 credits, two courses minimum

- Includes the University Writing Requirement (CL-W)²
- Natural Sciences & Wellness (NSW/NSWL) - 6 credits, one course minimum (NSW-Lab required)
- Social & Behavioral Sciences (SBS) - 6 credits, two courses minimum
- Humanities & Arts (HA) - 6 credits, two courses minimum
- Civics & Perspectives (CP) - 6 credits, two courses minimum

¹ University Mathematics Requirement:

Students satisfy the University Mathematics Requirement in one of four ways:

- completing an approved university-level mathematics course (MQR) with a grade of C (not C-) or above
- achieving a suitable score on the UW Math Placement Test (<https://www.uwec.edu/academics/academic-support/advising/testing/placement-testing/>)
- achieving a suitable score on an exam such as the Advanced Placement Calculus or Advanced Placement Statistics exams
- achieving a suitable score on a Credit by Examination administered by the Department of Mathematics.

² University Writing Requirement:

Students satisfy the University Writing Requirement in one of four ways:

- completing a Blugold Seminar in Critical Reading and Writing course (WRIT 102 (<https://catalog.uwec.edu/search/?P=WRIT%20102>), WRIT 114 (<https://catalog.uwec.edu/search/?P=WRIT%20114>), WRIT 116 (<https://catalog.uwec.edu/search/?P=WRIT%20116>), WRIT 118 (<https://catalog.uwec.edu/search/?P=WRIT%20118>), or WRIT 120 (<https://catalog.uwec.edu/search/?P=WRIT%20120>)) with a grade of C (not C-) or above
- achieving a suitable score on the English Placement Test (<https://www.uwec.edu/academics/blugold-seminar/writ-courses-placement/>) (WPT ENGL)
- achieving a suitable score on an exam such as the Advanced Placement English Literature and Composition or Advanced Placement English Language and Composition exams
- achieving a suitable score on the University Writing Program Portfolio.

Completion via Placement Test

- Writing: If the CL-W subcategory is satisfied through a placement test, the CGER Communication and Literacy requirement will be reduced from 8 credits (2 courses) to 3 credits (1 course).
- Mathematics: If the University Math Requirement is satisfied through a placement test, the CGER Mathematics & Quantitative Reasoning requirement will be considered fully met, replacing the 4-credit (1 course) requirement.
- Students must still complete 36 credits across 10 courses, with any remaining credits or courses eligible to be taken from any CGER category.

Major, Standard, upper division in residence	12
Major, Comprehensive, upper division in residence	21
Certificate	25 percent of credits

Procedures Required for Graduation

Obtain admission to the degree program and/or the College offering it.

Apply for graduation on CampS.

¹ Certain programs exceed this minimum.

² See special requirements in each College.

Applicability of Credits Toward Graduation

Junior College or Two-Year College Credits. A maximum of 72 semester credits earned in a junior college or two-year college will be accepted as degree credits at UW-Eau Claire.

Extension Credits. Credits earned in credit outreach courses offered by UW-Eau Claire are treated as resident credits. Credits earned in extension courses offered by other units of the Universities of Wisconsin System are treated as transfer credits. All other (non-UW) extension and correspondence credits are normally limited to one-fourth of the total required for graduation from any curriculum.

WTCS Credits. A maximum of 72 semester credits earned in college parallel programs at Madison Area Technical College, Milwaukee Area Technical College, Nicolet Area Technical College, or Chippewa Valley Technical College may be accepted as degree credits at UW-Eau Claire. A set number of general education courses will be accepted from other technical schools. Occupational and technical courses may also be considered for transfer if the quality and content of the course work from the technical college is judged to be comparable to course work at UW-Eau Claire. Refer to the Transfer Credit Wizard (https://www.uwec.sis.wisconsin.edu/psp/eauprd-tb/EMPLOYEE/SA/c/EAU_SS_CUSTOM.EAU_TRNCRDWZ.GBL) or contact the UW-Eau Claire Admissions Office for information about the current transfer policy.

USAFI Credit. UW-Eau Claire will accept up to 32 semester credits for work done through the United States Armed Forces Institute, under the provision for non-UW correspondence credit (see Extension Credits above).

Activity Credit (band, chorus, drama, KINS 100-184 courses) Students may count toward graduation no more than one credit of KINS 110-184 courses. Students may count toward graduation no more than four credits earned in any single activity course and no more than 12 credits resulting from any combination of activity courses (excluding KINS 110-184 courses).

Other Restricted Credits. For other University restrictions, see the following: Cooperative Education; Credit by Examination; Satisfactory/Unsatisfactory Registration; Transfer of Credits. College or departmental restrictions may also be placed on Independent Study (399-499 courses), Directed Study (395-495), and other types of credits.

APPLICABILITY OF CREDITS TOWARD GRADUATION	Credit Restrictions
Satisfactory/Unsatisfactory	
Total degree credit	maximum 12
Major, Standard	maximum 1 course
Major, Comprehensive	maximum 2 courses
Minor	maximum 1 course
Credit by Examination	
Total degree credit	maximum ¼ of total
Major or minor	maximum ½ of total
Two-Year College Credits	
Total degree credit	maximum 72 credits
Activity credit (band, chorus, drama, KINS 100-184)	
Total KINS 100-184	maximum 1 credit
Total Band, chorus, drama	maximum 12 credits
Single course band, chorus, drama	maximum 4 credits
Extension credits	
UW-System	no maximum
Other extension/correspondence	maximum ¼ of total
USAFI	
USAFI	maximum 32 credits

- Students must still complete 36 credits across 10 courses, with any remaining credits or courses eligible to be taken from any CGER category.

College Degree Requirements

College of Health and Human Sciences Requirements for Teacher Education Programs

1. Grade point requirements:

Abbreviation	Full Title
Resident	2.75 average
Total	2.75 average
Major	2.75 average
Minor (for certification only)	2.75 average

2. Residency requirements:

Abbreviation	Full Title
Minimum Total	30 credits
Senior Year	23 credits
Major, in upper division courses	12 credits
Comprehensive Major, in upper division courses	21 credits

- Criteria and requirements for Admission to Education Program and Admission to the Professional Education Semester.
- Specific requirements for programs offered in the College of Health and Human Sciences as outlined in department specific sections of this catalog.

Admission to Education Program

Admission to the Education Program

Students must apply for admission to the Education Program. Applications are due by October 1 for spring admission or March 1 for fall admission. To submit an application to an Education Program, students must satisfy all of the requirements listed below:

- Approval by the appropriate department in the College of Health and Human Sciences.
- Pre-education status.
- Students must have attained at least Sophomore Status
- Minimum total GPA of 2.5 or minimum resident GPA of 2.5. Admission is competitive; thus, the minimum GPA does not assure admission.
- Completed the Core General Education Requirement (CGER) for Communication & Literacy-Writing with a C or better.
- Completed the Core General Education Requirement (CGER) for Mathematics & Quantitative Reasoning with a C or better.
- Good academic standing.
- Complete an introductory education course with a field placement (SEIP 208, ES 212, or the equivalent) with a grade of C or better.

Specific majors may have additional department-level criteria. Consult with the department if needed.

Admission to Professional Education Semester (Student Teaching or Internship)

Admission to the Professional Education Semester

The "Professional Education Semester" is defined as the semester in which a student is enrolled in the field experience of student teaching or internship.

Filing Notice of Intent to Student Teach Applications: Information concerning the Notice of Intent to Student Teach will be advertised widely and posted across campus each semester with an associated due date. Students who plan to enter the Professional Education Semester during the fall semester of the next academic year must file a Notice of Intent to Student Teach with the Teacher Education Program office in the fall. Students who plan to enter

the Professional Education Semester during the spring semester of the next academic year must file a Notice of Intent to Student Teach with the Teacher Education Program office in the spring.

Students are encouraged to submit their Notice of Intent to Student Teach by the announced due date. Considerable time is required to process each notice—that is, to determine eligibility, to make arrangements with schools for an appropriate field experience assignment, and to allow for introductions, orientations, and, in some cases, interviews. Students who file on time will benefit by the careful consideration that can be given to their requests; the later a notice is received, the fewer the placement assignments and choices still available will be. Failure to file a Notice of Intent to Student Teach on time may result in a delay of the Professional Education Semester.

Transfer and Special Students: No transfer or special student can enter the Professional Education Semester until after a full semester of residence and after earning a minimum of 15 credits at UW-Eau Claire. Senior transfer students enrolling in September must file an application for admission to the professional semester by December 1 for the following fall.

Criteria for Admission:

- Admitted to the appropriate Education Program.
- Good academic standing, as defined in the catalog.
- A minimum of 90 earned credits prior to start of Professional Education Semester.
- Minimum total GPA of 2.75 or minimum resident GPA of 2.75.
- Completion of the 30-hour Human Relations Fieldwork requirement.
- Evidence of freedom from Tuberculosis via test conducted by Student Health Services.
- Completion of required criminal background check.

For placements that start in the Fall semester, criteria for admission must be met by March 1 of the prior semester. For placements that start in the Spring semester, criteria for admission must be met by October 1 of the prior semester. For placements that start in the summer session, criteria for admission must be met by February 1 of the prior semester.

Licensure Requirements

Licensure to Teach

College of Health and Human Sciences graduates who desire to teach in Wisconsin, will apply for licensure using the WI Department of Public Instruction's (DPI) ELO (Electronic Licensing Online) by following all steps listed on the site including fingerprinting if applicable.

Upon completion of all program requirements and WI DPI teaching requirements, information will be forwarded to DPI verifying program completion, the completion of all required tests, and information on all certifications the teaching candidates are eligible for with licensure. Candidates will then apply for their Initial License.

It is recommended that graduates seeking licensure to teach in states other than Wisconsin request application forms and instructions from the state in which licensure is desired. Early inquiry is suggested as the certification requirements vary by state. In most cases, an official transcript of credits must accompany the completed application form; additional tests or coursework may be required. In general, candidates may be able to obtain licenses in other states; however, these licenses may be issued with stipulations. It is the student's responsibility to understand the licensing requirements of other

states. UW-Eau Claire programs are designed to meet the requirements in Wisconsin only.

Criteria for Recommendation for Licensure:

1. Completion of a baccalaureate degree.
2. Completion of an approved education major, minor, and/or certificate.
3. 2.75 or higher GPA in the major, minor, and/or certificate (if certifiable). All college level courses, except student teaching or internship are included when determining GPA for licensure.
4. Completion of student teaching or internship courses with an S.
5. Content area proficiency as demonstrated by earning a minimum 3.0 GPA in content courses OR via obtaining a passing score on the appropriate Praxis II. Candidates for licensure in Languages must obtain a passing score on the ACTFL written portion (WPT) and must pass the OPI/OPIc within three years prior to the start of student teaching or internship. All candidates seeking licensure must also earn a passing score on the FORT.

Major Requirements

Teaching (Code 321-000)

Students pursuing a degree that will allow them to be licensed in a K-12 setting complete courses in the content area(s) they plan to teach; one or more methods courses specific to the content area; Professional Education coursework focused on instructional methods, assessment of student learning, and curriculum and lesson planning; and ten credits of Student Teaching or Student Teaching Internship.

A student seeking K-12 licensure must complete the following requirements:

1. Earn a grade of C or higher in all content-area specific methods coursework and Professional Education coursework.
2. Earn a grade of S in student teaching or student teaching internship.
3. Earn a content area GPA of 3.0 or higher OR complete the appropriate Praxis II, ACTFL, or other exam specified by the Teacher Education Program with a passing grade.

Code	Title	Credits
SPANISH, TESOL EMPHASIS, MAJOR REQUIREMENTS		
Spanish Core Requirements		36
A minimum of 36 semester credits beyond SPAN 102, or 28 semester credits beyond SPAN 202, including:		
SPAN 301	Conversation and Composition I	4
SPAN 302	Conversation and Composition II	3
SPAN 405	Advanced Conversation	3

Students may earn their remaining credits from any other SPAN upper division courses, but must take a minimum of three credits at the 400 level.

Language Immersion Requirement: All Spanish majors and minors must complete an appropriate period of language immersion in residence in a country in which the language is spoken, or participate in an alternative language immersion experience that must receive departmental approval. The minimum time period for meeting the residence/immersion requirements is six weeks; however, the department recommends that students spend at least one semester abroad.

TESOL Core Requirements		24
ENGL 221	Introductory English Linguistics	3
ES 366	World Language Methods for Secondary Teaching	2-3
ES 405	Teaching English to Speakers of Other Languages	3
ES 408	Methods of Teaching Content-Based EL	4
ES 437	World Language Methods for Early and Middle Childhood	2
FLG 378	Second Language Acquisition Theory	3
One additional SPAN course at the 300 or 400-level		1-3

Select one:

CJ 301	Intercultural Communication
ENGL 321	Topics in the Structure of English
ENGL 325	Topics in Language in Society

PROFESSIONAL EDUCATION REQUIREMENTS		32-33
ES 212	Exploring Schooling K-12	2-3
ES 313	Curriculum, Instructional Methods, and Disciplinary Literacies in Grades K-12	3
ES 314	Collaboration, Engagement, and Assessment in Grades K-12	3
ES 385	Social Foundations: Human Relations (CGER CP)	3
ES 441 or ES 440	Student Teaching in K-12 Education Internship Teaching in K-12 Education	10
ES 490	Historical, Legal, and Philosophical Foundations of Education	3
ES 497	Field Experience Seminar	2
PSYC 260	Educational Psychology (CGER SBS)	3
SEIP 300	Inclusive Practices for Secondary Educators	3

This major leads to licensure to teach Spanish in grades K-12. In order to receive departmental recommendation for student teaching/internship and certification/licensure, passing the OPI or OPIc with a score of Intermediate High or above on the ACTFL rating scale is required. To be endorsed for TESOL certification, a 3.0 Content Knowledge GPA in TESOL courses or a passing score of 153 on the Praxis II Content Exam is required.

Program Learning Outcomes

Students completing this program will be expected to meet the following learning outcomes:

- Demonstrate specialized field knowledge of second language acquisition and linguistic features of the language of instruction.
- Design curriculum, instruction, and assessment practices relating to the cognitive, linguistic, social, emotional development of k-12 language students.
- Incorporate assessment techniques focused on student learning such as performance assessments, formative assessments, and summative assessments.
- Explore various approaches to create an inclusive learning environment, recognizing the importance of diverse learners within the context of the school and community.

- Engage in critical reflection related to the teaching and learning of languages.
- Engage with research in the field to investigate pedagogical practices relevant to language teaching such as high-leverage teaching practices and content-based practices.

Spanish Teaching, TESOL Emphasis Comprehensive Major (B.A.)

The following is a sample degree plan, based on the current catalog. It is based on the 120-credit graduation requirement and assumes no transferred credits, no requirements waived by placement tests, no courses taken in the summer or winter, no repeated courses, and no remedial courses that may be required. This sample degree plan is intended for first-year students entering UW-Eau Claire in the fall semester. Your own degree plan may differ depending on the course of study selected (second major, minor, etc.). UW-Eau Claire cannot guarantee all courses will be offered as shown but will provide a range of courses that may enable prepared students to fulfill their requirements in a timely period. This sample degree plan is just a guide. Please consult your advisor, your degree audit, and the catalog to create your own degree plan. Note: In order to earn the required minimum of 120 credits for the degree in four years, you should plan to take 15 credits each semester or 30 credits each year.

To earn a degree, students must fulfill all University Graduation Requirements, including the Core General Education Requirements (CGER). CGER course work in the following sample degree plan uses abbreviations such as CGER CL, CGER HA, and CGER NSWL to represent the learning outcomes students will meet via completion of the course. Please click here for a description of the outcomes and requirements.

RECOMMENDATIONS FOR HIGH IMPACT PRACTICES (HIPs) The University of Wisconsin-Eau Claire encourages all students to participate in High Impact Practices. There are many high-impact opportunities available. Talk to your academic advisor for more information about incorporating HIPs like Study Abroad (<https://studyabroad.apps.uwec.edu/>), Intercultural Immersion (<https://www.uwec.edu/immersion/>), Internship (<https://www.uwec.edu/academics/academic-experience/internships>), and/or Student/Faculty Collaborative

Research (<https://www.uwec.edu/offices-services/office-research-and-sponsored-programs/getting-involved-student-faculty-research-1>) into your time at UW-Eau Claire.

Core General Education Requirements (CGER)

Core General Education Requirements (CGER)

The Core General Education Requirements (CGER) includes a minimum of 10 courses across 6 categories. Students must complete a minimum of 36 credits in courses approved for the CGER Core.

- Mathematics & Quantitative Reasoning (MQR) - 4 credits, one course minimum
 - Includes the University Mathematics Requirement¹
- Communication & Literacy (CL) - 8 credits, two courses minimum
 - Includes the University Writing Requirement (CL-W)²
- Natural Sciences & Wellness (NSW/NSWL) - 6 credits, one course minimum (NSW-Lab required)
- Social & Behavioral Sciences (SBS) - 6 credits, two courses minimum
- Humanities & Arts (HA) - 6 credits, two courses minimum
- Civics & Perspectives (CP) - 6 credits, two courses minimum

¹ University Mathematics Requirement:

Students satisfy the University Mathematics Requirement in one of four ways:

- completing an approved university-level mathematics course (MQR) with a grade of C (not C-) or above
- achieving a suitable score on the UW Math Placement Test (<https://www.uwec.edu/academics/academic-support/advising/testing/placement-testing/>)
- achieving a suitable score on an exam such as the Advanced Placement Calculus or Advanced Placement Statistics exams
- achieving a suitable score on a Credit by Examination administered by the Department of Mathematics.

² University Writing Requirement:

Students satisfy the University Writing Requirement in one of four ways:

- completing a Blugold Seminar in Critical Reading and Writing course (WRIT 102 (<https://catalog.uwec.edu/search/?P=WRIT%20102>), WRIT 114 (<https://catalog.uwec.edu/search/?P=WRIT%20114>), WRIT 116 (<https://catalog.uwec.edu/search/?P=WRIT%20116>), WRIT 118 (<https://catalog.uwec.edu/search/?P=WRIT%20118>), or WRIT 120 (<https://catalog.uwec.edu/search/?P=WRIT%20120>)) with a grade of C (not C-) or above
- achieving a suitable score on the English Placement Test (<https://www.uwec.edu/academics/blugold-seminar/writ-courses-placement/>) (WPT ENGL)
- achieving a suitable score on an exam such as the Advanced Placement English Literature and Composition or Advanced Placement English Language and Composition exams
- achieving a suitable score on the University Writing Program Portfolio.

Completion via Placement Test

- Writing: If the CL-W subcategory is satisfied through a placement test, the CGER Communication and Literacy requirement will be reduced from 8 credits (2 courses) to 3 credits (1 course).
- Mathematics: If the University Math Requirement is satisfied through a placement test, the CGER Mathematics & Quantitative Reasoning requirement will be considered fully met, replacing the 4-credit (1 course) requirement.

- Students must still complete 36 credits across 10 courses, with any remaining credits or courses eligible to be taken from any CGER category.

USAFI Credit. UW-Eau Claire will accept up to 32 semester credits for work done through the United States Armed Forces Institute, under the provision for non-UW correspondence credit (see Extension Credits above).

Activity Credit (band, chorus, drama, KINS 100-184 courses) Students may count toward graduation no more than one credit of KINS 110-184 courses. Students may count toward graduation no more than four credits earned in any single activity course and no more than 12 credits resulting from any combination of activity courses (excluding KINS 110-184 courses).

Other Restricted Credits. For other University restrictions, see the following: Cooperative Education; Credit by Examination; Satisfactory/Unsatisfactory Registration; Transfer of Credits. College or departmental restrictions may also be placed on Independent Study (399-499 courses), Directed Study (395-495), and other types of credits.

APPLICABILITY OF CREDITS TOWARD GRADUATION

	Credit Restrictions
Satisfactory/Unsatisfactory	
Total degree credit	maximum 12
Major, Standard	maximum 1 course
Major, Comprehensive	maximum 2 courses
Minor	maximum 1 course
Credit by Examination	
Total degree credit	maximum ¼ of total
Major or minor	maximum ½ of total
Two-Year College Credits	
Total degree credit	maximum 72 credits
Activity credit (band, chorus, drama, KINS 100-184)	
Total KINS 100-184	maximum 1 credit
Total Band, chorus, drama	maximum 12 credits
Single course band, chorus, drama	maximum 4 credits
Extension credits	
UW-System	no maximum
Other extension/correspondence	maximum ¼ of total
USAFI	
USAFI	maximum 32 credits

Core General Education Requirements (CGER)

CGER Categories

Mathematics & Quantitative Reasoning (MQR) (http://catalog.uwec.edu/undergraduate/outcome-mqr/)	4 credit hours, 1 course min
Includes University Math Requirement ¹	

Communication & Literacy (CL) (http://catalog.uwec.edu/undergraduate/outcome-cl/)	8 credit hours, 2 course min (including CL-W)
Includes University Writing Requirement (CL-W) (http://catalog.uwec.edu/undergraduate/outcome-clw/) ²	
Natural Sciences & Wellness (NSW/NSWL) (http://catalog.uwec.edu/undergraduate/outcome-NSW/)	6 credit hours, 1 course min (NSW-Lab required)
Social & Behavioral Sciences (SBS) (https://catalog.uwec.edu/undergraduate/outcome-sbs/)	6 credit hours, 2 course min
Humanities & Arts (HA) (http://catalog.uwec.edu/undergraduate/outcome-ha/)	6 credit hours, 2 course min
Civics & Perspectives (CP) (http://catalog.uwec.edu/undergraduate/outcome-cp/)	6 credit hours, 2 course min
CGER Totals ³	
Credits	minimum 36 credits
Courses	minimum 10 courses

¹ University Mathematics Requirement:

Students satisfy the University Mathematics Requirement in one of four ways:

- completing an approved university-level mathematics course (MQR) with a grade of C (not C-) or above
- achieving a suitable score on the UW Math Placement Test (<https://www.uwec.edu/academics/academic-support/advising/testing/placement-testing/>)
- achieving a suitable score on an exam such as the Advanced Placement Calculus or Advanced Placement Statistics exams
- achieving a suitable score on a Credit by Examination administered by the Department of Mathematics.

² University Writing Requirement:

Students satisfy the University Writing Requirement in one of four ways:

- completing a Blugold Seminar in Critical Reading and Writing course (WRIT 102 (<https://catalog.uwec.edu/search/?P=WRIT%20102>), WRIT 114 (<https://catalog.uwec.edu/search/?P=WRIT%20114>), WRIT 116 (<https://catalog.uwec.edu/search/?P=WRIT%20116>), WRIT 118 (<https://catalog.uwec.edu/search/?P=WRIT%20118>), or WRIT 120 (<https://catalog.uwec.edu/search/?P=WRIT%20120>)) with a grade of C (not C-) or above
- achieving a suitable score on the English Placement Test (<https://www.uwec.edu/academics/blugold-seminar/writ-courses-placement/>) (WPT ENGL)
- achieving a suitable score on an exam such as the Advanced Placement English Literature and Composition or Advanced Placement English Language and Composition exams
- achieving a suitable score on the University Writing Program Portfolio.

³ Completion via Placement Tests

- Writing: If the CL-W subcategory is satisfied through a placement test, the CGER Communication and Literacy requirement will be reduced from 8 credits (2 courses) to 3 credits (1 course).
- Mathematics: If the University Math Requirement is satisfied through a placement test, the CGER Mathematics & Quantitative Reasoning requirement will be considered fully met, replacing the 4-credit (1 course) requirement.

- Students must still complete 36 credits across 10 courses, with any remaining credits or courses eligible to be taken from any CGER category.

College Degree Requirements

Bachelor of Arts or Bachelor of Science Degree (B.A./B.S.)

University Graduation Requirements. All candidates for degrees must fulfill the requirements for credits, curriculum, GPA, and University residency as specified in the section of this catalog titled University Graduation Requirements.

College Graduation Requirements: Grade Point Averages. All candidates for degrees in the College of Arts and Sciences must earn minimum resident and total GPAs of 2.00 in the major, the minor, and the certificate. The resident and total GPAs for the major are computed using all attempted credits applicable to the major including those offered by departments other than the major department. The resident and total GPAs for the minor and the certificate are computed similarly.

Major-Minor and Major-Certificate Requirements. A standard major (a minimum of 36 credits) must be supplemented by a minor (a minimum of 24 credits) or by a certificate (12 to 18 credits) to meet graduation requirements for completing a first and second degree program. No minor or certificate is required with a Comprehensive Major (60 or more credits) or with two majors of 36 or more credits each.

Certain degree programs, which include Comprehensive Majors, may require more than the minimum of 120 credits for graduation.

Acceptable academic program combinations are determined at the college level. A major and a minor or a major and certificate or two majors (if available) may not be elected in the same department or program, except in the approved combinations listed here.

College Credits. Earn at least 90 credits in courses offered by the College of Arts and Sciences.

Bachelor of Arts Degree in the College of Arts and Sciences (B.A.)

Fulfillment of all University Graduation Requirements (which includes the Core General Education Requirements); all College-level degree requirements (major and minor/certificate emphases, GPAs, earning at least 90 credits in Arts and Sciences course work); second language competency at the 102 level. Second language competency may be met in one of two ways: (1) Demonstrate a level of second language competency that qualifies the student to enter the 201-level course in a second language. (2) Earn a grade of at least C (not C-) or a mark of S in a 102-level second language course (or AIS 112 or AIS 122 or SLHS 103).

Bachelor of Science Degree in the College of Arts and Sciences (B.S.)

Fulfillment of all University Graduation Requirements (which includes the Core General Education Requirements); all College-level degree requirements (major and minor/certificate emphases, GPAs, earning at least 90 credits in Arts and Sciences course work); mathematics competency at the MATH 111, MATH 112 or MATH 113 level. Mathematics competency can be met in one of three ways: (1) Achieve a score on the mathematics placement test that qualifies the student to enter MATH 114. (2) Earn a grade of at least C (not C-) or a mark of S in MATH 111, MATH 112, or MATH 113. (3) Achieve a satisfactory score on the MATH 112 competency test. This test may be attempted no more than two times.

Major Requirements

Liberal Arts (Code 320-201)

Information for all Spanish Majors and Minors

All Spanish majors and minors in any of the emphases offered must complete an appropriate period of language immersion in residence in a country in which the language is spoken, or participate in an alternative language immersion experience that must receive departmental approval. The minimum time period for meeting the residence/immersion requirement is six weeks; however, the department recommends that students spend at least one semester abroad.

Students who pursue Spanish and Latin American and Latinx Studies liberal arts program combinations will need to earn at least 48 unique credits between any program combinations for purposes of meeting graduation requirements for first and second degree programs.

Code	Title	Credits
Core Courses		
A minimum of 36 semester credits beyond SPAN 102, or 28 semester credits beyond SPAN 202, including:		
SPAN 301	Conversation and Composition I	4
SPAN 302	Conversation and Composition II	3
Students may earn their remaining credits from any other SPAN upper division courses, but must take a minimum of three credits at the 400 level.		

Code	Title	Credits
Interdisciplinary course		
In addition, students must take at least 3 credits from the following:		
ARTH/AIS 335	Ancient Art and Architecture of Mexico and Central America	3
ARTH/AIS 337	Art of Tawantinsuyo	3
AIS/ANTH 161	Introduction to Cultural Anthropology	3
ECON 327	The Economics of Power, Prejudice and Poverty	3
ENGL 321	Topics in the Structure of English	3
ENGL 397	Writing Center Theory & Practice	3
FLG 378	Second Language Acquisition Theory	3
GEOG/LAS 321	Geography of Latin America	3
HIST/LAS 172	Latin American History: Colonial to the Present	3
LAS 150	Introduction to Latin American and Latinx Studies	3
LAS 222	Introduction to U.S. Latino History and Culture	3
LAS 314	Music and Dance of Latin America	3
LAS 324	Latinx Health and Migration to the U.S.	3
MATH 107	Mathematics in Latin American Cultures	4
NRSG 389	Cross Cultural Health	3
PHIL 322	Philosophy of Language	3
POLS/LAS 319	Politics of Latin America	3
RELS/AIS 330	Indigenous Religions of the Americas	3

WGSS 422	Women's, Gender, and Sexuality Studies Advanced Travel Seminar (when offered as Women in Nicaragua)	1-6

NOTE: Students pursuing the Spanish, Liberal Arts major and the Bilingual-Bicultural Education certificate or the Community Education and Collaboration certificate to meet graduation requirements for completing a first and second degree program must earn a minimum of 48 unique credits between the major and the certificate.

The flexibility to choose from a variety of courses after those required in the core provides interested students with the opportunity to focus on Spanish for the professions, or Spanish linguistics if they so desire.

Program Learning Outcomes

Students completing this program will be expected to meet the following learning outcomes:

- Engage in interpersonal communication on a variety of topics of a personal, public, and professional nature.
- Understand and interpret written and spoken language and visual images on a variety of topics of a personal, public, and professional nature.
- Present information, concepts, and ideas to an audience of listeners or readers on a variety of topics of a personal, public, and professional nature.
- Demonstrate an awareness and knowledge of practices, products and perspectives related to the target culture(s) in spoken, written, and visual forms.
- Connect and integrate their language study with other disciplines and communities for academic and social purposes.
- Use critical and creative thinking to evaluate and address issues in local and global contexts.

The desired benchmark for language proficiency is Intermediate High or above on the ACTFL proficiency scale (<https://theglobalseal.com/actfl-language-proficiency-levels>).

Spanish, Major - Liberal Arts, B.A.

The following is a sample degree plan, based on the current catalog. It is based on the 120-credit graduation requirement and assumes no transferred credits, no requirements waived by placement tests, no courses taken in the summer or winter, no repeated courses, and no remedial courses that may be required. This sample degree plan is intended for first-year students entering UW-Eau Claire in the fall semester. Your own degree plan may differ depending on the course of study selected (second major, minor, etc.). UW-Eau Claire cannot guarantee all courses will be offered as shown, but will provide a range of courses that may enable prepared students to fulfill their requirements in a timely period. This sample degree plan is just a guide. Please consult your advisor, your degree audit, and the catalog to create your own degree plan. *Note:* In order to earn the required minimum of 120 credits for the degree in four years, you should plan to take 15 credits each semester or 30 credits each year.

To earn a degree, students must fulfill all University Graduation Requirements, including the Core General Education Requirements (CGER). CGER course work in the following sample degree plan uses abbreviations such as CGER CL, CGER HA, and CGER NSWL to represent the learning outcomes students will meet via completion of the course. Please click here for a description of the outcomes and requirements.

Students in this major have the option to pursue either a Bachelor of Arts (B.A.) or a Bachelor of Science (B.S.) degree. The degrees are distinguished by

second language competency for the B.A. and a higher level of mathematics competency for the B.S.

- a Suggested Humanities & Arts electives: ARTH 335/AIS 335 or ARTH 337/AIS 337.
- b Suggested LAS Elective: MATH 107 Mathematics in Latin American Cultures (offered in Spring).
- c In addition, the student must take one course from the following list: ARTH 335/AIS 335, ARTH 337/AIS 337, AIS 161/ANTH 161, ENGL 321, ENGL 397, GEOG 321/LAS 321, LAS 222, LAS 314, MATH 107, NRSB 389, PHIL 322, POLS 319/LAS 319, RELS 330/AIS 330, or WGSS 422 (when offered as Women in Nicaragua).
- d Electives need to be carefully selected to ensure that a student's degree comprises at least 39 credits of upper division courses (300-400 level). While students are encouraged to take additional courses in Spanish, electives can be selected from any discipline as long as the student meets the course prerequisites.

PROGRAM INFORMATION

Students who pursue Spanish and Latin American and Latinx Studies liberal arts program combinations will need to earn at least 48 unique credits between any program combinations for purposes of meeting graduation requirements for first and second degree programs.

The flexibility in the Spanish Major to choose from a variety of courses after those required in the core provides interested students with the opportunity to focus on Spanish for the professions, or Spanish linguistics if they so desire.

All Spanish majors and minors in any of the emphases offered must complete an appropriate period of language immersion in residence in a country in which the language is spoken, or participate in an alternative language immersion experience that must receive departmental approval. The minimum time period for meeting the residence/immersion requirement is six weeks; however, the department recommends that students spend at least one semester abroad.

RECOMMENDATIONS FOR HIGH IMPACT PRACTICES (HIPs)

The University of Wisconsin-Eau Claire encourages all students to participate in High Impact Practices. The following information identifies any specific recommendations that faculty in this major have concerning which HIPs might be most beneficial to students, and any recommendations about when those HIPs best fit into the degree plan. Students should also consult their faculty advisor for information on HIPs. There are many additional high impact opportunities available. Talk to your academic advisor for more information about incorporating HIPs like Study Abroad (<https://studyabroad.apps.uwec.edu/>), Intercultural Immersion (<https://www.uwec.edu/immersion/>), Internship (<https://www.uwec.edu/offices-services/advising-retention-career-center/career-services/internship/job-searching-and/>), and/or Student/Faculty Collaborative Research (<https://www.uwec.edu/offices-services/office-research-and-sponsored-programs/getting-involved-student-faculty-research/>) into your time at UW-Eau Claire.

For language-specific study abroad opportunities, see above and also faculty advisor, ARCC advisor, and the Center for International Education.

Core General Education Requirements (CGER)

Core General Education Requirements (CGER)

The Core General Education Requirements (CGER) includes a minimum of 10 courses across 6 categories. Students must complete a minimum of 36 credits in courses approved for the CGER Core.

- Mathematics & Quantitative Reasoning (MQR) - 4 credits, one course minimum
 - Includes the University Mathematics Requirement¹
- Communication & Literacy (CL) - 8 credits, two courses minimum
 - Includes the University Writing Requirement (CL-W)²
- Natural Sciences & Wellness (NSW/NSWL) - 6 credits, one course minimum (NSW-Lab required)
- Social & Behavioral Sciences (SBS) - 6 credits, two courses minimum
- Humanities & Arts (HA) - 6 credits, two courses minimum
- Civics & Perspectives (CP) - 6 credits, two courses minimum

¹ University Mathematics Requirement:

Students satisfy the University Mathematics Requirement in one of four ways:

- completing an approved university-level mathematics course (MQR) with a grade of C (not C-) or above
- achieving a suitable score on the UW Math Placement Test (<https://www.uwec.edu/academics/academic-support/advising/testing/placement-testing/>)
- achieving a suitable score on an exam such as the Advanced Placement Calculus or Advanced Placement Statistics exams
- achieving a suitable score on a Credit by Examination administered by the Department of Mathematics.

² University Writing Requirement:

Students satisfy the University Writing Requirement in one of four ways:

- completing a Blugold Seminar in Critical Reading and Writing course (WRIT 102 (<https://catalog.uwec.edu/search/?P=WRIT%20102>), WRIT 114 (<https://catalog.uwec.edu/search/?P=WRIT%20114>), WRIT 116 (<https://catalog.uwec.edu/search/?P=WRIT%20116>), WRIT 118 (<https://catalog.uwec.edu/search/?P=WRIT%20118>), or WRIT 120 (<https://catalog.uwec.edu/search/?P=WRIT%20120>)) with a grade of C (not C-) or above
- achieving a suitable score on the English Placement Test (<https://www.uwec.edu/academics/blugold-seminar/writ-courses-placement/>) (WPT ENGL)
- achieving a suitable score on an exam such as the Advanced Placement English Literature and Composition or Advanced Placement English Language and Composition exams
- achieving a suitable score on the University Writing Program Portfolio.

Completion via Placement Test

- Writing: If the CL-W subcategory is satisfied through a placement test, the CGER Communication and Literacy requirement will be reduced from 8 credits (2 courses) to 3 credits (1 course).
- Mathematics: If the University Math Requirement is satisfied through a placement test, the CGER Mathematics & Quantitative Reasoning requirement will be considered fully met, replacing the 4-credit (1 course) requirement.
- Students must still complete 36 credits across 10 courses, with any remaining credits or courses eligible to be taken from any CGER category.

Spanish, Minor - Liberal Arts

Liberal Arts (Code 320-401)

Information for all Spanish Majors and Minors

All Spanish majors and minors in any of the emphases offered must complete an appropriate period of language immersion in residence in a country in which the language is spoken, or participate in an alternative language immersion experience that must receive departmental approval. The minimum time period for meeting the residence/immersion requirement is six weeks; however, the department recommends that students spend at least one semester abroad.

Students who pursue Spanish and Latin American and Latinx Studies liberal arts program combinations will need to earn at least 48 unique credits between any program combinations for purposes of meeting graduation requirements for first and second degree programs.

Code	Title	Credits
A minimum of 24 semester credits beyond SPAN 102, or 16 credits beyond SPAN 202, including:		
SPAN 301	Conversation and Composition I	4
SPAN 302	Conversation and Composition II	3
Students may earn their remaining credits from any other SPAN upper division courses.		

Program Learning Outcomes

Students completing this program will be expected to meet the following learning outcomes:

- Engage in interpersonal communication on a variety of topics of a personal, public, and professional nature.
- Understand and interpret written and spoken language and visual images on a variety of topics of a personal, public, and professional nature.
- Present information, concepts, and ideas to an audience of listeners or readers on a variety of topics of a personal, public, and professional nature.
- Demonstrate an awareness and knowledge of practices, products and perspectives related to the target culture(s) in spoken, written, and visual forms.
- Connect and integrate their language study with other disciplines and communities for academic and social purposes.

The desired benchmark for language proficiency is Intermediate Mid or above on the ACTFL proficiency scale (<https://theglobalseal.com/actfl-language-proficiency-levels>).

Spanish, Minor - Teaching - EC-A

Early Childhood/Adolescence, Teaching (Code 320-407)

Information for all Spanish Majors and Minors

All Spanish majors and minors in any of the emphases offered must complete an appropriate period of language immersion in residence in a country in which the language is spoken, or participate in an alternative language immersion experience that must be approved by the Spanish section. The minimum time period for meeting the residence/immersion requirement is six weeks; however, the Spanish section recommends that students spend at least one semester abroad.

Code	Title	Credits
A minimum of 24 semester credits beyond SPAN 102, or 16 semester credits beyond SPAN 202, including:		
SPAN 301	Conversation and Composition I	4
SPAN 302	Conversation and Composition II	3
SPAN 405	Advanced Conversation	3
Students may earn at least 6 credits from any other SPAN upper division courses.		
Additional required courses		7-8
FLG 378	Second Language Acquisition Theory	3
ES 366	World Language Methods for Secondary Teaching	2-3
ES 437	World Language Methods for Early and Middle Childhood	2
Language Immersion Requirement ¹		

¹ **Language Immersion Requirement:** All majors and minors who wish to be certified to teach a language other than English must complete an appropriate period of language immersion in residence in a country in which the language is spoken, or provide an alternative language immersion experience that must be approved by the Department. The minimum time period for meeting the residence/immersion requirement is six weeks. However, the Department of Languages recommends that students spend at least one semester abroad.

Minors	Code	Prescribed Methods Course	Additional Requirement	Praxis II ACTFL Content TEst Required
Spanish	320-407	ES 366 (F) and ES 437 (Sp)	Only with F Lg major	WPT and OPI or OPIc

Program Learning Outcomes

Students completing this program will be expected to meet the following learning outcomes:

- Engage in interpersonal communication on a variety of topics of a personal, public, and professional nature.
- Understand and interpret written and spoken language and visual images on a variety of topics of a personal, public, and professional nature.
- Present information, concepts, and ideas to an audience of listeners or readers on a variety of topics of a personal, public, and professional nature.
- Demonstrate an awareness and knowledge of practices, products and perspectives related to the target culture(s) in spoken, written, and visual forms.
- Connect and integrate their language study with other disciplines and communities for academic and social purposes.
- Use critical and creative thinking to evaluate and address issues in local and global contexts.

- Demonstrate knowledge and appropriate use of current pedagogical issues and practices that are pertinent to the field of second language acquisition.

Latin American and Latinx Studies

Hibbard Humanities Hall 384

715-836-3212

Program Website (<https://www.uwec.edu/academics/college-arts-sciences/departments-programs/latin-american-latinx-studies/>)

The globally interdependent nature of today's world makes second language proficiency and cross-cultural understanding valuable assets for students in any field. Students in the Latin American and Latinx Studies (LAS) Program can choose between two majors, a minor, and a certificate. The language emphasis major provides students the opportunity to develop a high proficiency in Spanish through the LAS core language courses and (typically) a six week minimum language immersion requirement in a Spanish speaking country of Latin America, though other possibilities exist which you can discuss with an LAS advisor. The culture and society emphasis -- which requires Spanish courses only through SPAN 202 and (typically) a study abroad experience of only three weeks or an approved immersion of any duration in a number of countries of the Americas, including some non-Spanish speaking ones -- is geared towards students who are less interested in developing a high proficiency in Spanish or who already have that proficiency but still want to learn more about Latin America and its people, including Latinx/Hispanic people in the US. Other immersion possibilities exist for that major as well which you can discuss with an LAS advisor.

Both majors allow students to gain in-depth knowledge and understanding of Latin America and the Latinx/Hispanic communities in the United States through an array of courses from multiple disciplines including geography, art history, religion, history, anthropology, public and environmental health, environmental studies, sociology, nursing, and women's, gender, and sexuality studies.

The LAS minor, like the LAS culture and society emphasis major, requires Spanish courses only through SPAN 202 and (typically) a study abroad experience of only three weeks or an approved immersion of any duration in a number of countries of the Americas, including some non-Spanish speaking ones. Other immersion possibilities exist for the majors and the minor as well which you can discuss with an LAS advisor. The LAS certificate has no immersion requirement.

The significant Latinx/Hispanic population in the United States and the increasing social, cultural, and economic interconnectedness between the countries and peoples of the hemisphere will increase the demand for professionals who can communicate in the Spanish language and are prepared to work with the Latinx/Hispanic communities in the US and the people of Latin America. To mention just a few options, the Latin American and Latinx Studies majors, minor, and certificate are well suited for students who plan to:

1. pursue careers which require residence in or knowledge of Latin America (e.g., in business, journalism, government, NGOs, and others);
2. teach Spanish in Early Childhood through Adolescence classrooms (combining a Spanish Teaching major with an LAS major); and/or
3. pursue graduate work in Latin American and/or Latinx studies, or other disciplines where a Latin American and/or Latinx specialization would be helpful (e.g., Latin American and Latinx/Hispanic literature, political science, economics, history, art history, to name just a few).

Note: For program combinations involving Latin American and Latinx Studies programs, students must earn a minimum of 48 unique credits for purposes of meeting graduation requirements for first and second degree programs.

Application for Admission to Latin American and Latinx Studies Internships

Applying for Admission to the Internship: Visit the Latin American and Latinx Studies Program's (<https://www.uwec.edu/academics/college-arts-sciences/departments-programs/latin-american-latinx-studies/explore-opportunities/internships/>) internships web page or talk to your advisor or the LAS Program Director to learn about the application requirements and procedures for internships. Students planning to enroll in LAS 488/LAS 688: Internship, or LAS 498/LAS 698: Internship with Language Immersion, in the summer or fall should apply by the priority deadline of February 1 of the year of internship for summer or fall enrollment. October 1 is the priority deadline for winterim or spring enrollment.

Latin American and Latinx Honors Program

The Latin American and Latinx Studies (LAS) Honors Program is intended for students pursuing either the LAS Language emphasis or the LAS Culture and Society major -- including majors under various different names prior to the 2020-21 UW - Eau Claire catalog -- who have demonstrated excellence in their coursework, and who want to experience the study of topics relevant to the major outside the classroom. The high impact practices required for honors in the LAS program align with such experiences.

The LAS Honors Program is not equivalent to the University Honors Program.

They are two different programs and, because they are distinct, students should review the requirements of each with care.

Students who pursue the LAS Honors Program do not have to be part of the University Honors Program.

Students in the University Honors Program can also apply to be part of the LAS Honors Program.

Eligibility: LAS majors who have a major GPA of 3.00 or higher. Completion of LAS 150 and LAS 222 is required before applying to the Honors program, whether doing the LAS Language emphasis major or the LAS Culture and Society emphasis major.

Application: An application must be submitted to the LAS program via an e-form. The e-form may be accessed by going to the main Latin American and Latinx Studies web page (<https://www.uwec.edu/academics/college-arts-sciences/departments-programs/latin-american-latinx-studies/academic-offerings/latin-american-latinx-honors-program/>). The e-form (<https://uwec.bplogix.net/form.aspx?pid=d6b4de7a-a68b-41af-97f5-ecc275ef7d2d&formid=2edc529d-6fae-4fae-95f3-ceb81d024bf5&nohome=0&completepageprompt=0&completepage=&completetext=&%20click%20the%20link%20below%20to%20continue>) will ask that you identify an LAS faculty or affiliate faculty/IAS member to serve as a reference. The application must be submitted prior to the student's last two semesters of study. That being said, students are encouraged to apply after completing LAS 150 and LAS 222, but no later than their final two semesters.

Requirements: At graduation, the student must have a major GPA of 3.00 or higher. In addition, the student must submit evidence that two of the options from the list below have been satisfactorily completed at a standard of excellence deserving of a recognition in LAS Honors.

With the exception of the OPI proficiency test, students may do two of any of the other given options to meet the LAS Honors Program requirements if their projects are distinct. For example, a student could conduct two separate faculty/student collaborative research projects with the same or different LAS

faculty or affiliate faculty/IAS member(s) or, with approval from the LAS Program Director, with faculty from departments or programs outside of and not formally affiliated with the LAS program.

Students that select OPI proficiency as one of the options to fulfill one of their requirements must complete work in a different category for the second option.

Students pursuing Honors in both Spanish and LAS can do so, but must complete different projects for each one (completing four different projects overall).

1. A faculty/student collaborative research project with an LAS faculty or affiliate faculty/IAS member(s) or, with approval from the LAS Program Director, with faculty or affiliate faculty/IAS member(s) from departments or programs outside of and not formally affiliated with the LAS program. In special circumstances approved by the LAS Director, certain independent studies can be counted for this requirement.

2. Advanced Low or higher on an official ACTFL Oral Proficiency Interview. This applies to both LAS Language emphasis and LAS Culture and Society majors.

3. An off-campus presentation at a conference on a topic related to the major.

4. Completion of an LAS related internship approved by an LAS faculty or affiliate faculty/IAS member(s).

5. Submission of a publication-worthy manuscript to a journal related to the major.

6. Completion of application to the U.S. Fulbright program (or other similar prestigious grants or awards with approval from the LAS Director). Similar prestigious grants or awards would have to have some relation to the major, take place in a Latin American country, or have to deal with an issue related to Latinx populations in the US or elsewhere.

7. Certification as an interpreter by the State of Wisconsin. This applies to both LAS Language emphasis and LAS Culture and Society majors. This requirement can be extended to other bodies providing other kinds of certifications for other types of interpreting (medical, etc.).

8. Completion of the UW - Eau Claire Peace Corps Certificate requirements.

Optional Concentrations

Students interested in developing an expertise in a particular substantive area can choose to take courses in the following areas of expertise. Optional concentrations should consist of a minimum of 12 credits.

First Nations

AIS 444	Indigenous Theory and Methodologies	3
ARTH/AIS 335	Ancient Art and Architecture of Mexico and Central America	3
ARTH/AIS 337	Art of Tawantinsuyo	3
HIST/LAS 172	Latin American History: Colonial to the Present	3
MATH 107	Mathematics in Latin American Cultures	4
RELS/AIS 330	Indigenous Religions of the Americas	3
WGSS 315	Women of Color Feminisms	3

Development

AIS 444	Indigenous Theory and Methodologies	3
GEOG 111	Planet Earth: Human Geography	3

GEOG 178	Planet Earth: Conservation of the Environment	3
GEOG/LAS 321	Geography of Latin America	3

Faculty

Kati Barahona-López, Ph.D. (Program Director)
Gerardo Licón, Ph.D.

Majors

- Major: Latin American and Latinx Studies, Language Emphasis, Liberal Arts - B.A./B.S.
- Major: Latin American and Latinx Studies, Culture and Society Emphasis, Liberal Arts - B.A./B.S.

Minors

- Minor: Latin American and Latinx Studies, Liberal Arts

Certificates

- Certificate: Latin American and Latinx Studies

Latin American and Latinx Studies, Certificate

Liberal Arts (Code 341-601)

For advising, contact the Latin American and Latinx Studies Program.

The **Latin American and Latinx Studies Certificate** is intended to provide students in any field of study with the opportunity to learn more about Latin America and its peoples without requiring either knowledge of the language nor immersion time in a Latin American country. The certificate can be particularly useful for students in fields which may bring them into contact with people of Latin American origin or descent living in the US, such as education, nursing, and social work, among others. The Certificate may also interest Spanish majors and minors who have studied in Spain and don't have the ability to do an immersion in a Latin American country, but would nonetheless benefit from learning more about Latin America and Latinx/Hispanic communities in the U.S., their history, and their culture, as well as heritage speakers of Spanish who might not be interested in formally pursuing the study of the Spanish language, but do want to learn more about Latin America and Latin American communities in the U.S.

Code	Title	Credits
12 credits required¹		
Core courses:		
LAS 150	Introduction to Latin American and Latinx Studies	3

WGSS 422	Women's, Gender, and Sexuality Studies Advanced Travel Seminar (when offered as Women in Nicaragua)

¹ or equivalent courses offered in the study abroad programs. Also, Honors courses focused on Latin American and/or Latinx/Hispanic related topics may be counted as an LAS elective; please consult with an LAS advisor in a timely manner for more information about these options.

² LAS majors and minors can count a maximum of six credits in LAS 397 towards their major or minor; LAS certificate students can count a maximum of three credits in LAS 397 towards their certificate.

³ Only three credits from LAS 488 and three credits from LAS 498 (for a total of six total from internships) will count toward LAS majors, minors, or certificates.

Note: Courses cannot be counted in both the major and the certificate program for purposes of meeting graduation requirements for first and second degree programs.

Program Learning Outcomes

Students completing this program will be expected to meet the following learning outcomes:

- Describe the diverse cultures, modes of communication, environments, and/or systems of knowledge and values as they pertain to Latin America, the Caribbean, and/or Latinx/Hispanics in the United States.
- Explain global relationships of power, acknowledging multiple perspectives as they pertain to Latin America, the Caribbean, and/or Latinx/Hispanics in the United States.
- Articulate how individual and/or collective decisions have global implications and appraise the need for personal and/or collective responsibility in creating more just global practices.

Liberal Arts (Code 341-202)

University Requirements

GRADUATION REQUIREMENTS FOR BACCALAUREATE DEGREE

Credit Requirements	
Minimum total for graduation ¹	120
Upper division credits (courses numbered 300 and higher)	39
Core General Education	10 courses, 36 credits

Academic Concentrations

Grade Point Requirements ²

Total	2.00 average
Resident	2.00 average
Major	2.00 average
Minor	2.00 average
Certificate	2.00 average

University Residency Requirements

Minimum total	30
Senior year	23
Major, Standard, upper division in residence	12
Major, Comprehensive, upper division in residence	21

Certificate	25 percent of credits

Procedures Required for Graduation

Obtain admission to the degree program and/or the College offering it.

Apply for graduation on CampS.

¹ Certain programs exceed this minimum.

² See special requirements in each College.

Applicability of Credits Toward Graduation

Junior College or Two-Year College Credits. A maximum of 72 semester credits earned in a junior college or two-year college will be accepted as degree credits at UW-Eau Claire.

Extension Credits. Credits earned in credit outreach courses offered by UW-Eau Claire are treated as resident credits. Credits earned in extension courses offered by other units of the Universities of Wisconsin System are treated as transfer credits. All other (non-UW) extension and correspondence credits are normally limited to one-fourth of the total required for graduation from any curriculum.

WTCS Credits. A maximum of 72 semester credits earned in college parallel programs at Madison Area Technical College, Milwaukee Area Technical College, Nicolet Area Technical College, or Chippewa Valley Technical College may be accepted as degree credits at UW-Eau Claire. A set number of general education courses will be accepted from other technical schools. Occupational and technical courses may also be considered for transfer if the quality and content of the course work from the technical college is judged to be comparable to course work at UW-Eau Claire. Refer to the Transfer Credit Wizard (https://www.uwec.sis.wisconsin.edu/psp/eauprd-tb/EMPLOYEE/SA/c/EAU_SS_CUSTOM.EAU_TRNCRDWZ.GBL) or contact the UW-Eau Claire Admissions Office for information about the current transfer policy.

USAFI Credit. UW-Eau Claire will accept up to 32 semester credits for work done through the United States Armed Forces Institute, under the provision for non-UW correspondence credit (see Extension Credits above).

Activity Credit (band, chorus, drama, KINS 100-184 courses) Students may count toward graduation no more than one credit of KINS 110-184 courses. Students may count toward graduation no more than four credits earned in any single activity course and no more than 12 credits resulting from any combination of activity courses (excluding KINS 110-184 courses).

Other Restricted Credits. For other University restrictions, see the following: Cooperative Education; Credit by Examination; Satisfactory/Unsatisfactory Registration; Transfer of Credits. College or departmental restrictions may also be placed on Independent Study (399-499 courses), Directed Study (395-495), and other types of credits.

APPLICABILITY OF CREDITS TOWARD GRADUATION	
	Credit Restrictions
Satisfactory/Unsatisfactory	
Total degree credit	maximum 12
Major, Standard	maximum 1 course
Major, Comprehensive	maximum 2 courses
Minor	maximum 1 course

Credit by Examination

Total degree credit	maximum ¼ of total
Major or minor	maximum ½ of total

Two-Year College Credits

Total degree credit	maximum 72 credits

Activity credit (band, chorus, drama, KINS 100-184)

Total KINS 100-184	maximum 1 credit

Total Band, chorus, drama	maximum 12 credits

Single course band, chorus, drama	maximum 4 credits

Extension credits

UW-System	no maximum
Other extension/correspondence	maximum ¼ of total

USAFI

USAFI	maximum 32 credits

Core General Education Requirements (CGER)**CGER Categories**

Mathematics & Quantitative Reasoning (MQR) (http://catalog.uwec.edu/undergraduate/outcome-mqr/)	4 credit hours, 1 course min
Includes University Math Requirement ¹	

Communication & Literacy (CL) (http://catalog.uwec.edu/undergraduate/outcome-cl/)	8 credit hours, 2 course min (including CL-W)

Includes University Writing Requirement (CL-W) (<http://catalog.uwec.edu/undergraduate/outcome-clw/>) ²

Natural Sciences & Wellness (NSW/NSWL) (http://catalog.uwec.edu/undergraduate/outcome-NSW/)	6 credit hours, 1 course min (NSW-Lab required)

Social & Behavioral Sciences (SBS) (https://catalog.uwec.edu/undergraduate/outcome-sbs/)	6 credit hours, 2 course min

Humanities & Arts (HA) (http://catalog.uwec.edu/undergraduate/outcome-ha/)	6 credit hours, 2 course min

Civics & Perspectives (CP) (http://catalog.uwec.edu/undergraduate/outcome-cp/)	6 credit hours, 2 course min

CGER Totals ³

Credits	minimum 36 credits
Courses	minimum 10 courses

¹ University Mathematics Requirement:

- Students satisfy the University Mathematics Requirement in one of four ways:
- completing an approved university-level mathematics course (MQR) with a grade of C (not C-) or above

- achieving a suitable score on the UW Math Placement Test (<https://www.uwec.edu/academics/academic-support/advising/testing/placement-testing/>)
- achieving a suitable score on an exam such as the Advanced Placement Calculus or Advanced Placement Statistics exams
- achieving a suitable score on a Credit by Examination administered by the Department of Mathematics.

² University Writing Requirement:

Students satisfy the University Writing Requirement in one of four ways:

- completing a Blugold Seminar in Critical Reading and Writing course (WRIT 102 (<https://catalog.uwec.edu/search/?P=WRIT%20102>), WRIT 114 (<https://catalog.uwec.edu/search/?P=WRIT%20114>), WRIT 116 (<https://catalog.uwec.edu/search/?P=WRIT%20116>), WRIT 118 (<https://catalog.uwec.edu/search/?P=WRIT%20118>), or WRIT 120 (<https://catalog.uwec.edu/search/?P=WRIT%20120>)) with a grade of C (not C-) or above
- achieving a suitable score on the English Placement Test (<https://www.uwec.edu/academics/blugold-seminar/writ-courses-placement/>) (WPT ENGL)
- achieving a suitable score on an exam such as the Advanced Placement English Literature and Composition or Advanced Placement English Language and Composition exams
- achieving a suitable score on the University Writing Program Portfolio.

³ Completion via Placement Tests

- Writing: If the CL-W subcategory is satisfied through a placement test, the CGER Communication and Literacy requirement will be reduced from 8 credits (2 courses) to 3 credits (1 course).
- Mathematics: If the University Math Requirement is satisfied through a placement test, the CGER Mathematics & Quantitative Reasoning requirement will be considered fully met, replacing the 4-credit (1 course) requirement.
- Students must still complete 36 credits across 10 courses, with any remaining credits or courses eligible to be taken from any CGER category.

College Degree Requirements

Bachelor of Arts or Bachelor of Science Degree (B.A./B.S.)

University Graduation Requirements. All candidates for degrees must fulfill the requirements for credits, curriculum, GPA, and University residency as specified in the section of this catalog titled University Graduation Requirements.

College Graduation Requirements: Grade Point Averages. All candidates for degrees in the College of Arts and Sciences must earn minimum resident and total GPAs of 2.00 in the major, the minor, and the certificate. The resident and total GPAs for the major are computed using all attempted credits applicable to the major including those offered by departments other than the major department. The resident and total GPAs for the minor and the certificate are computed similarly.

Major-Minor and Major-Certificate Requirements. A standard major (a minimum of 36 credits) must be supplemented by a minor (a minimum of 24 credits) or by a certificate (12 to 18 credits) to meet graduation requirements for completing a first and second degree program. No minor or certificate is required with a Comprehensive Major (60 or more credits) or with two majors of 36 or more credits each.

Certain degree programs, which include Comprehensive Majors, may require more than the minimum of 120 credits for graduation.

Acceptable academic program combinations are determined at the college level. A major and a minor or a major and certificate or two majors (if available) may not be elected in the same department or program, except in the approved combinations listed here.

College Credits. Earn at least 90 credits in courses offered by the College of Arts and Sciences.

Bachelor of Arts Degree in the College of Arts and Sciences (B.A.)

Fulfillment of all University Graduation Requirements (which includes the Core General Education Requirements); all College-level degree requirements (major and minor/certificate emphases, GPAs, earning at least 90 credits in Arts and Sciences course work); second language competency at the 102 level. Second language competency may be met in one of two ways: (1) Demonstrate a level of second language competency that qualifies the student to enter the 201-level course in a second language. (2) Earn a grade of at least C (not C-) or a mark of S in a 102-level second language course (or AIS 112 or AIS 122 or SLHS 103).

Bachelor of Science Degree in the College of Arts and Sciences (B.S.)

Fulfillment of all University Graduation Requirements (which includes the Core General Education Requirements); all College-level degree requirements (major and minor/certificate emphases, GPAs, earning at least 90 credits in Arts and Sciences course work); mathematics competency at the MATH 111, MATH 112 or MATH 113 level. Mathematics competency can be met in one of three ways: (1) Achieve a score on the mathematics placement test that qualifies the student to enter MATH 114. (2) Earn a grade of at least C (not C-) or a mark of S in MATH 111, MATH 112, or MATH 113. (3) Achieve a satisfactory score on the MATH 112 competency test. This test may be attempted no more than two times.

Major Requirements

Liberal Arts (Code 341-202)

Code	Title	Credits
Minimum 36 semester credits including: ¹		
Required Courses-15 to 17 credits		
LAS 150	Introduction to Latin American and Latinx Studies	3
LAS 222	Introduction to U.S. Latino History and Culture	3
LAS 450	Capstone for Latin American and Latinx Studies (minimum one credit)	1-3
SPAN 201	Intermediate Spanish I	4
SPAN 202	Intermediate Spanish II	4
Electives-a minimum of 19 credits		
At least 12 credits from the following:		12
AIS 444	Indigenous Theory and Methodologies	
ANTH 315	Language in Culture and Society	
ARTH/AIS 335	Ancient Art and Architecture of Mexico and Central America	
ARTH/AIS 337	Art of Tawantinsuyo

SPAN 405	Advanced Conversation
SPAN 409	The Craft of Translation
SPAN 410	Advanced Grammar
SPAN/LAS 418	Spanish Sociolinguistics in the United States/Latin America
SPAN 420	Spanish for Health Professions
SPAN 440	Spanish Business Writing
SPAN/LAS 475	Topics in Latin American Literature
SPAN/LAS 478	Latin American Modernismo
SPAN/LAS 480	Latin American Literature and Film
SPAN 491	Special Topics (Latin American or Linguistics topics only)
Immersion Requirement ⁴	

¹ or equivalent courses offered in the study abroad programs. Also, Honors courses focused on Latin American and/or Latinx/Hispanic related topics may be counted as an LAS elective; please consult with an LAS advisor in a timely manner for more information about these options.

² LAS majors and minors can count a maximum of six credits in LAS 397 towards their major or minor; LAS certificate students can count a maximum of three credits in LAS 397 towards their certificate.

³ Only three credits from LAS 488 and three credits from LAS 498 (for a total of six total from internships) will count toward LAS majors, minors, or certificates.

⁴ **Immersion Requirement:** The Latin American and Latinx Studies, Culture and Society Emphasis, Major requires an immersion experience in a country of Latin America or participation in a faculty-led immersion experience focused on Latinx communities in the US. There are a variety of options for fulfilling the immersion requirement, including winterim, semester and summer programs abroad of a minimum three weeks' duration, Faculty-Led International Immersion Experiences (FLIIEs) and Domestic Intercultural Immersions (DIIs) of any duration that have been approved by the Latin American and Latinx Studies Program, National Student Exchange, internships, and volunteer work. No homestay during immersion is required for this major. Please consult with your advisor early on in your studies to choose the immersion experience that will work best for you. Because course offerings in study abroad programs vary, please consult with the Center for International Education and your Latin American and Latinx Studies advisor early on in your studies to choose the time, program, and courses that will work best if you plan to fulfill your immersion experience through study abroad. Courses taken during study abroad may satisfy some of the requirements for the major or Core General Education Requirement (CGER) experiences and reduce time to graduation.

Note 1: For program combinations involving Latin American and Latinx Studies programs, students must earn a minimum of 48 unique credits for purposes of meeting graduation requirements for first and second degree programs.

Note 2: LAS Culture and Society emphasis majors can count a maximum of nine credits from directed/independent studies and other types of experiential courses towards their major, including LAS 389, LAS 390, LAS 395, LAS 397, LAS 399, LAS 488, LAS 498, and LAS 499.

Program Learning Outcomes

Students completing this program will be expected to meet the following learning outcomes:

- Describe the diverse cultures, modes of communication, environments, and/or systems of knowledge and values as they pertain to Latin America, the Caribbean, and/or Latinos/Hispanics in the United States.
- Explain global relationships of power, acknowledging multiple perspectives as they pertain to Latin America, the Caribbean, and/or Latinos/Hispanics in the United States.
- Articulate how individual and/or collective decisions have global implications and appraise the need for personal and/or collective responsibility in creating more just global practices.
- Communicate with proficiency in a non-English target language of Latin America, the Caribbean, or Latinos/Hispanics in the United States.¹

¹The desired benchmark for linguistic proficiency in the target language for the LAS Culture and Society Emphasis major is the Intermediate Mid level or above according to the ACTFL proficiency guidelines (<https://www.actfl.org/resources/actfl-proficiency-guidelines-2012>). Presently the target language in Latin American and Latinx Studies is Spanish. With the consent of the LAS Steering Committee students may work to develop proficiency in other languages spoken in Latin America and the Caribbean.

Latin American and Latinx Studies, Culture and Society Emphasis, Major, B.A.^a

The following is a sample degree plan, based on the current catalog. It is based on the 120-credit graduation requirement and assumes no transferred credits, no requirements waived by placement tests, no courses taken in the summer or winter, no repeated courses, and no remedial courses that may be required. This sample degree plan is intended for first-year students entering UW-Eau Claire in the fall semester. Your own degree plan may differ depending on the course of study selected (second major, minor, etc.). UW-Eau Claire cannot guarantee all courses will be offered as shown, but will provide a range of courses that may enable prepared students to fulfill their requirements in a timely period. This sample degree plan is just a guide. Please consult your advisor, your degree audit, and the catalog to create your own degree plan. *Note:* In order to earn the required minimum of 120 credits for the degree in four years, you should plan to take 15 credits each semester or 30 credits each year.

To earn a degree, students must fulfill all University Graduation Requirements, including the Core General Education Requirements (CGER). CGER course work in the following sample degree plan uses abbreviations such as CGER CL, CGER HA, and CGER NSWL to represent the learning outcomes students will meet via completion of the course. Please click here for a description of the outcomes and requirements.

Students in this major have the option to pursue either a Bachelor of Arts (B.A.) or a Bachelor of Science (B.S.) degree. The degrees are distinguished by second language competency for the B.A. and a higher level of mathematics competency for the B.S.

(Plan assumes language placement into SPAN 201 level.)

FIRST YEAR		
FIRST SEMESTER		
SPAN 201	Intermediate Spanish I (CGER CL)	4
SECOND SEMESTER

SOME TIME IN THE FOURTH YEAR		
Second program, LAS Elective or CGER Course Option - select as needed ^{b, e}		12
Second program, LAS Elective or CGER Course Option - select as needed ^{b, e}		15
TOTAL FOURTH YEAR		28-30

Minimum total for the baccalaureate degree = 120 credits

^{*}This course can be taken for variable credit (1-3 credits)

The "SECOND PROGRAM or LAS ELECTIVE" courses above are placeholders. Students with a standard major are required to have a second program (second major, a minor, or a certificate). Each major, minor or certificate has its own requirements beyond the number of credits, and it is the student's responsibility to investigate those and to be sure to have fulfilled those

requirements. The total number of credits in this plan sums up to 118-120. Please take care to keep track of your overall credit total. You need a total of 120 credits to graduate; remedial level courses such as MATH 10, and MATH 20 do not count towards the overall credit count. Electives need to be carefully selected to ensure that a student's degree comprises at least 39 credits of upper division courses (300-400 level). Taking some courses during the summer or winterim will help you to spread out your course load, which may help you do better in classes while still graduating within four years. Any Honors course focused on Latin America or Latinx/Hispanic related topics can be petitioned to count as an LAS English language elective. This plan assumes a foreign language placement into the 201 level and, because this major requires an immersion experience, it also assumes a summer or winterim immersion.

- a For program combinations involving Latin American and Latinx Studies programs, students must earn a minimum of 48 unique credits for purposes of meeting graduation requirements for first and second degree programs.
- b A number of specific CGER courses are suggested throughout this plan because they are courses from the English language LAS electives (of which you have to take at least 12 credits for the LAS Culture and Society Emphasis Major) that also help you meet your CGER learning outcomes; choosing these courses will help you graduate sooner. However, you are free to choose any other course to meet these CGER learning outcomes. Inquire with the respective departments as to when each course is offered.
- c Suggested LAS elective for this CGER outcome (MQR): MATH 107.
- d Suggested LAS elective for this CGER outcome (NSWL): ENV 101.
- e The LAS Culture and Society Emphasis Major is a standard, 36 credit major which consists of 15-17 credits of required courses and at least 19 credits of elective courses, which can be fulfilled completely from a list of LAS English language electives offered in other departments and programs but can include an optional maximum of 9 credits from a selected list of courses in Spanish. The courses mentioned in these notes to fulfill the CGER requirements add up to more than the required 19 elective credits. You should therefore prioritize this placeholder elective space to take courses that satisfy the requirements of your second program (second major, minor, or certificate). Please consult the latest catalog for the most complete lists of courses from which to choose. While students are encouraged to take additional courses in LAS, electives beyond program requirements can be selected from any discipline as long as the student meets the course prerequisites.
- f Suggested LAS elective for this CGER outcome (NSW): GEOG 178.
- g The following courses fulfill this CGER outcome (HA): LAS 314, ARTH 335/AIS 335, or ARTH 337/AIS 337. ENGL 268 (HA), when focused of Latinx/Hispanic related topics, can be petitioned to count as an LAS English language elective.
- h Suggested LAS electives for this CGER outcome (SBS): GEOG 111, PH 115.
- i LAS 150 and LAS 222 are required for the major; taking both will satisfy the 6 credits and two courses required of this CGER CP outcome. You may be interested in taking more such courses. Other suggested LAS electives with this CGER outcome (CP): LAS 324. Other possibilities are ANTH 315; ECON 327; ENV 378/GEOG 378; ES 385; PH 225/NRSG 225; PHIL 320; SOC 312 or SOC 314; WGSS 100; WGSS 206; WGSS 315; or WGSS 335. SOC 312, SOC 314, WGSS 315, and WGSS 335. NRSG 389 also has a CP designation and counts as one of the English language LAS electives; it is typically offered online in Summer and Winterim.

RECOMMENDATIONS FOR HIGH IMPACT PRACTICES (HIPs)

The University of Wisconsin-Eau Claire encourages all students to participate in High Impact Practices. The following information identifies any specific recommendations that faculty in this major have concerning which HIPs might be most beneficial to students, and any recommendations about when those HIPs best fit into the degree plan. Students should also consult

their faculty advisor for information on HIPs. There are many additional high impact opportunities available. Talk to your academic advisor for more information about incorporating HIPs like Study Abroad (<https://studyabroad.apps.uwec.edu/>), Intercultural Immersion (<https://www.uwec.edu/immersion/>), I (<https://www.uwec.edu/offices-services/advising-retention-career-center/career-services/internship/job-searching-and-internship>) (<https://www.uwec.edu/offices-services/advising-retention-career-center/career-services/internship/job-searching-and>), and/or Student/Faculty Collaborative Research (<https://www.uwec.edu/offices-services/office-research-and-sponsored-programs/getting-involved-student-faculty-research>) into your time at UW-Eau Claire.

Required: The Latin American and Latinx Studies, Culture and Society Emphasis major requires an immersion experience in a country of Latin America, including Belize and Jamaica, or participation in a faculty-led immersion experience focused on Latinx communities in the US. There are a variety of options for fulfilling the minimum three-week immersion requirement, including winterim, summer, and semester and summer programs abroad; Faculty Led International Immersion Experiences (FLIIEs) and Domestic Intercultural Immersions (DIIs) of any duration that have been approved by the Latin American and Latinx Studies program; National Student Exchange; internships; and volunteer work. No home stay during immersion is required for this major. Please consult with your advisor early on in your studies to choose the immersion experience that will work best for you. Because course offerings in study abroad programs vary, please consult with the Center for International Education and/or the Intercultural Immersion Office and your Latin American and Latinx Studies advisor early on in your studies to choose the time, program, and courses that will work best. Courses taken during study abroad may satisfy some of the requirements for the major or Core General Education Requirement (CGER) experiences and reduce the time to graduation.

Core General Education Requirements (CGER)

Core General Education Requirements (CGER)

The Core General Education Requirements (CGER) includes a minimum of 10 courses across 6 categories. Students must complete a minimum of 36 credits in courses approved for the CGER Core.

- Mathematics & Quantitative Reasoning (MQR) - 4 credits, one course minimum
 - Includes the University Mathematics Requirement¹
- Communication & Literacy (CL) - 8 credits, two courses minimum
 - Includes the University Writing Requirement (CL-W)²
- Natural Sciences & Wellness (NSW/NSWL) - 6 credits, one course minimum (NSW-Lab required)
- Social & Behavioral Sciences (SBS) - 6 credits, two courses minimum
- Humanities & Arts (HA) - 6 credits, two courses minimum
- Civics & Perspectives (CP) - 6 credits, two courses minimum

¹ University Mathematics Requirement:

Students satisfy the University Mathematics Requirement in one of four ways:

- completing an approved university-level mathematics course (MQR) with a grade of C (not C-) or above
- achieving a suitable score on the UW Math Placement Test (<https://www.uwec.edu/academics/academic-support/advising/testing/placement-testing/>)
- achieving a suitable score on an exam such as the Advanced Placement Calculus or Advanced Placement Statistics exams
- achieving a suitable score on a Credit by Examination administered by the Department of Mathematics.

² **University Writing Requirement:**

- Students satisfy the University Writing Requirement in one of four ways:
- completing a Blugold Seminar in Critical Reading and Writing course (WRIT 102 (<https://catalog.uwec.edu/search/?P=WRIT%20102>), WRIT 114 (<https://catalog.uwec.edu/search/?P=WRIT%20114>), WRIT 116 (<https://catalog.uwec.edu/search/?P=WRIT%20116>), WRIT 118 (<https://catalog.uwec.edu/search/?P=WRIT%20118>), or WRIT 120 (<https://catalog.uwec.edu/search/?P=WRIT%20120>)) with a grade of C (not C-) or above
 - achieving a suitable score on the English Placement Test (<https://www.uwec.edu/academics/blugold-seminar/writ-courses-placement/>) (WPT ENGL)
 - achieving a suitable score on an exam such as the Advanced Placement English Literature and Composition or Advanced Placement English Language and Composition exams
 - achieving a suitable score on the University Writing Program Portfolio.

Completion via Placement Test

- Writing: If the CL-W subcategory is satisfied through a placement test, the CGER Communication and Literacy requirement will be reduced from 8 credits (2 courses) to 3 credits (1 course).
- Mathematics: If the University Math Requirement is satisfied through a placement test, the CGER Mathematics & Quantitative Reasoning requirement will be considered fully met, replacing the 4-credit (1 course) requirement.
- Students must still complete 36 credits across 10 courses, with any remaining credits or courses eligible to be taken from any CGER category.

Latin American and Latinx Studies, Language Emphasis, Major

Liberal Arts (Code 341-201)

University Requirements

GRADUATION REQUIREMENTS FOR BACCALAUREATE DEGREE

Credit Requirements	
Minimum total for graduation ¹	120
Upper division credits (courses numbered 300 and higher)	39
Core General Education	10 courses, 36 credits
Academic Concentrations	
Grade Point Requirements ²	
Total	2.00 average
Resident	2.00 average
Major	2.00 average
Minor	2.00 average
Certificate	2.00 average
University Residency Requirements	
Minimum total	30
Senior year	23
Major, Standard, upper division in residence	12
Major, Comprehensive, upper division in residence	21

Certificate	25 percent of credits

Procedures Required for Graduation

- Obtain admission to the degree program and/or the College offering it.
- Apply for graduation on CampS.

¹ Certain programs exceed this minimum.
² See special requirements in each College.

Applicability of Credits Toward Graduation

Junior College or Two-Year College Credits. A maximum of 72 semester credits earned in a junior college or two-year college will be accepted as degree credits at UW-Eau Claire.

Extension Credits. Credits earned in credit outreach courses offered by UW-Eau Claire are treated as resident credits. Credits earned in extension courses offered by other units of the Universities of Wisconsin System are treated as transfer credits. All other (non-UW) extension and correspondence credits are normally limited to one-fourth of the total required for graduation from any curriculum.

WTCS Credits. A maximum of 72 semester credits earned in college parallel programs at Madison Area Technical College, Milwaukee Area Technical College, Nicolet Area Technical College, or Chippewa Valley Technical College may be accepted as degree credits at UW-Eau Claire. A set number of general education courses will be accepted from other technical schools. Occupational and technical courses may also be considered for transfer if the quality and content of the course work from the technical college is judged to be comparable to course work at UW-Eau Claire. Refer to the Transfer Credit Wizard (https://www.uwec.sis.wisconsin.edu/psp/eauprd-tb/EMPLOYEE/SA/c/EAU_SS_CUSTOM.EAU_TRNCRDWZ.GBL) or contact the UW-Eau Claire Admissions Office for information about the current transfer policy.

USAFI Credit. UW-Eau Claire will accept up to 32 semester credits for work done through the United States Armed Forces Institute, under the provision for non-UW correspondence credit (see Extension Credits above).

Activity Credit (band, chorus, drama, KINS 100-184 courses) Students may count toward graduation no more than one credit of KINS 110-184 courses. Students may count toward graduation no more than four credits earned in any single activity course and no more than 12 credits resulting from any combination of activity courses (excluding KINS 110-184 courses).

Other Restricted Credits. For other University restrictions, see the following: Cooperative Education; Credit by Examination; Satisfactory/Unsatisfactory Registration; Transfer of Credits. College or departmental restrictions may also be placed on Independent Study (399-499 courses), Directed Study (395-495), and other types of credits.

APPLICABILITY OF CREDITS TOWARD GRADUATION		Credit Restrictions
Satisfactory/Unsatisfactory		
Total degree credit		maximum 12
Major, Standard		maximum 1 course
Major, Comprehensive		maximum 2 courses
Minor		maximum 1 course

Credit by Examination

Total degree credit	maximum ¼ of total
Major or minor	maximum ½ of total

Two-Year College Credits

Total degree credit	maximum 72 credits

Activity credit (band, chorus, drama, KINS 100-184)

Total KINS 100-184	maximum 1 credit
Total Band, chorus, drama	maximum 12 credits
Single course band, chorus, drama	maximum 4 credits

Extension credits

UW-System	no maximum
Other extension/correspondence	maximum ¼ of total

USAFI

USAFI	maximum 32 credits

Core General Education Requirements (CGER)

CGER Categories

Mathematics & Quantitative Reasoning (MQR) (http://catalog.uwec.edu/undergraduate/outcome-mqr/)	4 credit hours, 1 course min
Includes University Math Requirement ¹	
Communication & Literacy (CL) (http://catalog.uwec.edu/undergraduate/outcome-cl/)	8 credit hours, 2 course min (including CL-W)

Includes University Writing Requirement (CL-W) (<http://catalog.uwec.edu/undergraduate/outcome-clw/>) ²

Natural Sciences & Wellness (NSW/NSWL) (http://catalog.uwec.edu/undergraduate/outcome-NSW/)	6 credit hours, 1 course min (NSW-Lab required)
Social & Behavioral Sciences (SBS) (https://catalog.uwec.edu/undergraduate/outcome-sbs/)	6 credit hours, 2 course min
Humanities & Arts (HA) (http://catalog.uwec.edu/undergraduate/outcome-ha/)	6 credit hours, 2 course min
Civics & Perspectives (CP) (http://catalog.uwec.edu/undergraduate/outcome-cp/)	6 credit hours, 2 course min

CGER Totals ³

Credits	minimum 36 credits
Courses	minimum 10 courses

¹ **University Mathematics Requirement:**

Students satisfy the University Mathematics Requirement in one of four ways:

- completing an approved university-level mathematics course (MQR) with a grade of C (not C-) or above

- achieving a suitable score on the UW Math Placement Test (<https://www.uwec.edu/academics/academic-support/advising/testing/placement-testing/>)
- achieving a suitable score on an exam such as the Advanced Placement Calculus or Advanced Placement Statistics exams
- achieving a suitable score on a Credit by Examination administered by the Department of Mathematics.

² **University Writing Requirement:**

Students satisfy the University Writing Requirement in one of four ways:

- completing a Blugold Seminar in Critical Reading and Writing course (WRIT 102 (<https://catalog.uwec.edu/search/?P=WRIT%20102>), WRIT 114 (<https://catalog.uwec.edu/search/?P=WRIT%20114>), WRIT 116 (<https://catalog.uwec.edu/search/?P=WRIT%20116>), WRIT 118 (<https://catalog.uwec.edu/search/?P=WRIT%20118>), or WRIT 120 (<https://catalog.uwec.edu/search/?P=WRIT%20120>)) with a grade of C (not C-) or above
- achieving a suitable score on the English Placement Test (<https://www.uwec.edu/academics/blugold-seminar/writ-courses-placement/>) (WPT ENGL)
- achieving a suitable score on an exam such as the Advanced Placement English Literature and Composition or Advanced Placement English Language and Composition exams
- achieving a suitable score on the University Writing Program Portfolio.

³ **Completion via Placement Tests**

- Writing: If the CL-W subcategory is satisfied through a placement test, the CGER Communication and Literacy requirement will be reduced from 8 credits (2 courses) to 3 credits (1 course).
- Mathematics: If the University Math Requirement is satisfied through a placement test, the CGER Mathematics & Quantitative Reasoning requirement will be considered fully met, replacing the 4-credit (1 course) requirement.
- Students must still complete 36 credits across 10 courses, with any remaining credits or courses eligible to be taken from any CGER category.

College Degree Requirements

Bachelor of Arts or Bachelor of Science Degree (B.A./B.S.)

University Graduation Requirements. All candidates for degrees must fulfill the requirements for credits, curriculum, GPA, and University residency as specified in the section of this catalog titled University Graduation Requirements.

College Graduation Requirements: Grade Point Averages. All candidates for degrees in the College of Arts and Sciences must earn minimum resident and total GPAs of 2.00 in the major, the minor, and the certificate. The resident and total GPAs for the major are computed using all attempted credits applicable to the major including those offered by departments other than the major department. The resident and total GPAs for the minor and the certificate are computed similarly.

Major-Minor and Major-Certificate Requirements. A standard major (a minimum of 36 credits) must be supplemented by a minor (a minimum of 24 credits) or by a certificate (12 to 18 credits) to meet graduation requirements for completing a first and second degree program. No minor or certificate is required with a Comprehensive Major (60 or more credits) or with two majors of 36 or more credits each.

Certain degree programs, which include Comprehensive Majors, may require more than the minimum of 120 credits for graduation.

Acceptable academic program combinations are determined at the college level. A major and a minor or a major and certificate or two majors (if available) may not be elected in the same department or program, except in the approved combinations listed here.

College Credits. Earn at least 90 credits in courses offered by the College of Arts and Sciences.

Bachelor of Arts Degree in the College of Arts and Sciences (B.A.)

Fulfillment of all University Graduation Requirements (which includes the Core General Education Requirements); all College-level degree requirements (major and minor/certificate emphases, GPAs, earning at least 90 credits in Arts and Sciences course work); second language competency at the 102 level. Second language competency may be met in one of two ways: (1) Demonstrate a level of second language competency that qualifies the student to enter the 201-level course in a second language. (2) Earn a grade of at least C (not C-) or a mark of S in a 102-level second language course (or AIS 112 or AIS 122 or SLHS 103).

Bachelor of Science Degree in the College of Arts and Sciences (B.S.)

Fulfillment of all University Graduation Requirements (which includes the Core General Education Requirements); all College-level degree requirements (major and minor/certificate emphases, GPAs, earning at least 90 credits in Arts and Sciences course work); mathematics competency at the MATH 111, MATH 112 or MATH 113 level. Mathematics competency can be met in one of three ways:

(1) Achieve a score on the mathematics placement test that qualifies the student to enter MATH 114. (2) Earn a grade of at least C (not C-) or a mark of S in MATH 111, MATH 112, or MATH 113. (3) Achieve a satisfactory score on the MATH 112 competency test. This test may be attempted no more than two times.

Major Requirements

Liberal Arts (Code 341-201)

Code	Title	Credits
Minimum 36 semester credits including: ¹		
Required Courses-17-19 credits		
LAS 150	Introduction to Latin American and Latinx Studies	3
LAS 222	Introduction to U.S. Latino History and Culture	3
Select one of the following:		3
SPAN/LAS 352	Latin American Civilization	
or SPAN/LAS 354	Latin American Civilization: Regional Focus	
Required:		
LAS 450	Capstone for Latin American and Latinx Studies (minimum one credit)	1-3
SPAN 301	Conversation and Composition I	4
SPAN 302	Conversation and Composition II	3
At least 9 credits from the following:		9
SPAN 325	Phonetics and Pronunciation	
SPAN 340	Spanish for Business	
SPAN 360	Survey of Hispanic Linguistics	
SPAN/LAS 367	Survey of Latin American Literature	
SPAN 405	Advanced Conversation	

SPAN 409	The Craft of Translation	
SPAN 410	Advanced Grammar	
SPAN/LAS 418	Spanish Sociolinguistics in the United States/Latin America	
SPAN 420	Spanish for Health Professions	
SPAN 440	Spanish Business Writing	
SPAN/LAS 475	Topics in Latin American Literature	
SPAN/LAS 478	Latin American Modernismo	
SPAN/LAS 480	Latin American Literature and Film	
SPAN 491	Special Topics (Latin American or Linguistics topics only)	
Electives-a minimum of 9 credits		9
AIS 444	Indigenous Theory and Methodologies	
ANTH 315	Language in Culture and Society	
ARTH/AIS 335	Ancient Art and Architecture of Mexico and Central America	
ARTH/AIS 337	Art of Tawantinsuyo	
CJ/WGSS 111	Gender, Race, Class, and Communication: The Social Construction of Identity	
ECON 327	The Economics of Power, Prejudice and Poverty	
ES 385	Social Foundations: Human Relations	
ENV 101	Foundations of Sustainability	
ENV 140	Water Problems, Water Solutions	
ENV/GEOG 378	International Environmental Problems and Policy	
FLG 378	Second Language Acquisition Theory	
FLTR/LAS 350	Latin American Literature in Translation	
GEOG 111	Planet Earth: Human Geography	
GEOG 178	Planet Earth: Conservation of the Environment	
GEOG/LAS 321	Geography of Latin America	
HIST/LAS 172	Latin American History: Colonial to the Present	
HIST/WGSS 205	American Women's History	
LAS 314	Music and Dance of Latin America	
LAS 324	Latinx Health and Migration to the U.S.	
LAS 389	Domestic Immersion Experience	
LAS 390	International Immersion Experience	
LAS 395	Directed Studies	
LAS 397	Student Academic Apprenticeship ²	
LAS 399	Independent Study - Juniors	
LAS 488	Internship ³	
LAS 491	Special Topics	
LAS 498	Internship with Immersion ³	
LAS 499	Independent Study - Seniors	
MATH 107	Mathematics in Latin American Cultures	
NRSG 367	Community and Public Health Nursing	
NRSG 389	Cross Cultural Health	

NRSG 428	Practicum: Nursing Leadership I (when focused on Latin American or Latinx/Hispanic related issues)
PH 115	Global Health
PH/NRSG 225	Introduction to Public Health
PHIL 320	Environmental Ethics
POLS/LAS 319	Politics of Latin America
POLS 325	Model United Nations
RELS/WGSS 203	Women and World Religions
RELS/AIS 330	Indigenous Religions of the Americas
SOC/WGSS 202	Sociology of Gender
SOC 312 or SOC 314	Race and Ethnicity in the U.S. Social Class and Inequality
SPAN 492	Seminar in Hispanic Linguistics Research
SW 290	Human Rights and Global Justice
WGSS 100	Introduction to Women's, Gender, and Sexuality Studies
WGSS 206	Perspectives in LGBTQ Studies
WGSS 315	Women of Color Feminisms
WGSS 335	Transnational Feminism
WGSS 422	Women's, Gender, and Sexuality Studies Advanced Travel Seminar (when offered as Women in Nicaragua)

Immersion Requirement ⁴

¹ or equivalent courses offered in the study abroad programs. Also, Honors courses focused on Latin American and/or Latinx/Hispanic related topics may be counted as an LAS elective; please consult with an LAS advisor in a timely manner for more information about these options.

² LAS majors and minors can count a maximum of six credits in LAS 397 towards their major or minor; LAS certificate students can count a maximum of three credits in LAS 397 towards their certificate.

³ Only three credits from LAS 488 and three credits from LAS 498 (for a total of six total from internships) will count toward LAS majors, minors, or certificates.

⁴ **Immersion Requirement:** The immersion requirement for the Latin American and Latinx Studies, Language Emphasis, Major can be fulfilled through a minimum six-week immersion in a Latin American country. A semester long immersion is recommended for those seeking greater language proficiency. Students facing extenuating circumstances may participate in an alternative domestic language immersion experience pre-approved and determined in conjunction with the LAS Committee from the following options: National Student Exchange, internship, or volunteer work. Students who have completed an immersion requirement for a Spanish major or minor in Spain can fulfill the immersion requirement for the Latin American and Latinx Studies Language Emphasis, Major with a three-week immersion in a Latin American country, a Faculty Led International Immersion Experience (FLIIE) of any duration in a Latin American country, a Domestic Intercultural Immersion (DII) of any duration within the US focused on Latinx issues and approved by the LAS Steering Committee, National Student Exchange, or an internship or volunteer work approved by the LAS Steering Committee to count for this purpose. Please consult with your advisor early on in your studies to choose the immersion experience that will work best for you. Because course offerings in study abroad programs vary, please consult with the Center for International Education and your Latin American and Latinx Studies advisor early on in your studies to choose the time, program, and courses that will work best if you plan to fulfill your

immersion experience through study abroad. Courses taken during study abroad may satisfy some of the requirements for the major or Core General Education Requirement (CGER) experiences and reduce time to graduation.

Note: For program combinations involving Latin American and Latinx Studies programs, students must earn a minimum of 48 unique credits for purposes of meeting graduation requirements for first and second degree programs.

Program Learning Outcomes

Students completing this program will be expected to meet the following learning outcomes:

- Describe the diverse cultures, modes of communication, environments, and/or systems of knowledge and values as they pertain to Latin America, the Caribbean, and/or Latinos/Hispanics in the United States.
- Explain global relationships of power, acknowledging multiple perspectives as they pertain to Latin America, the Caribbean, and/or Latinos/Hispanics in the United States.
- Articulate how individual and/or collective decisions have global implications and appraise the need for personal and/or collective responsibility in creating more just global practices.
- Communicate with proficiency in a non-English target language of Latin America, the Caribbean, or Latinos/Hispanics in the United States.¹

¹The desired benchmark for linguistic proficiency in the target language for the LAS Language Emphasis major is the Intermediate High level or above according to the ACTFL proficiency guidelines (<https://www.actfl.org/resources/actfl-proficiency-guidelines-2012>). Presently the target language in Latin American and Latinx Studies is Spanish. With the consent of the LAS Steering Committee students may work to develop proficiency in other languages spoken in Latin America and the Caribbean.

Latin American and Latinx Studies, Language Emphasis, Major, B.A.^a

The following is a sample degree plan, based on the current catalog. It is based on the 120-credit graduation requirement and assumes no transferred credits, no requirements waived by placement tests, no courses taken in the summer or winter, no repeated courses, and no remedial courses that may be required. This sample degree plan is intended for first-year students entering UW-Eau Claire in the fall semester. Your own degree plan may differ depending on the course of study selected (second major, minor, etc.). UW-Eau Claire cannot guarantee all courses will be offered as shown, but will provide a range of courses that may enable prepared students to fulfill their requirements in a timely period. This sample degree plan is just a guide. Please consult your advisor, your degree audit, and the catalog to create your own degree plan. *Note:* In order to earn the required minimum of 120 credits for the degree in four years, you should plan to take 15 credits each semester or 30 credits each year.

To earn a degree, students must fulfill all University Graduation Requirements, including the Core General Education Requirements (CGER). CGER course work in the following sample degree plan uses abbreviations such as CGER CL, CGER HA, and CGER NSWL to represent the learning outcomes students will meet via completion of the course. Please click here for a description of the outcomes and requirements.

Students in this major have the option to pursue either a Bachelor of Arts (B.A.) or a Bachelor of Science (B.S.) degree. The degrees are distinguished by second language competency for the B.A. and a higher level of mathematics competency for the B.S.

(Plan assumes language placement into SPAN 202 level.)

SOME TIME IN THE FOURTH YEAR

Second program, LAS Elective or CGER Course Option - select as needed ^{b, k}	27

TOTAL FOURTH YEAR	28-30

Minimum total for the baccalaureate degree = 120 credits

The "SECOND PROGRAM or LAS ELECTIVE" courses above are placeholders. Students with a standard major are required to have a second program (second major, a minor, or a certificate). Each major, minor or certificate has its own requirements beyond the number of credits, and it is the student's responsibility to investigate those and to be sure to have fulfilled those requirements. The total number of credits in this plan sums up to 118-120. Please take care to keep track of your overall credit total. You need a total of 120 credits to graduate; remedial level courses such as MATH 10 and MATH 20 do not count towards the overall credit count. Electives need to be carefully selected to ensure that a student's degree comprises at least 39 credits of upper division courses (300-400 level). Taking some courses during the summer or winterim will help you to spread out your course load, which may help you do better in classes while still graduating within four years. Any Honors course focused on Latin America or Latinx/Hispanic related topics can be petitioned to count as an LAS English language elective. This plan assumes a foreign language placement into the 202 level and, though other options exist, it also assumes a semester immersion.

- a For program combinations involving Latin American and Latinx Studies programs, students must earn a minimum of 48 unique credits for purposes of meeting graduation requirements for first and second degree programs.
- b A number of specific CGER courses are suggested throughout this plan because they are courses from the English language LAS electives (of which you have to take at least 9 credits for the LAS Language Emphasis Major) that also help you meet your CGER learning outcomes; choosing these courses will help you graduate sooner. However, you are free to choose any other course to meet these CGER learning outcomes. Inquire with the respective departments as to when each course is offered.
- c Suggested LAS elective for this CGER outcome (MQR): MATH 107.
- d Suggested LAS elective for this CGER outcome (NSWL): ENV 101.
- e Though other options are possible, this plan assumes a second year Spring semester study abroad in the Heredia, Costa Rica program to satisfy the minimum six-week immersion requirement. Course offerings in study abroad programs vary; consult with the Center for International Education and your Latin American and Latinx Studies advisor to choose the program and courses that will work best for you.
- f The POLS 319 Politics of Latin America course counts as one of the LAS English language electives. It is one of numerous courses which count as electives for LAS typically offered in the Spring semester program in Heredia, Costa Rica.
- g Suggested LAS electives for this CGER outcome (SBS): GEOG 111, PH 115.
- h Suggested LAS electives for this CGER outcome (NSW): GEOG 178.
- i The following courses fulfill this CGER outcome (HA): LAS 314, ARTH 335/AIS 335, or ARTH 337/AIS 337. ENGL 268 Survey of American Ethnic Literature (HA), when focused on Latinx/Hispanic related topics, can be petitioned to count as an LAS English language elective.
- j The LAS Language Major is a standard, 36 credit major which consists of 17-19 credits of required courses, a minimum of 9 credits from a selected list of courses in Spanish (or any other language suitable to Latin American and Latinx Studies in which proficiency is being sought), and a minimum of 9 credits from a list of LAS English language electives offered in English in other departments and programs. If you do the Spring semester in Costa Rica after having taken SPAN 302 as this plan assumes, you can take SPAN 354/LAS 354, SPAN 405, and SPAN 410 in Costa Rica and will need no more courses from the list of LAS Spanish electives to reach the 9-credit minimum, though it is wise to keep taking courses in the language

to maintain proficiency. Please keep in mind that study abroad programs change and that there are many ways to fulfill your immersion experience; consult with an LAS advisor to find what works best in your case.

- k The LAS Language Major is a standard, 36 credit major which consists of 17-19 credits of required courses, a minimum of 9 credits from a selected list of courses in Spanish, and a minimum of 9 credits from a list of LAS English language electives offered in English in other departments and programs. By taking the courses mentioned in these notes to fulfill the CGER electives you've already taken more than the required number of elective credits needed from the LAS English language electives; you should therefore prioritize this placeholder elective space to take courses that satisfy the requirements of your second program (second major, minor, or certificate). Once those requirements are satisfied, you are encouraged to take more courses in LAS or Spanish. In order to maintain your fluency in Spanish, it is wise to continue taking courses in that language when possible. Please consult the latest catalog for the most complete lists of courses from which to choose. While students are encouraged to take additional courses in LAS, Spanish, or other languages in which proficiency is being sought, electives beyond program requirements can be selected from any discipline as long as the student meets the course prerequisites.
- l LAS 150 and LAS 222 are required for the major; taking both will satisfy the 6 credits and two courses required of this CGER CP outcome. You may be interested in taking more such courses. Other suggested LAS electives with this CGER outcome (CP): LAS 324. Other possibilities are ANTH 315; ECON 327; ENV 378/GEOG 378; ES 385; PH 225/NRSG 225; PHIL 320; SOC 312 or SOC 314; WGSS 100; WGSS 206; WGSS 315; or WGSS 335. SOC 312, SOC 314, WGSS 315, and WGSS 335 all have prerequisites. NRSG 389 also has a CP designation and counts as one of the English language LAS electives; it is typically offered online in Summer and Winterim.

RECOMMENDATIONS FOR HIGH IMPACT PRACTICES (HIPs)

The University of Wisconsin-Eau Claire encourages all students to participate in High Impact Practices. The following information identifies any specific recommendations that faculty in this major have concerning which HIPs might be most beneficial to students, and any recommendations about when those HIPs best fit into the degree plan. Students should also consult their faculty advisor for information on HIPs. There are many additional high impact opportunities available. Talk to your academic advisor for more information about incorporating HIPs like Study Abroad, Intercultural Immersion, Internship, and/or Student/Faculty Collaborative Research into your time at UW-Eau Claire.

Required: The Latin American and Latinx Studies, Language emphasis major requires an immersion experience in a country of Latin America or participation in a faculty-led immersion experience with a home stay in a Spanish-speaking household for a minimum of six weeks' duration. A semester-long immersion is recommended. Students who have completed an immersion requirement for a Spanish major or minor in Spain can fulfill the immersion requirement for the Latin American and Latinx Studies Language emphasis major via winterim, summer, and semester study abroad programs of a minimum three weeks' duration, a Faculty Led International Immersion Experience (FLIIE) of any duration in a Latin American country, a Domestic Intercultural Immersion (DII) of any duration within the US focused on Latinx issues and approved by the LAS Steering Committee, National Student Exchange, or an internship or volunteer work approved by the LAS Steering Committee to count for this purpose. Please consult with your advisor early on in your studies to choose the immersion experience that will work best for you. Because course offerings in study abroad programs vary, please consult with the Center for International Education and/or the Intercultural Immersion Office and your Latin American and Latinx Studies advisor early on in your studies to choose the time, program, and courses that will work best. Courses taken during study abroad may

satisfy some of the requirements for the major or Core General Education Requirement (CGER) experiences and reduce the time to graduation.

Core General Education Requirements (CGER)

Core General Education Requirements (CGER)

The Core General Education Requirements (CGER) includes a minimum of 10 courses across 6 categories. Students must complete a minimum of 36 credits in courses approved for the CGER Core.

- Mathematics & Quantitative Reasoning (MQR) - 4 credits, one course minimum
 - Includes the University Mathematics Requirement¹
- Communication & Literacy (CL) - 8 credits, two courses minimum
 - Includes the University Writing Requirement (CL-W)²
- Natural Sciences & Wellness (NSW/NSWL) - 6 credits, one course minimum (NSW-Lab required)
- Social & Behavioral Sciences (SBS) - 6 credits, two courses minimum
- Humanities & Arts (HA) - 6 credits, two courses minimum
- Civics & Perspectives (CP) - 6 credits, two courses minimum

¹ University Mathematics Requirement:

Students satisfy the University Mathematics Requirement in one of four ways:

- completing an approved university-level mathematics course (MQR) with a grade of C (not C-) or above
- achieving a suitable score on the UW Math Placement Test (<https://www.uwec.edu/academics/academic-support/advising/testing/placement-testing/>)
- achieving a suitable score on an exam such as the Advanced Placement Calculus or Advanced Placement Statistics exams
- achieving a suitable score on a Credit by Examination administered by the Department of Mathematics.

² University Writing Requirement:

Students satisfy the University Writing Requirement in one of four ways:

- completing a Blugold Seminar in Critical Reading and Writing course (WRIT 102 (<https://catalog.uwec.edu/search/?P=WRIT%20102>), WRIT 114 (<https://catalog.uwec.edu/search/?P=WRIT%20114>), WRIT 116 (<https://catalog.uwec.edu/search/?P=WRIT%20116>), WRIT 118 (<https://catalog.uwec.edu/search/?P=WRIT%20118>), or WRIT 120 (<https://catalog.uwec.edu/search/?P=WRIT%20120>)) with a grade of C (not C-) or above
- achieving a suitable score on the English Placement Test (<https://www.uwec.edu/academics/blugold-seminar/writ-courses-placement/>) (WPT ENGL)
- achieving a suitable score on an exam such as the Advanced Placement English Literature and Composition or Advanced Placement English Language and Composition exams
- achieving a suitable score on the University Writing Program Portfolio.

Completion via Placement Test

- Writing: If the CL-W subcategory is satisfied through a placement test, the CGER Communication and Literacy requirement will be reduced from 8 credits (2 courses) to 3 credits (1 course).
- Mathematics: If the University Math Requirement is satisfied through a placement test, the CGER Mathematics & Quantitative Reasoning requirement will be considered fully met, replacing the 4-credit (1 course) requirement.

- Students must still complete 36 credits across 10 courses, with any remaining credits or courses eligible to be taken from any CGER category.

Latin American and Latinx Studies, Minor

Liberal Arts (Code 341-401)

Code	Title	Credits
Minimum 24 semester credits including: ¹		
Required Courses-14 credits		
LAS 150	Introduction to Latin American and Latinx Studies	3
LAS 222	Introduction to U.S. Latino History and Culture	3
SPAN 201	Intermediate Spanish I	4
SPAN 202	Intermediate Spanish II	4
Electives-at least 10 credits from the following:		
AIS 444	Indigenous Theory and Methodologies	
ANTH 315	Language in Culture and Society	
ARTH/AIS 335	Ancient Art and Architecture of Mexico and Central America	
ARTH/AIS 337	Art of Tawantinsuyo	
CJ/WGSS 111	Gender, Race, Class, and Communication: The Social Construction of Identity	
ECON 327	The Economics of Power, Prejudice and Poverty	
ES 385	Social Foundations: Human Relations	
ENV 101	Foundations of Sustainability	
ENV 140	Water Problems, Water Solutions	
ENV/GEOG 378	International Environmental Problems and Policy	
FLG 378	Second Language Acquisition Theory	
FLTR/LAS 350	Latin American Literature in Translation	
GEOG 111	Planet Earth: Human Geography	
GEOG 178	Planet Earth: Conservation of the Environment	
GEOG/LAS 321	Geography of Latin America	
HIST/LAS 172	Latin American History: Colonial to the Present	
HIST/WGSS 205	American Women's History	
LAS 314	Music and Dance of Latin America	
LAS 324	Latinx Health and Migration to the U.S.	
LAS 389	Domestic Immersion Experience	
LAS 390	International Immersion Experience	
LAS 395	Directed Studies	
LAS 397	Student Academic Apprenticeship ²	
LAS 399	Independent Study - Juniors	
LAS 488	Internship ³	
LAS 491	Special Topics	
LAS 498	Internship with Immersion ³	
LAS 499	Independent Study - Seniors	

MATH 107	Mathematics in Latin American Cultures
NRSRG 367	Community and Public Health Nursing
NRSRG 389	Cross Cultural Health
NRSRG 428	Practicum: Nursing Leadership I (when focused on Latin American and/or Latinx/Hispanic related topics)
PH 115	Global Health
PH/NRSRG 225	Introduction to Public Health
PHIL 320	Environmental Ethics
POLS/LAS 319	Politics of Latin America
POLS 325	Model United Nations
RELS/WGSS 203	Women and World Religions
RELS/AIS 330	Indigenous Religions of the Americas
SOC/WGSS 202	Sociology of Gender
SOC 312	Race and Ethnicity in the U.S.
or SOC 314	Social Class and Inequality
SPAN/LAS 352	Latin American Civilization
or SPAN/LAS 354	Latin American Civilization: Regional Focus
SPAN 492	Seminar in Hispanic Linguistics Research
SW 290	Human Rights and Global Justice
WGSS 100	Introduction to Women's, Gender, and Sexuality Studies
WGSS 206	Perspectives in LGBTQ Studies
WGSS 315	Women of Color Feminisms
WGSS 335	Transnational Feminism
WGSS 422	Women's, Gender, and Sexuality Studies Advanced Travel Seminar (when offered as Women in Nicaragua)

Immersion Requirement⁴

¹ or equivalent courses offered in the study abroad programs. Also, Honors courses focused on Latin American and/or Latinx/Hispanic related topics may be counted as an LAS elective; please consult with an LAS advisor in a timely manner for more information about these options.

² LAS majors and minors can count a maximum of six credits in LAS 397 towards their major or minor; LAS certificate students can count a maximum of three credits in LAS 397 towards their certificate.

³ Only three credits from LAS 488 and three credits from LAS 498 (for a total of six total from internships) will count toward LAS majors, minors, or certificates.

⁴ **Immersion Requirement:** The Latin American and Latinx Studies, Minor requires an immersion experience in a country of Latin America or participation in a faculty-led immersion experience focused on Latinx communities in the US. There are a variety of options for fulfilling the immersion requirement, including winterim, semester and summer programs abroad of a minimum three weeks' duration, Faculty-Led International Immersion Experiences (FLIEs) and Domestic Intercultural Immersions (DIIs) of any duration that have been approved by the Latin American and Latinx Studies Program, National Student Exchange, internships, and volunteer work. No home stay during immersion is required for this minor. Please consult with your advisor early on in your studies to choose the immersion experience that will work best for you. Because course offerings in study abroad programs vary, please consult with the Center for International Education and your Latin American and Latinx Studies advisor early on in your studies to choose the time, program, and courses

that will work best if you plan to fulfill your immersion experience through study abroad. Courses taken during study abroad may satisfy some of the requirements for the minor or Core General Education Requirement (CGER) experiences and reduce time to graduation.

Note 1: For program combinations involving Latin American and Latinx Studies programs, students must earn a minimum of 48 unique credits for purposes of meeting graduation requirements for first and second degree programs.

Note 2: LAS minors can count a maximum of six credits from directed/independent studies and other types of experiential courses towards their minor, including LAS 389, LAS 390, LAS 395, LAS 397, LAS 399, LAS 488, LAS 498, and LAS 499.

Program Learning Outcomes

Students completing this program will be expected to meet the following learning outcomes:

- Describe the diverse cultures, modes of communication, environments, and/or systems of knowledge and values as they pertain to Latin America, the Caribbean, and/or Latinos/Hispanics in the United States.
- Explain global relationships of power, acknowledging multiple perspectives as they pertain to Latin America, the Caribbean, and/or Latinos/Hispanics in the United States.
- Articulate how individual and/or collective decisions have global implications and appraise the need for personal and/or collective responsibility in creating more just global practices.
- Communicate with proficiency in a non-English target language of Latin America, the Caribbean, or Latinos/Hispanics in the United States.¹

¹The desired benchmark for linguistic proficiency in the target language for the Latin American and Latinx Studies minor is the Intermediate Mid level or above according to the ACTFL proficiency guidelines (<https://www.actfl.org/publications/guidelines-and-manuals/actfl-proficiency-guidelines-2012/english>). Presently the target language in Latin American and Latinx Studies is Spanish. With the consent of the LAS Steering Committee students may work to develop proficiency in other languages spoken in Latin America and the Caribbean.

Materials Science and Biomedical Engineering

Phillips 177
715-836-5504

Department Website (<https://www.uwec.edu/academics/college-arts-sciences/departments-programs/materials-science-biomedical-engineering/>)

The Materials Science & Biomedical Engineering Department offers comprehensive majors in Materials Science, Materials Science & Engineering, and Biomedical Engineering. All three degree programs are designed to give students a strong foundation in fundamental sciences and mathematics.

The field of materials science and engineering is the study of “condensed matter” (that is, solids and liquids), and how an understanding of materials can be applied to fabricating devices and structures of utility. A relatively young discipline, materials science is an outgrowth of two traditional areas: the study of matter (and its structure-property relationship) that originated in chemistry and physics, and developments in various “materials” engineering fields (notably, microelectronics, metallurgy, ceramics, and plastics). More generally, materials scientists and materials engineers explore the interdependence of

how a material is processed, its structure, and its properties, and how these impact material performance.

Biomedical engineering is also a relatively new area that explores the integration of engineering, technology and computation with the medical field.

BME is a diverse discipline that covers specialties such as medical imaging, medical devices and instrumentation, cell and tissue engineering, 3D printing and biomaterials. The focus of this degree is designing and implementing new approaches that can help enhance disease diagnosis, improve disease management and lead to better treatments.

Department Honors in Materials Science & Biomedical Engineering

Eligibility – All students majoring in Materials Science, Materials Science and Engineering, or Biomedical Engineering are invited to apply. Students should have a resident GPA and an overall GPA of 3.50 or higher. Student should also have a GPA of 3.50 or higher in their Materials Science, MS&E, or BME major, and meet the Department’s “High Impact” experience requirements (described below).

Application Procedure and Requirements – Submit an application form (<https://uwec.bplogix.net/form.aspx?pid=d6b4de7a-a68b-41af-97f5-ecc275ef7d2d&formid=b2650b8b-b0a1-4d1f-8edb-84e5a6a7e890&nohome=0&completepageprompt=0&completepage=&>) after completing four semesters at UW-EC, but no later than the student’s graduation semester (e.g., during the Spring semester for a May graduate).

A departmental faculty member familiar with the student’s work (i.e., the student’s faculty advisor, research advisor, etc.) must endorse the application.

In addition to the GPA requirements listed above, the student submits evidence to the supporting faculty member that at least two High Impact experiences (of the seven) listed below have been completed; completing one of the seven experiences twice is not sufficient for Department Honors.

1. a summer research experience off campus as part of a federal program (NSF, NIST, DoD, DoE, etc.)
2. an appropriate internship related to the student’s major
3. a Study Abroad experience or Domestic Intercultural Immersion experience
4. an appropriate “professional” presentation, which can be met by either:
 - a. any presentation at an off-campus conference
 - b. an **oral** presentation at CERCA, the Provost’s Honors Symposium, the WiSys Quick Pitch, or an accepted talk at the departmental seminar series
5. a faculty/student collaborative research project (that includes a poster presentation at CERCA)
6. a publication in a peer-reviewed journal
7. other immersive experience that is approved by the Materials Science & Biomedical Engineering faculty for departmental honors

Certificate

- Certificate: Materials Science

Materials Science and Engineering, Comprehensive Major

(Code 251-001)

University Requirements

GRADUATION REQUIREMENTS FOR BACCALAUREATE DEGREE

Credit Requirements	
Minimum total for graduation ¹	120
Upper division credits (courses numbered 300 and higher)	39
Core General Education	10 courses, 36 credits
Academic Concentrations	
Grade Point Requirements ²	
Total	2.00 average
Resident	2.00 average
Major	2.00 average
Minor	2.00 average
Certificate	2.00 average
University Residency Requirements	
Minimum total	30
Senior year	23
Major, Standard, upper division in residence	12
Major, Comprehensive, upper division in residence	21
Certificate	25 percent of credits

Procedures Required for Graduation

- Obtain admission to the degree program and/or the College offering it.
- Apply for graduation on CampS.

¹ Certain programs exceed this minimum.
² See special requirements in each College.

Applicability of Credits Toward Graduation

Junior College or Two-Year College Credits. A maximum of 72 semester credits earned in a junior college or two-year college will be accepted as degree credits at UW-Eau Claire.

Extension Credits. Credits earned in credit outreach courses offered by UW-Eau Claire are treated as resident credits. Credits earned in extension courses offered by other units of the Universities of Wisconsin System are treated as transfer credits. All other (non-UW) extension and correspondence credits are

normally limited to one-fourth of the total required for graduation from any curriculum.

WTCS Credits. A maximum of 72 semester credits earned in college parallel programs at Madison Area Technical College, Milwaukee Area Technical College, Nicolet Area Technical College, or Chippewa Valley Technical College may be accepted as degree credits at UW-Eau Claire. A set number of general education courses will be accepted from other technical schools. Occupational and technical courses may also be considered for transfer if the quality and content of the course work from the technical college is judged to be comparable to course work at UW-Eau Claire. Refer to the Transfer Credit Wizard (https://www.uwec.sis.wisconsin.edu/psp/eauprd-tb/EMPLOYEE/SA/c/EAU_SS_CUSTOM.EAU_TRNCRDWZ.GBL) or contact the UW-Eau Claire Admissions Office for information about the current transfer policy.

USAFI Credit. UW-Eau Claire will accept up to 32 semester credits for work done through the United States Armed Forces Institute, under the provision for non-UW correspondence credit (see Extension Credits above).

Activity Credit (band, chorus, drama, KINS 100-184 courses) Students may count toward graduation no more than one credit of KINS 110-184 courses. Students may count toward graduation no more than four credits earned in any single activity course and no more than 12 credits resulting from any combination of activity courses (excluding KINS 110-184 courses).

Other Restricted Credits. For other University restrictions, see the following: Cooperative Education; Credit by Examination; Satisfactory/Unsatisfactory Registration; Transfer of Credits. College or departmental restrictions may also be placed on Independent Study (399-499 courses), Directed Study (395-495), and other types of credits.

APPLICABILITY OF CREDITS TOWARD GRADUATION	Credit Restrictions
Satisfactory/Unsatisfactory	
Total degree credit	maximum 12
Major, Standard	maximum 1 course
Major, Comprehensive	maximum 2 courses
Minor	maximum 1 course
Credit by Examination	
Total degree credit	maximum ¼ of total
Major or minor	maximum ½ of total
Two-Year College Credits	
Total degree credit	maximum 72 credits
Activity credit (band, chorus, drama, KINS 100-184)	
Total KINS 100-184	maximum 1 credit
Total Band, chorus, drama	maximum 12 credits
Single course band, chorus, drama	maximum 4 credits
Extension credits	
UW-System	no maximum
Other extension/correspondence	maximum ¼ of total

USAFI

USAFI	maximum 32 credits

Core General Education Requirements (CGER)

CGER Categories

Mathematics & Quantitative Reasoning (MQR) (http://catalog.uwec.edu/undergraduate/outcome-mqr/)	4 credit hours, 1 course min

Includes University Math Requirement ¹

Communication & Literacy (CL) (http://catalog.uwec.edu/undergraduate/outcome-cl/)	8 credit hours, 2 course min (including CL-W)

Includes University Writing Requirement (CL-W) (<http://catalog.uwec.edu/undergraduate/outcome-clw/>) ²

Natural Sciences & Wellness (NSW/NSWL) (http://catalog.uwec.edu/undergraduate/outcome-NSW/)	6 credit hours, 1 course min (NSW-Lab required)

Social & Behavioral Sciences (SBS) (https://catalog.uwec.edu/undergraduate/outcome-sbs/)	6 credit hours, 2 course min

Humanities & Arts (HA) (http://catalog.uwec.edu/undergraduate/outcome-ha/)	6 credit hours, 2 course min

Civics & Perspectives (CP) (http://catalog.uwec.edu/undergraduate/outcome-cp/)	6 credit hours, 2 course min

CGER Totals ³

Credits	minimum 36 credits

Courses	minimum 10 courses

¹ **University Mathematics Requirement:**

Students satisfy the University Mathematics Requirement in one of four ways:

- completing an approved university-level mathematics course (MQR) with a grade of C (not C-) or above
- achieving a suitable score on the UW Math Placement Test (<https://www.uwec.edu/academics/academic-support/advising/testing/placement-testing/>)
- achieving a suitable score on an exam such as the Advanced Placement Calculus or Advanced Placement Statistics exams
- achieving a suitable score on a Credit by Examination administered by the Department of Mathematics.

² **University Writing Requirement:**

Students satisfy the University Writing Requirement in one of four ways:

- completing a Blugold Seminar in Critical Reading and Writing course (WRIT 102 (<https://catalog.uwec.edu/search/?P=WRIT%20102>), WRIT 114 (<https://catalog.uwec.edu/search/?P=WRIT%20114>), WRIT 116 (<https://catalog.uwec.edu/search/?P=WRIT%20116>), WRIT 118 (<https://catalog.uwec.edu/search/?P=WRIT%20118>), or WRIT 120 (<https://catalog.uwec.edu/search/?P=WRIT%20120>)) with a grade of C (not C-) or above
- achieving a suitable score on the English Placement Test (<https://www.uwec.edu/academics/blugold-seminar/writ-courses-placement/>) (WPT ENGL)

- achieving a suitable score on an exam such as the Advanced Placement English Literature and Composition or Advanced Placement English Language and Composition exams
- achieving a suitable score on the University Writing Program Portfolio.

³ **Completion via Placement Tests**

- Writing: If the CL-W subcategory is satisfied through a placement test, the CGER Communication and Literacy requirement will be reduced from 8 credits (2 courses) to 3 credits (1 course).
- Mathematics: If the University Math Requirement is satisfied through a placement test, the CGER Mathematics & Quantitative Reasoning requirement will be considered fully met, replacing the 4-credit (1 course) requirement.
- Students must still complete 36 credits across 10 courses, with any remaining credits or courses eligible to be taken from any CGER category.

College Degree Requirements

Bachelor of Science Degree (B.S.)

University Graduation Requirements. All candidates for degrees must fulfill the requirements for credits, curriculum, GPA, and University residency as specified in the section of this catalog titled University Graduation Requirements.

College Graduation Requirements: Grade Point Averages. All candidates for degrees in the College of Arts and Sciences must earn minimum resident and total GPAs of 2.00 in the major, the minor, and the certificate. The resident and total GPAs for the major are computed using all attempted credits applicable to the major including those offered by departments other than the major department. The resident and total GPAs for the minor and the certificate are computed similarly.

Major-Minor and Major-Certificate Requirements. A standard major (a minimum of 36 credits) must be supplemented by a minor (a minimum of 24 credits) or by a certificate (12 to 18 credits) to meet graduation requirements for completing a first and second degree program. No minor or certificate is required with a Comprehensive Major (60 or more credits) or with two majors of 36 or more credits each.

Certain degree programs which include Comprehensive Majors may require more than the minimum of 120 credits for graduation.

Acceptable academic program combinations are determined at the college level. A major and a minor or a major and certificate or two majors (if available) may not be elected in the same department or program, except in the approved combinations listed here.

College Credits. Earn at least 90 credits in courses offered by the College of Arts and Sciences.

Bachelor of Science Degree in the College of Arts and Sciences (B.S.)

Fulfillment of all University Graduation Requirements (which includes the General Education Core); all College-level degree requirements (major and minor/certificate emphases, GPAs, earning at least 90 credits in Arts and Sciences course work); mathematics competency at the MATH 111, MATH 112 or MATH 113 level. Mathematics competency can be met in one of three ways: (1) Achieve a score on the mathematics placement test that qualifies the student to enter MATH 114. (2) Earn a grade of at least C (not C-) or a mark of S in MATH 111, MATH 112, or MATH 113. (3) Achieve

a satisfactory score on the MATH 112 competency test. This test may be attempted no more than two times.

Major Requirements

(Code 251-001)

The Bachelor's of Science in Materials Science and Engineering (MS&E) is a traditional engineering major, rigorously structured and grounded in science and math. Students in this major develop a strong foundation in mathematics, and the major emphasizes science themes more strongly than other engineering disciplines. As with all engineering degrees, the application of fundamental ideas through design is central to the major.

A minimum of 92 credits is required for the major and a minimum of 128 credits for the degree. In addition to core courses, students must complete 6 credits of MSE electives, 3 credits of engineering electives and 3 credits of technical electives from the courses listed below.

Code	Title	Credits
Core courses:		
MATERIALS SCIENCE & ENGINEERING		
MSE 120	Introduction to Engineering	2
MSE 221	Living in a Materials World	3
MSE 256	Introduction to Computer Aided Design	1
MSE 286	Engineering Sophomore Seminar	1
MSE 307	Engineering Statistics	4
MSE 315	Materials Characterization	4
MSE 334	Soft Materials	4
MSE 350	Thermodynamics of Materials	4
MSE 357	Phase Transformation & Kinetics	3
MSE 362	Microelectronic Materials Processing	2
MSE 367	Macroprocessing of Materials	3
MSE 368	Macroprocessing Materials Lab	2
MSE 372	Transport Phenomena	3
MSE 374	Electrical, Optical and Magnetic Properties of Materials	4
MSE 386	Engineering Junior Seminar	1
MSE 486	MS&E Capstone I	2
MSE 487	MS&E Capstone II	2
CHEMISTRY		
CHEM 115	Chemical Principles	6
or		
CHEM 108 & CHEM 109	General Chemistry I and General Chemistry II ¹	
or		
CHEM 105 & CHEM 106 & CHEM 109	General Chemistry I Lecture and General Chemistry I Laboratory and General Chemistry II ¹	
CHEM 325	Organic Chemistry I with Laboratory	4
MATHEMATICS		
MATH 114	Calculus I	4
MATH 215	Calculus II	4
MATH 312	Differential Equations and Linear Algebra	4
PHYSICS		

PHYS 231	University Physics I	5
PHYS 232	University Physics II	5
COMPUTER PROGRAMMING ²		3
PHYS 240	Computational Physics	
or DS 150	Computing in Python: Fundamentals and Procedural Programming	
MSE Elective Courses, choose from: ³		6
MSE 406	Failure Analysis and Prevention	
MSE 451	Computational Materials Science	
MSE 475	Nanomaterials	
Engineering Elective Courses, choose from: ⁴		3
ASRE 150	Introduction to Robotics	
ASRE 310	Control Theory and Applications	
BME 301	3D Printing in Medicine	
BME 320	Clinical Problems in Biomedical Engineering	
BME 340	Biomaterials	
BME 370	Medical Imaging	
PHYS 240	Computational Physics ²	
PHYS 255	Statics	
PHYS 350	Electric and Electronic Circuits	
PHYS 360	Electronics	
Technical Elective Courses, choose from:		3
AI 250	Foundations of Artificial Intelligence	
ASRE 150	Introduction to Robotics	
ASRE 310	Control Theory and Applications	
BME 289	Research Experience - BME	
BME 291	Special Topics in Biomedical Engineering	
BME 301	3D Printing in Medicine	
BME 320	Clinical Problems in Biomedical Engineering	
BME 340	Biomaterials	
BME 370	Medical Imaging	
BME 395	Directed Studies	
BME 399	Independent Study - Juniors	
BME 499	Independent Study - Seniors	
CHEM 213	Quantitative Analysis	
CHEM 218	Introduction to Inorganic Chemistry	
CHEM 326	Organic Chemistry II with Laboratory	
CHEM 352	Fundamentals of Biochemistry	
CS 140	Introduction to Computer Science	
DS 150	Computing in Python: Fundamentals and Procedural Programming	
MATH 216	Calculus III	
MATH 313	Digital Signal Processing	
MATH 314	Discrete Mathematics	
MATH 351	Numerical Analysis I	
MATH 354	Introduction to Mathematical Modeling	
MATH 440	Digital Image Processing	
MSCI 291	Special Topics in Materials Science	
MSCI 395	Directed Studies	

MSCI 399	Independent Study - Juniors
MSCI 499	Independent Study - Seniors
MSE 289	Research Experience - MSE
MSE 296	Student Academic Apprenticeship
MSE 395	Directed Studies
MSE 493	Collaborative Internship
MSE 494	Off-campus Materials Science Internship
PHYS 240	Computational Physics
PHYS 255	Statics
PHYS 340	Optics
PHYS 350	Electric and Electronic Circuits
PHYS 356	Dynamics
PHYS 360	Electronics

A maximum of one credit of MSE 296 may be applied toward the Technical Electives category.

¹ Only six credits apply to the major.

² A course used to satisfy the computer programming requirement may not also be used for an Engineering or Technical Elective.

³ Once the MSE Elective requirement has been satisfied, additional MSE Elective courses may count towards the Engineering Elective or the Technical Elective requirements.

⁴ A course used to satisfy the Engineering Elective may not also be used as a Technical Elective.

Program Learning Outcomes

Students completing this program will be expected to meet the following learning outcomes:

- Identify, formulate, and solve complex engineering problems by applying principles of engineering, science, and mathematics.
- Apply engineering design to produce solutions that meet specified needs with consideration of public health, safety, and welfare, as well as global, cultural, social, environmental, and economic factors.
- Communicate effectively with a range of audiences.
- Recognize ethical and professional responsibilities in engineering situations and make informed judgments, which must consider the impact of engineering solutions in global, economic, environmental, and societal contexts.
- Function effectively on a team whose members together provide leadership, create a collaborative and inclusive environment, establish goals, plan tasks, and meet objectives.
- Develop and conduct appropriate experimentation, analyze and interpret data, and use engineering judgment to draw conclusions.
- Acquire and apply new knowledge as needed, using appropriate learning strategies.

Materials Science and Engineering, Comprehensive Major, B.S.

The following is a sample degree plan, based on the current catalog. It is based on the 128-credit graduation requirement specific to this degree program and assumes no transferred credits, no requirements waived by placement tests, no courses taken in the summer or winter, no repeated courses, and no remedial courses that may be required. This sample degree plan is intended for first-year students entering UW-Eau Claire in the fall semester. Your own degree plan may differ depending on the course of study selected (second major, minor, etc.). UW-Eau Claire cannot guarantee all

courses will be offered as shown, but will provide a range of courses that may enable prepared students to fulfill their requirements in a timely period. This sample degree plan is just a guide. Please consult your advisor, your degree audit, and the catalog to create your own degree plan. *Note:* In order to earn the required minimum of 128 credits for this degree program in four years, you should plan to take 16 credits each semester or 32 credits each year.

To earn a degree, students must fulfill all University Graduation Requirements, including the Core General Education Requirements (CGER). CGER course work in the following sample degree plan uses abbreviations such as CGER CL, CGER HA, and CGER NSWL to represent the learning outcomes students will meet via completion of the course. Please click [here](#) for a description of the outcomes and requirements.

FIRST YEAR

FIRST SEMESTER		
CHEM 108	General Chemistry I (CGER NSWL)	4
WRIT 116	Blugold Seminar in Critical Reading and Writing (CGER CL)	5
MATH 114	Calculus I (CGER MQR)	4
MSE 120	Introduction to Engineering	2
TOTAL		15

SECOND SEMESTER		
CHEM 109	General Chemistry II	4
MSE 221	Living in a Materials World	3
MATH 215	Calculus II	4
PHYS 231	University Physics I (CGER NSWL)	5
TOTAL		16

SECOND YEAR		
FIRST SEMESTER		
PHYS 232	University Physics II	5
MSE 286	Engineering Sophomore Seminar	1
MSE 315	Materials Characterization	4
DS 150	Computing in Python: Fundamentals and Procedural Programming	4
CGER Option: Communication & Literacy (CL)		3
TOTAL		17

SECOND SEMESTER		
CHEM 325	Organic Chemistry I with Laboratory	4
MSE 307	Engineering Statistics	4
MATH 312	Differential Equations and Linear Algebra	4
MSE 256	Introduction to Computer Aided Design	1
CGER Option: Civics & Perspectives (CP)		3
TOTAL		16

THIRD YEAR		
FIRST SEMESTER		
MSE 386	Engineering Junior Seminar	1
MSE 350	Thermodynamics of Materials	4
MSE 357	Phase Transformation & Kinetics	3
MSE 334	Soft Materials	4
CGER Option: Humanities & Arts (HA)		3

SECOND SEMESTER		

MSE 367	Macroprocessing of Materials	3
MSE 368	Macroprocessing Materials Lab	2
MSE 372	Transport Phenomena	3
CGER Option: Social & Behavioral Sciences (SBS)		3
CGER Option: Humanities & Arts (HA)		3
CGER Option: Civics & Perspectives (CP)		3
TOTAL		17
FOURTH YEAR		
FIRST SEMESTER		
MSE 362	Microelectronic Materials Processing	2
MSE 486	MS&E Capstone I	2
MSE 374	Electrical, Optical and Magnetic Properties of Materials	4
MSE Elective ^c		3
Engineering Elective ^a		3
General Elective		3
TOTAL		17
SECOND SEMESTER		
MSE 487	MS&E Capstone II	2
MSE Elective ^c		3
Technical Elective ^b		3
CGER Option: Social & Behavioral Sciences (SBS)		3
General Elective		4
TOTAL		15

Minimum total for the baccalaureate degree = 128 credits

- a Engineering Elective – Courses used to satisfy the engineering elective may not also be used as a technical elective. 3 credits are required from the following courses: ASRE 150, ASRE 310, BME 301, BME 320, BME 340, BME 370, PHYS 240, PHYS 255, PHYS 350, PHYS 360.
- b Technical Elective – 3 credits are required from the following courses: AI 250, ASRE 150, ASRE 310, BME 289, BME 291, BME 301, BME 320, BME 340, BME 370, BME 395, BME 399, BME 499, CHEM 213, CHEM 218, CHEM 326, CHEM 352, CS 140, DS 150, MATH 216, MATH 313, MATH 314, MATH 351, MATH 354, MATH 440, MSCI 291, MSCI 395, MSCI 399, MSCI 499, MSE 289, MSE 296, MSE 395, MSE 493, MSE 494, PHYS 240, PHYS 255, PHYS 340, PHYS 350, PHYS 356, PHYS 360. A maximum of one credit from MSE 296 may be applied toward the technical electives.
- c MSE Elective - 6 credits are required from the following courses: MSE 406, MSE 451, MSE 475.

RECOMMENDATIONS FOR HIGH IMPACT PRACTICES (HIPs)

The University of Wisconsin-Eau Claire encourages all students to participate in High Impact Practices. The following information identifies any specific recommendations that faculty in this major have concerning which HIPs might be most beneficial to students, and any recommendations about when those HIPs best fit into the degree plan. Students should also consult their faculty advisor for information on HIPs. There are many additional high impact opportunities available. Talk to your academic advisor for more information about incorporating HIPs like Study Abroad (<https://studyabroad.apps.uwec.edu/>), Intercultural Immersion (<https://www.uwec.edu/immersion/>), Internship (<https://www.uwec.edu/offices-services/advising-retention-career-center/career-services/internship/job-searching-and/>), and/or Student/Faculty Collaborative Research (<https://www.uwec.edu/offices->

services/office-research-and-sponsored-programs/getting-involved-student-faculty-research) into your time at UW-Eau Claire.

Students are especially encouraged to explore immersion experiences including faculty/student collaborative research, off-campus summer research, off-campus internship, Study Abroad, Domestic Intercultural Immersion, or other HIP experience.

Core General Education Requirements (CGER)

Core General Education Requirements (CGER)

The Core General Education Requirements (CGER) includes a minimum of 10 courses across 6 categories. Students must complete a minimum of 36 credits in courses approved for the CGER Core.

- Mathematics & Quantitative Reasoning (MQR) - 4 credits, one course minimum
 - Includes the University Mathematics Requirement¹
- Communication & Literacy (CL) - 8 credits, two courses minimum
 - Includes the University Writing Requirement (CL-W)²
- Natural Sciences & Wellness (NSW/NSWL) - 6 credits, one course minimum (NSW-Lab required)
- Social & Behavioral Sciences (SBS) - 6 credits, two courses minimum
- Humanities & Arts (HA) - 6 credits, two courses minimum
- Civics & Perspectives (CP) - 6 credits, two courses minimum

¹ University Mathematics Requirement:

Students satisfy the University Mathematics Requirement in one of four ways:

- completing an approved university-level mathematics course (MQR) with a grade of C (not C-) or above
- achieving a suitable score on the UW Math Placement Test (<https://www.uwec.edu/academics/academic-support/advising/testing/placement-testing/>)
- achieving a suitable score on an exam such as the Advanced Placement Calculus or Advanced Placement Statistics exams
- achieving a suitable score on a Credit by Examination administered by the Department of Mathematics.

² University Writing Requirement:

Students satisfy the University Writing Requirement in one of four ways:

- completing a Blugold Seminar in Critical Reading and Writing course (WRIT 102 (<https://catalog.uwec.edu/search/?P=WRIT%20102>), WRIT 114 (<https://catalog.uwec.edu/search/?P=WRIT%20114>), WRIT 116 (<https://catalog.uwec.edu/search/?P=WRIT%20116>), WRIT 118 (<https://catalog.uwec.edu/search/?P=WRIT%20118>), or WRIT 120 (<https://catalog.uwec.edu/search/?P=WRIT%20120>)) with a grade of C (not C-) or above
- achieving a suitable score on the English Placement Test (<https://www.uwec.edu/academics/blugold-seminar/writ-courses-placement/>) (WPT ENGL)
- achieving a suitable score on an exam such as the Advanced Placement English Literature and Composition or Advanced Placement English Language and Composition exams
- achieving a suitable score on the University Writing Program Portfolio.

Completion via Placement Test

- Writing: If the CL-W subcategory is satisfied through a placement test, the CGER Communication and Literacy requirement will be reduced from 8 credits (2 courses) to 3 credits (1 course).

- Mathematics: If the University Math Requirement is satisfied through a placement test, the CGER Mathematics & Quantitative Reasoning requirement will be considered fully met, replacing the 4-credit (1 course) requirement.
- Students must still complete 36 credits across 10 courses, with any remaining credits or courses eligible to be taken from any CGER category.

Biomedical Engineering, Comprehensive Major

(Code 252-001)

University Requirements

GRADUATION REQUIREMENTS FOR BACCALAUREATE DEGREE

Credit Requirements	
Minimum total for graduation ¹	120
Upper division credits (courses numbered 300 and higher)	39
Core General Education	10 courses, 36 credits
Academic Concentrations	
Grade Point Requirements ²	
Total	2.00 average
Resident	2.00 average
Major	2.00 average
Minor	2.00 average
Certificate	2.00 average
University Residency Requirements	
Minimum total	30
Senior year	23
Major, Standard, upper division in residence	12
Major, Comprehensive, upper division in residence	21
Certificate	25 percent of credits
Procedures Required for Graduation	
Obtain admission to the degree program and/or the College offering it.	
Apply for graduation on CampS.	

¹ Certain programs exceed this minimum.
² See special requirements in each College.

Applicability of Credits Toward Graduation

Junior College or Two-Year College Credits. A maximum of 72 semester credits earned in a junior college or two-year college will be accepted as degree credits at UW-Eau Claire.

Extension Credits. Credits earned in credit outreach courses offered by UW-Eau Claire are treated as resident credits. Credits earned in extension courses offered by other units of the Universities of Wisconsin System are treated as transfer credits. All other (non-UW) extension and correspondence credits are normally limited to one-fourth of the total required for graduation from any curriculum.

WTCS Credits. A maximum of 72 semester credits earned in college parallel programs at Madison Area Technical College, Milwaukee Area Technical

College, Nicolet Area Technical College, or Chippewa Valley Technical College may be accepted as degree credits at UW-Eau Claire. A set number of general education courses will be accepted from other technical schools. Occupational and technical courses may also be considered for transfer if the quality and content of the course work from the technical college is judged to be comparable to course work at UW-Eau Claire. Refer to the Transfer Credit Wizard (https://www.uwec.sis.wisconsin.edu/psp/eauprd-tb/EMPLOYEE/SA/c/EAU_SS_CUSTOM.EAU_TRNCRDWZ.GBL) or contact the UW-Eau Claire Admissions Office for information about the current transfer policy.

USAFI Credit. UW-Eau Claire will accept up to 32 semester credits for work done through the United States Armed Forces Institute, under the provision for non-UW correspondence credit (see Extension Credits above).

Activity Credit (band, chorus, drama, KINS 100-184 courses) Students may count toward graduation no more than one credit of KINS 110-184 courses. Students may count toward graduation no more than four credits earned in any single activity course and no more than 12 credits resulting from any combination of activity courses (excluding KINS 110-184 courses).

Other Restricted Credits. For other University restrictions, see the following: Cooperative Education; Credit by Examination; Satisfactory/Unsatisfactory Registration; Transfer of Credits. College or departmental restrictions may also be placed on Independent Study (399-499 courses), Directed Study (395-495), and other types of credits.

APPLICABILITY OF CREDITS TOWARD GRADUATION		Credit Restrictions
Satisfactory/Unsatisfactory		
Total degree credit		maximum 12
Major, Standard		maximum 1 course
Major, Comprehensive		maximum 2 courses
Minor		maximum 1 course
Credit by Examination		
Total degree credit		maximum ¼ of total
Major or minor		maximum ½ of total
Two-Year College Credits		
Total degree credit		maximum 72 credits
Activity credit (band, chorus, drama, KINS 100-184)		
Total KINS 100-184		maximum 1 credit
Total Band, chorus, drama		maximum 12 credits
Single course band, chorus, drama		maximum 4 credits
Extension credits		
UW-System		no maximum
Other extension/correspondence		maximum ¼ of total
USAFI		
USAFI		maximum 32 credits

Core General Education Requirements (CGER)

CGER Categories

Mathematics & Quantitative Reasoning (MQR) (http://catalog.uwec.edu/undergraduate/outcome-mqr/)	4 credit hours, 1 course min
Includes University Math Requirement ¹	
Communication & Literacy (CL) (http://catalog.uwec.edu/undergraduate/outcome-cl/)	8 credit hours, 2 course min (including CL-W)
Includes University Writing Requirement (CL-W) (http://catalog.uwec.edu/undergraduate/outcome-clw/) ²	
Natural Sciences & Wellness (NSW/NSWL) (http://catalog.uwec.edu/undergraduate/outcome-NSW/)	6 credit hours, 1 course min (NSW-Lab required)
Social & Behavioral Sciences (SBS) (https://catalog.uwec.edu/undergraduate/outcome-sbs/)	6 credit hours, 2 course min
Humanities & Arts (HA) (http://catalog.uwec.edu/undergraduate/outcome-ha/)	6 credit hours, 2 course min
Civics & Perspectives (CP) (http://catalog.uwec.edu/undergraduate/outcome-cp/)	6 credit hours, 2 course min
CGER Totals ³	
Credits	minimum 36 credits
Courses	minimum 10 courses

¹ **University Mathematics Requirement:**

Students satisfy the University Mathematics Requirement in one of four ways:

- completing an approved university-level mathematics course (MQR) with a grade of C (not C-) or above
- achieving a suitable score on the UW Math Placement Test (<https://www.uwec.edu/academics/academic-support/advising/testing/placement-testing/>)
- achieving a suitable score on an exam such as the Advanced Placement Calculus or Advanced Placement Statistics exams
- achieving a suitable score on a Credit by Examination administered by the Department of Mathematics.

² **University Writing Requirement:**

Students satisfy the University Writing Requirement in one of four ways:

- completing a Blugold Seminar in Critical Reading and Writing course (WRIT 102 (<https://catalog.uwec.edu/search/?P=WRIT%20102>), WRIT 114 (<https://catalog.uwec.edu/search/?P=WRIT%20114>), WRIT 116 (<https://catalog.uwec.edu/search/?P=WRIT%20116>), WRIT 118 (<https://catalog.uwec.edu/search/?P=WRIT%20118>), or WRIT 120 (<https://catalog.uwec.edu/search/?P=WRIT%20120>)) with a grade of C (not C-) or above
- achieving a suitable score on the English Placement Test (<https://www.uwec.edu/academics/blugold-seminar/writ-courses-placement/>) (WPT ENGL)
- achieving a suitable score on an exam such as the Advanced Placement English Literature and Composition or Advanced Placement English Language and Composition exams
- achieving a suitable score on the University Writing Program Portfolio.

³ **Completion via Placement Tests**

- Writing: If the CL-W subcategory is satisfied through a placement test, the CGER Communication and Literacy requirement will be reduced from 8 credits (2 courses) to 3 credits (1 course).
- Mathematics: If the University Math Requirement is satisfied through a placement test, the CGER Mathematics & Quantitative Reasoning requirement will be considered fully met, replacing the 4-credit (1 course) requirement.
- Students must still complete 36 credits across 10 courses, with any remaining credits or courses eligible to be taken from any CGER category.

College Degree Requirements

Bachelor of Science Degree (B.S.)

University Graduation Requirements. All candidates for degrees must fulfill the requirements for credits, curriculum, GPA, and University residency as specified in the section of this catalog titled University Graduation Requirements.

College Graduation Requirements: Grade Point Averages. All candidates for degrees in the College of Arts and Sciences must earn minimum resident and total GPAs of 2.00 in the major, the minor, and the certificate. The resident and total GPAs for the major are computed using all attempted credits applicable to the major including those offered by departments other than the major department. The resident and total GPAs for the minor and the certificate are computed similarly.

Major-Minor and Major-Certificate Requirements. A standard major (a minimum of 36 credits) must be supplemented by a minor (a minimum of 24 credits) or by a certificate (12 to 18 credits) to meet graduation requirements for completing a first and second degree program. No minor or certificate is required with a Comprehensive Major (60 or more credits) or with two majors of 36 or more credits each.

Certain degree programs which include Comprehensive Majors may require more than the minimum of 120 credits for graduation.

Acceptable academic program combinations are determined at the college level. A major and a minor or a major and certificate or two majors (if available) may not be elected in the same department or program, except in the approved combinations listed here.

College Credits. Earn at least 90 credits in courses offered by the College of Arts and Sciences.

Bachelor of Science Degree in the College of Arts and Sciences (B.S.)

Fulfillment of all University Graduation Requirements (which includes the Liberal Education Core); all College-level degree requirements (major and minor/certificate emphases, GPAs, earning at least 90 credits in Arts and Sciences course work); mathematics competency at the MATH 111, MATH 112 or MATH 113 level. Mathematics competency can be met in one of three ways: (1) Achieve a score on the mathematics placement test that qualifies the student to enter MATH 114. (2) Earn a grade of at least C (not C-) or a mark of S in MATH 111, MATH 112, or MATH 113. (3) Achieve a satisfactory score on the MATH 112 competency test. This test may be attempted no more than two times.

Major Requirements

(Code 252-001)

The Bachelor's of Science in Biomedical Engineering is a traditional engineering major that uses engineering principles and design concepts applied to medicine with a focus on health care. Biomedical Engineering consists of a diverse range of disciplines that are broadly focused on improving diagnosis, care and treatment of patients.

A minimum of 92 credits is required for the major and a minimum of 128 credits for the degree. In addition to core courses, students must complete 7 credits of biomedical engineering electives, and 3 credits of engineering electives.

Code	Title	Credits
Required Courses		
BIOMEDICAL ENGINEERING		
BME 301	3D Printing in Medicine	3

PHYS 360	Electronics	

¹ Only 6 credits from the CHEM 108 and CHEM 109 sequence or the CHEM 105/CHEM 106/CHEM 109 sequence can count toward the major.

² Courses from the Biomedical Engineering elective list not used to satisfy the Biomedical Engineering elective can be used to satisfy the engineering elective.

Program Learning Outcomes

Students completing this program will be expected to meet the following learning outcomes:

- Identify, formulate, and solve complex engineering problems by applying principles of engineering, science, and mathematics.
- Apply engineering design to produce solutions that meet specified needs with consideration of public health, safety, and welfare, as well as global, cultural, social, environmental, and economic factors.
- Communicate effectively with a range of audiences.
- Recognize ethical and professional responsibilities in engineering situations and make informed judgments, which must consider the impact of engineering solutions in global, economic, environmental, and societal contexts.
- Function effectively on a team whose members together provide leadership, create a collaborative and inclusive environment, establish goals, plan tasks, and meet objectives.
- Develop and conduct appropriate experimentation, analyze and interpret data, and use engineering judgment to draw conclusions.
- Acquire and apply new knowledge as needed, using appropriate learning strategies.

Biomedical Engineering, Comprehensive Major, B.S.

The following is a sample degree plan, based on the current catalog. It is based on the 128-credit graduation requirement specific to this degree program and assumes no transferred credits, no requirements waived by placement tests, no courses taken in the summer or winter, no repeated courses, and no remedial courses that may be required. This sample degree plan is intended for first-year students entering UW-Eau Claire in the fall semester. Your own degree plan may differ depending on the course of study selected (second major, minor, etc.). UW-Eau Claire cannot guarantee all courses will be offered as shown, but will provide a range of courses that may enable prepared students to fulfill their requirements in a timely period. This sample degree plan is just a guide. Please consult your advisor, your degree audit, and the catalog to create your own degree plan. *Note:* In order to earn the required minimum of 128 credits for this degree program in four years, you should plan to take 16 credits each semester or 32 credits each year.

To earn a degree, students must fulfill all University Graduation Requirements, including the Core General Education Requirements (CGER). CGER course work in the following sample degree plan uses abbreviations such as CGER CL, CGER HA, and CGER NSWL to represent the learning outcomes students will meet via completion of the course. BME 340	Biomaterials	4
BME 370	Medical Imaging	3
BME 330	Biomedical Engineering Instruments and Measurements w/lab	4
CGER Option: Social & Behavioral Sciences (SBS)		3

CGER Option: Civics & Perspectives (CP) 3

TOTAL 17

FOURTH YEAR

FIRST SEMESTER		
BME Elective ^a		4
BME 486	BME Capstone I	2
CGER Option: Humanities & Arts (HA)		3
General Electives		6

TOTAL 15

SECOND SEMESTER		
BME 487	BME Capstone II	2
BME 450	Medical and Implantable Devices w/lab	5

BME Elective ^a 3

Engineering Elective ^b 3

General Elective 2

TOTAL 15

Minimum total for the baccalaureate degree = 128 credits

a Biomedical Engineering Electives – 7 credits are required from the following courses: BME 425, BME 430, BME 460.

b Engineering Elective – 3 credits are required from the following courses: MSE 221, MSE 315, MSE 334, MSE 372, MSE 475, PHYS 255, PHYS 360.

Courses from the Biomedical Engineering Elective list not used to satisfy the Biomedical Engineering Elective may also be used to satisfy the Engineering Elective.

The differential tuition for engineering majors begins after a student exceeds 60 earned credits at the end of a spring semester.

RECOMMENDATIONS FOR HIGH IMPACT PRACTICES (HIPs)

The University of Wisconsin-Eau Claire encourages all students to participate in High Impact Practices. The following information identifies any specific recommendations that faculty in this major have concerning which HIPs might be most beneficial to students, and any recommendations about when those HIPs best fit into the degree plan. Students should also consult their faculty advisor for information on HIPs. There are many additional high impact opportunities available. Talk to your academic advisor for more information about incorporating HIPs like Study Abroad (<https://studyabroad.apps.uwec.edu/>), Intercultural Immersion (<https://www.uwec.edu/immersion/>), Internship (<https://www.uwec.edu/offices-services/advising-retention-career-center/career-services/internship/job-searching-and/>), and/or Student/Faculty Collaborative Research (<https://www.uwec.edu/offices-services/office-research-and-sponsored-programs/getting-involved-student-faculty-research/>) into your time at UW-Eau Claire.

Students are especially encouraged to explore immersion experiences including faculty/student collaborative research, off-campus summer research, off-campus internship, Study Abroad, Domestic Intercultural Immersion, or other HIP experience.

Core General Education Requirements (CGER)

Core General Education Requirements (CGER)

The Core General Education Requirements (CGER) includes a minimum of 10 courses across 6 categories. Students must complete a minimum of 36 credits in courses approved for the CGER Core.

- Mathematics & Quantitative Reasoning (MQR) - 4 credits, one course minimum
 - Includes the University Mathematics Requirement¹
- Communication & Literacy (CL) - 8 credits, two courses minimum
 - Includes the University Writing Requirement (CL-W)²
- Natural Sciences & Wellness (NSW/NSWL) - 6 credits, one course minimum (NSW-Lab required)
- Social & Behavioral Sciences (SBS) - 6 credits, two courses minimum
- Humanities & Arts (HA) - 6 credits, two courses minimum
- Civics & Perspectives (CP) - 6 credits, two courses minimum

¹ University Mathematics Requirement:

Students satisfy the University Mathematics Requirement in one of four ways:

- completing an approved university-level mathematics course (MQR) with a grade of C (not C-) or above
- achieving a suitable score on the UW Math Placement Test (<https://www.uwec.edu/academics/academic-support/advising/testing/placement-testing/>)
- achieving a suitable score on an exam such as the Advanced Placement Calculus or Advanced Placement Statistics exams
- achieving a suitable score on a Credit by Examination administered by the Department of Mathematics.

² University Writing Requirement:

Students satisfy the University Writing Requirement in one of four ways:

- completing a Blugold Seminar in Critical Reading and Writing course (WRIT 102 (<https://catalog.uwec.edu/search/?P=WRIT%20102>), WRIT 114 (<https://catalog.uwec.edu/search/?P=WRIT%20114>), WRIT 116 (<https://catalog.uwec.edu/search/?P=WRIT%20116>), WRIT 118 (<https://catalog.uwec.edu/search/?P=WRIT%20118>), or WRIT 120 (<https://catalog.uwec.edu/search/?P=WRIT%20120>)) with a grade of C (not C-) or above
- achieving a suitable score on the English Placement Test (<https://www.uwec.edu/academics/blugold-seminar/writ-courses-placement/>) (WPT ENGL)
- achieving a suitable score on an exam such as the Advanced Placement English Literature and Composition or Advanced Placement English Language and Composition exams
- achieving a suitable score on the University Writing Program Portfolio.

Completion via Placement Test

- Writing: If the CL-W subcategory is satisfied through a placement test, the CGER Communication and Literacy requirement will be reduced from 8 credits (2 courses) to 3 credits (1 course).
- Mathematics: If the University Math Requirement is satisfied through a placement test, the CGER Mathematics & Quantitative Reasoning requirement will be considered fully met, replacing the 4-credit (1 course) requirement.
- Students must still complete 36 credits across 10 courses, with any remaining credits or courses eligible to be taken from any CGER category.

Materials Science, Comprehensive Major

Liberal Arts (Code 250-010)

University Requirements

GRADUATION REQUIREMENTS FOR BACCALAUREATE DEGREE

Credit Requirements

Minimum total for graduation ¹	120
Upper division credits (courses numbered 300 and higher)	39
Core General Education	10 courses, 36 credits

Academic Concentrations

Grade Point Requirements ²

Total	2.00 average
Resident	2.00 average
Major	2.00 average
Minor	2.00 average
Certificate	2.00 average

University Residency Requirements

Minimum total	30
Senior year	23
Major, Standard, upper division in residence	12
Major, Comprehensive, upper division in residence	21
Certificate	25 percent of credits

Procedures Required for Graduation

Obtain admission to the degree program and/or the College offering it.

Apply for graduation on CampS.

¹ Certain programs exceed this minimum.

² See special requirements in each College.

Applicability of Credits Toward Graduation

Junior College or Two-Year College Credits. A maximum of 72 semester credits earned in a junior college or two-year college will be accepted as degree credits at UW-Eau Claire.

Extension Credits. Credits earned in credit outreach courses offered by UW-Eau Claire are treated as resident credits. Credits earned in extension courses offered by other units of the Universities of Wisconsin System are treated as transfer credits. All other (non-UW) extension and correspondence credits are normally limited to one-fourth of the total required for graduation from any curriculum.

WTCS Credits. A maximum of 72 semester credits earned in college parallel programs at Madison Area Technical College, Milwaukee Area Technical College, Nicolet Area Technical College, or Chippewa Valley Technical College may be accepted as degree credits at UW-Eau Claire. A set number of general education courses will be accepted from other technical schools. Occupational and technical courses may also be considered for transfer if the quality and content of the course work from the technical college is judged to be comparable to course work at UW-Eau Claire. Refer to the Transfer Credit Wizard (https://www.uwec.sis.wisconsin.edu/psp/eauprd-tb/EMPLOYEE/SA/c/EAU_SS_CUSTOM.EAU_TRNCRDWZ.GBL) or contact the UW-Eau Claire Admissions Office for information about the current transfer policy.

USAFI Credit. UW-Eau Claire will accept up to 32 semester credits for work done through the United States Armed Forces Institute, under the provision for non-UW correspondence credit (see Extension Credits above).

Activity Credit (band, chorus, drama, KINS 100-184 courses) Students may count toward graduation no more than one credit of KINS 110-184 courses. Students may count toward graduation no more than four credits earned in any single activity course and no more than 12 credits resulting from any combination of activity courses (excluding KINS 110-184 courses).

Other Restricted Credits. For other University restrictions, see the following: Cooperative Education; Credit by Examination; Satisfactory/Unsatisfactory Registration; Transfer of Credits. College or departmental restrictions may also be placed on Independent Study (399-499 courses), Directed Study (395-495), and other types of credits.

APPLICABILITY OF CREDITS TOWARD GRADUATION		Credit Restrictions
Satisfactory/Unsatisfactory		
Total degree credit		maximum 12
Major, Standard		maximum 1 course
Major, Comprehensive		maximum 2 courses
Minor		maximum 1 course
Credit by Examination		
Total degree credit		maximum ¼ of total
Major or minor		maximum ½ of total
Two-Year College Credits		
Total degree credit		maximum 72 credits
Activity credit (band, chorus, drama, KINS 100-184)		
Total KINS 100-184		maximum 1 credit
Total Band, chorus, drama		maximum 12 credits
Single course band, chorus, drama		maximum 4 credits
Extension credits		
UW-System		no maximum
Other extension/correspondence		maximum ¼ of total
USAFI		
USAFI		maximum 32 credits

Core General Education Requirements (CGER)

CGER Categories

Mathematics & Quantitative Reasoning (MQR) (http://catalog.uwec.edu/undergraduate/outcome-mqr/) Includes University Math Requirement ¹	4 credit hours, 1 course min
Communication & Literacy (CL) (http://catalog.uwec.edu/undergraduate/outcome-cl/)	8 credit hours, 2 course min (including CL-W)
Includes University Writing Requirement (CL-W) (http://catalog.uwec.edu/undergraduate/outcome-clw/) ²	

Natural Sciences & Wellness (NSW/NSWL) (http://catalog.uwec.edu/undergraduate/outcome-NSW/)	6 credit hours, 1 course min (NSW-Lab required)
Social & Behavioral Sciences (SBS) (https://catalog.uwec.edu/undergraduate/outcome-sbs/)	6 credit hours, 2 course min
Humanities & Arts (HA) (http://catalog.uwec.edu/undergraduate/outcome-ha/)	6 credit hours, 2 course min
Civics & Perspectives (CP) (http://catalog.uwec.edu/undergraduate/outcome-cp/)	6 credit hours, 2 course min
CGER Totals ³	
Credits	minimum 36 credits
Courses	minimum 10 courses

¹ University Mathematics Requirement:

Students satisfy the University Mathematics Requirement in one of four ways:

- completing an approved university-level mathematics course (MQR) with a grade of C (not C-) or above
- achieving a suitable score on the UW Math Placement Test (<https://www.uwec.edu/academics/academic-support/advising/testing/placement-testing/>)
- achieving a suitable score on an exam such as the Advanced Placement Calculus or Advanced Placement Statistics exams
- achieving a suitable score on a Credit by Examination administered by the Department of Mathematics.

² University Writing Requirement:

Students satisfy the University Writing Requirement in one of four ways:

- completing a Blugold Seminar in Critical Reading and Writing course (WRIT 102 (<https://catalog.uwec.edu/search/?P=WRIT%20102>), WRIT 114 (<https://catalog.uwec.edu/search/?P=WRIT%20114>), WRIT 116 (<https://catalog.uwec.edu/search/?P=WRIT%20116>), WRIT 118 (<https://catalog.uwec.edu/search/?P=WRIT%20118>), or WRIT 120 (<https://catalog.uwec.edu/search/?P=WRIT%20120>)) with a grade of C (not C-) or above
- achieving a suitable score on the English Placement Test (<https://www.uwec.edu/academics/blugold-seminar/writ-courses-placement/>) (WPT ENGL)
- achieving a suitable score on an exam such as the Advanced Placement English Literature and Composition or Advanced Placement English Language and Composition exams
- achieving a suitable score on the University Writing Program Portfolio.

³ Completion via Placement Tests

- Writing: If the CL-W subcategory is satisfied through a placement test, the CGER Communication and Literacy requirement will be reduced from 8 credits (2 courses) to 3 credits (1 course).
- Mathematics: If the University Math Requirement is satisfied through a placement test, the CGER Mathematics & Quantitative Reasoning requirement will be considered fully met, replacing the 4-credit (1 course) requirement.
- Students must still complete 36 credits across 10 courses, with any remaining credits or courses eligible to be taken from any CGER category.

Bachelor of Arts or Bachelor of Science Degree (B.A./B.S.)

University Graduation Requirements. All candidates for degrees must fulfill the requirements for credits, curriculum, GPA, and University residency as specified in the section of this catalog titled University Graduation Requirements.

College Graduation Requirements: Grade Point Averages. All candidates for degrees in the College of Arts and Sciences must earn minimum resident and total GPAs of 2.00 in the major, the minor, and the certificate. The resident and total GPAs for the major are computed using all attempted credits applicable to the major including those offered by departments other than the major department. The resident and total GPAs for the minor and the certificate are computed similarly.

Major-Minor and Major-Certificate Requirements. A standard major (a minimum of 36 credits) must be supplemented by a minor (a minimum of 24 credits) or by a certificate (12 to 18 credits) to meet graduation requirements for completing a first and second degree program. No minor or certificate is required with a Comprehensive Major (60 or more credits) or with two majors of 36 or more credits each.

Certain degree programs, which include Comprehensive Majors, may require more than the minimum of 120 credits for graduation.

Acceptable academic program combinations are determined at the college level. A major and a minor or a major and certificate or two majors (if available) may not be elected in the same department or program, except in the approved combinations listed here.

College Credits. Earn at least 90 credits in courses offered by the College of Arts and Sciences.

Bachelor of Arts Degree in the College of Arts and Sciences (B.A.)

Fulfillment of all University Graduation Requirements (which includes the Core General Education Requirements); all College-level degree requirements (major and minor/certificate emphases, GPAs, earning at least 90 credits in Arts and Sciences course work); second language competency at the 102 level. Second language competency may be met in one of two ways: (1) Demonstrate a level of second language competency that qualifies the student to enter the 201-level course in a second language. (2) Earn a grade of at least C (not C-) or a mark of S in a 102-level second language course (or AIS 112 or AIS 122 or SLHS 103).

Bachelor of Science Degree in the College of Arts and Sciences (B.S.)

Fulfillment of all University Graduation Requirements (which includes the Core General Education Requirements); all College-level degree requirements (major and minor/certificate emphases, GPAs, earning at least 90 credits in Arts and Sciences course work); mathematics competency at the MATH 111, MATH 112 or MATH 113 level. Mathematics competency can be met in one of three ways:

(1) Achieve a score on the mathematics placement test that qualifies the student to enter MATH 114. (2) Earn a grade of at least C (not C-) or a mark of S in MATH 111, MATH 112, or MATH 113. (3) Achieve a satisfactory score on the MATH 112 competency test. This test may be attempted no more than two times.

Major Requirements

Liberal Arts (Code 250-010)

The structure of the major is unique: it integrates an engineering-oriented field into a liberal arts and sciences degree, and is thus deliberately interdisciplinary and broadly defined, consistent with a core general education approach.

Students specialize through a chosen emphasis. The major serves students who plan to enter the workforce after graduation as well as students interested in graduate education in areas such as Materials Science, Engineering, Chemistry, and Physics.

The major is comprised of a minimum of 63 credits, including completion of core courses, at least six credits from courses in the Materials Science electives, and at least six credits in a chosen emphasis. Credits applied toward the electives and emphasis must be unique credits.

Code	Title	Credits
CORE COURSES		
Materials Science		
MSE 221	Living in a Materials World	3
MSE 286	Engineering Sophomore Seminar	1
MSE 315	Materials Characterization	4
MSE 334	Soft Materials	4
MSE 350	Thermodynamics of Materials	4
MSE 357	Phase Transformation & Kinetics	3
MSCI 384	Materials Science Junior Seminar	1
MSCI 484	Materials Science Capstone I	1
MSCI 485	Materials Science Capstone II	2
Chemistry		
CHEM 115	Chemical Principles	6
or		
CHEM 108 & CHEM 109	General Chemistry I and General Chemistry II ¹	
or		
CHEM 105 & CHEM 106 & CHEM 109	General Chemistry I Lecture and General Chemistry I Laboratory and General Chemistry II ¹	
CHEM 325	Organic Chemistry I with Laboratory	4
Mathematics		
MATH 114	Calculus I	4
MATH 215	Calculus II	4
Physics		
PHYS 231	University Physics I	5
PHYS 232	University Physics II	5
ELECTIVE COURSES		6
MSE 256	Introduction to Computer Aided Design	
MSE 289	Research Experience - MSE	
MSE 296	Student Academic Apprenticeship	
MSE 307	Engineering Statistics	
MSE 362	Microelectronic Materials Processing	
MSE 367	Macroprocessing of Materials	
MSE 368	Macroprocessing Materials Lab	
MSE 372	Transport Phenomena	
MSE 374	Electrical, Optical and Magnetic Properties of Materials	
MSE 395	Directed Studies	
MSE 406	Failure Analysis and Prevention	
MSE 451	Computational Materials Science	
MSE 475	Nanomaterials	
MSE 493	Collaborative Internship	

MSE 494	Off-campus Materials Science Internship
MSCI 395	Directed Studies
MSCI 399	Independent Study - Juniors
MSCI 499	Independent Study - Seniors

¹ Only six credits apply to major.

NOTES:

1. A maximum of one credit of MSE 296 may be applied toward the Electives category and a maximum of three credits may be applied to the Electives category from any of the following courses: MSE 296, MSE 289, MSE 395, MSE 493, MSE 494, MSCI 395, MSCI 399, and MSCI 499.
2. MATH 312 is recommended for students planning to attend graduate school.

EMPHASIS REQUIREMENTS

Six credits in an Emphasis required. All six emphasis credits must meet the requirements described in either A or B below.

A. Defined emphasis

- Be from the same prefix
- Be from the following prefixes: BIOL, BME, CHEM, CS, GEOL, MATH, MGMT, PHYS
- Be from UWEC courses numbered 300 or above, or from courses appropriate for a major, such as: BIOL 221, BIOL 222, BIOL 223, BME courses 200 level and above, CHEM 213, CHEM 218, CS 140, CS 150, CS 163, CS 170, GEOL 106, GEOL 110, GEOL 115, and MATH 216

B. Distributed emphasis

The student may pursue an emphasis that reflects a thematic area of concentration and intentional connections. Such an emphasis, with approval of the faculty advisor, must draw from courses appropriate for a major in another area distinct from Materials Science or Materials Science and Engineering.

Program Learning Outcomes

Students completing this program will be expected to meet the following learning outcomes:

- Identify, formulate, and solve complex engineering problems by applying principles of engineering, science, and mathematics.
- Communicate effectively with a range of audiences.
- Recognize ethical and professional responsibilities in engineering situations and make informed judgments, which must consider the impact of engineering solutions in global, economic, environmental, and societal contexts.
- Function effectively on a team whose members together provide leadership, create a collaborative and inclusive environment, establish goals, plan tasks, and meet objectives.
- Develop and conduct appropriate experimentation, analyze and interpret data, and use engineering judgment to draw conclusions.
- Acquire and apply new knowledge as needed, using appropriate learning strategies.

Materials Science, Comprehensive Major, B.S.

The following is a sample degree plan, based on the current catalog. It is based on the 120-credit graduation requirement and assumes no transferred credits, no requirements waived by placement tests, no courses taken in the summer or winter, no repeated courses, and no remedial courses that may be required. This sample degree plan is intended for first-year students entering UW-Eau Claire in the fall semester. Your own degree plan may differ depending on the course of study selected (second major, minor, etc.). UW-Eau Claire cannot guarantee all courses will be offered as shown, but will provide a range of courses that may enable prepared students to fulfill their requirements in a timely period. This sample degree plan is just a guide. Please consult your advisor, your degree audit, and the catalog to create your own degree plan. *Note:* In order to earn the required minimum of 120 credits for the degree in four years, you should plan to take 15 credits each semester or 30 credits each year.

To earn a degree, students must fulfill all University Graduation Requirements, including the Core General Education Requirements (CGER). CGER course work in the following sample degree plan uses abbreviations such as CGER CL, CGER HA, and CGER NSWL to represent the learning outcomes students will meet via completion of the course. Please click [here](#) for a description of the outcomes and requirements.

Students in this major have the option to pursue either a Bachelor of Arts (B.A.) or a Bachelor of Science (B.S.) degree. The degrees are distinguished by second language competency for the B.A. and a higher level of mathematics competency for the B.S.

FIRST YEAR

FIRST SEMESTER		
CHEM 108	General Chemistry I (CGER NSWL)	4
WRIT 116	Blugold Seminar in Critical Reading and Writing (CGER CL)	5
MATH 114	Calculus I (CGER MQR)	4
CGER Option: Humanities & Arts (HA)		3

TOTAL 16

SECOND SEMESTER		
CHEM 109	General Chemistry II	4
MSE 221	Living in a Materials World	3
MATH 215	Calculus II	4
PHYS 231	University Physics I (CGER NSWL)	5

TOTAL 16

SECOND YEAR

FIRST SEMESTER		
PHYS 232	University Physics II	5
MSE 286	Engineering Sophomore Seminar	1
MSE 315	Materials Characterization	4
CGER Option: Communication & Literacy (CL)		3
TOTAL		13

SECOND SEMESTER		
CHEM 325	Organic Chemistry I with Laboratory	4
MAT. SCI. Emphasis Course ^a		3
CGER Option: Social & Behavioral Sciences (SBS)		3
CGER Option: Civics & Perspectives (CP)		3
TOTAL		13

THIRD YEAR

FIRST SEMESTER		
MSCI 384	Materials Science Junior Seminar	1

MSE 350	Thermodynamics of Materials	4
MSE 357	Phase Transformation & Kinetics	3
MSE 334	Soft Materials	4
CGER Option: Civics & Perspectives (CP)		3
TOTAL		15
SECOND SEMESTER		
MSCI or MSE Elective ^b		3
CGER Option: Social & Behavioral Sciences (SBS)		3
General Electives ^c		9
TOTAL		15
FOURTH YEAR		
FIRST SEMESTER		
MSCI 484	Materials Science Capstone I	1
MSCI or MSE Elective ^b		3
CGER Option: Humanities & Arts (HA)		3
General Electives ^c		9
TOTAL		16
SECOND SEMESTER		
MSCI 485	Materials Science Capstone II	2
MAT. SCI. Emphasis Course ^a		3
General Electives ^c		11
TOTAL		16

Minimum total for the baccalaureate degree = 120 credits

a Mat. Sci. Emphasis – For either emphasis, 6 credits total are required. The emphasis may be met in one of two ways:

A. Defined emphasis

- Be from the same prefix
- Be from the following prefixes: BIOL, BME, CHEM, CS, GEOL, MATH, MGMT, PHYS
- Be from UWEC courses numbered 300 or above, or from courses appropriate for a major, such as: BIOL 221, BIOL 222, BIOL 223; BME courses 200 level and above, CHEM 213, CHEM 218; CS 140, CS 150, CS 163, CS 170, CS 255, CS 285; GEOL 106, GEOL 110, GEOL 115; and MATH 216

B. Distributed emphasis

The student may pursue an emphasis that reflects a thematic area of concentration and intentional connections. Such an emphasis, with approval of the faculty advisor, must draw from courses appropriate for a major in another area distinct from Materials Science and Engineering or its cognate subjects.

b Mat. Sci. Elective – 6 credits are required from courses with MSCI or MSE prefix (beyond those required for the core). Choose from MSE 256, MSE 362, MSE 367, MSE 368, MSE 372, MSE 374, MSE 451, MSE 475, MSE 493, MSE 494 or MSCI 395, MSCI 399, or MSCI 499. Up to 3 credits total from independent study, research, or internship (MSE 493, MSE 494 or MSCI 395, MSCI 399, or MSCI 499) may be applied towards the requirement.

c General Electives – should be chosen to ensure that 120 credits total and at least 39 credits of upper division courses (300 & 400 level) are included; the major includes at least 27 such credits (counting the Mat. Sci. Elective).

Electives can be selected from any discipline as long as the student meets the course prerequisites; courses outside of science and engineering are especially recommended. Study Abroad and Domestic Intercultural Immersion also meet some Electives; please consult an advisor.

RECOMMENDATIONS FOR HIGH IMPACT PRACTICES (HIPs)

The University of Wisconsin-Eau Claire encourages all students to participate in High Impact Practices. The following information identifies any specific recommendations that faculty in this major have concerning which HIPs might be most beneficial to students, and any recommendations about when those HIPs best fit into the degree plan. Students should also consult their faculty advisor for information on HIPs. There are many additional high impact opportunities available. Talk to your academic advisor for more information about incorporating HIPs like Study Abroad (<https://studyabroad.apps.uwec.edu/>), Intercultural Immersion (<https://www.uwec.edu/immersion/>), Internship (<https://www.uwec.edu/offices-services/advising-retention-career-center/career-services/internship/job-searching-and/>), and/or Student/Faculty Collaborative Research (<https://www.uwec.edu/offices-services/office-research-and-sponsored-programs/getting-involved-student-faculty-research/>) into your time at UW-Eau Claire.

Students are especially encouraged to explore immersion experiences including faculty/student collaborative research, off-campus summer research, off-campus internship, Study Abroad, Domestic Intercultural Immersion, or other HIP experience.

Core General Education Requirements (CGER)

Core General Education Requirements (CGER)

The Core General Education Requirements (CGER) includes a minimum of 10 courses across 6 categories. Students must complete a minimum of 36 credits in courses approved for the CGER Core.

- Mathematics & Quantitative Reasoning (MQR) - 4 credits, one course minimum
 - Includes the University Mathematics Requirement¹
- Communication & Literacy (CL) - 8 credits, two courses minimum
 - Includes the University Writing Requirement (CL-W)²
- Natural Sciences & Wellness (NSW/NSWL) - 6 credits, one course minimum (NSW-Lab required)
- Social & Behavioral Sciences (SBS) - 6 credits, two courses minimum
- Humanities & Arts (HA) - 6 credits, two courses minimum
- Civics & Perspectives (CP) - 6 credits, two courses minimum

¹ **University Mathematics Requirement:**

Students satisfy the University Mathematics Requirement in one of four ways:

- completing an approved university-level mathematics course (MQR) with a grade of C (not C-) or above
- achieving a suitable score on the UW Math Placement Test (<https://www.uwec.edu/academics/academic-support/advising/testing/placement-testing/>)
- achieving a suitable score on an exam such as the Advanced Placement Calculus or Advanced Placement Statistics exams
- achieving a suitable score on a Credit by Examination administered by the Department of Mathematics.

² **University Writing Requirement:**

Students satisfy the University Writing Requirement in one of four ways:

- completing a Blugold Seminar in Critical Reading and Writing course (WRIT 102 (<https://catalog.uwec.edu/search/?P=WRIT%20102>), WRIT 114 (<https://catalog.uwec.edu/search/?P=WRIT%20114>), WRIT 116 (<https://catalog.uwec.edu/search/?P=WRIT%20116>), WRIT 118 (<https://catalog.uwec.edu/search/?P=WRIT%20118>), or WRIT 120 (<https://catalog.uwec.edu/search/?P=WRIT%20120>)) with a grade of C (not C-) or above

- achieving a suitable score on the English Placement Test (<https://www.uwec.edu/academics/blugold-seminar/writ-courses-placement/>) (WPT ENGL)
- achieving a suitable score on an exam such as the Advanced Placement English Literature and Composition or Advanced Placement English Language and Composition exams
- achieving a suitable score on the University Writing Program Portfolio.

Completion via Placement Test

- Writing: If the CL-W subcategory is satisfied through a placement test, the CGER Communication and Literacy requirement will be reduced from 8 credits (2 courses) to 3 credits (1 course).
- Mathematics: If the University Math Requirement is satisfied through a placement test, the CGER Mathematics & Quantitative Reasoning requirement will be considered fully met, replacing the 4-credit (1 course) requirement.
- Students must still complete 36 credits across 10 courses, with any remaining credits or courses eligible to be taken from any CGER category.

Materials Science, Certificate

(Code 250-601)

The **Certificate in Materials Science** is designed to give students and professionals core technical knowledge and lab skills in materials science to enhance another degree.

Code	Title	Credits
A minimum of 15 credits, including:		
MSE 221	Living in a Materials World	3
MSE 256	Introduction to Computer Aided Design	1
MSE 315	Materials Characterization	4
MSE 357	Phase Transformation & Kinetics	3
MSE 334	Soft Materials	4-5
or MSE 367 & MSE 368	Macroprocessing of Materials and Macroprocessing Materials Lab	

Note: Students pursuing the Materials Science certificate and any of the Physics liberal arts standard major emphases to meet graduation requirements for completing a first and second degree program must earn a minimum of 48 unique credits between the certificate and the major.

Program Learning Outcomes

Students completing this program will be expected to meet the following learning outcome:

- Develop and conduct appropriate experimentation, analyze and interpret data, and use engineering judgment to draw conclusions.

Mathematics

Hibbard Humanities Hall 508
715-836-3301

Department Website (<https://www.uwec.edu/academics/college-arts-sciences/departments-programs/mathematics/>)

Mathematics has formed an important part of our intellectual heritage for centuries. In addition to having its own aesthetic value, it pervades a growing number of human endeavors. Mathematics is applied in fields as diverse

as business, engineering, the physical and life sciences, the social sciences, computer science, and the fine arts. Society therefore expects of its members ever increasing mathematical knowledge and skill.

The mathematics curriculum is designed to address these needs. It provides a core of fundamental mathematics as well as a variety of electives for individuals with specific interests. Students may select programs to prepare for careers in applied mathematics, science, actuarial science, research, mathematics education, or for graduate study. Regardless of emphasis, the programs prepare students for their immediate career objectives and provide a background that will enable them to thrive in light of changing career needs and goals.

Information for All Students

1. All entering first-year and transfer students must take the mathematics placement test.
2. A student may not register for credit in a course which is a prerequisite for any other course in which the student has credit.
3. It is strongly recommended that a grade of C or above be achieved in any mathematics course that is to be used as a prerequisite to another course.

Department Honors in Mathematics

The Honors Program in mathematics is intended for mathematics majors—including actuarial science, mathematics education, and liberal arts majors—who have demonstrated excellence in their coursework, and who want to experience the mathematical community outside the classroom. The high impact practices required for department honors in mathematics align with such experiences.

- **Eligibility:** Mathematics majors who have a resident and total GPA of 3.50 or higher, and have completed at least 12 hours of mathematics courses with a GPA of 3.50 or higher.
- **Application:** An application (which is available on the department website) must be submitted to the department chair, sponsored by a mathematics faculty member who can attest that you have completed two activities from the list below. The department recommends submitting the application during the junior year.
- **Requirements:** Graduate with a 3.50 GPA or higher in the major, and submit evidence to the department chair that two of the following have been satisfactorily completed:

1. A faculty/student collaborative mathematics research project
2. Score of 176 or above on the ETS Mathematics Content Knowledge assessment (Praxis II)
3. An off-campus mathematics presentation at a conference
4. Participation in a state, regional or national competition in Actuarial Science
5. Passing grade on two professional exams given by the Society of Actuaries or Casualty Actuarial Society
6. A mathematics related internship
7. Acceptance of a mathematics publication in a peer-reviewed journal.

Actuarial Science, Comprehensive Major

Liberal Arts (Code 182-001)

University Requirements

GRADUATION REQUIREMENTS FOR BACCALAUREATE DEGREE

Credit Requirements	
Minimum total for graduation ¹	120
Upper division credits (courses numbered 300 and higher)	39
Core General Education	10 courses, 36 credits
Academic Concentrations	
Grade Point Requirements ²	
Total	2.00 average
Resident	2.00 average

Major	2.00 average
Minor	2.00 average
Certificate	2.00 average

University Residency Requirements

Minimum total	30
Senior year	23
Major, Standard, upper division in residence	12
Major, Comprehensive, upper division in residence	21
Certificate	25 percent of credits

Procedures Required for Graduation

Obtain admission to the degree program and/or the College offering it.

Apply for graduation on CampS.

- ¹ Certain programs exceed this minimum.
² See special requirements in each College.

Applicability of Credits Toward Graduation

Junior College or Two-Year College Credits. A maximum of 72 semester credits earned in a junior college or two-year college will be accepted as degree credits at UW-Eau Claire.

Extension Credits. Credits earned in credit outreach courses offered by UW-Eau Claire are treated as resident credits. Credits earned in extension courses offered by other units of the Universities of Wisconsin System are treated as transfer credits. All other (non-UW) extension and correspondence credits are normally limited to one-fourth of the total required for graduation from any curriculum.

WTCS Credits. A maximum of 72 semester credits earned in college parallel programs at Madison Area Technical College, Milwaukee Area Technical College, Nicolet Area Technical College, or Chippewa Valley Technical College may be accepted as degree credits at UW-Eau Claire. A set number of general education courses will be accepted from other technical schools. Occupational and technical courses may also be considered for transfer if the quality and content of the course work from the technical college is judged to be comparable to course work at UW-Eau Claire. Refer to the Transfer Credit Wizard (https://www.uwec.sis.wisconsin.edu/psp/eauprd-tb/EMPLOYEE/SA/c/EAU_SS_CUSTOM.EAU_TRNCRDWZ.GBL) or contact the UW-Eau Claire Admissions Office for information about the current transfer policy.

USAFI Credit. UW-Eau Claire will accept up to 32 semester credits for work done through the United States Armed Forces Institute, under the provision for non-UW correspondence credit (see Extension Credits above).

Activity Credit (band, chorus, drama, KINS 100-184 courses) Students may count toward graduation no more than one credit of KINS 110-184 courses. Students may count toward graduation no more than four credits earned in any single activity course and no more than 12 credits resulting from any combination of activity courses (excluding KINS 110-184 courses).

Other Restricted Credits. For other University restrictions, see the following: Cooperative Education; Credit by Examination; Satisfactory/Unsatisfactory Registration; Transfer of Credits. College or departmental restrictions may also be placed on Independent Study (399-499 courses), Directed Study (395-495), and other types of credits.

APPLICABILITY OF CREDITS TOWARD GRADUATION

Credit Restrictions

Satisfactory/Unsatisfactory	
Total degree credit	maximum 12
Major, Standard	maximum 1 course
Major, Comprehensive	maximum 2 courses
Minor	maximum 1 course
Credit by Examination	
Total degree credit	maximum ¼ of total
Major or minor	maximum ½ of total
Two-Year College Credits	
Total degree credit	maximum 72 credits
Activity credit (band, chorus, drama, KINS 100-184)	
Total KINS 100-184	maximum 1 credit
Total Band, chorus, drama	maximum 12 credits
Single course band, chorus, drama	maximum 4 credits
Extension credits	
UW-System	no maximum
Other extension/correspondence	maximum ¼ of total
USAFI	
USAFI	maximum 32 credits

Core General Education Requirements (CGER)

CGER Categories

Mathematics & Quantitative Reasoning (MQR) (http://catalog.uwec.edu/undergraduate/outcome-mqr/) Includes University Math Requirement ¹	4 credit hours, 1 course min
Communication & Literacy (CL) (http://catalog.uwec.edu/undergraduate/outcome-cl/) Includes University Writing Requirement (CL-W) (http://catalog.uwec.edu/undergraduate/outcome-clw/) ²	8 credit hours, 2 course min (including CL-W)
Natural Sciences & Wellness (NSW/NSWL) (http://catalog.uwec.edu/undergraduate/outcome-NSW/)	6 credit hours, 1 course min (NSW-Lab required)
Social & Behavioral Sciences (SBS) (https://catalog.uwec.edu/undergraduate/outcome-sbs/)	6 credit hours, 2 course min
Humanities & Arts (HA) (http://catalog.uwec.edu/undergraduate/outcome-ha/)	6 credit hours, 2 course min
Civics & Perspectives (CP) (http://catalog.uwec.edu/undergraduate/outcome-cp/)	6 credit hours, 2 course min
CGER Totals ³	
Credits	minimum 36 credits

Courses	minimum 10 courses

¹ **University Mathematics Requirement:**

Students satisfy the University Mathematics Requirement in one of four ways:

- completing an approved university-level mathematics course (MQR) with a grade of C (not C-) or above
- achieving a suitable score on the UW Math Placement Test (<https://www.uwec.edu/academics/academic-support/advising/testing/placement-testing/>)
- achieving a suitable score on an exam such as the Advanced Placement Calculus or Advanced Placement Statistics exams
- achieving a suitable score on a Credit by Examination administered by the Department of Mathematics.

² **University Writing Requirement:**

Students satisfy the University Writing Requirement in one of four ways:

- completing a Blugold Seminar in Critical Reading and Writing course (WRIT 102 (<https://catalog.uwec.edu/search/?P=WRIT%20102>), WRIT 114 (<https://catalog.uwec.edu/search/?P=WRIT%20114>), WRIT 116 (<https://catalog.uwec.edu/search/?P=WRIT%20116>), WRIT 118 (<https://catalog.uwec.edu/search/?P=WRIT%20118>), or WRIT 120 (<https://catalog.uwec.edu/search/?P=WRIT%20120>)) with a grade of C (not C-) or above
- achieving a suitable score on the English Placement Test (<https://www.uwec.edu/academics/blugold-seminar/writ-courses-placement/>) (WPT ENGL)
- achieving a suitable score on an exam such as the Advanced Placement English Literature and Composition or Advanced Placement English Language and Composition exams
- achieving a suitable score on the University Writing Program Portfolio.

³ **Completion via Placement Tests**

- Writing: If the CL-W subcategory is satisfied through a placement test, the CGER Communication and Literacy requirement will be reduced from 8 credits (2 courses) to 3 credits (1 course).
- Mathematics: If the University Math Requirement is satisfied through a placement test, the CGER Mathematics & Quantitative Reasoning requirement will be considered fully met, replacing the 4-credit (1 course) requirement.
- Students must still complete 36 credits across 10 courses, with any remaining credits or courses eligible to be taken from any CGER category.

College Degree Requirements

Bachelor of Arts or Bachelor of Science Degree (B.A./B.S.)

University Graduation Requirements. All candidates for degrees must fulfill the requirements for credits, curriculum, GPA, and University residency as specified in the section of this catalog titled University Graduation Requirements.

College Graduation Requirements: Grade Point Averages. All candidates for degrees in the College of Arts and Sciences must earn minimum resident and total GPAs of 2.00 in the major, the minor, and the certificate. The resident and total GPAs for the major are computed using all attempted credits applicable to the major including those offered by departments other than the major

department. The resident and total GPAs for the minor and the certificate are computed similarly.

Major-Minor and Major-Certificate Requirements. A standard major (a minimum of 36 credits) must be supplemented by a minor (a minimum of 24 credits) or by a certificate (12 to 18 credits) to meet graduation requirements for completing a first and second degree program. No minor or certificate is required with a Comprehensive Major (60 or more credits) or with two majors of 36 or more credits each.

Certain degree programs, which include Comprehensive Majors, may require more than the minimum of 120 credits for graduation.

Acceptable academic program combinations are determined at the college level. A major and a minor or a major and certificate or two majors (if available) may not be elected in the same department or program, except in the approved combinations listed here.

College Credits. Earn at least 90 credits in courses offered by the College of Arts and Sciences.

Bachelor of Arts Degree in the College of Arts and Sciences (B.A.)

Fulfillment of all University Graduation Requirements (which includes the Core General Education Requirements); all College-level degree requirements (major and minor/certificate emphases, GPAs, earning at least 90 credits in Arts and Sciences course work); second language competency at the 102 level. Second language competency may be met in one of two ways: (1) Demonstrate a level of second language competency that qualifies the student to enter the 201-level course in a second language. (2) Earn a grade of at least C (not C-) or a mark of S in a 102-level second language course (or AIS 112 or AIS 122 or SLHS 103).

Bachelor of Science Degree in the College of Arts and Sciences (B.S.)

Fulfillment of all University Graduation Requirements (which includes the Core General Education Requirements); all College-level degree requirements (major and minor/certificate emphases, GPAs, earning at least 90 credits in Arts and Sciences course work); mathematics competency at the MATH 111, MATH 112 or MATH 113 level. Mathematics competency can be met in one of three ways: (1) Achieve a score on the mathematics placement test that qualifies the student to enter MATH 114. (2) Earn a grade of at least C (not C-) or a mark of S in MATH 111, MATH 112, or MATH 113. (3) Achieve a satisfactory score on the MATH 112 competency test. This test may be attempted no more than two times.

Major Requirements

Liberal Arts (Code 182-001)

This major prepares students for actuarial careers. Actuaries are business professionals who use mathematical models to evaluate the current financial impact of future contingent events. Actuaries work in a variety of settings including insurance companies, public accounting firms, government agencies, banks, and consulting firms.

Entry Requirements: To be admitted to this major students must:

1. Complete at least 15 credits of courses required for the major with a GPA in those courses of at least 3.0.
2. Complete MATH 346 and MATH 350 with a grade of B- or better, or earn a passing grade on the corresponding actuarial professional exam(s)

Code	Title	Credits
A minimum of 64 semester credits, including:		
MATH 114	Calculus I	4
MATH 150	Introduction to the Actuarial Career	1
MATH 215	Calculus II	4
MATH 216	Calculus III	4
MATH 346	Introduction to Probability	4
MATH 347	Mathematical Statistics	4
MATH 350	Introduction to Financial Mathematics	4
MATH 450	Foundations of Actuarial Science	4
MATH 475	Actuarial Foundations of Short-Term Coverages	4
MATH 312	Differential Equations and Linear Algebra	4
or MATH 324	Linear Algebra	
ECON 103	Principles of Microeconomics	3
or ECON 303	Intermediate Microeconomic Theory	
ECON 104	Principles of Macroeconomics	3
or ECON 304	Intermediate Macroeconomic Theory	
MATH 441	Linear Regression Analysis, with Time Series	3-4
or ECON 316	Econometrics	
ACCT 201	Introduction to Accounting	3
IS 240	Information Systems in Business	3
Communications Requirement		3
MATH 260	Actuarial Communications	
OR		
BCOM 206	Business Communication: Writing, Speaking, and Collaborating	
or BCOM 207	Business Communication: Persuasive Messaging, Conversations, and Professional Development	
FIN 320	Principles of Finance	3
DS 140	Basics of Data Analysis with R	2-4
or DS 150	Computing in Python: Fundamentals and Procedural Programming	
MATH 442	Advanced Statistical Modeling	4
or MATH 460	Contingent Payment Analysis	

Program Learning Outcomes

Students completing this program will be expected to meet the following learning outcomes:

- Apply a broad range of perspectives, including numerical, graphical, algebraic, analytical and verbal, to effectively connect and communicate mathematical ideas.
- Use mathematics to model and solve appropriate problems.
- Write mathematical proofs.
- Work independently and collaboratively on mathematical problems.
- Apply probability methods to describe random behavior.
- Use interest theory techniques to value deterministic cash flows.
- Apply both probability and theory of interest concepts to model and solve actuarial problems involving contingent cash flows.

Actuarial Science, Comprehensive Major, B.S.

The following is a sample degree plan, based on the current catalog. It is based on the 120-credit graduation requirement and assumes no transferred credits, no requirements waived by placement tests, no courses taken in the summer or winter, no repeated courses, and no remedial courses that may be required. This sample degree plan is intended for first-year students entering UW-Eau Claire in the fall semester. Your own degree plan may differ depending on the course of study selected (second major, minor, etc.). UW-Eau Claire cannot guarantee all courses will be offered as shown, but will provide a range of courses that may enable prepared students to fulfill their requirements in a timely period. This sample degree plan is just a guide. Please consult your advisor, your degree audit, and the catalog to create your own degree plan. *Note:* In order to earn the required minimum of 120 credits for the degree in four years, you should plan to take 15 credits each semester or 30 credits each year.

To earn a degree, students must fulfill all University Graduation Requirements, including the Core General Education Requirements (CGER). CGER course work in the following sample degree plan uses abbreviations such as CGER CL, CGER HA, and CGER NSWL to represent the learning outcomes students will meet via completion of the course. Please click here for a description of the outcomes and requirements.

Students in this major have the option to pursue either a Bachelor of Arts (B.A.) or a Bachelor of Science (B.S.) degree. The degrees are distinguished by second language competency for the B.A. and a higher level of mathematics competency for the B.S.

TOTAL FOURTH YEAR 27

Minimum total for the baccalaureate degree = 120 credits

a DS 140 is a prerequisite to MATH 347, MATH 441, and MATH 442.

b It is highly recommended that you use electives to complete a certificate or a minor. Recommended certificates are Information Systems (IS), Advanced Business Communication, or Computer Programmer.

Recommended courses for IS Certificate: IS 240, IS 310, IS 307, IS 304 (12 credits).

Advanced Business Communication Certificate requires 12 credits from BCOM, to be selected from the following: BCOM 206, BCOM 207, BCOM 306, BCOM 307, BCOM 309, BCOM 310, BCOM 401, BCOM 405, BCOM 490, BCOM 491, BCOM 495, BCOM 499.

Computer Programmer Certificate requires 15 credits: CS: CS 140, CS 150, CS 163 (or DS 150), CS 255.

- c Fall Only
- d Spring Only
- e One of MATH 260, BCOM 206, or BCOM 207 is required. It is highly recommended that you take two or all three of these courses.
- f It is highly recommended that you take both BCOM 206 and BCOM 207.
- g One of MATH 312 or MATH 324 is required.
- h One of MATH 460 or MATH 442 is required.
- i One of MATH 441 or ECON 316 is required.

Application to Major

Entry Requirements: To be admitted to this program students must:

1. Complete at least 15 credits of courses required for the major with a GPA in those courses of at least 3.0.
2. Complete MATH 346 and MATH 350 with a grade of B- or better, or earn a passing grade on the corresponding actuarial professional exam(s).

RECOMMENDATIONS FOR HIGH IMPACT PRACTICES (HIPs)

The University of Wisconsin-Eau Claire encourages all students to participate in High Impact Practices. The following information identifies any specific recommendations that faculty in this major have concerning which HIPs might be most beneficial to students, and any recommendations about when those HIPs best fit into the degree plan. Students should also consult their faculty advisor for information on HIPs. There are many additional high impact opportunities available. Talk to your academic advisor for more information about incorporating HIPs like Study Abroad (<https://studyabroad.apps.uwec.edu/>), Intercultural Immersion (<https://www.uwec.edu/immersion/>), Internship (<https://www.uwec.edu/offices-services/advising-retention-career-center/career-services/internship/job-searching-and/>), and/or Student/Faculty Collaborative Research (<https://www.uwec.edu/offices-services/office-research-and-sponsored-programs/getting-involved-student-faculty-research/>) into your time at UW-Eau Claire.

It is recommended that Actuarial Science students participate in one or more summer internships. Participating in the Career Conference in fall semester starting in the first year is highly recommended. Study Abroad is also an available opportunity but should be completed very early in your college career.

Core General Education Requirements (CGER)

Core General Education Requirements (CGER)

The Core General Education Requirements (CGER) includes a minimum of 10 courses across 6 categories. Students must complete a minimum of 36 credits in courses approved for the CGER Core.

- Mathematics & Quantitative Reasoning (MQR) - 4 credits, one course minimum
 - Includes the University Mathematics Requirement¹
- Communication & Literacy (CL) - 8 credits, two courses minimum
 - Includes the University Writing Requirement (CL-W)²

- Natural Sciences & Wellness (NSW/NSWL) - 6 credits, one course minimum (NSW-Lab required)
- Social & Behavioral Sciences (SBS) - 6 credits, two courses minimum
- Humanities & Arts (HA) - 6 credits, two courses minimum
- Civics & Perspectives (CP) - 6 credits, two courses minimum

¹ University Mathematics Requirement:

Students satisfy the University Mathematics Requirement in one of four ways:

- completing an approved university-level mathematics course (MQR) with a grade of C (not C-) or above
- achieving a suitable score on the UW Math Placement Test (<https://www.uwec.edu/academics/academic-support/advising/testing/placement-testing/>)
- achieving a suitable score on an exam such as the Advanced Placement Calculus or Advanced Placement Statistics exams
- achieving a suitable score on a Credit by Examination administered by the Department of Mathematics.

² University Writing Requirement:

Students satisfy the University Writing Requirement in one of four ways:

- completing a Blugold Seminar in Critical Reading and Writing course (WRIT 102 (<https://catalog.uwec.edu/search/?P=WRIT%20102>), WRIT 114 (<https://catalog.uwec.edu/search/?P=WRIT%20114>), WRIT 116 (<https://catalog.uwec.edu/search/?P=WRIT%20116>), WRIT 118 (<https://catalog.uwec.edu/search/?P=WRIT%20118>), or WRIT 120 (<https://catalog.uwec.edu/search/?P=WRIT%20120>)) with a grade of C (not C-) or above
- achieving a suitable score on the English Placement Test (<https://www.uwec.edu/academics/blugold-seminar/writ-courses-placement/>) (WPT ENGL)
- achieving a suitable score on an exam such as the Advanced Placement English Literature and Composition or Advanced Placement English Language and Composition exams
- achieving a suitable score on the University Writing Program Portfolio.

Completion via Placement Test

- Writing: If the CL-W subcategory is satisfied through a placement test, the CGER Communication and Literacy requirement will be reduced from 8 credits (2 courses) to 3 credits (1 course).
- Mathematics: If the University Math Requirement is satisfied through a placement test, the CGER Mathematics & Quantitative Reasoning requirement will be considered fully met, replacing the 4-credit (1 course) requirement.
- Students must still complete 36 credits across 10 courses, with any remaining credits or courses eligible to be taken from any CGER category.

Mathematical Problem Solving, Minor-Liberal Arts

Liberal Arts (Code 180-409)

A minimum of 24 credits from mathematics courses must be earned as described below.

Code	Title	Credits
Core Requirements:		
MATH 114	Calculus I	4
MATH 365	Patterns of Problem Solving	4

At least one of:	
MATH 314	Discrete Mathematics
MATH 322	Abstract Algebra for Elementary Teachers
Additional courses may be chosen from:	
MATH 201	Number and Operations I
MATH 202	Number and Operations II
MATH 246	Elementary Statistics
MATH 297	Developmental Tutoring Techniques ¹
MATH 302	Algebraic Thinking
MATH 303	Probability and Statistical Thinking
MATH 304	Geometric Thinking
MATH 307	Mathematics and Music
MATH 330	Modern Geometry
MATH 341	Classical Number Theory
MATH 441	Linear Regression Analysis, with Time Series
MATH 451	Teaching Mathematics with Technology
MATH 462	History of Mathematics
Or other mathematics courses numbered above 305	

¹ At most two credits from MATH 297 + MATH 397 may count for the minor.

Note: Students cannot pursue a major in Mathematics and this minor to meet graduation requirements for completing a first and second degree program.

Program Learning Outcome

Students completing this program will be expected to meet the following learning outcomes:

- Make sense of problems and persevere in solving them.
- Construct viable arguments and critique the reasoning of others utilizing precise language and multiple representations.
- Use appropriate tools strategically.
- Look for and make use of structure.

Mathematics Teaching, Comprehensive Major

Teaching (Code 184-001)

University Requirements

GRADUATION REQUIREMENTS FOR BACCALAUREATE DEGREE	
Credit Requirements	
Minimum total for graduation ¹	120

Core General Education Requirements (CGER)

CGER Categories

Mathematics & Quantitative Reasoning (MQR) (http://catalog.uwec.edu/undergraduate/outcome-mqr/)	4 credit hours, 1 course min
Includes University Math Requirement ¹	
Communication & Literacy (CL) (http://catalog.uwec.edu/undergraduate/outcome-cl/)	8 credit hours, 2 course min (including CL-W)
Includes University Writing Requirement (CL-W) (http://catalog.uwec.edu/undergraduate/outcome-clw/) ²	
Natural Sciences & Wellness (NSW/NSWL) (http://catalog.uwec.edu/undergraduate/outcome-NSW/)	6 credit hours, 1 course min (NSW-Lab required)
Social & Behavioral Sciences (SBS) (https://catalog.uwec.edu/undergraduate/outcome-sbs/)	6 credit hours, 2 course min
Humanities & Arts (HA) (http://catalog.uwec.edu/undergraduate/outcome-ha/)	6 credit hours, 2 course min
Civics & Perspectives (CP) (http://catalog.uwec.edu/undergraduate/outcome-cp/)	6 credit hours, 2 course min
CGER Totals ³	
Credits	minimum 36 credits

Courses	minimum 10 courses

¹ **University Mathematics Requirement:**

Students satisfy the University Mathematics Requirement in one of four ways:

- completing an approved university-level mathematics course (MQR) with a grade of C (not C-) or above
- achieving a suitable score on the UW Math Placement Test (<https://www.uwec.edu/academics/academic-support/advising/testing/placement-testing/>)
- achieving a suitable score on an exam such as the Advanced Placement Calculus or Advanced Placement Statistics exams
- achieving a suitable score on a Credit by Examination administered by the Department of Mathematics.

² **University Writing Requirement:**

Students satisfy the University Writing Requirement in one of four ways:

- completing a Blugold Seminar in Critical Reading and Writing course (WRIT 102 (<https://catalog.uwec.edu/search/?P=WRIT%20102>), WRIT 114 (<https://catalog.uwec.edu/search/?P=WRIT%20114>), WRIT 116 (<https://catalog.uwec.edu/search/?P=WRIT%20116>), WRIT 118 (<https://catalog.uwec.edu/search/?P=WRIT%20118>), or WRIT 120 (<https://catalog.uwec.edu/search/?P=WRIT%20120>)) with a grade of C (not C-) or above
- achieving a suitable score on the English Placement Test (<https://www.uwec.edu/academics/blugold-seminar/writ-courses-placement/>) (WPT ENGL)
- achieving a suitable score on an exam such as the Advanced Placement English Literature and Composition or Advanced Placement English Language and Composition exams
- achieving a suitable score on the University Writing Program Portfolio.

³ **Completion via Placement Tests**

- Writing: If the CL-W subcategory is satisfied through a placement test, the CGER Communication and Literacy requirement will be reduced from 8 credits (2 courses) to 3 credits (1 course).
- Mathematics: If the University Math Requirement is satisfied through a placement test, the CGER Mathematics & Quantitative Reasoning requirement will be considered fully met, replacing the 4-credit (1 course) requirement.
- Students must still complete 36 credits across 10 courses, with any remaining credits or courses eligible to be taken from any CGER category.

College Degree Requirements

College of Health and Human Sciences Requirements for Teacher Education Programs

1. Grade point requirements:

Abbreviation	Full Title
Resident	2.75 average
Total	2.75 average
Major	2.75 average
Minor (for certification only)	2.75 average

2. Residency requirements:

Abbreviation	Full Title
Minimum Total	30 credits
Senior Year	23 credits
Major, in upper division courses	12 credits
Comprehensive Major, in upper division courses	21 credits

3. Criteria and requirements for Admission to Education Program and Admission to the Professional Education Semester.
4. Specific requirements for programs offered in the College of Health and Human Sciences as outlined in department specific sections of this catalog.

Admission to Education Program

Admission to the Education Program

Students must apply for admission to the Education Program. Applications are due by October 1 for spring admission or March 1 for fall admission. To submit an application to an Education Program, students must satisfy all of the requirements listed below:

1. Approval by the appropriate department in the College of Health and Human Sciences.
2. Pre-education status.
3. Students must have attained at least Sophomore Status
4. Minimum total GPA of 2.5 or minimum resident GPA of 2.5. Admission is competitive; thus, the minimum GPA does not assure admission.
5. Completed the Core General Education Requirement (CGER) for Communication & Literacy-Writing with a C or better.
6. Completed the Core General Education Requirement (CGER) for Mathematics & Quantitative Reasoning with a C or better.
7. Good academic standing.
8. Complete an introductory education course with a field placement (SEIP 208, ES 212, or the equivalent) with a grade of C or better.

Specific majors may have additional department-level criteria. Consult with the department if needed.

Admission to the Professional Education Semester (Student Teaching or Internship)

Admission to the Professional Education Semester

The "Professional Education Semester" is defined as the semester in which a student is enrolled in the field experience of student teaching or internship.

Filing Notice of Intent to Student Teach Applications: Information concerning the Notice of Intent to Student Teach will be advertised widely and posted across campus each semester with an associated due date. Students who plan to enter the Professional Education Semester during the fall semester of the next academic year must file a Notice of Intent to Student Teach with the Teacher Education Program office in the fall. Students who plan to enter the Professional Education Semester during the spring semester of the next academic year must file a Notice of Intent to Student Teach with the Teacher Education Program office in the spring.

Students are encouraged to submit their Notice of Intent to Student Teach by the announced due date. Considerable time is required to process each notice—that is, to determine eligibility, to make arrangements with schools for an appropriate field experience assignment, and to allow for introductions, orientations, and, in some cases, interviews. Students who file on time will

benefit by the careful consideration that can be given to their requests; the later a notice is received, the fewer the placement assignments and choices still available will be. Failure to file a Notice of Intent to Student Teach on time may result in a delay of the Professional Education Semester.

Transfer and Special Students: No transfer or special student can enter the Professional Education Semester until after a full semester of residence and after earning a minimum of 15 credits at UW-Eau Claire. Senior transfer students enrolling in September must file an application for admission to the professional semester by December 1 for the following fall.

Criteria for Admission:

1. Admitted to the appropriate Education Program.
2. Good academic standing, as defined in the catalog.
3. A minimum of 90 earned credits prior to start of Professional Education Semester.
4. Minimum total GPA of 2.75 or minimum resident GPA of 2.75.
5. Completion of the 30-hour Human Relations Fieldwork requirement.
6. Evidence of freedom from Tuberculosis via test conducted by Student Health Services.
7. Completion of required criminal background check.

For placements that start in the Fall semester, criteria for admission must be met by March 1 of the prior semester. For placements that start in the Spring semester, criteria for admission must be met by October 1 of the prior semester.

For placements that start in the summer session, criteria for admission must be met by February 1 of the prior semester.

Licensure Requirements

Licensure to Teach

College of Health and Human Sciences graduates who desire to teach in Wisconsin, will apply for licensure using the WI Department of Public Instruction's (DPI) ELO (Electronic Licensing Online) by following all steps listed on the site including fingerprinting if applicable.

Upon completion of all program requirements and WI DPI teaching requirements, information will be forwarded to DPI verifying program completion, the completion of all required tests, and information on all certifications the teaching candidates are eligible for with licensure. Candidates will then apply for their Initial License.

It is recommended that graduates seeking licensure to teach in states other than Wisconsin request application forms and instructions from the state in which licensure is desired. Early inquiry is suggested as the certification requirements vary by state. In most cases, an official transcript of credits must accompany the completed application form; additional tests or coursework may be required. In general, candidates may be able to obtain licenses in other states; however, these licenses may be issued with stipulations. It is the student's responsibility to understand the licensing requirements of other states. UW-Eau Claire programs are designed to meet the requirements in Wisconsin only.

Criteria for Recommendation for Licensure:

1. Completion of a baccalaureate degree.
2. Completion of an approved education major, minor, and/or certificate.

3. 2.75 or higher GPA in the major, minor, and/or certificate (if certifiable). All college level courses, except student teaching or internship are included when determining GPA for licensure.

4. Completion of student teaching or internship courses with an S.

5. Content area proficiency as demonstrated by earning a minimum 3.0 GPA in content courses OR via obtaining a passing score on the appropriate Praxis II. Candidates for licensure in Languages must obtain a passing score on the ACTFL written portion (WPT) and must pass the OPI/OPIc within three years prior to the start of student teaching or internship. All candidates seeking licensure must also earn a passing score on the FORT.

Major Requirements

Teaching (Code 184-001)

Secondary Education (Grades 4-12) students complete courses in the content area(s) they plan to teach; one or more methods courses specific to the content area; Professional Education coursework focused on instructional methods, assessment of student learning, and curriculum and lesson planning; and ten credits of Student Teaching or Student Teaching Internship.

A Secondary Education student must complete the following requirements to be recommended for licensure:

1. Earn a grade of C or higher in all content-area specific methods coursework and Professional Education coursework.
2. Earn a grade of S in student teaching or student teaching internship.
3. Earn a content area GPA of 3.0 or higher OR complete the appropriate Praxis II or ACTFL test with a passing grade.

Code	Title	Credits
MATHEMATICS TEACHING MAJOR REQUIREMENTS		60
Mathematics Core Requirements		27

SEIP 219	Introduction to Developmental Disabilities and Autism Spectrum Disorders	
SEIP 306	Applied Behavior Analysis for Teachers	
SLHS 150	Introduction to Speech, Language, and Hearing Sciences (CGER SBS)	
Five additional mathematics elective courses are required.		5
Remaining courses are to be chosen from MATH 297 and MATH-prefix courses numbered above MATH 305. At most 2 credits of MATH 297 + MATH 397 may be counted towards the major.		
PROFESSIONAL EDUCATION REQUIREMENTS		21
ES 385	Social Foundations: Human Relations (CGER CP)	3
ES 441	Student Teaching in K-12 Education	10
or ES 440	Internship Teaching in K-12 Education	
ES 490	Historical, Legal, and Philosophical Foundations of Education	3
ES 497	Field Experience Seminar	2
SEIP 300	Inclusive Practices for Secondary Educators	3

Program Learning Outcomes

Students completing this program will be expected to meet the following learning outcomes:

- Apply a broad range of perspectives, including numerical, graphical, algebraic, analytical and verbal, to effectively connect and communicate mathematical ideas.
- Use mathematics to model and solve appropriate problems.
- Write mathematical proofs.
- Work independently and collaboratively on mathematical problems.
- Read and synthesize mathematical literature.
- Combine multiple techniques of proof to establish the truth of a mathematical statement.

Mathematics Teaching, Comprehensive Major (B.S.)

The following is a sample degree plan, based on the current catalog. It is based on the 120-credit graduation requirement and assumes no transferred credits, no requirements waived by placement tests, no courses taken in the summer or winter, no repeated courses, and no remedial courses that may be required. This sample degree plan is intended for first-year students entering UW-Eau Claire in the fall semester. Your own degree plan may differ depending on the course of study selected (second major, minor, etc.). UW-Eau Claire cannot guarantee all courses will be offered as shown but will provide a range of courses that may enable prepared students to fulfill their requirements in a timely period. This sample degree plan is just a guide. Please consult your advisor, your degree audit, and the catalog to create your own degree plan. Note: In order to earn the required minimum of 120 credits for the degree in four years, you should plan to take 15 credits each semester or 30 credits each year.

To earn a degree, students must fulfill all University Graduation Requirements, including the Core General Education Requirements (CGER). CGER course work in the following sample degree plan uses abbreviations such as CGER CL, CGER HA, and CGER NSWL to represent the learning outcomes students will meet via

completion of the course. Please click here for a description of the outcomes and requirements.

¹ Recommended

² MATH 345 is fall-only, and MATH 347 is spring-only. If planning to take MATH 347, then MATH 346 and DS 140 should be taken in the fall.

³ Five mathematics elective courses required. Options include MATH 297 and any MATH course above MATH 305. At most, 2 credits of MATH 297 and MATH 397 may be counted towards the major.

⁴ Education electives: Choose from SLHS 150, ES 315, PSYC 332, SEIP 306, ES 283, SEIP 219.

⁵ Students typically apply for admission to the Education Program during their third year.

RECOMMENDATIONS FOR HIGH IMPACT PRACTICES (HIPs)

The University of Wisconsin-Eau Claire encourages all students to participate in High Impact Practices. There are many high-impact opportunities available. Talk to your academic advisor for more information about incorporating HIPs like Study Abroad, Intercultural Immersion, Internship, and/or Student/Faculty Collaborative Research into your time at UW-Eau Claire.

Core General Education Requirements (CGER)

Core General Education Requirements (CGER)

The Core General Education Requirements (CGER) includes a minimum of 10 courses across 6 categories. Students must complete a minimum of 36 credits in courses approved for the CGER Core.

- Mathematics & Quantitative Reasoning (MQR) - 4 credits, one course minimum
 - Includes the University Mathematics Requirement ¹
- Communication & Literacy (CL) - 8 credits, two courses minimum
 - Includes the University Writing Requirement (CL-W) ²
- Natural Sciences & Wellness (NSW/NSWL) - 6 credits, one course minimum (NSW-Lab required)
- Social & Behavioral Sciences (SBS) - 6 credits, two courses minimum
- Humanities & Arts (HA) - 6 credits, two courses minimum
- Civics & Perspectives (CP) - 6 credits, two courses minimum

¹ **University Mathematics Requirement:**

Students satisfy the University Mathematics Requirement in one of four ways:

- completing an approved university-level mathematics course (MQR) with a grade of C (not C-) or above
- achieving a suitable score on the UW Math Placement Test (<https://www.uwec.edu/academics/academic-support/advising/testing/placement-testing/>)
- achieving a suitable score on an exam such as the Advanced Placement Calculus or Advanced Placement Statistics exams
- achieving a suitable score on a Credit by Examination administered by the Department of Mathematics.

² **University Writing Requirement:**

Students satisfy the University Writing Requirement in one of four ways:

- completing a Blugold Seminar in Critical Reading and Writing course (WRIT 102 (<https://catalog.uwec.edu/search/?P=WRIT%20102>), WRIT 114 (<https://catalog.uwec.edu/search/?P=WRIT%20114>), WRIT 116 (<https://catalog.uwec.edu/search/?P=WRIT%20116>), WRIT 118 (<https://catalog.uwec.edu/search/?P=WRIT%20118>), or WRIT 120 (<https://catalog.uwec.edu/search/?P=WRIT%20120>)) with a grade of C (not C-) or above
- achieving a suitable score on the English Placement Test (<https://www.uwec.edu/academics/blugold-seminar/writ-courses-placement/>) (WPT ENGL)
- achieving a suitable score on an exam such as the Advanced Placement English Literature and Composition or Advanced Placement English Language and Composition exams
- achieving a suitable score on the University Writing Program Portfolio.

Completion via Placement Test

- Writing: If the CL-W subcategory is satisfied through a placement test, the CGER Communication and Literacy requirement will be reduced from 8 credits (2 courses) to 3 credits (1 course).
- Mathematics: If the University Math Requirement is satisfied through a placement test, the CGER Mathematics & Quantitative Reasoning requirement will be considered fully met, replacing the 4-credit (1 course) requirement.
- Students must still complete 36 credits across 10 courses, with any remaining credits or courses eligible to be taken from any CGER category.

Mathematics Teaching, Major

Teaching (Code 184-201)

University Requirements

GRADUATION REQUIREMENTS FOR BACCALAUREATE DEGREE

Credit Requirements	
Minimum total for graduation ¹	120

Senior year	23
Major, Standard, upper division in residence	12
Major, Comprehensive, upper division in residence	21
Certificate	25 percent of credits

Procedures Required for Graduation

Obtain admission to the degree program and/or the College offering it.
Apply for graduation on CampS.

¹ Certain programs exceed this minimum.
² See special requirements in each College.

Applicability of Credits Toward Graduation

Junior College or Two-Year College Credits. A maximum of 72 semester credits earned in a junior college or two-year college will be accepted as degree credits at UW-Eau Claire.

Extension Credits. Credits earned in credit outreach courses offered by UW-Eau Claire are treated as resident credits. Credits earned in extension courses offered by other units of the Universities of Wisconsin System are treated as transfer credits. All other (non-UW) extension and correspondence credits are normally limited to one-fourth of the total required for graduation from any curriculum.

WTCS Credits. A maximum of 72 semester credits earned in college parallel programs at Madison Area Technical College, Milwaukee Area Technical College, Nicolet Area Technical College, or Chippewa Valley Technical College may be accepted as degree credits at UW-Eau Claire. A set number of general education courses will be accepted from other technical schools. Occupational and technical courses may also be considered for transfer if the quality and content of the course work from the technical college is judged to be comparable to course work at UW-Eau Claire. Refer to the Transfer Credit Wizard (https://www.uwec.sis.wisconsin.edu/psp/eauprd-tb/EMPLOYEE/SA/c/EAU_SS_CUSTOM.EAU_TRNCRDWZ.GBL) or contact the UW-Eau Claire Admissions Office for information about the current transfer policy.

USAFI Credit. UW-Eau Claire will accept up to 32 semester credits for work done through the United States Armed Forces Institute, under the provision for non-UW correspondence credit (see Extension Credits above).

Activity Credit (band, chorus, drama, KINS 100-184 courses) Students may count toward graduation no more than one credit of KINS 110-184 courses. Students may count toward graduation no more than four credits earned in any single activity course and no more than 12 credits resulting from any combination of activity courses (excluding KINS 110-184 courses).

Other Restricted Credits. For other University restrictions, see the following: Cooperative Education; Credit by Examination; Satisfactory/Unsatisfactory Registration; Transfer of Credits. College or departmental restrictions may also be placed on Independent Study (399-499 courses), Directed Study (395-495), and other types of credits.

APPLICABILITY OF CREDITS TOWARD GRADUATION		Credit Restrictions

Admission to Education Program

Admission to the Education Program

Students must apply for admission to the Education Program. Applications are due by October 1 for spring admission or March 1 for fall admission. To submit an application to an Education Program, students must satisfy all of the requirements listed below:

1. Approval by the appropriate department in the College of Health and Human Sciences.
2. Pre-education status.
3. Students must have attained at least Sophomore Status
4. Minimum total GPA of 2.5 or minimum resident GPA of 2.5. Admission is competitive; thus, the minimum GPA does not assure admission.
5. Completed the Core General Education Requirement (CGER) for Communication & Literacy-Writing with a C or better.
6. Completed the Core General Education Requirement (CGER) for Mathematics & Quantitative Reasoning with a C or better.
7. Good academic standing.
8. Complete an introductory education course with a field placement (SEIP 208, ES 212, or the equivalent) with a grade of C or better.

Specific majors may have additional department-level criteria. Consult with the department if needed.

Admission to Professional Education Semester (Student Teaching or Internship)

Admission to the Professional Education Semester

The "Professional Education Semester" is defined as the semester in which a student is enrolled in the field experience of student teaching or internship.

Filing Notice of Intent to Student Teach Applications: Information concerning the Notice of Intent to Student Teach will be advertised widely and posted across campus each semester with an associated due date. Students who plan to enter the Professional Education Semester during the fall semester of the next academic year must file a Notice of Intent to Student Teach with the Teacher Education Program office in the fall. Students who plan to enter the Professional Education Semester during the spring semester of the next academic year must file a Notice of Intent to Student Teach with the Teacher Education Program office in the spring.

Students are encouraged to submit their Notice of Intent to Student Teach by the announced due date. Considerable time is required to process each notice—that is, to determine eligibility, to make arrangements with schools for an appropriate field experience assignment, and to allow for introductions, orientations, and, in some cases, interviews. Students who file on time will benefit by the careful consideration that can be given to their requests; the later a notice is received, the fewer the placement assignments and choices still available will be. Failure to file a Notice of Intent to Student Teach on time may result in a delay of the Professional Education Semester.

Transfer and Special Students: No transfer or special student can enter the Professional Education Semester until after a full semester of residence and after earning a minimum of 15 credits at UW-Eau Claire. Senior transfer students enrolling in September must file an application for admission to the professional semester by December 1 for the following fall.

Criteria for Admission:

1. Admitted to the appropriate Education Program.
2. Good academic standing, as defined in the catalog.
3. A minimum of 90 earned credits prior to start of Professional Education Semester.
4. Minimum total GPA of 2.75 or minimum resident GPA of 2.75.
5. Completion of the 30-hour Human Relations Fieldwork requirement.
6. Evidence of freedom from Tuberculosis via test conducted by Student Health Services.
7. Completion of required criminal background check.

For placements that start in the Fall semester, criteria for admission must be met by March 1 of the prior semester. For placements that start in the Spring semester, criteria for admission must be met by October 1 of the prior semester. For placements that start in the summer session, criteria for admission must be met by February 1 of the prior semester.

Licensure Requirements

Licensure to Teach

College of Health and Human Sciences graduates who desire to teach in Wisconsin, will apply for licensure using the WI Department of Public Instruction's (DPI) ELO (Electronic Licensing Online) by following all steps listed on the site including fingerprinting if applicable.

Upon completion of all program requirements and WI DPI teaching requirements, information will be forwarded to DPI verifying program completion, the completion of all required tests, and information on all certifications the teaching candidates are eligible for with licensure. Candidates will then apply for their Initial License.

It is recommended that graduates seeking licensure to teach in states other than Wisconsin request application forms and instructions from the state in which licensure is desired. Early inquiry is suggested as the certification requirements vary by state. In most cases, an official transcript of credits must accompany the completed application form; additional tests or coursework may be required. In general, candidates may be able to obtain licenses in other states; however, these licenses may be issued with stipulations. It is the student's responsibility to understand the licensing requirements of other states. UW-Eau Claire programs are designed to meet the requirements in Wisconsin only.

Criteria for Recommendation for Licensure:

1. Completion of a baccalaureate degree.
2. Completion of an approved education major, minor, and/or certificate.
3. 2.75 or higher GPA in the major, minor, and/or certificate (if certifiable). All college level courses, except student teaching or internship are included when determining GPA for licensure.
4. Completion of student teaching or internship courses with an S.

5. Content area proficiency as demonstrated by earning a minimum 3.0 GPA in content courses OR via obtaining a passing score on the appropriate Praxis II. Candidates for licensure in Languages must obtain a passing score on the ACTFL written portion (WPT) and must pass the OPI/OPIc within three years prior to the start of student teaching or internship. All candidates seeking licensure must also earn a passing score on the FORT.

Major Requirements

Teaching (Code 184-201)

Secondary Education (Grades 4-12) students complete courses in the content area(s) they plan to teach; one or more methods courses specific to the content area; Professional Education coursework focused on instructional methods, assessment of student learning, and curriculum and lesson planning; and ten credits of Student Teaching or Student Teaching Internship.

A Secondary Education student must complete the following requirements to be recommended for licensure:

1. Earn a grade of C or higher in all content-area specific methods coursework and Professional Education coursework.
2. Earn a grade of S in student teaching or student teaching internship.
3. Earn a content area GPA of 3.0 or higher OR complete the appropriate Praxis II or ACTFL test with a passing grade.

Code	Title	Credits
MATHEMATICS TEACHING MAJOR REQUIREMENTS		36
MATH 114	Calculus I (CGER MQR)	4
MATH 215	Calculus II	4
MATH 216	Calculus III	4
MATH 324	Linear Algebra	4
MATH 330	Modern Geometry	4
MATH 345	Introduction to Probability and Mathematical Statistics	4
or MATH 347	Mathematical Statistics	
MATH 425	Abstract Algebra I	3
or MATH 316	Introduction to Real Analysis	
Select one: ¹		
MATH 451	Teaching Mathematics with Technology	
CS 140	Introduction to Computer Science	
DS 140	Basics of Data Analysis with R	
DS 150	Computing in Python: Fundamentals and Procedural Programming	
Additional credits to be chosen from mathematics courses numbered above 305. At most, 2 credits of MATH 397 may be counted towards the major.		
PROFESSIONAL EDUCATION REQUIREMENTS		35
ES 212	Exploring Schooling K-12	2-3
ES 313	Curriculum, Instructional Methods, and Disciplinary Literacies in Grades K-12	3
ES 314	Collaboration, Engagement, and Assessment in Grades K-12	3
ES 357	Teaching Mathematics in Grades 4-12	2
ES 385	Social Foundations: Human Relations (CGER CP)	3
ES 441	Student Teaching in K-12 Education	10
or ES 440	Internship Teaching in K-12 Education	

ES 490	Historical, Legal, and Philosophical Foundations of Education	3
ES 497	Field Experience Seminar	2
PSYC 260	Educational Psychology (CGER SBS)	3
SEIP 300	Inclusive Practices for Secondary Educators	3

¹ CS 140, DS 140, and DS 150 do not count toward the 36 credits required for the mathematics major.

Program Learning Outcomes

Students completing this program will be expected to meet the following learning outcomes:

- Apply a broad range of perspectives, including numerical, graphical, algebraic, analytical and verbal, to effectively connect and communicate mathematical ideas.
- Use mathematics to model and solve appropriate problems.
- Write mathematical proofs.
- Work independently and collaboratively on mathematical problems.
- Read and synthesize mathematical literature.
- Combine multiple techniques of proof to establish the truth of a mathematical statement.

Mathematics Teaching- Major (B.S.)

The following is a sample degree plan, based on the current catalog. It is based on the 120-credit graduation requirement and assumes no transferred credits, no requirements waived by placement tests, no courses taken in the summer or winter, no repeated courses, and no remedial courses that may be required. This sample degree plan is intended for first-year students entering UW-Eau Claire in the fall semester. Your own degree plan may differ depending on the course of study selected (second major, minor, etc.). UW-Eau Claire cannot guarantee all courses will be offered as shown, but will provide a range of courses that may enable prepared students to fulfill their requirements in a timely period. This sample degree plan is just a guide. Please consult your advisor, your degree audit, and the catalog to create your own degree plan. *Note:* In order to earn the required minimum of 120 credits for the degree in four years, you should plan to take 15 credits each semester or 30 credits each year.

To earn a degree, students must fulfill all University Graduation Requirements, including the Core General Education Requirements (CGER). CGER course work in the following sample degree plan uses abbreviations such as CGER CL, CGER HA, and CGER NSW-L to represent the learning outcomes students will meet via completion of the course. Please click (<https://catalog.uwec.edu/undergraduate/graduation-requirements/>)here (<https://catalog.uwec.edu/undergraduate/graduation-requirements/#header1>)for a description of the outcomes and requirements.

- ¹ Elective options may be used to fulfill requirements for a second standard major, a minor, or a certificate.
- ² Additional credits to be chosen from mathematics courses numbered above MATH 305. At most two credits from MATH 397 may be counted towards the major.
- ³ Application to the Education Program typically occurs during the third year for this major.
- ⁴ MATH 345 is offered in fall only. MATH 347 is offered in spring only. Students who plan to take MATH 347 should take MATH 346 and DS 140 in the fall.
- ⁵ CS 140, DS 140, or DS 150 may be taken as alternatives to MATH 451.

RECOMMENDATIONS FOR HIGH IMPACT PRACTICES (HIPs)

The University of Wisconsin-Eau Claire encourages all students to participate in High Impact Practices. There are many high-impact opportunities available. Talk to your academic advisor for more information about incorporating HIPs like Study Abroad, Intercultural Immersion, Internship, and/or Student/Faculty Collaborative Research into your time at UW-Eau Claire.

Once admitted to the Teacher Education program, students participate in High Impact Practices during the Block semester and Student Teaching.

Core General Education Requirements (CGER)

Core General Education Requirements (CGER)

The Core General Education Requirements (CGER) includes a minimum of 10 courses across 6 categories. Students must complete a minimum of 36 credits in courses approved for the CGER Core.

- Mathematics & Quantitative Reasoning (MQR) - 4 credits, one course minimum
 - Includes the University Mathematics Requirement¹
- Communication & Literacy (CL) - 8 credits, two courses minimum
 - Includes the University Writing Requirement (CL-W)²
- Natural Sciences & Wellness (NSW/NSWL) - 6 credits, one course minimum (NSW-Lab required)
- Social & Behavioral Sciences (SBS) - 6 credits, two courses minimum
- Humanities & Arts (HA) - 6 credits, two courses minimum
- Civics & Perspectives (CP) - 6 credits, two courses minimum

¹ University Mathematics Requirement:

Students satisfy the University Mathematics Requirement in one of four ways:

- completing an approved university-level mathematics course (MQR) with a grade of C (not C-) or above
- achieving a suitable score on the UW Math Placement Test (<https://www.uwec.edu/academics/academic-support/advising/testing/placement-testing/>)
- achieving a suitable score on an exam such as the Advanced Placement Calculus or Advanced Placement Statistics exams
- achieving a suitable score on a Credit by Examination administered by the Department of Mathematics.

² University Writing Requirement:

- Students satisfy the University Writing Requirement in one of four ways:
- completing a Blugold Seminar in Critical Reading and Writing course (WRIT 102 (<https://catalog.uwec.edu/search/?P=WRIT%20102>), WRIT 114 (<https://catalog.uwec.edu/search/?P=WRIT%20114>), WRIT 116 (<https://catalog.uwec.edu/search/?P=WRIT%20116>), WRIT 118 (<https://catalog.uwec.edu/search/?P=WRIT%20118>), or WRIT 120 (<https://catalog.uwec.edu/search/?P=WRIT%20120>)) with a grade of C (not C-) or above
 - achieving a suitable score on the English Placement Test (<https://www.uwec.edu/academics/blugold-seminar/writ-courses-placement/>) (WPT ENGL)
 - achieving a suitable score on an exam such as the Advanced Placement English Literature and Composition or Advanced Placement English Language and Composition exams
 - achieving a suitable score on the University Writing Program Portfolio.

Completion via Placement Test

- Writing: If the CL-W subcategory is satisfied through a placement test, the CGER Communication and Literacy requirement will be reduced from 8 credits (2 courses) to 3 credits (1 course).
- Mathematics: If the University Math Requirement is satisfied through a placement test, the CGER Mathematics & Quantitative Reasoning requirement will be considered fully met, replacing the 4-credit (1 course) requirement.
- Students must still complete 36 credits across 10 courses, with any remaining credits or courses eligible to be taken from any CGER category.

Mathematics, Actuarial Science, Minor

(Code 180-406)

This minor is intended to provide students with actuarial skills useful in business areas such as insurance and financial services. The coursework will prepare the student for at least two actuarial professional examinations.

Code	Title	Credits
Twenty-four semester credits, including:		
MATH 114	Calculus I	4
MATH 215	Calculus II	4
MATH 216	Calculus III	4
MATH 346	Introduction to Probability	4
MATH 347	Mathematical Statistics	4
MATH 350	Introduction to Financial Mathematics	4
Total Credits		24

MATH 450, MATH 460, and MATH 470, though not required, may be taken with department permission.

Program Learning Outcomes

Students completing this program will be expected to meet the following learning outcomes:

- Apply a broad range of perspectives, including numerical, graphical, algebraic, analytical and verbal, to effectively connect and communicate mathematical ideas.
- Apply probability methods to describe random behavior.
- Use interest theory techniques to value deterministic cash flows.

- Apply both probability and theory of interest concepts to model and solve actuarial problems involving contingent cash flows.

Mathematics, Comprehensive Major

Liberal Arts (Code 180-004)

University Requirements

GRADUATION REQUIREMENTS FOR BACCALAUREATE DEGREE

Credit Requirements	
Minimum total for graduation ¹	120
Upper division credits (courses numbered 300 and higher)	39
Core General Education	10 courses, 36 credits

Academic Concentrations	
Grade Point Requirements ²	
Total	2.00 average
Resident	2.00 average
Major	2.00 average
Minor	2.00 average
Certificate	2.00 average

University Residency Requirements	
Minimum total	30
Senior year	23
Major, Standard, upper division in residence	12
Major, Comprehensive, upper division in residence	21
Certificate	25 percent of credits

Procedures Required for Graduation

Obtain admission to the degree program and/or the College offering it.

Apply for graduation on CampS.

¹ Certain programs exceed this minimum.
² See special requirements in each College.

Applicability of Credits Toward Graduation

Junior College or Two-Year College Credits. A maximum of 72 semester credits earned in a junior college or two-year college will be accepted as degree credits at UW-Eau Claire.

Extension Credits. Credits earned in credit outreach courses offered by UW-Eau Claire are treated as resident credits. Credits earned in extension courses offered by other units of the Universities of Wisconsin System are treated as transfer credits. All other (non-UW) extension and correspondence credits are normally limited to one-fourth of the total required for graduation from any curriculum.

WTCS Credits. A maximum of 72 semester credits earned in college parallel programs at Madison Area Technical College, Milwaukee Area Technical College, Nicolet Area Technical College, or Chippewa Valley Technical College may be accepted as degree credits at UW-Eau Claire. A set number of general education courses will be accepted from other technical schools. Occupational and technical courses may also be considered for transfer if the quality

and content of the course work from the technical college is judged to be comparable to course work at UW-Eau Claire. Refer to the Transfer Credit Wizard (https://www.uwec.sis.wisconsin.edu/psp/eauprd-tb/EMPLOYEE/SA/c/EAU_SS_CUSTOM.EAU_TRNCRDWZ.GBL) or contact the UW-Eau Claire Admissions Office for information about the current transfer policy.

USAFI Credit. UW-Eau Claire will accept up to 32 semester credits for work done through the United States Armed Forces Institute, under the provision for non-UW correspondence credit (see Extension Credits above).

Activity Credit (band, chorus, drama, KINS 100-184 courses) Students may count toward graduation no more than one credit of KINS 110-184 courses. Students may count toward graduation no more than four credits earned in any single activity course and no more than 12 credits resulting from any combination of activity courses (excluding KINS 110-184 courses).

Other Restricted Credits. For other University restrictions, see the following: Cooperative Education; Credit by Examination; Satisfactory/Unsatisfactory Registration; Transfer of Credits. College or departmental restrictions may also be placed on Independent Study (399-499 courses), Directed Study (395-495), and other types of credits.

APPLICABILITY OF CREDITS TOWARD GRADUATION

	Credit Restrictions
Satisfactory/Unsatisfactory	
Total degree credit	maximum 12
Major, Standard	maximum 1 course
Major, Comprehensive	maximum 2 courses
Minor	maximum 1 course
Credit by Examination	
Total degree credit	maximum ¼ of total
Major or minor	maximum ½ of total
Two-Year College Credits	
Total degree credit	maximum 72 credits
Activity credit (band, chorus, drama, KINS 100-184)	
Total KINS 100-184	maximum 1 credit
Total Band, chorus, drama	maximum 12 credits
Single course band, chorus, drama	maximum 4 credits
Extension credits	
UW-System	no maximum
Other extension/correspondence	maximum ¼ of total
USAFI	
USAFI	maximum 32 credits

Core General Education Requirements (CGER)

CGER Categories

Mathematics & Quantitative Reasoning (MQR) (http://catalog.uwec.edu/undergraduate/outcome-mqr/)	4 credit hours, 1 course min
Includes University Math Requirement ¹	
Communication & Literacy (CL) (http://catalog.uwec.edu/undergraduate/outcome-cl/)	8 credit hours, 2 course min (including CL-W)
Includes University Writing Requirement (CL-W) (http://catalog.uwec.edu/undergraduate/outcome-clw/) ²	
Natural Sciences & Wellness (NSW/NSWL) (http://catalog.uwec.edu/undergraduate/outcome-NSW/)	6 credit hours, 1 course min (NSW-Lab required)
Social & Behavioral Sciences (SBS) (https://catalog.uwec.edu/undergraduate/outcome-sbs/)	6 credit hours, 2 course min
Humanities & Arts (HA) (http://catalog.uwec.edu/undergraduate/outcome-ha/)	6 credit hours, 2 course min

Credits	minimum 36 credits
Courses	minimum 10 courses

¹ University Mathematics Requirement:

Students satisfy the University Mathematics Requirement in one of four ways:

- completing an approved university-level mathematics course (MQR) with a grade of C (not C-) or above
- achieving a suitable score on the UW Math Placement Test (<https://www.uwec.edu/academics/academic-support/advising/testing/placement-testing/>)
- achieving a suitable score on an exam such as the Advanced Placement Calculus or Advanced Placement Statistics exams
- achieving a suitable score on a Credit by Examination administered by the Department of Mathematics.

² University Writing Requirement:

Students satisfy the University Writing Requirement in one of four ways:

- completing a Blugold Seminar in Critical Reading and Writing course (WRIT 102 (<https://catalog.uwec.edu/search/?P=WRIT%20102>), WRIT 114 (<https://catalog.uwec.edu/search/?P=WRIT%20114>), WRIT 116 (<https://catalog.uwec.edu/search/?P=WRIT%20116>), WRIT 118 (<https://catalog.uwec.edu/search/?P=WRIT%20118>), or WRIT 120 (<https://catalog.uwec.edu/search/?P=WRIT%20120>)) with a grade of C (not C-) or above
- achieving a suitable score on the English Placement Test (<https://www.uwec.edu/academics/blugold-seminar/writ-courses-placement/>) (WPT ENGL)
- achieving a suitable score on an exam such as the Advanced Placement English Literature and Composition or Advanced Placement English Language and Composition exams
- achieving a suitable score on the University Writing Program Portfolio.

³ Completion via Placement Tests

- Writing: If the CL-W subcategory is satisfied through a placement test, the CGER Communication and Literacy requirement will be reduced from 8 credits (2 courses) to 3 credits (1 course).

- Mathematics: If the University Math Requirement is satisfied through a placement test, the CGER Mathematics & Quantitative Reasoning requirement will be considered fully met, replacing the 4-credit (1 course) requirement.
- Students must still complete 36 credits across 10 courses, with any remaining credits or courses eligible to be taken from any CGER category.

College Degree Requirements

Bachelor of Arts or Bachelor of Science Degree (B.A./B.S.)

University Graduation Requirements. All candidates for degrees must fulfill the requirements for credits, curriculum, GPA, and University residency as specified in the section of this catalog titled University Graduation Requirements.

College Graduation Requirements: Grade Point Averages. All candidates for degrees in the College of Arts and Sciences must earn minimum resident and total GPAs of 2.00 in the major, the minor, and the certificate. The resident and total GPAs for the major are computed using all attempted credits applicable to the major including those offered by departments other than the major department. The resident and total GPAs for the minor and the certificate are computed similarly.

Major-Minor and Major-Certificate Requirements. A standard major (a minimum of 36 credits) must be supplemented by a minor (a minimum of 24 credits) or by a certificate (12 to 18 credits) to meet graduation requirements for completing a first and second degree program. No minor or certificate is required with a Comprehensive Major (60 or more credits) or with two majors of 36 or more credits each.

Certain degree programs, which include Comprehensive Majors, may require more than the minimum of 120 credits for graduation.

Acceptable academic program combinations are determined at the college level. A major and a minor or a major and certificate or two majors (if available) may not be elected in the same department or program, except in the approved combinations listed here.

College Credits. Earn at least 90 credits in courses offered by the College of Arts and Sciences.

Bachelor of Arts Degree in the College of Arts and Sciences (B.A.)

Fulfillment of all University Graduation Requirements (which includes the Core General Education Requirements); all College-level degree requirements (major and minor/certificate emphases, GPAs, earning at least 90 credits in Arts and Sciences course work); second language competency at the 102 level. Second language competency may be met in one of two ways: (1) Demonstrate a level of second language competency that qualifies the student to enter the 201-level course in a second language. (2) Earn a grade of at least C (not C-) or a mark of S in a 102-level second language course (or AIS 112 or AIS 122 or SLHS 103).

Bachelor of Science Degree in the College of Arts and Sciences (B.S.)

Fulfillment of all University Graduation Requirements (which includes the Core General Education Requirements); all College-level degree requirements (major and minor/certificate emphases, GPAs, earning at least 90 credits in Arts and Sciences course work); mathematics competency at the MATH 111, MATH 112 or MATH 113 level. Mathematics competency can be met in one of three ways: (1) Achieve a score on the mathematics placement test that qualifies the student to enter MATH 114. (2) Earn a grade of at least C (not C-) or a mark of S

in MATH 111, MATH 112, or MATH 113. (3) Achieve a satisfactory score on the MATH 112 competency test. This test may be attempted no more than two times.

Major Requirements

This comprehensive major prepares students in mathematics both deeply and broadly, and is especially well-suited for students who want to use independent and collaborative creative math problem-solving skills in their careers, either by going directly into industry or by attending graduate school in math, applied math, or a related field. Students in this major participate in at least two math research experiences for credit. Because of the variety of research topics available, students are strongly encouraged to consult a mathematics advisor early and frequently while pursuing this emphasis.

Liberal Arts (Code 180-004)

Code	Title	Credits
A minimum of sixty semester credits, including:		
Mathematics Core		22

MATH 114	Calculus I
MATH 215	Calculus II
MATH 216	Calculus III
MATH 316	Introduction to Real Analysis
MATH 324	Linear Algebra
MATH 425	Abstract Algebra I

Choose two:

MATH 317	Introduction to Real Analysis II
MATH 335	Introduction to Point-Set Topology
MATH 347	Mathematical Statistics
MATH 426	Abstract Algebra II

Elective mathematics courses		12-13

Remaining credits to be chosen from:

Math courses numbered above 305 ¹	

CS/logic requirement		3

Choose one:

CS 140	Introduction to Computer Science
CS 163	Introduction to Programming in C++
PHIL 250	Symbolic Logic
DS 150	Computing in Python: Fundamentals and Procedural Programming

or another course with approval of the mathematics department

Speech requirement		3

CJ 202	Fundamentals of Speech

Applications of mathematics requirement		6

Minimum 6 credits in a sequence selected from:

BIOL 221 & BIOL 222	Foundations of Biology I and Foundations of Biology II
CHEM 115	Chemical Principles

CHEM 105 & CHEM 106 & CHEM 109	General Chemistry I Lecture and General Chemistry I Laboratory and General Chemistry II
CHEM 108 & CHEM 109	General Chemistry I and General Chemistry II
CS 150 & CS 255	Object-Oriented Programming and Data Structures and Algorithms
ECON 103 & ECON 104	Principles of Microeconomics and Principles of Macroeconomics
PHYS 231 & PHYS 232	University Physics I and University Physics II
or another disciplinary sequence approved by the mathematics department	

¹ At most 2 credits of MATH 397 may be counted towards the required 60 credits.

Program Learning Outcomes

Students completing this program will be expected to meet the following learning outcomes:

- Apply a broad range of perspectives, including numerical, graphical, algebraic, analytical and verbal, to effectively connect and communicate mathematical ideas.
- Use mathematics to model and solve appropriate problems.
- Write mathematical proofs.
- Work independently and collaboratively on mathematical problems.
- Communicate mathematical concepts effectively with speech and writing skills.
- Identify and formulate open research problems and implement proper proof techniques to answer open problems.

Mathematics, Comprehensive Major, B.S.

The following is a sample degree plan, based on the current catalog. It is based on the 120-credit graduation requirement and assumes no transferred credits, no requirements waived by placement tests, no courses taken in the summer or winter, no repeated courses, and no remedial courses that may be required. This sample degree plan is intended for first-year students entering UW-Eau Claire in the fall semester. Your own degree plan may differ depending on the course of study selected (second major, minor, etc.). UW-Eau Claire cannot guarantee all courses will be offered as shown, but will provide a range of courses that may enable prepared students to fulfill their requirements in a timely period. This sample degree plan is just a guide. Please consult your advisor, your degree audit, and the catalog to create your own degree plan. *Note:* In order to earn the required minimum of 120 credits for the degree in four years, you should plan to take 15 credits each semester or 30 credits each year.

To earn a degree, students must fulfill all University Graduation Requirements, including the Core General Education Requirements (CGER). CGER course work in the following sample degree plan uses abbreviations such as CGER CL, CGER HA, and CGER NSWL to represent the learning outcomes students will meet via completion of the course. Please click here for a description of the outcomes and requirements.

Students in this major have the option to pursue either a Bachelor of Arts (B.A.) or a Bachelor of Science (B.S.) degree. The degrees are distinguished by second language competency for the B.A. and a higher level of mathematics competency for the B.S.

TOTAL FOURTH YEAR		29-30

Minimum total for the baccalaureate degree = 120 credits

* In the MATH APP sequence, many courses could fulfill (NSWL).

- Students must complete at least three credits to be selected from PHIL 250, CS 140, CS 163, DS 150, or another computer science course approved by the Math Department.
- MATH APP: A minimum of 6 credits must be earned in a sequence selected from BIOL 221/BIOL 222, CHEM 105/CHEM 106/CHEM 109, CHEM 108/CHEM 109, CHEM 115, CS 150/CS 255, ECON 103/ECON 104, PHYS 231/PHYS 232, or another sequence approved by the Math department. The credit load will vary by the sequence selected. If NSW is not satisfied by the courses used for the MATH APP requirement, then NSW must be satisfied via other CGER elective courses.
- Additional Math credits from courses numbered above 305; these courses are 3 or 4 credits.
- Students must complete two courses selected from MATH 317, MATH 335, MATH 347, or MATH 426 for the depth requirement. Prereqs for MATH 441 are DS 140 and one of MATH 345 or MATH 347 or MATH 246.

RECOMMENDATIONS FOR HIGH IMPACT PRACTICES (HIPs)

The University of Wisconsin-Eau Claire encourages all students to participate in High Impact Practices. The following information identifies any specific recommendations that faculty in this major have concerning which HIPs might be most beneficial to students, and any recommendations about when those HIPs best fit into the degree plan. Students should also consult their faculty advisor for information on HIPs. There are many additional high impact opportunities available. Talk to your academic advisor for more information about incorporating HIPs like Study Abroad, Intercultural Immersion, Internship, and/or Student/Faculty Collaborative Research into your time at UW-Eau Claire.

Student/Faculty Research: Students in the Research Emphasis are required to participate in student/faculty research during the semesters the student takes MATH 480 : Research Seminar. Many students also participate in longer research projects. During MATH 324, students will be introduced to the research interests of the faculty and are encouraged to contact the faculty member they are interested in working with. Recruitment for research projects also occurs during the year by email and announcements.

Study Abroad: Study Abroad can be a valuable and enriching part of your experience as a Math Research major. Upper level math courses can be taken at the University of Glasgow and the University of Aberdeen. MATH 312 and MATH 324 can be taken during the summer at the University of Glasgow. CGER electives can be fulfilled in numerous programs.

Core General Education Requirements (CGER)

Core General Education Requirements (CGER)

The Core General Education Requirements (CGER) includes a minimum of 10 courses across 6 categories. Students must complete a minimum of 36 credits in courses approved for the CGER Core.

- Mathematics & Quantitative Reasoning (MQR) - 4 credits, one course minimum
 - Includes the University Mathematics Requirement¹
- Communication & Literacy (CL) - 8 credits, two courses minimum
 - Includes the University Writing Requirement (CL-W)²
- Natural Sciences & Wellness (NSW/NSWL) - 6 credits, one course minimum (NSW-Lab required)
- Social & Behavioral Sciences (SBS) - 6 credits, two courses minimum
- Humanities & Arts (HA) - 6 credits, two courses minimum
- Civics & Perspectives (CP) - 6 credits, two courses minimum

¹ University Mathematics Requirement:

Students satisfy the University Mathematics Requirement in one of four ways:

- completing an approved university-level mathematics course (MQR) with a grade of C (not C-) or above
- achieving a suitable score on the UW Math Placement Test (<https://www.uwec.edu/academics/academic-support/advising/testing/placement-testing/>)
- achieving a suitable score on an exam such as the Advanced Placement Calculus or Advanced Placement Statistics exams
- achieving a suitable score on a Credit by Examination administered by the Department of Mathematics.

² University Writing Requirement:

Students satisfy the University Writing Requirement in one of four ways:

- completing a Blugold Seminar in Critical Reading and Writing course (WRIT 102 (<https://catalog.uwec.edu/search/?P=WRIT%20102>), WRIT 114 (<https://catalog.uwec.edu/search/?P=WRIT%20114>), WRIT 116 (<https://catalog.uwec.edu/search/?P=WRIT%20116>), WRIT 118 (<https://catalog.uwec.edu/search/?P=WRIT%20118>), or WRIT 120 (<https://catalog.uwec.edu/search/?P=WRIT%20120>)) with a grade of C (not C-) or above
- achieving a suitable score on the English Placement Test (<https://www.uwec.edu/academics/blugold-seminar/writ-courses-placement/>) (WPT ENGL)
- achieving a suitable score on an exam such as the Advanced Placement English Literature and Composition or Advanced Placement English Language and Composition exams
- achieving a suitable score on the University Writing Program Portfolio.

Completion via Placement Test

- Writing: If the CL-W subcategory is satisfied through a placement test, the CGER Communication and Literacy requirement will be reduced from 8 credits (2 courses) to 3 credits (1 course).
- Mathematics: If the University Math Requirement is satisfied through a placement test, the CGER Mathematics & Quantitative Reasoning requirement will be considered fully met, replacing the 4-credit (1 course) requirement.
- Students must still complete 36 credits across 10 courses, with any remaining credits or courses eligible to be taken from any CGER category.

Mathematics, Liberal Arts Emphasis, Major

Liberal Arts (Code 180-201)

University Requirements

GRADUATION REQUIREMENTS FOR BACCALAUREATE DEGREE

Credit Requirements	
Minimum total for graduation ¹	120
Upper division credits (courses numbered 300 and higher)	39
Core General Education	10 courses, 36 credits
Academic Concentrations	
Grade Point Requirements ²	
Total	2.00 average
Resident	2.00 average
Major	2.00 average
Minor	2.00 average
Certificate	2.00 average
University Residency Requirements	
Minimum total	30
Senior year	23
Major, Standard, upper division in residence	12
Major, Comprehensive, upper division in residence	21
Certificate	25 percent of credits
Procedures Required for Graduation	
Obtain admission to the degree program and/or the College offering it.	
Apply for graduation on CampS.	

¹ Certain programs exceed this minimum.
² See special requirements in each College.

Applicability of Credits Toward Graduation

Junior College or Two-Year College Credits. A maximum of 72 semester credits earned in a junior college or two-year college will be accepted as degree credits at UW-Eau Claire.

Extension Credits. Credits earned in credit outreach courses offered by UW-Eau Claire are treated as resident credits. Credits earned in extension courses offered by other units of the Universities of Wisconsin System are treated as transfer credits. All other (non-UW) extension and correspondence credits are normally limited to one-fourth of the total required for graduation from any curriculum.

WTCS Credits. A maximum of 72 semester credits earned in college parallel programs at Madison Area Technical College, Milwaukee Area Technical College, Nicolet Area Technical College, or Chippewa Valley Technical College may be accepted as degree credits at UW-Eau Claire. A set number of general education courses will be accepted from other technical schools. Occupational and technical courses may also be considered for transfer if the quality and content of the course work from the technical college is judged to be comparable to course work at UW-Eau Claire. Refer to the Transfer Credit Wizard (<https://www.uwec.sis.wisconsin.edu/psp/eauprd-tb/EMPLOYEE/>

SA/c/EAU_SS_CUSTOM.EAU_TRNCRDWZ.GBL) or contact the UW-Eau Claire Admissions Office for information about the current transfer policy.

USAFI Credit. UW-Eau Claire will accept up to 32 semester credits for work done through the United States Armed Forces Institute, under the provision for non-UW correspondence credit (see Extension Credits above).

Activity Credit (band, chorus, drama, KINS 100-184 courses) Students may count toward graduation no more than one credit of KINS 110-184 courses. Students may count toward graduation no more than four credits earned in any single activity course and no more than 12 credits resulting from any combination of activity courses (excluding KINS 110-184 courses).

Other Restricted Credits. For other University restrictions, see the following: Cooperative Education; Credit by Examination; Satisfactory/Unsatisfactory Registration; Transfer of Credits. College or departmental restrictions may also be placed on Independent Study (399-499 courses), Directed Study (395-495), and other types of credits.

APPLICABILITY OF CREDITS TOWARD GRADUATION		Credit Restrictions
Satisfactory/Unsatisfactory		
Total degree credit		maximum 12
Major, Standard		maximum 1 course
Major, Comprehensive		maximum 2 courses
Minor		maximum 1 course
Credit by Examination		
Total degree credit		maximum ¼ of total
Major or minor		maximum ½ of total
Two-Year College Credits		
Total degree credit		maximum 72 credits
Activity credit (band, chorus, drama, KINS 100-184)		
Total KINS 100-184		maximum 1 credit
Total Band, chorus, drama		maximum 12 credits
Single course band, chorus, drama		maximum 4 credits
Extension credits		
UW-System		no maximum
Other extension/correspondence		maximum ¼ of total
USAFI		
USAFI		maximum 32 credits

² University Writing Requirement:

Students satisfy the University Writing Requirement in one of four ways:

- completing a Blugold Seminar in Critical Reading and Writing course (WRIT 102 (<https://catalog.uwec.edu/search/?P=WRIT%20102>), WRIT 114 (<https://catalog.uwec.edu/search/?P=WRIT%20114>), WRIT 116 (<https://catalog.uwec.edu/search/?P=WRIT%20116>), WRIT 118 (<https://catalog.uwec.edu/search/?P=WRIT%20118>), or WRIT 120 (<https://catalog.uwec.edu/search/?P=WRIT%20120>)) with a grade of C (not C-) or above
- achieving a suitable score on the English Placement Test (<https://www.uwec.edu/academics/blugold-seminar/writ-courses-placement/>) (WPT ENGL)
- achieving a suitable score on an exam such as the Advanced Placement English Literature and Composition or Advanced Placement English Language and Composition exams
- achieving a suitable score on the University Writing Program Portfolio.

³ Completion via Placement Tests

- Writing: If the CL-W subcategory is satisfied through a placement test, the CGER Communication and Literacy requirement will be reduced from 8 credits (2 courses) to 3 credits (1 course).
- Mathematics: If the University Math Requirement is satisfied through a placement test, the CGER Mathematics & Quantitative Reasoning requirement will be considered fully met, replacing the 4-credit (1 course) requirement.

- Students must still complete 36 credits across 10 courses, with any remaining credits or courses eligible to be taken from any CGER category.

College Degree Requirements

Bachelor of Arts or Bachelor of Science Degree (B.A./B.S.)

University Graduation Requirements. All candidates for degrees must fulfill the requirements for credits, curriculum, GPA, and University residency as specified in the section of this catalog titled University Graduation Requirements.

College Graduation Requirements: Grade Point Averages. All candidates for degrees in the College of Arts and Sciences must earn minimum resident and total GPAs of 2.00 in the major, the minor, and the certificate. The resident and total GPAs for the major are computed using all attempted credits applicable to the major including those offered by departments other than the major department. The resident and total GPAs for the minor and the certificate are computed similarly.

Major-Minor and Major-Certificate Requirements. A standard major (a minimum of 36 credits) must be supplemented by a minor (a minimum of 24 credits) or by a certificate (12 to 18 credits) to meet graduation requirements for completing a first and second degree program. No minor or certificate is required with a Comprehensive Major (60 or more credits) or with two majors of 36 or more credits each.

Certain degree programs, which include Comprehensive Majors, may require more than the minimum of 120 credits for graduation.

Acceptable academic program combinations are determined at the college level. A major and a minor or a major and certificate or two majors (if available) may not be elected in the same department or program, except in the approved combinations listed here.

College Credits. Earn at least 90 credits in courses offered by the College of Arts and Sciences.

Bachelor of Arts Degree in the College of Arts and Sciences (B.A.)

Fulfillment of all University Graduation Requirements (which includes the Core General Education Requirements); all College-level degree requirements (major and minor/certificate emphases, GPAs, earning at least 90 credits in Arts and Sciences course work); second language competency at the 102 level. Second language competency may be met in one of two ways: (1) Demonstrate a level of second language competency that qualifies the student to enter the 201-level course in a second language. (2) Earn a grade of at least C (not C-) or a mark of S in a 102-level second language course (or AIS 112 or AIS 122 or SLHS 103).

Bachelor of Science Degree in the College of Arts and Sciences (B.S.)

Fulfillment of all University Graduation Requirements (which includes the Core General Education Requirements); all College-level degree requirements (major and minor/certificate emphases, GPAs, earning at least 90 credits in Arts and Sciences course work); mathematics competency at the MATH 111, MATH 112 or MATH 113 level. Mathematics competency can be met in one of three ways:

- (1) Achieve a score on the mathematics placement test that qualifies the student to enter MATH 114.
- (2) Earn a grade of at least C (not C-) or a mark of S in MATH 111, MATH 112, or MATH 113.
- (3) Achieve a satisfactory score on the MATH 112 competency test. This test may be attempted no more than two times.

Major Requirements

Liberal Arts (Code 180-201)

The liberal arts emphasis is the traditional mathematics major, providing preparation for graduate school as well as a broad range of careers in business, government, and industry. Because of the variety of courses available, students are strongly encouraged to consult a mathematics advisor early and frequently while pursuing this emphasis.

A minimum of 36 credits from mathematics courses must be earned as described below.

Code	Title	Credits
Required:		
MATH 114	Calculus I	4
MATH 215	Calculus II	4
MATH 216	Calculus III	4
MATH 316	Introduction to Real Analysis	3
MATH 324	Linear Algebra	4
MATH 425	Abstract Algebra I	3
At least one of the following:		3
MATH 317	Introduction to Real Analysis II	
MATH 426	Abstract Algebra II	
Additional mathematics courses numbered above MATH 305.		11
At most 2 credits of MATH 397 may be counted towards the required 36 credits.		

Code	Title	Credits
Three credits required, not counted toward credits in major, from the following:		
PHIL 250	Symbolic Logic	
CS 140	Introduction to Computer Science	
CS 163	Introduction to Programming in C++	
DS 150	Computing in Python: Fundamentals and Procedural Programming	
Another computer science course approved by the Mathematics Department		

Program Learning Outcomes

Students completing this program will be expected to meet the following learning outcomes:

- Apply a broad range of perspectives, including numerical, graphical, algebraic, analytical and verbal, to effectively connect and communicate mathematical ideas.
- Use mathematics to model and solve appropriate problems.
- Write mathematical proofs.
- Work independently and collaboratively on mathematical problems.
- Read and synthesize mathematical literature.
- Combine multiple techniques of proof to establish the truth of a mathematical statement.

Mathematics, Liberal Arts Emphasis, Major, B.S.

The following is a sample degree plan, based on the current catalog. It is based on the 120-credit graduation requirement and assumes no transferred credits, no requirements waived by placement tests, no courses taken in the summer or winter, no repeated courses, and no remedial courses that may be required. This sample degree plan is intended for first-year students entering

UW-Eau Claire in the fall semester. Your own degree plan may differ depending on the course of study selected (second major, minor, etc.). UW-Eau Claire cannot guarantee all courses will be offered as shown, but will provide a range of courses that may enable prepared students to fulfill their requirements in a timely period. This sample degree plan is just a guide. Please consult your advisor, your degree audit, and the catalog to create your own degree plan. *Note:* In order to earn the required minimum of 120 credits for the degree in four years, you should plan to take 15 credits each semester or 30 credits each year.

To earn a degree, students must fulfill all University Graduation Requirements, including the Core General Education Requirements (CGER). CGER course work in the following sample degree plan uses abbreviations such as CGER CL, CGER HA, and CGER NSWL to represent the learning outcomes students will meet via completion of the course. Please click [here](#) for a description of the outcomes and requirements.

Students in this major have the option to pursue either a Bachelor of Arts (B.A.) or a Bachelor of Science (B.S.) degree. The degrees are distinguished by second language competency for the B.A. and a higher level of mathematics competency for the B.S.

Minimum total for the baccalaureate degree = 120 credits

- a Additional Math credits from courses numbered above 305; most of these courses are 3 or 4 credits.
- b Students must complete at least three credits to be selected from PHIL 250, CS 140, CS 163, DS 150, or another computer science course approved by the Math Department.
- c Liberal Arts Emphasis: at least one of MATH 317 or MATH 426. MATH 317 is offered spring of odd years only while MATH 426 is offered spring of even years only.

RECOMMENDATIONS FOR HIGH IMPACT PRACTICES (HIPs)

The University of Wisconsin-Eau Claire encourages all students to participate in High Impact Practices. The following information identifies any specific recommendations that faculty in this major have concerning which HIPs might be most beneficial to students, and any recommendations about when those HIPs best fit into the degree plan. Students should also consult their faculty advisor for information on HIPs. There are many additional high impact opportunities available. Talk to your academic advisor for more information about incorporating HIPs like Study Abroad, Intercultural Immersion, Internship, and/or Student/Faculty Collaborative Research into your time at UW-Eau Claire.

Math majors are encouraged to participate in student/faculty research. Watch for announcements of potential research projects and meet with potential research advisors in the spring preceding the year in which student/faculty

research will begin (for example, spring of the first year for a research project during sophomore year).

Study Abroad can form a valuable and enriching part of your experience as a math major. Upper-level math courses can be taken at University of Glasgow and University of Aberdeen. MATH 312 and MATH 324 can be taken during the summer at University of Glasgow. CGER electives can be fulfilled in numerous programs.

Core General Education Requirements (CGER)**Core General Education Requirements (CGER)**

The Core General Education Requirements (CGER) includes a minimum of 10 courses across 6 categories. Students must complete a minimum of 36 credits in courses approved for the CGER Core.

- Mathematics & Quantitative Reasoning (MQR) - 4 credits, one course minimum
 - Includes the University Mathematics Requirement¹
- Communication & Literacy (CL) - 8 credits, two courses minimum
 - Includes the University Writing Requirement (CL-W)²
- Natural Sciences & Wellness (NSW/NSWL) - 6 credits, one course minimum (NSW-Lab required)
- Social & Behavioral Sciences (SBS) - 6 credits, two courses minimum
- Humanities & Arts (HA) - 6 credits, two courses minimum
- Civics & Perspectives (CP) - 6 credits, two courses minimum

¹ **University Mathematics Requirement:**

Students satisfy the University Mathematics Requirement in one of four ways:

- completing an approved university-level mathematics course (MQR) with a grade of C (not C-) or above
- achieving a suitable score on the UW Math Placement Test (<https://www.uwec.edu/academics/academic-support/advising/testing/placement-testing/>)
- achieving a suitable score on an exam such as the Advanced Placement Calculus or Advanced Placement Statistics exams
- achieving a suitable score on a Credit by Examination administered by the Department of Mathematics.

² **University Writing Requirement:**

Students satisfy the University Writing Requirement in one of four ways:

- completing a Blugold Seminar in Critical Reading and Writing course (WRIT 102 (<https://catalog.uwec.edu/search/?P=WRIT%20102>), WRIT 114 (<https://catalog.uwec.edu/search/?P=WRIT%20114>), WRIT 116 (<https://catalog.uwec.edu/search/?P=WRIT%20116>), WRIT 118 (<https://catalog.uwec.edu/search/?P=WRIT%20118>), or WRIT 120 (<https://catalog.uwec.edu/search/?P=WRIT%20120>)) with a grade of C (not C-) or above
- achieving a suitable score on the English Placement Test (<https://www.uwec.edu/academics/blugold-seminar/writ-courses-placement/>) (WPT ENGL)
- achieving a suitable score on an exam such as the Advanced Placement English Literature and Composition or Advanced Placement English Language and Composition exams
- achieving a suitable score on the University Writing Program Portfolio.

Completion via Placement Test

- Writing: If the CL-W subcategory is satisfied through a placement test, the CGER Communication and Literacy requirement will be reduced from 8 credits (2 courses) to 3 credits (1 course).
- Mathematics: If the University Math Requirement is satisfied through a placement test, the CGER Mathematics & Quantitative Reasoning requirement will be considered fully met, replacing the 4-credit (1 course) requirement.
- Students must still complete 36 credits across 10 courses, with any remaining credits or courses eligible to be taken from any CGER category.

Mathematics, Minor - Liberal Arts

Liberal Arts (Code 180-401)

Code	Title	Credits
Twenty-four semester credits, including:		
MATH 114	Calculus I	4
MATH 215	Calculus II	4
MATH 216	Calculus III	4
At least one course from:		
MATH 312	Differential Equations and Linear Algebra	
or MATH 324	Linear Algebra	

Remaining credits to be chosen from mathematics courses numbered above 305. At most 2 credits of MATH 397 may be counted towards the required 24 credits.

NOTE: At least one course in a computer programming language is recommended.

Program Learning Outcomes

Students completing this program will be expected to meet the following learning outcomes:

- Apply a broad range of perspectives, including numerical, graphical, algebraic, analytical and verbal, to effectively connect and communicate mathematical ideas.
- Use mathematics to model and solve appropriate problems.

Mathematics, Minor - Teaching

Teaching (Code 180-407)

Code	Title	Credits
Twenty-four semester credits including:		
MATH 114	Calculus I	4
MATH 215	Calculus II	4
MATH 324	Linear Algebra	4
MATH 330	Modern Geometry	4
MATH 345	Introduction to Probability and Mathematical Statistics	4

with additional credits chosen from MATH 216 or mathematics courses numbered above 305. At most 2 credits of MATH 397 may be counted toward the minor.

Technology requirement, select one of the following:

MATH 451	Teaching Mathematics with Technology (or equivalent as approved by the Mathematics Department)
CS 140	Introduction to Computer Science
DS 140	Basics of Data Analysis with R ¹
DS 150	Computing in Python: Fundamentals and Procedural Programming ¹

This minor is restricted to students enrolled in a Secondary Education program within the College of Health and Human Sciences and leads to licensure to teach Mathematics in Grades 4 through 12.

¹ CS 140, DS 140, and DS 150 do not count toward the 24 credits required for the mathematics minor.

Program Learning Outcomes

Students completing this program will be expected to meet the following learning outcomes:

- Apply a broad range of perspectives, including numerical, graphical, algebraic, analytical and verbal, to effectively connect and communicate mathematical ideas.
- Use mathematics to model and solve appropriate problems.
- Read and synthesize mathematical literature.

Students satisfy the University Mathematics Requirement in one of four ways:

- completing an approved university-level mathematics course (MQR) with a grade of C (not C-) or above
- achieving a suitable score on the UW Math Placement Test (<https://www.uwec.edu/academics/academic-support/advising/testing/placement-testing/>)
- achieving a suitable score on an exam such as the Advanced Placement Calculus or Advanced Placement Statistics exams

- achieving a suitable score on a Credit by Examination administered by the Department of Mathematics.

2 **University Writing Requirement:**

- Students satisfy the University Writing Requirement in one of four ways:
- completing a Blugold Seminar in Critical Reading and Writing course (WRIT 102 (<https://catalog.uwec.edu/search/?P=WRIT%20102>), WRIT 114 (<https://catalog.uwec.edu/search/?P=WRIT%20114>), WRIT 116 (<https://catalog.uwec.edu/search/?P=WRIT%20116>), WRIT 118 (<https://catalog.uwec.edu/search/?P=WRIT%20118>), or WRIT 120 (<https://catalog.uwec.edu/search/?P=WRIT%20120>)) with a grade of C (not C-) or above
 - achieving a suitable score on the English Placement Test (<https://www.uwec.edu/academics/blugold-seminar/writ-courses-placement/>) (WPT ENGL)
 - achieving a suitable score on an exam such as the Advanced Placement English Literature and Composition or Advanced Placement English Language and Composition exams
 - achieving a suitable score on the University Writing Program Portfolio.

3 **Completion via Placement Tests**

- Writing: If the CL-W subcategory is satisfied through a placement test, the CGER Communication and Literacy requirement will be reduced from 8 credits (2 courses) to 3 credits (1 course).
- Mathematics: If the University Math Requirement is satisfied through a placement test, the CGER Mathematics & Quantitative Reasoning requirement will be considered fully met, replacing the 4-credit (1 course) requirement.
- Students must still complete 36 credits across 10 courses, with any remaining credits or courses eligible to be taken from any CGER category.

College Degree Requirements

Bachelor of Arts or Bachelor of Science Degree (B.A./B.S.)

University Graduation Requirements. All candidates for degrees must fulfill the requirements for credits, curriculum, GPA, and University residency as specified in the section of this catalog titled University Graduation Requirements.

College Graduation Requirements: Grade Point Averages. All candidates for degrees in the College of Arts and Sciences must earn minimum resident and total GPAs of 2.00 in the major, the minor, and the certificate. The resident and total GPAs for the major are computed using all attempted credits applicable to the major including those offered by departments other than the major department. The resident and total GPAs for the minor and the certificate are computed similarly.

Major-Minor and Major-Certificate Requirements. A standard major (a minimum of 36 credits) must be supplemented by a minor (a minimum of 24 credits) or by a certificate (12 to 18 credits) to meet graduation requirements for completing a first and second degree program. No minor or certificate is required with a Comprehensive Major (60 or more credits) or with two majors of 36 or more credits each.

Certain degree programs, which include Comprehensive Majors, may require more than the minimum of 120 credits for graduation.

Acceptable academic program combinations are determined at the college level. A major and a minor or a major and certificate or two majors (if available)

may not be elected in the same department or program, except in the approved combinations listed here.

College Credits. Earn at least 90 credits in courses offered by the College of Arts and Sciences.

Bachelor of Arts Degree in the College of Arts and Sciences (B.A.)

Fulfillment of all University Graduation Requirements (which includes the Core General Education Requirements); all College-level degree requirements (major and minor/certificate emphases, GPAs, earning at least 90 credits in Arts and Sciences course work); second language competency at the 102 level. Second language competency may be met in one of two ways: (1) Demonstrate a level of second language competency that qualifies the student to enter the 201-level course in a second language. (2) Earn a grade of at least C (not C-) or a mark of S in a 102-level second language course (or AIS 112 or AIS 122 or SLHS 103).

Bachelor of Science Degree in the College of Arts and Sciences (B.S.)

Fulfillment of all University Graduation Requirements (which includes the Core General Education Requirements); all College-level degree requirements (major and minor/certificate emphases, GPAs, earning at least 90 credits in Arts and Sciences course work); mathematics competency at the MATH 111, MATH 112 or MATH 113 level. Mathematics competency can be met in one of three ways: (1) Achieve a score on the mathematics placement test that qualifies the student to enter MATH 114. (2) Earn a grade of at least C (not C-) or a mark of S in MATH 111, MATH 112, or MATH 113. (3) Achieve a satisfactory score on the MATH 112 competency test. This test may be attempted no more than two times.

Major Requirements

Liberal Arts (Code 180-209)

The statistics and applied mathematics emphasis is appropriate for students interested in either scientific or engineering applications of mathematics, careers in business, industry or statistics, data science, or graduate work in areas such as engineering, operations research, optimization, or statistics. Because of the variety of courses available, students are encouraged to consult a mathematics advisor early and frequently while pursuing this emphasis.

For those students focusing on applied mathematics, MATH 312 is strongly recommended. For those students focusing on statistics, MATH 347 is strongly recommended.

A minimum of 36 credits from mathematics courses must be earned as described below.

Code	Title	Credits
Core Requirements:		
MATH 114	Calculus I	4
MATH 215	Calculus II	4
MATH 216	Calculus III	4
MATH 316	Introduction to Real Analysis	3
MATH 324	Linear Algebra	4
MATH 425	Abstract Algebra I	3

Elective Requirements

Code	Title	Credits
At least ten credits from the following list. MATH 312 or MATH 347 must be taken.		

MATH 307	Mathematics and Music
MATH 312	Differential Equations and Linear Algebra
MATH 313	Digital Signal Processing
MATH 318	Introduction to Complex Variables
MATH 345	Introduction to Probability and Mathematical Statistics
MATH 346	Introduction to Probability
MATH 347	Mathematical Statistics
MATH 351	Numerical Analysis I
MATH 354	Introduction to Mathematical Modeling
MATH/PHYS 440	Digital Image Processing
MATH 441	Linear Regression Analysis, with Time Series
MATH 442	Advanced Statistical Modeling
MATH 443	Experimental Design and Analysis
MATH 445	Survey Sampling
MATH 447	Nonparametric Statistics
DS 250	Data Structures and Algorithms in Bioinformatics

Plus additional upper division mathematics courses to reach 36 credits. Credits from MATH 302, MATH 303, MATH 304, MATH 322, MATH 365, MATH 451, and MATH 498 may not be counted towards the required 36 credits. At most 2 credits of MATH 397 may be counted towards the required 36 credits.

Code	Title	Credits
Minimum three credits required, not counted toward credits in major, from the following:		
PHIL 250	Symbolic Logic	
CS 140	Introduction to Computer Science	
CS 163	Introduction to Programming in C++	
DS 150	Computing in Python: Fundamentals and Procedural Programming	
Another computer science course approved by the Mathematics Department		

Program Learning Outcomes

Students completing this program will be expected to meet the following learning outcomes:

- Apply a broad range of perspectives, including numerical, graphical, algebraic, analytical and verbal, to effectively connect and communicate mathematical ideas.
- Use mathematics to model and solve appropriate problems.
- Write mathematical proofs.
- Work independently and collaboratively on mathematical problems.
- Use mathematics to solve problems for the natural, social, or actuarial sciences.
- Select appropriate methods and apply them using technology to solve problems.

Mathematics, Statistics and Applied Mathematics Emphasis, Major, B.S.

The following is a sample degree plan, based on the current catalog. It is based on the 120-credit graduation requirement and assumes no transferred credits, no requirements waived by placement tests, no courses taken in the

summer or winter, no repeated courses, and no remedial courses that may be required. This sample degree plan is intended for first-year students entering UW-Eau Claire in the fall semester. Your own degree plan may differ depending on the course of study selected (second major, minor, etc.). UW-Eau Claire cannot guarantee all courses will be offered as shown, but will provide a range of courses that may enable prepared students to fulfill their requirements in a timely period. This sample degree plan is just a guide. Please consult your advisor, your degree audit, and the catalog to create your own degree plan. *Note:* In order to earn the required minimum of 120 credits for the degree in four years, you should plan to take 15 credits each semester or 30 credits each year.

To earn a degree, students must fulfill all University Graduation Requirements, including the Core General Education Requirements (CGER). CGER course work in the following sample degree plan uses abbreviations such as CGER CL, CGER HA, and CGER NSWL to represent the learning outcomes students will meet via completion of the course. Please click here for a description of the outcomes and requirements.

Students in this major have the option to pursue either a Bachelor of Arts (B.A.) or a Bachelor of Science (B.S.) degree. The degrees are distinguished by second language competency for the B.A. and a higher level of mathematics competency for the B.S.

FIRST YEAR

FIRST SEMESTER		
MATH 114	Calculus I (CGER MQR)	4

Elective	3
TOTAL FOURTH YEAR	29-31

Minimum total for the baccalaureate degree = 120 credits

- a For students interested in focusing on applied math, MATH 312 is recommended. For students interested in focusing on statistics, MATH 346 is recommended.
- b For students interested in focusing on statistics, MATH 347 is recommended. It is a prerequisite to the courses listed as statistics electives ^c.
- c The Applied/Statistics emphasis allows students to choose courses that emphasize either applied math or statistics.

- Students interested in focusing on applied math are recommended to choose electives from the following list of applied electives: MATH 307, MATH 313, MATH 318, MATH 345, MATH 351, MATH 354, MATH 440 (PHYS 440).
- Students interested in focusing on statistics are recommended to choose electives from the following list of statistics electives: MATH 441, MATH 442, MATH 443, MATH 445, MATH 447.

- d Students must complete at least three credits to be selected from PHIL 250, CS 140, CS 163, DS 150 or another computer science course approved by

the Math Department. DS 140 does not meet this requirement but is a prerequisite for MATH 347.

- e At least 10 credits are required from the following list: MATH 307, MATH 312, MATH 313, MATH 318, MATH 345, MATH 346, MATH 347, MATH 351, MATH 354, MATH 440 (PHYS 440), MATH 441, MATH 443, MATH 445, MATH 447, DS 250. Students who have fulfilled this requirement may take an additional course from this list, or another MATH elective numbered above MATH 307, to achieve at least 36 credits of courses that count toward the major.

RECOMMENDATIONS FOR HIGH IMPACT PRACTICES (HIPs)

The University of Wisconsin-Eau Claire encourages all students to participate in High Impact Practices. The following information identifies any specific recommendations that faculty in this major have concerning which HIPs might be most beneficial to students, and any recommendations about when those HIPs best fit into the degree plan. Students should also consult their faculty advisor for information on HIPs. There are many additional high impact opportunities available. Talk to your academic advisor for more information about incorporating HIPs like Study Abroad (<https://studyabroad.apps.uwec.edu/>), Intercultural Immersion (<https://www.uwec.edu/immersion/>), Internship (<https://www.uwec.edu/offices-services/advising-retention-career-center/career-services/internship/job-searching-and/>), and/or Student/Faculty Collaborative Research (<https://www.uwec.edu/offices-services/office-research-and-sponsored-programs/getting-involved-student-faculty-research/>) into your time at UW-Eau Claire.

Students in the Stats/Applied Math emphasis are strongly encouraged to participate in student/faculty research. Watch for announcements of potential research projects and meet with potential research advisors in the spring preceding the year in which student/faculty research will begin (for example, spring of the first year for a research project during sophomore year).

Core General Education Requirements (CGER)

Core General Education Requirements (CGER)

The Core General Education Requirements (CGER) includes a minimum of 10 courses across 6 categories. Students must complete a minimum of 36 credits in courses approved for the CGER Core.

- Mathematics & Quantitative Reasoning (MQR) - 4 credits, one course minimum
 - Includes the University Mathematics Requirement¹
- Communication & Literacy (CL) - 8 credits, two courses minimum
 - Includes the University Writing Requirement (CL-W)²
- Natural Sciences & Wellness (NSW/NSWL) - 6 credits, one course minimum (NSW-Lab required)
- Social & Behavioral Sciences (SBS) - 6 credits, two courses minimum
- Humanities & Arts (HA) - 6 credits, two courses minimum
- Civics & Perspectives (CP) - 6 credits, two courses minimum

¹ **University Mathematics Requirement:**

Students satisfy the University Mathematics Requirement in one of four ways:

- completing an approved university-level mathematics course (MQR) with a grade of C (not C-) or above
- achieving a suitable score on the UW Math Placement Test (<https://www.uwec.edu/academics/academic-support/advising/testing/placement-testing/>)
- achieving a suitable score on an exam such as the Advanced Placement Calculus or Advanced Placement Statistics exams

- achieving a suitable score on a Credit by Examination administered by the Department of Mathematics.

² University Writing Requirement:

Students satisfy the University Writing Requirement in one of four ways:

- completing a Blugold Seminar in Critical Reading and Writing course (WRIT 102 (<https://catalog.uwec.edu/search/?P=WRIT%20102>), WRIT 114 (<https://catalog.uwec.edu/search/?P=WRIT%20114>), WRIT 116 (<https://catalog.uwec.edu/search/?P=WRIT%20116>), WRIT 118 (<https://catalog.uwec.edu/search/?P=WRIT%20118>), or WRIT 120 (<https://catalog.uwec.edu/search/?P=WRIT%20120>)) with a grade of C (not C-) or above
- achieving a suitable score on the English Placement Test (<https://www.uwec.edu/academics/blugold-seminar/writ-courses-placement/>) (WPT ENGL)
- achieving a suitable score on an exam such as the Advanced Placement English Literature and Composition or Advanced Placement English Language and Composition exams
- achieving a suitable score on the University Writing Program Portfolio.

Completion via Placement Test

- Writing: If the CL-W subcategory is satisfied through a placement test, the CGER Communication and Literacy requirement will be reduced from 8 credits (2 courses) to 3 credits (1 course).
- Mathematics: If the University Math Requirement is satisfied through a placement test, the CGER Mathematics & Quantitative Reasoning requirement will be considered fully met, replacing the 4-credit (1 course) requirement.
- Students must still complete 36 credits across 10 courses, with any remaining credits or courses eligible to be taken from any CGER category.

Music and Theatre Arts

Haas Fine Arts 156

715-836-4954

Department Website (<https://www.uwec.edu/academics/college-arts-sciences/departments-programs/music-theatre-arts/>)

Honor Societies and Student Organizations

There are eight nationally-affiliated music student organizations at UW-Eau Claire, including student chapters of National Association for Music Education, American Choral Directors Association, American String Teachers Association, National Association of Teachers of Singing, National Band Association Collegiate Chapter, United States Institute for Technical Theatre, and American Music Therapy Association for Students; the professional fraternities Phi Mu Alpha-Sinfonia and Sigma Alpha Iota; and the honor society Pi Kappa Lambda.

The performing arts enjoy an enviable reputation at UW-Eau Claire. Outstanding student and faculty performances in music, theatre, and dance; innovative classroom experiences; and active outreach are hallmarks of the Department of Music and Theatre Arts.

Music

Throughout history the study of music has been held to be one of the noblest pursuits of humanity. Music integrates and develops an understanding of our intellect, our emotions, and our senses. As such, it is both a personal and universal art.

All baccalaureate degrees in music emphasize the development of skills, concepts, and sensitivity essential to the professional life of the musician.

Whether a professional performer, teacher, or composer, the musician must function as one who exhibits not only technical competence but also a broad knowledge of music and music literature, sensitivity in musical style, and an insight into the role and effect of music in society. Courses for the general university student provide an environment which promotes a broad intellectual and cultural appreciation of music.

The Department offers the Bachelor of Arts or Science degree in liberal arts—music; liberal arts—theatre arts, including a musical theatre emphasis; Bachelor of Music Education degrees leading to teacher licensure; and Bachelor of Music degrees in applied music and composition. A liberal arts minor is offered in music and theatre arts. The department also offers five certificates: Arts Administration, Dance Activities, Recording Arts, Songwriting, and Theatre Arts.

The University of Wisconsin-Eau Claire is an accredited institutional member of the National Association of Schools of Music, 11250 Roger Bacon Drive, Reston, Virginia 20190, 703-437-0700.

General Requirements—Music Majors and Minors

Academic Preparation

Students planning to major in music should have experience playing an instrument in their high school band or orchestra, singing in a high school choral ensemble, or should have studied an instrument (e.g., piano or guitar) privately for a significant period of time. It is expected that prospective music majors be able to read music and sight-sing in at least one clef. Although not mandatory, private study in voice or an instrument will be very beneficial in preparation for college study in music; it offers significant advantages in terms of enhancing individual performance technique and provides exposure to standard music literature. Ability to play piano—even at a rudimentary level—and read both treble and bass clefs is a desirable attribute for any music major. In addition, it is helpful for students to have taken high school theory and/or music appreciation courses.

Admission

Applicants must apply to the University before completing audition requirements.

All applicants for admission to degree programs in music must satisfactorily complete an audition in a performance area. Students with any piano playing experience are asked to take a placement examination in piano (when piano is not a major instrument). Applicants to the B.M.E. degree must audition in wind, string, percussion, piano, or voice. Minimum repertoire standards for all performance areas are available from the department's Web site (<https://www.uwec.edu/academics/college-arts-and-sciences/departments-programs/music-and-theatre-arts-department>).

Scholarships are available to a limited number of applicants who demonstrate superior musical ability. An application for the audition and placement constitutes an application for a department scholarship, and no separate form is required. Applicants recommended for scholarship assistance will be notified after the audition.

The Department of Music and Theatre Arts adheres to the code of ethics of the National Association of Schools of Music (NASM). The acceptance of financial aid by an applicant is considered a declaration of intent to attend the institution; after May 1, the applicant may not consider any other offer from an NASM member institution without the written consent of the first institution. Similarly, a transfer applicant from a senior college or university cannot be considered for a scholarship without the recommendation of the institution from which the transfer is being made.

Graduation Requirements

Keyboard Placements. All entering freshmen and transfer students with piano experience who do not have piano as a major instrument take a piano placement examination which determines the level of class piano (MUSI 106 or MUSI 108) in which they will be enrolled to prepare for the piano proficiency examination. If the placement test indicates a sufficiently high level of ability, the student may be directed to applied piano (MUSI 151). A keyboard placement resulting in a higher-numbered keyboard course, i.e., MUSI 108 or MUSI 151, does not constitute credit by examination for a lower-numbered course. Credit by examination is not available for MUSI 104, MUSI 106, MUSI 108, MUSI 278, or MUSI 378.

The Piano Proficiency Examination must be passed

1. prior to enrollment in MUSI 350 for all music majors or MUED 310 if student is a Music Education major and/or
2. one year prior to admission to the professional semester for students working toward teaching licensure (B.M.E. programs) and/or
3. prior to graduation in any music major/minor program. It is offered only during the Fall and Spring Semester final examination periods. The Piano Proficiency Examination tests performance in major and minor scales, arpeggi, sight-reading, harmonization, transposition, and memorization.

Satisfactory/Unsatisfactory Policy. No music course may be taken under the Satisfactory/Unsatisfactory option.

Audit Policy. Applied lessons may not be taken for audit.

Special Student Status. High school students may enroll with permission of the instructor for courses in the Department of Music and Theatre Arts during the Special Student Registration. Because of demand for some courses and limitations on enrollment, degree students will be given priority. Credits earned as high school special students will be reviewed for acceptance into degree programs after official admission to the university and department. Credit review procedure is the same as that for transfer students. Enrollment in graduate music courses under the special student admission status is not allowed except in workshops or by consent of the instructor.

NOTE: A student may not register for credit in a course which is a prerequisite for any other course in which the student has credit.

Bachelor of Music

Major applied lessons carry credits as follows: one 30-minute private lesson per week for one credit; one hour lesson per week for two, three, or four credits. The number of applied credits per semester indicates the minimum number of practice hours per day.

All applied B.M. students may present a half recital in the junior year and must present a full recital in the senior year. Recital requirements apply to the following comprehensive music majors:

- Applied Instrumental (Code 060-041)
- Applied Voice (Code 060-042)
- Composition (Code 060-048)

Theatre Arts and Dance

The arts of theatre—acting, directing, playwriting, design, literature, and costuming—enable us to explore the experiences of humans and the universe. Theatre Artists study human ideas, values, relationships, obsessions, and accomplishments. Practical experimentation and practice of the arts of the theatre increases our ability to present human experiences to audiences for both entertainment and enlightenment.

Theatre Arts programs offer students training in various aspects of theatre including technical theatre, acting, directing, dance, dramatic literature, playwriting, and arts management.

Departmental Honors in Music and Theatre Arts

Eligibility

Upper-class music and theatre arts majors with resident and transfer GPAs of 3.50 or higher and a 3.50 or higher in the major are eligible for participation in the departmental honors program. Participants whose cumulative and/or major GPA falls below 3.50 can still graduate with honors as long as their GPA increases to 3.50 before graduation.

Requirements for Graduation with Departmental Honors

1. Following invitation, submit application to the honors committee for entry into the departmental honors program. Among other requirements, your application will detail plans for areas of research as well as the different departmental courses and the projects you propose to complete within them as part of the honors program.
2. Complete all requirements for major in the department with a cumulative GPA of 3.5 or better.
3. Earn 3 honors credits prior to graduation by completing honors projects proposed to and approved by the honors committee. Different projects may be designed to vary in credit value by intersecting with multiple research areas. For example, a single approved project could blend or "crossover" from the distinct areas of music history and performance in order to gain credit for 2 of the 3 required honors credits.

- Certificate: Dance Activities
- Certificate: Recording Arts
- Certificate: Songwriting
- Certificate: Theatre Arts

Arts Administration, Certificate

(Code 060-602)

The **Certificate in Arts Administration** provides students with a core body of knowledge and skills to effectively manage community or institutionally based arts organizations and provides a foundation for continued study in arts administration. Emphasis is placed on management and communication skills useful to administrators of arts enterprises. The 18-credit program includes an arts management seminar, an immersive arts leadership course, three (3) credits of internship experience, and elective courses.

Code	Title	Credits
Eighteen semester credits, including:		
IDIS 410	Arts Administration Seminar	3
THEA 300	Leadership in the Arts ¹	3
or ENT 200	Creativity and the Entrepreneurial Mindset	

Three credits from one of the following internship courses:		3
MUSI 498	Music Internship ²	
THEA 498	Theatre Arts Internship ²	
Nine elective credits		9
Total Credits		18

- ¹ ENT 200 and THEA 300 may not be used to fulfill both requirements and electives.
- ² The internship must be in arts administration with clear learning outcomes appropriate to the discipline. It may consist of a single 3-credit internship experience or multiple experiences that add up to 3 credits over many semesters. Although the course listing is a THEA or MUSI course, the internship experience itself may be from any arts discipline with department permission.

A combined total of at least 9 credits from the listings below, with the following stipulations:

- 1) Courses used to complete major requirements do not count toward completion of the certificate.
- 2) Students must take three (3) credits each from these three categories: Group A, Group B, and Group C.

Code	Title	Credits
Group A (Leadership & Experiences)		
BSAD 155	Essentials of Leadership	
CJ 351	Strategic Event Planning	
ENT 200	Creativity and the Entrepreneurial Mindset	
IDIS 190	Leadership for a Better World	
MGMT 300	Personal Leadership Management	
MUSI 387	Travel Opportunities in Performing Arts	
THEA 300	Leadership in the Arts	
THEA 377	Publicity/Program Design	
THEA 379	House Manager	
Group B (Artistic Foundations)		
AIS 102	Introduction to American Indian Expressive Cultures	
ART 105	Introduction to the Visual Arts	
ARTH 109	Art of the 20th Century	
ARTH 333	Themes in Contemporary Art	
ARTH 389	Methodologies of Art History	
DNCE 101	Dance Appreciation	
HIST 380	Museums in the United States	
IDIS 303	Understanding the Arts	
MUSI 110	Music Appreciation	
MUSI 111	Global Roots of Music in the United States	
MUSI 225	Global Traditions in Music	
PHIL 325	Aesthetics	
THEA 101	Theatre Appreciation	
THEA 121	Introduction to Technical Theatre	
THEA 335	Drama in Education	
Group C (Skill Development)		

ACCT 201	Introduction to Accounting
BCOM 206	Business Communication: Writing, Speaking, and Collaborating
BCOM 207	Business Communication: Persuasive Messaging, Conversations, and Professional Development
BCOM 208	Technology for Business Communication
BSAD 300	Cultural Competence for Today's Workplace
CJ 201	Introduction to Interpersonal Communication
CJ 202	Fundamentals of Speech
CJ 250	Introduction to Organizational Communication
CJ 260	Introduction to Integrated Strategic Communication
CJ 307	Small Group Communication
CJ 318	Topics in Communication and Social Advocacy
ENGL 409	Grant Proposal Writing
MGMT 340	Organizational Behavior: Leading and Developing People, Teams, and Culture
MKTG 330	Principles of Marketing

Program Learning Outcomes

Students completing this program will be expected to meet the following learning outcomes:

- Understand the arts and their relevance in society today.
- Understand the managerial issues and techniques for arts organizations today.
- Demonstrate critical-thinking skills and communicate clearly when analyzing issues facing arts organizations today.

Dance Activities, Certificate

(Code 605-601)

The **Dance Activities Certificate Program** is open to any student with a passion for dance and looking to gain knowledge of common forms of dance, including ballet, tap, jazz, and modern. This program focuses on studio dance experiences that will prepare graduates for a variety of careers in dance and performing arts.

Code	Title	Credits
Thirteen credits minimum, including:		
DNCE 101	Dance Appreciation	3
Physical Practice courses (8 credits) selected from:		8
DNCE 110	Ballet I	
DNCE 112	Modern Dance I	
DNCE 114	Jazz Dance I	
DNCE 116	Tap Dance I	
DNCE 310	Ballet II	
DNCE 312	Modern Dance II	
DNCE 314	Jazz Dance II	

DNCE 316	Tap Dance II	
One course elective (minimum two credits):		2
KINS 294	Anatomical Kinesiology	
THEA 121	Introduction to Technical Theatre	
THEA 130	Acting I	
THEA 239	Stage Movement	
MUSI 110	Music Appreciation	
MUSI 225	Global Traditions in Music	
MUSI 307	Music in the United States	
Any DNCE prefix course		

Note: Courses cannot be counted in both the major and the certificate program.

Program Learning Options

Students completing this program will be expected to meet the following learning outcomes:

- Understanding dance as a creative art form within its cultural, historical, and theoretical context.
- Increase movement ability, musicality, and accuracy through practice of the basic elements of dance: space time and energy.
- Demonstrate basic dance technique in more than one genre of dance.
- Create original work, perform original work, or interpret work of others.
- Develop a vocabulary for discussing dance history, dance performances, and choreograph.

Music Teaching – Choral Emphasis, Comprehensive Major

Teaching (Code 062-001)

University Requirements

GRADUATION REQUIREMENTS FOR BACCALAUREATE DEGREE

Credit Requirements	
Minimum total for graduation ¹	120
Upper division credits (courses numbered 300 and higher)	39
Core General Education	10 courses, 36 credits

Academic Concentrations	
Grade Point Requirements ²	
Total	2.00 average
Resident	2.00 average
Major	2.00 average
Minor	2.00 average
Certificate	2.00 average

University Residency Requirements

Minimum total	30
Senior year	23
Major, Standard, upper division in residence	12
Major, Comprehensive, upper division in residence	21
Certificate	25 percent of credits

Procedures Required for Graduation

Obtain admission to the degree program and/or the College offering it.

Apply for graduation on CampS.

¹ Certain programs exceed this minimum.

² See special requirements in each College.

Applicability of Credits Toward Graduation

Junior College or Two-Year College Credits. A maximum of 72 semester credits earned in a junior college or two-year college will be accepted as degree credits at UW-Eau Claire.

Extension Credits. Credits earned in credit outreach courses offered by UW-Eau Claire are treated as resident credits. Credits earned in extension courses offered by other units of the Universities of Wisconsin System are treated as transfer credits. All other (non-UW) extension and correspondence credits are normally limited to one-fourth of the total required for graduation from any curriculum.

WTCS Credits. A maximum of 72 semester credits earned in college parallel programs at Madison Area Technical College, Milwaukee Area Technical College, Nicolet Area Technical College, or Chippewa Valley Technical College may be accepted as degree credits at UW-Eau Claire. A set number of general education courses will be accepted from other technical schools. Occupational and technical courses may also be considered for transfer if the quality and content of the course work from the technical college is judged to be comparable to course work at UW-Eau Claire. Refer to the Transfer Credit Wizard (https://www.uwec.sis.wisconsin.edu/psp/eauprd-tb/EMPLOYEE/SA/c/EAU_SS_CUSTOM.EAU_TRNCRDWZ.GBL) or contact the UW-Eau Claire Admissions Office for information about the current transfer policy.

USAFI Credit. UW-Eau Claire will accept up to 32 semester credits for work done through the United States Armed Forces Institute, under the provision for non-UW correspondence credit (see Extension Credits above).

Activity Credit (band, chorus, drama, KINS 100-184 courses) Students may count toward graduation no more than one credit of KINS 110-184 courses. Students may count toward graduation no more than four credits earned in any single activity course and no more than 12 credits resulting from any combination of activity courses (excluding KINS 110-184 courses).

Other Restricted Credits. For other University restrictions, see the following: Cooperative Education; Credit by Examination; Satisfactory/Unsatisfactory Registration; Transfer of Credits. College or departmental restrictions may also be placed on Independent Study (399-499 courses), Directed Study (395-495), and other types of credits.

APPLICABILITY OF CREDITS TOWARD GRADUATION	Credit Restrictions
Satisfactory/Unsatisfactory	
Total degree credit	maximum 12
Major, Standard	maximum 1 course
Major, Comprehensive	maximum 2 courses
Minor	maximum 1 course
Credit by Examination	
Total degree credit	maximum ¼ of total

Major or minor maximum ½ of total

Two-Year College Credits	
Total degree credit	maximum 72 credits
Activity credit (band, chorus, drama, KINS 100-184)	
Total KINS 100-184	maximum 1 credit
Total Band, chorus, drama	maximum 12 credits
Single course band, chorus, drama	maximum 4 credits
Extension credits	
UW-System	no maximum
Other extension/correspondence	maximum ¼ of total
USAFI	
USAFI	maximum 32 credits

Core General Education Requirements (CGER)

CGER Categories

Mathematics & Quantitative Reasoning (MQR) (http://catalog.uwec.edu/undergraduate/outcome-mqr/)	4 credit hours, 1 course min
Includes University Math Requirement ¹	
Communication & Literacy (CL) (http://catalog.uwec.edu/undergraduate/outcome-cl/)	8 credit hours, 2 course min (including CL-W)
Includes University Writing Requirement (CL-W) (http://catalog.uwec.edu/undergraduate/outcome-clw/) ²	
Natural Sciences & Wellness (NSW/NSWL) (http://catalog.uwec.edu/undergraduate/outcome-NSW/)	6 credit hours, 1 course min (NSW-Lab required)
Social & Behavioral Sciences (SBS) (https://catalog.uwec.edu/undergraduate/outcome-sbs/)	6 credit hours, 2 course min
Humanities & Arts (HA) (http://catalog.uwec.edu/undergraduate/outcome-ha/)	6 credit hours, 2 course min
Civics & Perspectives (CP) (http://catalog.uwec.edu/undergraduate/outcome-cp/)	6 credit hours, 2 course min
CGER Totals ³	
Credits	minimum 36 credits
Courses	minimum 10 courses

¹ University Mathematics Requirement:

Students satisfy the University Mathematics Requirement in one of four ways:

- completing an approved university-level mathematics course (MQR) with a grade of C (not C-) or above
- achieving a suitable score on the UW Math Placement Test (<https://www.uwec.edu/academics/academic-support/advising/testing/placement-testing/>)
- achieving a suitable score on an exam such as the Advanced Placement Calculus or Advanced Placement Statistics exams

- achieving a suitable score on a Credit by Examination administered by the Department of Mathematics.

² University Writing Requirement:

Students satisfy the University Writing Requirement in one of four ways:

- completing a Blugold Seminar in Critical Reading and Writing course (WRIT 102 (<https://catalog.uwec.edu/search/?P=WRIT%20102>), WRIT 114 (<https://catalog.uwec.edu/search/?P=WRIT%20114>), WRIT 116 (<https://catalog.uwec.edu/search/?P=WRIT%20116>), WRIT 118 (<https://catalog.uwec.edu/search/?P=WRIT%20118>), or WRIT 120 (<https://catalog.uwec.edu/search/?P=WRIT%20120>)) with a grade of C (not C-) or above
- achieving a suitable score on the English Placement Test (<https://www.uwec.edu/academics/blugold-seminar/writ-courses-placement/>) (WPT ENGL)
- achieving a suitable score on an exam such as the Advanced Placement English Literature and Composition or Advanced Placement English Language and Composition exams
- achieving a suitable score on the University Writing Program Portfolio.

³ Completion via Placement Tests

- Writing: If the CL-W subcategory is satisfied through a placement test, the CGER Communication and Literacy requirement will be reduced from 8 credits (2 courses) to 3 credits (1 course).
- Mathematics: If the University Math Requirement is satisfied through a placement test, the CGER Mathematics & Quantitative Reasoning requirement will be considered fully met, replacing the 4-credit (1 course) requirement.
- Students must still complete 36 credits across 10 courses, with any remaining credits or courses eligible to be taken from any CGER category.

College Degree Requirements

College of Health and Human Sciences Requirements for Teacher Education Programs

1. Grade point requirements:

Abbreviation	Full Title
Resident	2.75 average
Total	2.75 average
Major	2.75 average
Minor (for certification only)	2.75 average

2. Residency requirements:

Abbreviation	Full Title
Minimum Total	30 credits
Senior Year	23 credits
Major, in upper division courses	12 credits
Comprehensive Major, in upper division courses	21 credits

3. Criteria and requirements for Admission to Education Program and Admission to the Professional Education Semester.

4. Specific requirements for programs offered in the College of Health and Human Sciences as outlined in department specific sections of this catalog.

Admission to Education Program

Admission to the Education Program

Students must apply for admission to the Education Program. Applications are due by October 1 for spring admission or March 1 for fall admission. To submit an application to an Education Program, students must satisfy all of the requirements listed below:

1. Approval by the appropriate department in the College of Health and Human Sciences.
2. Pre-education status.
3. Students must have attained at least Sophomore Status
4. Minimum total GPA of 2.5 or minimum resident GPA of 2.5. Admission is competitive; thus, the minimum GPA does not assure admission.
5. Completed the Core General Education Requirement (CGER) for Communication & Literacy-Writing with a C or better.
6. Completed the Core General Education Requirement (CGER) for Mathematics & Quantitative Reasoning with a C or better.
7. Good academic standing.
8. Complete an introductory education course with a field placement (SEIP 208, ES 212, or the equivalent) with a grade of C or better.

Specific majors may have additional department-level criteria. Consult with the department if needed.

Admission to the Professional Education Semester (Student Teaching or Internship)

Admission to the Professional Education Semester

The "Professional Education Semester" is defined as the semester in which a student is enrolled in the field experience of student teaching or internship.

Filing Notice of Intent to Student Teach Applications: Information concerning the Notice of Intent to Student Teach will be advertised widely and posted across campus each semester with an associated due date. Students who plan to enter the Professional Education Semester during the fall semester of the next academic year must file a Notice of Intent to Student Teach with the Teacher Education Program office in the fall. Students who plan to enter the Professional Education Semester during the spring semester of the next academic year must file a Notice of Intent to Student Teach with the Teacher Education Program office in the spring.

Students are encouraged to submit their Notice of Intent to Student Teach by the announced due date. Considerable time is required to process each notice—that is, to determine eligibility, to make arrangements with schools for an appropriate field experience assignment, and to allow for introductions, orientations, and, in some cases, interviews. Students who file on time will benefit by the careful consideration that can be given to their requests; the later a notice is received, the fewer the placement assignments and choices still available will be. Failure to file a Notice of Intent to Student Teach on time may result in a delay of the Professional Education Semester.

Transfer and Special Students: No transfer or special student can enter the Professional Education Semester until after a full semester of residence and after earning a minimum of 15 credits at UW-Eau Claire. Senior transfer students enrolling in September must file an application for admission to the professional semester by December 1 for the following fall.

Criteria for Admission:

1. Admitted to the appropriate Education Program.
2. Good academic standing, as defined in the catalog.

3. A minimum of 90 earned credits prior to start of Professional Education Semester.
4. Minimum total GPA of 2.75 or minimum resident GPA of 2.75.
5. Completion of the 30-hour Human Relations Fieldwork requirement.
6. Evidence of freedom from Tuberculosis via test conducted by Student Health Services.
7. Completion of required criminal background check.

For placements that start in the Fall semester, criteria for admission must be met by March 1 of the prior semester. For placements that start in the Spring semester, criteria for admission must be met by October 1 of the prior semester.

For placements that start in the summer session, criteria for admission must be met by February 1 of the prior semester.

Licensure Requirements

Licensure to Teach

College of Health and Human Sciences graduates who desire to teach in Wisconsin, will apply for licensure using the WI Department of Public Instruction's (DPI) ELO (Electronic Licensing Online) by following all steps listed on the site including fingerprinting if applicable.

Upon completion of all program requirements and WI DPI teaching requirements, information will be forwarded to DPI verifying program completion, the completion of all required tests, and information on all certifications the teaching candidates are eligible for with licensure. Candidates will then apply for their Initial License.

It is recommended that graduates seeking licensure to teach in states other than Wisconsin request application forms and instructions from the state in which licensure is desired. Early inquiry is suggested as the certification requirements vary by state. In most cases, an official transcript of credits must accompany the completed application form; additional tests or coursework may be required. In general, candidates may be able to obtain licenses in other states; however, these licenses may be issued with stipulations. It is the student's responsibility to understand the licensing requirements of other states. UW-Eau Claire programs are designed to meet the requirements in Wisconsin only.

Criteria for Recommendation for Licensure:

1. Completion of a baccalaureate degree.
2. Completion of an approved education major, minor, and/or certificate.
3. 2.75 or higher GPA in the major, minor, and/or certificate (if certifiable). All college level courses, except student teaching or internship are included when determining GPA for licensure.
4. Completion of student teaching or internship courses with an S.
5. Content area proficiency as demonstrated by earning a minimum 3.0 GPA in content courses OR via obtaining a passing score on the appropriate Praxis II. Candidates for licensure in Languages must obtain a passing score on the ACTFL written portion (WPT) and must pass the OPI/OPIC within three years prior to the start of student teaching or internship. All candidates seeking licensure must also earn a passing score on the FORT.

Major Requirements

Teaching (Code 062-001)

Students pursuing a degree that will allow them to be licensed in a K-12 setting complete courses in the content area(s) they plan to teach; one or more methods courses specific to the content area; Professional Education coursework focused on instructional methods, assessment of student learning, and curriculum and lesson planning; and ten credits of Student Teaching or Student Teaching Internship.

A student seeking K-12 licensure must complete the following requirements:

1. Earn a grade of C or higher in all content-area specific methods coursework and Professional Education coursework.
2. Earn a grade of S in student teaching or student teaching internship.
3. Earn a content area GPA of 3.0 or higher OR complete the appropriate Praxis II, ACTFL, or other exam specified by the Teacher Education Program with a passing grade.

¹ Music Education majors take 2 credits of ES 212.

Program Learning Outcomes

Students completing this program will be expected to meet the following learning outcomes:

- Demonstrate artistic expression through musicianship, technical expertise and skill as appropriate to discipline.
- Create historically and culturally appropriate interpretations through the performance of varied repertoire in collaborative and solo performances as appropriate to discipline.
- Apply culturally specific analytical techniques and approaches to musical compositions.
- Make comparative written statements about aesthetics and function for multiple compositional styles.
- Demonstrate a diverse and inclusive perspective of music, as well as identify systems of privilege in music.
- Design and teach lessons that facilitate student achievement while acting as a collaborative leader.
- Design instruction that utilizes Comprehensive Musicianship through Performance (CMP) as a pedagogical approach in the classroom and rehearsal settings.
- Analyze and evaluate written and aural musical representations and performances by using effective musical academic language.
- Analyze and apply the connections of musical expressions to human experience and other fine and healing arts in a culturally relevant and sensitive manner with accessibility for all.

Music Teaching – Choral Emphasis, Comprehensive Major (B.M.E)

The following is a sample degree plan, based on the current catalog. It is based on the 120-credit graduation requirement and assumes no transferred credits, no requirements waived by placement tests, no courses taken in the summer or winter, no repeated courses, and no remedial courses that may be required. This sample degree plan is intended for first-year students entering UW-Eau Claire in the fall semester. Your own degree plan may differ depending on the course of study selected (second major, minor, etc.). UW-Eau Claire cannot guarantee all courses will be offered as shown but will provide a range of courses that may enable prepared students to fulfill their requirements in a timely period. This sample degree plan is just a guide. Please consult your advisor, your degree audit, and the catalog to create your own degree plan. Note: In order to earn the required minimum of 120 credits for the degree in four years, you should plan to take 15 credits each semester or 30 credits each year.

To earn a degree, students must fulfill all University Graduation Requirements, including the Core General Education Requirements (CGER). CGER course work in the following sample degree plan uses abbreviations such as CGER CL, CGER HA, and CGER NSWL to represent the learning outcomes students will meet via completion of the course. Please click here for a description of the outcomes and requirements.

¹ Music Education students take 2 credits of ES 212.

RECOMMENDATIONS FOR HIGH IMPACT PRACTICES (HIPs) The University of Wisconsin-Eau Claire encourages all students to participate in High Impact Practices. The following information identifies any specific recommendations that faculty in this major have concerning which HIPs might be most beneficial to students, and any recommendations about when those HIPs best fit into the degree plan. Students should also consult their faculty advisor for information on HIPs. There are many additional high impact opportunities available. Talk to your academic advisor for more information about incorporating HIPs like Study Abroad (<https://studyabroad.apps.uwec.edu/>), Intercultural Immersion (<https://www.uwec.edu/immersion/>), Internship (<https://www.uwec.edu/academics/academic-experience/internships>), and/or Student/Faculty Collaborative Research (<https://www.uwec.edu/offices-services/office-research->

and-sponsored-programs/getting-involved-student-faculty-research-1) into your time at UW-Eau Claire.

Students are encouraged to participate in an immersion program related to education either through the department or college during the final two years of the program.

Faculty-Student Research Projects are encouraged after the first year of the program.

Students are strongly encouraged to participate in “Quest,” the Integrated Learning Project specifically created for Music and Theatre Arts students. See Music and Theatre Arts Homepage for more information.

Course Suggestions

- See catalogue for details of ensemble requirement.
- Piano Proficiency Exam must be passed prior to MUSI 350 and MUED 310.
- Required techniques courses are MUSI 198 -Percussion, MUSI 202 -Brass, and MUSI 208 –Woodwinds.
- BME students are considered pre-education until accepted into College of Health and Human Sciences.
- Secondary Block Courses must be taken concurrently.

Application to Major

Admittance to major is through audition to the Music Program and admittance to the College of Health and Human Sciences before your final year of the program.

Core General Education Requirements (CGER)

Core General Education Requirements (CGER)

The Core General Education Requirements (CGER) includes a minimum of 10 courses across 6 categories. Students must complete a minimum of 36 credits in courses approved for the CGER Core.

- Mathematics & Quantitative Reasoning (MQR) - 4 credits, one course minimum
 - Includes the University Mathematics Requirement¹
- Communication & Literacy (CL) - 8 credits, two courses minimum
 - Includes the University Writing Requirement (CL-W)²
- Natural Sciences & Wellness (NSW/NSWL) - 6 credits, one course minimum (NSW-Lab required)
- Social & Behavioral Sciences (SBS) - 6 credits, two courses minimum
- Humanities & Arts (HA) - 6 credits, two courses minimum
- Civics & Perspectives (CP) - 6 credits, two courses minimum

¹ University Mathematics Requirement:

- Students satisfy the University Mathematics Requirement in one of four ways:
- completing an approved university-level mathematics course (MQR) with a grade of C (not C-) or above
 - achieving a suitable score on the UW Math Placement Test (<https://www.uwec.edu/academics/academic-support/advising/testing/placement-testing/>)
 - achieving a suitable score on an exam such as the Advanced Placement Calculus or Advanced Placement Statistics exams

- achieving a suitable score on a Credit by Examination administered by the Department of Mathematics.

² University Writing Requirement:

- Students satisfy the University Writing Requirement in one of four ways:
- completing a Blugold Seminar in Critical Reading and Writing course (WRIT 102 (<https://catalog.uwec.edu/search/?P=WRIT%20102>), WRIT 114 (<https://catalog.uwec.edu/search/?P=WRIT%20114>), WRIT 116 (<https://catalog.uwec.edu/search/?P=WRIT%20116>), WRIT 118 (<https://catalog.uwec.edu/search/?P=WRIT%20118>), or WRIT 120 (<https://catalog.uwec.edu/search/?P=WRIT%20120>)) with a grade of C (not C-) or above
 - achieving a suitable score on the English Placement Test (<https://www.uwec.edu/academics/blugold-seminar/writ-courses-placement/>) (WPT ENGL)
 - achieving a suitable score on an exam such as the Advanced Placement English Literature and Composition or Advanced Placement English Language and Composition exams
 - achieving a suitable score on the University Writing Program Portfolio.

Completion via Placement Test

- Writing: If the CL-W subcategory is satisfied through a placement test, the CGER Communication and Literacy requirement will be reduced from 8 credits (2 courses) to 3 credits (1 course).
- Mathematics: If the University Math Requirement is satisfied through a placement test, the CGER Mathematics & Quantitative Reasoning requirement will be considered fully met, replacing the 4-credit (1 course) requirement.
- Students must still complete 36 credits across 10 courses, with any remaining credits or courses eligible to be taken from any CGER category.

Procedures Required for Graduation

Obtain admission to the degree program and/or the College offering it.

Apply for graduation on CampS.

¹ Certain programs exceed this minimum.

² See special requirements in each College.

Applicability of Credits Toward Graduation

Junior College or Two-Year College Credits. A maximum of 72 semester credits earned in a junior college or two-year college will be accepted as degree credits at UW-Eau Claire.

Extension Credits. Credits earned in credit outreach courses offered by UW-Eau Claire are treated as resident credits. Credits earned in extension courses offered by other units of the Universities of Wisconsin System are treated as transfer credits. All other (non-UW) extension and correspondence credits are normally limited to one-fourth of the total required for graduation from any curriculum.

WTCS Credits. A maximum of 72 semester credits earned in college parallel programs at Madison Area Technical College, Milwaukee Area Technical College, Nicolet Area Technical College, or Chippewa Valley Technical College may be accepted as degree credits at UW-Eau Claire. A set number of general education courses will be accepted from other technical schools. Occupational and technical courses may also be considered for transfer if the quality and content of the course work from the technical college is judged to be comparable to course work at UW-Eau Claire. Refer to the Transfer Credit Wizard (https://www.uwec.sis.wisconsin.edu/psp/eauprd-tb/EMPLOYEE/SA/c/EAU_SS_CUSTOM.EAU_TRNCRDWZ.GBL) or contact the UW-Eau Claire Admissions Office for information about the current transfer policy.

USAFI Credit. UW-Eau Claire will accept up to 32 semester credits for work done through the United States Armed Forces Institute, under the provision for non-UW correspondence credit (see Extension Credits above).

Activity Credit (band, chorus, drama, KINS 100-184 courses) Students may count toward graduation no more than one credit of KINS 110-184 courses. Students may count toward graduation no more than four credits earned in any single activity course and no more than 12 credits resulting from any combination of activity courses (excluding KINS 110-184 courses).

Other Restricted Credits. For other University restrictions, see the following: Cooperative Education; Credit by Examination; Satisfactory/Unsatisfactory Registration; Transfer of Credits. College or departmental restrictions may also be placed on Independent Study (399-499 courses), Directed Study (395-495), and other types of credits.

APPLICABILITY OF CREDITS TOWARD GRADUATION	Credit Restrictions
Satisfactory/Unsatisfactory	
Total degree credit	maximum 12
Major, Standard	maximum 1 course
Major, Comprehensive	maximum 2 courses
Minor	maximum 1 course

Credit by Examination

Total degree credit	maximum ¼ of total
Major or minor	maximum ½ of total

Two-Year College Credits

Total degree credit	maximum 72 credits

Activity credit (band, chorus, drama, KINS 100-184)

Total KINS 100-184	maximum 1 credit
Total Band, chorus, drama	maximum 12 credits
Single course band, chorus, drama	maximum 4 credits

Extension credits

UW-System	no maximum
Other extension/correspondence	maximum ¼ of total

USAFI

USAFI	maximum 32 credits

Core General Education Requirements (CGER)**CGER Categories**

Mathematics & Quantitative Reasoning (MQR) (http://catalog.uwec.edu/undergraduate/outcome-mqr/)	4 credit hours, 1 course min
Includes University Math Requirement ¹	
Communication & Literacy (CL) (http://catalog.uwec.edu/undergraduate/outcome-cl/)	8 credit hours, 2 course min (including CL-W)
Includes University Writing Requirement (CL-W) (http://catalog.uwec.edu/undergraduate/outcome-clw/) ²	
Natural Sciences & Wellness (NSW/NSWL) (http://catalog.uwec.edu/undergraduate/outcome-NSW/)	6 credit hours, 1 course min (NSW-Lab required)
Social & Behavioral Sciences (SBS) (https://catalog.uwec.edu/undergraduate/outcome-sbs/)	6 credit hours, 2 course min
Humanities & Arts (HA) (http://catalog.uwec.edu/undergraduate/outcome-ha/)	6 credit hours, 2 course min
Civics & Perspectives (CP) (http://catalog.uwec.edu/undergraduate/outcome-cp/)	6 credit hours, 2 course min

CGER Totals ³

Credits	minimum 36 credits
Courses	minimum 10 courses

¹ University Mathematics Requirement:

- Students satisfy the University Mathematics Requirement in one of four ways:
- completing an approved university-level mathematics course (MQR) with a grade of C (not C-) or above

- achieving a suitable score on the UW Math Placement Test (<https://www.uwec.edu/academics/academic-support/advising/testing/placement-testing/>)
- achieving a suitable score on an exam such as the Advanced Placement Calculus or Advanced Placement Statistics exams
- achieving a suitable score on a Credit by Examination administered by the Department of Mathematics.

² University Writing Requirement:

Students satisfy the University Writing Requirement in one of four ways:

- completing a Blugold Seminar in Critical Reading and Writing course (WRIT 102 (<https://catalog.uwec.edu/search/?P=WRIT%20102>), WRIT 114 (<https://catalog.uwec.edu/search/?P=WRIT%20114>), WRIT 116 (<https://catalog.uwec.edu/search/?P=WRIT%20116>), WRIT 118 (<https://catalog.uwec.edu/search/?P=WRIT%20118>), or WRIT 120 (<https://catalog.uwec.edu/search/?P=WRIT%20120>)) with a grade of C (not C-) or above
- achieving a suitable score on the English Placement Test (<https://www.uwec.edu/academics/blugold-seminar/writ-courses-placement/>) (WPT ENGL)
- achieving a suitable score on an exam such as the Advanced Placement English Literature and Composition or Advanced Placement English Language and Composition exams
- achieving a suitable score on the University Writing Program Portfolio.

³ Completion via Placement Tests

- Writing: If the CL-W subcategory is satisfied through a placement test, the CGER Communication and Literacy requirement will be reduced from 8 credits (2 courses) to 3 credits (1 course).
- Mathematics: If the University Math Requirement is satisfied through a placement test, the CGER Mathematics & Quantitative Reasoning requirement will be considered fully met, replacing the 4-credit (1 course) requirement.
- Students must still complete 36 credits across 10 courses, with any remaining credits or courses eligible to be taken from any CGER category.

College Degree Requirements

College of Health and Human Sciences Requirements for Teacher Education Programs

1. Grade point requirements:

Abbreviation	Full Title
Resident	2.75 average
Total	2.75 average
Major	2.75 average
Minor (for certification only)	2.75 average

2. Residency requirements:

Abbreviation	Full Title
Minimum Total	30 credits
Senior Year	23 credits
Major, in upper division courses	12 credits
Comprehensive Major, in upper division courses	21 credits

3. Criteria and requirements for Admission to Education Program and Admission to the Professional Education Semester.
4. Specific requirements for programs offered in the College of Health and Human Sciences as outlined in department specific sections of this catalog.

Admission to Education Program

Admission to the Education Program

Students must apply for admission to the Education Program. Applications are due by October 1 for spring admission or March 1 for fall admission. To submit an application to an Education Program, students must satisfy all of the requirements listed below:

1. Approval by the appropriate department in the College of Health and Human Sciences.
2. Pre-education status.
3. Students must have attained at least Sophomore Status
4. Minimum total GPA of 2.5 or minimum resident GPA of 2.5. Admission is competitive; thus, the minimum GPA does not assure admission.
5. Completed the Core General Education Requirement (CGER) for Communication & Literacy-Writing with a C or better.
6. Completed the Core General Education Requirement (CGER) for Mathematics & Quantitative Reasoning with a C or better.
7. Good academic standing.
8. Complete an introductory education course with a field placement (SEIP 208, ES 212, or the equivalent) with a grade of C or better.

Specific majors may have additional department-level criteria. Consult with the department if needed.

Admission to the Professional Education Semester (Student Teaching or Internship)

Admission to the Professional Education Semester

The "Professional Education Semester" is defined as the semester in which a student is enrolled in the field experience of student teaching or internship.

Filing Notice of Intent to Student Teach Applications: Information concerning the Notice of Intent to Student Teach will be advertised widely and posted across campus each semester with an associated due date. Students who plan to enter the Professional Education Semester during the fall semester of the next academic year must file a Notice of Intent to Student Teach with the Teacher Education Program office in the fall. Students who plan to enter the Professional Education Semester during the spring semester of the next academic year must file a Notice of Intent to Student Teach with the Teacher Education Program office in the spring.

Students are encouraged to submit their Notice of Intent to Student Teach by the announced due date. Considerable time is required to process each notice—that is, to determine eligibility, to make arrangements with schools for an appropriate field experience assignment, and to allow for introductions, orientations, and, in some cases, interviews. Students who file on time will benefit by the careful consideration that can be given to their requests; the later a notice is received, the fewer the placement assignments and choices still available will be. Failure to file a Notice of Intent to Student Teach on time may result in a delay of the Professional Education Semester.

Transfer and Special Students: No transfer or special student can enter the Professional Education Semester until after a full semester of residence and after earning a minimum of 15 credits at UW-Eau Claire. Senior transfer

students enrolling in September must file an application for admission to the professional semester by December 1 for the following fall.

Criteria for Admission:

- 1. Admitted to the appropriate Education Program.
- 2. Good academic standing, as defined in the catalog.
- 3. A minimum of 90 earned credits prior to start of Professional Education Semester.
- 4. Minimum total GPA of 2.75 or minimum resident GPA of 2.75.
- 5. Completion of the 30-hour Human Relations Fieldwork requirement.
- 6. Evidence of freedom from Tuberculosis via test conducted by Student Health Services.
- 7. Completion of required criminal background check.

For placements that start in the Fall semester, criteria for admission must be met by March 1 of the prior semester. For placements that start in the Spring semester, criteria for admission must be met by October 1 of the prior semester. For placements that start in the summer session, criteria for admission must be met by February 1 of the prior semester.

Licensure Requirements

Licensure to Teach

College of Health and Human Sciences graduates who desire to teach in Wisconsin, will apply for licensure using the WI Department of Public Instruction’s (DPI) ELO (Electronic Licensing Online) by following all steps listed on the site including fingerprinting if applicable.

Upon completion of all program requirements and WI DPI teaching requirements, information will be forwarded to DPI verifying program completion, the completion of all required tests, and information on all certifications the teaching candidates are eligible for with licensure. Candidates will then apply for their Initial License.

It is recommended that graduates seeking licensure to teach in states other than Wisconsin request application forms and instructions from the state in which licensure is desired. Early inquiry is suggested as the certification requirements vary by state. In most cases, an official transcript of credits must accompany the completed application form; additional tests or coursework may be required. In general, candidates may be able to obtain licenses in other states; however, these licenses may be issued with stipulations. It is the student’s responsibility to understand the licensing requirements of other states. UW-Eau Claire programs are designed to meet the requirements in Wisconsin only.

Criteria for Recommendation for Licensure:

- 1. Completion of a baccalaureate degree.
- 2. Completion of an approved education major, minor, and/or certificate.
- 3. 2.75 or higher GPA in the major, minor, and/or certificate (if certifiable). All college level courses, except student teaching or internship are included when determining GPA for licensure.
- 4. Completion of student teaching or internship courses with an S.
- 5. Content area proficiency as demonstrated by earning a minimum 3.0 GPA in content courses OR via obtaining a passing score on the appropriate Praxis II. Candidates for licensure in Languages must obtain a passing score on the ACTFL written portion (WPT) and must pass the OPI/OPIc within three years

prior to the start of student teaching or internship. All candidates seeking licensure must also earn a passing score on the FORT.

Major Requirements

Teaching (Code 062-000)

Students pursuing a degree that will allow them to be licensed in a K-12 setting complete courses in the content area(s) they plan to teach; one or more methods courses specific to the content area; Professional Education coursework focused on instructional methods, assessment of student learning, and curriculum and lesson planning; and ten credits of Student Teaching or Student Teaching Internship.

A student seeking K-12 licensure must complete the following requirements:

- 1. Earn a grade of C or higher in all content-area specific methods coursework and Professional Education coursework.
- 2. Earn a grade of S in student teaching or student teaching internship.
- 3. Earn a content area GPA of 3.0 or higher OR complete the appropriate Praxis II, ACTFL, or other exam specified by the Teacher Education Program with a passing grade.

Applied Music 7

Select an emphasis:

Wind, String, or Percussion Emphasis--Major Instruments

Four semesters and four credits from MUSI 154-MUSI 169, MUSI 174; three semesters and three credits from MUSI 354-MUSI 369, MUSI 374

Piano Emphasis--Piano

Four semesters and four credits from MUSI 151; three semesters and three credits of MUSI 351; and one credit from MUSI 154-MUSI 169

Ensembles 7

Woodwind/Brass/Percussion

Seven credits minimum, one credit required every semester of classes except during the professional semester.

Minimum of four credits from the following:

MUSI 180/380 Symphony Band

MUSI 181/381 Wind Ensemble

MUSI 184/384 University Orchestra

Minimum of one credit from the following:

MUSI 183 Marching Band

Ensembles must be chosen in consultation with and approved by the Music and Theatre Arts Department advisor based on career path. Two different experiences are required. A minimum of two credits are required.

MUSI 183 Marching Band

MUSI 186 Jazz Ensemble

MUSI 256/456 Brass Ensemble

MUSI 257/457 Woodwind Ensemble

MUSI 258/458 Percussion Ensemble

MUSI 259/459 Jazz Combo

MUSI 260/460 Contemporary Music Ensemble

MUSI 268/468 Piano Ensemble

The two semesters immediately prior to the professional semester must be from the following:

MUSI 180/380 Symphony Band

MUSI 181/381 Wind Ensemble

MUSI 184/384 University Orchestra

Piano

Seven credits minimum, one credit required every semester of classes except during the professional semester.

Two credits from:

MUSI 268/468 Piano Ensemble

Five credits in consultation with the applied instructor from:

MUSI 180/380 Symphony Band

MUSI 181/381 Wind Ensemble

MUSI 182/382 University Band

MUSI 183 Marching Band

MUSI 184/384 University Orchestra

MUSI 186/386 Jazz Ensemble

MUSI 188/388 Concert Choir

MUSI 190/390 Symphonic Choir

MUSI 191/391 The Singing Statesmen

MUSI 192/392 Women's Concert Chorale

MUSI 193/393 Treble Choir

MUSI 253/453 University Chamber Orchestra

MUSI 255/455 String Ensemble

MUSI 256/456 Brass Ensemble

MUSI 257/457 Woodwind Ensemble

MUSI 258/458 Percussion Ensemble

MUSI 259/459 Jazz Combo

MUSI 260/460 Contemporary Music Ensemble

MUSI 262/462 Chamber Choir

MUSI 265/465 Vocal Jazz Ensemble

The two semesters immediately prior to the professional semester must be from the following:

MUSI 180/380 Symphony Band

MUSI 181/381 Wind Ensemble

MUSI 184/384 University Orchestra

MUSI 186/386 Jazz Ensemble

MUSI 256/456 Brass Ensemble

MUSI 257/457 Woodwind Ensemble

MUSI 258/458 Percussion Ensemble

MUSI 259/459 Jazz Combo

MUSI 260/460 Contemporary Music Ensemble

MUSI 268/468 Piano Ensemble

String

Seven credits minimum, one credit required every semester of classes except during the professional semester.

Minimum of five credits:

MUSI 184/384 University Orchestra

Minimum of one credit:

MUSI 253/453 University Chamber Orchestra

Minimum one credit (in addition to those required above):

MUSI 184/384 University Orchestra

MUSI 186/386 Jazz Ensemble

MUSI 253/453 University Chamber Orchestra

MUSI 255/455 String Ensemble

MUSI 260/460 Contemporary Music Ensemble

MUSI 259/459 Jazz Combo

The two semesters immediately prior to the professional semester must be from the following:

MUSI 184/384 University Orchestra

Guitar

Seven credits minimum, one credit required every semester of classes except during the professional semester.

Two credits from:

MUSI 255/455 String Ensemble

Five credits in consultation with the applied instructor from:

MUSI 180/380 Symphony Band

MUSI 181/381 Wind Ensemble

MUSI 182/382 University Band

MUSI 183 Marching Band

MUSI 184/384 University Orchestra

MUSI 186/386 Jazz Ensemble

¹ Music Education majors take 2 credits of ES 212.

Program Learning Outcomes

Students completing this program will be expected to meet the following learning outcomes:

- Demonstrate artistic expression through musicianship, technical expertise and skill as appropriate to discipline.
- Create historically and culturally appropriate interpretations through the performance of varied repertoire in collaborative and solo performances as appropriate to discipline.
- Apply culturally specific analytical techniques and approaches to musical compositions.
- Make comparative written statements about aesthetics and function for multiple compositional styles.
- Demonstrate a diverse and inclusive perspective of music, as well as identify systems of privilege in music.
- Design and teach lessons that facilitate student achievement while acting as a collaborative leader.

- Design instruction that utilizes Comprehensive Musicianship through Performance (CMP) as a pedagogical approach in the classroom and rehearsal settings.
- Analyze and evaluate written and aural musical representations and performances by using effective musical academic language.
- Analyze and apply the connections of musical expressions to human experience and other fine and healing arts in a culturally relevant and sensitive manner with accessibility for all.

Music Teaching – Instrumental Emphasis, Comprehensive Major (B.M.E.)

The following is a sample degree plan, based on the current catalog. It is based on the 120-credit graduation requirement and assumes no transferred credits, no requirements waived by placement tests, no courses taken in the summer or winter, no repeated courses, and no remedial courses that may be required. This sample degree plan is intended for first-year students entering UW-Eau Claire in the fall semester. Your own degree plan may differ depending on the course of study selected (second major, minor, etc.). UW-Eau Claire cannot guarantee all courses will be offered as shown but will provide a range of courses that may enable prepared students to fulfill their requirements in a timely period. This sample degree plan is just a guide. Please consult your advisor, your degree audit, and the catalog to create your own degree plan. Note: In order to earn the required minimum of 120 credits for the degree in four years, you should plan to take 15 credits each semester or 30 credits each year.

To earn a degree, students must fulfill all University Graduation Requirements, including the Core General Education Requirements (CGER). CGER course work in the following sample degree plan uses abbreviations such as CGER CL, CGER HA, and CGER NSWL to represent the learning outcomes students will meet via completion of the course. Please click here for a description of the outcomes and requirements.

FIRST YEAR

First Semester		
MUSI 141	Theory Written I	3

TOTAL FOURTH YEAR	28

¹ Music Education students take 2 credits of ES 212.

RECOMMENDATIONS FOR HIGH IMPACT PRACTICES (HIPs) The University of Wisconsin-Eau Claire encourages all students to participate in High Impact Practices. The following information identifies any specific recommendations that faculty in this major have concerning which HIPs might be most beneficial to students, and any recommendations about when those HIPs best fit into the degree plan. Students should also consult their faculty advisor for information on HIPs. There are many additional high impact opportunities available. Talk to your academic advisor for more information about incorporating HIPs like Study Abroad (<https://studyabroad.apps.uwec.edu/>), Intercultural Immersion (<https://www.uwec.edu/immersion/>), Internship (<https://www.uwec.edu/offices-services/advising-retention-career-center/career-services/internship/job-searching-and>), and/or Student/Faculty Collaborative Research (<https://www.uwec.edu/offices-services/office-research-and-sponsored-programs/getting-involved-student-faculty-research-1>) into your time at UW-Eau Claire.

- All students are required to participate in Student Teaching in the final semester of the program.
- Students are encouraged to participate in an immersion program related to education either through the department or college during the final two years of the program.
- Faculty-Student Research Projects are encouraged after the first year of the program.
- Students are strongly encouraged to participate in "Quest," the Integrated Learning Project specifically designed for Music and Theatre Arts students. See Music and Theatre Arts Homepage for more information.

Course Suggestions

- See catalogue for details of ensemble requirement.
- Piano Proficiency Exam must be passed prior to MUSI 278, MUSI 350, and MUED 310.
- Required techniques courses are MUSI 196 - Strings, MUSI 198 - Percussion, MUSI 202 - Brass, MUSI 205 - Voice (2 cr.), MUSI 208 - Woodwinds (Single Reed and Flute), MUSI 210 - Woodwinds (Double Reeds), and MUSI 278 - Functional Piano.
- BME students are considered pre-education until accepted into College of Health and Human Sciences.
- It is recommended that Wind and Percussion majors enroll in Marching Band for a minimum of two semesters.
- Secondary Block Courses must be taken concurrently.

Application to Major

Admittance to major is through audition to the Music Program and admittance to the College of Health and Human Sciences before your final year of the program.

Core General Education Requirements (CGER)

Core General Education Requirements (CGER)

The Core General Education Requirements (CGER) includes a minimum of 10 courses across 6 categories. Students must complete a minimum of 36 credits in courses approved for the CGER Core.

- Mathematics & Quantitative Reasoning (MQR) - 4 credits, one course minimum
 - Includes the University Mathematics Requirement¹
- Communication & Literacy (CL) - 8 credits, two courses minimum
 - Includes the University Writing Requirement (CL-W)²
- Natural Sciences & Wellness (NSW/NSWL) - 6 credits, one course minimum (NSW-Lab required)
- Social & Behavioral Sciences (SBS) - 6 credits, two courses minimum
- Humanities & Arts (HA) - 6 credits, two courses minimum
- Civics & Perspectives (CP) - 6 credits, two courses minimum

¹ University Mathematics Requirement:

Students satisfy the University Mathematics Requirement in one of four ways:

- completing an approved university-level mathematics course (MQR) with a grade of C (not C-) or above
- achieving a suitable score on the UW Math Placement Test (<https://www.uwec.edu/academics/academic-support/advising/testing/placement-testing/>)
- achieving a suitable score on an exam such as the Advanced Placement Calculus or Advanced Placement Statistics exams
- achieving a suitable score on a Credit by Examination administered by the Department of Mathematics.

² University Writing Requirement:

Students satisfy the University Writing Requirement in one of four ways:

- completing a Blugold Seminar in Critical Reading and Writing course (WRIT 102 (<https://catalog.uwec.edu/search/?P=WRIT%20102>), WRIT 114 (<https://catalog.uwec.edu/search/?P=WRIT%20114>), WRIT 116 (<https://catalog.uwec.edu/search/?P=WRIT%20116>), WRIT 118 (<https://catalog.uwec.edu/search/?P=WRIT%20118>), or WRIT 120 (<https://catalog.uwec.edu/search/?P=WRIT%20120>)) with a grade of C (not C-) or above
- achieving a suitable score on the English Placement Test (<https://www.uwec.edu/academics/blugold-seminar/writ-courses-placement/>) (WPT ENGL)
- achieving a suitable score on an exam such as the Advanced Placement English Literature and Composition or Advanced Placement English Language and Composition exams
- achieving a suitable score on the University Writing Program Portfolio.

Completion via Placement Test

- Writing: If the CL-W subcategory is satisfied through a placement test, the CGER Communication and Literacy requirement will be reduced from 8 credits (2 courses) to 3 credits (1 course).
- Mathematics: If the University Math Requirement is satisfied through a placement test, the CGER Mathematics & Quantitative Reasoning

- requirement will be considered fully met, replacing the 4-credit (1 course) requirement.
- Students must still complete 36 credits across 10 courses, with any remaining credits or courses eligible to be taken from any CGER category.

Music, Applied Instrumental, Comprehensive Major

(Code 060-041)

University Requirements

GRADUATION REQUIREMENTS FOR BACCALAUREATE DEGREE

Credit Requirements	
Minimum total for graduation ¹	120
Upper division credits (courses numbered 300 and higher)	39
Core General Education	10 courses, 36 credits

Academic Concentrations	
Grade Point Requirements ²	
Total	2.00 average
Resident	2.00 average
Major	2.00 average
Minor	2.00 average
Certificate	2.00 average

University Residency Requirements	
Minimum total	30
Senior year	23
Major, Standard, upper division in residence	12
Major, Comprehensive, upper division in residence	21
Certificate	25 percent of credits

Procedures Required for Graduation

Obtain admission to the degree program and/or the College offering it.
Apply for graduation on CampS.

¹ Certain programs exceed this minimum.
² See special requirements in each College.

Applicability of Credits Toward Graduation

Junior College or Two-Year College Credits. A maximum of 72 semester credits earned in a junior college or two-year college will be accepted as degree credits at UW-Eau Claire.

Extension Credits. Credits earned in credit outreach courses offered by UW-Eau Claire are treated as resident credits. Credits earned in extension courses offered by other units of the Universities of Wisconsin System are treated as transfer credits. All other (non-UW) extension and correspondence credits are normally limited to one-fourth of the total required for graduation from any curriculum.

WTCS Credits. A maximum of 72 semester credits earned in college parallel programs at Madison Area Technical College, Milwaukee Area Technical College, Nicolet Area Technical College, or Chippewa Valley Technical College may be accepted as degree credits at UW-Eau Claire. A set number of general

education courses will be accepted from other technical schools. Occupational and technical courses may also be considered for transfer if the quality and content of the course work from the technical college is judged to be comparable to course work at UW-Eau Claire. Refer to the Transfer Credit Wizard (https://www.uwec.sis.wisconsin.edu/psp/eauprd-tb/EMPLOYEE/SA/c/EAU_SS_CUSTOM.EAU_TRNCRDWZ.GBL) or contact the UW-Eau Claire Admissions Office for information about the current transfer policy.

USAFI Credit. UW-Eau Claire will accept up to 32 semester credits for work done through the United States Armed Forces Institute, under the provision for non-UW correspondence credit (see Extension Credits above).

Activity Credit (band, chorus, drama, KINS 100-184 courses) Students may count toward graduation no more than one credit of KINS 110-184 courses. Students may count toward graduation no more than four credits earned in any single activity course and no more than 12 credits resulting from any combination of activity courses (excluding KINS 110-184 courses).

Other Restricted Credits. For other University restrictions, see the following: Cooperative Education; Credit by Examination; Satisfactory/Unsatisfactory Registration; Transfer of Credits. College or departmental restrictions may also be placed on Independent Study (399-499 courses), Directed Study (395-495), and other types of credits.

APPLICABILITY OF CREDITS TOWARD GRADUATION

	Credit Restrictions
Satisfactory/Unsatisfactory	
Total degree credit	maximum 12
Major, Standard	maximum 1 course
Major, Comprehensive	maximum 2 courses
Minor	maximum 1 course
Credit by Examination	
Total degree credit	maximum ¼ of total
Major or minor	maximum ½ of total
Two-Year College Credits	
Total degree credit	maximum 72 credits
Activity credit (band, chorus, drama, KINS 100-184)	
Total KINS 100-184	maximum 1 credit
Total Band, chorus, drama	maximum 12 credits
Single course band, chorus, drama	maximum 4 credits
Extension credits	
UW-System	no maximum
Other extension/correspondence	maximum ¼ of total
USAFI	
USAFI	maximum 32 credits

Core General Education Requirements (CGER)

CGER Categories

Mathematics & Quantitative Reasoning (MQR) (http://catalog.uwec.edu/undergraduate/outcome-mqr/)	4 credit hours, 1 course min
Includes University Math Requirement ¹	
Communication & Literacy (CL) (http://catalog.uwec.edu/undergraduate/outcome-cl/)	8 credit hours, 2 course min (including CL-W)
Includes University Writing Requirement (CL-W) (http://catalog.uwec.edu/undergraduate/outcome-clw/) ²	
Natural Sciences & Wellness (NSW/NSWL) (http://catalog.uwec.edu/undergraduate/outcome-NSW/)	6 credit hours, 1 course min (NSW-Lab required)
Social & Behavioral Sciences (SBS) (https://catalog.uwec.edu/undergraduate/outcome-sbs/)	6 credit hours, 2 course min
Humanities & Arts (HA) (http://catalog.uwec.edu/undergraduate/outcome-ha/)	6 credit hours, 2 course min
Civics & Perspectives (CP) (http://catalog.uwec.edu/undergraduate/outcome-cp/)	6 credit hours, 2 course min
CGER Totals ³	
Credits	minimum 36 credits
Courses	minimum 10 courses

¹ University Mathematics Requirement:

Students satisfy the University Mathematics Requirement in one of four ways:

- completing an approved university-level mathematics course (MQR) with a grade of C (not C-) or above
- achieving a suitable score on the UW Math Placement Test (<https://www.uwec.edu/academics/academic-support/advising/testing/placement-testing/>)
- achieving a suitable score on an exam such as the Advanced Placement Calculus or Advanced Placement Statistics exams
- achieving a suitable score on a Credit by Examination administered by the Department of Mathematics.

² University Writing Requirement:

Students satisfy the University Writing Requirement in one of four ways:

- completing a Blugold Seminar in Critical Reading and Writing course (WRIT 102 (<https://catalog.uwec.edu/search/?P=WRIT%20102>), WRIT 114 (<https://catalog.uwec.edu/search/?P=WRIT%20114>), WRIT 116 (<https://catalog.uwec.edu/search/?P=WRIT%20116>), WRIT 118 (<https://catalog.uwec.edu/search/?P=WRIT%20118>), or WRIT 120 (<https://catalog.uwec.edu/search/?P=WRIT%20120>)) with a grade of C (not C-) or above
- achieving a suitable score on the English Placement Test (<https://www.uwec.edu/academics/blugold-seminar/writ-courses-placement/>) (WPT ENGL)
- achieving a suitable score on an exam such as the Advanced Placement English Literature and Composition or Advanced Placement English Language and Composition exams
- achieving a suitable score on the University Writing Program Portfolio.

³ Completion via Placement Tests

- Writing: If the CL-W subcategory is satisfied through a placement test, the CGER Communication and Literacy requirement will be reduced from 8 credits (2 courses) to 3 credits (1 course).

- Mathematics: If the University Math Requirement is satisfied through a placement test, the CGER Mathematics & Quantitative Reasoning requirement will be considered fully met, replacing the 4-credit (1 course) requirement.
- Students must still complete 36 credits across 10 courses, with any remaining credits or courses eligible to be taken from any CGER category.

College Degree Requirements

Bachelor of Music

University Graduation Requirements. All candidates for degrees must fulfill the requirements for credits, curriculum, GPA, and University residency as specified in the section of this catalog titled University Graduation Requirements.

College Graduation Requirements: Grade Point Averages. All candidates for degrees in the College of Arts and Sciences must earn minimum resident and total GPAs of 2.00 in the major, the minor, and the certificate. The resident and total GPAs for the major are computed using all attempted credits applicable to the major including those offered by departments other than the major department. The resident and total GPAs for the minor and certificate are computed similarly.

Major-Minor and Major-Certificate Requirements. A standard major (a minimum of 36 credits) must be supplemented by a minor (a minimum of 24 credits) or by a certificate (12 to 18 credits) to meet graduation requirements for completing a first and second degree program. No minor or certificate is required with a Comprehensive Major (60 or more credits) or with two majors of 36 or more credits each.

Certain degree programs, which include Comprehensive Majors, may require more than the minimum of 120 credits for graduation.

Acceptable academic program combinations are determined at the college level. A major and a minor or a major and certificate or two majors (if available) may not be elected in the same department or program, except in the approved combinations listed here.

College Credits. Earn at least 90 credits in courses offered by the College of Arts and Sciences.

Bachelor of Music Degree in the College of Arts and Sciences (B.M.)

Fulfillment of all University Graduation Requirements (which includes the Core General Education Requirements); all College-level degree requirements (major and minor/certificate emphases, GPAs, earning at least 90 credits in Arts and Sciences course work); second language competency at the 102 level. Second language competency can be met in one of two ways: (1) Demonstrate a level of second language competency that qualifies the student to enter the 201-level course in a second language. (2) Earn a grade of at least C (not C-) or a mark of S in a 102-level second language course (or AIS 112 or AIS 122 or SLHS 103).

Major Requirements

(Code 060-041)

Code	Title	Credits
Seventy-four semester credits, including:		
Theory		16

MUSI 141 & MUSI 142	Theory Written I and Theory Aural I	
MUSI 146 & MUSI 147	Theory Written II and Theory Aural II	
MUSI 246 & MUSI 247	Theory Written III and Theory Aural III	
MUSI 248	Theory Written IV	
MUSI 249	Theory Aural IV	
History/Literature		12
MUSI 227	Music History & Society I	
MUSI 229	Music History & Society II	
MUSI 305	Analyzing Global Traditions in Music	
MUSI 404	Music History Seminar	
Applied Instrument/Literature/Pedagogy		30
Wind/Brass/Percussion/Strings--		
Two credits for first semester; four credits per semester for seven semesters, four semesters at 300-level		
Piano--		
Three credits of applied lessons for eight semesters, four semesters at 300-level, plus		
MUSI 315	Piano Pedagogy	
MUSI 481	Piano Literature	
Senior Recital		
MUSI 497	Senior Recital	2
Conducting		
MUSI 350	Conducting	2
Ensembles - ten credits minimum, one credit required in every semester of classes.		10
Wind/Brass/Percussion --		
Four credits from:		
MUSI 180/380	Symphony Band	
MUSI 181/381	Wind Ensemble	
MUSI 184/384	University Orchestra ¹	
Two semesters, two credits unconducted ensemble from:		
MUSI 256/456	Brass Ensemble	
MUSI 257/457	Woodwind Ensemble	
MUSI 258/458	Percussion Ensemble	
MUSI 259/459	Jazz Combo	
MUSI 260/460	Contemporary Music Ensemble	
One semester, one credit from:		
MUSI 260/460	Contemporary Music Ensemble	
Three credits of elective ensembles from:		
MUSI 180/380	Symphony Band	
MUSI 181/381	Wind Ensemble	
MUSI 183	Marching Band	
MUSI 184/384	University Orchestra	
MUSI 186/386	Jazz Ensemble	
MUSI 256/456	Brass Ensemble	
MUSI 257/457	Woodwind Ensemble	
MUSI 258/458	Percussion Ensemble	
MUSI 259/459	Jazz Combo	
MUSI 260/460	Contemporary Music Ensemble	
Bowed Strings --		

Four credits from:	
MUSI 184/384	University Orchestra
One credit from:	
MUSI 253/453	University Chamber Orchestra
One credit from:	
MUSI 260/460	Contemporary Music Ensemble
One credit unconducted ensemble from:	
MUSI 255/455	String Ensemble
MUSI 259/459	Jazz Combo
Three credits of elective ensembles from:	
MUSI 184/384	University Orchestra
MUSI 253/453	University Chamber Orchestra
MUSI 255/455	String Ensemble
MUSI 259/459	Jazz Combo
MUSI 260/460	Contemporary Music Ensemble
Piano--	
Three credits from:	
MUSI 268/468	Piano Ensemble
Seven credits from any other ensemble, in consultation with applied instructor	
Guitar--	
Three credits from:	
MUSI 255/455	String Ensemble
Seven credits from any other ensemble, in consultation with applied instructor	
Electives in Music	
Select from the following:	
MUSI 150	Beginning Composition
MUSI 170	Applied Music-Composition
MUSI 276	Keyboard Accompanying
MUSI 325	Orchestration
MUSI 335	Counterpoint
MUSI 407	Music Theory Seminar
Second Applied Instrument	
Piano Proficiency - passed prior to graduation	
Total Credits	74

¹ A minimum of one semester in orchestra is required for those who play orchestral instruments.

NOTES:

- 1) MUSI 404 (3 crs) may be used as an elective with advisor approval when topic differs from initial enrollment.
- 2) No music course may be taken under the Satisfactory/Unsatisfactory option.

Program Learning Outcomes

Students completing this program will be expected to meet the following learning outcomes:

- Demonstrate artistic expression through musicianship, technical expertise and skill as appropriate to discipline.

- Create historically and culturally appropriate interpretations through the performance of varied repertoire in collaborative and solo performances as appropriate to discipline.
- Apply culturally specific analytical techniques and approaches to musical compositions.
- Make comparative written statements about aesthetics and function for multiple compositional styles.
- Demonstrate a diverse and inclusive perspective of music, as well as identify systems of privilege in music.
- Demonstrate knowledge of diverse pedagogical techniques for their applicable performance medium.

Music, Applied Instrumental, Comprehensive Major, B.M. (Piano)

The following is a sample degree plan, based on the current catalog. It is based on the 120-credit graduation requirement and assumes no transferred credits, no requirements waived by placement tests, no courses taken in the summer or winter, no repeated courses, and no remedial courses that may be required. This sample degree plan is intended for first-year students entering UW-Eau Claire in the fall semester. Your own degree plan may differ depending on the course of study selected (second major, minor, etc.). UW-Eau Claire cannot guarantee all courses will be offered as shown, but will provide a range of courses that may enable prepared students to fulfill their requirements in a timely period. This sample degree plan is just a guide. Please consult your advisor, your degree audit, and the catalog to create your own degree plan. *Note:* In order to earn the required minimum of 120 credits for the degree in four years, you should plan to take 15 credits each semester or 30 credits each year.

To earn a degree, students must fulfill all University Graduation Requirements, including the Core General Education Requirements (CGER). CGER course work in the following sample degree plan uses abbreviations such as CGER CL, CGER HA, and CGER NSWL to represent the learning outcomes students will meet via completion of the course. Please click here for a description of the outcomes and requirements.

FIRST YEAR

FIRST SEMESTER		
MUSI 141	Theory Written I	3
MUSI 142	Theory Aural I	1

Minimum total for the baccalaureate degree = 120 credits

Course Information

- See catalog for details of ensemble requirement.
- Music Theory sequence should begin in 1st year

- Piano Proficiency Exam must be passed prior to MUSI 350.
- See catalog for second language competency requirement.
- Music electives include MUSI 150, MUSI 170, MUSI 325, MUSI 335, MUSI 407, Secondary Applied Instrument. Note: 1) MUSI 404 may be used as an elective with adviser approval when the topic differs from initial enrollment. 2) A sophomore and/or junior recital may also be given for credit and included as a music elective.

Application to Major

Admittance to major is through audition to the Music Program and jury at end of first semester of study.

RECOMMENDATIONS FOR HIGH IMPACT PRACTICES (HIPs)

The University of Wisconsin-Eau Claire encourages all students to participate in High Impact Practices. The following information identifies any specific recommendations that faculty in this major have concerning which HIPs might be most beneficial to students, and any recommendations about when those HIPs best fit into the degree plan. Students should also consult their faculty advisor for information on HIPs. There are many additional high impact opportunities available. Talk to your academic advisor for more information about incorporating HIPs like Study Abroad, (<https://studyabroad.apps.uwec.edu/>) Intercultural Immersion (<https://www.uwec.edu/immersion/>), Internship, (<https://www.uwec.edu/offices-services/advising-retention-career-center/career-services/internship/job-searching-and/>) and/or Student/Faculty Collaborative Research (<https://www.uwec.edu/offices-services/office-research-and-sponsored-programs/getting-involved-student-faculty-research/>) into your time at UW-Eau Claire.

- Students are encouraged to seek an internship related to the performing arts during the final two years of the program. See internship possibilities in the performing arts on the Music and Theatre Arts Homepage.
- Students are encouraged to consider a cultural immersion program, such as the Spring Break trip to New York City, in the final two years of the program.
- Faculty-Student Research Projects are encouraged after the first year of the program.
- Students are strongly encouraged to participate in "Quest," the Integrated Learning Project specifically created for Music and Theatre Arts students. See Music and Theatre Arts Homepage for more information.
- Students are strongly encouraged to consider a Recording Arts Certificate, an Arts Administration Certificate, or a minor.

Music, Applied Instrumental, Comprehensive Major, B.M.

The following is a sample degree plan, based on the current catalog. It is based on the 120-credit graduation requirement and assumes no transferred credits, no requirements waived by placement tests, no courses taken in the summer or winter, no repeated courses, and no remedial courses that may be required. This sample degree plan is intended for first-year students entering UW-Eau Claire in the fall semester. Your own degree plan may differ depending on the course of study selected (second major, minor, etc.). UW-Eau Claire cannot guarantee all courses will be offered as shown, but will provide a range of courses that may enable prepared students to fulfill their requirements in a timely period. This sample degree plan is just a guide. Please consult your advisor, your degree audit, and the catalog to create your own degree plan. Note: In order to earn the required minimum of 120 credits for the degree in four years, you should plan to take 15 credits each semester or 30 credits each year.

To earn a degree, students must fulfill all University Graduation Requirements, including the Core General Education Requirements (CGER). CGER course work in the following sample degree plan uses abbreviations such as CGER CL, CGER HA, and CGER NSWL to represent the learning outcomes students will meet via

completion of the course. Please click here for a description of the outcomes and requirements.

Total		30
Minimum total for the baccalaureate degree = 120 credits		

Course Information

- See catalog for details of ensemble requirement.
- Music Theory sequence should begin in 1st year
- Piano Proficiency Exam must be passed prior to MUSI 350.
- See catalog for second language competency requirement.
- Music electives include MUSI 150, MUSI 170, MUSI 325, MUSI 335, MUSI 407, Secondary Applied Instrument. Note: 1) MUSI 404 may be used as an elective with adviser approval when the topic differs from initial enrollment. 2) A sophomore and/or junior recital may also be given for credit and included as a music elective.

Application to Major

Admittance to major is through audition to the Music Program and jury at end of first semester of study.

RECOMMENDATIONS FOR HIGH IMPACT PRACTICES (HIPs)

The University of Wisconsin-Eau Claire encourages all students to participate in High Impact Practices. The following information identifies any specific recommendations that faculty in this major have concerning which HIPs might be most beneficial to students, and any recommendations about when those HIPs best fit into the degree plan. Students should also consult their faculty advisor for information on HIPs. There are many additional high impact opportunities available. Talk to your academic advisor for more information about incorporating HIPs like Study Abroad, (<https://studyabroad.apps.uwec.edu/>) Intercultural Immersion (<https://www.uwec.edu/immersion/>), Internship, (<https://www.uwec.edu/offices-services/advising-retention-career-center/career-services/internship/job-searching-and/>) and/or Student/Faculty Collaborative Research (<https://www.uwec.edu/offices-services/office-research-and-sponsored-programs/getting-involved-student-faculty-research/>) into your time at UW-Eau Claire.

- Students are encouraged to seek an internship related to the performing arts during the final two years of the program. See internship possibilities in the performing arts on the Music and Theatre Arts Homepage.
- Students are encouraged to consider a cultural immersion program, such as the Spring Break trip to New York City, in the final two years of the program.
- Faculty-Student Research Projects are encouraged after the first year of the program.

- Students are strongly encouraged to participate in “Quest,” the Integrated Learning Project specifically created for Music and Theatre Arts students. See Music and Theatre Arts Homepage for more information.
- Students are strongly encouraged to consider a Recording Arts Certificate, an Arts Administration Certificate, or a minor.

Core General Education Requirements (CGER)

Core General Education Requirements (CGER)

The Core General Education Requirements (CGER) includes a minimum of 10 courses across 6 categories. Students must complete a minimum of 36 credits in courses approved for the CGER Core.

- Mathematics & Quantitative Reasoning (MQR) - 4 credits, one course minimum
 - Includes the University Mathematics Requirement¹
- Communication & Literacy (CL) - 8 credits, two courses minimum
 - Includes the University Writing Requirement (CL-W)²
- Natural Sciences & Wellness (NSW/NSWL) - 6 credits, one course minimum (NSW-Lab required)
- Social & Behavioral Sciences (SBS) - 6 credits, two courses minimum
- Humanities & Arts (HA) - 6 credits, two courses minimum
- Civics & Perspectives (CP) - 6 credits, two courses minimum

¹ University Mathematics Requirement:

- Students satisfy the University Mathematics Requirement in one of four ways:
- completing an approved university-level mathematics course (MQR) with a grade of C (not C-) or above
 - achieving a suitable score on the UW Math Placement Test (<https://www.uwec.edu/academics/academic-support/advising/testing/placement-testing/>)
 - achieving a suitable score on an exam such as the Advanced Placement Calculus or Advanced Placement Statistics exams
 - achieving a suitable score on a Credit by Examination administered by the Department of Mathematics.

² University Writing Requirement:

- Students satisfy the University Writing Requirement in one of four ways:
- completing a Blugold Seminar in Critical Reading and Writing course (WRIT 102 (<https://catalog.uwec.edu/search/?P=WRIT%20102>), WRIT 114 (<https://catalog.uwec.edu/search/?P=WRIT%20114>), WRIT 116 (<https://catalog.uwec.edu/search/?P=WRIT%20116>), WRIT 118 (<https://catalog.uwec.edu/search/?P=WRIT%20118>), or WRIT 120 (<https://catalog.uwec.edu/search/?P=WRIT%20120>)) with a grade of C (not C-) or above
 - achieving a suitable score on the English Placement Test (<https://www.uwec.edu/academics/blugold-seminar/writ-courses-placement/>) (WPT ENGL)
 - achieving a suitable score on an exam such as the Advanced Placement English Literature and Composition or Advanced Placement English Language and Composition exams
 - achieving a suitable score on the University Writing Program Portfolio.

Completion via Placement Test

- Writing: If the CL-W subcategory is satisfied through a placement test, the CGER Communication and Literacy requirement will be reduced from 8 credits (2 courses) to 3 credits (1 course).
- Mathematics: If the University Math Requirement is satisfied through a placement test, the CGER Mathematics & Quantitative Reasoning

- requirement will be considered fully met, replacing the 4-credit (1 course) requirement.
- Students must still complete 36 credits across 10 courses, with any remaining credits or courses eligible to be taken from any CGER category.

Music, Applied Voice, Comprehensive Major

(Code 060-042)

University Requirements

GRADUATION REQUIREMENTS FOR BACCALAUREATE DEGREE

Credit Requirements	
Minimum total for graduation ¹	120
Upper division credits (courses numbered 300 and higher)	39
Core General Education	10 courses, 36 credits

Academic Concentrations	
Grade Point Requirements ²	
Total	2.00 average
Resident	2.00 average
Major	2.00 average
Minor	2.00 average
Certificate	2.00 average

University Residency Requirements	
Minimum total	30
Senior year	23
Major, Standard, upper division in residence	12
Major, Comprehensive, upper division in residence	21
Certificate	25 percent of credits

Procedures Required for Graduation

Obtain admission to the degree program and/or the College offering it.

Apply for graduation on CampS.

¹ Certain programs exceed this minimum.
² See special requirements in each College.

Applicability of Credits Toward Graduation

Junior College or Two-Year College Credits. A maximum of 72 semester credits earned in a junior college or two-year college will be accepted as degree credits at UW-Eau Claire.

Extension Credits. Credits earned in credit outreach courses offered by UW-Eau Claire are treated as resident credits. Credits earned in extension courses offered by other units of the Universities of Wisconsin System are treated as transfer credits. All other (non-UW) extension and correspondence credits are normally limited to one-fourth of the total required for graduation from any curriculum.

WTCS Credits. A maximum of 72 semester credits earned in college parallel programs at Madison Area Technical College, Milwaukee Area Technical College, Nicolet Area Technical College, or Chippewa Valley Technical College may be accepted as degree credits at UW-Eau Claire. A set number of general

education courses will be accepted from other technical schools. Occupational and technical courses may also be considered for transfer if the quality and content of the course work from the technical college is judged to be comparable to course work at UW-Eau Claire. Refer to the Transfer Credit Wizard (https://www.uwec.sis.wisconsin.edu/psp/eauprd-tb/EMPLOYEE/SA/c/EAU_SS_CUSTOM.EAU_TRNCRDWZ.GBL) or contact the UW-Eau Claire Admissions Office for information about the current transfer policy.

USAFI Credit. UW-Eau Claire will accept up to 32 semester credits for work done through the United States Armed Forces Institute, under the provision for non-UW correspondence credit (see Extension Credits above).

Activity Credit (band, chorus, drama, KINS 100-184 courses) Students may count toward graduation no more than one credit of KINS 110-184 courses. Students may count toward graduation no more than four credits earned in any single activity course and no more than 12 credits resulting from any combination of activity courses (excluding KINS 110-184 courses).

Other Restricted Credits. For other University restrictions, see the following: Cooperative Education; Credit by Examination; Satisfactory/Unsatisfactory Registration; Transfer of Credits. College or departmental restrictions may also be placed on Independent Study (399-499 courses), Directed Study (395-495), and other types of credits.

APPLICABILITY OF CREDITS TOWARD GRADUATION

	Credit Restrictions
Satisfactory/Unsatisfactory	
Total degree credit	maximum 12
Major, Standard	maximum 1 course
Major, Comprehensive	maximum 2 courses
Minor	maximum 1 course
Credit by Examination	
Total degree credit	maximum ¼ of total
Major or minor	maximum ½ of total
Two-Year College Credits	
Total degree credit	maximum 72 credits
Activity credit (band, chorus, drama, KINS 100-184)	
Total KINS 100-184	maximum 1 credit
Total Band, chorus, drama	maximum 12 credits
Single course band, chorus, drama	maximum 4 credits
Extension credits	
UW-System	no maximum
Other extension/correspondence	maximum ¼ of total
USAFI	
USAFI	maximum 32 credits

Core General Education Requirements (CGER)

CGER Categories

Mathematics & Quantitative Reasoning (MQR) (http://catalog.uwec.edu/undergraduate/outcome-mqr/)	4 credit hours, 1 course min
Includes University Math Requirement ¹	
Communication & Literacy (CL) (http://catalog.uwec.edu/undergraduate/outcome-cl/)	8 credit hours, 2 course min (including CL-W)
Includes University Writing Requirement (CL-W) (http://catalog.uwec.edu/undergraduate/outcome-clw/) ²	
Natural Sciences & Wellness (NSW/NSWL) (http://catalog.uwec.edu/undergraduate/outcome-NSW/)	6 credit hours, 1 course min (NSW-Lab required)
Social & Behavioral Sciences (SBS) (https://catalog.uwec.edu/undergraduate/outcome-sbs/)	6 credit hours, 2 course min
Humanities & Arts (HA) (http://catalog.uwec.edu/undergraduate/outcome-ha/)	6 credit hours, 2 course min
Civics & Perspectives (CP) (http://catalog.uwec.edu/undergraduate/outcome-cp/)	6 credit hours, 2 course min
CGER Totals ³	
Credits	minimum 36 credits
Courses	minimum 10 courses

¹ University Mathematics Requirement:

Students satisfy the University Mathematics Requirement in one of four ways:

- completing an approved university-level mathematics course (MQR) with a grade of C (not C-) or above
- achieving a suitable score on the UW Math Placement Test (<https://www.uwec.edu/academics/academic-support/advising/testing/placement-testing/>)
- achieving a suitable score on an exam such as the Advanced Placement Calculus or Advanced Placement Statistics exams
- achieving a suitable score on a Credit by Examination administered by the Department of Mathematics.

² University Writing Requirement:

Students satisfy the University Writing Requirement in one of four ways:

- completing a Blugold Seminar in Critical Reading and Writing course (WRIT 102 (<https://catalog.uwec.edu/search/?P=WRIT%20102>), WRIT 114 (<https://catalog.uwec.edu/search/?P=WRIT%20114>), WRIT 116 (<https://catalog.uwec.edu/search/?P=WRIT%20116>), WRIT 118 (<https://catalog.uwec.edu/search/?P=WRIT%20118>), or WRIT 120 (<https://catalog.uwec.edu/search/?P=WRIT%20120>)) with a grade of C (not C-) or above
- achieving a suitable score on the English Placement Test (<https://www.uwec.edu/academics/blugold-seminar/writ-courses-placement/>) (WPT ENGL)
- achieving a suitable score on an exam such as the Advanced Placement English Literature and Composition or Advanced Placement English Language and Composition exams
- achieving a suitable score on the University Writing Program Portfolio.

³ Completion via Placement Tests

- Writing: If the CL-W subcategory is satisfied through a placement test, the CGER Communication and Literacy requirement will be reduced from 8 credits (2 courses) to 3 credits (1 course).

- Mathematics: If the University Math Requirement is satisfied through a placement test, the CGER Mathematics & Quantitative Reasoning requirement will be considered fully met, replacing the 4-credit (1 course) requirement.
- Students must still complete 36 credits across 10 courses, with any remaining credits or courses eligible to be taken from any CGER category.

College Degree Requirements

Bachelor of Music

University Graduation Requirements. All candidates for degrees must fulfill the requirements for credits, curriculum, GPA, and University residency as specified in the section of this catalog titled University Graduation Requirements.

College Graduation Requirements: Grade Point Averages. All candidates for degrees in the College of Arts and Sciences must earn minimum resident and total GPAs of 2.00 in the major, the minor, and the certificate. The resident and total GPAs for the major are computed using all attempted credits applicable to the major including those offered by departments other than the major department. The resident and total GPAs for the minor and certificate are computed similarly.

Major-Minor and Major-Certificate Requirements. A standard major (a minimum of 36 credits) must be supplemented by a minor (a minimum of 24 credits) or by a certificate (12 to 18 credits) to meet graduation requirements for completing a first and second degree program. No minor or certificate is required with a Comprehensive Major (60 or more credits) or with two majors of 36 or more credits each.

Certain degree programs, which include Comprehensive Majors, may require more than the minimum of 120 credits for graduation.

Acceptable academic program combinations are determined at the college level. A major and a minor or a major and certificate or two majors (if available) may not be elected in the same department or program, except in the approved combinations listed here.

College Credits. Earn at least 90 credits in courses offered by the College of Arts and Sciences.

Bachelor of Music Degree in the College of Arts and Sciences (B.M.)

Fulfillment of all University Graduation Requirements (which includes the Core General Education Requirements); all College-level degree requirements (major and minor/certificate emphases, GPAs, earning at least 90 credits in Arts and Sciences course work); second language competency at the 102 level. Second language competency can be met in one of two ways: (1) Demonstrate a level of second language competency that qualifies the student to enter the 201-level course in a second language. (2) Earn a grade of at least C (not C-) or a mark of S in a 102-level second language course (or AIS 112 or AIS 122 or SLHS 103).

Major Requirements

(Code 060-042)

Code	Title	Credits
Seventy-nine semester credits, including:		
Theory		16

MUSI 141 & MUSI 142	Theory Written I and Theory Aural I	
MUSI 146 & MUSI 147	Theory Written II and Theory Aural II	
MUSI 246 & MUSI 247	Theory Written III and Theory Aural III	
MUSI 248	Theory Written IV	
MUSI 249	Theory Aural IV	
History/Literature		15
MUSI 227	Music History & Society I	
MUSI 229	Music History & Society II	
MUSI 305	Analyzing Global Traditions in Music	
MUSI 404	Music History Seminar	
MUSI 472	Voice Literature	
Applied Voice, eight semesters, four semesters at 300 level		21
MUSI 153/353	Applied Music-Voice	
Applied Piano		
MUSI 151	Applied Music-Piano (two semesters, two credits)	2
MUSI 378	Advanced Functional Piano (one semester)	1
Senior Recital		
MUSI 497	Senior Recital	2
Voice Pedagogy		
MUSI 345	Voice Pedagogy	3
Singers' Diction		
MUSI 347	Singers' Diction: Italian and German	2
MUSI 348	Singers' Diction: English and French	2
Conducting		
MUSI 350	Conducting	2
Ensembles -- Eight credits minimum, one credit required in every semester of classes.		
Four credits from:		4
MUSI 188/388	Concert Choir	
MUSI 190/390	Symphonic Choir ¹	
MUSI 191/391	The Singing Statesmen	
MUSI 192/392	Women's Concert Chorale	
Two credits from:		2
MUSI 280/480	Opera/Music Theatre Workshop	
One credit uncondacted ensemble from:		1
MUSI 461	Voice Ensemble	
One credit of elective ensemble from:		1
MUSI 188/388	Concert Choir	
MUSI 190/390	Symphonic Choir	
MUSI 191/391	The Singing Statesmen	
MUSI 192/392	Women's Concert Chorale	
MUSI 260/460	Contemporary Music Ensemble	
MUSI 262/462	Chamber Choir	
MUSI 280/480	Opera/Music Theatre Workshop	
MUSI 461	Voice Ensemble	
Supporting Courses		
THEA 130	Acting I	3
At least two credits selected from the following:		2

DNCE 110	Ballet I
DNCE 112	Modern Dance I
MUSI 397	Junior Recital
MUSI 470	Opera Literature
MUSI 480	Opera/Music Theatre Workshop
THEA 239	Stage Movement
THEA 330	Acting III
THEA 331	Styles in Acting
Piano Proficiency - passed prior to graduation	
Total Credits	79

¹ Minimum of two semesters from MUSI 190/MUSI 390.

Other Requirements

Language proficiency at the 102 level in French, German, or Italian.

NOTE: No music course may be taken under the Satisfactory/Unsatisfactory option.

Program Learning Outcomes

Students completing this program will be expected to meet the following learning outcomes:

- Demonstrate artistic expression through musicianship, technical expertise and skill as appropriate to discipline.
- Create historically and culturally appropriate interpretations through the performance of varied repertoire in collaborative and solo performances as appropriate to discipline.
- Apply culturally specific analytical techniques and approaches to musical compositions.
- Make comparative written statements about aesthetics and function for multiple compositional styles.
- Demonstrate a diverse and inclusive perspective of music, as well as identify systems of privilege in music.
- Demonstrate knowledge of diverse pedagogical techniques for their applicable performance medium.

Music, Applied Voice, Comprehensive Major, B.M.

The following is a sample degree plan, based on the current catalog. It is based on the 120-credit graduation requirement and assumes no transferred credits, no requirements waived by placement tests, no courses taken in the summer or winter, no repeated courses, and no remedial courses that may be required. This sample degree plan is intended for first-year students entering UW-Eau Claire in the fall semester. Your own degree plan may differ depending on the course of study selected (second major, minor, etc.). UW-Eau Claire cannot guarantee all courses will be offered as shown, but will provide a range of courses that may enable prepared students to fulfill their requirements in a timely period. This sample degree plan is just a guide. Please consult your advisor, your degree audit, and the catalog to create your own degree plan. *Note:* In order to earn the required minimum of 120 credits for the degree in four years, you should plan to take 15 credits each semester or 30 credits each year.

To earn a degree, students must fulfill all University Graduation Requirements, including the Core General Education Requirements (CGER). CGER course work in the following sample degree plan uses abbreviations such as CGER CL, CGER HA, and CGER NSWL to represent the learning outcomes students will meet via

completion of the course. Please click [here](#) for a description of the outcomes and requirements.

FIRST YEAR

FIRST SEMESTER

MUSI 472 Voice Literature	3
MUSI 497 Senior Recital	2
MUSI 3XX Ensemble	1
CGER Course Option	3
CGER Course Option	3
TOTAL	15

Minimum total for the baccalaureate degree = 120 credits

Course Information

- See catalog for details of ensemble requirement.
- Music Theory sequence should begin in 1st year.
- Piano Proficiency Exam must be passed prior to MUSI 350.
- French, German, and/or Italian language competency at the 102-level is required.
- Class piano is not accepted in lieu of the applied piano requirement.
- A junior recital is optional.

Application to Major

Admittance to major is through audition to the Music Program and jury at end of first semester of study.

RECOMMENDATIONS FOR HIGH IMPACT PRACTICES (HIPs)

The University of Wisconsin-Eau Claire encourages all students to participate in High Impact Practices. The following information identifies any specific recommendations that faculty in this major have concerning which HIPs might be most beneficial to students, and any recommendations about when those HIPs best fit into the degree plan. Students should also consult their faculty advisor for information on HIPs. There are many additional high impact opportunities available. Talk to your academic advisor for more information about incorporating HIPs like Study Abroad (<https://studyabroad.apps.uwec.edu/>), Intercultural Immersion (<https://www.uwec.edu/immersion/>), Internship (<https://www.uwec.edu/offices-services/advising-retention-career-center/career-services/internship/job-searching-and/>), and/or Student/Faculty Collaborative Research (<https://www.uwec.edu/offices-services/office-research-and-sponsored-programs/getting-involved-student-faculty-research/>) into your time at UW-Eau Claire.

- Students are encouraged to seek an internship related to the performing arts during the final two years of the program. See internship possibilities in the performing arts on the Music and Theatre Arts Homepage.
- Students are encouraged to consider a cultural immersion program, such as the Spring Break trip to New York City, in the final two years of the program.
- Faculty-Student Research Projects are encouraged after the first year of the program.
- Students are strongly encouraged to participate in "Quest," the Integrated Learning Project specifically created for Music and Theatre Arts students. See Music and Theatre Arts Homepage for more information.
- Students are strongly encouraged to consider a Recording Arts Certificate, an Arts Administration Certificate, or a minor.

Core General Education Requirements (CGER)

Core General Education Requirements (CGER)

The Core General Education Requirements (CGER) includes a minimum of 10 courses across 6 categories. Students must complete a minimum of 36 credits in courses approved for the CGER Core.

- Mathematics & Quantitative Reasoning (MQR) - 4 credits, one course minimum
 - Includes the University Mathematics Requirement¹
- Communication & Literacy (CL) - 8 credits, two courses minimum
 - Includes the University Writing Requirement (CL-W)²
- Natural Sciences & Wellness (NSW/NSWL) - 6 credits, one course minimum (NSW-Lab required)
- Social & Behavioral Sciences (SBS) - 6 credits, two courses minimum
- Humanities & Arts (HA) - 6 credits, two courses minimum
- Civics & Perspectives (CP) - 6 credits, two courses minimum

¹ University Mathematics Requirement:

Students satisfy the University Mathematics Requirement in one of four ways:

- completing an approved university-level mathematics course (MQR) with a grade of C (not C-) or above
- achieving a suitable score on the UW Math Placement Test (<https://www.uwec.edu/academics/academic-support/advising/testing/placement-testing/>)
- achieving a suitable score on an exam such as the Advanced Placement Calculus or Advanced Placement Statistics exams
- achieving a suitable score on a Credit by Examination administered by the Department of Mathematics.

² University Writing Requirement:

Students satisfy the University Writing Requirement in one of four ways:

- completing a Blugold Seminar in Critical Reading and Writing course (WRIT 102 (<https://catalog.uwec.edu/search/?P=WRIT%20102>), WRIT 114 (<https://catalog.uwec.edu/search/?P=WRIT%20114>), WRIT 116 (<https://catalog.uwec.edu/search/?P=WRIT%20116>), WRIT 118 (<https://catalog.uwec.edu/search/?P=WRIT%20118>), or WRIT 120 (<https://catalog.uwec.edu/search/?P=WRIT%20120>)) with a grade of C (not C-) or above

- achieving a suitable score on the English Placement Test (<https://www.uwec.edu/academics/blugold-seminar/writ-courses-placement/>) (WPT ENGL)
- achieving a suitable score on an exam such as the Advanced Placement English Literature and Composition or Advanced Placement English Language and Composition exams
- achieving a suitable score on the University Writing Program Portfolio.

Completion via Placement Test

- Writing: If the CL-W subcategory is satisfied through a placement test, the CGER Communication and Literacy requirement will be reduced from 8 credits (2 courses) to 3 credits (1 course).
- Mathematics: If the University Math Requirement is satisfied through a placement test, the CGER Mathematics & Quantitative Reasoning requirement will be considered fully met, replacing the 4-credit (1 course) requirement.
- Students must still complete 36 credits across 10 courses, with any remaining credits or courses eligible to be taken from any CGER category.

Music, Composition, Comprehensive Major

(Code 060-048)

University Requirements

GRADUATION REQUIREMENTS FOR BACCALAUREATE DEGREE

Credit Requirements	
Minimum total for graduation ¹	120
Upper division credits (courses numbered 300 and higher)	39
Core General Education	10 courses, 36 credits
Academic Concentrations	
Grade Point Requirements ²	
Total	2.00 average
Resident	2.00 average
Major	2.00 average
Minor	2.00 average
Certificate	2.00 average
University Residency Requirements	
Minimum total	30
Senior year	23
Major, Standard, upper division in residence	12
Major, Comprehensive, upper division in residence	21
Certificate	25 percent of credits
Procedures Required for Graduation	
Obtain admission to the degree program and/or the College offering it.	
Apply for graduation on CampS.	

¹ Certain programs exceed this minimum.
² See special requirements in each College.

Applicability of Credits Toward Graduation

Junior College or Two-Year College Credits. A maximum of 72 semester credits earned in a junior college or two-year college will be accepted as degree credits at UW-Eau Claire.

Extension Credits. Credits earned in credit outreach courses offered by UW-Eau Claire are treated as resident credits. Credits earned in extension courses offered by other units of the Universities of Wisconsin System are treated as transfer credits. All other (non-UW) extension and correspondence credits are normally limited to one-fourth of the total required for graduation from any curriculum.

WTCS Credits. A maximum of 72 semester credits earned in college parallel programs at Madison Area Technical College, Milwaukee Area Technical College, Nicolet Area Technical College, or Chippewa Valley Technical College may be accepted as degree credits at UW-Eau Claire. A set number of general education courses will be accepted from other technical schools. Occupational and technical courses may also be considered for transfer if the quality and content of the course work from the technical college is judged to be comparable to course work at UW-Eau Claire. Refer to the Transfer Credit Wizard (https://www.uwec.sis.wisconsin.edu/psp/eauprd-tb/EMPLOYEE/SA/c/EAU_SS_CUSTOM.EAU_TRNCRDWZ.GBL) or contact the UW-Eau Claire Admissions Office for information about the current transfer policy.

USAFI Credit. UW-Eau Claire will accept up to 32 semester credits for work done through the United States Armed Forces Institute, under the provision for non-UW correspondence credit (see Extension Credits above).

Activity Credit (band, chorus, drama, KINS 100-184 courses) Students may count toward graduation no more than one credit of KINS 110-184 courses. Students may count toward graduation no more than four credits earned in any single activity course and no more than 12 credits resulting from any combination of activity courses (excluding KINS 110-184 courses).

Other Restricted Credits. For other University restrictions, see the following: Cooperative Education; Credit by Examination; Satisfactory/Unsatisfactory Registration; Transfer of Credits. College or departmental restrictions may also be placed on Independent Study (399-499 courses), Directed Study (395-495), and other types of credits.

APPLICABILITY OF CREDITS TOWARD GRADUATION		Credit Restrictions
Satisfactory/Unsatisfactory		
Total degree credit		maximum 12
Major, Standard		maximum 1 course
Major, Comprehensive		maximum 2 courses
Minor		maximum 1 course

- Students must still complete 36 credits across 10 courses, with any remaining credits or courses eligible to be taken from any CGER category.

College Degree Requirements

Bachelor of Music

University Graduation Requirements. All candidates for degrees must fulfill the requirements for credits, curriculum, GPA, and University residency as specified in the section of this catalog titled University Graduation Requirements.

College Graduation Requirements: Grade Point Averages. All candidates for degrees in the College of Arts and Sciences must earn minimum resident and total GPAs of 2.00 in the major, the minor, and the certificate. The resident and total GPAs for the major are computed using all attempted credits applicable to the major including those offered by departments other than the major department. The resident and total GPAs for the minor and certificate are computed similarly.

Major-Minor and Major-Certificate Requirements. A standard major (a minimum of 36 credits) must be supplemented by a minor (a minimum of 24 credits) or by a certificate (12 to 18 credits) to meet graduation requirements for completing a first and second degree program. No minor or certificate is required with a Comprehensive Major (60 or more credits) or with two majors of 36 or more credits each.

Certain degree programs, which include Comprehensive Majors, may require more than the minimum of 120 credits for graduation.

Acceptable academic program combinations are determined at the college level. A major and a minor or a major and certificate or two majors (if available) may not be elected in the same department or program, except in the approved combinations listed here.

College Credits. Earn at least 90 credits in courses offered by the College of Arts and Sciences.

Bachelor of Music Degree in the College of Arts and Sciences (B.M.)

Fulfillment of all University Graduation Requirements (which includes the Core General Education Requirements); all College-level degree requirements (major and minor/certificate emphases, GPAs, earning at least 90 credits in Arts and Sciences course work); second language competency at the 102 level. Second language competency can be met in one of two ways: (1) Demonstrate a level of second language competency that qualifies the student to enter the 201-level course in a second language. (2) Earn a grade of at least C (not C-) or a mark of S in a 102-level second language course (or AIS 112 or AIS 122 or SLHS 103).

Major Requirements

(Code 060-048)

All students majoring in composition must earn a grade of at least C in each theory and each composition course.

Electives in Music		5
Piano Proficiency - passed prior to graduation		
Total Credits		77

¹ Students who wish to take a full eight semesters of applied lessons may do so, at the discretion of the studio teacher, by applying music elective credits toward applied study.

Other Requirements

Freshman and transfer students interested in majoring in composition are strongly urged to present a composition portfolio to a member of the composition faculty before registering for any composition course. No possible credit for composition at another institution will be awarded before the end of the first semester of study at UW-Eau Claire.

NOTE: No music course may be taken under the Satisfactory/Unsatisfactory option.

Program Learning Outcomes

Students completing this program will be expected to meet the following learning outcomes:

- Demonstrate artistic expression through musicianship, technical expertise and skill as appropriate to discipline.
- Create historically and culturally appropriate interpretations through the performance of varied repertoire in collaborative and solo performances as appropriate to discipline.
- Apply culturally specific analytical techniques and approaches to musical compositions.
- Make comparative written statements about aesthetics and function for multiple compositional styles.
- Demonstrate a diverse and inclusive perspective of music, as well as identify systems of privilege in music.

- Demonstrate mastery of a range of traditional and current compositional styles.
- Demonstrate mastery of composing idiomatically as appropriate for the selected media.

Music, Composition, Comprehensive Major, B.M.

The following is a sample degree plan, based on the current catalog. It is based on the 120-credit graduation requirement and assumes no transferred credits, no requirements waived by placement tests, no courses taken in the summer or winter, no repeated courses, and no remedial courses that may be required. This sample degree plan is intended for first-year students entering UW-Eau Claire in the fall semester. Your own degree plan may differ depending on the course of study selected (second major, minor, etc.). UW-Eau Claire cannot guarantee all courses will be offered as shown, but will provide a range of courses that may enable prepared students to fulfill their requirements in a timely period. This sample degree plan is just a guide. Please consult your advisor, your degree audit, and the catalog to create your own degree plan. *Note:* In order to earn the required minimum of 120 credits for the degree in four years, you should plan to take 15 credits each semester or 30 credits each year.

To earn a degree, students must fulfill all University Graduation Requirements, including the Core General Education Requirements (CGER). CGER course work in the following sample degree plan uses abbreviations such as CGER CL, CGER HA, and CGER NSWL to represent the learning outcomes students will meet via completion of the course. Please click [here](#) for a description of the outcomes and requirements.

Minimum total for the baccalaureate degree = 120 credits

Course Information

- See catalog for details of ensemble requirement.
- Music Theory sequence should begin in 1st year.
- Piano Proficiency Exam must be passed prior to MUSI 350.
- Class piano is not accepted in lieu of the applied piano requirement.
- See catalog for second language competency requirement.
- Keyboard (non-piano emphasis) – MUSI 151, 3 sem. (piano emphasis students must substitute at least 3 additional credits of music electives or supporting electives, see University Catalog).

Application to Major

Admittance to major is through audition to the Music Program

RECOMMENDATIONS FOR HIGH IMPACT PRACTICES (HIPs)

The University of Wisconsin-Eau Claire encourages all students to participate in High Impact Practices. The following information identifies any specific recommendations that faculty in this major have concerning which HIPs might be most beneficial to students, and any recommendations about when those HIPs best fit into the degree plan. Students should also consult their faculty advisor for information on HIPs. There are many additional high impact opportunities available. Talk to your academic advisor for more information about incorporating HIPs like Study Abroad (<https://studyabroad.apps.uwec.edu/>), Intercultural Immersion (<https://www.uwec.edu/immersion/>), Internship (<https://www.uwec.edu/offices-services/advising-retention-career-center/career-services/internship/job-searching-and>), and/or Student/Faculty Collaborative Research (<https://www.uwec.edu/offices-services/office-research-and-sponsored-programs/getting-involved-student-faculty-research>) into your time at UW-Eau Claire.

- Students are encouraged to seek an internship related to the performing arts during the final two years of the program. See internship possibilities in the performing arts on the Music and Theatre Arts Homepage.
- Students are encouraged to consider a cultural immersion program, such as the Spring Break trip New York City, in the final two years of the program.
- Faculty-Student Research Projects are encouraged after the first year of the program.
- Students are strongly encouraged to participate in "Quest," the Integrated Learning Project specifically created for Music and Theatre Arts students. See Music and Theatre Arts Homepage for more information.

Core General Education Requirements (CGER)

Core General Education Requirements (CGER)

The Core General Education Requirements (CGER) includes a minimum of 10 courses across 6 categories. Students must complete a minimum of 36 credits in courses approved for the CGER Core.

- Mathematics & Quantitative Reasoning (MQR) - 4 credits, one course minimum
 - Includes the University Mathematics Requirement¹
- Communication & Literacy (CL) - 8 credits, two courses minimum
 - Includes the University Writing Requirement (CL-W)²
- Natural Sciences & Wellness (NSW/NSWL) - 6 credits, one course minimum (NSW-Lab required)

- Social & Behavioral Sciences (SBS) - 6 credits, two courses minimum
- Humanities & Arts (HA) - 6 credits, two courses minimum
- Civics & Perspectives (CP) - 6 credits, two courses minimum

¹ University Mathematics Requirement:

Students satisfy the University Mathematics Requirement in one of four ways:

- completing an approved university-level mathematics course (MQR) with a grade of C (not C-) or above
- achieving a suitable score on the UW Math Placement Test (<https://www.uwec.edu/academics/academic-support/advising/testing/placement-testing/>)
- achieving a suitable score on an exam such as the Advanced Placement Calculus or Advanced Placement Statistics exams
- achieving a suitable score on a Credit by Examination administered by the Department of Mathematics.

² University Writing Requirement:

Students satisfy the University Writing Requirement in one of four ways:

- completing a Blugold Seminar in Critical Reading and Writing course (WRIT 102 (<https://catalog.uwec.edu/search/?P=WRIT%20102>), WRIT 114 (<https://catalog.uwec.edu/search/?P=WRIT%20114>), WRIT 116 (<https://catalog.uwec.edu/search/?P=WRIT%20116>), WRIT 118 (<https://catalog.uwec.edu/search/?P=WRIT%20118>), or WRIT 120 (<https://catalog.uwec.edu/search/?P=WRIT%20120>)) with a grade of C (not C-) or above
- achieving a suitable score on the English Placement Test (<https://www.uwec.edu/academics/blugold-seminar/writ-courses-placement/>) (WPT ENGL)
- achieving a suitable score on an exam such as the Advanced Placement English Literature and Composition or Advanced Placement English Language and Composition exams
- achieving a suitable score on the University Writing Program Portfolio.

Completion via Placement Test

- Writing: If the CL-W subcategory is satisfied through a placement test, the CGER Communication and Literacy requirement will be reduced from 8 credits (2 courses) to 3 credits (1 course).
- Mathematics: If the University Math Requirement is satisfied through a placement test, the CGER Mathematics & Quantitative Reasoning requirement will be considered fully met, replacing the 4-credit (1 course) requirement.
- Students must still complete 36 credits across 10 courses, with any remaining credits or courses eligible to be taken from any CGER category.

Music, Major

Liberal Arts (Code 060-201)

University Requirements

GRADUATION REQUIREMENTS FOR BACCALAUREATE DEGREE

Credit Requirements	
Minimum total for graduation ¹	120
Upper division credits (courses numbered 300 and higher)	39
Core General Education	10 courses, 36 credits
Academic Concentrations	

Grade Point Requirements²

Total	2.00 average
Resident	2.00 average
Major	2.00 average
Minor	2.00 average
Certificate	2.00 average

University Residency Requirements

Minimum total	30
Senior year	23
Major, Standard, upper division in residence	12
Major, Comprehensive, upper division in residence	21
Certificate	25 percent of credits

Procedures Required for Graduation

Obtain admission to the degree program and/or the College offering it.

Apply for graduation on CampS.

¹ Certain programs exceed this minimum.

² See special requirements in each College.

Applicability of Credits Toward Graduation

Junior College or Two-Year College Credits. A maximum of 72 semester credits earned in a junior college or two-year college will be accepted as degree credits at UW-Eau Claire.

Extension Credits. Credits earned in credit outreach courses offered by UW-Eau Claire are treated as resident credits. Credits earned in extension courses offered by other units of the Universities of Wisconsin System are treated as transfer credits. All other (non-UW) extension and correspondence credits are normally limited to one-fourth of the total required for graduation from any curriculum.

WTCS Credits. A maximum of 72 semester credits earned in college parallel programs at Madison Area Technical College, Milwaukee Area Technical College, Nicolet Area Technical College, or Chippewa Valley Technical College may be accepted as degree credits at UW-Eau Claire. A set number of general education courses will be accepted from other technical schools. Occupational and technical courses may also be considered for transfer if the quality and content of the course work from the technical college is judged to be comparable to course work at UW-Eau Claire. Refer to the Transfer Credit Wizard (https://www.uwec.sis.wisconsin.edu/psp/eauprd-tb/EMPLOYEE/SA/c/EAU_SS_CUSTOM.EAU_TRNCRDWZ.GBL) or contact the UW-Eau Claire Admissions Office for information about the current transfer policy.

USAFI Credit. UW-Eau Claire will accept up to 32 semester credits for work done through the United States Armed Forces Institute, under the provision for non-UW correspondence credit (see Extension Credits above).

Activity Credit (band, chorus, drama, KINS 100-184 courses) Students may count toward graduation no more than one credit of KINS 110-184 courses. Students may count toward graduation no more than four credits earned in any single activity course and no more than 12 credits resulting from any combination of activity courses (excluding KINS 110-184 courses).

Other Restricted Credits. For other University restrictions, see the following: Cooperative Education; Credit by Examination; Satisfactory/Unsatisfactory Registration; Transfer of Credits. College or departmental restrictions may also

be placed on Independent Study (399-499 courses), Directed Study (395-495), and other types of credits.

APPLICABILITY OF CREDITS TOWARD GRADUATION**Credit Restrictions**

Satisfactory/Unsatisfactory	
Total degree credit	maximum 12
Major, Standard	maximum 1 course
Major, Comprehensive	maximum 2 courses
Minor	maximum 1 course

Credit by Examination

- Students must still complete 36 credits across 10 courses, with any remaining credits or courses eligible to be taken from any CGER category.

College Degree Requirements

Bachelor of Arts or Bachelor of Science Degree (B.A./B.S.)

University Graduation Requirements. All candidates for degrees must fulfill the requirements for credits, curriculum, GPA, and University residency as specified in the section of this catalog titled University Graduation Requirements.

College Graduation Requirements: Grade Point Averages. All candidates for degrees in the College of Arts and Sciences must earn minimum resident and

total GPAs of 2.00 in the major, the minor, and the certificate. The resident and total GPAs for the major are computed using all attempted credits applicable to the major including those offered by departments other than the major department. The resident and total GPAs for the minor and the certificate are computed similarly.

Major-Minor and Major-Certificate Requirements. A standard major (a minimum of 36 credits) must be supplemented by a minor (a minimum of 24 credits) or by a certificate (12 to 18 credits) to meet graduation requirements for completing a first and second degree program. No minor or certificate is required with a Comprehensive Major (60 or more credits) or with two majors of 36 or more credits each.

Certain degree programs, which include Comprehensive Majors, may require more than the minimum of 120 credits for graduation.

Acceptable academic program combinations are determined at the college level. A major and a minor or a major and certificate or two majors (if available) may not be elected in the same department or program, except in the approved combinations listed here.

College Credits. Earn at least 90 credits in courses offered by the College of Arts and Sciences.

Bachelor of Arts Degree in the College of Arts and Sciences (B.A.)

Fulfillment of all University Graduation Requirements (which includes the Core General Education Requirements); all College-level degree requirements (major and minor/certificate emphases, GPAs, earning at least 90 credits in Arts and Sciences course work); second language competency at the 102 level. Second language competency may be met in one of two ways: (1) Demonstrate a level of second language competency that qualifies the student to enter the 201-level course in a second language. (2) Earn a grade of at least C (not C-) or a mark of S in a 102-level second language course (or AIS 112 or AIS 122 or SLHS 103).

Bachelor of Science Degree in the College of Arts and Sciences (B.S.)

Fulfillment of all University Graduation Requirements (which includes the Core General Education Requirements); all College-level degree requirements (major and minor/certificate emphases, GPAs, earning at least 90 credits in Arts and Sciences course work); mathematics competency at the MATH 111, MATH 112 or MATH 113 level. Mathematics competency can be met in one of three ways: (1) Achieve a score on the mathematics placement test that qualifies the student to enter MATH 114. (2) Earn a grade of at least C (not C-) or a mark of S in MATH 111, MATH 112, or MATH 113. (3) Achieve a satisfactory score on the MATH 112 competency test. This test may be attempted no more than two times.

Total Credits	46

¹ No more than 2 credit from MUSI 183.

NOTE: No music course may be taken under the Satisfactory/Unsatisfactory option.

Program Learning Outcomes

Students completing this program will be expected to meet the following learning outcomes:

- Demonstrate artistic expression through musicianship, technical expertise and skill as appropriate to discipline.
- Create historically and culturally appropriate interpretations through the performance of varied repertoire in collaborative and solo performances as appropriate to discipline.
- Apply culturally specific analytical techniques and approaches to musical compositions.
- Make comparative written statements about aesthetics and function for multiple compositional styles.
- Demonstrate a diverse and inclusive perspective of music, as well as identify systems of privilege in music.

Music, Major, B.A.

The following is a sample degree plan, based on the current catalog. It is based on the 120-credit graduation requirement and assumes no transferred credits, no requirements waived by placement tests, no courses taken in the summer or winter, no repeated courses, and no remedial courses that may be required. This sample degree plan is intended for first-year students entering UW-Eau Claire in the fall semester. Your own degree plan may differ depending on the course of study selected (second major, minor, etc.). UW-Eau Claire cannot guarantee all courses will be offered as shown, but will provide a range of courses that may enable prepared students to fulfill their requirements in a timely period. This sample degree plan is just a guide. Please consult your advisor, your degree audit, and the catalog to create your own degree plan. *Note:* In order to earn the required minimum of 120 credits for the degree

in four years, you should plan to take 15 credits each semester or 30 credits each year.

To earn a degree, students must fulfill all University Graduation Requirements, including the Core General Education Requirements (CGER). CGER course work in the following sample degree plan uses abbreviations such as CGER CL, CGER HA, and CGER NSWL to represent the learning outcomes students will meet via completion of the course. Please click [here](#) for a description of the outcomes and requirements.

Students in this major have the option to pursue either a Bachelor of Arts (B.A.) or a Bachelor of Science (B.S.) degree. The degrees are distinguished by second language competency for the B.A. and a higher level of mathematics competency for the B.S.

FIRST YEAR

FIRST SEMESTER		
MUSI 141	Theory Written I	3
MUSI 142	Theory Aural I	1
MUSI 1XX	Applied Major Instrument	1
MUSI 1XX	Ensemble	1
MUSI 106	Class Piano (If necessary - does not count to degree)	2
CGER Course Option		3
WRIT 1XX University Writing Requirement (CGER CL)		5
TOTAL		16

SECOND SEMESTER

MUSI 146	Theory Written II	3
MUSI 147	Theory Aural II	1
MUSI 1XX	Applied Major Instrument	1
MUSI 1XX	Ensemble	1
MUSI 108	Advanced Class Piano (If necessary - does not count to degree)	2
MATH XXX University Math Requirement (CGER MQR)		4
CGER Course Option		3
TOTAL		15

SECOND YEAR

FIRST SEMESTER		
MUSI 246	Theory Written III	3
MUSI 247	Theory Aural III	1
MUSI 1XX	Applied Major Instrument	1
MUSI 1XX	Ensemble	1
MUSI 227	Music History & Society I	3
101-level Second Language (CGER CL)		4
CGER Course Option		3
TOTAL		16
SECOND SEMESTER		
MUSI 248	Theory Written IV	3
MUSI 249	Theory Aural IV	1
MUSI 1XX	Applied Major Instrument	1
MUSI 1XX	Ensemble	1
MUSI 229	Music History & Society II	3
102-level Second Language (CGER CL)		4
CGER Course Option		3
TOTAL		16

THIRD YEAR**FIRST SEMESTER**

MUSI 305	Analyzing Global Traditions in Music	3
MUSI 3XX Applied Major Instrument		1
MUSI 3XX Ensemble		1
MUSI 350	Conducting	2
CGER Course Option		3
Minor Course		3

CGER Course Option		3
Minor Course		3
Minor Course		3
TOTAL		17

FOURTH YEAR**FIRST SEMESTER**

MUSI 3XX Applied Major Instrument		1
MUSI XXX Ensemble		1
Minor Course		3
Minor Course		3
Elective		3
Elective		3
TOTAL		14

SECOND SEMESTER

MUSI 3XX Applied Major Instrument		1
MUSI 3XX Ensemble		1
Minor Course		3
Minor Course		3
Elective		3
Elective		3
TOTAL		14

Minimum total for the baccalaureate degree = 120 credits

Course Information

- See catalog for details of ensemble requirement.
- Music Theory sequence should begin in 1st year.
- Piano Proficiency Exam must be passed prior to MUSI 350.
- See catalog for second language competency requirement.
- See University Catalog for distinction between B.A. and B.S.

Application to Major

Admittance to major is through audition to the Music Program.

RECOMMENDATIONS FOR HIGH IMPACT PRACTICES (HIPs)

The University of Wisconsin-Eau Claire encourages all students to participate in High Impact Practices. The following information identifies any specific recommendations that faculty in this major have concerning which HIPs might be most beneficial to students, and any recommendations about when those HIPs best fit into the degree plan. Students should also consult

their faculty advisor for information on HIPs. There are many additional high impact opportunities available. Talk to your academic advisor for more information about incorporating HIPs like Study Abroad (<https://studyabroad.apps.uwec.edu/>), Intercultural Immersion (<https://www.uwec.edu/immersion/>), Internship (<https://www.uwec.edu/offices-services/advising-retention-career-center/career-services/internship/job-searching-and/>), and/or Student/Faculty Collaborative Research (<https://www.uwec.edu/offices-services/office-research-and-sponsored-programs/getting-involved-student-faculty-research/>) into your time at UW-Eau Claire.

- Students are encouraged to seek an internship related to the performing arts during the final two years of the program. See internship possibilities in the performing arts on the Music and Theatre Arts Homepage.
- Faculty-Student Research Projects are encouraged after the first year of the program.
- Students are strongly encouraged to participate in "Quest," the Integrated Learning Project specifically created for Music and Theatre Arts students. See Music and Theatre Arts Homepage for more information.

Core General Education Requirements (CGER)

Core General Education Requirements (CGER)

The Core General Education Requirements (CGER) includes a minimum of 10 courses across 6 categories. Students must complete a minimum of 36 credits in courses approved for the CGER Core.

- Mathematics & Quantitative Reasoning (MQR) - 4 credits, one course minimum
 - Includes the University Mathematics Requirement¹
- Communication & Literacy (CL) - 8 credits, two courses minimum
 - Includes the University Writing Requirement (CL-W)²
- Natural Sciences & Wellness (NSW/NSWL) - 6 credits, one course minimum (NSW-Lab required)
- Social & Behavioral Sciences (SBS) - 6 credits, two courses minimum
- Humanities & Arts (HA) - 6 credits, two courses minimum
- Civics & Perspectives (CP) - 6 credits, two courses minimum

¹ **University Mathematics Requirement:**

Students satisfy the University Mathematics Requirement in one of four ways:

- completing an approved university-level mathematics course (MQR) with a grade of C (not C-) or above
- achieving a suitable score on the UW Math Placement Test (<https://www.uwec.edu/academics/academic-support/advising/testing/placement-testing/>)
- achieving a suitable score on an exam such as the Advanced Placement Calculus or Advanced Placement Statistics exams
- achieving a suitable score on a Credit by Examination administered by the Department of Mathematics.

² **University Writing Requirement:**

Students satisfy the University Writing Requirement in one of four ways:

- completing a Blugold Seminar in Critical Reading and Writing course (WRIT 102 (<https://catalog.uwec.edu/search/?P=WRIT%20102>), WRIT 114 (<https://catalog.uwec.edu/search/?P=WRIT%20114>), WRIT 116 (<https://catalog.uwec.edu/search/?P=WRIT%20116>), WRIT 118 (<https://catalog.uwec.edu/search/?P=WRIT%20118>), or WRIT 120 (<https://catalog.uwec.edu/search/?P=WRIT%20120>)) with a grade of C (not C-) or above

- achieving a suitable score on the English Placement Test (<https://www.uwec.edu/academics/blugold-seminar/writ-courses-placement/>) (WPT ENGL)
- achieving a suitable score on an exam such as the Advanced Placement English Literature and Composition or Advanced Placement English Language and Composition exams
- achieving a suitable score on the University Writing Program Portfolio.

Completion via Placement Test

- Writing: If the CL-W subcategory is satisfied through a placement test, the CGER Communication and Literacy requirement will be reduced from 8 credits (2 courses) to 3 credits (1 course).
- Mathematics: If the University Math Requirement is satisfied through a placement test, the CGER Mathematics & Quantitative Reasoning requirement will be considered fully met, replacing the 4-credit (1 course) requirement.
- Students must still complete 36 credits across 10 courses, with any remaining credits or courses eligible to be taken from any CGER category.

Music, Minor

Liberal Arts (Code 060-401)

Code	Title	Credits
Twenty-four semester credits, including:		
Theory		3-4
MUSI 139	Music Theory Fundamentals	
Or		
MUSI 141 & MUSI 142	Theory Written I and Theory Aural I	
History/Literature		
Minimum of six credits from:		6
MUSI 110	Music Appreciation	
MUSI 111	Global Roots of Music in the United States	
MUSI 112	History of Rock and Pop	
MUSI 114	Evolution of Jazz	
MUSI/WGSS 224	Music and Gender	
MUSI 225	Global Traditions in Music	
MUSI 307	Music in the United States	
Applied Music		
Four credits, four semesters from one applied area		4
Piano Requirement:		
MUSI 108	Advanced Class Piano	2
Ensembles -- Four semesters, four credits minimum.		
Voice/Wind/Brass/Percussion/Bowed Strings--		
Two credits from: ¹		2
MUSI 180/380	Symphony Band	
MUSI 181/381	Wind Ensemble	
MUSI 184/384	University Orchestra	
MUSI 186/386	Jazz Ensemble	
MUSI 188/388	Concert Choir	
MUSI 190/390	Symphonic Choir	
MUSI 191/391	The Singing Statesmen	
MUSI 192/392	Women's Concert Chorale	

Two credits from the following elective ensembles: ¹		2
MUSI 180/380	Symphony Band	
MUSI 181/381	Wind Ensemble	
MUSI 183	Marching Band	
MUSI 184/384	University Orchestra	
MUSI 186/386	Jazz Ensemble	
MUSI 188/388	Concert Choir	
MUSI 190/390	Symphonic Choir	
MUSI 191/391	The Singing Statesmen	
MUSI 192/392	Women's Concert Chorale	
MUSI 253/453	University Chamber Orchestra	
MUSI 255/455	String Ensemble	
MUSI 256/456	Brass Ensemble	
MUSI 257/457	Woodwind Ensemble	
MUSI 258/458	Percussion Ensemble	
MUSI 259/459	Jazz Combo	
MUSI 260/460	Contemporary Music Ensemble	
MUSI 262/462	Chamber Choir	
MUSI 265/465	Vocal Jazz Ensemble	
MUSI 268/468	Piano Ensemble	

Piano--

Two credits from:

MUSI 268/468	Piano Ensemble	1

Two credits from any other ensemble, in consultation with the applied instructor

MUSI 180/380	Symphony Band	
MUSI 181/381	Wind Ensemble	
MUSI 182/382	University Band	
MUSI 183	Marching Band	
MUSI 184/384	University Orchestra	
MUSI 186/386	Jazz Ensemble	
MUSI 188/388	Concert Choir	
MUSI 190/390	Symphonic Choir	
MUSI 191/391	The Singing Statesmen	
MUSI 192/392	Women's Concert Chorale	
MUSI 193/393	Treble Choir	
MUSI 253/453	University Chamber Orchestra	
MUSI 255/455	String Ensemble	
MUSI 256/456	Brass Ensemble	
MUSI 257/457	Woodwind Ensemble	
MUSI 258/458	Percussion Ensemble	
MUSI 259/459	Jazz Combo	
MUSI 260/460	Contemporary Music Ensemble	
MUSI 262/462	Chamber Choir	
MUSI 265/465	Vocal Jazz Ensemble	

Guitar--

Two credits:

MUSI 255/455	String Ensemble	1

Two credits from any other ensemble, in consultation with the applied instructor:

MUSI 180/380	Symphony Band	
MUSI 181/381	Wind Ensemble	

MUSI 182/382	University Band
MUSI 183	Marching Band
MUSI 184/384	University Orchestra
MUSI 186/386	Jazz Ensemble
MUSI 188/388	Concert Choir
MUSI 190/390	Symphonic Choir
MUSI 191/391	The Singing Statesmen
MUSI 192/392	Women's Concert Chorale
MUSI 193/393	Treble Choir
MUSI 253/453	University Chamber Orchestra
MUSI 255/455	String Ensemble
MUSI 256/456	Brass Ensemble
MUSI 257/457	Woodwind Ensemble
MUSI 258/458	Percussion Ensemble
MUSI 259/459	Jazz Combo
MUSI 260/460	Contemporary Music Ensemble
MUSI 262/462	Chamber Choir
MUSI 265/465	Vocal Jazz Ensemble
MUSI 268/468	Piano Ensemble

Music Electives

A minimum of four to five credits elected from any course with a MUSI prefix for a minimum total of 24 credits and with the exception of MUSI 100, MUSI 102, MUSI 103, MUSI 104, and MUSI 118, which do not count toward a music minor. Maximum of two credits from elective ensembles, and maximum of two credits from applied music.

4-5

¹ MUSI 182/MUSI 382 or MUSI 193/MUSI 393 may be used by permission.

NOTES:

1) No music course may be taken under the Satisfactory/Unsatisfactory option.

2) The piano proficiency exam is a requirement and must be passed prior to graduation. MUSI 106 prepares students for MUSI 108. Students without piano skills are encouraged to take both MUSI 106 and MUSI 108 which prepare students for the piano proficiency exam.

Program Learning Outcomes

Students completing this program will be expected to meet the following learning outcomes:

- Demonstrate artistic expression through musicianship, technical expertise and skill as appropriate to discipline.
- Create historically and culturally appropriate interpretations through the performance of varied repertoire in collaborative and solo performances as appropriate to discipline.
- Apply culturally specific analytical techniques and approaches to musical compositions.
- Make comparative written statements about aesthetics and function for multiple compositional styles.
- Demonstrate a diverse and inclusive perspective of music, as well as identify systems of privilege in music.

Recording Arts, Certificate

(Code 061-601)

The interdisciplinary curriculum of the **Recording Arts Certificate** addresses diverse interests in both sound and technology. It offers a foundation in musicianship, design, and recording technology, and opportunities for students to pursue specific interests in areas of composition, design, music history, physics of sound or business. The program includes required and elective courses, and at least one internship. Applications are available through the Department of Music and Theatre Arts. Acceptance into the program may be limited due to available resources, internships, and needs of the program.

Code	Title	Credits
Eighteen semester credits, including:		
Required:		
MUSI 309	Electronic Music ^{1, 2}	2-3
or MUSI 217	Topics in Sound Recording	
MUSI 317	Sound Technology Principles	3
MUSI 498	Music Internship	3
Electives to be selected from the following:		
CJ 241	Audio and Video Production Process	
MATH 307	Mathematics and Music	
MATH 313	Digital Signal Processing	
MUSI 102	Fundamentals of Music	
MUSI 139	Music Theory Fundamentals	
MUSI 150	Beginning Composition	
MUSI 217	Topics in Sound Recording ²	
or MUSI 309	Electronic Music	
MUSI 225	Global Traditions in Music	
MUSI 325	Orchestration	
PHYS 308	Science of Musical Sound	
MUSI 112	History of Rock and Pop	
MUSI 326	Songwriting Seminar	
MUSI 327	Sound Technology Principles II	

¹ Students may take MUSI 309 or MUSI 217 to fulfill this requirement.

² MUSI 217 and MUSI 309 may not be used to fulfill both requirements and electives.

Note: A maximum of three credits from the certificate can count to the major.

Program Learning Outcomes

Students completing this program will be expected to meet the following learning outcomes:

- Record sound with diverse variables, including both live and studio contexts.
- Mix and edit sound with digital recording software.
- Explain basic principles of acoustics and sound.

Songwriting, Certificate

(Code 061-602)

In the **Songwriting Certificate** emphasis is placed on developing songwriting skills for both lyrics and music, general musicianship skills, and an understanding of the cultural significance of songs. Students explore how lyrics, melody, harmony, and structure make a great song, as well as develop the ability to create original songs. The 18-credit program includes courses in songwriting, creative writing, music theory, music history, and electives.

Code	Title	Credits
Eighteen semester credits, including:		
Required:		
ENGL 220	Introduction to Creative Writing	3
or ENGL 276	Poetry	
MUSI 112	History of Rock and Pop	3
MUSI 139	Music Theory Fundamentals	3-4
or MUSI 141	Theory Written I	
& MUSI 142	and Theory Aural I	
MUSI 326	Songwriting Seminar	3
Electives to be selected from the following:		
MUSI 103	Introduction to Electric Guitar	
MUSI 106	Class Piano	
or MUSI 108	Advanced Class Piano	
MUSI 114	Evolution of Jazz	
MUSI 116	Folk Guitar in Culture across Time	
MUSI 117	Beginning Guitar	
MUSI 118	Introduction to Singing	
MUSI 119	Classical and Folk Guitar	
MUSI 150	Beginning Composition	
MUSI 278	Functional Piano	
MUSI 326	Songwriting Seminar (a total of 6 credits from MUSI 326 can be applied to the certificate)	

Note 1: Students cannot pursue the Music Major and Songwriting Certificate to meet graduation requirements for completing a first and second degree program.

Note 2: A maximum of three credits from the certificate can count to the major.

Program Learning Outcomes

Students completing this program will be expected to meet the following learning outcomes:

- Students demonstrate an understanding of how the different elements of a song contribute to its effectiveness.
- Students demonstrate the ability to create original songs.

Theatre Arts, Certificate

(Code 601-601)

Code	Title	Credits
Thirteen credits required:		
THEA 121	Introduction to Technical Theatre	3
THEA 130	Acting I	3
Three credits from:		3
THEA 271	Stage Management	
THEA 332	Directing	
THEA 335	Drama in Education	
THEA Elective		3
One credit from:		1
THEA 170	Acting-Minor Roles/Chorus	
THEA 172	Scenic Construction Crew	
THEA 173	Light/Sound Board Operator	

THEA 174	Costume Crew
THEA 175	Stage/Properties Crew
THEA 176	Makeup Crew
THEA 177	Publicity Crew
THEA 178	Electrics Crew
THEA 179	Special Effects/Sound Facilitator
THEA 370	Acting-Major Roles
THEA 371	Stage Manager/Assistant Director/Assistant Choreographer
THEA 372	Assistant Scenic Design/Assistant Technical Direction
THEA 373	Assistant Lighting Design
THEA 374	Assistant Costume Design/Shop Supervisor
THEA 375	Properties Coordinator
THEA 376	Makeup Design
THEA 377	Publicity/Program Design
THEA 378	Lead Electrician
THEA 379	House Manager

Note: Courses cannot be counted in both the major and certificate program.

Program Learning Options

Students completing this program will be expected to meet the following learning outcomes:

- Understand theatre’s diverse genres, styles, and forms within their cultural, theoretical, and historical contexts.
- Demonstrate competency as an actor, director, technician, and/or stage manager in a realized production.
- Demonstrate competency in all stage crafts.
- Explain, critique, and evaluate one’s own creative work and the creative work of others.
- Demonstrate competency in the principles of design.

Theatre Arts, Comprehensive Major

Liberal Arts (Code 601-001)

University Requirements

GRADUATION REQUIREMENTS FOR BACCALAUREATE DEGREE

Credit Requirements	
Minimum total for graduation ¹	120
Upper division credits (courses numbered 300 and higher)	39
Core General Education	10 courses, 36 credits

Academic Concentrations	
Grade Point Requirements ²	
Total	2.00 average
Resident	2.00 average
Major	2.00 average
Minor	2.00 average
Certificate	2.00 average

University Residency Requirements

Minimum total	30
Senior year	23
Major, Standard, upper division in residence	12
Major, Comprehensive, upper division in residence	21
Certificate	25 percent of credits

Procedures Required for Graduation

Obtain admission to the degree program and/or the College offering it.

Apply for graduation on CampS.

¹ Certain programs exceed this minimum.

² See special requirements in each College.

Applicability of Credits Toward Graduation

Junior College or Two-Year College Credits. A maximum of 72 semester credits earned in a junior college or two-year college will be accepted as degree credits at UW-Eau Claire.

Extension Credits. Credits earned in credit outreach courses offered by UW-Eau Claire are treated as resident credits. Credits earned in extension courses offered by other units of the Universities of Wisconsin System are treated as transfer credits. All other (non-UW) extension and correspondence credits are normally limited to one-fourth of the total required for graduation from any curriculum.

WTCS Credits. A maximum of 72 semester credits earned in college parallel programs at Madison Area Technical College, Milwaukee Area Technical College, Nicolet Area Technical College, or Chippewa Valley Technical College may be accepted as degree credits at UW-Eau Claire. A set number of general education courses will be accepted from other technical schools. Occupational and technical courses may also be considered for transfer if the quality and content of the course work from the technical college is judged to be comparable to course work at UW-Eau Claire. Refer to the Transfer Credit Wizard (https://www.uwec.sis.wisconsin.edu/psp/eauprd-tb/EMPLOYEE/SA/c/EAU_SS_CUSTOM.EAU_TRNCRDWZ.GBL) or contact the UW-Eau Claire Admissions Office for information about the current transfer policy.

USAFI Credit. UW-Eau Claire will accept up to 32 semester credits for work done through the United States Armed Forces Institute, under the provision for non-UW correspondence credit (see Extension Credits above).

Activity Credit (band, chorus, drama, KINS 100-184 courses) Students may count toward graduation no more than one credit of KINS 110-184 courses. Students may count toward graduation no more than four credits earned in any single activity course and no more than 12 credits resulting from any combination of activity courses (excluding KINS 110-184 courses).

Other Restricted Credits. For other University restrictions, see the following: Cooperative Education; Credit by Examination; Satisfactory/Unsatisfactory Registration; Transfer of Credits. College or departmental restrictions may also be placed on Independent Study (399-499 courses), Directed Study (395-495), and other types of credits.

APPLICABILITY OF CREDITS TOWARD GRADUATION**Credit Restrictions****Satisfactory/Unsatisfactory**

Total degree credit	maximum 12

Major, Standard	maximum 1 course
Major, Comprehensive	maximum 2 courses
Minor	maximum 1 course

Credit by Examination

Total degree credit	maximum ¼ of total
Major or minor	maximum ½ of total

Two-Year College Credits

Total degree credit	maximum 72 credits

Activity credit (band, chorus, drama, KINS 100-184)

Total KINS 100-184	maximum 1 credit
Total Band, chorus, drama	maximum 12 credits
Single course band, chorus, drama	maximum 4 credits

Extension credits

UW-System	no maximum
Other extension/correspondence	maximum ¼ of total

USAFI

USAFI	maximum 32 credits

Core General Education Requirements (CGER)**CGER Categories**

Mathematics & Quantitative Reasoning (MQR) (http://catalog.uwec.edu/undergraduate/outcome-mqr/)	4 credit hours, 1 course min
Includes University Math Requirement ¹	
Communication & Literacy (CL) (http://catalog.uwec.edu/undergraduate/outcome-cl/)	8 credit hours, 2 course min (including CL-W)
Includes University Writing Requirement (CL-W) (http://catalog.uwec.edu/undergraduate/outcome-clw/) ²	
Natural Sciences & Wellness (NSW/NSWL) (http://catalog.uwec.edu/undergraduate/outcome-NSW/)	6 credit hours, 1 course min (NSW-Lab required)
Social & Behavioral Sciences (SBS) (https://catalog.uwec.edu/undergraduate/outcome-sbs/)	6 credit hours, 2 course min
Humanities & Arts (HA) (http://catalog.uwec.edu/undergraduate/outcome-ha/)	6 credit hours, 2 course min
Civics & Perspectives (CP) (http://catalog.uwec.edu/undergraduate/outcome-cp/)	6 credit hours, 2 course min
CGER Totals ³	
Credits	minimum 36 credits
Courses	minimum 10 courses

¹ University Mathematics Requirement:

Students satisfy the University Mathematics Requirement in one of four ways:

- completing an approved university-level mathematics course (MQR) with a grade of C (not C-) or above
- achieving a suitable score on the UW Math Placement Test (<https://www.uwec.edu/academics/academic-support/advising/testing/placement-testing/>)
- achieving a suitable score on an exam such as the Advanced Placement Calculus or Advanced Placement Statistics exams
- achieving a suitable score on a Credit by Examination administered by the Department of Mathematics.

² University Writing Requirement:

Students satisfy the University Writing Requirement in one of four ways:

- completing a Blugold Seminar in Critical Reading and Writing course (WRIT 102 (<https://catalog.uwec.edu/search/?P=WRIT%20102>), WRIT 114 (<https://catalog.uwec.edu/search/?P=WRIT%20114>), WRIT 116 (<https://catalog.uwec.edu/search/?P=WRIT%20116>), WRIT 118 (<https://catalog.uwec.edu/search/?P=WRIT%20118>), or WRIT 120 (<https://catalog.uwec.edu/search/?P=WRIT%20120>)) with a grade of C (not C-) or above
- achieving a suitable score on the English Placement Test (<https://www.uwec.edu/academics/blugold-seminar/writ-courses-placement/>) (WPT ENGL)
- achieving a suitable score on an exam such as the Advanced Placement English Literature and Composition or Advanced Placement English Language and Composition exams
- achieving a suitable score on the University Writing Program Portfolio.

³ Completion via Placement Tests

- Writing: If the CL-W subcategory is satisfied through a placement test, the CGER Communication and Literacy requirement will be reduced from 8 credits (2 courses) to 3 credits (1 course).
- Mathematics: If the University Math Requirement is satisfied through a placement test, the CGER Mathematics & Quantitative Reasoning requirement will be considered fully met, replacing the 4-credit (1 course) requirement.
- Students must still complete 36 credits across 10 courses, with any remaining credits or courses eligible to be taken from any CGER category.

College Degree Requirements

Bachelor of Arts or Bachelor of Science Degree (B.A./B.S.)

University Graduation Requirements. All candidates for degrees must fulfill the requirements for credits, curriculum, GPA, and University residency as specified in the section of this catalog titled University Graduation Requirements.

College Graduation Requirements: Grade Point Averages. All candidates for degrees in the College of Arts and Sciences must earn minimum resident and total GPAs of 2.00 in the major, the minor, and the certificate. The resident and total GPAs for the major are computed using all attempted credits applicable to the major including those offered by departments other than the major department. The resident and total GPAs for the minor and the certificate are computed similarly.

Major-Minor and Major-Certificate Requirements. A standard major (a minimum of 36 credits) must be supplemented by a minor (a minimum of 24

credits) or by a certificate (12 to 18 credits) to meet graduation requirements for completing a first and second degree program. No minor or certificate is required with a Comprehensive Major (60 or more credits) or with two majors of 36 or more credits each.

Certain degree programs, which include Comprehensive Majors, may require more than the minimum of 120 credits for graduation.

Acceptable academic program combinations are determined at the college level. A major and a minor or a major and certificate or two majors (if available) may not be elected in the same department or program, except in the approved combinations listed here.

College Credits. Earn at least 90 credits in courses offered by the College of Arts and Sciences.

Bachelor of Arts Degree in the College of Arts and Sciences (B.A.)

Fulfillment of all University Graduation Requirements (which includes the Core General Education Requirements); all College-level degree requirements (major and minor/certificate emphases, GPAs, earning at least 90 credits in Arts and Sciences course work); second language competency at the 102 level. Second language competency may be met in one of two ways: (1) Demonstrate a level of second language competency that qualifies the student to enter the 201-level course in a second language. (2) Earn a grade of at least C (not C-) or a mark of S in a 102-level second language course (or AIS 112 or AIS 122 or SLHS 103).

Bachelor of Science Degree in the College of Arts and Sciences (B.S.)

Fulfillment of all University Graduation Requirements (which includes the Core General Education Requirements); all College-level degree requirements (major and minor/certificate emphases, GPAs, earning at least 90 credits in Arts and Sciences course work); mathematics competency at the MATH 111, MATH 112 or MATH 113 level. Mathematics competency can be met in one of three ways:

(1) Achieve a score on the mathematics placement test that qualifies the student to enter MATH 114. (2) Earn a grade of at least C (not C-) or a mark of S in MATH 111, MATH 112, or MATH 113. (3) Achieve a satisfactory score on the MATH 112 competency test. This test may be attempted no more than two times.

Major Requirements

Liberal Arts (Code 601-001)

Code	Title	Credits
Sixty semester credits, including:		
THEA 121	Introduction to Technical Theatre	3
THEA 124	Costume Technology	3
THEA 130	Acting I	3
THEA 151	Costume Shop Practicum	1
THEA 152	Scenic Shop Practicum	1
THEA 153	Light/Sound Shop Practicum	1
THEA 221	Introduction to Design	3
THEA 231	Acting II	3
THEA 302	Theatre History to 1875	3
THEA 303	Theatre History Since 1875	3
THEA 332	Directing	3
Select one of the following:		3
THEA 220	Stage Makeup	
THEA 223	Voice and Diction	

THEA 239	Stage Movement	
Select one of the following:		3
THEA 321	Scenic Design	
THEA 324	Costume Design	
THEA 327	Lighting Design	
Select one of the following:		3
THEA 271	Stage Management	
THEA 335	Drama in Education	
Select two of the following:		6
THEA 323	Historical Stage Design	
THEA 330	Acting III	
THEA 344	Survey of Historical Costumes	
THEA 414	Playwriting	
THEA 432	Advanced Directing	
Minimum two credits chosen from:		2
Any DNCE course		
Four different credits from:		4
THEA 170	Acting-Minor Roles/Chorus	
THEA 171	Assistant Stage Manager	
THEA 172	Scenic Construction Crew	
THEA 173	Light/Sound Board Operator	
THEA 174	Costume Crew	
THEA 175	Stage/Properties Crew	
THEA 176	Makeup Crew	
THEA 177	Publicity Crew	
THEA 178	Electrics Crew	
THEA 179	Special Effects/Sound Facilitator	
THEA 351	Advanced Costume Shop Practicum	
THEA 352	Advanced Scenic Shop Practicum	
THEA 353	Advanced Light/Sound Shop Practicum	
THEA 370	Acting-Major Roles	
THEA 371	Stage Manager/Assistant Director/Assistant Choreographer	
THEA 372	Assistant Scenic Design/Assistant Technical Direction	
THEA 373	Assistant Lighting Design	
THEA 374	Assistant Costume Design/Shop Supervisor	
THEA 375	Properties Coordinator	
THEA 376	Makeup Design	
THEA 377	Publicity/Program Design	
THEA 378	Lead Electrician	
THEA 379	House Manager	
Six credits chosen from:		6
Any THEA course numbered 200 or above		
Six credits chosen from:		6
Any THEA class numbered 300 or above		

Program Learning Outcomes

Students completing this program will be expected to meet the following learning outcomes:

- Understand theatre's diverse genres, styles, and forms within their cultural, theoretical, and historical contexts.
- Demonstrate competency as an actor, director, technician, and/or stage manager in a realized production.
- Demonstrate competency in all stage crafts.
- Explain, critique, and evaluate one's own creative work and the creative work of others.
- Demonstrate competency in the principles of design.
- Demonstrate advanced competence in one or more theatre specializations in design, performance, scholarship (history, literature, criticism, performance), and musical theatre.

Theatre Arts, Comprehensive Major, B.A.

The following is a sample degree plan, based on the current catalog. It is based on the 120-credit graduation requirement and assumes no transferred credits, no requirements waived by placement tests, no courses taken in the summer or winter, no repeated courses, and no remedial courses that may be required. This sample degree plan is intended for first-year students entering UW-Eau Claire in the fall semester. Your own degree plan may differ depending on the course of study selected (second major, minor, etc.). UW-Eau Claire cannot guarantee all courses will be offered as shown, but will provide a range of courses that may enable prepared students to fulfill their requirements in a timely period. This sample degree plan is just a guide. Please consult your advisor, your degree audit, and the catalog to create your own degree plan. *Note:* In order to earn the required minimum of 120 credits for the degree in four years, you should plan to take 15 credits each semester or 30 credits each year.

To earn a degree, students must fulfill all University Graduation Requirements, including the Core General Education Requirements (CGER). CGER course work in the following sample degree plan uses abbreviations such as CGER CL, CGER HA, and CGER NSWL to represent the learning outcomes students will meet via completion of the course. Please click here for a description of the outcomes and requirements.

Students in this major have the option to pursue either a Bachelor of Arts (B.A.) or a Bachelor of Science (B.S.) degree. The degrees are distinguished by second language competency for the B.A. and a higher level of mathematics competency for the B.S.

FIRST YEAR

FIRST SEMESTER		
THEA 124	Costume Technology	3
THEA 170-179 Theatre Production Practicum		1
OR		
THEA 370-379 Theatre Production Practicum

THEA 321, 324 or 327 Scenic, Costume or Lighting Design ¹	3
THEA Elective 200+ level	3
THEA Elective 300+ level	3
CGER Option: Humanities & Arts (HA)	3
or CGER Option: Civics & Perspectives (CP)	
THEA Elective	3
TOTAL	16

FOURTH YEAR**FIRST SEMESTER**

THEA 323, 330, 344, 414 or 432 - Acting III, Historical Stage Design, Costume History, Playwriting, or Advanced Directing ²	3
THEA 170-179 Theatre Production Practicum	1
OR	
THEA 370-379 Theatre Production Practicum	
THEA Elective 300+ level	3
CGER Option: Civics & Perspectives (CP)	3
or CGER Option: Social & Behavioral Sciences (SBS)	
CGER Option: Humanities & Arts (HA)	3

TOTAL 13**SECOND SEMESTER**

THEA 323, 330, 344, 414 or 432 - Acting III, Historical Stage Design, Costume History, Playwriting, or Advanced Directing ²	3
THEA Elective 300+ level	3
CGER Option: Civics & Perspectives (CP)	3
CGER Option: Humanities & Arts (HA)	3
TOTAL	12

¹ Students are required to take THEA 321, THEA 324, or THEA 327. It is recommended to take it during the third year.

² THEA 323 is taught in Fall odd years
 THEA 330 is taught in Fall odd years
 THEA 344 is taught every third Spring
 THEA 414 is taught Spring odd years
 THEA 432 is taught Spring even years

Minimum total for the baccalaureate degree = 120 credits**Course Information**

THEA 121, THEA 124, and THEA 130 should be taken in the first year. It is ideal for students to take THEA 221 and THEA 231 in their second year. Students should see the catalog for specific Theatre Practicum requirements, and they are encouraged to be involved in productions from the first year. Students should take THEA 271 whenever available. THEA 223 is taught Spring odd years. THEA 239 is taught Spring even years. THEA 220 is taught Spring odd years. Some courses are taught at Pablo Center.

Application to Major

Program audition is not required.

RECOMMENDATIONS FOR HIGH IMPACT PRACTICES (HIPs)

The University of Wisconsin-Eau Claire encourages all students to participate in High Impact Practices. The following information identifies any specific recommendations that faculty in this major have concerning which HIPs might be most beneficial to students, and any recommendations about when those HIPs best fit into the degree plan. Students should also consult their faculty advisor for information on HIPs. There are many additional high impact opportunities available. Talk to your academic advisor for more information about incorporating HIPs like Study Abroad (<https://studyabroad.apps.uwec.edu/>), Intercultural Immersion (<https://www.uwec.edu/immersion/>), Internship (<https://www.uwec.edu/academics/academic-experience/internships>), and/or Student/Faculty Collaborative Research (<https://www.uwec.edu/offices-services/office-research-and-sponsored-programs/getting-involved-student-faculty-research>) into your time at UW-Eau Claire.

- Students are encouraged to consider a cultural immersion program, such as the Spring Break trip to New York City, in the final two years of the program.
- Faculty-Student Research Projects are encouraged after the first year of the program.
- Students are strongly encouraged to participate in "Quest," the Integrated Learning Project specifically created for Music and Theatre Arts students. See Music and Theatre Arts Homepage for more information.
- Students are strongly encouraged to consider a Recording Arts Certificate, an Arts Administration Certificate, or minor.

Core General Education Requirements (CGER)

Core General Education Requirements (CGER)

The Core General Education Requirements (CGER) includes a minimum of 10 courses across 6 categories. Students must complete a minimum of 36 credits in courses approved for the CGER Core.

- Mathematics & Quantitative Reasoning (MQR) - 4 credits, one course minimum
 - Includes the University Mathematics Requirement¹
- Communication & Literacy (CL) - 8 credits, two courses minimum
 - Includes the University Writing Requirement (CL-W)²
- Natural Sciences & Wellness (NSW/NSWL) - 6 credits, one course minimum (NSW-Lab required)
- Social & Behavioral Sciences (SBS) - 6 credits, two courses minimum
- Humanities & Arts (HA) - 6 credits, two courses minimum
- Civics & Perspectives (CP) - 6 credits, two courses minimum

¹ University Mathematics Requirement:

- Students satisfy the University Mathematics Requirement in one of four ways:
- completing an approved university-level mathematics course (MQR) with a grade of C (not C-) or above
 - achieving a suitable score on the UW Math Placement Test (<https://www.uwec.edu/academics/academic-support/advising/testing/placement-testing/>)
 - achieving a suitable score on an exam such as the Advanced Placement Calculus or Advanced Placement Statistics exams
 - achieving a suitable score on a Credit by Examination administered by the Department of Mathematics.

² University Writing Requirement:

- Students satisfy the University Writing Requirement in one of four ways:
- completing a Blugold Seminar in Critical Reading and Writing course (WRIT 102 (<https://catalog.uwec.edu/search/?P=WRIT%20102>), WRIT 114 (<https://catalog.uwec.edu/search/?P=WRIT%20114>), WRIT 116 (<https://catalog.uwec.edu/search/?P=WRIT%20116>), WRIT 118 (<https://catalog.uwec.edu/search/?P=WRIT%20118>), or WRIT 120 (<https://catalog.uwec.edu/search/?P=WRIT%20120>)) with a grade of C (not C-) or above
 - achieving a suitable score on the English Placement Test (<https://www.uwec.edu/academics/blugold-seminar/writ-courses-placement/>) (WPT ENGL)
 - achieving a suitable score on an exam such as the Advanced Placement English Literature and Composition or Advanced Placement English Language and Composition exams
 - achieving a suitable score on the University Writing Program Portfolio.

Completion via Placement Test

- Writing: If the CL-W subcategory is satisfied through a placement test, the CGER Communication and Literacy requirement will be reduced from 8 credits (2 courses) to 3 credits (1 course).
- Mathematics: If the University Math Requirement is satisfied through a placement test, the CGER Mathematics & Quantitative Reasoning requirement will be considered fully met, replacing the 4-credit (1 course) requirement.
- Students must still complete 36 credits across 10 courses, with any remaining credits or courses eligible to be taken from any CGER category.

Theatre Arts, Major - Liberal Arts

Liberal Arts (Code 601-223)

University Requirements

GRADUATION REQUIREMENTS FOR BACCALAUREATE DEGREE

Credit Requirements	
Minimum total for graduation ¹	120
Upper division credits (courses numbered 300 and higher)	39
Core General Education	10 courses, 36 credits

Academic Concentrations	
Grade Point Requirements ²	
Total	2.00 average
Resident	2.00 average
Major	2.00 average
Minor	2.00 average
Certificate	2.00 average

University Residency Requirements	
Minimum total	30
Senior year	23
Major, Standard, upper division in residence	12
Major, Comprehensive, upper division in residence	21
Certificate	25 percent of credits

Procedures Required for Graduation

- Obtain admission to the degree program and/or the College offering it.
- Apply for graduation on CampS.

¹ Certain programs exceed this minimum.
² See special requirements in each College.

Applicability of Credits Toward Graduation

Junior College or Two-Year College Credits. A maximum of 72 semester credits earned in a junior college or two-year college will be accepted as degree credits at UW-Eau Claire.

Extension Credits. Credits earned in credit outreach courses offered by UW-Eau Claire are treated as resident credits. Credits earned in extension courses offered by other units of the Universities of Wisconsin System are treated as transfer credits. All other (non-UW) extension and correspondence credits are normally limited to one-fourth of the total required for graduation from any curriculum.

WTCS Credits. A maximum of 72 semester credits earned in college parallel programs at Madison Area Technical College, Milwaukee Area Technical College, Nicolet Area Technical College, or Chippewa Valley Technical College may be accepted as degree credits at UW-Eau Claire. A set number of general education courses will be accepted from other technical schools. Occupational and technical courses may also be considered for transfer if the quality and content of the course work from the technical college is judged to be comparable to course work at UW-Eau Claire. Refer to the Transfer Credit Wizard (<https://www.uwec.sis.wisconsin.edu/psp/eauprd-tb/EMPLOYEE/>)

SA/c/EAU_SS_CUSTOM.EAU_TRNCRDWZ.GBL) or contact the UW-Eau Claire Admissions Office for information about the current transfer policy.

USAFI Credit. UW-Eau Claire will accept up to 32 semester credits for work done through the United States Armed Forces Institute, under the provision for non-UW correspondence credit (see Extension Credits above).

Activity Credit (band, chorus, drama, KINS 100-184 courses) Students may count toward graduation no more than one credit of KINS 110-184 courses. Students may count toward graduation no more than four credits earned in any single activity course and no more than 12 credits resulting from any combination of activity courses (excluding KINS 110-184 courses).

Other Restricted Credits. For other University restrictions, see the following: Cooperative Education; Credit by Examination; Satisfactory/Unsatisfactory Registration; Transfer of Credits. College or departmental restrictions may also be placed on Independent Study (399-499 courses), Directed Study (395-495), and other types of credits.

APPLICABILITY OF CREDITS TOWARD GRADUATION		Credit Restrictions
Satisfactory/Unsatisfactory		
Total degree credit		maximum 12
Major, Standard		maximum 1 course
Major, Comprehensive		maximum 2 courses
Minor		maximum 1 course
Credit by Examination		
Total degree credit		maximum ¼ of total
Major or minor		maximum ½ of total
Two-Year College Credits		
Total degree credit		maximum 72 credits
Activity credit (band, chorus, drama, KINS 100-184)		
Total KINS 100-184		maximum 1 credit
Total Band, chorus, drama		maximum 12 credits
Single course band, chorus, drama		maximum 4 credits
Extension credits		
UW-System		no maximum
Other extension/correspondence		maximum ¼ of total
USAFI		
USAFI		maximum 32 credits

Core General Education Requirements (CGER)

Includes University Writing Requirement (CL-W) (http://catalog.uwec.edu/undergraduate/outcome-clw/) ²	
Natural Sciences & Wellness (NSW/NSWL) (http://catalog.uwec.edu/undergraduate/outcome-NSW/)	6 credit hours, 1 course min (NSW-Lab required)
Social & Behavioral Sciences (SBS) (https://catalog.uwec.edu/undergraduate/outcome-sbs/)	6 credit hours, 2 course min
Humanities & Arts (HA) (http://catalog.uwec.edu/undergraduate/outcome-ha/)	6 credit hours, 2 course min
Civics & Perspectives (CP) (http://catalog.uwec.edu/undergraduate/outcome-cp/)	6 credit hours, 2 course min
CGER Totals ³	
Credits	minimum 36 credits
Courses	minimum 10 courses

¹ University Mathematics Requirement:

Students satisfy the University Mathematics Requirement in one of four ways:

- completing an approved university-level mathematics course (MQR) with a grade of C (not C-) or above
- achieving a suitable score on the UW Math Placement Test (<https://www.uwec.edu/academics/academic-support/advising/testing/placement-testing/>)
- achieving a suitable score on an exam such as the Advanced Placement Calculus or Advanced Placement Statistics exams
- achieving a suitable score on a Credit by Examination administered by the Department of Mathematics.

² University Writing Requirement:

Students satisfy the University Writing Requirement in one of four ways:

- completing a Blugold Seminar in Critical Reading and Writing course (WRIT 102 (<https://catalog.uwec.edu/search/?P=WRIT%20102>), WRIT 114 (<https://catalog.uwec.edu/search/?P=WRIT%20114>), WRIT 116 (<https://catalog.uwec.edu/search/?P=WRIT%20116>), WRIT 118 (<https://catalog.uwec.edu/search/?P=WRIT%20118>), or WRIT 120 (<https://catalog.uwec.edu/search/?P=WRIT%20120>)) with a grade of C (not C-) or above
- achieving a suitable score on the English Placement Test (<https://www.uwec.edu/academics/blugold-seminar/writ-courses-placement/>) (WPT ENGL)
- achieving a suitable score on an exam such as the Advanced Placement English Literature and Composition or Advanced Placement English Language and Composition exams
- achieving a suitable score on the University Writing Program Portfolio.

³ Completion via Placement Tests

- Writing: If the CL-W subcategory is satisfied through a placement test, the CGER Communication and Literacy requirement will be reduced from 8 credits (2 courses) to 3 credits (1 course).
- Mathematics: If the University Math Requirement is satisfied through a placement test, the CGER Mathematics & Quantitative Reasoning requirement will be considered fully met, replacing the 4-credit (1 course) requirement.

- Students must still complete 36 credits across 10 courses, with any remaining credits or courses eligible to be taken from any CGER category.

College Degree Requirements

Bachelor of Arts or Bachelor of Science Degree (B.A./B.S.)

University Graduation Requirements. All candidates for degrees must fulfill the requirements for credits, curriculum, GPA, and University residency as specified in the section of this catalog titled University Graduation Requirements.

College Graduation Requirements: Grade Point Averages. All candidates for degrees in the College of Arts and Sciences must earn minimum resident and total GPAs of 2.00 in the major, the minor, and the certificate. The resident and total GPAs for the major are computed using all attempted credits applicable to the major including those offered by departments other than the major department. The resident and total GPAs for the minor and the certificate are computed similarly.

Major-Minor and Major-Certificate Requirements. A standard major (a minimum of 36 credits) must be supplemented by a minor (a minimum of 24 credits) or by a certificate (12 to 18 credits) to meet graduation requirements for completing a first and second degree program. No minor or certificate is required with a Comprehensive Major (60 or more credits) or with two majors of 36 or more credits each.

Certain degree programs, which include Comprehensive Majors, may require more than the minimum of 120 credits for graduation.

Acceptable academic program combinations are determined at the college level. A major and a minor or a major and certificate or two majors (if available) may not be elected in the same department or program, except in the approved combinations listed here.

College Credits. Earn at least 90 credits in courses offered by the College of Arts and Sciences.

Bachelor of Arts Degree in the College of Arts and Sciences (B.A.)

Fulfillment of all University Graduation Requirements (which includes the Core General Education Requirements); all College-level degree requirements (major and minor/certificate emphases, GPAs, earning at least 90 credits in Arts and Sciences course work); second language competency at the 102 level. Second language competency may be met in one of two ways: (1) Demonstrate a level of second language competency that qualifies the student to enter the 201-level course in a second language. (2) Earn a grade of at least C (not C-) or a mark of S in a 102-level second language course (or AIS 112 or AIS 122 or SLHS 103).

Bachelor of Science Degree in the College of Arts and Sciences (B.S.)

Fulfillment of all University Graduation Requirements (which includes the Core General Education Requirements); all College-level degree requirements (major and minor/certificate emphases, GPAs, earning at least 90 credits in Arts and Sciences course work); mathematics competency at the MATH 111, MATH 112 or MATH 113 level. Mathematics competency can be met in one of three ways:

(1) Achieve a score on the mathematics placement test that qualifies the student to enter MATH 114. (2) Earn a grade of at least C (not C-) or a mark of S in MATH 111, MATH 112, or MATH 113. (3) Achieve a satisfactory score on the MATH 112 competency test. This test may be attempted no more than two times.

Major Requirements

Liberal Arts (Code 601-223)

Code	Title	Credits
Thirty-six semester credits, including:		
THEA 121	Introduction to Technical Theatre	3
THEA 124	Costume Technology	3
THEA 130	Acting I	3

Any THEA course numbered 300 or above.	
Total Credits	36

Program Learning Outcomes

Students completing this program will be expected to meet the following learning outcomes:

- Understand theatre's diverse genres, styles, and forms within their cultural, theoretical, and historical contexts.
- Demonstrate competency as an actor, director, technician, and/or stage manager in a realized production.
- Demonstrate competency in all stage crafts.
- Explain, critique, and evaluate one's own creative work and the creative work of others.
- Demonstrate competency in the principles of design.

Theatre Arts, Major - Liberal Arts, B.A.

The following is a sample degree plan, based on the current catalog. It is based on the 120-credit graduation requirement and assumes no transferred credits, no requirements waived by placement tests, no courses taken in the summer or winter, no repeated courses, and no remedial courses that may be required. This sample degree plan is intended for first-year students entering UW-Eau Claire in the fall semester. Your own degree plan may differ depending on the course of study selected (second major, minor, etc.). UW-Eau Claire cannot guarantee all courses will be offered as shown, but will provide a range of courses that may enable prepared students to fulfill their requirements in a timely period. This sample degree plan is just a guide. Please consult your advisor, your degree audit, and the catalog to create your own degree plan. *Note:* In order to earn the required minimum of 120 credits for the degree in four years, you should plan to take 15 credits each semester or 30 credits each year.

To earn a degree, students must fulfill all University Graduation Requirements, including the Core General Education Requirements (CGER). CGER course work in the following sample degree plan uses abbreviations such as CGER CL, CGER HA, and CGER NSWL to represent the learning outcomes students will meet via completion of the course. Please click here for a description of the outcomes and requirements.

Students in this major have the option to pursue either a Bachelor of Arts (B.A.) or a Bachelor of Science (B.S.) degree. The degrees are distinguished by second language competency for the B.A. and a higher level of mathematics competency for the B.S.

¹ Students are required to take THEA 321, THEA 324, or THEA 327. It is recommended to take it during the third year.

Minimum total for the baccalaureate degree = 120 credits

Course Information

In the third and fourth years, a lot can be swapped between THEA and Minor requirements.

THEA 121, THEA 124, and THEA 130 should be taken in the first year. It is ideal for students to take THEA 221 and THEA 231 in their second year. Students should see the catalog for specific Theatre Practicum requirements, and they are encouraged to be involved in productions from the first year. Students should take THEA 271 whenever available.

THEA 223 is taught Spring odd years.
THEA 239 is taught Spring even years.
THEA 220 is taught Spring odd years.
THEA 330 is taught in Fall odd years.
THEA 323 is taught in Fall odd years.
THEA 414 is taught Spring odd years.
THEA 432 is taught Spring even years.
THEA 344 is taught every third Spring.
Some courses are taught at Pablo Center.

Application to Major

Program audition is not required.

RECOMMENDATIONS FOR HIGH IMPACT PRACTICES (HIPs)

The University of Wisconsin-Eau Claire encourages all students to participate in High Impact Practices. The following information identifies any specific recommendations that faculty in this major have concerning which HIPs might be most beneficial to students, and any recommendations about when those HIPs best fit into the degree plan. Students should also consult their faculty advisor for information on HIPs. There are many additional high impact opportunities available. Talk to your academic advisor for more information about incorporating HIPs like Study Abroad (<https://studyabroad.apps.uwec.edu/>), Intercultural Immersion (<https://www.uwec.edu/immersion/>), Internship (<https://www.uwec.edu/offices-services/advising-retention-career-center/career-services/internship/job-searching-and/>), and/or Student/Faculty Collaborative Research (<https://www.uwec.edu/offices-services/office-research-and-sponsored-programs/getting-involved-student-faculty-research/>) into your time at UW-Eau Claire.

- Students are encouraged to consider a cultural immersion program, such as the Spring Break trip to New York City, in the final two years of the program.
- Faculty-Student Research Projects are encouraged after the first year of the program.
- Students are strongly encouraged to participate in “Quest,” the Integrated Learning Project specifically created for Music and Theatre Arts students. See Music and Theatre Arts Homepage for more information.

Core General Education Requirements (CGER)

Core General Education Requirements (CGER)

The Core General Education Requirements (CGER) includes a minimum of 10 courses across 6 categories. Students must complete a minimum of 36 credits in courses approved for the CGER Core.

- Mathematics & Quantitative Reasoning (MQR) - 4 credits, one course minimum
 - Includes the University Mathematics Requirement¹

- Communication & Literacy (CL) - 8 credits, two courses minimum
 - Includes the University Writing Requirement (CL-W)²
- Natural Sciences & Wellness (NSW/NSWL) - 6 credits, one course minimum (NSW-Lab required)
- Social & Behavioral Sciences (SBS) - 6 credits, two courses minimum
- Humanities & Arts (HA) - 6 credits, two courses minimum
- Civics & Perspectives (CP) - 6 credits, two courses minimum

¹ University Mathematics Requirement:

Students satisfy the University Mathematics Requirement in one of four ways:

- completing an approved university-level mathematics course (MQR) with a grade of C (not C-) or above
- achieving a suitable score on the UW Math Placement Test (<https://www.uwec.edu/academics/academic-support/advising/testing/placement-testing/>)
- achieving a suitable score on an exam such as the Advanced Placement Calculus or Advanced Placement Statistics exams
- achieving a suitable score on a Credit by Examination administered by the Department of Mathematics.

² University Writing Requirement:

Students satisfy the University Writing Requirement in one of four ways:

- completing a Blugold Seminar in Critical Reading and Writing course (WRIT 102 (<https://catalog.uwec.edu/search/?P=WRIT%20102>), WRIT 114 (<https://catalog.uwec.edu/search/?P=WRIT%20114>), WRIT 116 (<https://catalog.uwec.edu/search/?P=WRIT%20116>), WRIT 118 (<https://catalog.uwec.edu/search/?P=WRIT%20118>), or WRIT 120 (<https://catalog.uwec.edu/search/?P=WRIT%20120>)) with a grade of C (not C-) or above
- achieving a suitable score on the English Placement Test (<https://www.uwec.edu/academics/blugold-seminar/writ-courses-placement/>) (WPT ENGL)
- achieving a suitable score on an exam such as the Advanced Placement English Literature and Composition or Advanced Placement English Language and Composition exams
- achieving a suitable score on the University Writing Program Portfolio.

Completion via Placement Test

- Writing: If the CL-W subcategory is satisfied through a placement test, the CGER Communication and Literacy requirement will be reduced from 8 credits (2 courses) to 3 credits (1 course).
- Mathematics: If the University Math Requirement is satisfied through a placement test, the CGER Mathematics & Quantitative Reasoning requirement will be considered fully met, replacing the 4-credit (1 course) requirement.
- Students must still complete 36 credits across 10 courses, with any remaining credits or courses eligible to be taken from any CGER category.

Theatre Arts, Minor - Liberal Arts

Liberal Arts (Code 601-422)

Code	Title	Credits
Twenty-four semester credits, including:		
THEA 121	Introduction to Technical Theatre	3
THEA 130	Acting I	3
THEA 221	Introduction to Design	3
THEA 302	Theatre History to 1875	3

THEA 303	Theatre History Since 1875	3
THEA 332	Directing	3
Select one of the following:		1
THEA 151	Costume Shop Practicum	
THEA 152	Scenic Shop Practicum	
THEA 153	Light/Sound Shop Practicum	
Two different credits from:		2
THEA 170	Acting-Minor Roles/Chorus	
THEA 171	Assistant Stage Manager	
THEA 172	Scenic Construction Crew	
THEA 173	Light/Sound Board Operator	
THEA 174	Costume Crew	
THEA 175	Stage/Properties Crew	
THEA 176	Makeup Crew	
THEA 177	Publicity Crew	
THEA 178	Electrics Crew	
THEA 179	Special Effects/Sound Facilitator	
THEA 351	Advanced Costume Shop Practicum

THEA 372	Assistant Scenic Design/Assistant Technical Direction	
THEA 373	Assistant Lighting Design	
THEA 374	Assistant Costume Design/Shop Supervisor	
THEA 375	Properties Coordinator	
THEA 376	Makeup Design	
THEA 377	Publicity/Program Design	
THEA 378	Lead Electrician	
THEA 379	House Manager	
Three credits chosen from:		3
Any THEA course numbered 200 or above		
Total Credits		24

Program Learning Outcomes

Students completing this program will be expected to meet the following learning outcomes:

- Understand theatre's diverse genres, styles, and forms within their cultural, theoretical, and historical contexts.
- Demonstrate competency as an actor, director, technician, and/or stage manager in a realized production.
- Demonstrate competency in all stage crafts.
- Explain, critique, and evaluate one's own creative work and the creative work of others.
- Demonstrate competency in the principles of design.

Theatre Arts, Musical Theatre, Comprehensive Major

Liberal Arts (Code 601-002)

University Requirements

GRADUATION REQUIREMENTS FOR BACCALAUREATE DEGREE

Credit Requirements	
Minimum total for graduation ¹	120
Upper division credits (courses numbered 300 and higher)	39
Core General Education	10 courses, 36 credits

Academic Concentrations

Grade Point Requirements ²

Total	2.00 average
Resident	2.00 average
Major	2.00 average
Minor	2.00 average
Certificate	2.00 average

University Residency Requirements

Minimum total	30
Senior year	23
Major, Standard, upper division in residence	12
Major, Comprehensive, upper division in residence	21
Certificate	25 percent of credits

Procedures Required for Graduation

Obtain admission to the degree program and/or the College offering it.

Apply for graduation on CampS.

¹ Certain programs exceed this minimum.

² See special requirements in each College.

Applicability of Credits Toward Graduation

Junior College or Two-Year College Credits. A maximum of 72 semester credits earned in a junior college or two-year college will be accepted as degree credits at UW-Eau Claire.

Extension Credits. Credits earned in credit outreach courses offered by UW-Eau Claire are treated as resident credits. Credits earned in extension courses offered by other units of the Universities of Wisconsin System are treated as transfer credits. All other (non-UW) extension and correspondence credits are normally limited to one-fourth of the total required for graduation from any curriculum.

WTCS Credits. A maximum of 72 semester credits earned in college parallel programs at Madison Area Technical College, Milwaukee Area Technical College, Nicolet Area Technical College, or Chippewa Valley Technical College may be accepted as degree credits at UW-Eau Claire. A set number of general education courses will be accepted from other technical schools. Occupational and technical courses may also be considered for transfer if the quality and content of the course work from the technical college is judged to be comparable to course work at UW-Eau Claire. Refer to the Transfer Credit Wizard (<https://www.uwec.sis.wisconsin.edu/psp/eauprd-tb/EMPLOYEE/>)

SA/c/EAU_SS_CUSTOM.EAU_TRNCRDWZ.GBL) or contact the UW-Eau Claire Admissions Office for information about the current transfer policy.

USAFI Credit. UW-Eau Claire will accept up to 32 semester credits for work done through the United States Armed Forces Institute, under the provision for non-UW correspondence credit (see Extension Credits above).

Activity Credit (band, chorus, drama, KINS 100-184 courses) Students may count toward graduation no more than one credit of KINS 110-184 courses. Students may count toward graduation no more than four credits earned in any single activity course and no more than 12 credits resulting from any combination of activity courses (excluding KINS 110-184 courses).

Other Restricted Credits. For other University restrictions, see the following: Cooperative Education; Credit by Examination; Satisfactory/Unsatisfactory Registration; Transfer of Credits. College or departmental restrictions may also be placed on Independent Study (399-499 courses), Directed Study (395-495), and other types of credits.

APPLICABILITY OF CREDITS TOWARD GRADUATION		Credit Restrictions
Satisfactory/Unsatisfactory		
Total degree credit		maximum 12
Major, Standard		maximum 1 course
Major, Comprehensive		maximum 2 courses
Minor		maximum 1 course
Credit by Examination		
Total degree credit		maximum ¼ of total
Major or minor		maximum ½ of total
Two-Year College Credits		
Total degree credit		maximum 72 credits

CGER Totals ³	
Credits	minimum 36 credits
Courses	minimum 10 courses

¹ University Mathematics Requirement:

Students satisfy the University Mathematics Requirement in one of four ways:

- completing an approved university-level mathematics course (MQR) with a grade of C (not C-) or above
- achieving a suitable score on the UW Math Placement Test (<https://www.uwec.edu/academics/academic-support/advising/testing/placement-testing/>)
- achieving a suitable score on an exam such as the Advanced Placement Calculus or Advanced Placement Statistics exams
- achieving a suitable score on a Credit by Examination administered by the Department of Mathematics.

² University Writing Requirement:

Students satisfy the University Writing Requirement in one of four ways:

- completing a Blugold Seminar in Critical Reading and Writing course (WRIT 102 (<https://catalog.uwec.edu/search/?P=WRIT%20102>), WRIT 114 (<https://catalog.uwec.edu/search/?P=WRIT%20114>), WRIT 116 (<https://catalog.uwec.edu/search/?P=WRIT%20116>), WRIT 118 (<https://catalog.uwec.edu/search/?P=WRIT%20118>), or WRIT 120 (<https://catalog.uwec.edu/search/?P=WRIT%20120>)) with a grade of C (not C-) or above
- achieving a suitable score on the English Placement Test (<https://www.uwec.edu/academics/blugold-seminar/writ-courses-placement/>) (WPT ENGL)
- achieving a suitable score on an exam such as the Advanced Placement English Literature and Composition or Advanced Placement English Language and Composition exams
- achieving a suitable score on the University Writing Program Portfolio.

³ Completion via Placement Tests

- Writing: If the CL-W subcategory is satisfied through a placement test, the CGER Communication and Literacy requirement will be reduced from 8 credits (2 courses) to 3 credits (1 course).
- Mathematics: If the University Math Requirement is satisfied through a placement test, the CGER Mathematics & Quantitative Reasoning requirement will be considered fully met, replacing the 4-credit (1 course) requirement.

- Students must still complete 36 credits across 10 courses, with any remaining credits or courses eligible to be taken from any CGER category.

College Degree Requirements

Bachelor of Arts or Bachelor of Science Degree (B.A./B.S.)

University Graduation Requirements. All candidates for degrees must fulfill the requirements for credits, curriculum, GPA, and University residency as specified in the section of this catalog titled University Graduation Requirements.

College Graduation Requirements: Grade Point Averages. All candidates for degrees in the College of Arts and Sciences must earn minimum resident and total GPAs of 2.00 in the major, the minor, and the certificate. The resident and total GPAs for the major are computed using all attempted credits applicable to the major including those offered by departments other than the major department. The resident and total GPAs for the minor and the certificate are computed similarly.

Major-Minor and Major-Certificate Requirements. A standard major (a minimum of 36 credits) must be supplemented by a minor (a minimum of 24 credits) or by a certificate (12 to 18 credits) to meet graduation requirements for completing a first and second degree program. No minor or certificate is required with a Comprehensive Major (60 or more credits) or with two majors of 36 or more credits each.

Certain degree programs, which include Comprehensive Majors, may require more than the minimum of 120 credits for graduation.

Acceptable academic program combinations are determined at the college level. A major and a minor or a major and certificate or two majors (if available) may not be elected in the same department or program, except in the approved combinations listed here.

College Credits. Earn at least 90 credits in courses offered by the College of Arts and Sciences.

Bachelor of Arts Degree in the College of Arts and Sciences (B.A.)

Fulfillment of all University Graduation Requirements (which includes the Core General Education Requirements); all College-level degree requirements (major and minor/certificate emphases, GPAs, earning at least 90 credits in Arts and Sciences course work); second language competency at the 102 level. Second language competency may be met in one of two ways: (1) Demonstrate a level of second language competency that qualifies the student to enter the 201-level course in a second language. (2) Earn a grade of at least C (not C-) or a mark of S in a 102-level second language course (or AIS 112 or AIS 122 or SLHS 103).

Bachelor of Science Degree in the College of Arts and Sciences (B.S.)

Fulfillment of all University Graduation Requirements (which includes the Core General Education Requirements); all College-level degree requirements (major and minor/certificate emphases, GPAs, earning at least 90 credits in Arts and Sciences course work); mathematics competency at the MATH 111, MATH 112 or MATH 113 level. Mathematics competency can be met in one of three ways:

(1) Achieve a score on the mathematics placement test that qualifies the student to enter MATH 114. (2) Earn a grade of at least C (not C-) or a mark of S in MATH 111, MATH 112, or MATH 113. (3) Achieve a satisfactory score on the MATH 112 competency test. This test may be attempted no more than two times.

Major Requirements

THEA 375	Properties Coordinator
THEA 376	Makeup Design
THEA 377	Publicity/Program Design
THEA 378	Lead Electrician
THEA 379	House Manager
Piano proficiency - passed prior to graduation	

Program Learning Outcomes

Students completing this program will be expected to meet the following learning outcomes:

- Understand theatre's diverse genres, styles, and forms within their cultural, theoretical, and historical contexts.
- Demonstrate competency as an actor, director, technician, and/or stage manager in a realized production.
- Demonstrate competency in all stage crafts.
- Explain, critique, and evaluate one's own creative work and the creative work of others.
- Demonstrate competency in the principles of design.
- Demonstrate advanced competence in one or more theatre specializations in design, performance, scholarship (history, literature, criticism, performance), and musical theatre.

Theatre Arts, Musical Theatre, Comprehensive Major, B.A.

The following is a sample degree plan, based on the current catalog. It is based on the 120-credit graduation requirement and assumes no transferred credits, no requirements waived by placement tests, no courses taken in the summer or winter, no repeated courses, and no remedial courses that may be required. This sample degree plan is intended for first-year students entering UW-Eau Claire in the fall semester. Your own degree plan may differ depending on the course of study selected (second major, minor, etc.). UW-Eau Claire cannot guarantee all courses will be offered as shown, but will provide a range of courses that may enable prepared students to fulfill their requirements in a timely period. This sample degree plan is just a guide. Please consult your advisor, your degree audit, and the catalog to create your own degree plan. *Note:* In order to earn the required minimum of 120 credits for the degree in four years, you should plan to take 15 credits each semester or 30 credits each year.

To earn a degree, students must fulfill all University Graduation Requirements, including the Core General Education Requirements (CGER). CGER course work in the following sample degree plan uses abbreviations such as CGER CL, CGER HA, and CGER NSWL to represent the learning outcomes students will meet via completion of the course. Please click here for a description of the outcomes and requirements.

Students in this major have the option to pursue either a Bachelor of Arts (B.A.) or a Bachelor of Science (B.S.) degree. The degrees are distinguished by

second language competency for the B.A. and a higher level of mathematics competency for the B.S.

TOTAL		15

¹ Students are required to take THEA 321, THEA 324, or THEA 327. It is recommended to take it during the third year.

Minimum total for the baccalaureate degree = 120 credits

Course Information

- THEA 121, THEA 124, and THEA 130 should be taken in the first year.
- It is ideal for students to take THEA 221 and THEA 231 in their second year.

- Students should see the catalog for specific Theatre Practicum requirements, and they are encouraged to be involved in productions from the first year.
- Students should take THEA 271 whenever available.
- THEA 223 is taught Spring odd years.
- THEA 239 is taught Spring even years.
- THEA 220 is taught Spring odd years.
- THEA 330 is taught in Fall odd years.
- THEA 323 is taught in Fall odd years.
- THEA 414 is taught Spring odd years.
- THEA 432 is taught Spring even years.
- THEA 344 is taught every third Spring.
- THEA 302 could be taken in the Fall of the third or fourth year so that more LE could be taken earlier
- THEA 303 could be taken in the Spring of the third or fourth year so that more LE could be taken earlier.
- THEA 321, THEA 324, or THEA 327 could be taken in the fourth year Spring.
- Some courses are taught at Pablo Center.

Application to Major

Admittance to major is through audition to the Music Program.

Musical Theatre majors must pass the piano proficiency exam to meet graduation requirements.

RECOMMENDATIONS FOR OPTIONAL HIGH IMPACT PRACTICES (HIPs)

The University of Wisconsin-Eau Claire encourages all students to participate in High Impact Practices. The following information identifies any specific recommendations that faculty in this major have concerning which HIPs might be most beneficial to students, and any recommendations about when those HIPs best fit into the degree plan. Students should also consult their faculty advisor for information on HIPs. There are many additional high impact opportunities available. Talk to your academic advisor for more information about incorporating HIPs like Study Abroad (<https://studyabroad.apps.uwec.edu/>), Intercultural Immersion (<https://www.uwec.edu/immersion/>), Internship (<https://www.uwec.edu/offices-services/advising-retention-career-center/career-services/internship/job-searching-and/>), and/or Student/Faculty Collaborative Research (<https://www.uwec.edu/offices-services/office-research-and-sponsored-programs/getting-involved-student-faculty-research/>) into your time at UW-Eau Claire.

- Students are encouraged to consider a cultural immersion program, such as the Spring Break trip to New York City, in the final two years of the program.
- Faculty-Student Research Projects are encouraged after the first year of the program.
- Students are strongly encouraged to participate in "Quest," the Integrated Learning Project specifically created for Music and Theatre Arts students. See Music and Theatre Arts Homepage for more information.

Core General Education Requirements (CGER)

Core General Education Requirements (CGER)

The Core General Education Requirements (CGER) includes a minimum of 10 courses across 6 categories. Students must complete a minimum of 36 credits in courses approved for the CGER Core.

- Mathematics & Quantitative Reasoning (MQR) - 4 credits, one course minimum
 - Includes the University Mathematics Requirement¹
- Communication & Literacy (CL) - 8 credits, two courses minimum
 - Includes the University Writing Requirement (CL-W)²

- Natural Sciences & Wellness (NSW/NSWL) - 6 credits, one course minimum (NSW-Lab required)
- Social & Behavioral Sciences (SBS) - 6 credits, two courses minimum
- Humanities & Arts (HA) - 6 credits, two courses minimum
- Civics & Perspectives (CP) - 6 credits, two courses minimum

¹ University Mathematics Requirement:

Students satisfy the University Mathematics Requirement in one of four ways:

- completing an approved university-level mathematics course (MQR) with a grade of C (not C-) or above
- achieving a suitable score on the UW Math Placement Test (<https://www.uwec.edu/academics/academic-support/advising/testing/placement-testing/>)
- achieving a suitable score on an exam such as the Advanced Placement Calculus or Advanced Placement Statistics exams
- achieving a suitable score on a Credit by Examination administered by the Department of Mathematics.

² University Writing Requirement:

Students satisfy the University Writing Requirement in one of four ways:

- completing a Blugold Seminar in Critical Reading and Writing course (WRIT 102 (<https://catalog.uwec.edu/search/?P=WRIT%20102>), WRIT 114 (<https://catalog.uwec.edu/search/?P=WRIT%20114>), WRIT 116 (<https://catalog.uwec.edu/search/?P=WRIT%20116>), WRIT 118 (<https://catalog.uwec.edu/search/?P=WRIT%20118>), or WRIT 120 (<https://catalog.uwec.edu/search/?P=WRIT%20120>)) with a grade of C (not C-) or above
- achieving a suitable score on the English Placement Test (<https://www.uwec.edu/academics/blugold-seminar/writ-courses-placement/>) (WPT ENGL)
- achieving a suitable score on an exam such as the Advanced Placement English Literature and Composition or Advanced Placement English Language and Composition exams
- achieving a suitable score on the University Writing Program Portfolio.

Completion via Placement Test

- Writing: If the CL-W subcategory is satisfied through a placement test, the CGER Communication and Literacy requirement will be reduced from 8 credits (2 courses) to 3 credits (1 course).
- Mathematics: If the University Math Requirement is satisfied through a placement test, the CGER Mathematics & Quantitative Reasoning requirement will be considered fully met, replacing the 4-credit (1 course) requirement.
- Students must still complete 36 credits across 10 courses, with any remaining credits or courses eligible to be taken from any CGER category.

Philosophy and Religious Studies

Hibbard Humanities Hall 632

715-836-2545

Department Website (<https://www.uwec.edu/academics/college-arts-sciences/departments-programs/philosophy-religious-studies/>)

Philosophy is the disciplined and critical inquiry into fundamental questions of human existence: What is the nature of reality? What is knowledge? Does God exist? Is my will free? What is the difference between right and wrong? What is the relation between the mind and the body? What is the meaning of

life? Philosophers use reason and argument in the attempt to answer these questions. Philosophy is at the very heart of a liberal education. Students of philosophy learn to think critically and clearly, argue forcefully, and read carefully. They also learn how the history of philosophy has shaped modern thought and culture. A major in philosophy is excellent preparation for advanced study in a wide range of fields, including law. A minor in philosophy will enrich and complement any major field of study.

Religious Studies is the multi-disciplinary exploration of the phenomena of human experience commonly called "religious." This includes study of the genesis and interpretation of religious texts; the formation, history, beliefs, and practices of religious communities and traditions; the role of religion in society and culture; issues in religion and science, including the psychology of religious experience; religion in literature and the arts; religious morality; philosophy of religion. The academic study of religion provides an excellent "window" into other cultures, while enhancing students' understanding of their own society and its history. A degree in Religious Studies provides an excellent foundation for a wide range of careers, as well as preparing students for demanding graduate programs.

Student Organizations

Theta Alpha Kappa (Honor Society in Religious Studies)

Philosophy Club

Honors Program in Philosophy and Religious Studies

The Honors Program in Philosophy and Religious studies enables outstanding students to engage in challenging Honors coursework and creative Honors research experiences.

Eligibility

Admission is by departmental invitation to students who have demonstrated excellent intellectual potential. To be considered, students must have a minimum 3.5 GPA in the major and in all university coursework.

Requirements:

1) Complete an Honors Capstone Thesis as the outcome of the departmental seminar — either PHIL 485 (Seminar in Problems in Philosophy) or RELS 490 (Seminar in Religious Studies) — or an appropriately crafted Independent Study project.

2) Present the thesis research at or in a suitable local, regional, or national venue.

Majors

- Major: Philosophy, Liberal Arts - B.A./B.S.
- Comprehensive Major: Philosophy, Politics, and Economics, Liberal Arts - B.A./B.S.

Minors

- Minor: Philosophy, Liberal Arts
- Minor: Religious Studies, Liberal Arts

Certificates

- Certificate: Analytical Reasoning
- Certificate: Ethics
- Certificate: World Religions

Analytical Reasoning, Certificate

(Code 400-602)

For advising, contact the Philosophy and Religious Studies Department.

The Analytical Reasoning Certificate is for students in a variety of majors and minors, especially for students interested in a career in the law, as well as for students who are interested in Philosophy but for whom a philosophy major or minor might be impractical. The Analytical Reasoning Certificate is a natural complement to any program of study outside of Philosophy.

Code	Title	Credits
Students will complete a minimum of 15 credits, using the guidelines below, and write a reflection essay upon completion of the courses.		
At least one of the following courses, but no more than two may be taken:		
PHIL 150	Logic and Critical Thinking	
PHIL 250	Symbolic Logic	
MATH 246	Elementary Statistics	
Remaining credits from other PHIL courses, with at least six credits at the 300-level or above		
With advisor approval the following may be applied to the certificate:		
Up to three credits from Independent Study or Directed Studies courses		
Additional relevant courses		

NOTE: Courses applied to the certificate cannot be applied to the student's major. Students cannot pursue the Philosophy Major and Analytical Reasoning Certificate to meet graduation requirements for completing a first and second degree program.

Program Learning Outcomes

Students completing this program will be expected to meet the following learning outcomes:

- Employ the tools of formal and informal logic to identify, construct, analyze, evaluate, and respond to arguments.
- Analyze ethical, social, and cultural issues with objectivity and open-mindedness
- Clearly articulate ideas and arguments in writing and speech.
- Engage in self-reflection and achieve greater self-understanding, exhibiting openness to alternative possibilities and conceptual frameworks

Ethics, Certificate

(Code 400-601)

Advisors: K. Schaupp, M. Meyer (Philosophy and Religious Studies).

The Ethics Certificate is for students in a variety of majors and minors, especially pre-professional programs with existing ethics requirements, and students interested in graduate study and careers in health care ethics, legal ethics, business and corporate ethics and compliance. The Ethics Certificate is a natural complement to the Leadership Studies Certificate currently offered through the College of Business's Department of Management and Leadership Programs.

Code	Title	Credits
Students are required to complete a minimum of 12 credits and complete a reflection essay.		
Required Courses		
PHIL 120	Ethical Reasoning	3
PHIL 331	Philosophical Ethics	3
The remaining six credits are from ethics-relevant electives:		6
PHIL 234	Classical Chinese Philosophy	
PHIL 305	Ethics and Business	
PHIL 306	Ethics of Health Care	
PHIL 308	Ethics in Computing and Engineering	
PHIL 320	Environmental Ethics	
PHIL 333	History of Ethics	
PHIL 334	Philosophical Perspectives on Forgiveness	
POLS 314	The Idea of Tolerance in the Western Political Tradition	
RELS 210	Religion and Morality	
With advisor approval, the following may be applied to the certificate program:		
PHIL 395	Directed Studies	
PHIL 399	Independent Study - Juniors	
PHIL 499	Independent Study - Seniors	
After their course work is completed, students must submit to the certificate advisor an essay in which they reflect on their learning experiences with respect to the certificate's goals.		
Total Credits		12

Note 1: Up to three credits from ethics courses from the student's major or minor field of study (e.g., CJ 413, ACCT 425) may be applied with advisor approval.

Note 2: Students must earn at least 48 unique credits between the certificate program and major for purposes of meeting graduation requirements for first and second degree programs. Students cannot pursue the Philosophy Major and Ethics Certificate to meet graduation requirements for completing a first and second degree program.

Program Learning Outcomes

Students completing this program will be expected to meet the following learning outcomes:

- Demonstrate an understanding of the major ethical theories and be able to thoughtfully apply them to particular ethical issues and dilemmas.
- Approach questions of value with clarity, balance, open-mindedness, and rational rigor.
- Clearly articulate ethical concepts and arguments in writing and speech.
- Engage in self-reflection and achieve greater self-understanding of themselves as moral agents.

Philosophy, Major

Liberal Arts (Code 400-200)

University Requirements

GRADUATION REQUIREMENTS FOR BACCALAUREATE DEGREE

Credit Requirements

Minimum total for graduation ¹	120
Upper division credits (courses numbered 300 and higher)	39
Core General Education	10 courses, 36 credits

Academic Concentrations

Grade Point Requirements ²

Total	2.00 average
Resident	2.00 average
Major	2.00 average
Minor	2.00 average
Certificate	2.00 average

University Residency Requirements

Minimum total	30
Senior year	23
Major, Standard, upper division in residence	12
Major, Comprehensive, upper division in residence	21
Certificate	25 percent of credits

Procedures Required for Graduation

Obtain admission to the degree program and/or the College offering it.

Apply for graduation on CampS.

¹ Certain programs exceed this minimum.

² See special requirements in each College.

Applicability of Credits Toward Graduation

Junior College or Two-Year College Credits. A maximum of 72 semester credits earned in a junior college or two-year college will be accepted as degree credits at UW-Eau Claire.

Extension Credits. Credits earned in credit outreach courses offered by UW-Eau Claire are treated as resident credits. Credits earned in extension courses offered by other units of the Universities of Wisconsin System are treated as transfer credits. All other (non-UW) extension and correspondence credits are normally limited to one-fourth of the total required for graduation from any curriculum.

WTCS Credits. A maximum of 72 semester credits earned in college parallel programs at Madison Area Technical College, Milwaukee Area Technical College, Nicolet Area Technical College, or Chippewa Valley Technical College may be accepted as degree credits at UW-Eau Claire. A set number of general education courses will be accepted from other technical schools. Occupational and technical courses may also be considered for transfer if the quality and content of the course work from the technical college is judged to be comparable to course work at UW-Eau Claire. Refer to the Transfer Credit Wizard (<https://www.uwec.sis.wisconsin.edu/psp/eauprd-tb/EMPLOYEE/>)

SA/c/EAU_SS_CUSTOM.EAU_TRNCRDWZ.GBL) or contact the UW-Eau Claire Admissions Office for information about the current transfer policy.

USAFI Credit. UW-Eau Claire will accept up to 32 semester credits for work done through the United States Armed Forces Institute, under the provision for non-UW correspondence credit (see Extension Credits above).

Activity Credit (band, chorus, drama, KINS 100-184 courses) Students may count toward graduation no more than one credit of KINS 110-184 courses. Students may count toward graduation no more than four credits earned in any single activity course and no more than 12 credits resulting from any combination of activity courses (excluding KINS 110-184 courses).

Other Restricted Credits. For other University restrictions, see the following: Cooperative Education; Credit by Examination; Satisfactory/Unsatisfactory Registration; Transfer of Credits. College or departmental restrictions may also be placed on Independent Study (399-499 courses), Directed Study (395-495), and other types of credits.

APPLICABILITY OF CREDITS TOWARD GRADUATION	Credit Restrictions
Satisfactory/Unsatisfactory	
Total degree credit	maximum 12
Major, Standard	maximum 1 course
Major, Comprehensive	maximum 2 courses
Minor	maximum 1 course
Credit by Examination	
Total degree credit	maximum ¼ of total
Major or minor	maximum ½ of total
Two-Year College Credits	
Total degree credit	maximum 72 credits
Activity credit (band, chorus, drama, KINS 100-184)	
Total KINS 100-184	maximum 1 credit
Total Band, chorus, drama	maximum 12 credits
Single course band, chorus, drama	maximum 4 credits
Extension credits	
UW-System	no maximum
Other extension/correspondence	maximum ¼ of total
USAFI	
USAFI	maximum 32 credits

Core General Education Requirements (CGER)

CGER Categories

Mathematics & Quantitative Reasoning (MQR) (http://catalog.uwec.edu/undergraduate/outcome-mqr/)	4 credit hours, 1 course min
Includes University Math Requirement ¹	

Communication & Literacy (CL) (http://catalog.uwec.edu/undergraduate/outcome-cl/)	8 credit hours, 2 course min (including CL-W)
Includes University Writing Requirement (CL-W) (http://catalog.uwec.edu/undergraduate/outcome-clw/) ²	
Natural Sciences & Wellness (NSW/NSWL) (http://catalog.uwec.edu/undergraduate/outcome-NSW/)	6 credit hours, 1 course min (NSW-Lab required)
Social & Behavioral Sciences (SBS) (https://catalog.uwec.edu/undergraduate/outcome-sbs/)	6 credit hours, 2 course min
Humanities & Arts (HA) (http://catalog.uwec.edu/undergraduate/outcome-ha/)	6 credit hours, 2 course min
Civics & Perspectives (CP) (http://catalog.uwec.edu/undergraduate/outcome-cp/)	6 credit hours, 2 course min
CGER Totals³	
Credits	minimum 36 credits
Courses	minimum 10 courses

¹ University Mathematics Requirement:

Students satisfy the University Mathematics Requirement in one of four ways:

- completing an approved university-level mathematics course (MQR) with a grade of C (not C-) or above
- achieving a suitable score on the UW Math Placement Test (<https://www.uwec.edu/academics/academic-support/advising/testing/placement-testing/>)
- achieving a suitable score on an exam such as the Advanced Placement Calculus or Advanced Placement Statistics exams
- achieving a suitable score on a Credit by Examination administered by the Department of Mathematics.

² University Writing Requirement:

Students satisfy the University Writing Requirement in one of four ways:

- completing a Blugold Seminar in Critical Reading and Writing course (WRIT 102 (<https://catalog.uwec.edu/search/?P=WRIT%20102>), WRIT 114 (<https://catalog.uwec.edu/search/?P=WRIT%20114>), WRIT 116 (<https://catalog.uwec.edu/search/?P=WRIT%20116>), WRIT 118 (<https://catalog.uwec.edu/search/?P=WRIT%20118>), or WRIT 120 (<https://catalog.uwec.edu/search/?P=WRIT%20120>)) with a grade of C (not C-) or above
- achieving a suitable score on the English Placement Test (<https://www.uwec.edu/academics/blugold-seminar/writ-courses-placement/>) (WPT ENGL)
- achieving a suitable score on an exam such as the Advanced Placement English Literature and Composition or Advanced Placement English Language and Composition exams
- achieving a suitable score on the University Writing Program Portfolio.

³ Completion via Placement Tests

- Writing: If the CL-W subcategory is satisfied through a placement test, the CGER Communication and Literacy requirement will be reduced from 8 credits (2 courses) to 3 credits (1 course).
- Mathematics: If the University Math Requirement is satisfied through a placement test, the CGER Mathematics & Quantitative Reasoning requirement will be considered fully met, replacing the 4-credit (1 course) requirement.

- Students must still complete 36 credits across 10 courses, with any remaining credits or courses eligible to be taken from any CGER category.

College Degree Requirements**Bachelor of Arts or Bachelor of Science Degree (B.A./B.S.)**

University Graduation Requirements. All candidates for degrees must fulfill the requirements for credits, curriculum, GPA, and University residency as specified in the section of this catalog titled University Graduation Requirements.

College Graduation Requirements: Grade Point Averages. All candidates for degrees in the College of Arts and Sciences must earn minimum resident and total GPAs of 2.00 in the major, the minor, and the certificate. The resident and total GPAs for the major are computed using all attempted credits applicable to the major including those offered by departments other than the major department. The resident and total GPAs for the minor and the certificate are computed similarly.

Major-Minor and Major-Certificate Requirements. A standard major (a minimum of 36 credits) must be supplemented by a minor (a minimum of 24 credits) or by a certificate (12 to 18 credits) to meet graduation requirements for completing a first and second degree program. No minor or certificate is required with a Comprehensive Major (60 or more credits) or with two majors of 36 or more credits each.

Certain degree programs, which include Comprehensive Majors, may require more than the minimum of 120 credits for graduation.

Acceptable academic program combinations are determined at the college level. A major and a minor or a major and certificate or two majors (if available) may not be elected in the same department or program, except in the approved combinations listed here.

College Credits. Earn at least 90 credits in courses offered by the College of Arts and Sciences.

Bachelor of Arts Degree in the College of Arts and Sciences (B.A.)

Fulfillment of all University Graduation Requirements (which includes the Core General Education Requirements); all College-level degree requirements (major and minor/certificate emphases, GPAs, earning at least 90 credits in Arts and Sciences course work); second language competency at the 102 level. Second language competency may be met in one of two ways: (1) Demonstrate a level of second language competency that qualifies the student to enter the 201-level course in a second language. (2) Earn a grade of at least C (not C-) or a mark of S in a 102-level second language course (or AIS 112 or AIS 122 or SLHS 103).

Bachelor of Science Degree in the College of Arts and Sciences (B.S.)

Fulfillment of all University Graduation Requirements (which includes the Core General Education Requirements); all College-level degree requirements (major and minor/certificate emphases, GPAs, earning at least 90 credits in Arts and Sciences course work); mathematics competency at the MATH 111, MATH 112 or MATH 113 level. Mathematics competency can be met in one of three ways:

- (1) Achieve a score on the mathematics placement test that qualifies the student to enter MATH 114.
- (2) Earn a grade of at least C (not C-) or a mark of S in MATH 111, MATH 112, or MATH 113.
- (3) Achieve a satisfactory score on the MATH 112 competency test. This test may be attempted no more than two times.

Major Requirements

Liberal Arts (Code 400-200)

Code	Title	Credits
Thirty-six semester credits, including:		
Eighteen credits from core courses:		18
PHIL 235	Ancient Philosophy	
PHIL 250	Symbolic Logic	
PHIL 316	Metaphysics	
or PHIL 317	Epistemology	
PHIL 331	Philosophical Ethics	
PHIL 335	Early Modern Philosophy	
PHIL 485	Seminar in Philosophy	
Eighteen credits from philosophy courses ^{1, 2, 3}		18

¹ PHIL 101 and PHIL 120 are disallowed for major credit if taken after the student has earned nine credits in philosophy.

² No more than three credits of PHIL 397 and PHIL 498 are allowed toward the major.

³ Upon approval of the department up to six credits from courses other than philosophy may be applied to the major.

Capstone: All philosophy majors shall complete a reflection paper, usually during the senior year, in which the student analyzes and reflects on his or her learning experiences as a philosophy major in light of the philosophy major's learning goals and outcomes.

Note: Students pursuing the Philosophy major and the Mental Health and Well-Being certificate to meet graduation requirements for completing a first and second degree program must earn a minimum of 48 unique credits between the major and the certificate.

Program Learning Outcomes

Students completing this program will be expected to meet the following learning outcomes:

- Demonstrate knowledge of the major questions, central methods, issues, figures, and arguments in the core areas of philosophy and its history.
- Employ the tools of formal and informal logic to identify, construct, analyze, evaluate, and respond to arguments.
- Approach questions of value with clarity, balance, open-mindedness, and rational rigor.
- Make connections across texts and philosophical traditions and/or between philosophy and everyday life.
- Read and interpret texts in accurate and philosophically sophisticated ways.
- Clearly articulate ideas and arguments in writing and speech.
- Engage in self-reflection and achieve greater self-understanding, exhibiting openness to alternative possibilities and conceptual frameworks.

Philosophy, Major, B.A.

The following is a sample degree plan, based on the current catalog. It is based on the 120-credit graduation requirement and assumes no transferred credits, no requirements waived by placement tests, no courses taken in the summer or winter, no repeated courses, and no remedial courses that may be required. This sample degree plan is intended for first-year students entering UW-Eau Claire in the fall semester. Your own degree plan may differ depending

on the course of study selected (second major, minor, etc.). UW-Eau Claire cannot guarantee all courses will be offered as shown, but will provide a range of courses that may enable prepared students to fulfill their requirements in a timely period. This sample degree plan is just a guide. Please consult your advisor, your degree audit, and the catalog to create your own degree plan. *Note:* In order to earn the required minimum of 120 credits for the degree in four years, you should plan to take 15 credits each semester or 30 credits each year.

To earn a degree, students must fulfill all University Graduation Requirements, including the Core General Education Requirements (CGER). CGER course work in the following sample degree plan uses abbreviations such as CGER CL, CGER HA, and CGER NSWL to represent the learning outcomes students will meet via completion of the course. Please click [here](#) for a description of the outcomes and requirements.

Students in this major have the option to pursue either a Bachelor of Arts (B.A.) or a Bachelor of Science (B.S.) degree. The degrees are distinguished by second language competency for the B.A. and a higher level of mathematics competency for the B.S.

SOME TIME IN THE FIRST YEAR

PHIL 101	Introduction to Philosophy (CGER HA) ^a	3
WRIT 114	Intensive Blugold Seminar in Critical Reading and Writing (CGER CL)	5
or WRIT 116	Blugold Seminar in Critical Reading and Writing	
CGER Option: Mathematics & Quantitative Reasoning (MQR)		4
CGER Option: Social & Behavioral Sciences (SBS)		3

TOTAL	30

Minimum total for the baccalaureate degree = 120 credits

- a PHIL 101 and PHIL 120 do not count toward the major if taken after the student has earned nine credits in philosophy
- b Typically offered in the Fall of even-numbered years
- c Typically offered in the Spring of even-numbered years
- d Suggested options for CGER outcome (CP): PHIL 280, PHIL 304, PHIL 305, PHIL 306, or PHIL 310. PHIL 280 counts toward the major
- e Suggested option for CGER outcome (HA): PHIL 377/WGSS 377 counts toward the major
- f Typically offered in the Spring of odd-numbered years
- g Typically offered in the Fall of odd-numbered years
- h Typically offered every fall

Note: Upon approval of the department, up to six credits from courses other than philosophy may be applied to the major (e.g., POLS 309, POLS 310, POLS 311).

RECOMMENDATIONS FOR HIGH IMPACT PRACTICES (HIPs)

The University of Wisconsin-Eau Claire encourages all students to participate in High Impact Practices. The following information identifies any specific recommendations that faculty in this major have concerning which HIPs might be most beneficial to students, and any recommendations about when those HIPs best fit into the degree plan. Students should also consult their faculty advisor for information on HIPs. There are many additional high impact opportunities available. Talk to your academic advisor for more information about incorporating HIPs like Study Abroad (<https://studyabroad.apps.uwec.edu/>), Intercultural Immersion (<https://www.uwec.edu/immersion/>), Internship (<https://www.uwec.edu/offices-services/advising-retention-career-center/career-services/internship/job-searching-and/>), and/or Student/Faculty Collaborative Research (<https://www.uwec.edu/offices-services/office-research-and-sponsored-programs/getting-involved-student-faculty-research/>) into your time at UW-Eau Claire.

Core General Education Requirements (CGER)

Core General Education Requirements (CGER)

The Core General Education Requirements (CGER) includes a minimum of 10 courses across 6 categories. Students must complete a minimum of 36 credits in courses approved for the CGER Core.

- Mathematics & Quantitative Reasoning (MQR) - 4 credits, one course minimum

- Includes the University Mathematics Requirement¹
- Communication & Literacy (CL) - 8 credits, two courses minimum
 - Includes the University Writing Requirement (CL-W)²
- Natural Sciences & Wellness (NSW/NSWL) - 6 credits, one course minimum (NSW-Lab required)
- Social & Behavioral Sciences (SBS) - 6 credits, two courses minimum
- Humanities & Arts (HA) - 6 credits, two courses minimum
- Civics & Perspectives (CP) - 6 credits, two courses minimum

¹ University Mathematics Requirement:

Students satisfy the University Mathematics Requirement in one of four ways:

- completing an approved university-level mathematics course (MQR) with a grade of C (not C-) or above
- achieving a suitable score on the UW Math Placement Test (<https://www.uwec.edu/academics/academic-support/advising/testing/placement-testing/>)
- achieving a suitable score on an exam such as the Advanced Placement Calculus or Advanced Placement Statistics exams
- achieving a suitable score on a Credit by Examination administered by the Department of Mathematics.

² University Writing Requirement:

Students satisfy the University Writing Requirement in one of four ways:

- completing a Blugold Seminar in Critical Reading and Writing course (WRIT 102 (<https://catalog.uwec.edu/search/?P=WRIT%20102>), WRIT 114 (<https://catalog.uwec.edu/search/?P=WRIT%20114>), WRIT 116 (<https://catalog.uwec.edu/search/?P=WRIT%20116>), WRIT 118 (<https://catalog.uwec.edu/search/?P=WRIT%20118>), or WRIT 120 (<https://catalog.uwec.edu/search/?P=WRIT%20120>)) with a grade of C (not C-) or above
- achieving a suitable score on the English Placement Test (<https://www.uwec.edu/academics/blugold-seminar/writ-courses-placement/>) (WPT ENGL)
- achieving a suitable score on an exam such as the Advanced Placement English Literature and Composition or Advanced Placement English Language and Composition exams
- achieving a suitable score on the University Writing Program Portfolio.

Completion via Placement Test

- Writing: If the CL-W subcategory is satisfied through a placement test, the CGER Communication and Literacy requirement will be reduced from 8 credits (2 courses) to 3 credits (1 course).
- Mathematics: If the University Math Requirement is satisfied through a placement test, the CGER Mathematics & Quantitative Reasoning requirement will be considered fully met, replacing the 4-credit (1 course) requirement.
- Students must still complete 36 credits across 10 courses, with any remaining credits or courses eligible to be taken from any CGER category.

Philosophy, Minor

Liberal Arts (Code 400-400)

Code	Title	Credits
Twenty-four semester credits, including:		
At least three credits from each of the following three categories, for a total of nine credits:		9
Logic:		

PHIL 150	Logic and Critical Thinking
PHIL 250	Symbolic Logic
History of Philosophy:	
PHIL 234	Classical Chinese Philosophy
PHIL 235	Ancient Philosophy
PHIL 335	Early Modern Philosophy
PHIL 338	Modern European Philosophy I
PHIL 339	Modern European Philosophy II
PHIL 340	Knowledge and Reality
Core Areas:	
PHIL 316	Metaphysics
PHIL 317	Epistemology
PHIL 331	Philosophical Ethics
Required:	
The remaining fifteen credits will be selected from philosophy courses ^{1, 2, 3}	
	15

¹ PHIL 101 and PHIL 120 are disallowed for minor credit if taken after the student has earned nine credits in philosophy.

² No more than three credits of PHIL 397 and PHIL 498 are allowed toward the minor.

³ Upon approval of the department up to six credits from courses other than philosophy may be applied to the minor.

All philosophy minors shall complete a reflection paper, usually during the senior year, in which the student analyzes and reflects on his or her learning experiences as a philosophy minor in light of the philosophy minor's learning goals and outcomes.

Program Learning Outcomes

Students completing this program will be expected to meet the following learning outcomes:

- Demonstrate knowledge of the major questions, central methods, issues, figures, and arguments in the core areas of philosophy and its history.
- Employ the tools of formal and informal logic to identify, construct, analyze, evaluate, and respond to arguments.
- Make connections across texts and philosophical traditions and/or between philosophy and everyday life.
- Clearly articulate ideas and arguments in writing and speech.
- Engage in self-reflection and achieve greater self-understanding, exhibiting openness to alternative possibilities and conceptual frameworks.

Religious Studies, Minor

Liberal Arts (Code 411-401)

Code	Title	Credits
Twenty-four semester credits, including:		
Three credits from core courses (to be taken by all minors before the completion of twelve credits of Religious Studies coursework):		3
RELS 100	Introduction to the Religions of the World	
RELS 110	Basic Issues in Religion	
RELS 210	Religion and Morality	

Monotheistic Religions:	
A minimum of six credits from:	
RELS 303	Early Christianity
RELS 304	Modern Christianity
RELS 307	Judaism
RELS 309	Islam
Asian Religions:	
A minimum of three credits from:	
RELS 312	Buddhism: Past and Present
RELS 323	Chinese and Japanese Religions
RELS 314	Hinduism
RELS 326	Asian Religious Philosophies
PHIL 234	Classical Chinese Philosophy

The remaining coursework may be taken from any Religious Studies courses, subject to the following restrictions:

RELS 100 and RELS 110 are disallowed for minor credit if taken after the student has earned twelve credits toward the minor.

A maximum of three credits from any combination of RELS 395, RELS 399, RELS 498, and RELS 499 may be counted toward the minor.

A maximum of three credits from any combination of RELS 396 and RELS 397 may be counted toward the minor.

Program Learning Outcomes

Students completing this program will be expected to meet the following learning outcomes:

- Demonstrate basic knowledge of the history, beliefs, practices, and values of the major western and non-western religious traditions.
- Deconstruct uniform conceptions of religious traditions through familiarity with the diversity of religious expression.
- Display empathetic non-judgmental engagement with alternative religious viewpoints.

World Religions, Certificate

(Code 411-601)

Advisor: S. Fink (Philosophy and Religious Studies).

The World Religions Certificate is intended for undergraduates outside of the Religious Studies major/minor who desire to enhance their marketability as potential graduate students and employees, whether their career goal is education, business, health care, psychology, music and the arts, the sciences, or the humanities. The World Religions certificate program offers students a foundational understanding of the beliefs, practices, and cultural impact of the world's major religious traditions that will enable them to negotiate the complex challenges of life in an increasingly interconnected and globalized world. The impact of religions on world events is undeniable, and students pursuing any disciplinary major can benefit greatly from the learning opportunities offered by this certificate program.

Code	Title	Credits
Students are required to complete a minimum of 15 credits, including:		
Three credits from:		3

RELS 100	Introduction to the Religions of the World	
RELS 110	Basic Issues in Religion	
RELS 210	Religion and Morality	
Six credits from Non-Western Concentration courses:		6
RELS 312	Buddhism: Past and Present	
RELS 314	Hinduism	
RELS 323	Chinese and Japanese Religions	
RELS/AIS 330	Indigenous Religions of the Americas	
Six credits from Western Concentration courses:		6
RELS 303	Early Christianity	
RELS 304	Modern Christianity	
RELS 307	Judaism	
RELS 309	Islam	
Total Credits		15

Note: A maximum of three credits may be applied to both the student's major and the certificate program. Students cannot pursue the Religious Studies Major and World Religions Certificate to meet graduation requirements for completing a first and second degree program.

Program Learning Outcomes

Students completing this program will be expected to meet the following learning outcomes:

- Demonstrate basic knowledge of the history, beliefs, practices, and values of the major western and non-western religious traditions.
- Deconstruct uniform conceptions of religious traditions through familiarity with the diversity of religious expression.
- Display empathetic non-judgmental engagement with alternative religious viewpoints.

Physics and Astronomy

Phillips 230

715-836-3148

Department Website (<https://www.uwec.edu/academics/college-arts-sciences/departments-programs/physics-astronomy/>)

Physics, the science of matter and energy, is the study of the deepest mysteries of our universe, ranging from subatomic particles to cosmology. Exploring ideas of space, time, matter, energy, and radiation, it serves as the basis for the physical sciences. Modern society is influenced by physics in countless ways, including recent developments in such fields as laser optics, miniaturized electronics, nuclear energy, and medical instrumentation.

Beyond the earth, astronomy applies the ideas of physics to the study of planets, stars, galaxies and all celestial phenomena within reach of our telescopes. Since the two areas share a vast array of common ideas and knowledge, new discoveries in physics often aid progress in astronomy and vice versa.

Special learning opportunities associated with the department include the Materials Science + Engineering Center (<https://www.uwec.edu/academics/college-arts-sciences/departments-programs/materials-science-engineering/materials-science-engineering-center/>), the L.E. Phillips Planetarium, and Hobbs Observatory at the Beaver Creek Reserve (www.beavercreekreserve.org (<http://www.beavercreekreserve.org>)).

Departmental Honors in Physics

Departmental Honors is a way for a student to experience the thrill of innovative research and discovery in an area of interest within Physics and Astronomy. One of the most significant benefits of Departmental Honors is that it fosters one-on-one interaction between students and professors, which substantially enhances a student's educational experience and serves as a springboard for excellence in graduate studies or professional employment after graduation.

Eligibility: Complete PHYS 332 and maintain both a resident GPA and a major GPA of at least 3.50.

Procedure: A written application for Departmental Honors in Physics and Astronomy must be approved by the student's academic advisor, the student's project advisor, and the chair of the Physics and Astronomy Department.

Requirements:

1. Complete the required courses for one of the three emphases for the Liberal Arts major in Physics.
2. Complete two courses selected from among

PHYS 367	Astrophysics	3
PHYS 375	Electromagnetic Fields	4
PHYS 415	Quantum Mechanics	4
PHYS 430	Advanced Laboratory Techniques	2
PHYS 445	Thermal Physics	4
3. Complete a significant scholarly activity and disseminate the results of the activity by completing a written research paper and presenting at an appropriate on-campus or off-campus venue (Physics Thursday, CERCA, Provost's Honors Symposium, etc.) or making a presentation at a professional meeting or publishing an article in a professional journal. The quality of the activity and dissemination will be evaluated by a three-member faculty panel. Upon approval by the panel, the student will receive the designation of Departmental Honors in Physics and Astronomy on his/her official transcript and a special notation in the graduation ceremony program.

University Requirements

GRADUATION REQUIREMENTS FOR BACCALAUREATE DEGREE

Credit Requirements	
Minimum total for graduation ¹	120
Upper division credits (courses numbered 300 and higher)	39
Core General Education	10 courses, 36 credits
Academic Concentrations	
Grade Point Requirements ²	
Total	2.00 average
Resident	2.00 average
Major	2.00 average
Minor	2.00 average
Certificate	2.00 average
University Residency Requirements	
Minimum total	30
Senior year	23
Major, Standard, upper division in residence	12
Major, Comprehensive, upper division in residence	21
Certificate	25 percent of credits

Procedures Required for Graduation

- Obtain admission to the degree program and/or the College offering it.
- Apply for graduation on CampS.

¹ Certain programs exceed this minimum.
² See special requirements in each College.

Applicability of Credits Toward Graduation

Junior College or Two-Year College Credits. A maximum of 72 semester credits earned in a junior college or two-year college will be accepted as degree credits at UW-Eau Claire.

Extension Credits. Credits earned in credit outreach courses offered by UW-Eau Claire are treated as resident credits. Credits earned in extension courses offered by other units of the Universities of Wisconsin System are treated as transfer credits. All other (non-UW) extension and correspondence credits are

normally limited to one-fourth of the total required for graduation from any curriculum.

WTCS Credits. A maximum of 72 semester credits earned in college parallel programs at Madison Area Technical College, Milwaukee Area Technical College, Nicolet Area Technical College, or Chippewa Valley Technical College may be accepted as degree credits at UW-Eau Claire. A set number of general education courses will be accepted from other technical schools. Occupational and technical courses may also be considered for transfer if the quality and content of the course work from the technical college is judged to be comparable to course work at UW-Eau Claire. Refer to the Transfer Credit Wizard (https://www.uwec.sis.wisconsin.edu/psp/eauprd-tb/EMPLOYEE/SA/c/EAU_SS_CUSTOM.EAU_TRNCRDWZ.GBL) or contact the UW-Eau Claire Admissions Office for information about the current transfer policy.

USAFI Credit. UW-Eau Claire will accept up to 32 semester credits for work done through the United States Armed Forces Institute, under the provision for non-UW correspondence credit (see Extension Credits above).

Activity Credit (band, chorus, drama, KINS 100-184 courses) Students may count toward graduation no more than one credit of KINS 110-184 courses. Students may count toward graduation no more than four credits earned in any single activity course and no more than 12 credits resulting from any combination of activity courses (excluding KINS 110-184 courses).

Other Restricted Credits. For other University restrictions, see the following: Cooperative Education; Credit by Examination; Satisfactory/Unsatisfactory Registration; Transfer of Credits. College or departmental restrictions may also be placed on Independent Study (399-499 courses), Directed Study (395-495), and other types of credits.

APPLICABILITY OF CREDITS TOWARD GRADUATION	Credit Restrictions
Satisfactory/Unsatisfactory	
Total degree credit	maximum 12
Major, Standard	maximum 1 course
Major, Comprehensive	maximum 2 courses
Minor	maximum 1 course
Credit by Examination	
Total degree credit	maximum ¼ of total
Major or minor	maximum ½ of total
Two-Year College Credits	
Total degree credit	maximum 72 credits
Activity credit (band, chorus, drama, KINS 100-184)	
Total KINS 100-184	maximum 1 credit
Total Band, chorus, drama	maximum 12 credits
Single course band, chorus, drama	maximum 4 credits
Extension credits	
UW-System	no maximum
Other extension/correspondence	maximum ¼ of total

USAFI

USAFI	maximum 32 credits

Core General Education Requirements (CGER)

CGER Categories

Mathematics & Quantitative Reasoning (MQR) (http://catalog.uwec.edu/undergraduate/outcome-mqr/)	4 credit hours, 1 course min

Includes University Math Requirement ¹

Communication & Literacy (CL) (http://catalog.uwec.edu/undergraduate/outcome-cl/)	8 credit hours, 2 course min (including CL-W)

Includes University Writing Requirement (CL-W) (<http://catalog.uwec.edu/undergraduate/outcome-clw/>) ²

Natural Sciences & Wellness (NSW/NSWL) (http://catalog.uwec.edu/undergraduate/outcome-NSW/)	6 credit hours, 1 course min (NSW-Lab required)

Social & Behavioral Sciences (SBS) (https://catalog.uwec.edu/undergraduate/outcome-sbs/)	6 credit hours, 2 course min

Humanities & Arts (HA) (http://catalog.uwec.edu/undergraduate/outcome-ha/)	6 credit hours, 2 course min

Civics & Perspectives (CP) (http://catalog.uwec.edu/undergraduate/outcome-cp/)	6 credit hours, 2 course min

CGER Totals ³

Credits	minimum 36 credits

Courses	minimum 10 courses

¹ **University Mathematics Requirement:**

Students satisfy the University Mathematics Requirement in one of four ways:

- completing an approved university-level mathematics course (MQR) with a grade of C (not C-) or above
- achieving a suitable score on the UW Math Placement Test (<https://www.uwec.edu/academics/academic-support/advising/testing/placement-testing/>)
- achieving a suitable score on an exam such as the Advanced Placement Calculus or Advanced Placement Statistics exams
- achieving a suitable score on a Credit by Examination administered by the Department of Mathematics.

² **University Writing Requirement:**

Students satisfy the University Writing Requirement in one of four ways:

- completing a Blugold Seminar in Critical Reading and Writing course (WRIT 102 (<https://catalog.uwec.edu/search/?P=WRIT%20102>), WRIT 114 (<https://catalog.uwec.edu/search/?P=WRIT%20114>), WRIT 116 (<https://catalog.uwec.edu/search/?P=WRIT%20116>), WRIT 118 (<https://catalog.uwec.edu/search/?P=WRIT%20118>), or WRIT 120 (<https://catalog.uwec.edu/search/?P=WRIT%20120>)) with a grade of C (not C-) or above
- achieving a suitable score on the English Placement Test (<https://www.uwec.edu/academics/blugold-seminar/writ-courses-placement/>) (WPT ENGL)

- achieving a suitable score on an exam such as the Advanced Placement English Literature and Composition or Advanced Placement English Language and Composition exams
- achieving a suitable score on the University Writing Program Portfolio.

³ **Completion via Placement Tests**

- Writing: If the CL-W subcategory is satisfied through a placement test, the CGER Communication and Literacy requirement will be reduced from 8 credits (2 courses) to 3 credits (1 course).
- Mathematics: If the University Math Requirement is satisfied through a placement test, the CGER Mathematics & Quantitative Reasoning requirement will be considered fully met, replacing the 4-credit (1 course) requirement.
- Students must still complete 36 credits across 10 courses, with any remaining credits or courses eligible to be taken from any CGER category.

College Degree Requirements

Bachelor of Arts or Bachelor of Science Degree (B.A./B.S.)

University Graduation Requirements. All candidates for degrees must fulfill the requirements for credits, curriculum, GPA, and University residency as specified in the section of this catalog titled University Graduation Requirements.

College Graduation Requirements: Grade Point Averages. All candidates for degrees in the College of Arts and Sciences must earn minimum resident and total GPAs of 2.00 in the major, the minor, and the certificate. The resident and total GPAs for the major are computed using all attempted credits applicable to the major including those offered by departments other than the major department. The resident and total GPAs for the minor and the certificate are computed similarly.

Major-Minor and Major-Certificate Requirements. A standard major (a minimum of 36 credits) must be supplemented by a minor (a minimum of 24 credits) or by a certificate (12 to 18 credits) to meet graduation requirements for completing a first and second degree program. No minor or certificate is required with a Comprehensive Major (60 or more credits) or with two majors of 36 or more credits each.

Certain degree programs, which include Comprehensive Majors, may require more than the minimum of 120 credits for graduation.

Acceptable academic program combinations are determined at the college level. A major and a minor or a major and certificate or two majors (if available) may not be elected in the same department or program, except in the approved combinations listed here.

College Credits. Earn at least 90 credits in courses offered by the College of Arts and Sciences.

Bachelor of Arts Degree in the College of Arts and Sciences (B.A.)

Fulfillment of all University Graduation Requirements (which includes the Core General Education Requirements); all College-level degree requirements (major and minor/certificate emphases, GPAs, earning at least 90 credits in Arts and Sciences course work); second language competency at the 102 level. Second language competency may be met in one of two ways: (1) Demonstrate a level of second language competency that qualifies the student to enter the 201-level course in a second language. (2) Earn a grade of at least C (not C-)

or a mark of S in a 102-level second language course (or AIS 112 or AIS 122 or SLHS 103).

Bachelor of Science Degree in the College of Arts and Sciences (B.S.)

Fulfillment of all University Graduation Requirements (which includes the Core General Education Requirements); all College-level degree requirements (major and minor/certificate emphases, GPAs, earning at least 90 credits in Arts and Sciences course work); mathematics competency at the MATH 111, MATH 112 or MATH 113 level. Mathematics competency can be met in one of three ways:

(1) Achieve a score on the mathematics placement test that qualifies the student to enter MATH 114. (2) Earn a grade of at least C (not C-) or a mark of S in MATH 111, MATH 112, or MATH 113. (3) Achieve a satisfactory score on the MATH 112 competency test. This test may be attempted no more than two times.

Major Requirements

Liberal Arts (Code 230-201)

The Liberal Arts emphasis is the traditional physics major, providing preparation for graduate school as well as a broad range of careers in business and industry following completion of the baccalaureate degree.

Code	Title	Credits
The Liberal Arts Emphasis requires 36 credits of physics coursework including:		
PHYS 186	Introductory Seminar	0.5
PHYS 231	University Physics I	5
PHYS 232	University Physics II	5
PHYS 332	University Physics III	4
PHYS 350	Electric and Electronic Circuits	4
PHYS 340	Optics	4
or PHYS 360	Electronics	
PHYS 365	Theoretical Mechanics	4
Select one of the following:		4
PHYS 375	Electromagnetic Fields	
or PHYS 415	Quantum Mechanics	
or PHYS 445	Thermal Physics	
PHYS 486	Senior Seminar	0.5

The remaining Physics credits are to be selected from any physics course above 325 (including PHYS 374/MSE 374) and MSE 315, MSE 357, MSE 372, and MSE 451.

Required courses not counted toward credits in major:

MATH 312	Differential Equations and Linear Algebra
PHYS 240	Computational Physics ¹
or CS 163	Introduction to Programming in C++
or CS 170	Computing for the Sciences and Mathematics

¹ Many upper division physics courses require proficiency in Python so PHYS 240 is preferred. If CS 163 or CS 170 is taken, Python proficiency will be required prior to enrollment in relevant upper division physics courses. Contact the department to complete the required programming exercise.

Chemistry (CHEM 115 or CHEM 105, CHEM 106, and CHEM 109 or CHEM 108 and CHEM 109) is strongly recommended.

NOTE 1: An approved research project must be completed prior to PHYS 486 (see PHYS 486 course description for details).

NOTE 2: A maximum of six credits of any combination of PHYS 399, PHYS 491, and PHYS 499 can be counted toward the major.

NOTE 3: Limit of 3 credits of PHYS 495 counted toward major.

Program Learning Outcomes

Students completing this program will be expected to meet the following learning outcomes:

- Qualitatively describe natural phenomena and man-made devices in terms of the basic laws of physics in areas of classical mechanics, thermodynamics, electromagnetism, optics, electronic circuits, quantum physics, and special relativity.
- Convert a physical situation described in English into a mathematical model.
- Apply the mathematical tools commonly used in physics to obtain analytical and numerical solutions to problems modeling physical situations.
- Design experiments and demonstrate the ability to use measurement technology, computational tools, and statistical techniques to collect and analyze data.
- Communicate verbally, graphically, and in writing the results of theoretical analysis, numerical computations, and laboratory experiments in a clear and concise manner that incorporates the stylistic conventions used by physicists worldwide.
- Synthesize appropriate concepts and methods from different courses in the solutions of problems and apply physical and mathematical principles across disciplinary boundaries.
- Solve Schrödinger's equation for a number of physically important problems.
- Solve a number of physically important problems using noninertial reference frames.

Physics, Liberal Arts Emphasis, Major, B.S.

The following is a sample degree plan, based on the current catalog. It is based on the 120-credit graduation requirement and assumes no transferred credits, no requirements waived by placement tests, no courses taken in the summer or winter, no repeated courses, and no remedial courses that may be required. This sample degree plan is intended for first-year students entering UW-Eau Claire in the fall semester. Your own degree plan may differ depending on the course of study selected (second major, minor, etc.). UW-Eau Claire cannot guarantee all courses will be offered as shown, but will provide a range of courses that may enable prepared students to fulfill their requirements in a timely period. This sample degree plan is just a guide. Please consult your advisor, your degree audit, and the catalog to create your own degree plan. *Note:* In order to earn the required minimum of 120 credits for the degree in four years, you should plan to take 15 credits each semester or 30 credits each year.

To earn a degree, students must fulfill all University Graduation Requirements, including the Core General Education Requirements (CGER). CGER course work in the following sample degree plan uses abbreviations such as CGER CL, CGER HA, and CGER NSWL to represent the learning outcomes students will meet via completion of the course. Please click here for a description of the outcomes and requirements.

Students in this major have the option to pursue either a Bachelor of Arts (B.A.) or a Bachelor of Science (B.S.) degree. The degrees are distinguished by

second language competency for the B.A. and a higher level of mathematics competency for the B.S.

FIRST YEAR**FIRST SEMESTER**

MATH 114	Calculus I (CGER MQR)	4
PHYS 186	Introductory Seminar ^a	0.5
PHYS 231	University Physics I (CGER NSWL)	5
WRIT 114	Intensive Blugold Seminar in Critical Reading and Writing (CGER CL)	5
or WRIT 116	Blugold Seminar in Critical Reading and Writing	

SECOND SEMESTER

PHYS 240	Computational Physics	3
MATH 215	Calculus II	4
PHYS 232	University Physics II	5
CGER Option: Humanities & Arts (HA)		3
or CGER Option: Civics & Perspectives (CP)		
TOTAL		29.5

SECOND YEAR**FIRST SEMESTER**

MATH 216	Calculus III	4
PHYS 332	University Physics III	4
PHYS 350	Electric and Electronic Circuits ^a	4
CGER Option: Communication & Literacy (CL)		3

SECOND SEMESTER

MATH 312	Differential Equations and Linear Algebra	4
PHYS 340	Optics ^b	4
Minor		3
CGER Option: Humanities & Arts (HA)		3
or CGER Option: Civics & Perspectives (CP)

Elective		3

SECOND SEMESTER

Physics Elective - See elective list ^c		4
CGER Option: Natural Sciences & Wellness (NSW)		3
CGER Option: Social & Behavioral Sciences (SBS)		3
or CGER Option: Civics & Perspectives (CP)		
Minor		3
Minor		3
TOTAL		32

FOURTH YEAR**FIRST SEMESTER**

Physics Elective - See elective list ^c		4
PHYS 486	Senior Seminar ^a	.5

CGER Option: Humanities & Arts (HA)	3
Minor	3
Electives ^d	6

SECOND SEMESTER

Physics Elective - See elective list ^c	4
Minor	3
Minor	3
Electives ^d	6
TOTAL	32.5

Minimum total for the baccalaureate degree = 120 credits

a Offered only in fall semesters.

b Offered only in spring semesters.

c Select from the following: any physics course numbered 325 or higher, including PHYS 374/MSE 374 and MSE 315, MSE 357, MSE 372, and MSE 451.

d Electives need to be carefully selected to ensure that a student's degree comprises at least 39 credits of upper division courses (300-400 level).

RECOMMENDATIONS FOR HIGH IMPACT PRACTICES (HIPs)

The University of Wisconsin-Eau Claire encourages all students to participate in High Impact Practices. The following information identifies any specific recommendations that faculty in this major have concerning which HIPs might be most beneficial to students, and any recommendations about when those HIPs best fit into the degree plan. Students should also consult their faculty advisor for information on HIPs. There are many additional high impact opportunities available. Talk to your academic advisor for more information about incorporating HIPs like Study Abroad (<https://studyabroad.apps.uwec.edu/>), Intercultural Immersion (<https://www.uwec.edu/immersion/>), Internship (<https://www.uwec.edu/offices-services/advising-retention-career-center/career-services/internship/job-searching-and/>), and/or Student/Faculty Collaborative Research (<https://www.uwec.edu/offices-services/office-research-and-sponsored-programs/getting-involved-student-faculty-research/>) into your time at UW-Eau Claire.

Core General Education Requirements (CGER)**Core General Education Requirements (CGER)**

The Core General Education Requirements (CGER) includes a minimum of 10 courses across 6 categories. Students must complete a minimum of 36 credits in courses approved for the CGER Core.

- Mathematics & Quantitative Reasoning (MQR) - 4 credits, one course minimum
 - Includes the University Mathematics Requirement¹
- Communication & Literacy (CL) - 8 credits, two courses minimum
 - Includes the University Writing Requirement (CL-W)²
- Natural Sciences & Wellness (NSW/NSWL) - 6 credits, one course minimum (NSW-Lab required)
- Social & Behavioral Sciences (SBS) - 6 credits, two courses minimum
- Humanities & Arts (HA) - 6 credits, two courses minimum
- Civics & Perspectives (CP) - 6 credits, two courses minimum

¹ **University Mathematics Requirement:**

Students satisfy the University Mathematics Requirement in one of four ways:

- completing an approved university-level mathematics course (MQR) with a grade of C (not C-) or above

- achieving a suitable score on the UW Math Placement Test (<https://www.uwec.edu/academics/academic-support/advising/testing/placement-testing/>)
- achieving a suitable score on an exam such as the Advanced Placement Calculus or Advanced Placement Statistics exams
- achieving a suitable score on a Credit by Examination administered by the Department of Mathematics.

² **University Writing Requirement:**

Students satisfy the University Writing Requirement in one of four ways:

- completing a Blugold Seminar in Critical Reading and Writing course (WRIT 102 (<https://catalog.uwec.edu/search/?P=WRIT%20102>), WRIT 114 (<https://catalog.uwec.edu/search/?P=WRIT%20114>), WRIT 116 (<https://catalog.uwec.edu/search/?P=WRIT%20116>), WRIT 118 (<https://catalog.uwec.edu/search/?P=WRIT%20118>), or WRIT 120 (<https://catalog.uwec.edu/search/?P=WRIT%20120>)) with a grade of C (not C-) or above
- achieving a suitable score on the English Placement Test (<https://www.uwec.edu/academics/blugold-seminar/writ-courses-placement/>) (WPT ENGL)
- achieving a suitable score on an exam such as the Advanced Placement English Literature and Composition or Advanced Placement English Language and Composition exams
- achieving a suitable score on the University Writing Program Portfolio.

Completion via Placement Test

- Writing: If the CL-W subcategory is satisfied through a placement test, the CGER Communication and Literacy requirement will be reduced from 8 credits (2 courses) to 3 credits (1 course).
- Mathematics: If the University Math Requirement is satisfied through a placement test, the CGER Mathematics & Quantitative Reasoning requirement will be considered fully met, replacing the 4-credit (1 course) requirement.
- Students must still complete 36 credits across 10 courses, with any remaining credits or courses eligible to be taken from any CGER category.

Includes University Math Requirement ¹	
Communication & Literacy (CL) (http://catalog.uwec.edu/undergraduate/outcome-cl/)	8 credit hours, 2 course min (including CL-W)
Includes University Writing Requirement (CL-W) (http://catalog.uwec.edu/undergraduate/outcome-clw/) ²	
Natural Sciences & Wellness (NSW/NSWL) (http://catalog.uwec.edu/undergraduate/outcome-NSW/)	6 credit hours, 1 course min (NSW-Lab required)
Social & Behavioral Sciences (SBS) (https://catalog.uwec.edu/undergraduate/outcome-sbs/)	6 credit hours, 2 course min
Humanities & Arts (HA) (http://catalog.uwec.edu/undergraduate/outcome-ha/)	6 credit hours, 2 course min
Civics & Perspectives (CP) (http://catalog.uwec.edu/undergraduate/outcome-cp/)	6 credit hours, 2 course min
CGER Totals ³	
Credits	minimum 36 credits
Courses	minimum 10 courses

¹ **University Mathematics Requirement:**

Students satisfy the University Mathematics Requirement in one of four ways:

- completing an approved university-level mathematics course (MQR) with a grade of C (not C-) or above
- achieving a suitable score on the UW Math Placement Test (<https://www.uwec.edu/academics/academic-support/advising/testing/placement-testing/>)
- achieving a suitable score on an exam such as the Advanced Placement Calculus or Advanced Placement Statistics exams
- achieving a suitable score on a Credit by Examination administered by the Department of Mathematics.

² **University Writing Requirement:**

Students satisfy the University Writing Requirement in one of four ways:

- completing a Blugold Seminar in Critical Reading and Writing course (WRIT 102 (<https://catalog.uwec.edu/search/?P=WRIT%20102>), WRIT 114 (<https://catalog.uwec.edu/search/?P=WRIT%20114>), WRIT 116 (<https://catalog.uwec.edu/search/?P=WRIT%20116>), WRIT 118 (<https://catalog.uwec.edu/search/?P=WRIT%20118>), or WRIT 120 (<https://catalog.uwec.edu/search/?P=WRIT%20120>)) with a grade of C (not C-) or above
- achieving a suitable score on the English Placement Test (<https://www.uwec.edu/academics/blugold-seminar/writ-courses-placement/>) (WPT ENGL)
- achieving a suitable score on an exam such as the Advanced Placement English Literature and Composition or Advanced Placement English Language and Composition exams
- achieving a suitable score on the University Writing Program Portfolio.

³ **Completion via Placement Tests**

- Writing: If the CL-W subcategory is satisfied through a placement test, the CGER Communication and Literacy requirement will be reduced from 8 credits (2 courses) to 3 credits (1 course).
- Mathematics: If the University Math Requirement is satisfied through a placement test, the CGER Mathematics & Quantitative Reasoning requirement will be considered fully met, replacing the 4-credit (1 course) requirement.
- Students must still complete 36 credits across 10 courses, with any remaining credits or courses eligible to be taken from any CGER category.

College Degree Requirements

Bachelor of Arts or Bachelor of Science Degree (B.A./B.S.)

University Graduation Requirements. All candidates for degrees must fulfill the requirements for credits, curriculum, GPA, and University residency as specified in the section of this catalog titled University Graduation Requirements.

College Graduation Requirements: Grade Point Averages. All candidates for degrees in the College of Arts and Sciences must earn minimum resident and total GPAs of 2.00 in the major, the minor, and the certificate. The resident and total GPAs for the major are computed using all attempted credits applicable to the major including those offered by departments other than the major department. The resident and total GPAs for the minor and the certificate are computed similarly.

Major-Minor and Major-Certificate Requirements. A standard major (a minimum of 36 credits) must be supplemented by a minor (a minimum of 24 credits) or by a certificate (12 to 18 credits) to meet graduation requirements for completing a first and second degree program. No minor or certificate is

required with a Comprehensive Major (60 or more credits) or with two majors of 36 or more credits each.

Certain degree programs, which include Comprehensive Majors, may require more than the minimum of 120 credits for graduation.

Acceptable academic program combinations are determined at the college level. A major and a minor or a major and certificate or two majors (if available) may not be elected in the same department or program, except in the approved combinations listed here.

College Credits. Earn at least 90 credits in courses offered by the College of Arts and Sciences.

Bachelor of Arts Degree in the College of Arts and Sciences (B.A.)

Fulfillment of all University Graduation Requirements (which includes the Core General Education Requirements); all College-level degree requirements (major and minor/certificate emphases, GPAs, earning at least 90 credits in Arts and Sciences course work); second language competency at the 102 level. Second language competency may be met in one of two ways: (1) Demonstrate a level of second language competency that qualifies the student to enter the 201-level course in a second language. (2) Earn a grade of at least C (not C-) or a mark of S in a 102-level second language course (or AIS 112 or AIS 122 or SLHS 103).

Bachelor of Science Degree in the College of Arts and Sciences (B.S.)

Fulfillment of all University Graduation Requirements (which includes the Core General Education Requirements); all College-level degree requirements (major and minor/certificate emphases, GPAs, earning at least 90 credits in Arts and Sciences course work); mathematics competency at the MATH 111, MATH 112 or MATH 113 level. Mathematics competency can be met in one of three ways: (1) Achieve a score on the mathematics placement test that qualifies the student to enter MATH 114. (2) Earn a grade of at least C (not C-) or a mark of S in MATH 111, MATH 112, or MATH 113. (3) Achieve a satisfactory score on the MATH 112 competency test. This test may be attempted no more than two times.

Major Requirements

Liberal Arts (Code 230-203)

This emphasis focuses on physics applications of relevance to industrial and engineering employment environments following completion of the baccalaureate degree.

Code	Title	Credits
The Applied Physics Emphasis requires 36 credits of physics coursework including:		
MSE 120 or PHYS 186	Introduction to Engineering Introductory Seminar	0.5-2
PHYS 231	University Physics I	5
PHYS 232	University Physics II	5
PHYS 332	University Physics III	4
PHYS 340	Optics	4
PHYS 350	Electric and Electronic Circuits	4
PHYS 360	Electronics	4
Select one of the following:		
PHYS 255 & PHYS 356	Statics and Dynamics	
PHYS 365	Theoretical Mechanics	

PHYS 375	Electromagnetic Fields	
PHYS 430	Advanced Laboratory Techniques	2
PHYS 486	Senior Seminar	0.5

The remaining Physics credits are to be selected from any physics course above 325 (including PHYS 374/MSE 374) and MSE 315, MSE 357, MSE 372, and MSE 451.

Required courses not counted toward credits in major:

MATH 312	Differential Equations and Linear Algebra
MATH 345	Introduction to Probability and Mathematical Statistics
PHYS 240 or CS 163 or CS 170	Computational Physics ¹ Introduction to Programming in C++ Computing for the Sciences and Mathematics

Select one of the following:

CHEM 115	Chemical Principles
CHEM 108 & CHEM 109	General Chemistry I and General Chemistry II
CHEM 105 & CHEM 106 & CHEM 109	General Chemistry I Lecture and General Chemistry I Laboratory and General Chemistry II

¹ Many upper division physics courses require proficiency in Python so PHYS 240 is preferred. If CS 163 or CS 170 is taken, Python proficiency will be required prior to enrollment in relevant upper division physics courses. Contact the department to complete the required programming exercise.

NOTE 1: An approved research project must be completed prior to PHYS 486 (see PHYS 486 course description for details)

NOTE 2: A maximum of six credits of any combination of PHYS 399, PHYS 491, and PHYS 499 can be counted toward the major.

NOTE 3: Limit of 3 credits of PHYS 495 counted toward major.

Program Learning Outcomes

Students completing this program will be expected to meet the following learning outcomes:

- Qualitatively describe natural phenomena and man-made devices in terms of the basic laws of physics in areas of classical mechanics, thermodynamics, electromagnetism, optics, electronic circuits, quantum physics, and special relativity.
- Convert a physical situation described in English into a mathematical model.
- Apply the mathematical tools commonly used in physics to obtain analytical and numerical solutions to problems modeling physical situations.
- Design experiments and demonstrate the ability to use measurement technology, computational tools, and statistical techniques to collect and analyze data.
- Communicate verbally, graphically, and in writing the results of theoretical analysis, numerical computations, and laboratory experiments in a clear and concise manner that incorporates the stylistic conventions used by physicists worldwide.
- Synthesize appropriate concepts and methods from different courses in the solutions of problems and apply physical and mathematical principles across disciplinary boundaries.

- Use microcontrollers and electronic sensors to build devices to perform specific tasks.

Physics, Applied Physics Emphasis, Major, B.S.

The following is a sample degree plan, based on the current catalog. It is based on the 120-credit graduation requirement and assumes no transferred credits, no requirements waived by placement tests, no courses taken in the summer or winter, no repeated courses, and no remedial courses that may be required. This sample degree plan is intended for first-year students entering UW-Eau Claire in the fall semester. Your own degree plan may differ depending on the course of study selected (second major, minor, etc.). UW-Eau Claire cannot guarantee all courses will be offered as shown, but will provide a range of courses that may enable prepared students to fulfill their requirements in a timely period. This sample degree plan is just a guide. Please consult your advisor, your degree audit, and the catalog to create your own degree plan. *Note:* In order to earn the required minimum of 120 credits for the degree in four years, you should plan to take 15 credits each semester or 30 credits each year.

To earn a degree, students must fulfill all University Graduation Requirements, including the Core General Education Requirements (CGER). CGER course work in the following sample degree plan uses abbreviations such as CGER CL, CGER HA, and CGER NSWL to represent the learning outcomes students will meet via completion of the course. Please click here for a description of the outcomes and requirements.

Students in this major have the option to pursue either a Bachelor of Arts (B.A.) or a Bachelor of Science (B.S.) degree. The degrees are distinguished by second language competency for the B.A. and a higher level of mathematics competency for the B.S.

FIRST YEAR

FIRST SEMESTER

TOTAL 29.5

Minimum total for the baccalaureate degree = 120 credits

a Offered only in fall semesters.

b Offered only in spring semesters.

c Electives need to be carefully selected to ensure that a student's degree comprises at least 39 credits of upper division courses (300-400 level).

d Select from the following: any physics course numbered 325 or higher, including PHYS 374/MSE 374 and MSE 315, MSE 357, MSE 372, and MSE 451.

RECOMMENDATIONS FOR HIGH IMPACT PRACTICES (HIPs)

The University of Wisconsin-Eau Claire encourages all students to participate in High Impact Practices. The following information identifies any specific recommendations that faculty in this major have concerning which HIPs might be most beneficial to students, and any recommendations about when those HIPs best fit into the degree plan. Students should also consult their faculty advisor for information on HIPs. There are many additional high impact opportunities available. Talk to your academic advisor for more information about incorporating HIPs like Study Abroad (<https://studyabroad.apps.uwec.edu/>), Intercultural Immersion (<https://www.uwec.edu/immersion/>), Internship (<https://www.uwec.edu/offices-services/advising-retention-career-center/career-services/internship/job-searching-and/>), and/or Student/Faculty Collaborative Research (<https://www.uwec.edu/offices-services/office-research-and-sponsored-programs/getting-involved-student-faculty-research/>) into your time at UW-Eau Claire.

Core General Education Requirements (CGER)

Core General Education Requirements (CGER)

The Core General Education Requirements (CGER) includes a minimum of 10 courses across 6 categories. Students must complete a minimum of 36 credits in courses approved for the CGER Core.

- Mathematics & Quantitative Reasoning (MQR) - 4 credits, one course minimum
 - Includes the University Mathematics Requirement¹
- Communication & Literacy (CL) - 8 credits, two courses minimum
 - Includes the University Writing Requirement (CL-W)²
- Natural Sciences & Wellness (NSW/NSWL) - 6 credits, one course minimum (NSW-Lab required)
- Social & Behavioral Sciences (SBS) - 6 credits, two courses minimum
- Humanities & Arts (HA) - 6 credits, two courses minimum
- Civics & Perspectives (CP) - 6 credits, two courses minimum

¹ University Mathematics Requirement:

- Students satisfy the University Mathematics Requirement in one of four ways:
- completing an approved university-level mathematics course (MQR) with a grade of C (not C-) or above
 - achieving a suitable score on the UW Math Placement Test (<https://www.uwec.edu/academics/academic-support/advising/testing/placement-testing/>)
 - achieving a suitable score on an exam such as the Advanced Placement Calculus or Advanced Placement Statistics exams
 - achieving a suitable score on a Credit by Examination administered by the Department of Mathematics.

² University Writing Requirement:

- Students satisfy the University Writing Requirement in one of four ways:
- completing a Blugold Seminar in Critical Reading and Writing course (WRIT 102 (<https://catalog.uwec.edu/search/?P=WRIT%20102>), WRIT 114 (<https://catalog.uwec.edu/search/?P=WRIT%20114>), WRIT 116 (<https://catalog.uwec.edu/search/?P=WRIT%20116>), WRIT 118 (<https://catalog.uwec.edu/search/?P=WRIT%20118>), or WRIT 120 (<https://catalog.uwec.edu/search/?P=WRIT%20120>)) with a grade of C (not C-) or above
 - achieving a suitable score on the English Placement Test (<https://www.uwec.edu/academics/blugold-seminar/writ-courses-placement/>) (WPT ENGL)
 - achieving a suitable score on an exam such as the Advanced Placement English Literature and Composition or Advanced Placement English Language and Composition exams
 - achieving a suitable score on the University Writing Program Portfolio.

Completion via Placement Test

- Writing: If the CL-W subcategory is satisfied through a placement test, the CGER Communication and Literacy requirement will be reduced from 8 credits (2 courses) to 3 credits (1 course).
- Mathematics: If the University Math Requirement is satisfied through a placement test, the CGER Mathematics & Quantitative Reasoning requirement will be considered fully met, replacing the 4-credit (1 course) requirement.
- Students must still complete 36 credits across 10 courses, with any remaining credits or courses eligible to be taken from any CGER category.

Physics, Astrophysics Emphasis, Major

Liberal Arts (Code 230-207)

University Requirements

GRADUATION REQUIREMENTS FOR BACCALAUREATE DEGREE

Credit Requirements	
Minimum total for graduation ¹	120
Upper division credits (courses numbered 300 and higher)	39
Core General Education	10 courses, 36 credits
Academic Concentrations	
Grade Point Requirements ²	
Total	2.00 average
Resident	2.00 average
Major	2.00 average
Minor	2.00 average
Certificate	2.00 average
University Residency Requirements	
Minimum total	30
Senior year	23
Major, Standard, upper division in residence	12
Major, Comprehensive, upper division in residence	21
Certificate	25 percent of credits
Procedures Required for Graduation	
Obtain admission to the degree program and/or the College offering it.	
Apply for graduation on CampS.	

¹ Certain programs exceed this minimum.
² See special requirements in each College.

Applicability of Credits Toward Graduation

Junior College or Two-Year College Credits. A maximum of 72 semester credits earned in a junior college or two-year college will be accepted as degree credits at UW-Eau Claire.

Extension Credits. Credits earned in credit outreach courses offered by UW-Eau Claire are treated as resident credits. Credits earned in extension courses offered by other units of the Universities of Wisconsin System are treated as transfer credits. All other (non-UW) extension and correspondence credits are normally limited to one-fourth of the total required for graduation from any curriculum.

WTCS Credits. A maximum of 72 semester credits earned in college parallel programs at Madison Area Technical College, Milwaukee Area Technical College, Nicolet Area Technical College, or Chippewa Valley Technical College may be accepted as degree credits at UW-Eau Claire. A set number of general education courses will be accepted from other technical schools. Occupational and technical courses may also be considered for transfer if the quality and content of the course work from the technical college is judged to be comparable to course work at UW-Eau Claire. Refer to the Transfer Credit Wizard (<https://www.uwec.sis.wisconsin.edu/psp/eauprd-tb/EMPLOYEE/>)

SA/c/EAU_SS_CUSTOM.EAU_TRNCRDWZ.GBL) or contact the UW-Eau Claire Admissions Office for information about the current transfer policy.

USAFI Credit. UW-Eau Claire will accept up to 32 semester credits for work done through the United States Armed Forces Institute, under the provision for non-UW correspondence credit (see Extension Credits above).

Activity Credit (band, chorus, drama, KINS 100-184 courses) Students may count toward graduation no more than one credit of KINS 110-184 courses. Students may count toward graduation no more than four credits earned in any single activity course and no more than 12 credits resulting from any combination of activity courses (excluding KINS 110-184 courses).

Other Restricted Credits. For other University restrictions, see the following: Cooperative Education; Credit by Examination; Satisfactory/Unsatisfactory Registration; Transfer of Credits. College or departmental restrictions may also be placed on Independent Study (399-499 courses), Directed Study (395-495), and other types of credits.

APPLICABILITY OF CREDITS TOWARD GRADUATION		Credit Restrictions
Satisfactory/Unsatisfactory		
Total degree credit		maximum 12
Major, Standard		maximum 1 course
Major, Comprehensive		maximum 2 courses
Minor		maximum 1 course
Credit by Examination		
Total degree credit		maximum ¼ of total
Major or minor		maximum ½ of total
Two-Year College Credits		
Total degree credit		maximum 72 credits
Activity credit (band, chorus, drama, KINS 100-184)		
Total KINS 100-184		maximum 1 credit
Total Band, chorus, drama		maximum 12 credits
Single course band, chorus, drama		maximum 4 credits
Extension credits		
UW-System		no maximum
Other extension/correspondence		maximum ¼ of total
USAFI		
USAFI		maximum 32 credits

Core General Education Requirements (CGER)

² University Writing Requirement:

Students satisfy the University Writing Requirement in one of four ways:

- completing a Blugold Seminar in Critical Reading and Writing course (WRIT 102 (<https://catalog.uwec.edu/search/?P=WRIT%20102>), WRIT 114 (<https://catalog.uwec.edu/search/?P=WRIT%20114>), WRIT 116 (<https://catalog.uwec.edu/search/?P=WRIT%20116>), WRIT 118 (<https://catalog.uwec.edu/search/?P=WRIT%20118>), or WRIT 120 (<https://catalog.uwec.edu/search/?P=WRIT%20120>)) with a grade of C (not C-) or above
- achieving a suitable score on the English Placement Test (<https://www.uwec.edu/academics/blugold-seminar/writ-courses-placement/>) (WPT ENGL)
- achieving a suitable score on an exam such as the Advanced Placement English Literature and Composition or Advanced Placement English Language and Composition exams
- achieving a suitable score on the University Writing Program Portfolio.

³ Completion via Placement Tests

- Writing: If the CL-W subcategory is satisfied through a placement test, the CGER Communication and Literacy requirement will be reduced from 8 credits (2 courses) to 3 credits (1 course).
- Mathematics: If the University Math Requirement is satisfied through a placement test, the CGER Mathematics & Quantitative Reasoning requirement will be considered fully met, replacing the 4-credit (1 course) requirement.

- Students must still complete 36 credits across 10 courses, with any remaining credits or courses eligible to be taken from any CGER category.

College Degree Requirements

Bachelor of Arts or Bachelor of Science Degree (B.A./B.S.)

University Graduation Requirements. All candidates for degrees must fulfill the requirements for credits, curriculum, GPA, and University residency as specified in the section of this catalog titled University Graduation Requirements.

College Graduation Requirements: Grade Point Averages. All candidates for degrees in the College of Arts and Sciences must earn minimum resident and total GPAs of 2.00 in the major, the minor, and the certificate. The resident and total GPAs for the major are computed using all attempted credits applicable to the major including those offered by departments other than the major department. The resident and total GPAs for the minor and the certificate are computed similarly.

Major-Minor and Major-Certificate Requirements. A standard major (a minimum of 36 credits) must be supplemented by a minor (a minimum of 24 credits) or by a certificate (12 to 18 credits) to meet graduation requirements for completing a first and second degree program. No minor or certificate is required with a Comprehensive Major (60 or more credits) or with two majors of 36 or more credits each.

Certain degree programs, which include Comprehensive Majors, may require more than the minimum of 120 credits for graduation.

Acceptable academic program combinations are determined at the college level. A major and a minor or a major and certificate or two majors (if available) may not be elected in the same department or program, except in the approved combinations listed here.

College Credits. Earn at least 90 credits in courses offered by the College of Arts and Sciences.

Bachelor of Arts Degree in the College of Arts and Sciences (B.A.)

Fulfillment of all University Graduation Requirements (which includes the Core General Education Requirements); all College-level degree requirements (major and minor/certificate emphases, GPAs, earning at least 90 credits in Arts and Sciences course work); second language competency at the 102 level. Second language competency may be met in one of two ways: (1) Demonstrate a level of second language competency that qualifies the student to enter the 201-level course in a second language. (2) Earn a grade of at least C (not C-) or a mark of S in a 102-level second language course (or AIS 112 or AIS 122 or SLHS 103).

Bachelor of Science Degree in the College of Arts and Sciences (B.S.)

Fulfillment of all University Graduation Requirements (which includes the Core General Education Requirements); all College-level degree requirements (major and minor/certificate emphases, GPAs, earning at least 90 credits in Arts and Sciences course work); mathematics competency at the MATH 111, MATH 112 or MATH 113 level. Mathematics competency can be met in one of three ways: (1) Achieve a score on the mathematics placement test that qualifies the student to enter MATH 114. (2) Earn a grade of at least C (not C-) or a mark of S in MATH 111, MATH 112, or MATH 113. (3) Achieve a satisfactory score on the MATH 112 competency test. This test may be attempted no more than two times.

Major Requirements

Liberal Arts (Code 230-207)

The Astrophysics Emphasis provides preparation for astrophysics or astronomy graduate school, as well as a broad range of careers in technical fields in business/industry settings following completion of the baccalaureate degree.

Code	Title	Credits
Core Requirements		
The Astrophysics Emphasis requires 36 credits of physics coursework including:		
PHYS 186	Introductory Seminar	0.5
PHYS 226	Astronomy-Solar System	4
or PHYS 229	Astronomy-Stars and Galaxies	
PHYS 231	University Physics I	5
PHYS 232	University Physics II	5
PHYS 332	University Physics III	4
PHYS 340	Optics	4
PHYS 365	Theoretical Mechanics	4
PHYS 367	Astrophysics	3
PHYS 430	Advanced Laboratory Techniques	2
Select one of the following:		4 credits
PHYS 445	Thermal Physics	
or PHYS 375	Electromagnetic Fields	
or PHYS 415	Quantum Mechanics	
PHYS 486	Senior Seminar	0.5
Required courses not counted toward credits in major:		
MATH 312	Differential Equations and Linear Algebra	
PHYS 240	Computational Physics ¹	
or CS 163	Introduction to Programming in C++	
or CS 170	Computing for the Sciences and Mathematics	
or DS 150	Computing in Python: Fundamentals and Procedural Programming	

¹ Many upper division physics courses require proficiency in Python, so PHYS 240 is preferred. If CS 163, CS 170 or DS 150 is taken, Python proficiency will be required prior to enrollment in relevant upper division physics courses. Contact the department to complete the required programming exercise.

NOTE: An approved research project must be completed prior to PHYS 486 (see PHYS 486 course description for details).

Program Learning Outcomes

Students completing this program will be expected to meet the following learning outcomes:

- Qualitatively describe natural phenomena and human-made devices in terms of the basic laws of physics in areas of classical mechanics, thermodynamics, electromagnetism, optics, electronic circuits, quantum physics, and special relativity.
- Convert a physical situation described in English into a mathematical model.

- Apply the mathematical tools commonly used in physics to obtain analytical and numerical solutions to problems modeling physical situations.
- Design experiments and demonstrate the ability to use measurement technology, computational tools, and statistical techniques to collect and analyze data.
- Communicate verbally, graphically, and in writing the results of theoretical analysis, numerical computations, and laboratory experiments in a clear and concise manner that incorporates the stylistic conventions used by physicists worldwide.
- Synthesize appropriate concepts and methods from different courses in the solutions of problems and apply physical and mathematical principles across disciplinary boundaries.
- Use physical principles to model astronomical objects and to explain observations of astronomical objects.

Physics, Astrophysics Emphasis, Major, B.S.

The following is a sample degree plan, based on the current catalog. It is based on the 120-credit graduation requirement and assumes no transferred credits, no requirements waived by placement tests, no courses taken in the summer or winter, no repeated courses, and no remedial courses that may be required. This sample degree plan is intended for first-year students entering UW-Eau Claire in the fall semester. Your own degree plan may differ depending on the course of study selected (second major, minor, etc.). UW-Eau Claire cannot guarantee all courses will be offered as shown, but will provide a range of courses that may enable prepared students to fulfill their requirements in a timely period. This sample degree plan is just a guide. Please consult your advisor, your degree audit, and the catalog to create your own degree plan. *Note:* In order to earn the required minimum of 120 credits for the degree in four years, you should plan to take 15 credits each semester or 30 credits each year.

To earn a degree, students must fulfill all University Graduation Requirements, including the Core General Education Requirements (CGER). CGER course work in the following sample degree plan uses abbreviations such as CGER CL, CGER HA, and CGER NSWL to represent the learning outcomes students will meet via completion of the course. Please click [here](#) for a description of the outcomes and requirements.

Students in this major have the option to pursue either a Bachelor of Arts (B.A.) or a Bachelor of Science (B.S.) degree. The degrees are distinguished by second language competency for the B.A. and a higher level of mathematics competency for the B.S.

TOTAL		29.5

Minimum total for the baccalaureate degree = 120 credits

^a Offered only in fall semesters.

^b Offered only in spring semesters.

^c Fall odd years only

^d Electives need to be carefully selected to ensure that a student's degree comprises at least 39 credits of upper division courses (300-400 level).

^e PHYS 375 is offered spring even years only

RECOMMENDATIONS FOR HIGH IMPACT PRACTICES (HIPs)

The University of Wisconsin-Eau Claire encourages all students to participate in High Impact Practices. The following information identifies any specific recommendations that faculty in this major have concerning which HIPs might be most beneficial to students, and any recommendations about when those HIPs best fit into the degree plan. Students should also consult their faculty advisor for information on HIPs. There are many additional high impact opportunities available. Talk to your academic advisor for more information about incorporating HIPs like Study Abroad (<https://studyabroad.apps.uwec.edu/>), Intercultural Immersion (<https://www.uwec.edu/immersion/>), Internship (<https://www.uwec.edu/offices-services/advising-retention-career-center/career-services/internship/job-searching-and/>), and/or Student/Faculty Collaborative Research (<https://www.uwec.edu/offices-services/office-research-and-sponsored-programs/getting-involved-student-faculty-research/>) into your time at UW-Eau Claire.

Core General Education Requirements (CGER)

Core General Education Requirements (CGER)

The Core General Education Requirements (CGER) includes a minimum of 10 courses across 6 categories. Students must complete a minimum of 36 credits in courses approved for the CGER Core.

- Mathematics & Quantitative Reasoning (MQR) - 4 credits, one course minimum
 - Includes the University Mathematics Requirement¹
- Communication & Literacy (CL) - 8 credits, two courses minimum
 - Includes the University Writing Requirement (CL-W)²
- Natural Sciences & Wellness (NSW/NSWL) - 6 credits, one course minimum (NSW-Lab required)
- Social & Behavioral Sciences (SBS) - 6 credits, two courses minimum
- Humanities & Arts (HA) - 6 credits, two courses minimum
- Civics & Perspectives (CP) - 6 credits, two courses minimum

¹ University Mathematics Requirement:

Students satisfy the University Mathematics Requirement in one of four ways:

- completing an approved university-level mathematics course (MQR) with a grade of C (not C-) or above
- achieving a suitable score on the UW Math Placement Test (<https://www.uwec.edu/academics/academic-support/advising/testing/placement-testing/>)
- achieving a suitable score on an exam such as the Advanced Placement Calculus or Advanced Placement Statistics exams
- achieving a suitable score on a Credit by Examination administered by the Department of Mathematics.

² University Writing Requirement:

Students satisfy the University Writing Requirement in one of four ways:

- completing a Blugold Seminar in Critical Reading and Writing course (WRIT 102 (<https://catalog.uwec.edu/search/?P=WRIT%20102>), WRIT 114 (<https://catalog.uwec.edu/search/?P=WRIT%20114>), WRIT 116 (<https://catalog.uwec.edu/search/?P=WRIT%20116>), WRIT 118 (<https://catalog.uwec.edu/search/?P=WRIT%20118>), or WRIT 120 (<https://catalog.uwec.edu/search/?P=WRIT%20120>)) with a grade of C (not C-) or above
- achieving a suitable score on the English Placement Test (<https://www.uwec.edu/academics/blugold-seminar/writ-courses-placement/>) (WPT ENGL)

- achieving a suitable score on an exam such as the Advanced Placement English Literature and Composition or Advanced Placement English Language and Composition exams
- achieving a suitable score on the University Writing Program Portfolio.

Completion via Placement Test

- Writing: If the CL-W subcategory is satisfied through a placement test, the CGER Communication and Literacy requirement will be reduced from 8 credits (2 courses) to 3 credits (1 course).
- Mathematics: If the University Math Requirement is satisfied through a placement test, the CGER Mathematics & Quantitative Reasoning requirement will be considered fully met, replacing the 4-credit (1 course) requirement.
- Students must still complete 36 credits across 10 courses, with any remaining credits or courses eligible to be taken from any CGER category.

Physics, Dual Degree Engineering Emphasis, Major

Liberal Arts (Code 230-206)

University Requirements

GRADUATION REQUIREMENTS FOR BACCALAUREATE DEGREE

Credit Requirements	
Minimum total for graduation ¹	120
Upper division credits (courses numbered 300 and higher)	39
Core General Education	10 courses, 36 credits
Academic Concentrations	
Grade Point Requirements ²	
Total	2.00 average
Resident	2.00 average
Major	2.00 average
Minor	2.00 average
Certificate	2.00 average
University Residency Requirements	
Minimum total	30
Senior year	23
Major, Standard, upper division in residence	12
Major, Comprehensive, upper division in residence	21
Certificate	25 percent of credits

Procedures Required for Graduation

Obtain admission to the degree program and/or the College offering it.

Apply for graduation on CampS.

¹ Certain programs exceed this minimum.

² See special requirements in each College.

Applicability of Credits Toward Graduation

Junior College or Two-Year College Credits. A maximum of 72 semester credits earned in a junior college or two-year college will be accepted as degree credits at UW-Eau Claire.

Extension Credits. Credits earned in credit outreach courses offered by UW-Eau Claire are treated as resident credits. Credits earned in extension courses offered by other units of the Universities of Wisconsin System are treated as transfer credits. All other (non-UW) extension and correspondence credits are normally limited to one-fourth of the total required for graduation from any curriculum.

WTCS Credits. A maximum of 72 semester credits earned in college parallel programs at Madison Area Technical College, Milwaukee Area Technical College, Nicolet Area Technical College, or Chippewa Valley Technical College may be accepted as degree credits at UW-Eau Claire. A set number of general education courses will be accepted from other technical schools. Occupational and technical courses may also be considered for transfer if the quality and content of the course work from the technical college is judged to be comparable to course work at UW-Eau Claire. Refer to the Transfer Credit Wizard (https://www.uwec.sis.wisconsin.edu/psp/eauprd-tb/EMPLOYEE/SA/c/EAU_SS_CUSTOM.EAU_TRNCRDWZ.GBL) or contact the UW-Eau Claire Admissions Office for information about the current transfer policy.

USAFI Credit. UW-Eau Claire will accept up to 32 semester credits for work done through the United States Armed Forces Institute, under the provision for non-UW correspondence credit (see Extension Credits above).

Activity Credit (band, chorus, drama, KINS 100-184 courses) Students may count toward graduation no more than one credit of KINS 110-184 courses. Students may count toward graduation no more than four credits earned in any single activity course and no more than 12 credits resulting from any combination of activity courses (excluding KINS 110-184 courses).

Other Restricted Credits. For other University restrictions, see the following: Cooperative Education; Credit by Examination; Satisfactory/Unsatisfactory Registration; Transfer of Credits. College or departmental restrictions may also be placed on Independent Study (399-499 courses), Directed Study (395-495), and other types of credits.

APPLICABILITY OF CREDITS TOWARD GRADUATION

	Credit Restrictions
Satisfactory/Unsatisfactory	
Total degree credit	maximum 12
Major, Standard	maximum 1 course
Major, Comprehensive	maximum 2 courses
Minor	maximum 1 course
Credit by Examination	
Total degree credit	maximum ¼ of total
Major or minor	maximum ½ of total
Two-Year College Credits	
Total degree credit	maximum 72 credits
Activity credit (band, chorus, drama, KINS 100-184)	
Total KINS 100-184	maximum 1 credit

Total Band, chorus, drama	maximum 12 credits
Single course band, chorus, drama	maximum 4 credits
Extension credits	
UW-System	no maximum
Other extension/correspondence	maximum ¼ of total
USAFI	
USAFI	maximum 32 credits

Core General Education Requirements (CGER)

CGER Categories

Mathematics & Quantitative Reasoning (MQR) (http://catalog.uwec.edu/undergraduate/outcome-mqr/)	4 credit hours, 1 course min
Includes University Math Requirement ¹	
Communication & Literacy (CL) (http://catalog.uwec.edu/undergraduate/outcome-cl/)	8 credit hours, 2 course min (including CL-W)
Includes University Writing Requirement (CL-W) (http://catalog.uwec.edu/undergraduate/outcome-clw/) ²	
Natural Sciences & Wellness (NSW/NSWL) (http://catalog.uwec.edu/undergraduate/outcome-NSW/)	6 credit hours, 1 course min (NSW-Lab required)
Social & Behavioral Sciences (SBS) (https://catalog.uwec.edu/undergraduate/outcome-sbs/)	6 credit hours, 2 course min
Humanities & Arts (HA) (http://catalog.uwec.edu/undergraduate/outcome-ha/)	6 credit hours, 2 course min
Civics & Perspectives (CP) (http://catalog.uwec.edu/undergraduate/outcome-cp/)	6 credit hours, 2 course min
CGER Totals ³	
Credits	minimum 36 credits
Courses	minimum 10 courses

¹ University Mathematics Requirement:

Students satisfy the University Mathematics Requirement in one of four ways:

- completing an approved university-level mathematics course (MQR) with a grade of C (not C-) or above
- achieving a suitable score on the UW Math Placement Test (<https://www.uwec.edu/academics/academic-support/advising/testing/placement-testing/>)
- achieving a suitable score on an exam such as the Advanced Placement Calculus or Advanced Placement Statistics exams

catalog.uwec.edu/search/?P=WRIT%20118), or WRIT 120 (https://catalog.uwec.edu/search/?P=WRIT%20120)) with a grade of C (not C-) or above

- achieving a suitable score on the English Placement Test (https://www.uwec.edu/academics/blugold-seminar/writ-courses-placement/) (WPT ENGL)
- achieving a suitable score on an exam such as the Advanced Placement English Literature and Composition or Advanced Placement English Language and Composition exams
- achieving a suitable score on the University Writing Program Portfolio.

³ **Completion via Placement Tests**

- Writing: If the CL-W subcategory is satisfied through a placement test, the CGER Communication and Literacy requirement will be reduced from 8 credits (2 courses) to 3 credits (1 course).
- Mathematics: If the University Math Requirement is satisfied through a placement test, the CGER Mathematics & Quantitative Reasoning requirement will be considered fully met, replacing the 4-credit (1 course) requirement.
- Students must still complete 36 credits across 10 courses, with any remaining credits or courses eligible to be taken from any CGER category.

College Degree Requirements

Bachelor of Arts or Bachelor of Science Degree (B.A./B.S.)

University Graduation Requirements. All candidates for degrees must fulfill the requirements for credits, curriculum, GPA, and University residency as specified in the section of this catalog titled University Graduation Requirements.

College Graduation Requirements: Grade Point Averages. All candidates for degrees in the College of Arts and Sciences must earn minimum resident and total GPAs of 2.00 in the major, the minor, and the certificate. The resident and total GPAs for the major are computed using all attempted credits applicable to the major including those offered by departments other than the major department. The resident and total GPAs for the minor and the certificate are computed similarly.

Major-Minor and Major-Certificate Requirements. A standard major (a minimum of 36 credits) must be supplemented by a minor (a minimum of 24 credits) or by a certificate (12 to 18 credits) to meet graduation requirements for completing a first and second degree program. No minor or certificate is required with a Comprehensive Major (60 or more credits) or with two majors of 36 or more credits each.

Certain degree programs, which include Comprehensive Majors, may require more than the minimum of 120 credits for graduation.

Acceptable academic program combinations are determined at the college level. A major and a minor or a major and certificate or two majors (if available) may not be elected in the same department or program, except in the approved combinations listed here.

College Credits. Earn at least 90 credits in courses offered by the College of Arts and Sciences.

Bachelor of Arts Degree in the College of Arts and Sciences (B.A.)

Fulfillment of all University Graduation Requirements (which includes the Core General Education Requirements); all College-level degree requirements (major and minor/certificate emphases, GPAs, earning at least 90 credits in Arts and

Sciences course work); second language competency at the 102 level. Second language competency may be met in one of two ways: (1) Demonstrate a level of second language competency that qualifies the student to enter the 201-level course in a second language. (2) Earn a grade of at least C (not C-) or a mark of S in a 102-level second language course (or AIS 112 or AIS 122 or SLHS 103).

Bachelor of Science Degree in the College of Arts and Sciences (B.S.)

Fulfillment of all University Graduation Requirements (which includes the Core General Education Requirements); all College-level degree requirements (major and minor/certificate emphases, GPAs, earning at least 90 credits in Arts and Sciences course work); mathematics competency at the MATH 111, MATH 112 or MATH 113 level. Mathematics competency can be met in one of three ways:

- (1) Achieve a score on the mathematics placement test that qualifies the student to enter MATH 114.
- (2) Earn a grade of at least C (not C-) or a mark of S in MATH 111, MATH 112, or MATH 113.
- (3) Achieve a satisfactory score on the MATH 112 competency test. This test may be attempted no more than two times.

Major Requirements

Liberal Arts (Code 230-206)

This emphasis combines the benefits of a traditional physics degree with those of a formal engineering education. In this program students receive a UW-Eau Claire physics degree in conjunction with a bachelor's degree in engineering from UW-Madison, UW-Milwaukee, UW-Stout, or the University of Minnesota-Twin Cities.

Code	Title	Credits
The Dual Degree Engineering Emphasis requires 36 credits of physics coursework including:		
MSE 120	Introduction to Engineering	2
PHYS 231	University Physics I	5
PHYS 232	University Physics II	5
PHYS 332	University Physics III	4
PHYS 340	Optics	4
PHYS 350	Electric and Electronic Circuits	4
Select one of the following:		
PHYS 365	Theoretical Mechanics	
OR		
PHYS 255 & PHYS 356	Statics and Dynamics (option depends on engineering program)	
The remaining Physics credits are to be selected from any physics course above 325 (including PHYS 374/MSE 374) and MSE 315, MSE 357, MSE 372, and MSE 451.		
Required courses not counted toward credits in major:		
MATH 312	Differential Equations and Linear Algebra	
Select one of the following:		
PHYS 240	Computational Physics ¹	
or CS 163	Introduction to Programming in C++	
or CS 170	Computing for the Sciences and Mathematics	
or advisor-approved course appropriate for the engineering program		
Complete an engineering degree ²		

¹ Many upper division physics courses require proficiency in Python so PHYS 240 is preferred. If CS 163 or CS 170 is taken, Python proficiency will be required prior to enrollment in relevant upper division physics courses. Contact the department to complete the required programming exercise.

² To receive the UW-Eau Claire Dual Degree Engineering Emphasis physics degree, the student must complete an engineering degree from one of the above schools. Students will typically complete most of the UW-Eau Claire Liberal Education Core and Dual Degree physics requirements while at UW-Eau Claire before transferring to the engineering school. Students must complete 84 semester credits before transferring to the engineering school, 56 of which must be taken in residency at UW-Eau Claire, with a minimum of 12 upper-division credits of physics and a minimum of six credits of mathematics taken at UW-Eau Claire.

NOTE 1: The UW-Eau Claire physics degree will not be awarded until an official copy of the student's engineering degree has been sent to UW-Eau Claire's Registrar's Office. If the engineering degree is not completed, then students must satisfy all of the requirements for another degree program at UW-Eau Claire.

NOTE 2: A maximum of six credits of any combination of PHYS 399, PHYS 491, and PHYS 499 can be counted toward the major.

NOTE 3: Limit of 3 credits of PHYS 495 counted toward major.

Program Learning Outcomes

Students completing this program will be expected to meet the following learning outcomes:

- Qualitatively describe natural phenomena and man-made devices in terms of the basic laws of physics in areas of classical mechanics, thermodynamics, electromagnetism, optics, electronic circuits, quantum physics, and special relativity.
- Convert a physical situation described in English into a mathematical model.
- Apply the mathematical tools commonly used in physics to obtain analytical and numerical solutions to problems modeling physical situations.
- Design experiments and demonstrate the ability to use measurement technology, computational tools, and statistical techniques to collect and analyze data.
- Communicate verbally, graphically, and in writing the results of theoretical analysis, numerical computations, and laboratory experiments in a clear and concise manner that incorporates the stylistic conventions used by physicists worldwide.
- Synthesize appropriate concepts and methods from different courses in the solutions of problems and apply physical and mathematical principles across disciplinary boundaries.
- Model mechanical systems and solve problems using differential quantities.
- Demonstrate basic engineering abilities by completing an ABET accredited bachelor's degree in an engineering discipline.

Physics, Dual Degree Engineering Emphasis, Major, B.S.

The following is a sample degree plan, based on the current catalog. It is based on the 120-credit graduation requirement and assumes no transferred credits, no requirements waived by placement tests, no courses taken in the summer or winter, no repeated courses, and no remedial courses that may be required. This sample degree plan is intended for first-year students entering UW-Eau Claire in the fall semester. Your own degree plan may differ depending

on the course of study selected (second major, minor, etc.). UW-Eau Claire cannot guarantee all courses will be offered as shown, but will provide a range of courses that may enable prepared students to fulfill their requirements in a timely period. This sample degree plan is just a guide. Please consult your advisor, your degree audit, and the catalog to create your own degree plan. *Note:* In order to earn the required minimum of 120 credits for the degree in four years, you should plan to take 15 credits each semester or 30 credits each year.

To earn a degree, students must fulfill all University Graduation Requirements, including the Core General Education Requirements (CGER). CGER course work in the following sample degree plan uses abbreviations such as CGER CL, CGER HA, and CGER NSWL to represent the learning outcomes students will meet via completion of the course. Please click [here](#) for a description of the outcomes and requirements.

Students in this major have the option to pursue either a Bachelor of Arts (B.A.) or a Bachelor of Science (B.S.) degree. The degrees are distinguished by second language competency for the B.A. and a higher level of mathematics competency for the B.S.

FIRST YEAR

FIRST SEMESTER		
MATH 114	Calculus I (CGER MQR)	4
MSE 120	Introduction to Engineering	2
PHYS 231	University Physics I (CGER NSWL)	5
WRIT 114	Intensive Blugold Seminar in Critical Reading and Writing (CGER CL)	5
or WRIT 116	Blugold Seminar in Critical Reading and Writing	

SECOND SEMESTER

CHEM 108	General Chemistry I (CGER NSWL)	4
MATH 215	Calculus II	4
PHYS 232	University Physics II	5
CGER Option: Humanities & Arts (HA)		3

PHYS 356	Dynamics ^b	3
CGER Option: Social & Behavioral Sciences (SBS)		3
or CGER Option: Civics & Perspectives (CP)		

Elective ^c 3

TOTAL 34

THIRD YEAR

FIRST SEMESTER		
PHYS 350	Electric and Electronic Circuits ^a	4
Math minor elective		4

CGER Option: Humanities & Arts (HA)	3
CGER Option: Civics & Perspectives (CP)	3
Elective ^c	3
SECOND SEMESTER	
Physics Elective - See elective list ^d	4
Physics Elective - See elective list ^d	4
Math minor elective	4
CGER Option: Social & Behavioral Sciences (SBS)	3
or CGER Option: Humanities & Arts (HA)	
CGER Option: Social & Behavioral Sciences (SBS)	3
TOTAL	35

Minimum total for the baccalaureate degree = 120 credits

- a Offered only in fall semesters.
- b Offered only in spring semesters.
- c Electives need to be carefully selected to ensure that a student's degree comprises at least 39 credits of upper division courses (300-400 level).
- d Select from the following: any physics course numbered 325 or higher, including PHYS 374/MSE 374 and MSE 315, MSE 357, MSE 372, and MSE 451.

Notes

- The Dual Degree Emphasis is for students who wish to obtain a physics degree at UWEC and an engineering degree at one of our partner institutions. This plan outlines a path to complete the UWEC portion of the dual degree in three years.
- Each minor has its own requirements beyond the number of credits, and it is the student's responsibility to investigate those and to be sure to have fulfilled those requirements. This plan assumes a minor in Mathematics.
- The additional credits needed to satisfy the 36 credit minimum for the UWEC Physics major can be satisfied by engineering courses that transfer as 300 level physics courses or above or by UWEC major courses and electives. 300 level or above engineering courses will be considered individually as 300 level physics electives by the UWEC Physics Department Chair.
- Students need to be aware of the degree requirements of the institution they plan to transfer to for the engineering degree. That institution will have their own degree requirements. Courses taken at UWEC can be used to meet those requirements but it requires careful planning. Students should consult with their academic and faculty advisors regarding their academic plan at least once every semester.

RECOMMENDATIONS FOR HIGH IMPACT PRACTICES (HIPs)

The University of Wisconsin-Eau Claire encourages all students to participate in High Impact Practices. The following information identifies any specific recommendations that faculty in this major have concerning which HIPs might be most beneficial to students, and any recommendations about when those HIPs best fit into the degree plan. Students should also consult their faculty advisor for information on HIPs. There are many additional high impact opportunities available. Talk to your academic advisor for more information about incorporating HIPs like Study Abroad (<https://studyabroad.apps.uwec.edu/>), Intercultural Immersion (<https://www.uwec.edu/immersion/>), Internship (<https://www.uwec.edu/offices-services/advising-retention-career-center/career-services/internship/job-searching-and>), and/or Student/Faculty Collaborative Research (<https://www.uwec.edu/offices-services/office-research-and-sponsored-programs/getting-involved-student-faculty-research>) into your time at UW-Eau Claire.

Core General Education Requirements (CGER)

Core General Education Requirements (CGER)

The Core General Education Requirements (CGER) includes a minimum of 10 courses across 6 categories. Students must complete a minimum of 36 credits in courses approved for the CGER Core.

- Mathematics & Quantitative Reasoning (MQR) - 4 credits, one course minimum
 - Includes the University Mathematics Requirement¹
- Communication & Literacy (CL) - 8 credits, two courses minimum
 - Includes the University Writing Requirement (CL-W)²
- Natural Sciences & Wellness (NSW/NSWL) - 6 credits, one course minimum (NSW-Lab required)
- Social & Behavioral Sciences (SBS) - 6 credits, two courses minimum
- Humanities & Arts (HA) - 6 credits, two courses minimum
- Civics & Perspectives (CP) - 6 credits, two courses minimum

¹ University Mathematics Requirement:

Students satisfy the University Mathematics Requirement in one of four ways:

- completing an approved university-level mathematics course (MQR) with a grade of C (not C-) or above
- achieving a suitable score on the UW Math Placement Test (<https://www.uwec.edu/academics/academic-support/advising/testing/placement-testing/>)
- achieving a suitable score on an exam such as the Advanced Placement Calculus or Advanced Placement Statistics exams
- achieving a suitable score on a Credit by Examination administered by the Department of Mathematics.

² University Writing Requirement:

Students satisfy the University Writing Requirement in one of four ways:

- completing a Blugold Seminar in Critical Reading and Writing course (WRIT 102 (<https://catalog.uwec.edu/search/?P=WRIT%20102>), WRIT 114 (<https://catalog.uwec.edu/search/?P=WRIT%20114>), WRIT 116 (<https://catalog.uwec.edu/search/?P=WRIT%20116>), WRIT 118 (<https://catalog.uwec.edu/search/?P=WRIT%20118>), or WRIT 120 (<https://catalog.uwec.edu/search/?P=WRIT%20120>)) with a grade of C (not C-) or above
- achieving a suitable score on the English Placement Test (<https://www.uwec.edu/academics/blugold-seminar/writ-courses-placement/>) (WPT ENGL)
- achieving a suitable score on an exam such as the Advanced Placement English Literature and Composition or Advanced Placement English Language and Composition exams
- achieving a suitable score on the University Writing Program Portfolio.

Completion via Placement Test

- Writing: If the CL-W subcategory is satisfied through a placement test, the CGER Communication and Literacy requirement will be reduced from 8 credits (2 courses) to 3 credits (1 course).
- Mathematics: If the University Math Requirement is satisfied through a placement test, the CGER Mathematics & Quantitative Reasoning requirement will be considered fully met, replacing the 4-credit (1 course) requirement.
- Students must still complete 36 credits across 10 courses, with any remaining credits or courses eligible to be taken from any CGER category.

Activity credit (band, chorus, drama, KINS 100-184)

Total KINS 100-184	maximum 1 credit
Total Band, chorus, drama	maximum 12 credits
Single course band, chorus, drama	maximum 4 credits

Extension credits

UW-System	no maximum
Other extension/correspondence	maximum ¼ of total

USAFI

USAFI	maximum 32 credits

Core General Education Requirements (CGER)

CGER Categories

Mathematics & Quantitative Reasoning (MQR) (http://catalog.uwec.edu/undergraduate/outcome-mqr/)	4 credit hours, 1 course min
Includes University Math Requirement ¹	

Communication & Literacy (CL) (http://catalog.uwec.edu/undergraduate/outcome-cl/)	8 credit hours, 2 course min (including CL-W)

Includes University Writing Requirement (CL-W) (<http://catalog.uwec.edu/undergraduate/outcome-clw/>)²

Natural Sciences & Wellness (NSW/NSWL) (http://catalog.uwec.edu/undergraduate/outcome-NSW/)	6 credit hours, 1 course min (NSW-Lab required)

Social & Behavioral Sciences (SBS) (https://catalog.uwec.edu/undergraduate/outcome-sbs/)	6 credit hours, 2 course min

Humanities & Arts (HA) (http://catalog.uwec.edu/undergraduate/outcome-ha/)	6 credit hours, 2 course min

Civics & Perspectives (CP) (http://catalog.uwec.edu/undergraduate/outcome-cp/)	6 credit hours, 2 course min

CGER Totals³

Credits	minimum 36 credits
Courses	minimum 10 courses

¹ University Mathematics Requirement:

Students satisfy the University Mathematics Requirement in one of four ways:

- completing an approved university-level mathematics course (MQR) with a grade of C (not C-) or above
- achieving a suitable score on the UW Math Placement Test (<https://www.uwec.edu/academics/academic-support/advising/testing/placement-testing/>)
- achieving a suitable score on an exam such as the Advanced Placement Calculus or Advanced Placement Statistics exams
- achieving a suitable score on a Credit by Examination administered by the Department of Mathematics.

² University Writing Requirement:

Students satisfy the University Writing Requirement in one of four ways:

- completing a Blugold Seminar in Critical Reading and Writing course (WRIT 102 (<https://catalog.uwec.edu/search/?P=WRIT%20102>), WRIT 114 (<https://catalog.uwec.edu/search/?P=WRIT%20114>), WRIT 116 (<https://catalog.uwec.edu/search/?P=WRIT%20116>), WRIT 118 (<https://catalog.uwec.edu/search/?P=WRIT%20118>), or WRIT 120 (<https://catalog.uwec.edu/search/?P=WRIT%20120>)) with a grade of C (not C-) or above
- achieving a suitable score on the English Placement Test (<https://www.uwec.edu/academics/blugold-seminar/writ-courses-placement/>) (WPT ENGL)
- achieving a suitable score on an exam such as the Advanced Placement English Literature and Composition or Advanced Placement English Language and Composition exams
- achieving a suitable score on the University Writing Program Portfolio.

³ Completion via Placement Tests

- Writing: If the CL-W subcategory is satisfied through a placement test, the CGER Communication and Literacy requirement will be reduced from 8 credits (2 courses) to 3 credits (1 course).
- Mathematics: If the University Math Requirement is satisfied through a placement test, the CGER Mathematics & Quantitative Reasoning requirement will be considered fully met, replacing the 4-credit (1 course) requirement.

- Students must still complete 36 credits across 10 courses, with any remaining credits or courses eligible to be taken from any CGER category.

College Degree Requirements

College of Health and Human Sciences Requirements for Teacher Education Programs

1. Grade point requirements:

Abbreviation	Full Title
Resident	2.75 average
Total	2.75 average
Major	2.75 average
Minor (for certification only)	2.75 average

2. Residency requirements:

Abbreviation	Full Title
Minimum Total	30 credits
Senior Year	23 credits
Major, in upper division courses	12 credits
Comprehensive Major, in upper division courses	21 credits

3. Criteria and requirements for Admission to Education Program and Admission to the Professional Education Semester.
4. Specific requirements for programs offered in the College of Health and Human Sciences as outlined in department specific sections of this catalog.

Admission to Education Program

Admission to the Education Program

Students must apply for admission to the Education Program. Applications are due by October 1 for spring admission or March 1 for fall admission. To submit an application to an Education Program, students must satisfy all of the requirements listed below:

1. Approval by the appropriate department in the College of Health and Human Sciences.
2. Pre-education status.
3. Students must have attained at least Sophomore Status
4. Minimum total GPA of 2.5 or minimum resident GPA of 2.5. Admission is competitive; thus, the minimum GPA does not assure admission.
5. Completed the Core General Education Requirement (CGER) for Communication & Literacy-Writing with a C or better.
6. Completed the Core General Education Requirement (CGER) for Mathematics & Quantitative Reasoning with a C or better.
7. Good academic standing.
8. Complete an introductory education course with a field placement (SEIP 208, ES 212, or the equivalent) with a grade of C or better.

Specific majors may have additional department-level criteria. Consult with the department if needed.

Admission to the Professional Education Semester (Student Teaching or Internship)

Admission to the Professional Education Semester

The “Professional Education Semester” is defined as the semester in which a student is enrolled in the field experience of student teaching or internship.

Filing Notice of Intent to Student Teach Applications: Information concerning the Notice of Intent to Student Teach will be advertised widely and posted across campus each semester with an associated due date. Students who plan to enter the Professional Education Semester during the fall semester of the next academic year must file a Notice of Intent to Student Teach with the Teacher Education Program office in the fall. Students who plan to enter the Professional Education Semester during the spring semester of the next academic year must file a Notice of Intent to Student Teach with the Teacher Education Program office in the spring.

Students are encouraged to submit their Notice of Intent to Student Teach by the announced due date. Considerable time is required to process each notice—that is, to determine eligibility, to make arrangements with schools for an appropriate field experience assignment, and to allow for introductions, orientations, and, in some cases, interviews. Students who file on time will benefit by the careful consideration that can be given to their requests; the later a notice is received, the fewer the placement assignments and choices still available will be. Failure to file a Notice of Intent to Student Teach on time may result in a delay of the Professional Education Semester.

Transfer and Special Students: No transfer or special student can enter the Professional Education Semester until after a full semester of residence and after earning a minimum of 15 credits at UW-Eau Claire. Senior transfer students enrolling in September must file an application for admission to the professional semester by December 1 for the following fall.

Criteria for Admission:

1. Admitted to the appropriate Education Program.
2. Good academic standing, as defined in the catalog.
3. A minimum of 90 earned credits prior to start of Professional Education Semester.
4. Minimum total GPA of 2.75 or minimum resident GPA of 2.75.
5. Completion of the 30-hour Human Relations Fieldwork requirement.
6. Evidence of freedom from Tuberculosis via test conducted by Student Health Services.
7. Completion of required criminal background check.

For placements that start in the Fall semester, criteria for admission must be met by March 1 of the prior semester. For placements that start in the Spring semester, criteria for admission must be met by October 1 of the prior semester.

For placements that start in the summer session, criteria for admission must be met by February 1 of the prior semester.

Licensure Requirements

Licensure to Teach

College of Health and Human Sciences graduates who desire to teach in Wisconsin, will apply for licensure using the WI Department of Public Instruction’s (DPI) ELO (Electronic Licensing Online) by following all steps listed on the site including fingerprinting if applicable.

Upon completion of all program requirements and WI DPI teaching requirements, information will be forwarded to DPI verifying program completion, the completion of all required tests, and information on all

certifications the teaching candidates are eligible for with licensure. Candidates will then apply for their Initial License.

It is recommended that graduates seeking licensure to teach in states other than Wisconsin request application forms and instructions from the state in which licensure is desired. Early inquiry is suggested as the certification requirements vary by state. In most cases, an official transcript of credits must accompany the completed application form; additional tests or coursework may be required. In general, candidates may be able to obtain licenses in other states; however, these licenses may be issued with stipulations. It is the student’s responsibility to understand the licensing requirements of other states. UW-Eau Claire programs are designed to meet the requirements in Wisconsin only.

Criteria for Recommendation for Licensure:

1. Completion of a baccalaureate degree.
2. Completion of an approved education major, minor, and/or certificate.
3. 2.75 or higher GPA in the major, minor, and/or certificate (if certifiable). All college level courses, except student teaching or internship are included when determining GPA for licensure.
4. Completion of student teaching or internship courses with an S.
5. Content area proficiency as demonstrated by earning a minimum 3.0 GPA in content courses OR via obtaining a passing score on the appropriate Praxis II. Candidates for licensure in Languages must obtain a passing score on the ACTFL written portion (WPT) and must pass the OPI/OPIC within three years prior to the start of student teaching or internship. All candidates seeking licensure must also earn a passing score on the FORT.

Major Requirements

Teaching (Code 241-001)

Secondary Education (Grades 4-12) students complete courses in the content area(s) they plan to teach; one or more methods courses specific to the content area; Professional Education coursework focused on instructional methods, assessment of student learning, and curriculum and lesson planning; and ten credits of Student Teaching or Student Teaching Internship.

A Secondary Education student must complete the following requirements to be recommended for licensure:

1. Earn a grade of C or higher in all content-area specific methods coursework and Professional Education coursework.
2. Earn a grade of S in student teaching or student teaching internship.
3. Earn a content area GPA of 3.0 or higher OR complete the appropriate Praxis II or ACTFL test with a passing grade.

Code	Title	Credits
SCIENCE TEACHING, PHYSICS, MAJOR REQUIREMENTS		67-71
Physics Core Requirements		33
PHYS 231	University Physics I (CGER NSWL)	5
PHYS 232	University Physics II	5
PHYS 315	The Mysterious Universe	3
PHYS 332	University Physics III	4
PHYS 340	Optics	4
PHYS 350	Electric and Electronic Circuits	4

BIOL 106	Exploring the Living World (CGER NSWL)	
BIOL 151	Biology of Humans (CGER NSWL)	
BIOL 196	Human Nutrition (CGER NSW)	
Option 2		
BIOL 221	Foundations of Biology I (CGER NSWL)	
BIOL 222	Foundations of Biology II	
BIOL 223	Foundations of Biological Inquiry	
PROFESSIONAL EDUCATION REQUIREMENTS		30
ES 212	Exploring Schooling K-12	2-3
ES 313	Curriculum, Instructional Methods, and Disciplinary Literacies in Grades K-12	3
ES 314	Collaboration, Engagement, and Assessment in Grades K-12	3
ES 441	Student Teaching in K-12 Education	10
or ES 440	Internship Teaching in K-12 Education	
ES 490	Historical, Legal, and Philosophical Foundations of Education	3
ES 497	Field Experience Seminar	2
PSYC 260	Educational Psychology (CGER SBS)	3
SEIP 300	Inclusive Practices for Secondary Educators	3

Program Learning Outcomes

Students completing this program will be expected to meet the following learning outcomes:

- Qualitatively describe natural phenomena and man-made devices in terms of the basic laws of physics in areas of classical mechanics, thermodynamics, electromagnetism, optics, electronic circuits, quantum physics, and special relativity.
- Convert a physical situation described in English into a mathematical model.
- Apply the mathematical tools commonly used in physics to obtain analytical and numerical solutions to problems modeling physical situations.
- Synthesize appropriate concepts and methods from different courses in the solutions of problems and apply physical and mathematical principles across disciplinary boundaries.
- Acquire sufficient content knowledge in physics, chemistry, biology, and Earth/space science by earning a minimum GPA in the major of 3.0 or by passing the appropriate Praxis II content exam.
- Communicate verbally, graphically, and in writing the concepts of physics to adolescent learners.
- Demonstrate an understanding of foundational biological principles in the areas of cell/molecular biology, genetics, evolution, ecology, diversity of life, and structure & function of organisms.
- Demonstrate an understanding of Earth/space science processes.
- Develop an understanding of chemical principles and be able to apply them to predict and rationalize chemical properties, including structure & bonding, reactivity & stability, and instrumentation theory.

Science Teaching, Physics Emphasis Comprehensive Major (B.S.)

The following is a sample degree plan, based on the current catalog. It is based on the 120-credit graduation requirement and assumes no transferred credits, no requirements waived by placement tests, no courses taken in the summer or winter, no repeated courses, and no remedial courses that may be required. This sample degree plan is intended for first-year students entering UW-Eau Claire in the fall semester. Your own degree plan may differ depending on the course of study selected (second major, minor, etc.). UW-Eau Claire cannot guarantee all courses will be offered as shown but will provide a range of courses that may enable prepared students to fulfill their requirements in a timely period. This sample degree plan is just a guide. Please consult your advisor, your degree audit, and the catalog to create your own degree plan. Note: In order to earn the required minimum of 120 credits for the degree in four years, you should plan to take 15 credits each semester or 30 credits each year.

To earn a degree, students must fulfill all University Graduation Requirements, including the Core General Education Requirements (CGER). CGER course work in the following sample degree plan uses abbreviations such as CGER CL, CGER HA, and CGER NSWL to represent the learning outcomes students will meet via completion of the course. Please click here for a description of the outcomes and requirements.
